BACKGROUND

On October 31, 2014, the Court certified the Plaintiff Class as:

"*All persons who are now, or will be in the future, charged with a crime in the State of Washington and:*

(a) who are ordered by a court to receive competency evaluation or restoration services through the Washington State Department of Social and Health Services ("DSHS");
(b) who are waiting in jail for those services; and
(c) for whom DSHS receives the court order."

On April 2, 2015, the Court ordered the Department of Social and Health Services (DSHS) to file monthly reports with the *Trueblood* Court Monitor on efforts to comply with Court orders to provide timely competency evaluation and restoration services to Class Members:

"Defendants shall file a report with the Monitor on the fifth day of every month, which shall include:
(1) the number of days between when a court ordered provision of competency services and when provision was completed, for each person ordered to receive competency services during the previous month;
(2) data regarding the number of evaluators, bed capacity, physicians, and other resources needed to provide timely competency services;
(3) the steps taken in the previous month to implement this order;
(4) when and what results are intended to be realized by each of these steps;
(5) the results realized in the previous month;
(6) the steps planned to be taken in the following month;
(7) certification by Defendants that they are fully compliant with all deadlines that became due in the previous month;
(8) Defendants' estimate for when the wait times will reach seven days or less, and all data relied on in making that estimate; and
(9) any other information the Monitor informs Defendants is necessary for the Monitor to fully review Defendants' actions and advise the Court."

The following report is submitted this 5th day of August, 2015. Through submission of this report to *Trueblood* Court Appointed Monitor, Dr. Danna Mauch, the Department of Social and Health Services certifies compliance with all deadlines due for the month of July 2015 in accordance with this court order.

Class Member Status Information

This report provides class member data for Competency Services displayed in two periods—June 1, 2015-June 30, 2015 and July 1, 2015-July 24, 2015. The June data is considered "complete" and the July data is a partial data set. Given its incomplete nature, July data is not used for comparison or analysis; however it will be refreshed and fully reported in the September 5, 2015 report. April 2015 is the baseline month for data analysis. Information for cases awaiting evaluation longer than 100 days is in Appendix B.

Analysis of Competency Evaluation Data: April 1, 2015 through June 30, 2015

Location	Date	Median Number of Days from Signature of Order to:			Percent Complete in 7 Days	Incomplete Evaluation--Wait Time	Number of Court Orders Signed

Statewide Totals	4/1/2015-4/30/2015	1.0	1.0	15.0	7.1	21.0	18	215
	5/1/2015-5/31/2015	0.0	1.0	14.0	12.2	31.0	9	217
	6/1/2015-6/30/2015	1.0	1.0	15.0	10.9	14.0	13	248

- The number of orders increased by 15% from May to June 2015
- Evaluations completed within seven days decreased from May to June but remained 3.8% higher than April's baseline.
- The median days between order signature and the end of the reporting period (the wait time) decreased by 54%. This decrease is likely the result of review and resolution of older cases that were showing in the baseline month of April. The cases remaining as incomplete are remaining incomplete for a much shorter period. This may also begin to be reflected in decreases in the median number of days between order signature and evaluation completion; though we will have to continue monitoring the data to see if the trend continues.

- The percentage of Competency Restoration Admissions completed within seven days remained about the same from May to June 2015—slightly increased over April 2015.
- The median days from signature of the Court Order to Admission for Restoration remained the same from May to June 2015.
- The median days from Court Order signing to the end of the reporting period (the wait time) decreased significantly from 24 in May 2015 to 13 in June 2015. The wait time remains significantly higher at ESH, but also saw a decrease by over 50% from May to June.

Status information for cases waiting for an admission for restoration treatment longer than 100 days is included in Appendix C of this report.

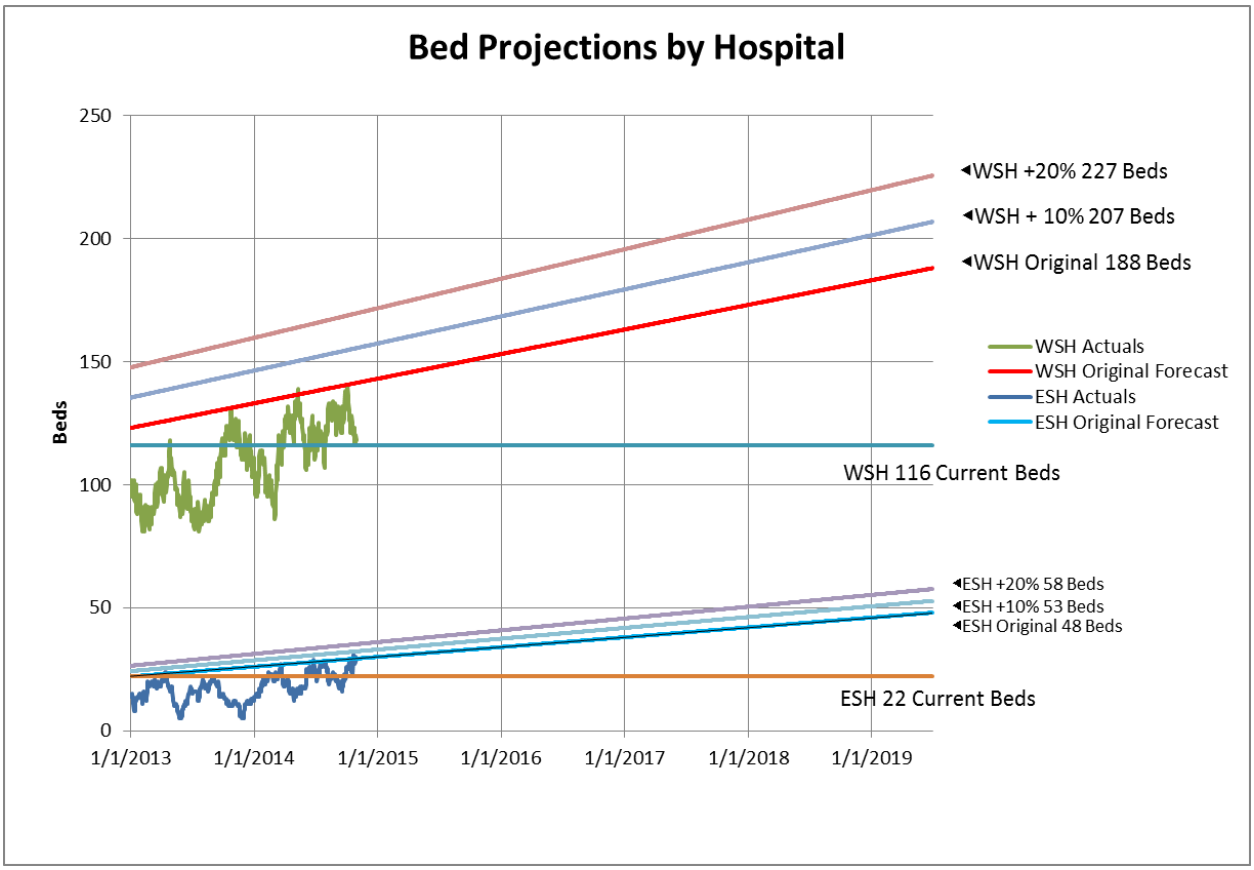
Resources Required to Provide Timely Competency Services

The investment made by the Legislature in the 15-17 biennial budget and the short and long-term strategies that are being undertaken will enable Washington to provide competency services within the time frames established by the Court. Washington is making every effort to provide competency services within the seven-day standard and intends to comply with this requirement by January 2, 2016 based on the estimates and data below.

The following information, which was also included in the July 2, 2015 monthly report, provides details regarding the resources needed to comply with the Trueblood order. This data also forms the basis for our estimate that we will comply with the seven day standard by January 2, 2016.

Fiscal and program staff from DSHS and the Washington State Office of Financial Management modeled additional bed capacity needed to meet a seven-day standard for admission with assumptions of increases in demand at ten percent and twenty percent annually. The following graph illustrates the model as applied to WSH and ESH.



For mentally ill defendants ordered to receive competency restoration treatment, additional inpatient forensic hospital bed capacity must be developed or made available. Based on projections in the chart above, it is estimated that compliance with a seven-day standard will require 90 beds during the 15-17 biennium. The 15-17 biennial budget funded those competency restoration beds.

The two-year operating budget for the period of July 1, 2015 to June 30, 2017 (hereafter referred to as the 15-17 biennial budget) was enacted by the Legislature on June 29, 2015 and signed by Governor Jay Inslee on June 30, 2015. It includes an investment of $40.5 million in new funding to improve competency services. Table One details the funding provided in the 15-17 biennial budget.

Table One: Forensic Mental Health System Funding in the 15-17 Biennial Budget

Budget Item	FTE's	Dollars (Millions)
Competency Evaluation Staff	18.0	$ 4.67
Competency Restoration Beds	129.2	$26.86
Non-Felony Diversion	0.0	$ 4.81
Office of Forensic Mental Health	11.0	$ 4.18
Total	**158.2**	**$40.52**

This significant investment in Washington's forensic mental health system includes, among other things:

- 13 additional forensic evaluators--**a 53 percent increase.**
  DSHS has commenced recruitment and hiring for these positions. The vacancies were advertised in May 2015. Interviews with qualified applicants began in June 2015. Eight job offers were accepted and recruitment efforts continue for five additional evaluators.
- 90 additional beds for competency restoration treatment--**a 65 percent increase.**
  DSHS opened up 10 of these beds at Western State Hospital in June 2015.
- $4.8 million dollars to finance community-based treatment for people who are diverted from prosecution when their competence to stand trial has been raised but diversion to treatment is more appropriate.
- 11 FTE's to establish the Office of Forensic Mental Health for increased accountability, quality, and efficiency.

Table Two shows the increases for forensic evaluator and competency restoration bed capacity and Table Three details the specific staff positions funded in the 15-17 biennial budget.

Preparation is underway to open 60 beds at WSH and ESH as follows:

WSH Ward S4	10 Beds	Became operational in June 2015
WSH Ward S4	5 Beds	Planned date of September 2015 pushed back due to archaeological finds on the grounds. Completion date is pending the outcome of archaeologist's survey.
WSH Ward E2	30 Beds	Planned operational by December 2015
ESH Ward 3S1	15 Beds	Planned operational by November 2015

An additional 30 beds are anticipated to be transitioned to the state hospitals from shorter-term contracted or alternate facility operations. Current estimates are that these beds would be opened as follows:

WSH Ward S4	15 Beds	No sooner than July 2016
ESH Ward 3S1	15 Beds	No sooner than July 2016

DSHS intends to maximize the use of state hospital beds to meet the seven-day competency services standard. However, given insufficient existing physical bed capacity and challenges of recruiting sufficient state hospital staff, a Request for Information (RFI) process was initiated in June 2015. The RFI was posted in June 2015, asking interested parties to submit information indicating how they could contribute to development of options for restoration treatment services outside of state hospitals. Up to 30 beds may be brought online using contracted resources. Contracted beds would be required to be brought online by early December 2015. Responses were received from four interested parties and vendor interviews are scheduled for August 5, 2015.

Trueblood Key Accomplishments--July 2015

Key Accomplishments in July 2015

- As previously reported the Washington State Legislature passed Senate Bill 5177[2] on May 28, 2015 and Governor Jay Inslee signed the bill into law on June 10, 2015. A table summarizing the key components contained within 5177 is included in Appendix A of this report**.** Succesful implementation of this legislation will require action and collaboration by partners from across the forensic mental health syste—including Superior and Municipal court judges, prosecuting and defense attorneys, court clerks, the Administrative Office of the Courts, jails, Tribes and many others. In order to begin the work, DSHS and the Governor's office convened a planning meeting to:
    - Provide additional information about Trueblood, the actions taken to date, the budget as related to forensic mental health, and key messages about collaboration that is required to not only implement SB 5177 but, perhaps more importantly, to make significant improvements to the forensic mental health system
    - Begin discussion in three key groups on how to move forward to implementation. The three groups included:
        - Documentation and Information;
        - Enhancing Access to Evaluation and Restoration Treatment Services; and
        - Diversion

- Extended offers and received acceptance for the hire of eight new Forensic Evaluators at Western State Hospital.

- Continued the Request for Information Process
  DSHS posted a Request for Information (RFI) to obtain information about potential contractual options that would allow Washington to provide an additional 30 competency restoration treatment beds, supplementing beds in the State Hospitals. The RFI requested information related to one of three models described below, but invited submission of information about other models that may be available. The RFI and amendments can be accessed at: https://www.dshs.wa.gov/fsa/procurements/competency-restoration-servicesDSHS received submittals from four interested entities and will conduct Vendor interviews on 8/5/2015.

[2] The new public law can be found at: (http://lawfilesext.leg.wa.gov/biennium/2015-16/Pdf/Bills/Session%20Laws/Senate/5177-S2.SL.pdf)

- DSHS met with the Rochester School Board to discuss the potential to use the Maple Lane campus to provide Competency Restoration treatment for up to 3o individuals. Key areas of concern for the school board were security on the campus and in the community.

- DSHS hosted a public meeting at Maple Lane to share information with the community about the potential to use the Maple Lane campus to provide Competency Restoration services. This meeting was part of the process to obtain a Special Use Permit that will be required should the decision be made to operate these services at Maple Lane. The community was overall quite interested in and supportive of the possibilities to serve individuals and employ community members. The next steps for consideration of Maple Lane will depend on the outcomes of the Labor discussions and the Special Use Permitting process. Both are outlined in further detail on the table below.

- Posted for hire the Director for the Office of Forensic Mental Health as well as several key positions required to improve the Forensic Mental Health system. These positions are further detailed on pages 59 and 60 above.

Appendix A: Second Engrossed Second Substitute Senate Bill 5177 Key Elements

5177 as passed House Judiciary	What problem is it intended to solve?	What is the proposed solution?	What is the intended outcome?
Sec. 1. Legislative findings.	• Lack of bed space at the state hospitals for competency restoration, resulting in longer in-jail wait times. • Lack of capacity for community competency restoration.	• Encourage DSHS to phase in alternative locations and increased access to comp restoration services. • Work with counties and courts to develop a screening process.	• Greater availability of competency restoration locations in the community. • Determination of who is safe for comp restoration outside of a state hospital.
Sec. 2. New section in RCW 10.77 – charging documents, discovery packet, and medical clearance.	DSHS has not been able to meet the statutory timelines consistently. The JLARC report noted the average time for evaluations in jails was 19 days for Western State Hospital and 33 days for Eastern. To enable the hospitals to meet the statutory timelines and the Trueblood time limit, necessary documents to complete an evaluation – the charging documents, discovery docs, and medical clearance – must be received as soon as possible.	Require that within 24 hours of signing a court order requesting the secretary to provide comp evaluation or restoration: • The court clerk shall provide the order and charging documents. If the order is for comp restoration and the comp evaluation was provided by an expert not designated by the Secretary, the clerk must also provide the state hospital with all previous court orders related to competency or criminal insanity and any evaluation reports; • The prosecutor shall provide the discovery packet. • If transportation is needed, the jail administrator shall provide medical clearance.	Enable DSHS to meet statutory targets and court-ordered time limits by providing prompt provision of records to evaluators.

Sec. 3. New section in RCW 10.77 – transportation of defendants from jails	Some jails transport defendants to the hospitals as little as twice per week. Hospitals will not meet the 7-day time limit without more frequent transportation.	Require city or county jails to transport a defendant to a state hospital or other secure facility within one day of receipt of an offer of admission for comp evaluation or restoration services. Require city and county jails to cooperate with evaluators and DSHS to arrange for evaluators to have reasonable, timely, and appropriate access to defendants.	Enable DSHS to meet the statutory and court-ordered time limits by transporting defendants to hospitals more frequently.
Sec. 4. RCW 10.77.084 – Comp restoration.	Unclear language.	Rewrite for increased clarity.	Facilitate implementation of 10.77 comp restoration process.
Sec. 5. RCW 10.77.086 – Commitment – Procedure in felony charge.	• Lack of bed space at the state hospitals for competency restoration, resulting in longer in-jail wait times. • Lack of capacity for community competency restoration. • Judges have commented that their hands are often tied with regard to sending those who are initially determined to be non-restorable to restoration treatment.	• Encourage DSHS to develop alternative locations for comp restoration services. • Allow restoration in a city or county jail during the 2015-17 biennium if emergent conditions exist. • Provide that comp restoration time periods does not include transport. • Give courts the discretion to dismiss charges without prejudice and send that person over for a felony conversion to civil commitment.	• Reserve limited hospital resources and beds for patients deemed most appropriate for inpatient restoration. • Ease pressure on hospitals by allowing more competency restoration in jails and the community. • Allow DSHS to comply with Trueblood order. • Free up hospital bed space by giving courts greater discretion, rather than unnecessarily using restoration beds.

Sec. 6. RCW 10.77.088 - Placement — Procedure in nonfelony charge.	Same as sec. 3, but for nonfelony cases.	Same as sec. 3, but for nonfelony cases.	Same as sec. 3, but for nonfelony cases.
Sec. 7. RCW 10.77.073 – County forensic evaluations. **Similar to SB 5403 & HB 1426 (2015)**	• DSHS has lacked the resources to meet statutory performance targets for in-jail comp evaluations, resulting in longer in-jail wait times. • The federal district court in Trueblood has ordered DSHS to reduce in-jail wait times to 7 days from the signing of the court order.	• Extend the expiration date of 5551 (2013) that provided for state reimbursement to counties for costs of appointing comp evaluators for in-custody defendants. • Expand the grounds under which a county may seek reimbursement. • In consultation with DSHS, require the counties to develop and maintain critical data elements and share this data with the DSHS upon the department's request.	• Ease burden on state hospitals by allowing more competency evaluations in jails and the community. • Save limited hospital resources and beds for the most acute patients. • Allow DSHS to comply with statutory and Trueblood time limits for in-jail comp evaluations.
Sec. 8. RCW 10.77.220 - Incarceration in correctional institution or facility prohibited; exceptions.	The current law limiting the correctional confinement of persons under the forensic laws to 7 days is too broad, and was not intended to apply to in-jail comp evaluations and restoration.	Amend the law to apply only to persons who are criminally insane.	Clarify statute, consistent with intent when enacted.

Sec. 9. New section in RCW 10.77 – Diversion alternative by prosecutors. **Similar to SSB 5925 (2015).**	According to the Groundswell report, some counties overuse the forensic system for misdemeanant defendants: "Often, this is symptomatic of a resource-strapped system using competence evaluations as a mechanism to secure treatment for indigent patients (which thereby creates other resource problems in the forensic system)."	• If the issue of competency to stand trial is raised by the court or a party, the prosecutor may dismiss the charges without prejudice and refer the defendant for MH, CD, or DD assessment as appropriate. • Exclude defendants who have a current charge or prior conviction for a violent or sex offense, or a violation of certain types of assault in the 3rd degree.	Reduce unnecessary competency referrals by allowing prosecutors to dismiss charges without prejudice in certain cases and refer individuals for appropriate services.
Sec. 10. New section in RCW 10.77 – Office of Forensic MH Services **Same as SB 5792 (2015).**	This was one of the priority recommendations of the Groundswell report: "Current forensic services are often disconnected and embedded in other systems, particularly the state hospitals. Further, there is little meaningful data to shed light on the forensic population or inform decisions."	Establish an Office of Forensic Mental Health within DSHS.	Promote quality assurance, transparency and accountability; improve data management capacity; oversee all forensic services; implement best practices in forensic treatment; and ensure a strategic, integrated approach to the forensic population.
Sec. 11. New section in RCW 10.77 – Rulemaking.	DSHS may not have authority to adopt rules to implement 5177.	Require the secretary to adopt rules as may be necessary to implement this act.	Ensure that DSHS has statutory authority to adopt rules as needed to implement 5177.

Sec. 12. New section – standardized court orders.	Need standardized court order forms to ensure uniformity across the counties, enable the hospitals to quickly process forensic and civil admissions, and address attachment of necessary documentation, defense counsel availability, and expedited judicial process for extensions for clinical good cause.	By 12/31/15, require the Administrative Office of the Courts (AOC) to work with stakeholders to develop and prepare standard forms for court orders for: (a) forensic evaluation and competency restoration services under chapter 10.77 RCW; and (b) involuntary civil commitment under chapter 71.05 RCW.	Develop standard court order templates for forensic and civil commitment.
Sec. 13. New section – court video testimony work group.	Remote locations and the limited number of forensic evaluators make will make it difficult to conduct evaluations with 7 days.	Establish a court video testimony work group to facilitate the use of video testimony by state competency evaluators under 10.77. The AOC is to convene and provide staffing. Complete work by 6/30/16.	Court video testimony may help to facilitate conducting timely evaluations and hearings.
Sec. 14. RCW 71.05.235 - Examination, evaluation of criminal defendant	Correct an obsolete cross-reference.	Technical fix.	Greater clarity.

(1) Emergency clause - sec. 7 takes effect immediately.	Sec. 7 (county forensic evaluations) needs to become effective ASAP to allow the counties to continue their work.	Add an emergency clause to allow section 7 to take effect immediately.	Allow counties to continue forensic evaluations. Additional funding will be provided in the budget.
(2) Emergency clause – other sections take effect on 7/1/15.	The other sections of the bill need to become effective earlier in order to implement the Trueblood time limits.	Add an emergency clause to allow sections 1 to 6 and 8 to 15 to take effect on 7/1/15.	Allow DSHS and others to implement the Trueblood court order in a timely manner.

The law that allows DSHS to place a criminally insane person in a DOC facility if the person presents an unreasonable safety risk expires on 6/30/15.	Provide that HB 1599 will take effect on 6/30/15.	Retain DSHS's authority under the current law.
