The Data Share Agreement ("DSA") #0962-62597, entered into by the Suquamish Tribe ("Tribe") and the State of Washington, Department of Social and Health Services ("DSHS"), is amended as provided for below:

Added definition. "Software Security Token" or "SST" means a type of two-factor authentication security software that is used to verify the identity of the user accessing database information, as defined in this contract. The SST represents software placed on the user's computer.

1. DSHS will grant data access to ACES and SEMS for designated staff through a Virtual Private Network (VPN) connection provided by the Department of Information Systems (DIS), which uses fobs or software security tokens (SST) as a secondary factor of authentication, in addition to user identification and password.
 - (A) The Tribe will elect whether the secondary factor of authentication will be either fobs or SSTs.
 - (B) If the tribe opts to use fobs:
 1. DSHS will provide a maximum of two (2) dual ACES-SEMS fobs to the Tribal Child Support program free of charge. Each of the two (2) fobs will provide access to both ACES & SEMS.
 2. Each of the fobs provided must be assigned to only one (1) individual, and access and use of the fobs shall not be shared between program employees or contracted staff.
 3. Fobs lost or damaged by the Tribe may be replaced by DSHS. DSHS may charge the Tribe \$75.00 to replace a lost or damaged fob.
 - (A) If the Tribe opts to use SST's:
 1. DSHS will provide a maximum of two (2) dual ACES-SEMS SST's to the Tribal Child Support program free of charge. Each of the two (2) SST's will provide access to both ACES & SEMS.
 2. Each of the SST's provided must be assigned to only one (1) individual, and access and use of the SST's shall not be shared between program employees or contracted staff.
2. To limit potential security breaches, if a fob or a SST is inactive for more than ninety (90) days, DSHS may deactivate it.

All other terms and conditions of this Program Agreement remain in full force and effect.
