Aging and Long-Term Support Administration

Prepare For Aging Washingtonians

Percent of long-term services and support clients served in home and community-based settings

SUMMARY

- This measure supports ALTSA Strategic Objective 1.1: Serve individuals in their homes or in community-based settings.

- Background: In 2017, Washington State’s long-term services and supports were ranked first in the nation by the AARP Long-Term Care Scorecard.

- Importance: Developing home and community-based services has meant Washingtonians have a choice regarding where they receive care, and has produced a more cost effective method of delivering services.

- Success Measure 1.1.1: Increase the percentage of LTSS clients served in home and community-based settings from 85.6% in July 2017 to 86.3% by June of 2021.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 1.1.

DATA SOURCE: EMIS reports using SSPS and ProviderOne; supplied by Rachel Mioni, Fiscal and Data Analyst, MSD.

MEASURE DEFINITION: Statewide percentage of ALTSA long-term care clients living in home and community settings, as defined by the average monthly caseload of clients living in home and community settings divided by the sum of the same and the average monthly caseload of clients living in nursing facilities.

DATA NOTES: 1 Nursing Home clients are counted using full-time bed occupation method: count of bed days divided by the number of days in a month instead of the old method of adjusting head count. 2 The count of clients living in nursing facilities includes State-only clients and clients in State Veteran’s Homes. [Click below for additional data notes.](https://www.dshs.wa.gov/data/metrics/AAH.1.xlsx)

SUMMARY

- This measure supports ALTSA Strategic Objective 1.2: Develop and expand approaches to serve adults who are older, Medicaid recipients and caregivers.
- Background: Both MAC and TSOA are innovative approaches under the Medicaid Transformation Demonstration (MTD), a five-year project with the federal centers for Medicare and Medicaid Services approved in January 2017 (actual implementation began September 2017). MTD provides the state of Washington with new investments to test innovative, sustainable and systematic low cost services that delay or divert use of traditional Medicaid long-term supports and services (LTSS).
- Importance: MAC and TSOA provide support to Medicaid eligible or low income adults who meet Nursing Facility Level of Care (NFLOC) to avoid, delay or lower use of traditional Medicaid Services.
- Success Measure 1.2.1: Implement MAC and TSOA and attain an enrollment target of 2,800 individuals by June of 2021.
- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 1.2.

DATA SOURCE: MTD Power BI; supplied by Amber Johnson, Planning and Labor Management Manager, ALTSA CGER.
MEASURE DEFINITION: Count of actively enrolled individuals reported in the last month of each quarter.
DATA NOTES: 1 Target is the cumulative count for enrollments. 2 Enrollment counts are for active clients in both MAC and TSOA with or without a paid service. 3 Counts are for the last month of each fiscal year quarter.

TO DATA: https://www.dshs.wa.gov/data/metrics/AAH.14.xlsx
SUMMARY

- This measure supports ALTSA Strategic Objective 2.1: Provide new long-term services and supports for individuals transitioning from state psychiatric hospitals.

- Background: Washington has an identified gap in community options for individuals with behavioral challenges and personal care needs, particularly those ready for discharge from the state psychiatric hospitals. In response, both state law enacted in 2016 and the Governor’s-directed Mental Health Transformation empower ALTSA and other pertinent state agencies to work collaboratively with shared responsibility.

- Importance: This effort ensures the development of specialized community options with an array of services to meet the needs of individuals with behavioral health challenges who are ready for discharge and have long-term care needs.

- Success Measure 2.1.1: Consistently achieve a quarterly average of 74 clients transitioning from state psychiatric hospitals into community settings by June 2019.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.1.

DATA SOURCE: ADSA Reporting-State Hospital Report; supplied by Angelique Buckner, AA3, ALTSA HCS.

MEASURE DEFINITION: The count of clients who are actively assisted by DSHS Home and Community Service Division to transition from state psychiatric hospitals to community settings. This effort falls under the Mental Health Initiative under the State Hospital Discharge and Diversion or SHDD program.

DATA NOTES: 1 Automated report for state hospital transition. 2 Quarterly report combines baseline and any new client transitions above baseline. 3 Each quarter reports number of new transitions in that quarter reported on the 10th of the month following the end of the quarter. 4 Annual data is an average of the quarterly data for the four quarters in that fiscal year.

TO DATA: https://www.dshs.wa.gov/data/metrics/AAH.13.xlsx
Aging and Long-Term Support Administration

Serve People In Their Home Community

Number of people assisted to transition to home and community-based settings from nursing homes

Statewide - Average per Quarter

- CY 2014: 882
- CY 2015: 968
- CY 2016: 947
- CY 2017: 974
- CY 2018: 981
- 2019 Jan-Mar: 922

SUMMARY

- This measure supports ALTSA Strategic Objective 2.2: Support people to transition from nursing homes to care in their homes or communities.

- Background: Federal match is maximized by utilizing the federal Money Follows the Person/Roads to Community Living (RCL) program to help people who choose to relocate. RCL participants report greater satisfaction with life after transition. Lack of affordable housing and complex medical or behavioral health needs can be barriers to relocation.

- Importance: The majority of individuals who require support choose to receive help in their home or a community-based setting.

- Success Measure 2.2.1: Consistently achieve a quarterly average of 950 nursing facility-to-community setting transitions by July 2019.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.2.

DATA SOURCE: RCL SharePoint site; supplied by Julie Cope, RCL Systems Change Specialist, ALTSA HCS.

MEASURE DEFINITION: The count of clients who are actively assisted to relocate by DSHS staff from Nursing Facilities to home and community-based services. Programs are Nursing Facility Case Management & Relocation (NFCM) and Roads to Community Living (RCL, also called Money Follows the Person).

DATA NOTES: 1 SharePoint data entry is performed manually and is subject to periodic revising. 2 Prior to Jan 2014 WA Roads was tracked as a separate program. Effective Jan 2014 WA Roads are included in the NFCM. 3 Annual data is an average of the quarterly data for the four quarters in that calendar year.

Aging and Long-Term Support Administration

Serve People In Their Home Community

Percent of financial eligibility determinations completed in 45 days

Percent processed timely (within 45 days) or late with good cause

DATA SOURCE: ACES data for medical application timeliness, SSRS report 01265; supplied by Aaron Cool, ITS 6, MSD.
MEASURE DEFINITION: A financial eligibility determination is conducted timely when it is completed within 45 days from the date of intake or longer than 45 days if good cause exists.
DATA NOTES: 1 "Good cause" includes cases where the burden of proving eligibility remains with the client, such as when client has requested extension to verify eligibility, property appraisals pending, and similar causes. "Good cause" also includes cases where the Department is waiting on a medical determination or functional eligibility approval. 2 Quarterly data is an average of the monthly data for the three months in that quarter. 3 Beginning October 2015, an improved methodology has been used to calculate "good cause" determinations back to July 2013. Click below for additional data notes.

TO DATA: https://www.dshs.wa.gov/data/metrics/AAH.7.xlsx

SUMMARY

- This measure supports ALTSA Strategic Objective 2.4: Process financial applications, complete new assessments and reassessments, and develop service plans for those who apply for services in a timely way so that individuals can be supported in the setting of their choice.

- Importance: Providing services in a timely manner avoids problems such as loss of mobility, poor nourishment, medication errors, and other problems that can produce poor health outcomes.

- Success Measure 2.4.1: Increase the percentage of timely financial eligibility determinations from 88% in June 2017 to 93% by July 2019, including good cause.

- Action Plan: The action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.4.

June 2019 Target = 98%

SUMMARY

- This measure supports ALTSA Strategic Objective 2.4: Process financial applications, complete new assessments and reassessments, and develop service plans for those who apply for services in a timely way so that individuals can be supported in the setting of their choice.

- Importance: Providing services in a timely manner avoids problems such as loss of mobility, poor nourishment, medication errors, and other problems that can produce poor health outcomes. Once approved for services, re-assessment occurs on an annual basis or when client needs change.

- Success Measure 2.4.3: Increase the percentage of timely functional re-assessments from 96.7 percent in June 2017 to 98 percent by June 2019. (A functional re-assessment is conducted timely when the case manager completes the annual re-assessment within one year of the last assessment.)

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.4.

DATA SOURCE: CARE data, CARE01128 report; supplied by Amber Johnson, Planning and Labor Management Manager, ALTSA CGER.

MEASURE DEFINITION: Percentage of timeliness of functional re-assessment (annual).

DATA NOTES: 1 Timeliness definition of functional re-assessment needs to be done within a year since last assessment. 2 Calendar Month definition is based on the date when assessments are moved to current assessment status, counting back to when cases were assigned. 3 Functional re-assessment calendar year definition is based on when the re-assessment is due. 4 Quarterly data is an average of the monthly data for the three months in that quarter. 5 Annual data is an average of the quarterly numbers in that calendar year.

June 2019 Target = 50

31

64

(As of March 2019)

SUMMARY

- This measure supports ALTSA Strategic Objective 2.5: Provide education and training to DSHS staff and providers to better serve residents and clients (Office of the Deaf and Hard of Hearing).

- Importance: Providing training and education to service providers and DSHS staff on various communication modalities ensures that access points to critical services are well-equipped for effective communication. This is paramount in meeting the needs of individuals who are Deaf, Deafblind, Deaf Plus, Hard of Hearing, Late Deafened, or who have speech disabilities to support equal access to the benefits afforded to the rest of the community.

- Success Measure 2.5.1: Increase the number of DSHS and service-providers where education and training in communication access modalities for people who are Deaf and Hard of Hearing is provided from four in fiscal year 2017 to 50 by June 2019.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.5.

DATA SOURCE: ODHH; supplied by Deborah O’Willow, Director, ALTSA ODHH.

MEASURE DEFINITION: Number of DSHS and service providers where education and training is provided in communication access modalities for the Deaf or Hard of Hearing.

DATA NOTES: https://www.dshs.wa.gov/data/metrics/DH1.8.xlsx

TO DATA: https://www.dshs.wa.gov/data/metrics/DH1.8.xlsx
SUMMARY

- This measure supports ALTSA Strategic Objective 2.6: Expand case management services (Office of Deaf and Hard of Hearing).

- Importance: Individuals who are Deaf, Deaf-Blind, Deaf Plus, Hard of Hearing, Late Deafened, or who have speech disabilities, especially adults who are older, the underemployed and those with multiple disabilities, face barriers to various service delivery systems. These barriers affect access to communication, education, health care, employment, legal, housing, transportation, insurance, public assistance and other benefits. Case managers are available to assist these individuals in obtaining needed services by coordinating services, translating documents, advocating on their behalf and/or teaching new abilities and skills.

- Success Measure 2.6.1: Increase the number of clients served by Regional Service Centers of the Deaf, Deaf-Blind, Deaf Plus, Hard of Hearing and Late Deafened from 600 in June 2018 to 690 by June 2019.

- Background: Services are provided by 8 non-profit Regional Service Centers offices throughout Washington State. Each Center has a Board of Directors which includes representation of Deaf, Hard of Hearing, and Deaf-Blind people.

- The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.6.

DATA SOURCE: ODHH; supplied by Deborah O’Willow, Director, ALTSA ODHH.
MEASURE DEFINITION: The total number of deaf, hard of hearing or deaf-blind persons or family members who received services through the Regional Service Centers for each Fiscal Year.
DATA NOTES: 1 To be included a client must receive at least one case management service of a minimum of 15 minutes. Services can include walk-in service, telephone calls, or information and referral, but they must meet the case management criteria stated in the contract. 3 For contractors to be reimbursed they must provide ODHH with a DSHS Privacy Practices and Client Information form, a Service Delivery Plan form, as well as a monthly case management report. 4 The fiscal year number of clients served is the cumulative count of clients in each quarter beginning in SFY 2018.

**June 2019 Target = 363**

---

**DATA SOURCE:** ODHH; supplied by Deborah O'Willow, Director, ALTSA ODHH.

**MEASURE DEFINITION:** Number of consultation services with assistive listening technology systems.

**DATA NOTES:**
1. The count of services with assistive listening systems is a cumulative number reported for each quarter beginning in April of SFY 2017.

---

**SUMMARY**

- This measure supports ALTSA Strategic Objective 2.7: Provide assistive communication technology services (Office of Deaf and Hard of Hearing).

- Many individuals with hearing loss depend on auditory supports and do not use sign language. Assistive communication technology, such as listening systems, aid in ensuring that effective communication occurs between people with hearing loss and employees or contractors providing DSHS services during in-person office visits. These assistive listening systems help clients to access DSHS programs and services and include tools such as hearing induction loops and pocket talkers.

- Success Measure 2.7.1: Increase the number of ACT consultation services to meet service objectives involving the public and clients with assistive listening systems from 200 in July 2018 to 250 in June 2019.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.7.

June 2019 Target = 100 or less

SUMMARY

• This measure supports ALTSA Strategic Objective 2.9: Facility health and safety - investigate complaints in a timely manner.

• Importance: Protect residents from abuse, neglect and exploitation; ensure services provided meet the health and safety needs of residents; evaluate whether provider practice meets regulatory requirements; and to make quality referrals to entities that help protect victims.

• Success Measure 2.9.1: Reduce the long-term care facility complaint investigation backlog of non-immediate jeopardy complaints from 152 in June 2017 to consistently 100 or fewer by June 2019.

• Prior to 2016, it was difficult to meet response times especially for medium and low priority complaints, due to the high volume of complaint investigation cases coupled with limited investigative staff.

• The backlog has nearly been eliminated due to hiring of additional investigators (supported by the Governor and Legislature), regions sharing staff with each other, and Lean and other process improvements.

• Action Plan: The updated action plan for this measure is located in a link in the ALTSA Strategic Plan for Strategic Objective 2.9.

DATA SOURCE: TIVA 2101 report and additional information; supplied by Jered Gunn, Business Intelligence Analyst, ALTSA RCS.

MEASURE DEFINITION: Number of complaints assigned for investigation that have not begun and are overdue to begin.

DATA NOTES: 1 Sep 2015 figure adjusted through a one-time manual desk review; prior to adjustment the figure was 2,683. Each quarter reflects snapshot data for the last month of the quarter, except December 2015 reflects data from 11/23/2015. 3 Snapshot data can differ depending on the run date and time of the report, because the TIVA system is live and is continually assigning new investigations and noting whether items are becoming overdue. Due to this, history is not refreshed. Click below for additional data notes.

Aging and Long-Term Support Administration

Serve People In Their Home Community

Timely licensing re-inspections of adult family homes, assisted living, and nursing homes

Statewide Average

**SUMMARY**

- This measure supports ALTSA Strategic Objective 2.10: Conduct timely oversight and compliance activities of facilities and agencies providing residential care and supports.

- Importance: Licensing re-inspections are a valuable tool to ensure the quality of care. They are unannounced, and occur periodically within statutory and federal requirements; once every 15 months for nursing homes and once every 18 months for adult family homes and assisted living facilities.

- Success measure 2.10.1: Maintain the percentage of timely re-inspection at 99 percent or higher for nursing homes, and increase the percentage of timely re-inspection to 99 percent for assisted living facilities and adult family homes by June 2019.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.10.

**DATA SOURCE:** Adult Family Homes and Assisted Living Facilities: Facility Management System, SSRS Report FAC1050; supplied by Amber Johnson, Planning and Labor Management Manager, ALTSA CGER. Nursing Homes, CASPER Report 0316D Standard Survey Interval; supplied by Shelly O’Hare, Support Operations Program Manager, ALTSA RCS.

**MEASURE DEFINITION:** Statewide percentage of timely licensing re-inspections in adult family homes, assisted living, and nursing homes.

**DATA NOTES:** 1 Percentage is calculated by the number of timely re-inspections divided by total re-inspections conducted. 2 If a reinspection is not timely, it is counted in the quarter in which the re-inspection occurred, per federal report methodology. 3 Beginning in January 2017, timeliness for adult family homes and assisted living facilities is measured in the same way as the federal report methodology for nursing homes. Historical data back to SFY 2011 was redone using this method.

TO DATA: https://www.dshs.wa.gov/data/metrics/AAR.1.xlsx
Aging and Long-Term Support Administration

Serve People In Their Home Community

Timely quality assurance for Intermediate Care Facilities and Supported Living

SUMMARY

- This measure supports ALTSA Strategic Objective 2.10: Conduct timely oversight and quality assurance of facilities and agencies providing residential care and supports.

- Importance: This measure ensures quality assurance activities are completed timely to help promote quality of care and protect vulnerable adults from abuse and neglect.

- Success measure 2.10.2: Maintain timely quality assurance activities at 100 percent for services provided to people with developmental and intellectual disabilities.

- Background: Certification for Supported Living requires on-site visits and inspections of providers, not each client’s individual home.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.10.

DATA SOURCE: RCS records; supplied by Melissa Davis, AA3, ALTSA RCS.

MEASURE DEFINITION: Percent of ICF/IID and Supported Living that are re-certified within timeframes under state and federal regulations. ICF/IID: federal regulation requires certification at least every fifteen months with a statewide average of twelve months. Certified Supported Living: state law requires providers to be certified every 24 months.

DATA NOTES: 1 There are 11 ICF/IID facilities and 13 certifications (Rainier RHC has three separate certifications). 2 ICF/IID had no planned recertification surveys from January through March 2018 And 2019. For the quarter ending in June 2018, the Department needed to conduct a follow up visit to verify if the facility corrected the deficiencies. This follow up visit was required to occur before the recertification survey could be conducted which pushed the Department past its recertification deadline.

Aging and Long-Term Support Administration

Serve People In Their Home Community

Timely initial response based on APS intake priority

Percent timely APS initial contact based on intake priority - Statewide

Summary

- This measure supports ALTSA Strategic Objective 2.11: Abuse and neglect – respond on-time and appropriately.
- Importance: Timely response is essential if services are needed to protect the vulnerable adult, to preserve evidence when necessary, and protect vulnerable adults from perpetrators.

- Success Measure 2.11.1. Increase timely initial response to investigations based on priority to 100 percent for high-priority investigations and maintain at 99 percent for medium and low-priority investigations by June 2019.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 2.11.

Data Source: Pre-May 2014: APSAS. May 2014 forward, TIVA 1056 report; supplied by Amber Johnson, Planning and Labor Management Manager, ALTSA CGER.

Measure Definition: Percentage of timely initial contact for investigations based on APS intake priority.

Data Notes: 1 Calendar Month reflects date of initial intake. 2 Measure of timeliness:
- Percentage of high priority intakes with 24 hour response time met.
- Percentage of medium priority intakes with the 5 working day response time met.
- Percentage of low priority intakes with the 10 working day response time met.
3 Annual data is an average of the quarterly numbers in that calendar year. 4 Quarterly data is an average of the monthly data for the three months in that quarter. Click below for additional data notes.

Aging and Long-Term Support Administration

Increase Organizational Efficiency, Performance and Effectiveness

Timely quality assurance of home and community services

Percent of Record Reviews Conducted Timely

SUMMARY

- This measure supports ALTSA Strategic Objective 3.1: Conduct quality assurance (QA) activities and comply with federal, state, and program requirements.

- Importance: Timely completion of quality assurance activities helps protect the health and safety of clients, secures and maintains federal funding, and provides oversight of local operations.

- Success measure 3.1.1: Maintain 100% timely completion of Home and Community Services Division case management, adult protective services, and financial eligibility record reviews each calendar year.

- Background: Activities include auditing documents for compliance, publishing policy revisions, and offering training and technical assistance to ALTSA field offices. Identified deficiencies are corrected and corrective action/performance improvement plans are developed and monitored to ensure continuous quality improvement.

- Action Plan: The updated action plan for this measure is located in the ALTSA Strategic Plan Strategic Objective 3.1.

DATA SOURCE: Compliance monitoring; supplied by Bill McBride, QA Unit Manager, ALTSA HCS.

MEASURE DEFINITION: Maintain 100% timely completion of Home and Community Services Division case management and financial eligibility compliance record reviews each calendar year. This is calculated by two items, a) the number of HCS Regions and Area Agencies on Aging (AAAs) receiving annual social services compliance reviews timely divided by number requiring them, and b) the number of Regions and DDA LTC Specialty Units that had annual financial compliance reviews divided by the number requiring them. New in 2017 is an additional metric that looks at timely completion of Adult Protective Services quality assurance reviews, the number completed timely divided by the number required.

**SUMMARY**

- This measure supports ALTSA Strategic Objective 3.1: Conduct quality assurance (QA) activities and comply with federal, state, and program requirements.
- Importance: Timely completion of quality assurance activities helps protect the health and safety of clients, secures and maintains federal funding, and provides oversight of local operations.
- Success measure 3.1.2: Achieve 100 percent completion, within 90 days of the monitoring exit interview, of all final reports for the Area Agencies on Aging (AAAs) during each calendar year by December 2018. Maintain a perfect record through 2021.
- Action Plan: The updated action plan for this strategic objective is located in the ALTSA Strategic Plan Strategic Objective 3.1.
- For CY2017, temporary staffing challenges in the AAA finance unit have slowed completion of financial reviews; staffing changes should correct this issue.

**DATA SOURCE:** ALTSA Home and Community Services; supplied by Caroline Wood, AAA Specialist, ALTSA HCS.

**MEASURE DEFINITION:** 100% timely completion of the 3-year monitoring cycle for Area Agency on Aging operations as evidenced by a timely monitoring visit and a final report issued to each monitored AAA within 90 days of the monitoring exit interview. Measure is done annually.

**DATA NOTES:** The amount of time to issue a final report depends not only on DSHS action but on the responsiveness of the AAA to the draft report.

**SUMMARY**

- This measure supports ALTSA Strategic Objective 3.1: Conduct quality assurance (QA) activities and comply with federal, state, and program requirements.

- Importance: Timely completion of quality assurance activities helps protect the health and safety of clients, secures and maintains federal funding, and provides oversight of local operations.

- Success Measure 3.1.3: Increase the percentage of audited Nursing Home Statements of Deficiency (SODs) sent to the facility within the federal regulatory standard to 95 percent by June 2019.

- Action Plan: The updated action plan for this strategic objective is located in the ALTSA Strategic Plan Strategic Objective 3.1.

**DATA SOURCE:** Residential Care Services, ASPEN data; supplied by Shelly O'Hare, Support Operations Program Manager, ALTSA RCS.

**MEASURE DEFINITION:** Total for each quarter, the percent of audited Nursing Home Statement of Deficiencies (SODs) that are sent to the facility within the federal regulatory standard of 10 working days after the end of the on-site visit for complaint investigations or surveys.
