**Communication Access Network (CAN)**
Videoconferencing sites throughout Washington provide access to video relay services (VRS), and face-to-face interpersonal communication (P2P).

**Sign Language Interpreter Management (SLIM)**
A statewide contract for interpreter services is available so that individuals using sign language can communicate with state government staff.
Assistive Communication Technology (ACT)
A loan & referral service provides assistive listening device systems, real-time captioning and resources to other assistive technology.

Information, Referral & Advocacy (IRA)
Provides information, referrals and resources to the general public and communities. ODHH advocates on behalf of individuals needing access to effective communication in state government.

Regional Service Centers
The Office of the Deaf and Hard of Hearing (ODHH) has partnerships with five non-profit organizations to provide client services at eight Regional Service Centers (RSC) throughout the State of Washington. RSC’s provide case management services to individuals who are deaf, hard of hearing and deaf-blind. These centers also respond to public requests for information and referral on programs, services and resources for, of and by individuals who are deaf, hard of hearing and deaf-blind. Each RSC has an Assistive Listening System (ALS) for individuals, small groups, organizations, businesses and government agencies to borrow for use in improving amplification during meetings. RSC’s have qualified staff members available to provide education, training and consultation on making public facilities, services and programs accessible to community members who are deaf, hard of hearing, late deafened and deaf-blind under the Americans with Disabilities Act (ADA) and other related laws.
