GOVERNOR PROCLAMATION ON MANDATORY VACCINATION

Dear Provider / Administrator / Superintendent:

This letter is to inform you on August 9, 2021, the Governor issued [proclamation 21-14](#) requiring most state employees, private health care and long-term care workers to be vaccinated against COVID-19. Click [here](#) for a link to a FAQ document from the Department of Health regarding Proclamation 12-14.

- Long-term care workers, workers in any health care setting, and individuals with [Healthcare Professional Credentials](#) must be fully vaccinated as a condition of employment by October 18, 2021. This includes the two weeks after receiving a vaccine in order to be fully protected. Follow the below COVID-19 vaccination timelines to meet the October 18 deadline:
 - **Moderna**
 - 2 doses, 28 days apart
 - First dose no later than: 9/6/21
 - Second dose: 10/4/21
 - Last date to complete series: 10/4/21
 - Date fully vaccinated (two weeks after last dose): 10/18/21
 - **Pfizer**
 - 2 doses, 21 days apart
 - First dose no later than: 9/13/21
 - Second dose: 10/4/21
 - Last date to complete series: 10/4/21
 - Date fully vaccinated (two weeks after last dose): 10/18/21
 - **Janssen/J&J**
 - Single dose
 - Single shot no later than: 10/4/21
 - Date fully vaccinated (two weeks after last dose): 10/18/21
- There will be exemptions to this requirement for medical and religious reasons. See the Department of Health FAQ linked above for more details.
- The healthcare setting provides the medical or religious reasonable accommodation for employees to the extent permitted by law.
- There will not be an option to test regularly in lieu of getting vaccinated. This has not worked to reduce the spread of COVID and is costly.
