**PREPARE FOR THE END OF PROCLAMATION 20-10 RELATED TO CPR TRAINING
UNDER CHAPTER 388-112A WAC**

Dear Administrator or Provider:

As we enter this new phase of the pandemic, the Department of Social and Health Services (department) is encouraging all community long-term care settings to prepare for the end of proclamation [20-10](#). This proclamation suspended the requirement for certain Adult Family Home, Assisted Living Facility, and Enhanced Services Facility staff to complete CPR training and receive and maintain a valid CPR and first-aid card or certificate. When proclamation 20-10 goes back into effect, the following rules must be followed:

- [WAC 388-112A-0700, What is CPR training?](#)
- [WAC 388-112A-0710, What is CPR/first-aid training?](#)
- [WAC 388-112A-0720, What are the CPR and first-aid training requirements?](#)

While proclamation 20.10 is still in place, the department is encouraging all licensees and applicants to immediately begin working toward compliance with these requirements. This will allow providers to get ahead of the rush once the proclamation is no longer in place. This will also help facilities and providers avoid receiving citations for failure to follow these requirements.

Follow the links above to access proclamation 20-10 and the sections of chapter 388-112A WAC that apply to CPR training and certification requirements.

Thank you for your continued commitment to resident health and safety. If you have any questions, please send an email to David.Chappell@dshs.wa.gov.

Sincerely,

Mike Anbesse, Director
Residential Care Services
