Preparing for the CDE

What *won't* change

- Clients will still select, schedule, and manage the work of their IP
- Clients may still select family members to be IPs

What *won't* change

- Case managers will still do the assessments
- Case managers will still handle service planning and authorizations
- Training requirements will remain the same for IPs

What *will* change

- The CDE will be the legal employer of the IPs
- IPs will no longer contract with DSHS; they will be employees of the CDE
- The CDE will manage administrative elements like payroll, background checks, and tracking training

What should I do to prepare?

- Clients: Keep your home address and other contact information current with your case manager
- Providers: Make sure your contact information (mailing address, phone number, and email address) is current in IPOne
- Both: Respond promptly to any notifications you receive from your case manager or from one of the new CDE vendors
