WHAT IS EQUITY?

- Equity is about fairness. Equity derives from a concept of social justice,

- Burdens and rewards should not be spread too divergently across community,

- Policies should be directed with impartiality, fairness and justice.
WHAT IS DIVERSITY?

- Diversity is about difference,
- Encompasses acceptance and respect,
- Encourages the development of skills needed to interact with people from different cultures and backgrounds,
- Valuing diversity involves understanding how overlapping and multiple identities relate to patterns of socialization and affiliation.

BUT WAIT, there's more!
WHAT ABOUT INCLUSION?

- Inclusion is participation,
- Being valued, respected and supported,
- Accounting for every individual and giving them voice.

“Diversity is the mix. Inclusion is making the mix work,” Andrés Tapia

SO WHAT IS THE DIFFERENCE BETWEEN CULTURAL COMPETENCY AND CULTURAL HUMILITY?
CULTURAL COMPETENCY:

- Cultural competence can be defined as the level of knowledge-based skills required to provide effective clinical care to patients from a particular ethnic or racial group.

CULTURAL HUMILITY:

- Cultural humility incorporates a lifelong commitment to self-evaluation and self-critique, to redressing the power imbalances in the patient-physician dynamic, and to developing mutually beneficial and nonpaternalistic clinical and advocacy partnerships with communities on behalf of individuals and defined populations.

"Cultural humility versus cultural competence: a critical distinction in defining physician training outcomes in multicultural education."

~Tervalon, M. et al.
