

NON-EMERGENCY MEDICAL TRANSPORTATION (NEMT) FOR HEALTH HOME CLIENTS

Beginning April 1, 2015, transportation may be provided to Health Home clients for services when the client is homeless or lives in an unhealthy or unsafe environment. A Care Coordinator may request a non-emergency medical transportation to alternate locations to conduct care coordination services such as developing the Health Action Plan (HAP), obtaining consent to participate, or to administer health assessments.

TO USE NEMT SERVICES:

1. Only the Care Coordinator can request NEMT for the Health Home client. The client must behaviorally and medically stable and safe to transport.
2. The Care Coordinator must identify an alternate location where he/she may meet the client in person. Examples of acceptable alternate locations include but are not limited to:
 - A medical office or behavioral health setting or
 - A community based social or health services location such as senior center, community services office, Area Agency on Aging, or local health department.
3. The Care Coordinator must ensure the availability of the alternate location prior to scheduling the transportation.
4. NEMT for clients can only be used when providing a qualifying Health Home service and is limited to the following distance standards:
 - Within 10 miles of the client's residence in urban or suburban areas or
 - Within 25 miles of the client's residence in rural areas.

Exceptions may be made to the distance criteria on a case-by-case basis in remote areas of the state and by approved by HCA. To request an exception, the Health Home Lead Entity with whom the client is enrolled must request the approval by sending an email to healthhomes@hca.wa.gov and include the client's name and ProviderOne ID as well as the reason for the exception.

5. The Care Coordinator must complete the Request Form for Non-Emergency Medical Transportation (NEMT) for Health Home Services and fax to the NEMT broker and maintain a copy in the client file for audit purposes.
