Executive Summary

In accordance with the Department of Social and Health Services (DSHS) Administrative Policy 7.01, the Aging and Long-Term Support Administration (ALTSA) submits its Plan for 2020. The Plan addresses issues that are identified, planned for, and addressed by Tribes, Home and Community Services Regional Offices and non-tribal Area Agencies on Aging (AAA). The Office of Indian Policy coordinates 7.01 planning between ALTSA regional offices, Area Agencies on Aging, tribes and tribal organizations throughout the year. Plans are submitted from the regions for review by Assistant Secretaries, and OIP, beginning April 2nd of each year. The COVID-19 epidemic has closed many government services at the state, county and tribal levels. Last year's plans have been maintained where governments have not been able to meet and finalize an updated 7.01 plan.

Historically the DSHS Office of Indian Policy and the DSHS ALTSA Home and Community Services Division have agreed to incorporate 7.01 planning for Area Agencies on Aging (AAA) into the federally required Area Plan. Area Plans are on a calendar year cycle and developed every four years with a mid-cycle (two-year) Area Plan Update. The Area Plan Update includes a report on accomplishments in the first two years and any changes for the next two years of their four-year plan. Currently AAAs are operating under their 2020-2023 Area Plan. Area Plans are available on each Area Agency on Aging website.

The Aging and Disability Network is multi-layered, often starting with federal legislation and funding. Services and funds from state, local and tribal resources complete the network. In Washington, ALTSA is the lead agency for service development and delivery to elders and adults with disabilities. Services are provided at the state, tribal and local level. ALTSA also serves, with delegated authority from the Health Care Authority, as the operating agency for Medicaid funded long-term services and supports (LTSS).

The Aging and Long-Term Support Administration is committed to promoting choice, independence and safety through innovative, culturally attuned services to maintain and improve the quality of life of adults with functional impairments due to age, physical or cognitive limitations and their families. ALTSA also works to protect the rights, security and well-being of individuals living in licensed or certified care settings and the protection of adults who are vulnerable from abuse, neglect, abandonment and exploitation. Family caregivers, caregivers raising a relative's children and foster children in out-of-home state or tribal dependency and who are not enrolled in managed care are also served by ALTSA.

ALTSA seeks to increase the safety of adults who are vulnerable, promote access to a variety of home and community-based service options and improve quality in nursing facilities and other residential settings. Community based services are provided through thousands of contracts with trained providers, including individual home care workers, home care agencies, adult family homes, assisted living facilities and others. Strong relationships with 13 AAAs, including the Confederated Tribes of the Colville Reservation and Yakama Nation AAAs reinforce the community network.

Home and Community Services Division

The Home and Community Services Division (HCS) is the largest division of ALTSA in both the field and at headquarters. HCS provides clients and their caregivers with information, services, supports and access to health care. It also develops and promotes innovative services, working with the AAAs and Residential Care Services.

Adult Protective Services Division

The Adult Protective Services Division (APS) was created on July 1, 2019. A separate division supports the APS focus on the core work of investigating and protecting vulnerable adults from abuse, neglect, self-neglect, abandonment, and financial exploitation. Becoming an independent division also allowed APS to modify how it receives reports of abuse from the public by centralizing intake. The centralization of APS intake has provided increased consistency across the state on screening decisions, thoroughness of reports assigned for investigation, documentation, and provides a single point of entry for reporting by the public.

Residential Care Services Division

Residential Care Services (RCS) licenses and certifies the facilities and agencies providing residential care and supports. Through regular survey and inspection, as well as the Complaint Resolution Unit, RCS has oversight of the quality of care in more than 4000 licensed and certified settings serving a capacity of 76,000 residents. Together, RCS and HCS develop new, safe quality options for care to meet the needs of elders and people with disabilities.

Office of the Deaf and Hard of Hearing

The Office of the Deaf and Hard of Hearing (ODHH) funds critical services for clients who are Deaf, Deaf-Blind, Deaf Plus, Hard of Hearing, late deafened or who have speech disabilities. ODHH also advocates for access to services, employment, and education. It supports clients and other ALTSA divisions by providing training and technology for individuals, providers and staff.

The Office of the Assistant Secretary

The Office of the Assistant Secretary (OAS) supports ALTSA with tribal administration; collective bargaining; communications; employee wellness; equity, diversity and inclusion; government relations; Lean; legislation; public disclosure; strategic planning and quality assurance.

Management Services (MSD) supports other ALTSA divisions (and the Developmental Disabilities Administration) with budget, contract and rates management, data, facilities, financial services, information technology, and other services to ensure that these other divisions can do their jobs well.

Highlights:

State Plan on Aging

Washington State's State Plan on Aging for October 1, 2018 through September 30, 2022 was approved by the Administration for Community Living (ACL) in September 2018. The State Plan confirmed our strategic focus areas that support person-centered home and community based services, elder rights, protection of vulnerable adults, healthy aging, and expanding and strengthening services and supports that prevent or delay entry into Medicaid funded LTSS. The full report can be found at:

Adult Protective Services

Memorandum of Understanding (MOU): APS continues to work with and assist tribes with protecting elders and issues affecting vulnerable adults. Currently, there are eight signed working agreements with tribes. APS continues to collaborate with the other tribes to develop agreements. The recent transition of APS becoming its own division resulted in an updated memorandum of understanding agreement that incorporates tribal legal codes, clear guidelines for investigations when tribal members are involved on and off reservation lands and monthly check-ins through the IPAC subcommittee meeting to respond to concerns or questions. APS is also working with two tribes using an Elder Protection Team.

Trainings: APS regional staff have provided on-site trainings on elder abuse, financial exploitation and self-neglect upon request. Tribal representatives continue to participate in the APS Statewide Training Academy. Equity, Diversity and Inclusion has been a key component of all APS staff trainings and APS executive management have all become certified as a Certified Diversity Executive or Certified Diversity Professional.

ALTSA Tribal Affairs:

Annual Tribal-DSHS-HCA-AAA meeting The AAAs and regional Home and Community Services offices participated in the annual Tribal Initiative Summit held in November 2019. The two-day summit included over 140 representatives from Tribes, ALTSA, HCA, DDA, AAAs, DOC and provider partners. An additional summit was held in June 2019 in Eastern Washington. The two day summit included over 65 representatives from tribes, ALTSA, HCA, DDA, AAAs, DOC and provider partners.

Money Follows the Person Tribal Initiatives: ALTSA in partnership with Tribes and Recognized American Indian Organizations (RAIOs) continue to expand mechanisms, including direct contracting, for sustainable, culturally relevant long-term services and supports. The Initiative also assists in returning institutionalized American Indians/Alaska Natives (AI/AN) to their community of choice.

Rate Enhancement: The Confederated Tribes of the Colville Reservation, ALTSA, HCA and Empire Foundation worked together to in support of HB1564. The bill excluded tribal nursing homes from the state rate setting methodology. This exemption was necessary to develop a state plan amendment for the tribe's convalescent center. The Centers for Medicare and Medicaid approved an enhanced federal reimbursement rate effective July 1, 2019.

7.01 Planning: Regional HCS and APS offices and AAAs participate in 7.01 Planning Meetings with the tribes and the Office of Indian Policy Regional Managers to ensure ongoing collaboration and partnership. Questions and concerns are discussed and resolved appropriately.

Tribal Desk Reference Manual: HCS, in cooperation with the Tribes and the DSHS Office of Indian Policy continue to update the Desk Reference Manuals annually for each region. The manuals include information about key concepts such as self-governance and sovereignty, as well as specific tribal resource exemptions for financial workers determining eligibility.

Consumer Directed Employer: DSHS has entered into a contract with Consumer Direct Washington (CDWA) to become the Consumer Directed Employer. CDWA will serve as the employer for all in-home Individual Providers and respite providers in Washington receiving services through DSHS. When the Consumer Directed Employer contract goes into effect, the selected entity will handle the credentialing, payroll and other employer responsibilities currently managed by the ALTSA, Developmental Disabilities Administration (DDA) and the Area Agencies on Aging. Consumers will continue to select, schedule, supervise, and dismiss their Individual Providers. The earliest the CDE would go into effect is July 1, 2020.

Electronic Visit Verification: New federal requirements were enacted in 2016 as part of the "21st Century Cures Act". The Act requires states to implement an [electronic visit verification \(EVV\) system](#) for personal care services delivered in the home. The new [Consumer Directed Employer](#) will implement EVV for Individual Providers (IPS). Home Care Agencies will implement separate EVV systems for Home Care Agency workers. EVV is required for Home Care Agencies contracted to provide Medicaid services in Washington, including PACE-contracted Home Care Agencies. EVV will apply to providers who serve people receiving in-home personal care services from ALTSA and DDA. Licensed residential services and supported living services are **not** required to comply with EVV requirements.

Washington State Plan to Address Alzheimer's Disease and Other Dementias: ALTSA convened the full Dementia Action Collaborative (DAC) in April and September of 2019, with multiple subcommittee meetings in the intervening months. The DAC is a group of public-private partners committed to implementing the [Washington State Plan to Address Alzheimer's Disease and Other Dementias](#). The group includes a range of appointed members – people with dementia, family caregivers, representatives of advocacy

groups, the aging network, Alzheimer's organizations, long-term care providers, health care professionals, legislators and governmental agencies. The DAC has three topic-focused subcommittees: Public Awareness/Community Readiness, Health/Medical, Long Term Services and Supports, and an Advocacy Subcommittee. A new project team this year focuses on Dementia/Disparities/Diversity. The group has developed some foundational tools and resources for individuals and community organizations (available on the [DAC website](#)). DAC stakeholders advocated to have dedicated part-time staff in 4 state agencies – AL TSA, DOH, DDA and HCA - to support implementation of the Washington State Plan to Address Alzheimer's Disease and Other Dementias. These staff engage their respective agencies, support DAC subcommittee work and foster collaboration and connectivity as we strive to implement specific recommendations and integrate dementia into the consciousness and planning of various service systems.

STAR-Caregiver Project: Ten new staff/contractors received STAR-C training in 2019 and 5 achieved (or are very close to achieving) certification by the University of Washington (UW) as STAR-C coaches/consultants. Washington State currently has 21 STAR-C certified coaches serving in 5 AAAs. STAR-Caregiver (STAR-C), developed by the University of Washington's School of Nursing Northwest Research Group on Aging (UW), is an evidence-based in-home behavioral intervention designed to decrease depression and anxiety in individuals with Alzheimer's disease and their family caregivers. In October 2011, Aging and Long-Term Support Administration initiated a collaborative pilot project in which the UW provides the STAR-C intervention training and technical assistance, while service funding is provided through existing funding allocations in the participating Family Caregiver Support Programs (FCSPs).

Dementia-Capable Approaches for Person-Centered Counseling: AL TSA produced an eLearning course to help front-line case management/information and assistance staff understand what those experiencing dementia may be dealing with and how best to support them and their family members. It was developed using Articulate Storyline and hosted in the Relias Learning Management System, which is accessible by Area Agency on Aging (AAA) staff and Aging Network partners. It is Section 508/WCAG 2.0 compliant (accessibility standards), and highly interactive. The course went live in 2018 and has been included in several AAAs training plans.

Giving Care, Taking Care – Annual Caregiving Conference: AL TSA co-hosted the 27th annual *Giving Care, Taking Care* conference in collaboration with Full Life Care, Pierce County Aging and Long Term Care, and the support of numerous community organizations that help to plan and implement the event. This conference targets unpaid family caregivers and the community caregivers that supports them. Nearly 400 caregivers attended. The program offered a keynote presentation, 16 workshops, and more than 40 resource exhibitors sharing information about products and services that assist caregivers in Washington State. Caregivers have the opportunity to meet with agency representatives and learn where and how they can get the help they need.

Home Care Aide Accreditation: ALTSA continues to work with the SEIU Northwest Training Partnership, Department of Health, Tribes and stakeholders to decrease the barriers to home care aide training and accreditation. Two Savvy Caregiving in Indian Country train the trainer classes were provided.

High School Home Care Aide Course: ALTSA and the Office of the Superintendent of Public Instruction (OSPI) have created a High School Home Care Aide Course and established partnerships to prepare high school students for careers in home care. Lake Roosevelt High School in Grand Coulee, plans to offer the course. This is being accomplished through a strong collaboration between the Lake Roosevelt High School CTE director, Colville AAA, Empire Health, and other local partners, as well as DSHS and OSPI. Other tribes that have expressed interest include the Lummi, Makah and Yakama.

Qualified Community Trainers in Long-Term Care Services and Supports: In our effort to build a large-scale network of Community Instructors, the Home and Community Services Training, Communications, and Development Unit (TCDU) has continued to approve new qualified trainers at a steady pace. Community Instructors are individuals, businesses, private vocational schools, and community colleges that contract with DSHS to provide training for long-term care workers. In 2019, we added 29 new Community Instructors, including 1 Tribal Instructor and renewed another 38 existing contracts. The department currently has 281 contracted Community Instructors that support our mission for transforming lives by training and supporting our caregivers all over Washington.

Traumatic Brain Injury Strategic Partnership Advisory Council: The Washington Traumatic Brain Injury (TBI) Strategic Partnership Advisory Council was created by legislation in 2007. The council includes 25 members, who are appointed by the Governor to advise DSHS on Traumatic Brain Injury issues in Washington State.

The TBI Council hosts multiple 1 day conferences around WA State to enhance regional relationships with Tribes, community partners, and TBI providers. These regional events are designed to bring various speakers from across the state to discuss topics to include Self- Advocacy, Person Centered Culture, Resources and Support, and research around TBI. All these areas and more are designed to support those living with a TBI and caring for persons with a TBI.

The DSHS TBI Caregiver Course has been offered and is still being offered to Tribes that would like to certify their Medical and Home Care Aids workforce, to include family caregivers. This course is designed to better equip caregivers in understanding the unique challenges of those persons living with a TBI.

Additional resources and information can be found at the DSHS TBI website:

<https://www.dshs.wa.gov/altsa/traumatic-brain-injury/traumatic-brain-injury-tbi-resources-washington-state>

Lifespan Respite and Kinship Care: ALTSA received a federal grant from the Administration from Community Living to expand the respite voucher program for unpaid family caregivers. Respite services provide caregivers a break so they can have some time away from caregiving. One of the goals of the grant is to increase respite service options tailored to the needs of AI/ANs and those living with a Traumatic Brain Injury and their caregivers. Two tribes are developing and will be testing Lifespan Respite service delivery models specific to Tribal family caregivers and providers. Implementation of the models will occur in 2020.

The State Unit on Aging/ALTSA co-sponsored the 16th annual [Voices of Children –Raised by Grandparents and Other Relatives Contest](#) which solicits poems, essays and drawings submitted by children (ages 5-19) living in WA State. All of the entries were included in a booklet and distributed widely to Tribes, Kinship Caregivers, community agencies and advocates. Governor Inslee also proclaimed Kinship Caregiver Day – May 15, 2019

Free recreational passes were expanded in 2019 for kinship care families. In January, 2019 ALTSA was awarded 2000 free passes to the Seattle Woodland Park Zoo through their Community Access Program. The tickets were distributed to nine Area Agencies on Aging and nine Tribes. Other venues in eastern WA also provided free passes for the first time (e.g., Mobius Children’s Museum/Science Center, Spokane Indian Baseball Team) to three local Tribes and three AAA Kinship Navigator offices in March 2019. Free Kinship Care Annual Passes continue for all kinship care families to the Seattle Aquarium and Pacific Science Center.

The State Legislature continued funding for the Tribal Kinship Navigator Program delivered by seven Tribes around the state. Local Tribal staff are able to support kinship care families through tangible supports and services, as well as guide the caregivers applying for a variety of benefits. An ACL Lifespan Respite Grant begun in September 2016 and continued through August 2019 supported these same Tribes development of culturally responsive respite activities to support grandparents and relatives raising children. The legislature also continued funding for the Kinship Caregivers Support Program (urgent need fund) and the Kinship Navigator Program, both operated by the Area Agencies on Aging and their community partners which can provide resources and information to any Tribal or non-Tribal kinship caregiver statewide.

Network Development Learning Collaborative: ALTSA was accepted into the National Council on Aging (NCOA)’s 2018-2019 Network Development Learning Collaborative, a national initiative to enhance the efforts of several states that are working on supporting infrastructure for Evidence-Based Programs (EBPs) to address social determinants of health. The focus in our state is on designing a centralized statewide structure that will have capacity for a referral and billing platform and the networking required to support and sustain chronic disease self-management education (CDSME and other EBPs at a regional and local level. Cultural and systemic barriers to health care infrastructure that incorporates these programs continue to be assessed and problem-solved through monthly meeting with Network Development partners.

Chronic Disease Self-Management Education (CDSME): In 2019, ALTSA was awarded a three-year grant from the US Department of Health and Human Services Administration for Community Living to expand access to CDSME in primarily rural areas, develop a statewide hub-and-spoke network to ensure its sustained delivery and work towards a dual bi-directional referral system to promote care integration. ALTSA worked with Comagine Health and Sound Generations to begin work on the development of a network hub and sustainability partners, and partnered with Cascade Pacific Action Alliance, one of Washington State's nine Accountable Communities of Health, to deliver CDSME workshops within their region. Cascade Pacific Action Alliance covers seven counties, serves over 600,000 residents, including, seven federally recognized tribes, in both urban and rural communities. ALTSA also hosted a training to bring a new evidence-based program, Health Coaches for Hypertension Control, to the state. We are among the first in the country to offer this program. Our partnerships have been focused on CDSME infrastructure building and sustainability. CDSME programs provide older adults and adults with disabilities with education and tools to help them better manage chronic conditions such as diabetes, heart disease, arthritis, chronic pain, and depression. This work will continue in 2020.

Health Home Program: In partnership with the Health Care Authority, DSHS has focused efforts on informing the tribes of opportunities available to them within the Health Home Program. Health Homes promote person-centered health action planning to empower beneficiaries to take charge of their own health care. This is accomplished through better care coordination between the beneficiary and all of their health care providers and encourages family involvement and beneficiary independence. The Muckleshoot and Makah Tribes hold signed contracts to operate Health Home Care Coordination Organizations. The Lummi Nation, Lower Elwha S'Klallam Tribe, Skokomish Tribe and Squaxin Island Tribes are all in discussions about Health Home Contracts.

Nutrition Services: The Home Delivered Meal (HDM) program authorizes meals and related nutrition services for older individuals who are typically not able to leave home unassisted due to a physical, mental health, or behavioral disability. The HDM program provides much more than food; it provides a wholesome meal plus a safety check, and sometimes the only opportunity for face-to-face contact or conversation for that day. Washington State continues to fund expanded senior home delivered meal programs. The Lummi Nation, Makah, Nooksack, Nisqually, Skokomish and Squaxin Island Tribes continue to utilize funding to expand their programs to underserved Elders. In 2019 over 6180 additional meals were provided to tribal Elders.

Medicaid Transformation Project - 1115 Waiver:

Streamlined Eligibility for Public Programs: Under the Medicaid Transformation Demonstration Project (1115 Waiver), Initiative 2; two new programs continue to grow: Medicaid Alternative Care (MAC) and Tailored Supports for Older Adults (TSOA) which is for a pre-Medicaid eligibility group. Local no-wrong-door warm hand-off protocols between the Community Living Connections (CLC) and the state's Home & Community Services staff continue to be used to ensure quick access to the program chosen by the applicant. As of March 20, 2020, HCS and Area Agencies on Aging have enrolled and served over 6700 people including unpaid

family caregivers. In 2019, the third year of the Medicaid Transformation Project, emphasis was placed on community outreach activities with local health care providers, hospitals, clinics and Community Service Offices in hopes of increasing knowledge of and enrollment in these programs. Year four, 2020, will include activities related to analyzing the services utilized by enrollees and preparing for sustainable programs after the end of the transformation project in 2021.

Initiative 3: is the Foundational Community Supports (FCS), a partnership across the Health Care Authority and DSHS, which aims to provide the targeted services of supportive housing and supported employment to individuals receiving Medicaid services through HCA, DBHR and ALTSA. The Foundational Community Supports are built around the growing body of evidence linking homelessness and unemployment with poor physical and mental health. Beginning in January 2018, FCS services started rolling out across the state. All of the state partners and third party administrator, Amerigroup, worked to develop a provider network for both the Supportive Housing (SH) and Supported Employment (SE) services.

ALTSA's Response to Mental Health Transformation

ALTSA received new designated funding in the 2017-2019 biennium budget as a part of the Governor's Mental Health Transformation initiative. This funding furthers ALTSA's efforts to discharge and divert more individuals from psychiatric hospitalization that are eligible for long-term care services and have a combination of functional and intensive behavioral support needs. At the end of CY 2018, ALTSA has assisted in the transitioning of over 400 individuals from state and community psychiatric hospitals. This effort includes adding dedicated staff to support systems change and allow for earlier client engagement. ALTSA has also developed additional providers and increased existing provider capacity. ALTSA has provided technical assistance, training and policy support for LTSS providers to successfully serve individuals transitioning and diverting from state hospitals.

Long Term Care Trust Act

On May 13, 2019, Gov. Inslee signed into law the Long-Term Services and Supports (LTSS) Trust Act. It was the product of years of effort and collaboration among many community stakeholders and Members of the Legislature from both sides of the aisle. The LTSS Trust Act will make up to \$36,500 of lifetime long-term care benefits available to elders regardless of their level of income or assets. The program will achieve two critical goals. First, it will make long-term care available to virtually everyone in the state who works and pays into the program. Second, it will relieve pressure on the Medicaid budget by introducing an alternative financing vehicle for long-term care.

Seven in ten Washingtonians will need long-term services and supports as they age, and many cannot afford it on our own. Today, to pay for long-term care, many must spend down savings to qualify for Medicaid. Without this new, self-funded program, the resulting increase in Medicaid costs would have been a tremendous burden for the state budget in the coming decades, a budget even more

strapped now due to COVID. With this program, which starts collecting contributions in 2022 and paying benefits in 2025, a large portion of the costs of providing long-term care to elders will be covered by the LTSS Trust.

Washington is now the first state in the nation to have enacted a universal long-term care insurance program. Several other states, including California and Michigan, are watching closely to learn from our experience and if the program is successful, are likely to follow in our footsteps.

Assistive Technology Pilot in Eastern Washington: HCS Region 1 is piloting the use of Assistive Technology (AT) at the regional office and Aging and Long-Term Care of Eastern Washington AAA to determine if AT services are needed and desired by clients. The project will also identify barriers and strategies to address those barriers to services usage and to engage both staff and clients in using the technology. The pilot ended in December 2019. A report will be available in 2020.

Improvement for Patients and Providers Act (MIPPA): MIPPA is a joint project of the state Office of the Insurance Commissioner (OIC) and ALTSA, with ALTSA as the lead organization. The goals are to increase enrollment in Medicare Part D, Low-income Subsidy and Medicare Savings Plans. OIC received funding for the Statewide Health Insurance Benefits Advisors (SHIBA program and ALTSA received funding for Area Agencies on Aging and Aging and Disability Resource Centers. ALTSA and SHIBA have both successfully transitioned to the new National Reporting System called STARS. A live interface has been established between STARS and state client management system (CLC GetCare) to prevent double entry by field staff.

Area Agencies on Aging (AAA)

AAAs, created through the 1965 Older Americans Act, provide local, community based Older American's Act services and through contracts with the state an assortment of State and Medicaid related services such as case management for clients receiving services in their own homes and services for older adults and unpaid caregivers.

Formal meetings between HCS/AAA and tribal governments provide opportunities to discuss Government-to-Government protocols, contracting issues, services, and funding opportunities. The meetings also provide a forum to share information and to problem-solve any current issues. AAAs are continuing to work with tribes to develop tribal resources and contracts.

Aging and Disability Services Administration Subcommittee
Revised 4-19-2019

Completed 2019: ALTSA, HCA, Colville Confederated Tribes and Empire Foundation jointly worked to exclude tribal nursing homes from the state legislated funding formula. A State Plan Amendment was approved by CMS providing the Colville Convalescent Center an enhanced rate.

Goals were incorporated into the ALTSA strategic plan:

Strategic Objective 2.12: Tribal Affairs – Continue to build strong relationships with the tribes and tribal organizations to promote access to culturally attuned services for American Indians/Alaska Natives (AI/AN) to age in their home or community setting of choice. Importance: ALTSA continues to focus on strengthening government-to-government relationships with tribes, decrease barriers to service and advance culturally attuned services, providers and programs. ALTSA will continue to work with tribal organizations to: 1) Delay or prevent institutional placement for AI/ANs; 2) Identify AI/ANs who are living in institutions and assist them to return to their community of choice; and 3) Develop culturally attuned service systems and providers to support AI/ANs once they returned to their communities. Work will focus on developing inclusive service contracts and engaging potential partners at the state, tribal and county levels for improved and culturally attuned service delivery of long-term services and supports. Achieving this goal focused on two strategic plan success meals for 2019-2020:

- Success Measure 2.12.1: Procure and sign at least three contracts to benefit AI/ANs elders, veterans and adults with disabilities by June 2020.

Response: A number of contracts and memorandums of agreement (MOA) have been completed or are in discussion since 2017. This measure is across the aging network so tribal agreements are with a variety of entities, including various governments and private concerns.

- Muckleshoot Tribe: Home Care Agency, nurse delegation, environmental modification, health home care coordination organization (CCO) and non-emergency medical transportation contracts, two community trainers for in-home aides. A joint Adult Protective Services Memorandum of Agreement (APS MOA) is in discussion.
- Nisqually Tribe: Adult Day Care (Healing House), home delivered meals contracts.
- Spokane Tribe: Health Home Care Coordination Organization in discussion.
- Makah Tribe: Health Home Care Coordination Organization, Northwest Training Partnership and ALTSA community instructor contracts, environmental modification, home delivered meals, kinship care, and Money follows the Person Tribal Initiative (MFPTI) contracts. A joint APS MOA is in discussion.
- Lummi Nation: Lifespan Respite, Kinship Navigator, Kinship Caregiver Support Program, MFPTI, home delivered meals contracts. In discussion for health home care coordination organization, adult family home contracts and APS MOA.
- Skokomish Tribe: Home delivered meals, non-emergency medical transportation contracts. In discussion for Health Home Care Coordination Organization and MFPTI contracts.
- Nooksack Tribe: Home delivered meals contract.
- Squaxin Island Tribe: home delivered meals, MFPTI contracts. In discussion for Health Home Care Coordination Organization and Wisdom Warriors contracts.
- Yakama Nation: Kinship navigator contract.
- Quileute Tribe: Kinship navigator contract.
- Port Gamble S'Klallam Tribe: Kinship navigator and home delivered meals contracts. In discussion for Health Home Care Coordination Organization and lifespan respite contracts.
- Lower Elwha Tribe: In discussion for Health Home Care Coordination contract.
- Stillaguamish Tribe: APS MOA.
- Colville Tribe: CMS approved enhanced reimbursement rate for the Colville Convalescent Center.

- Success Measure 2.12.2: Identify and implement increased federal financial participation for a minimum of one long-term services and supports contract provided by a tribe by June 2020.

Response:

- The Colville Tribe convalescent center has been approved for an enhanced federal reimbursement rate through a state plan amendment. The Colville Tribe, Empire Foundation, Health Care Authority and DSHS ALTA worked together to provide CMS with the necessary documentation to support an enhanced rate.
- The Makah Tribe has entered into a Health Home contract reimbursed at the federal encounter rate.

Completed 2017-ongoing: Increasing contracts for direct delivery of LTSS by tribes. The Makah, Muckleshoot, Chehalis and Spokane Tribes have all implemented contracts that support aging in place.

Completed 2018: Tribal family member exception to hire for in-home services agencies implemented

Completed 2015: All Area Agencies on Aging (AAAs) were provided with the DSHS 7.01 plan outlining processes for tribal communications and planning.

Completed 2015: Money follows the Person Tribal Initiative Phase 1 was incorporated into ALTA work plan, including outreach to tribes and federally recognized tribal organizations.

Completed 2012: DSHS reorganization has moved some of DBHR programs under the ADSA Administration. Programs under ADSA: State Hospitals, HCS, RCS, DDD, DBHR (Prevention, Children's System of Care, and Children's MH Redesign will be updated at each Sub-committee mtg.).

Completed 6-3-11: Meetings twice annually between Tribes/AAAs will be held. First meeting was held 10-23-07. On 9-4-08 another meeting was held and changed to meeting twice per year instead of 4 times per year. Next meeting was held June 5, 2009, at Lummi. Next meeting was November 19, 2010, at Muckleshoot. AAA's asked to not schedule meetings during Leg. Session. The last meeting was held June 3, 2011, at Upper Skagit. Will continue to have these meetings and include dates as they occur. This will stay on the matrix.

Completed – ADSA/DBHR meetings that are held in January will be held via video-conferences due to weather conditions.

Completed 12-3-10: Two Caregivers conferences were held. Feb. 10-12, 2010 at Quinault. Dec. 1-3, 2010, at Upper Skagit.

APS Tribal Code; Legal and fiscal assistance to help tribes develop, implement and maintain tribal elders codes. (Because each Tribe responsible for own law and order codes, enforcement, not State's place to affect code.)

Completed 1/10: from 7/06: How to get reimbursement for tribal programs providing Home Health Care services and/or how to get IHS/Tribal clinic certified as HHCA. Surveyed tribes re their home health activities. Four tribes responded. Draft guidelines for discussion. Schedule internal meeting. Convene work group beginning with DOH, Aging and Adult Services, and IPSS. 8-23-07 ADSA Sub-Comm. Mtg with Bill Moss. Tribes wanting to sponsor HCA's should contact Kathy Leitch ADSA Asst. Sec. Leitch has agreed the tribes could pursue this. 1/09: need HRSA action for Home Health Agency. Talk to PGST, which has met with variety of entities to discuss process. Draft letter to tribes to gauge interest in developing program. In letter define terms and requirements. 4/09: is on AAA agenda 5/11/09. Letter sent 5/09, discussed 6/09.

Completed 1/10: from 7/06: Policy/Statutory clarification-waiver re COPES eligibility for tribal elders to retain burial fund without having to place monies in trust. Or possibly increase dollar amount allowed. May 2006 Fed. Law set limit of \$500K in home equity. Convened workgroup who met twice (10-11-07 and 10-23-07), tabled due to lower priority (per tribes) than eligibility; ARRA language might make this an exemption: cultural practices". Bill Moss will research if tribal member can put money into tribal account for own burial. 1/09: ESA is working on WAC changes, implementations. 1/10: Determined policy changes not needed as it exists in WAC. Garnet presented tribal burial clarification draft to IPAC on 1-14-10. Letters will go to tribal leaders with copy to IPAC.

Completed 1/09: Home Equity Issues related to Federal Deficit Reduction Act; Clarify Eligibility criteria for long term care as relates to Native American land and income; contact David Armes at HCS to request Exceptions, exempt and trust land issues; contact Bill Moss re eligibility

decisions that are wrong. Management bulletin to train HCS financial workers on eligibility criteria re: trust land, per capita, etc. Income issue referred to ESA subcommittee.

Completed 1/09: Home Care Agency Licensure is with DOH for Homecare Agency status. 4/8/09: removed from priorities: transfer case management to tribes along with resources.

Completed 9/9/08: National Indian Council on Aging Conference in the Tacoma Convention Center; Elders Conf. held Sept. 5-9, 2008 in Tacoma was a success. ADSA contributed \$5,000 to the conf. IPSS contributed \$1,000 to the conf. IPSS and some friends made 2400 lanyards to give to each conf. attendee. IPSS Staff & Kimberly Chabot (ADSA) worked with Rolene and Sharon's staff.

Completed 4/9/08: From 1/9/08: Native Outreach efforts to the Tribes by the Counties: All the Counties have been informed of the 7.01 Indian Policy Plan. Jeannie will provide summary of results from county meetings.

Increase awareness of the Senior Farmer's Market Nutrition Program by Native American Elders residing both on and off the Colville Reservation.	Continue to collaborate with Colville AAA Director to serve Native American Elders, both on and off the Colville Reservation through SFMNP.	Colville AAA & AACCW will work collaboratively to ensure the tribal members are aware of and receive SFMNP	Kathy Wright Contract Specialist kathy.wright@dshs.wa.gov Contract Department March 2020	For the 2019 SFMNP season, AACCW distributed 75 vouchers to the Colville Tribal and 75 vouchers to the Omak Tribe. These are given to meal site Mgrs. to distribute. The Tribes put the AACCW SFMNP flyers at their meal sites. On these flyers is the Distribution Schedule, which includes the two tribal sites. If there are extras, they offer to the Tribe first and then to the PSA. No Barriers reported.
Provide outreach to tribal family caregivers in our PSA.	Concentrate on advertising Family Caregiver Support Program, as well as the new Medicaid Alternative Care (MAC) and Tailored Services for Older Adults (TSOA) programs in Omak and Grand Coulee, which are adjacent to the Colville Indian Reservation and have large tribal populations. Ensure that the advertising is tribal specific. Provide the tribal specific advertising to the Colville AAA to	Increased outreach efforts to reach tribal caregivers and subsequently an increased participation of tribal members who live in out PSA in our programs that support family caregivers.	Diane Tribble Director of Information and Assistance diane.tribble@dshs.wa.gov June 2020	We also believe that having the Colville AAA distribute our flyers to tribal members, businesses and events within our PSA will create increased awareness and acceptance of our programs. AACCW invited Colville AAA staff to a MAC/TSOA training in East Wenatchee October 23, 2018. Three staffed attended the training. Community Services Specialist AnDee Desrosier went to Nespelem July 5 th and July 18 th this year to provide training for the Tribal AAA on the MAC/TSOA program. The first week of Sept. 2019, ALISA asked if our AAA can send a staff member to work with the Colville MTD/TCARE staff who need training. We agreed to do

We are developing custom materials and will have them ready to share with the Colville AAA in early October. We will incorporate Tribal specific imagery in these new materials.</p> <p>We've had several calls with Larry Robinette, the new Executive Director of the Colville AAA, to plan a Sept. 23rd, 2019 event in Chelan, WA. ALTSA is coordinating this event, intended to educate directors of hospitals, clinics, and their medical staff about family caregiver programs AACCW and the Colville AAA offer, including MAC/TSOA. The Colville AAA and AACCW will offer information at resource tables and present on our individual referral processes.</p>
Increase staff understanding of cultural barriers to provide services to tribal members living in our PSA.	Every year, an invitation will be extended to Colville AAA to help increase AACCW staff awareness of cultural issues that will help them when assisting tribal members.	Tribal members will have positive experiences when accessing services from AACCW.	<p>Chris M Johnson Manager of CM Services christine.johnson3@dshs.wa.gov December 2020</p>	<p>February 2019. Implementation Plan				Progress Report
(1) Goals/ Objectives	(2) Activities	(3) Expected Outcome	(4) Lead Staff	(5) Status Update for the Previous Year
1. Continue to provide Tribal Outreach Assistance services.	a. Continue to visit each tribe on a regular basis. b. Hold meetings with individual tribes or tribal groups to discuss elder issues as requested. c. Expand activities in this area through grants available.	a. Enhanced access to needed service for tribal elders. b. Increased collaboration with local tribes and community partners to assure appropriate services.	Becky Bendixen Melody Woodrich-Fernando	In 2018 continued to meet with Tribes in our service area to share available services and supports. Meets with tribal clinic quarterly
2. Continue to provide technical assistance to local tribes for planning and coordination for Money follows the Person Tribal Initiative.	a. Work with local tribes to develop plans for to identify sources of funds for addressing the needs for long term services and supports. b. Assist tribes to understand adult day care and health options.	a. Development of tribally-owned and operated Long Term Services and Supports on those reservations that choose to participate.	Becky Bendixen Melody Woodrich-Fernando	Staff continue to provide information to tribes. With the passage of the ACA, there is renewed interest in Long Term Services & Supports (LTSS) in Indian Country and a wonderful opportunity to expand services to tribal elders. We will continue to support tribes in their efforts to develop LTSS and operate them in their own community. NWRC staff have participated Tribal/AAA/HCS conference each year during the MFTP-Tribal Initiative grant period. Additionally, staff have participated in discussions at the national level at the National Title VI meeting.

3. Support training for Title VI Coordinators and staff to assure that program requirements are met and elders are well served. Expand training to include any State tribe that wishes to participate.	<ul style="list-style-type: none"> a. Support training tribal nutrition programs about menu writing, sanitation and safety, and other programmatic issues. b. Support training and provide technical assistance for tribal staff in meeting reporting requirements for federal Title VI programs c. Support technical assistance on proposal development for Title VI Grants. 	<ul style="list-style-type: none"> a. Enhanced compliance for tribal Title VI programs. b. Increased resources for programs through captured funds and program efficiencies. c. Collaboration with other tribes in the state. 	Becky Bendixen Melody Woodrich-Fernando	<p>NWRC staff continues to attend national meetings as requested to promote long term care services for Older Indians.</p> <p>As requested by Tribes, NWRC facilitates training by ACL as it relates to Title VI activities.
