

Brain Injury Support Groups: Virtual Education and Social Support

Our virtual support groups are focused on developing long-term knowledge and generic problem-solving skills to aid those that have sustained a brain injury in overcoming obstacles that may interfere with a fulfilling life. We welcome people from all walks of life, including caregivers and veterans.

People living in a rural area can access the internet through Washington State Drive-In Hotspots. Locations can be found on the website, www.driveinwifi.wa.gov.

These educational support groups will be hosted 100% online through the Hey Peers platform by certified support group facilitators.

Register for any of our monthly meetings by clicking the link below:
