BACKGROUND

On April 2, 2015, the Court ordered the Department of Social and Health Services (DSHS) to file monthly reports with the *Trueblood* Court Monitor on efforts to comply with Court orders to provide timely competency evaluation and restoration services to Class Members. This monthly report is submitted August 15, 2016 and covers the events of July 2016. This report also provides status updates on additional court order requirements.

On April 2, 2015, the Court ordered:

“Defendants shall file a report with the Monitor on the fifth day of every month, which shall include:

- (1) the number of days between when a court ordered provision of competency services and when provision was completed, for each person ordered to receive competency services during the previous month;*
- (2) data regarding the number of evaluators, bed capacity, physicians, and other resources needed to provide timely competency services;*
- (3) the steps taken in the previous months to implement this order;*
- (4) when and what results are intended to be realized by each of these steps;*
- (5) the results realized in the previous month;*
- (6) the steps planned to be taken in the following month;*
- (7) certification by Defendants that they are fully compliant with all deadlines that became due in the previous month;*
- (8) Defendants’ estimate for when the wait times will reach seven days or less, and all data relied on in making that estimate; and*
- (9) any other information the Monitor informs Defendants is necessary for the Monitor to fully review Defendants’ actions and advise the Court.”*

The April 2015 order was modified on February 8, 2016. Monthly status updates of the February 8 order requirements are listed in the February 8, 2016 Court Order Status Report/Updates section of this report.

This report provides the class member data for Competency Services displayed in two periods—June 1, 2016 – June 30, 2016 and July 1, 2016 - July 31, 2016. The June data are considered “mature” and the July data are a “first look” data set. April 2015 is the baseline month for data analysis.

Specific class member evaluation and restoration information is included in the appendices to this report.

RESOURCES REQUIRED TO PROVIDE TIMELY COMPETENCY SERVICES

Need Projections and Bed Capacity

The investment made by the Legislature in the 15-17 biennial budget, and the short and long-term strategies that are being undertaken, will enable Washington to provide competency services within the State/Court established time frames. Washington is making every effort to provide competency services within the seven-day standard as soon as it is financially, physically, staff resource wise possible.

Compliance projections were initially based on the estimates and data included in previous monthly reports, the Long Term Plan dated July 2015, and the May 2016 revised Long Term Plan. An updated projection model has been developed and preliminary results were submitted to Dr. Danna Mauch on July 29, 2016. A copy of the submitted projection data are included in this report as Appendix I. OFMHS will plan to submit additional drafts of the model as it is refined and ultimately finalized.

There are no additional changes to this resources section regarding funding, FTEs, or evaluator positions. In regards to restoration bed counts, both of the temporary restraining orders restricting use of the upstairs at the Yakima and Maple Lane Competency Restoration Sites have been lifted, allowing for full capacity at these sites. When information changes in the future, an update will be included.

TRUEBLOOD KEY ACCOMPLISHMENTS – JULY 2016

RECRUITMENT

- New job announcements for physicians, psychiatrists, psychologists, LPN, PSN, RN 2/3, MHT and PSA's have attracted several hundred new applicants for positions at WSH. An incentive bonus of \$10,000 has been offered to non-WSH employees, which has succeeded in attracting external candidates (over 90%).
- Union negotiations have been successful and physicians, psychiatrists and psychiatric social workers have all either received pay increases or additional recruitment incentives or both. Negotiations will be wrapped up by mid-September.
- The initial advertising campaign for nurses was launched and is presently in motion with the Washington State Nurses Commission. Nurse recruitment has remained steady throughout the summer months and should increase after the vacation season ends in September. DSHS has purchased nationwide advertising materials aimed at transitioning military personnel into medical fields. This campaign starts August 1, 2016 and will run through October 2016. Additional campaigns are scheduled in the next thirty days for physicians, psychiatrists and psychologists.
- Alternate qualifications for the Psychiatric Security Attendant have increased applicant traffic significantly. To date, the recruitment team has vetted and referred 66 PSA candidates to the WSH hiring team.
- The recruitment incentives and increased compensation for nurses are attracting candidates. To date, the recruitment team has vetted and referred 50 RN2s, 35 RN3s and 15 LPN2s to the WSH hiring team.

RESIDENTIAL TREATMENT FACILITIES

- As of July 31, the census at the Yakima Competency Restoration Program was 16, and they have admitted a total of 30 patients since opening. Ten patients have been recommended for early evaluation. Of these 10, 7 have been opined competent, 1 opined not likely restorable and 2 evaluations scheduled in August. Of the 14 discharged, 11 were opined competent; 1 opined not competent and re-admitted for a second period of restoration services; 1 opined not likely restorable; and 1 was transferred to receive restoration services at the state hospital.

- As of July 31st, the census at the Maple Lane Competency Restoration Program was 17, and they have admitted a total of 49 patients since opening. Twelve patients have been recommended for early evaluation. Of these 12, 11 have been opined competent and 1 opined not competent (she was re-evaluated 9 days later and opined competent). 32 patients have been discharged. Of those discharged, 20 were opined competent, 6 opined not likely restorable; 1 was returned to jail, and 5 were transferred to receive restoration services at the state hospital.
- One barrier to filling the alternate site beds is that Pierce County (second most referrals statewide) continues to use the incorrect court order form that allows DSHS to place patients into the alternate sites. As reported previously, a new court order was developed by a legislatively mandated workgroup, led by the Administrative Office of the Courts and DSHS and released in early 2016. DSHS has worked to educate partners and stakeholders on this new form and the new alternate sites. Nonetheless, while approximately 25% of restoration orders in western Washington come from Pierce County, access to the alternate sites is greatly limited for those patients due to Pierce County's choice not to use the new court order. DSHS worked with AAG's to draft a letter to use with Pierce county attorneys to request the correct form be used when defendants are a fit for alternate site admission.
- DSHS initially developed two primary pathways to refer a patient to an alternate site. One of these pathways includes identifying and screening patients from the WSH waitlist, and referring appropriate cases to the alternate sites for review and approval/denial. To date, this pathway has been able to achieve approximately 66% occupancy at the alternate sites. The other pathway includes considering current patients within the competency restoration wards at the two state hospitals. DSHS's early planning efforts strategically identified these patients as perhaps the primary source for referrals to the alternate sites, considering that they may have become somewhat stabilized psychiatrically, and also "known" in terms of their institutional conduct. Patients with meaningful periods of time left in their restoration treatment period (especially those preparing for 2nd 90 day commitments) would be a strategically wise pool of possible patients for the alternate sites. The OFMHS is currently holding planning meetings with WSH and ESH staff to develop strategies for identifying patients at the hospitals who would be appropriate candidates for alternate sites.

MOBILE TECHNOLOGY SOLUTIONS FOR EVALUTORS

- Mobile technology hardware (laptops and software) are now available for up to 24 evaluators. Another 12 units are configured and ready to deploy.
- Required Security Design Review with Enterprise Technology was completed and passed for mobile devices. The Citrix system is currently under configuration so that evaluators can remotely and securely access documents and information across firewalls.
- DSHS has prepared a pilot plan for use of Dragon dictation software by forensic evaluators. Dragon is a "natural language processor" which eliminates the need for transcription. Roll-out beyond the pilot will be dependent on completion of Citrix configuration so that security is safeguarded.

WAIT TIMES

- For restoration, the **ESH average has fallen to 7.2 days in July**. The combined hospital average has fallen to 20.2 days in July.

The consultants' report is due to the Governor and Legislature by Oct. 1, 2016. Section 5(3) requires DSHS to contract for the services of an academic or independent state hospital psychiatric clinical care model consultant to examine the clinical role of staffing at the state hospitals. The consultants' report is due to the Governor and Legislature by Oct. 1, 2016. 	<ul style="list-style-type: none"> Funds were appropriated to the Governor's Behavioral Health Innovation Fund in the 2016 Supplemental Operating Budget. The Select Committee for Quality Improvement in State Hospitals will have their next meeting in September. The agenda is not yet set. DSHS Contract - Staffing Model Update: DSHS contracted with OTB Solutions Group to provide consulting services to examine the clinical role of staffing within the two adult state psychiatric hospitals. Only the director of financial management or designee may authorize expenditures from that Fund, which are provided solely to improve quality of care, patient outcomes, patient and staff safety, and the efficiency of operations at the state hospitals. • Section 7 would have allowed DSHS to apply to OFM to receive funds from the Innovation Fund. However, this section was vetoed by the Governor on April 19, 2016. A process to request funds has not yet been determined. 	<ul style="list-style-type: none"> ○ Final Recommendations Report due 9/30/2016: Recommendations will consider national best practices and stakeholder input, and will include how to best leverage federal funding and estimated costs for full implementation of each recommendation. ○ Final Implementation and Transition Plans due 11/15/2016: Provide an implementation plan and assist with implementation of approved recommendations, and develop a communication plan that clearly and effectively communicates when changes will occur and the specifics of those changes. • Jail Diversion Consultant: The Governor's Office will contract with a consultant to examine how to best divert persons with mental illness from the criminal justice system and identify appropriate funding mechanisms. The jail diversion final recommendations report is due 10/1/16.

The OFMHS has also consulted with the lead trainer of the State of Oregon certification program. A state-wide certification program will require budget analysis and legislation. DSHS will continue to work with DOH regarding the next steps in considering evaluator certification. DOH has suggested that a sunrise review be conducted which requires a formal legislative request and additional DOH review.

The status updates to the February 8, 2016 Court Order are shown below.

NOTE: This tracker does not include all items previously reported as complete.

<i>1. Implement a triage system to sort class members waiting for in-jail evaluations by the acuity of their mental illnesses and their current manifestations, by the seriousness of their crimes, and by the amount of resources their cases require, by:</i>			
Requirements	Date	Status	Progress Notes

<i>2. Eliminate the backlog of class members currently waiting for in-jail evaluations by:</i>			
A. Formally notifying DSHS's forensic evaluators and Pierce County's panel evaluators of plan to eliminate the backlog of people waiting for in-jail evaluations and requesting their help in doing so, and providing plans to get evaluations done through the use of extra duty pay and other methods available	February 15, 2016	Complete	Complete

3. Implement a triage system to sort class members waiting for in-hospital evaluations by the acuity of their mental illnesses and their current manifestations, by the seriousness of their crimes, and by the amount of resources their cases require, by:			
C. Reporting on the implementation and effectiveness of the triage plan in Defendants' monthly reports to the Court Monitor	Beginning April 15, 2016, ongoing	Ongoing	As of 7/31/2016, DSHS has received twelve triage referrals – 4 from Thurston, 4 from Snohomish, 2 from Island and 2 from Clark. Nine were approved. Two referrals were admitted to WSH prior to completion of the triage process, and one did not have an order for restoration at the time of referral. On average, it takes 10.5 days for an individual to be expedited through the triage system. Much of this time is spent on pre-admission Sell hearing scheduling. The turnaround time for material review from both the triage consultant and the Chief Medical Officer has been quick -within 3 days. There are some internal questions to resolve regarding triage policies and procedures, and OFMHS is collecting suggestions for improvements from partners. Additional information and updates on the triage system may be found in the “explore and pursue triage system possibilities” task in the Trueblood Implementation Steps matrix above.

5. Report on the implementation status of the CMS Plan of Correction by:			
B. Reporting on the implementation status in Defendants’ monthly reports to the Court Monitor	Beginning March 15, 2016, ongoing	Ongoing	On June 2, 2016, DSHS finalized negotiations with CMS to enter into a 13 month Systems Improvement Agreement (SIA) to allow Western State Hospital (WSH) the time and guidance needed to fix systemic operating problems and put more focus on patient treatment and overall safety. Signing the SIA rescinds the termination of CMS’s Medicare Provider Agreement with WSH, but allows CMS to reissue termination if it finds that the hospital is not progressing toward full compliance with the Medicare Conditions of Participation (CoPs), a requirement for federal funding. The Department does not anticipate expansion of bed capacity at WSH to be implemented during the 13 month SIA.
6. Plan for recruiting and staffing 30 beds at WSH after compliance with CMS’s terms of participation is achieved in March by:			
C. Reporting on the implementation status of the plan and timeframe in Defendants’ monthly reports to the Court Monitor	Beginning April 15, 2016, ongoing	Ongoing	DSHS has taken the actions necessary to support the transition of restoration beds back to the state hospitals by July of 2017. Next steps towards this effort will begin in January 2017.
8. Remove barriers to the expenditure of the \$4.8 million in currently allocated diversion funds by:			
D. Executing contracts for implementation by the selected providers	April 15, 2016	Complete	DSHS has made a request to OFM and the legislature to release the unused federal funds as state funds. This will allow DSHS greater flexibility in funding diversion projects. We continue to work with the court monitor on identifying options to expedite the release of the funds.

10. Develop a reliable and valid client-level data system to support better management and accountability of the forensic services system by:			
E. Implementing revisions to the existing system or initiating development of a new forensic data and management information system	May 27, 2016	Ongoing	The design phase of the new data system is set to begin once the charter and project requirements are finalized and approved by the governance committee. The next governance committee meeting is scheduled for August 31.

JULY 7, 2016 CONTEMPT ORDER STATUS UPDATES

The three status updates required in the July 7th Court Order are below.

1. Monetary sanctions – fines are imposed on a per class member, per day basis. On the 15th of every month, DSHS is required to submit contempt fines data to the court. These data will be submitted to the court on August 15, 2016 and will be included in this report when finalized as Appendix J.
2. Diversion plans – DSHS is ordered to develop, in consultation with the Court Monitor, plans for the expenditure of the contempt fines. The first submission to the court is due on August 20.
3. Wait time data – DSHS shall submit to the Court wait time data in a manner identical to the data submitted on June 17, 2016 in the declaration of Bryan Zolnikov. These data are included in this report in Table 1.
