BACKGROUND

On April 2, 2015, the Court ordered the Department of Social and Health Services to file monthly reports with the Trueblood Court Monitor. DSHS reports on the efforts to comply with Court Orders to provide timely competency evaluation and restoration services to Class Members, as indicated below:

Defendants shall file a report with the Monitor on the fifth day of every month, which shall include:

- (1) the number of days between when a court ordered provision of competency services and when provision was completed, for each person ordered to receive competency services during the previous month;*
- (2) data regarding the number of evaluators, bed capacity, physicians, and other resources needed to provide timely competency services;*
- (3) the steps taken in the previous months to implement this order;*
- (4) when and what results are intended to be realized by each of these steps;*
- (5) the results realized in the previous month;*
- (6) the steps planned to be taken in the following month;*
- (7) certification by Defendants that they are fully compliant with all deadlines that became due in the previous month;*
- (8) Defendants' estimate for when the wait times will reach seven days or less, and all data relied on in making that estimate; and*
- (9) any other information the Monitor informs Defendants is necessary for the Monitor to fully review Defendants' actions and advise the Court.*

The April 2015 order was modified on Feb. 8, 2016. Additional orders were issued on July 7, 2016, Aug. 15, 2016, and April 26, 2017. Narrative status updates on these orders begin on page 54.

This monthly report is submitted on August 31, 2022 and primarily covers July 2022 activity. Additionally, this report displays Class Member data for competency services in two periods: June 1, 2022-June 30, 2022 and July 1, 2022-July 31, 2022. The June data are considered "mature," and the July data are a "first look" data set. April 2015 is the baseline month for data analysis.

Evaluation and restoration information specific to individual Class Members appears in this report's appendices.

CLASS MEMBER STATUS SUMMARY INFORMATION

TEMPORARY CHANGES TO ADMISSIONS PRACTICES AT WSH, ESH, AND THE RTFs DUE TO THE COVID-19 PANDEMIC-AUGUST UPDATE

To protect both patients and staff, in accordance with guidance from federal, state, and local health departments and the DSHS incident command center, forensic admissions at our residential facilities are occurring at a decreased capacity to ensure proper quarantining procedures for new admissions prior to being admitted to a non-quarantine ward as well as to maintain proper physical distancing. Washington state officially re-opened from pandemic-related closures on June 30, 2021, subject to limited restrictions. BHA facilities continue observing COVID-19 restrictions in place for medical facilities.

As of Aug. 31, 2022, WSH is at 680 confirmed cases of COVID-19 in clients (25 new cases in August), including three deaths, and 1,012 confirmed cases in staff members (49 new cases in August). As of Aug. 31, 2022, ESH has had 470 staff members (20 new cases in August) and 210 clients (22 new cases in August) test positive for COVID-19.

Our two residential treatment facilities have had positive COVID-19 test results with 31 staff (eight new cases in August) and 12 patients testing positive at FSCR (zero new cases in August). Maple Lane has had 26 staff (seven new cases in August) test positive and three patients (two new cases in August).

These temporary measures are necessary to implement COVID-19 protections at WSH, ESH, and the RTFs. DSHS will continue to increase forensic admissions to all four facilities as soon as that can safely be accomplished. These measures are a change from prior practice and remain subject to change at any time as additional information is received.

ANALYSIS OF MATURE DATA: MAY 1, 2015 THROUGH JUNE 30, 2022

Note: These data are based on number of days from signature and not the new timeframes as described in the April 26, 2017 Court Order.

The average monthly referrals for each type of service are as follows.

- Average monthly jail-based evaluation orders signed for April 2015-June 2022
 - Western State Hospital (WSH): 277.8
 - Eastern State Hospital (ESH): 68.4
 - Both hospitals: 346.2

- Average monthly inpatient evaluation orders signed for April 2015-June 2022
 - WSH: 13.9
 - ESH: 9.2
 - Both hospitals: 23.1

- Average monthly restoration orders signed for April 2015-June 2022
 - WSH: 82.1 *
 - ESH: 19.7
 - Both hospitals: 101.8 *
 - Hospitals plus Residential Treatment Facility (RTF's): 119.3

- Average monthly RTF restoration orders signed for August 2018-June 2022
 - RTF's: 32.4 **
- Average monthly OCRP restoration orders signed for July 2020-June 2022
 - Phase 1 OCRP (All Locations): 0.5 ***

* From April 2015-July 2018, this figure also includes restoration orders for the RTF's; therefore, these figures exceed the WSH figures and the two hospital figures combined.

** Prior to Aug. 2018, RTF data was combined with WSH. From Aug. 2018 onward, RTF data is reported separately. Yakima RTF closed to patients on July 26, 2021.

*** OCRP treatment began in two Phase 1 regions on July 1, 2020 and in the third Phase 1 region on Sept. 1, 2020. Only client's whose wait for treatment was jail-based are included in this data measure.

SUMMARY POINTS RELATED TO ORDERS AND TIMELINESS BASED ON MATURE JUNE DATA

Orders:

- For June, the number of jail-based evaluation orders assigned to WSH declined by 6.3-percent, decreasing by 27 orders to 402.
- ESH's jail-based evaluation orders in June increased significantly by 44-percent, increasing to a record high 157.
- In June, WSH received nine inpatient evaluation orders, which is below the monthly average of 14.0 orders. ESH orders for June increased by four to a total of 12 orders for the month.
- WSH received 131 restoration orders in June, an increase of 4.8-percent compared to May. ESH had 40 orders in June, which was the same order total that occurred in May. The RTF's received 5 orders in June, which is a significant decrease from 19 orders in May. The June RTF order number is likely to change as the RTF restoration order data has a tendency to mature more slowly than other facilities, and as a result will likely continue to change significantly over the next 30-60 days.

* Prior to Aug. 2018, RTF data was included with the data for WSH. From Aug. 2018 onward, RTF data is reported separately. Yakima RTF closed to patients on July 26, 2021.

Wait Times:

- Regarding jail-based 14-day evaluation completion times, WSH declined slightly to 13.1 days on average in June, from order to completion. ESH evaluation times increased to an average of 20.5 days. The combined average, across the system, increased modestly to 14.7 days on average to completion. On time completion decreased to 78-percent.
- The average inpatient evaluation admission wait time at WSH is currently 85.0 days in June, a significant increase from 18.3 days in May. ESH's average wait time in June increased significantly to 44.7 days from 28.1 days in May. It is worth noting that the average inpatient evaluation wait times are subject to significant monthly swings in either direction due to the small numbers of patients being admitted and evaluated through this legal authority.
- Restoration admission wait times at WSH is 64.8 days in June, a modest increase from May. The ESH average admission wait-time increased moderately to 69.1 days in June from 57.1 days in May.

Timeliness:

- At WSH, overall timeliness for jail-based evaluation completion declined modestly in June to an average 88-percent completion rate within 14-days from receipt of order. ESH's timely completion rate decreased moderately to 43-percent in June.
- At both hospitals combined, June's overall timeliness for inpatient evaluation admissions decreased to a 11-percent completion rate within 7-days from receipt of order.
- At both hospitals and the RTF's combined, overall timeliness for inpatient restoration admissions for June increased to a 12-percent completion rate within 7-days.

OUTLIER CASES (MATURE) JUNE

DATA TABLES 1A. THROUGH 1C.

Evaluations and restorations not completed within standard timelines become outliers. The monthly outlier population cases have been defined as:

- *Population is active span cases from the “mature” data month. Currently, the “mature” month is June.*
- *Evaluation spans: are incomplete or were completed after the end of the “mature” month and wait more than 20-days for an evaluation (In-Jail), or admission (Inpatient), or a change of client status to out of jail, or order withdrawn by court.*
- *Restoration spans: are incomplete or were completed after the end of the “mature” month and wait more than 40-days for admission, or a change of client status to out of jail, or order withdrawn by the court.*

Table 1a. Outlier Cases (Mature)

Type	Number of spans:	span begin to span end, or end of reporting period	
		Minimum Number of days	Maximum Number of days
In-Jail Evaluations	32	21	44
Inpatient Evaluations	26	21	126
Inpatient Restorations	347	41	681

Table 1 continues below and details reasons contributing to delays in completing evaluations for outlier cases. Page nine above lists the Trueblood definition of "Outlier Cases."

Table 1b. Summary of Evaluator Delay Reasons

TABLE 1b. Continued SUMMARY OF EVALUATOR DELAY REASONS ¹			
REASONS FOR DELAY IN DATABASE	In-Jail Evaluations	Inpatient Evaluations	Inpatient Restorations
Defendant No Show	1		
Defendant Reschedule			
Evaluator availability	7		
Police reports availability			
Relevant discovery availability			
Jail/Outside facility staffing issues	1		
Attorney scheduling conflicts	5		
Jail return/Discharge with no eval done			
Requires amended court order			
Charges adjudicated prior to eval			
New charges - wait for new court order			
Client released from custody & can't be located			
Defendant would not participate without attorney present			
Defendant would not cooperate with evaluation	1		
Interpreter needed but court order did not request it			
Other patient cooperation problem			
Evaluator rejected by prosecutor			
Medical Record/Collateral Information			
Interpreter scheduling conflicts	1		
Defense Expert scheduling			
police reports	12	3	1
Attorney No Show			
Jail conference room availability/scheduling issues	3		
Processor error/clerical error	4		
Delay in Report Distribution			
Client or other required evaluation personnel have contracted or been exposed to COVID-19			
No COVID-safe option to conduct the evaluation			
Delay in Submission of Evaluation Report due to Staff Furlough			
Order Processing Delay due to Staff Furlough			
Late Assignment			
Pending			
Unknown	7		
Not Applicable ²	2	23	346

¹An incomplete case may have more than one delay reason. Therefore, the number of delay reasons may be greater than the number of outlier cases.

²Not Applicable indicates that none of the delays listed in the table apply to the competency service specified, or the case was completed within the compliance deadline with no delay reason recorded.

Finally, Table 1 concludes with a focus on the reasons outlier cases experience delays prior to and during the inpatient services admissions process.

Table 1c. Summary of Admission Delay Reasons

TABLE 1c. continued SUMMARY OF ADMISSION DELAY REASONS ¹			
REASONS FOR DELAY IN DATABASE	In-Jail Evaluations	Inpatient Evaluations	Inpatient Restorations
Bed availability		26	339
Medical clearance availability			
Police reports availability			
Relevant discovery availability			
NCIC/Processing			
Hospital staffing issues			
Jail/Outside facility staffing issues			
Jail return/Discharge with no eval done			
Requires amended court order			
Charges adjudicated prior to eval			
Other patient cooperation problem			
Evaluator rejected by prosecutor			
Medical Record/Collateral Information			
Awaiting Instructions from Court			1
change from JH to PR			1
Client released from custody & can't be located			
In Custody - Not In Jail			
in hospital - furlough from jail			
Medical Clearance Needed			
Client contracted or has been exposed to COVID-19			
Client Being Reevaluated			2
Order Processing Delay due to Staff Furlough			
Unknown			7
Not Applicable ²	32		

¹An incomplete case may have more than one delay reason. Therefore, the number of delay reasons may be greater than the number of outlier cases.

²Not Applicable indicates that none of the delays listed in the table apply to the competency service specified, or the case was completed within the compliance deadline with no delay reason recorded.

CLASS MEMBER STATUS DATA TABLES

The following series of tables present mature Class Member status data for June. July data, highlighted in light orange are “first look” and are subject to change over time as the data matures. Data highlighted in salmon indicate a data value that has matured and has been updated during the most recent reporting period.

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³Days from order signature to³ represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the report is sent to the court, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 to June 2016, the in-jail evaluation compliance deadline was within 7 days from court order signature date, and from July 2016 to April 2017, the in-jail evaluation compliance deadline was within 14 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for in-jail competency evaluations outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: “DSHS shall complete in-jail competency evaluations within the shorter of either a) 14 days from receipt of order or b) 21 days from signature of order”. To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail) or 21 days from order signature date (if the order was received after 7 days from order signature date). In addition, starting in August 2018, the in-jail evaluation compliance calculations are adjusted based on Good Cause Extensions granted by the court.

Jul-22	15	0.3	0.0	0.3	0.0	43.3	31.0	11	30.0	4.0	55%	55%	55%

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³Days from order signature to³ represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the client is admitted for services, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 April 2017, the inpatient evaluation and restoration compliance deadline was within 7 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for inpatient competency evaluation and restoration services outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete inpatient competency evaluation and restorations within the shorter of either a) 7 days from receipt of order or b) 14 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date).

¹Data before - AUG-2018 is previously reported data from the legacy data systems and includes both WSH and RTF data for those months in this table. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System, is based on the number of periods individuals waited for competency services in jail, and only includes WSH data for those months in this table.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³Days from order signature to³ represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the client is admitted for services, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 April 2017, the inpatient evaluation and restoration compliance deadline was within 7 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for inpatient competency evaluation and restoration services outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete inpatient competency evaluation and restorations within the shorter of either a) 7 days from receipt of order or b) 14 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date).

Jul-22	0	5.5	0.0	0.0	0.0	n/a	n/a	29	70.3	75.0	0%	0%	0%

¹Data before - AUG-2018 is not included because during those months, the RTF data was combined with the WSH data. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³"Days from order signature to" represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the client is admitted for services, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 to April 2017, the inpatient evaluation and restoration compliance deadline was within 7 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for inpatient competency evaluation and restoration services outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete inpatient competency evaluation and restorations within the shorter of either a) 7 days from receipt of order or b) 14 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date).

THE OUTPATIENT COMPETENCY RESTORATION PROGRAM-DATA TABLE 4C.

The Trueblood Settlement Agreement's OCRP element, managed by the Washington State Health Care Authority, provides an additional option for courts to order community-based restoration services in a less restrictive environment for defendants with appropriate acuity levels in the three Phase 1 regions. OCRP intends to provide the most appropriate level of care to the individual, ideally closer to their home community. Providing restoration services in a safe and cost-effective environment, while utilizing the newly available community treatment program should hopefully reduce the number of people wait-listed to receive competency restoration in an inpatient setting.

This month's report covers events from July 1-July 31, 2022. Data from this month are considered "first-look" and are likely to change as they mature. Data tables reflecting OCRP services are included in Tables 4c., 14, and Appendix F. Figures 2, 5, and 6 represent the visual presentation of OCRP data in this report. Only data from Trueblood Class Members appears in the OCRP tables and figures. As a result, some months have no new OCRP data to report.

Most individuals ordered to OCRP will not appear in Table 4c. Table 4c. is restricted to class members, meaning individuals in jail waiting for competency restoration services at any time after the competency order is signed. Currently, the majority of individuals ordered to OCRP are released from jail prior to the court signing the OCRP order and remain in the community until entry into OCRP. The total number of individuals enrolled in an Outpatient Competency Restoration Program (regardless of jail status) is provided in the Trueblood semi-annual report and reported quarterly in Table 17 of this report. The OCRP update in Table 17 begins on page 49 of this month's report. Table 4c. follows on the next page.

¹The OCRP was implemented July 1, 2020. The data are pulled from the BHA Forensic Data System and Navigator Case Management System and based on the number of periods individuals waited for competency services in jail.

²**Court Orders Signed** is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³**Days from order signature to** represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴**Court Orders Completed** is the number of cases completed in the month specified. Cases are completed if the client is admitted for services, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts are from data recorded in the BHA Forensic Data System and Navigator Case Management System.

⁵The following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶According to the Settlement Agreement, "For criminal defendants waiting in jail, an offer of admission to the community outpatient restoration services program will occur within the constitutional timelines for restoration as outlined by the Federal Court." Therefore, this table captures the 3 compliance deadlines captured for inpatient competency restoration: 1) percent completed within 7 days from court order signature date (as stipulated from April 2015 to April 2017) and 2) percent of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) and 3) percent of all orders completed within either of two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date) (from May 2017 onward as outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389).

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³Days from order signature to³ represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the report is sent to the court, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 to June 2016, the in-jail evaluation compliance deadline was within 7 days from court order signature date, and from July 2016 to April 2017, the in-jail evaluation compliance deadline was within 14 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for in-jail competency evaluations outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete in-jail competency evaluations within the shorter of either a) 14 days from receipt of order or b) 21 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail) or 21 days from order signature date (if the order was received after 7 days from order signature date). In addition, starting in August 2018, the in-jail evaluation compliance calculations are adjusted based on Good Cause Extensions granted by the court.

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³Days from order signature to³ represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the client is admitted for services, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 April 2017, the inpatient evaluation and restoration compliance deadline was within 7 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for inpatient competency evaluation and restoration services outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete inpatient competency evaluation and restorations within the shorter of either a) 7 days from receipt of order or b) 14 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date).

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³Days from order signature to³ represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the client is admitted for services, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 April 2017, the inpatient evaluation and restoration compliance deadline was within 7 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for inpatient competency evaluation and restoration services outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete inpatient competency evaluation and restorations within the shorter of either a) 7 days from receipt of order or b) 14 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date).

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³"Days from order signature to" represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the report is sent to the court, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 to June 2016, the in-jail evaluation compliance deadline was within 7 days from court order signature date, and from July 2016 to April 2017, the in-jail evaluation compliance deadline was within 14 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for in-jail competency evaluations outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete in-jail competency evaluations within the shorter of either a) 14 days from receipt of order or b) 21 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail) or 21 days from order signature date (if the order was received after 7 days from order signature date). In addition, starting in August 2018, the in-jail evaluation compliance calculations are adjusted based on Good Cause Extensions granted by the court.

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²Court Orders Signed is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³"Days from order signature to" represents the number of days from the beginning of a period of waiting in jail for competency services to the specified timeframe (i.e., hospital receipt of order, hospital receipt of discovery, end of reporting month of incomplete referrals, and completion (or the end of a period of waiting in jail for competency services)).

⁴Court Orders Completed is the number of cases completed in the month specified. Cases are completed if the client is admitted for services, the order is withdrawn or dismissed, or the client is no longer waiting for services in jail. Counts prior to AUG-18 are taken from previously reported classmember populations provided with monthly court report submissions. Counts since AUG-18 are from data recorded in the BHA Forensic Data System.

⁵From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: completion and the percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁶From April 2015 April 2017, the inpatient evaluation and restoration compliance deadline was within 7 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for inpatient competency evaluation and restoration services outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete inpatient competency evaluation and restorations within the shorter of either a) 7 days from receipt of order or b) 14 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date).

CLASS MEMBER STATUS DATA GRAPHS

The following figures, Figures 1-6, present “first look” July data. The data are subject to change as they mature over a longer time horizon.

Figure 6. Average Days from Court Order Signature to Completed Restoration

TABLES 11-14: SUMMARY OF JAIL EVALUATIONS, IN-PATIENT EVALUATIONS, AND RESTORATIONS BY MONTH SINCE FEBRUARY 2016

The data presented in this section, from Tables 11-14 (percent days or less), are based on the month that the Court Order was signed and will therefore be different from the data shown previously in Tables 2-10, which are based on the month the order packet was completed. July numbers are first look, and percentages may change as many cases (those with orders at the end of the month) will close within the seven or fourteen day timely completion period. A rolling thirteen months is displayed in Tables 11-14.

¹Data before - AUG-2018 is previously reported data from the legacy data systems. Data from AUG-2018 onward, is updated data pulled from the new BHA - Forensic Data System and is based on the number of periods individuals waited for competency services in jail.

²**Court Orders Signed** is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³From AUG-2018 onward, the following data elements exclude periods of waiting for competency services in jail that have not yet ended: orders completed and percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁴From April 2015 to June 2016, the in-jail evaluation compliance deadline was within 7 days from court order signature date, and from July 2016 to April 2017, the in-jail evaluation compliance deadline was within 14 days from court order signature date. As of May 2017, DSHS compliance data are calculated and summarized in this table based on the modified deadline for in-jail competency evaluations outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389, stating: "DSHS shall complete in-jail competency evaluations within the shorter of either a) 14 days from receipt of order or b) 21 days from signature of order". To comply with the new requirements, this report captures two additional sets of compliance information beginning in May, 2017. The first is percentage of orders completed within 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail). The second is percentage of all orders completed within either of the two compliance deadlines: 14 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 14 days from the beginning or notification of a period of waiting in jail) or 21 days from order signature date (if the order was received after 7 days from order signature date). In addition, starting in August 2018, the in-jail evaluation compliance calculations are adjusted based on Good Cause Extensions granted by the court.

THE OUTPATIENT COMPETENCY RESTORATION PROGRAM-DATA TABLE 14

The OCRP element of the Trueblood Contempt Settlement Agreement that is managed by the Washington State Health Care Authority, provides an additional option for courts to order community-based restoration services in a less restrictive environment for defendants with appropriate acuity levels in the three Phase 1 regions. The intent of OCRP is to provide the most appropriate level of care to the individual, ideally closer to their home community. Providing restoration services in a safe and cost-effective environment, while utilizing the newly available community treatment program should hopefully reduce the number of people wait-listed to receive competency restoration in an inpatient setting.

This month's report covers events from July 1-July 31, 2022. Data from this month are considered "first-look" and are likely to change as they mature. Data tables reflecting OCRP services are included in Tables 4c., 14, and Appendix F. Figures 2, 5, and 6 represent the visual presentation of OCRP data in this month's report. Only data from Trueblood Class Members is reflected in the OCRP tables and figures. As a result, some months have no new OCRP data to report.

Most individuals ordered to OCRP will not appear in Table 14. Table 14 is restricted to class members, meaning individuals in jail waiting for competency restoration services at any time after the competency order is signed. Currently, most individuals ordered to OCRP are released from jail prior to the court signing the OCRP order and remain in the community until entry into OCRP. The total number of individuals enrolled in an Outpatient Competency Restoration Program (regardless of jail status) is provided in the Trueblood semi-annual report and reported quarterly in Table 17 of this report. The OCRP update in Table 17 begins on page 49 of this month's report. Table 14 follows on the next page.

Jul-22	0	0	n/a	0	n/a	0	n/a

¹The OCRP was implemented July 1, 2020. The data are pulled from the BHA Forensic Data System and Navigator Case Management System and based on the number of periods individuals waited for competency services in jail.

²**Court Orders Signed** is the number of court orders signed in the specified month for those individuals waiting for competency services in jail and any additional in-jail stays (i.e., periods of waiting for competency services in jail) starting in the specified month due to a class member entering jail from the community while awaiting a court-ordered competency service. This number does not include court orders signed for individuals waiting for competency services outside of jail.

³The following data elements exclude periods of waiting for competency services in jail that have not yet ended: orders completed and percent completed variables. Once the waiting period has ended, those cases will be included in the wait-time and percents.

⁴According to the Settlement Agreement, "For criminal defendants waiting in jail, an offer of admission to the community outpatient restoration services program will occur within the constitutional timelines for restoration as outlined by the Federal Court." Therefore, this table captures the 3 compliance deadlines captured for inpatient competency restoration: 1) number and percent completed within 7 days from court order signature date (as stipulated from April 2015 to April 2017) and 2) number and percent of orders completed within 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) and 3) the number and percent of all orders completed within either of two compliance deadlines: 7 days from receipt of order (if the order was received within 0 and 7 days from order signature date) (or 7 days from the beginning or notification of a period of waiting in jail) or 14 days from order signature date (if the order was received after 7 days from order signature date) (from May 2017 onward as outlined in the order DSHS received on 4/26/2017 adopting the Mediated Settlement Agreement, Dkt. # 389).

RESOURCES REQUIRED TO PROVIDE TIMELY COMPETENCY SERVICES

2017-2019 BUDGET APPROPRIATIONS

The state's 2017-19 operating budget appropriated \$51 million for implementation of efforts to improve timeliness of competency restoration services pursuant to Chapter 5, Laws of 2015 (SSB 5889). The budget funded an additional 30-bed forensic ward in Fiscal Year 2019, by converting one 30-bed civil ward. The forensic ward re-opened in May 2018.

On Jan. 25, 2018, Judge Pechman approved contempt fine funds to remodel Building 27. This resulted in the 30-bed FSCRCP opening on WSH's campus in August 2019. The state's FY'19 supplemental operating budget provided the funding to operate FSCRCP.

The FY'18 supplemental capital budget included \$6.5 million to renovate ESH's 1N3 and 3N3 wards to provide another 50 forensic beds at ESH. It also included \$10.5 million in the 2017-19 biennium and proposed \$9.6 million in the 2019-21 biennium for pre-design, design, and renovation of WSH Building 29 to convert 60 civil beds into 42 additional forensic beds. Forty beds were built to allow seclusion rooms in the wards.

2019-2021 BUDGET APPROPRIATIONS

DSHS, HCA and the Washington State Criminal Justice Training Commission received funding to implement the Settlement Agreement approved in the Trueblood et al. v. DSHS lawsuit. Phase 1 of the settlement's agreement covers Pierce, Southwest, and the Spokane regions. This agreement outlines five key areas of investment: competency evaluations, competency restoration, crisis diversion and supports, education and training, and workforce development (funding below is for the 2019-2021 biennium).

1. Administration: \$2.5 million for staff at DSHS and HCA to administer the Settlement Agreement
2. Competency evaluation: \$5 million for 13 forensic evaluators at DSHS in FY'20 and five in FY'21
3. Competency restoration: \$1.89 million to HCA for OCRP; programs are active in the Phase 1 regions
4. Crisis services: \$10.23 million to HCA for expanded triage, stabilization, and mobile diversion services
5. Diversion support: \$11 million to HCA to divert people experiencing behavioral health issues from the criminal court system for misdemeanor crimes; funding for crisis triage, OCR services, and housing supports
6. Engagement and Outreach: \$4.7 million to HCA for services identified to clients through comprehensive predictive data modeling; allows supportive FPATH outreach teams to connect high utilizers to services
7. Housing supports: \$6.4 million to HCA's FHARPS teams for housing services and transitional housing vouchers for referrals from OCRP, FPATH, other Trueblood services, and transitioning from crisis services

8. Technical assistance to jails and workforce development: \$1.28 million to DSHS for staff to provide technical assistance and training to jails, and to provide dedicated support to workforce development activities
9. \$2.2 million to DSHS to fund nine forensic navigators, a new position/program established in the Settlement Agreement. Navigators' work began in the Phase 1 regions on July 1, 2020
10. \$400,000 and one position at HCA to develop an enhanced continuing education curriculum for certified peer counselors covering the criminal court system; focuses on curriculum development, training materials, and training costs
11. \$899,000 for the CJTC to provide crisis intervention training to law enforcement agencies; \$4 million to CJTC to fund the Washington Association of Sheriffs & Police Chiefs co-responders.

2021-2023 BUDGET APPROPRIATIONS

The COVID-19 pandemic emerged in Washington state in February 2020 resulting in significant pandemic-related expenditures and in emergency budget reductions. COVID-19's fiscal impacts became less severe over time, and federal resources became available to DSHS. The funding below is for the 2021-2023 biennium:

1. \$27.4 million for two new 29-bed forensic competency restoration wards at WSH, F9 and F10, projected to open in fall 2022
2. \$11.6 million to operate a new 16-bed civil long-term mental health inpatient facility at Maple Lane tentatively set to accept patients in winter 2023
3. \$5.8 million to operate a new 16-bed civil long term mental health inpatient facility in Vancouver currently estimated to open in spring 2024
4. \$9.3 million to remodel and operate Columbia Cottage at Maple Lane as a 30-bed facility for NGRI patients from WSH. The current estimated opening is fall 2023
5. \$4.3 million and 20.5 FTEs to support human resources, pharmacy, security, laundry, food services and facilities for two new 25-bed competency restoration wards opened at ESH in FY'20 and FY'21
6. \$3.2 million and 12.0 FTEs for the Forensic Navigator Program to expand to the King region during Phase 2 of the Settlement Agreement. Phase 2 Navigator services began in the King region in January 2022
7. \$3.2 million and 11.6 FTEs for Trueblood management support, to include project managers, records staff, research and data analysis support, and IT support
8. \$52.9 million in capital funding for a 16-bed Behavioral Health Residential Treatment Facility at Maple Lane (operating costs listed in number two above) and a similar 48-bed facility in Clark County (operating costs for the 16 DSHS operated beds listed in number three above; an HCA contractor will operate the other 32 beds at the Clark County RTF). Spring 2024 is the current estimated opening
9. \$51 million for the design of a new 350-bed forensic hospital at WSH. If future funding occurs as planned, construction should be complete in 2027.

NEED PROJECTIONS AND BED CAPACITY

In June 2017, Judge Pechman directed the Court Monitor to have a competency services bed need study conducted to illustrate patient demand and bed need, to ultimately determine the feasibility, timeframe, compliance with court orders, and to measure the impact of community-based competency evaluation on the demand for inpatient competency evaluation and restoration beds. The TriWest Group was selected as the contractor to complete this work. The Court Monitor provided DSHS the draft report on Oct. 3, 2018. DSHS received the finalized report via webinar on Dec. 10, 2018.

TRUEBLOOD KEY ACCOMPLISHMENTS-JULY 2022

Talent Acquisition program staff business managers continue to support hiring needs associated with FSCR, ESH, and WSH.

RECRUITING

Applicants presented to Eastern State Hospital for consideration are indicated below:

Mental Health Technicians - 33 presented
Registered Nurses - 14 presented
Psychiatric Security Nurse - 2 presented
Licensed Practical Nurses - 2 presented
Psychiatric Security Attendant - 10 presented
Physician - 1 presented
Psychologist - 2 presented

Applicants presented to Western State Hospital for consideration are indicated below:

Registered Nurses - 44 presented
Licensed Practical Nurses - 5 presented
Mental Health Technician - 25 presented
Psychiatric Security Attendant - 48 presented
Psychiatric Security Nurse - 7 presented
Psychiatric Social Worker - 17 presented
Institutional Counselors - 84 presented
Psychology Associate - 26 presented
Psychologist - 2 presented
Psychiatrist - 1 presented

Applicants presented to FSCR for consideration are indicated below:

Registered Nurses - 1 presented
Residential Rehabilitation Counselor - 20 presented
Institution Counselor - 4 presented
Psychology Associate - 2 presented
Psychologist - 2 presented

RESIDENTIAL TREATMENT FACILITIES DATA

This section presents monthly data for the current month and the trailing year (13 months), with a year-over-year average comparison. Maple Lane and FSCR P are presented in their own table, Tables 15 and 16 in this section of the report.

TRUEBLOOD IMPLEMENTATION STEPS TAKEN AND PLANNED-JULY 2022

The table below shows implementation steps taken and planned and is updated for the current reporting period.

Table 17. Trueblood Implementation Steps

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Court Appointed Monitor Coordination				
Monthly reports	Released July report.	Complete	<ul style="list-style-type: none"> • Maintain compliance with the Court. • Use data to review and improve the provision of forensic services. 	July report released to stakeholders.
Legislative Coordination				
Implement Engrossed Substitute Senate Bill 6656: Funding applications.	Apply for funding from the Office of Financial Management from the Governor's Behavioral Health Innovation Fund relating to the state hospitals' forensic systems.	Complete	<ul style="list-style-type: none"> • Section 5(2) required OFM to contract with an external consultant to examine the current configuration and financing of the state hospital system and make recommendations on a number of different areas, including identification of the potential costs, benefits, and impacts associated with dividing one or both of the state hospitals into discrete hospitals to serve civil and forensic patients in separate facilities. The consultant's report was due to the 	<p>The Select Committee for Quality Improvement in State Hospitals met on Oct. 30 and Dec. 15, 2017. During the Dec. 15, meeting, the department presented material on the three prosecutorial diversion programs funded in FY '18. The Court Monitor provided an overview and update on eight programs that received Trueblood fine money for diversion services.</p> <p>In 2018, meetings occurred on the following dates: April 18, July 24, and Oct. 18. In 2019, the committee met on Jan. 7, prior to sunseting on July 1.</p> <p>The Behavioral Health Recovery System Transformation committee convened after July 1, 2019, conducting similar work as the Select Committee. The committee met on Sept. 26 and Nov. 12.</p> <p>In 2020, the BHRST committee met on Sept. 25 and Oct. 23. The website below contains the agenda and other meeting materials for the Oct. 23 meeting:</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
			<p>Governor and Legislature by Oct. 1, 2016.</p> <ul style="list-style-type: none"> • Section 5(3) required DSHS to contract for the services of an academic or independent state hospital psychiatric clinical care model consultant to examine the clinical role of staffing at the state hospitals. The consultant's report was due to the Governor and Legislature by Oct. 1, 2016. • Section 6 created the Governor's Behavioral Health Innovation Fund in the state treasury. Only the director of financial management or designee may authorize expenditures from that Fund, which are provided solely to improve quality of care, patient outcomes, patient and staff safety, and the efficiency of operations at the state hospitals. 	<p>https://app.leg.wa.gov/committeeschedules/Home/Documents/28006?//29870/01-01-2020/11-15-2020/Agenda///Bill/</p> <p>BHRST did not meet in 2021. BHRST did not meet during the legislative session that began Jan. 10, 2022 and ended March 10. The committee has not met in 2022.</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
<p>Consult with key partners and stakeholders, including out of state agencies, regarding potential legislation, potential certification of forensic evaluators, and other opportunities to enhance quality assurance.</p>	<p>Consult key partners including out of state agencies.</p>	<p>Ongoing</p>	<ul style="list-style-type: none"> Expanded pool of forensic evaluators would help improve timeliness. Licensure would provide quality assurance and create professional standards for forensic evaluators. Develop long-term certification of forensic evaluators, consistent with the Trueblood Court Monitor’s recommendations on mid- and long-term performance to implement a forensic certification program to sustain performance. 	<p>Consultation with other states regarding certification of forensic evaluators continues through periodic videoconferences and follow-up contacts with key staff in other states. Information about credentialing from other states was shared with the forensic evaluator supervisors, and it was mentioned briefly in the April 2021 meeting. In May 2021, the topic was on the agenda to discuss the next step(s) related to this process. Discussion focused on exploring further a peer review process and what associated training may look like for internal “credentialing.” With work being done on updating the evaluator guidelines manual, this draft of the peer review policy has been delayed until this guidelines manual is completed. Current plan was to have a draft of the peer review policy completed by August 1. However, the need to complete an increasing number of referrals for competency evaluations across the state, pushed the due date back to Sept. 1, 2022.</p>
Labor Coordination				
<p>Engage labor leaders and members.</p>	<p>Conduct ongoing bi-monthly meetings with labor leaders.</p>	<p>Ongoing</p>	<ul style="list-style-type: none"> Discuss policy, budget and operational changes likely required to comply with the Trueblood requirements. Obtain staff necessary to safely support operation of additional forensic and civil beds at the state hospitals. Obtain necessary psychiatrists and physicians to supplement services proved by employees 	<p>OFMHS has one demand to bargain that remains outstanding: Revising the evaluation assignment process at the Northern Regional and SWISS offices (first meeting occurred on Feb. 16, 2022. A second meeting occurred on March 14, a third meeting on April 1, and a fourth meeting on May 10. The plan is to resolve the demand to bargain in August finalizing any outstanding items by email.</p> <p>A touch base meeting on the increase from nine to 12 evaluations per month for east side evaluators is scheduled for August.</p> <p>A new demand to bargain concerning contracting for evaluators to help with current vacancies and referral demand was made in July with the hope for resolution by the end of August.</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
			at WSH to safely support the operation of additional forensic and civil beds.	
Data Collection and Fiscal Modeling				
Monthly report data collection	Identify and obtain needed data.	Complete	<ul style="list-style-type: none"> Obtain data for monthly reports and develop standardized reports to inform policy development and implementation. 	Data collection is ongoing. The Forensic Data System technical team continues to meet bi-monthly with program and RDA. Reporting needs are identified, run through change control, and implemented as needed. This process is operationalized.
Institute data audit process.	Review data and files of cases with anomalies and identify trends.	Complete	<ul style="list-style-type: none"> Ensure completeness and accuracy of wait list data. 	Data validation process is ongoing. IT project team, and RDA analysts, researched data anomalies to determine the cause, impact, and remediation needed.
Forensic Data System design/ development	Analyze legacy applications data quality for potential data migration.	Complete	<ul style="list-style-type: none"> Integrated forensic system with consistent data entry and tracking of all Class Members from creation of court order for mental competency evaluation through completion of evaluation and/or restoration. Provided capability for access by evaluators to client status changes, regardless of location, to reduce delays. Provided a single platform for quality reporting, eliminating the variability currently inherent in leveraging legacy 	

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
			applications not meant for this purpose.	
FDS Post-implementation Processes	Data migration clean-up	Complete	<ul style="list-style-type: none"> Some migrated data contained historical elements that needed to be cleaned up in the new system. 	Historical data load has been loaded into FDS and is available to approved roles.
	Usability	Complete	<ul style="list-style-type: none"> The system contains modules that align with roles of forensic activities and allows for controlled access by those same user roles. This controlled access prevents users from easily seeing activity for a court order that crosses many modules. Modified search screens to reveal all court orders for each client. Streamlined admissions process; created refined inpatient "Due In/ Due Out" movement report. 	<p>The IT project team has modified search screens to show a more complete snapshot of the court order which has eliminated the barriers resulting from role-based access. Roles still limit which data may be edited by specific users.</p> <p>System now directs users to all court orders for a client, including the client's aliases.</p> <p>The Due In/Due Out Report has been modified to contain the essential fields for the hospital admission coordinators. Additional requirements were gathered to also meet the needs of other admission coordinators.</p>
	System data issues	Complete	<ul style="list-style-type: none"> Improved data integrity (date client status effectively changed, Forensic Evaluation Completion, Due In Date and Due Out Date) Resolve missing data (CINs) 	<p>Client Status History table has been added to the database and user interface, user interface has been updated to capture updated Court Order Due Date for Forensic Evaluation Completion.</p> <p>New Client Identification Number confirmer has been trained, and we are requesting access to additional secondary systems for identifying clients.</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
			<ul style="list-style-type: none"> Built ability to link queues, status start dates and status due dates to changes in client data, delay reasons and good cause extensions to changes in client status. 	New structure for capturing client status has been released to users on Apr. 17, 2019.
	RDA reporting issues	Complete	<ul style="list-style-type: none"> Ensure RDA accounts for all/correct elements when building reports. 	RDA has expertise in the legacy database schemas and the Court requirements. The IT project team has expertise in the new FDS schema and will continue to transfer that expertise to RDA.
Human Resources				
Hire OFMHS HQ positions.	Hire and onboard.	Complete	<ul style="list-style-type: none"> Provided infrastructure for forensic services system and improved effective and timely provision of competency services. 	For evaluators, all authorized and required positions to enact Phase 1 have been filled.
Hire additional hospital ward staff.	Conduct targeted hiring events.	In progress	<ul style="list-style-type: none"> Obtain required staff of all classes to safely and appropriately operate additional civil and forensic beds and to meet data collection, analysis and reporting needs. 	Talent Acquisition recruiting efforts continue. See page 36 for additional details on recruiting.
	Pursue contracting			
Competency Evaluation				
Build capacity for out-station sites.	Site agreements	N/A	<ul style="list-style-type: none"> Increased capacity at out-station sites will reduce wait time for evaluations. 	Most evaluations at outstation sites and all evaluations at RTFs have been conducted by telehealth to reduce COVID-19 exposure risk. The telehealth system accommodates interpreter services and attorney requirements to be present. Refer to pages 46-47 for additional information on telehealth sites and monthly data.
	Outstation sites operational	Complete		

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Coordinate with forensic mental health system partners.	Regular meetings with county stakeholders	Ongoing	<ul style="list-style-type: none"> Stakeholder meetings will focus on topics where collaborative work is required to meet the requirements of the Trueblood decision. 	<p>The most recent monthly stakeholder meeting in Pierce convened on July 20, 2022 and is scheduled to meet next on August 17.</p> <p>OFMHS partners with King County’s Department of Behavioral Health and Recovery to convene a group to address issues related to Trueblood Class Members. This group met monthly from May 2019 through May 2022 when the group moved to a new every-other-month meeting cadence. Participants include police, behavioral health providers, shelter services, prosecutors, defenders, DRW, DSHS, and more. The next meeting is scheduled for August 29.</p>
Continue current county-conducted evaluation system until 2018.	Establish quality criteria for evaluation reports.	Ongoing	<ul style="list-style-type: none"> Obtain data needed from counties in order to meet Court ordered reporting requirements. 	<p>The Quality Assurance program for competency reports began Nov. 1, 2017. Forensic evaluator supervisors use a manual of standards for competency evaluations and audit competency evaluation reports written by their direct reports.</p> <p>During Q2 2022, 97-percent of forensic evaluators had competency evaluation reports audited by supervisors. A total of 151 competency evaluation reports were reviewed in Q2 2022.</p>
Explore and pursue triage system possibilities.	Roll out Phase 2.	In progress	<ul style="list-style-type: none"> Establish an efficient evaluation to identify individuals who need Inpatient services due to a serious mental health condition; who clearly do not require inpatient evaluation services; or who are clearly competent due to changes in their condition since the issuance of an order for evaluation (i.e., no longer drug affected). 	<p>As of July 31, 2022, OFMHS has received 747 triage referrals from jail staff/defense. Of those referrals, 467 were approved, 209 of the referrals were denied, and 71 of these referrals were withdrawn before placement could be made.</p> <p>On Nov. 2, 2016, OFMHS began calling jails holding in-custody defendants waiting 14 days for a competency evaluation. The calls notify jail staff of the Triage Consultation and Expedited Admissions process. Since tracking began, approximately 3,919 calls have been made including 7 calls to jails in July 2022.</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
<p>Develop Telehealth video-conferencing systems to assist in the completion of evaluations.</p>	<p>State-wide implementation and utilization of technology.</p>	<p>Ongoing</p>	<ul style="list-style-type: none"> Establishing this technology in multiple locations around the state (especially in rural areas) will allow OFMHS to conduct more evaluations, thereby helping to meet Court ordered requirements. 	<p>The telehealth system began operations in 2018 and regularly expands its ongoing operations to include additional partners. OFMHS continues to educate courts and jails on this technology. With the COVID-19 pandemic, telehealth technology sees increased interest from entities seeking to continue evaluations while maximizing safety of clients and staff. As stakeholders grow increasingly comfortable with telehealth technology, they gain appreciation for telehealth evaluation’s efficiency for all parties.</p> <p>OFMHS has reached out to 48 jails statewide to review and further expand telehealth use. Telehealth processes are used in the Colville Tribes Corrections Detention Facility, Nisqually Corrections Center, and in the following county jails: Benton, Clallam, Clark*, Cowlitz**, Ferry, Franklin, Grant, Grays Harbor, Island, King**, Kitsap, Kittitas, Mason, Okanogan, Pacific, Skamania, Snohomish, Spokane, Stevens, Thurston, Wahkiakum, Walla Walla, Whatcom, Whitman, and Yakima, and in the following local jails: Aberdeen, Forks, Issaquah, Kent, Puyallup, SCORE, and Yakima City jails. OFMHS also works with jails that do not currently have adequate capacity or security for telehealth evaluations to solve those problems. DSHS’ competency restoration programs at FSCR, MLCRP, ESH, WSH, and HCA’s OCRP in Spokane County, Pierce County, and Southwest Washington can also provide videoconference and telephonic presence of secondary parties.</p> <p><i>*Notes the ability for telephonic presence of defense counsel and interpreter in certain cases.</i> <i>**Hybrid process where the evaluator or the defense counsel is present in person to facilitate use of equipment with other parties remotely.</i></p> <p>Court orders have authorized 5,412 telehealth evaluations since August 2018. Clients or their attorneys have rejected 1.6% of attempts resulting in 5,326 completed telehealth evaluations. For the last 12</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				months, telehealth evaluations have averaged approximately 216 evaluations per month. This data is current through July 31, 2022.
Competency Restoration				
SH addition 45 beds	Bed occupancy with forensic patients.	Complete	<ul style="list-style-type: none"> Serves overall plan to add beds and expand State Hospital forensic bed capacity to meet Court ordered requirements. 	<p>The Legislature funded this request to operate 45 additional beds in building 27 FSCR and the South Hall 5 ward.</p> <p>S5 expanded from 15 beds to 30. S5 reached full patient capacity in fall 2018. FSCR opened as an RTF on WSH's campus in late Aug. 2019.</p>
WSH addition 40 beds	Bed occupancy with forensic patients.	Complete	<ul style="list-style-type: none"> Serves overall plan to add beds and expand State Hospital forensic bed capacity to meet Court ordered requirements. 	<p>In the 2017-19 budget, the Legislature allotted funding for the conversion of 60 beds from civil to 42 forensic beds on two wards at Western State Hospital per the settlement. The final configuration of the two wards resulted in 40 new beds instead of 42, in order to accommodate a seclusion room on each ward.</p> <p>COVID-19 limitations caused significant contractor and subcontractor construction delays. The Court granted an extension of time allowing additional time to complete construction and open the new wards to patients. E4 started admitting patients on Feb. 8, 2021, and E3 started admitting patients on Feb. 15, 2021.</p>
ESH addition of 50 beds	Bed occupancy with forensic patients.	Complete	<ul style="list-style-type: none"> Serves overall plan to add beds and expand State Hospital forensic bed capacity to meet Court ordered requirements. 	<p>The legislature funded additional forensic beds in the 2019-2021 biennial budget. Over \$24 million was allocated to DSHS to renovate two 25-bed forensic competency restoration units at ESH.</p> <p>The ongoing COVID-19 emergency impacted construction activities. The Court granted a time extension, which allowed additional time to complete construction and open the new wards to patients. Ward 1N3 opened June 1, 2020. Ward 3N3 opened Aug. 3, 2020.</p>
Provide Restoration	Restore patients to competency.	Ongoing	<ul style="list-style-type: none"> To meet or exceed the restoration rates at both state hospitals. 	The quarterly length of commitment data pulled on July 13 shows that restoration patients on 45-day orders at MLCRP and FSCR are both at 36.0 days, which is eleven days longer than FSCR. MLCRP's numbers

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Treatment at MLCRP.			<ul style="list-style-type: none"> • Hard closure date set for June 30, 2024 unless trigger event occurs. 	<p>have comparable lengths of commitment to both state hospitals for 90-day orders. MLCRP’s average this quarter for a 90-day order was 62.7 days. Refer to Table 15 on page 37.</p> <p>On August 1, MLCRP’s census was 25. As of August 1, there are 13 permanent DSHS staff vacancies to include two RRC 4’s and five on-call vacancies. Recruitment continues for those positions. On July 1, the residential rehabilitation counselor job class received salary range increases from the state, and applicants for the recruitments are increasing. Management is considering alternate schedules as a way to further increase recruitment.</p>
Provide Restoration Treatment at YCRP.	Restore patients to competency.	Complete	<ul style="list-style-type: none"> • To meet or exceed the restoration rates at both state hospitals. • Hard closure date set for Dec. 31, 2021 unless trigger event occurs. 	<p>The last patient transferred from YCRP on July 26, 2021. The program officially closed on Aug. 14. Comprehensive finished all close out activities per the ramp down plan.</p>
Provide Restoration Treatment at FSCR.P.	Open Building 27.	Complete	<ul style="list-style-type: none"> • Identified alternate facility capacity to meet Trueblood compliance. • Collaborated with Court parties to open the facility. 	<p>Dr. Yasuda started as the medical director, and Dr. Park returned to his physician 3 position on Sept. 13, 2021. Dr. Park increased his hours to 24 hours a week, providing four hours of weekend coverage.</p> <p>On August 1, the census was 23. Work continues to build the census up to 30. To fill the remaining vacant psychologist 4 position, FSCR.P continues to use 0.5 FTE Locums psychologist. On April 1, Dr. Koenigsaecker started as the psychologist 4. She comes to FSCR.P from Rainer State School in Buckley. FSCR.P currently has a part time Locums psychologist to assist with the workload. Recruitment for the second psychologist 4 position continues. On July 1, the state changed the salary range for the psychologist 4 job class to match the forensic</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				<p>evaluator positions. Open recruitments were updated to include the change in salary. To date there has not been qualified applicants.</p> <p>The peer support specialist started on March 25. The admissions coordinator was recently filled on March 1. The AA3 resigned at the end of April, and FSCRП conducted interviews for a replacement. The new admissions coordinator was the preferred candidate. FSCRП’s current secretary senior was the preferred candidate for the admission coordinator position. The program continues to interview for a secretary senior replacement. The psychologist 4 recruitment remains open for the second position. Recruitment continues for the IC2 positions with seven vacancies. Four of six on-call IC2 positions are filled, and one swing shift IC3 positions is open.</p> <p>As of July 16, the current swing shift RN3, Eudora O’larey, accepted the RN4 position. There is an open recruitment for the vacant RN3 position on swing shift. Three RN2 vacancies remain in on-call positions and recruitment continues.</p>
	Restore patients to competency.	Ongoing	<ul style="list-style-type: none"> To meet or exceed the restoration rates at both state hospitals. 	<p>The July 13, quarterly length of stay report indicates FSCRП and MLCRП have the same length of stay for 45-day orders. The length of commitment for the 45-day felony competency orders averages 36.0 days. Refer to Table 16 on page 38.</p>
Implementation of OCRPs	Diversion programs are operational.	Complete	<ul style="list-style-type: none"> Development and implementation of OCRP in the Pierce, Spokane, and Southwest regions. 	<p>OCRП currently has three contracted providers in the Phase 1 regions: Frontier Behavioral Health (Spokane region), Greater Lakes Mental Health (Pierce region), and Lifeline Connections (Southwest region).</p> <p>DSHS and HCA continue providing outreach and education to stakeholders, community providers, and courts on the Forensic Navigator and OCR programs. Due to legislative changes, DSHS and HCA initiated outreach to law enforcement agencies in the Phase 1 and 2 regions. All OCRП contractors have used support funds to</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				<p>acquire additional housing units specifically for OCRP enrolled persons. OCRP enrolled persons receive housing priority within the wider Trueblood class member population.</p> <p>DSHS and HCA finalized a proposal that reviews restoration orders for people who currently receive restoration services in an RTF, and who get ordered to a second period of competency restoration. These people work with a Forensic Navigator who determines suitability for a transfer to outpatient restoration services if appropriate. Transfer to community-based OCRP serves as an alternative to completing their entire restoration in an inpatient facility-based program and would provide people with the opportunity to utilize community-based resources. DSHS and HCA have completed meet and greets at FSCR and MLCRP to answer questions related to the OCR and FN programs. Trainings with each RTF to go over this new process and the Forensic Navigator Program referral tool have occurred. This process went live on July 5, 2022.</p> <p>Most people ordered to OCRP will not appear in Tables 4c. or 14. Tables 4c. and 14 are restricted to class members, meaning people in jail at the time their competency restoration order is signed. Currently, most people ordered to OCRP are released from jail prior to the court signing the OCRP order. The total number of people enrolled in an Outpatient Competency Restoration Program (regardless of jail status) is provided in the Trueblood semi-annual report and reported quarterly in the text below within Table 17 of this report.</p> <p>RDA provides periodic OCRP enrollment updates. The revised table counts align with SAR reporting. The counts in this section will not match those in Tables 4c. or 14, which are specific to class members</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				<p>(persons held in jail following an OCRP restoration order, see Tables 4c. or 14, footnote 2).</p> <p>The OCRP data collection is undergoing transition from Excel trackers to the Forensic Navigator Case Management System over several phases, requiring data processing adaptations. See below for a schedule of expected monthly court report OCRP data updates. The Trueblood semi-annual report is the primary reporting mechanism for Trueblood Settlement Agreement implementation programs.</p> <ul style="list-style-type: none"> • In the July, August, and September Court Monitor reports, Q1 2022 data will be available • In the October and November Court Monitor reports, Q2 2022 data will be available • In the December Court Monitor report, Q3 2022 data will be available. <p>The data below is through March 31, 2022:</p> <p>From July 1, 2020 to March 31, 2022:</p> <ul style="list-style-type: none"> • 55 unduplicated individuals enrolled <ul style="list-style-type: none"> ○ 10 active ○ 45 discharged • Reasons discharged: <ul style="list-style-type: none"> ○ 18 opined competent ○ 12 conditional release revoked ○ 7 charges dismissed ○ 3 opined not competent ○ 3 returned to jail ○ 1 inpatient civil psychiatric care ○ 1 unknown

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				<ul style="list-style-type: none"> • Discharge location: <ul style="list-style-type: none"> ○ 32 community ○ 5 state hospital ○ 4 jail ○ 1 RTF ○ 3 unknown <p>Source: OCRP provider Excel tracker data. See SAR for data definitions: https://www.dshs.wa.gov/sites/default/files/BHSIA/FMHS/Trueblood/2022Trueblood/Trueblood%20Semi-Annual%20Report%205%20March%202022.docx.pdf</p>
	<p>Diversion programs are operational.</p>	<p>Phase 2, July 2021- June 2023</p>	<ul style="list-style-type: none"> • Development and implementation of OCRP in the King region. 	<p>Since March 2020, HCA and DSHS have engaged King County in Phase 2 preparation by participating in King County’s Competency Continuum workgroup as well as including representatives from King County in the OCRP workgroup. HCA will expand the OCRP workgroup to include court partner representatives from Phase 1 regions to increase longitudinal outreach and increase input from Phase 1 regions. HCA and DSHS regularly contact the King County courts to discuss the OCR and FN programs.</p> <p>As of Jan. 31, 2022, HCA re-engaged the King County BHASO for assistance in identifying current King County licensed community behavioral health agencies who may be interested in contracting for OCRP. HCA met with two behavioral health agencies and discussed the OCR program. One provider reported that they are unable to take on OCRP due to standing up multiple programs; however, they did report that they are interested in discussing OCRP in the future. The other provider reported that they are interested in standing up OCRP in King County. HCA had follow-up meetings with this provider, and those meetings resulted in successful contract negotiations. The negotiations resulted in a fully executed contract for OCRP services on June 22, 2022, with a provider that is already under contract for FPATH</p>

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				with HCA. Although HCA did not meet the target date of March 31, 2022 for OCRP services to begin in Phase 2, HCA is hopeful that the Phase 2 contractor, Community House Mental Health Agency, will begin King region OCRP services in September or October 2022.
County transport of patients	Coordinate with counties to develop transport protocols.	Ongoing	<ul style="list-style-type: none"> Ensure timely transport of patients to support delivery of competency services as directed in court order. 	No issues were raised during this reporting period concerning county transport of patients.
<i>Diversion Alternatives</i>				
Implement 2E2SSB 5177 (2015) provisions for dismissal of charges & referral to treatment.	Diversion programs are operational.	Ongoing	<ul style="list-style-type: none"> Prosecutor can dismiss criminal charges without prejudice & refer to community-based mental health services. 	<p>OFMHS Liaison and Diversion Specialist continues to monitor the programs and provides technical assistance as needed to address barriers.</p> <p>All three Prosecutorial Diversion Programs have experienced, and continue to experience, challenges associated with COVID-19. The liaison and diversion specialist has engaged the programs with technical assistance, brainstorming ways to overcome these challenges. DSHS continues exploring options for enhancement and expansion of these programs.</p>

FEB. 8, 2016 COURT ORDER STATUS REPORT/UPDATES

The status updates pursuant to the Feb. 8, 2016 Court Order are shown in the table below.

Table 18. Court Order Status Updates

Requirements	Date	Status	Progress Notes
1. Implement a triage system to sort class members waiting for in-jail evaluations by the acuity of their mental illnesses and their current manifestations, by the seriousness of their crimes, and by the amount of resources their cases require¹:			
C. Reporting on the implementation and effectiveness of the triage plan in Defendants' monthly reports to the Court Monitor.	Beginning April 15, 2016	Ongoing	Refer to 3C. & 4C. below.
2. Eliminate the backlog of class members currently waiting for in-jail evaluations²:			
E. Completing evaluations for all backlog cases (any patient waiting more than 14 days at the end of the month ³).	April 15, 2016	Ongoing	Of the 559 jail evaluation orders signed in June 2022, 436 were completed within 14 days, which is 78.0%. This number is expected to rise as the data continue to mature.
3. Implement a triage system to sort class members waiting for in-hospital evaluations by the acuity of their mental illnesses and their current manifestations, by the seriousness of their crimes, and by the amount of resources their cases require:			
C. Reporting on the implementation and effectiveness of the triage plan in Defendants' monthly reports to CM.	Beginning April 15, 2016	Ongoing	For additional information, review the Task column in Table 17 labeled "Explore and pursue triage system possibilities" on page 45.
4. Implement a triage system to sort class members waiting for restoration services by the acuity of their mental illnesses and their current manifestations, by the seriousness of their crimes, and by the amount of resources their cases require:			
C. Reporting on the implementation and effectiveness of the triage plan in Defendants' monthly reports to CM.	Beginning April 15, 2016	Ongoing	For additional information, review the Task column in Table 17 labeled: "Explore and pursue triage system possibilities" on page 45.

¹ By agreement with the Court Monitor, long completed requirements 1.A. & 1.B. were removed from *Table 18* beginning with the April 2020 report.

² By agreement with the Court Monitor, long completed requirements 2.A. & 2.B. were removed from *Table 18* beginning with the April 2020 report, and 2.C. & 2.D. were removed from *Table 18* beginning with the May 2020 report.

³ Under a previously completed section of this order, requirement 2.C., a targeted objective to recruit forensic evaluators, was satisfied.

Requirements	Date	Status	Progress Notes
5. Report on the implementation status of the CMS Plan of Correction:			
<p>B. Reporting on the implementation status in Defendants' monthly reports to the CM.</p>	<p>Beginning March 15, 2016</p>	<p>Ongoing</p>	<p>DSHS entered into a second System Improvement Agreement with the Centers for Medicare and Medicaid Services. This agreement ran from Nov. 2, 2017-July 2, 2018 and defense counsel shared it with Dr. Mauch on Nov. 3, 2017. As a result of a Court Order in April, the department worked with Plaintiffs and the Court Monitor in developing a bed capacity/expansion plan.</p> <p>WSH was resurveyed May 2018 and did not meet all the Conditions of Participation with CMS. WSH was decertified July 9, 2018. WSH continues to work using Functional Work Teams towards CMS certification. ESH remains accredited by The Joint Commission and CMS certified.</p> <p>The Legislature funded design of a new hospital, which will be required to meet COPs for CMS certification. As of July 2022, the schematic design phase is almost complete. Once complete, the project will move into the detailed design phase.</p>
6. Plan for recruiting and staffing 30 beds at WSH after compliance with CMS's terms of participation is achieved in March:			
<p>C. Reporting on the implementation status of the plan and timeframe in Defendants' monthly reports to the CM.</p>	<p>Beginning April 15, 2016</p>	<p>Ongoing</p>	<p>DSHS entered into a second SIA with CMS. This agreement ran from Nov. 2, 2017-July 2, 2018 and defense counsel shared it with Dr. Mauch on Nov. 3, 2017. As a result of a court order in April, the department worked with Plaintiffs and the Court Monitor in developing a bed capacity/expansion plan.</p> <p>WSH was resurveyed May 2018 and did not meet all the COP with CMS. WSH was decertified July 9, 2018. WSH continues to work using FWTs towards CMS certification. PSHB Sec. 204 budgeted for the 30 beds at WSH and was completed prior to CMS decertification.</p> <p>The Legislature funded design of a new hospital, which will be required to meet COPs for CMS certification. 			schematic design phase is almost complete. Once complete, the project will move into the detailed design phase.
8. Remove barriers to the expenditure of the \$4.8 million in currently allocated diversion funds:			
D. Executing contracts for implementation by the selected providers.	April 15, 2016	Complete	Prosecutorial diversion was funded for FY'23 effective July 1, 2022-June 30, 2023.
10. Develop a reliable and valid client-level data system to support better management and accountability of the forensic services system:			
E. Implementing revisions to the existing system or initiating development of a new forensic data and management information system. (The decision was to initiate new system development efforts.)	January 2020	Complete	Project governance has established a normal data / reporting meeting with RDA, OFMHS, and the project technical team. Data errors now generate RDA errors reports that are sent to OFMHS key personnel. Workflow issues are directed to OFMHS for adoption and technical issues are reviewed by the technical team for design changes.

JULY 7, 2016 CONTEMPT ORDER STATUS UPDATES

The three status updates required in the July 7, 2016 Court Order are below:

- (1) Monetary sanctions – fines are imposed on a per class member, per day basis. On the 15th of every month, DSHS is required to submit contempt fines data to the Court. These data were submitted to the Court on August 15, 2016 and will be included in this report, when finalized each month, as Appendices I and J;*
- (2) Diversion plans – DSHS is ordered to develop, in consultation with the Court Monitor, plans for the expenditure of the contempt fines; and*
- (3) Wait time data – DSHS shall submit to the Court wait time data in a manner identical to the data submitted on June 17, 2016 in the declaration of Bryan Zolnikov. These data are included in this report in Tables 11-14.*

AUG. 15, 2016 ORDER MODIFYING PERMANENT INJUNCTION AS TO IN JAIL COMPETENCY EVALUATIONS

Pursuant to the August 15, 2016 Court Order, the department must provide in-jail competency evaluations within 14-days of a signed court order. When an in-jail evaluation cannot be completed within 14-days and good cause applies (i.e., delay due to clinical reasons, attorney, interpreter, or defense expert), an extension from the ordering court must be secured or DSHS must immediately admit the individual to a state hospital to finish conducting the evaluation. In order to comply with the reporting requirements of the Court Order, DSHS identified a need to revise both the current process used for seeking extensions from the criminal court as well as the data collected during that process. Since the August 15 Court Order, DSHS identified a series of necessary changes that will enable the department to comply with the Order, including the following:

- (1) Develop a list of data elements needed to comply with the Court Order to include additional delay data;*
- (2) Develop a data dictionary to define the data elements needed;*
- (3) Develop a process of reporting the information to the courts for the exception requests;*
- (4) Identify the cutoff date for seeking an exception;*
- (5) Develop a standardized form that can be used for seeking good cause exceptions;*
- (6) Develop an operating procedure to guide evaluators through the new good cause process;*
- (7) Coordinate with the Attorney General's Office to ensure adequate representation;*
- (8) Develop a process for collecting the data to report to the courts for the exceptions and to maintain for monthly reporting;*
- (9) Develop a model for the delays and the data pertaining to the delays; and*
- (10) Modify the current IT systems or develop a new database in which to maintain the information once all above steps are completed.*

DSHS implemented FDS on Aug. 1, 2018. The system's design provided for data elements needed to report to the courts including implementation of the new forensic algorithm waitlist. Data was migrated from existing systems and provided the starting point for DSHS on Aug. 1. The project team continues to support FDS and its users to provide increased data granularity for reporting out of a new system.

The Forensic Advisory Committee meets semi-monthly and provides business process clarification and recommendations to the technical team. FAC also provides input during ongoing system optimization and future enhancements. Their recommendations are referred to the Governance Committee when appropriate. Governance meets at least monthly to monitor status, render final decisions on key topics, and prioritize future functionality ensuring that IT project work aligns with the needs of the Court and other stakeholders.

APRIL 26, 2017 ORDER ADOPTING THE PARTIES' MEDIATED SETTLEMENT AGREEMENT

As indicated below, the April 26, 2017 order partially adopting the parties' mediated Settlement Agreement, modified prior Court Orders regarding outreach, deadlines, and notification requirements specific to deadlines for evaluation and restoration services.

Having reviewed the Joint Motion to Adopt the Mediated Settlement Agreement, Dkt. # 389, and discussed the proposed agreement with all Parties at the status hearings held on March 21, 2017 and April 18, 2017, the Court partially adopts the Agreement of the parties, and ORDERS that the prior orders of the Court are MODIFIED in the following manner:

- (1) *Outreach: The Parties will jointly generate outreach documents to inform state courts of their statutory obligations to provide orders for competency services within twenty-four hours, as well as to inform the state courts of a summary of the Trueblood litigation and injunction. The Parties will jointly request the opportunity to present to Washington State judicial education programs and other outreach that the Parties jointly deem necessary to ensure third Parties are aware of their obligation to timely provide orders for competency services.*
- (2) *Deadline for in-jail evaluations: DSHS shall complete in-jail competency evaluations within the shorter of either a) 14 days from receipt of order or b) 21 days from signature of order. Both sets of data will continue to be tracked in DSHS' monthly reports.*
- (3) *Deadline for in-patient evaluation and restoration services: DSHS shall admit class members for either inpatient competency evaluation or restoration within the shorter of either a) 7 days from receipt of order or b) 14 days from signature of order. Both sets of data will continue to be tracked in DSHS' monthly reports.*
- (4) *Receipt of Order: When sent electronically, orders are deemed received as of the time they are electronically transmitted to the Department.*
- (5) *Trigger Point for Notice to Plaintiffs' Counsel: If at any point in the future the percentage of orders received within 3 days of signature drops below the table 1 benchmarks for two consecutive months, the Parties shall meet and confer within 30 days to determine if there are factors within Defendants' control that are causing delays in order transmission that can be changed and/or if there are factors beyond the Defendants' direct control that the Parties can collaborate to influence in the direction of faster transmission of orders.*

Table 1. Percentage trigger for orders received within 3 days of signature

Jail-based evaluation orders	93
Inpatient competency orders	85

- (6) *Data Collection: Defendants will continue to track the data referenced in paragraphs 2, 3, and 5, above, and currently reflected in Appendix A of DSHS' Monthly Reports. Additionally, when DSHS issues its monthly reports, it will simultaneously provide the data from Appendix A in Excel format to Plaintiffs.*

The Court ORDERS that from this point forward, calculation of compliance with the Court’s Injunction, Dkt. #131, calculation of compliance with the Modified Injunction as to In-jail Evaluations, Dkt. #303, calculation of contempt under the Order of Contempt, Dkt. #289, and any other aspect of the Court’s prior rulings that are not consistent with the Agreement text set forth above, are MODIFIED to be in conformance with this Order.

The enumerated orders above, especially numbers two, three, and five, can be viewed in data presented within the monthly *Trueblood* report or in data displayed in the appendices that follow. For item two, the applicable data can be reviewed in Appendix A, Tables 2, 5, 8. For item number three, the data can be viewed in Appendix A, Tables 3, 4a., 4b., 4c., 6, 7, 9, 10. Item number five’s data is viewable in the non-numbered tables available in Appendix G.

APPENDICES

Appendices A-G: Data Tables; Class Member Evaluation/Restoration Information; Class Member Restoration Information for the Maple Lane and Fort Steilacoom Programs; Outpatient Competency Restoration Program; and Percent of Court Orders Received Within Three Days

This file is submitted with the DRAFT and FINAL reports and includes data tables as well as order received rate data.

Appendix H: Outliers and Delay Comments

This file is submitted with the DRAFT and FINAL report and contains the Outlier data and delay comments.

Appendix I: Calculation of Inpatient Contempt Fines

This file is submitted with the FINAL report only and contains the calculation of inpatient contempt fines data.

Appendix J: Calculation of Jail-Based Contempt Fines

This file is submitted with the FINAL report only and contains the calculation of in-jail contempt fines data.

Appendix K: Calculation of Outpatient Contempt Fines

This file is submitted with the FINAL report only and contains the calculation of outpatient contempt fines data.

Appendix L: Good Cause Exceptions

This file is submitted with the FINAL report only and contains the good cause extension request data.
