

Behavioral Health Administration

2016 Fact Sheet: Programs and Initiatives

Title: Safe Babies Safe Moms (SBSM)

Overview	<p>Safe Babies, Safe Moms (SBSM) serves pregnant, postpartum, and parenting women (PPW) with substance use exposure, and their children from birth-to-three. Comprehensive, case management services are provided, with the goal of stabilizing women and their young children, identifying and providing necessary interventions, and assisting women in gaining self-confidence as they transition from public assistance to self-sufficiency. Services include:</p> <ul style="list-style-type: none"> • Targeted, intensive case management teams which provide referral, support, and advocacy for substance use treatment and continuing care. • Assistance in accessing and using local resources such as mental health, family planning, safe housing, healthcare, domestic violence services, parenting skills training, child welfare, childcare, transportation, and legal services. • Housing support for women and children, who stay up to 18 months in a transitional house. • Recovery support and linkages to community-based services.
Eligibility Requirements	<p>SBSM is available to high-risk women with substance use disorders, with young children, or women who abuse alcohol and/or other drugs during pregnancy, who are not successful in accessing community resources.</p> <p>Client income must be at or below 220% FPL, or must qualify for Medicaid.</p>
Authority	RCW 70.96A
Budget	General Fund-State and Title XIX (Medicaid). For the 2015-17 Biennium, approximately \$3.2 million is budgeted.
Rates	SBSM funds a per-client rate of \$511 when a site falls below 85% of maximum capacity. When serving at 85% and above, each site receives a monthly set rate amount.
FY cost # served Cost per client	
Partners	<ul style="list-style-type: none"> • SBSM represents a state-level consortium formed by the Division of Behavioral Health and Recovery (DBHR), and includes the DSHS Children’s Administration, Economic Services Administration, Medical Assistance Administration, Research and Data Analysis, and the Department of Health. The purpose of the consortium was to respond to the disturbing number of
