### Communication, You Don't Say, Non- Linguistic Communication Strategies A Hands-On Participatory Training

Are you playing with, living with or working with someone who does not use formal language to communicate? How do they participate in the choices of their life? People with communication disorders, sensory losses and cognitive challenges often process and assimilate information and express ideas in alternative formats.

We'll tap your hidden wisdom to learn concrete steps for building communication skills thru hands on activities that help our focus shift to concrete methods. Take time to develop new files & pathways to gather and exchange information.

You will leave this session with clear steps to take; establishing relationship based motivating activities that work to build communication! This is an active and fun session- come ready to learn thru challenging playful activities!

**[Tumwater DDA, 6860 Capitol Blvd SE, Bldg 2, Third Floor, Olympia, WA 98504](#)**
