Innovative High & Low Tech Person-Centered Accommodations

Is your caseload challenged with these issues?

- √ Communication barriers (people who are Non-Verbal /Non-Linguistic)
- √ Challenges to building skill and independence in daily life and/or on the job
- √ Behaviors (SIB and aggression toward others)
- √ Low work motivation (person comes to work to socialize)
- √ Challenges finding employers who will hire people with intellectual disabilities
- √ Challenges finding community sites and activities for community access

This training covers high and low tech accommodations with a track record of success to address the issues on this list.

- Learn new twists on low tech accommodations
- Review a wide range of newer high tech accommodations available on smart screen technology (Note: training references tips and apps for Androids and MS Surface, but only demonstrates tips and apps built for an iPad)
- Discuss accommodation tools for your customer to access screen technology
- Review Apps as accommodation for your customers to gain independence
- View samples of video resumes, video communication, video trainings
- Explore options for sequencing tools to build calendars, learn task steps, etc.

Presented by Jennifer White

Jennifer White has worked in the field of rehabilitation since her first paid job with the ARC of Bucks County, PA. After a career as a special education high school transition teacher, she opened Able Opportunities, Inc., a national consulting company specializing in vocational, education, and communication goals and programs for students and adults. She launched the Work Autonomy App, a person-centered accommodation tool that is creating an increase in independence and a decrease in coaching need.

DDA Vancouver Office, 907 Harney St., Suite 200, Vancouver, WA 98660

*Parking on the streets are primarily metered. There are some Long-Term meters along Evergreen Blvd. Please bring change for the metered parking.
