

2014 Final Report

Cesilee Coulson, Executive Director

Monica McDaniel, 2014 Summit Coordinator

www.gowise.org

Coordinator Summary

It was a great honor for WISE to coordinate the Community Summit: Let's Take Action for the second year in the new location of Wenatchee, WA on June 17th–19th, 2014, sponsored by the Developmental Disabilities Administration (DDA), several WA counties and the Division of Vocational Rehabilitation (DVR). WISE, DDA and a state wide advisory committee collaborated to develop and plan the second annual Summit. Our goal was to bring together both local and national presenters for individuals who were committed to building inclusive communities. Over 900 individuals attended the Summit with over 50 sessions focusing on three themes: Cutting Edge, Citizen Engagement and Transitions and Transformations. The Summit began with four Kick-Off Sessions. In addition to the main sessions, the Summit included seven Summit Talk open spaced lunch discussions, and a Neighborhood and Technology Expo. On the social scene a Disability Film Festival and Community Market BBQ was provided to attendees.

The Summit's primary emphasis was on building inclusion. The attendees spanned WA State, several states across the country, Canada and New Zealand a specific accounting in the following pages.

The Community Summit created a space for individuals to get connected, learn, reflect on new ideas and experience a new location in Wenatchee, WA. In our Closing Keynote, facilitated by Al Condeluci, attendees were encouraged to return to their communities and take action in developing new relationships, share what they learned and inspire others to continue to create and participate in building strong inclusive communities for individuals with developmental disabilities.

The following report is a summary of events, along with data and feedback from 268 evaluations submitted to WISE.

Summit Kick Off Session – June 17th, 2014

The Summit had a total of four Kick-Off Sessions to launch the *Community Summit: Let's Take Action* on June 17th, 2014. All Kick-Off sessions were offered as part of registration and the following information highlights content and attendance.

Enhancing School-To-Work Collaborations": 175 Attendees

Presenter: Teresa Grossi Ph.D. Center for Community Living and Careers, University of Indiana

This workshop was organized by the Community Summit Advisory Committee employment representatives. This interactive and working session with Dr. Teresa Grossi and local WA State providers & partners was intended to develop a "working document" that could be used to clarify roles and responsibilities of all the potential partners during the school-to-work process as well as ensuring clear expectations.

Designing Lives Together: 220 Attendees

Presenter: Joe Donofrio, Choicess

This workshop was organized by the Community Summit Advisory Committee family and residential representatives. Balancing State requirement and not losing focus on the "Whole person". Joe explored how we could establish the intentions to keep the focus on the person while we maintain our systems requirements. As we work towards supporting the whole person we engage in how person centered practices guide our organizations and systems to continue to keep the focus on the individuals and families that we support.

Housing: A Home in the Community for Everyone: 68 Attendees

Presenter Panel: George Braddock, Joe Wykowski, Jan Navarre and Pam Blanton

This workshop was organized by the Community Summit Advisory Committee family and residential representatives. This session focused on affordable housing, accessible to our community, and meets our unique desires for a home that works for us. This kick off session discussed national trends for financing and developing affordable housing; housing resources unique to Washington; and finding homes and making improvements that provide the right living environment for each person.

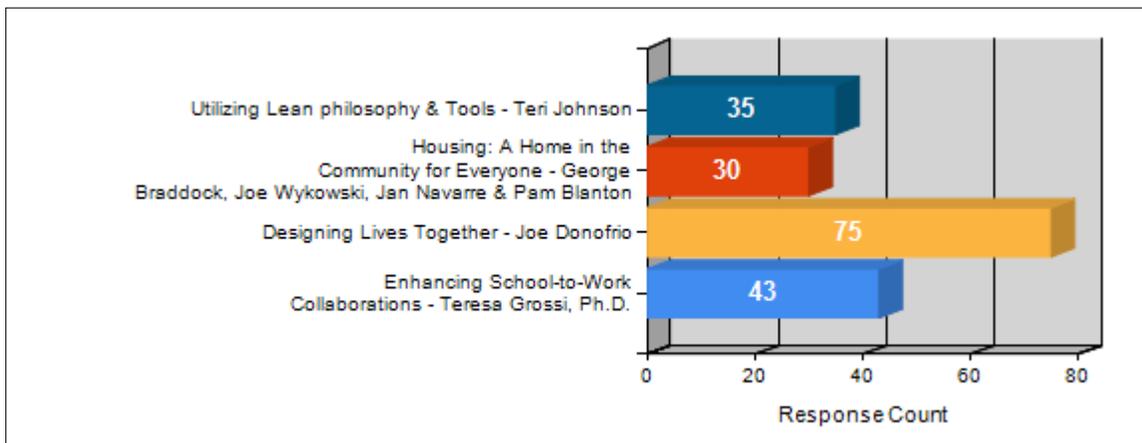

Utilizing Lean Philosophy and Tools to Promote Quality Outcomes: 95 attended

Presenter: Teri Johnson

Lean is a problem solving philosophy that incorporates numerous tools and strategies within a setting to optimize time, resources and productivity. Originally linked to the continuous quality improvement movement by Toyota, Lean has now been adopted by many industries.

Community Summit in the News

WENATCHEE — What the heck were all those people doing Tuesday at Pybus Public Market dancing and eating barbecue? The revelers, about 550 of them, were part of the Community Summit convention put on annually by the state Developmental Disabilities Administration. Their party was the biggest event hosted at the market this year. The convention ended at noon Thursday. Event organizer Monica McDaniel said total group numbers more than 900 people from around the state and the world, including Canada, New Zealand and Europe, to hear keynote speakers and learn about their industry's best practices.

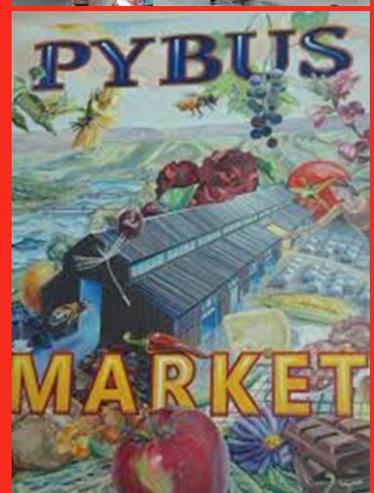

Participants included professionals who provide services to families and individuals with developmental disabilities, along with employers and service recipients. This was their first time in Wenatchee. And they like it. "We wanted this feel," McDaniel said of the market with its diverse vendors and sense of community gathering place. "We wanted for our people to come together and be a community." As she spoke, participants collected tickets at Pybus' south entrance for barbecued chicken and pulled pork sponsored by market staple Mike's Meats.

They filled the market's conference room and spilled out onto a narrow deck jam-packed with tables, around the market's southeast corner. County music and classical rock played over a speaker system for an evening dance. McDaniel said they'd held the 20-year event in Ellensburg, but had outgrown the space. A combination of good customer service, the Wenatchee Convention Center, nearby businesses, lots of hotel rooms, and the Pybus market sold them on Wenatchee. She said they'd be back next year.

	<ul style="list-style-type: none"> • Lots of information on how school systems need changed. Good information on programs that are awesome but don't exist locally. • Knowledgeable presenter! Good examples. Would love more ideas of thinking out of the box for our kids in small communities • Great. I wish more schools/ teachers attended to impact what is taught in schools.

	<ul style="list-style-type: none"> • Great way to close. Lots of energy to move forward. • Very interesting to listen to and took a lot away from his presentation. Hee would be a great presenter next year. • Al was the highlight of my conference. It was hard to accomplish what he intended when we were all crammed into that room, but he did a great job. 	

Attendees Found the Best/Most Valuable :

KICK OFF SESSIONS

- Came in with somewhat low expectation that there would be enough material for Residential Providers, very happily surprised
- While Joe is clearly an intelligent person, his presentation was disjointed and confusing. He rambled from one topic to another and mumbled, making it almost impossible to follow. Lyle was much more engaging but I could have done without the "anti - state" rant. At the end of the day, we're all on the same team.
- Same information she presented in prior forums. Would love more practical info on LEAN!
- I really enjoyed the concept and that the speaker provided ways to apply lean to our organizations. I want her to come to our organization and lean us out!
- Really enlightening and infoative session; left me hopeful for my sons housing options moving forward.
- Three hours was a very long time to sit and listen. Especially for clients. I didn't feel there were any client friendly kick off sessions. An hour is a good time frame for classes.
- This was amazing. It was great to be part of a living document
- Very interesting brought up things I had not thought about in finding housing for my son.
- good speakers, but was very long about 3 hours
- More info (direct info) on the types of programs, how to get on them, size of wait lists
- There was not enough info for everyone on how to get help for rental properties, not just buying homes, needed more practical advice.
- Good class but really long 1st class after a really long drive
- I enjoyed engaging in conversations with other providers. Like there isn't a central location to collect all of the great things were doing with STW across the state.

KEYNOTE SESSION

- Very energetic and I loved the style of it's teaches. Tons of good ideas
 - It took me out of my comfort zone but it was helpful.
 - Uncomfortable w/ touching - personal issue
 - Leif was very engaging and energetic. He captivated my attention the entire time.
 - Nice interaction and jump start encouraging folks to mingle and approach the conference with an open and generous spirit.
 - Holy Cow I would have done the whole time Lief. Very dynamic
 - Content was good. Style was a little uncomfortable. Use of God in presentation was uncomfortable.
 - He was so entertaining! Loved the interactive activities-such fun! Not disability related but so great to experience- Thank you! Nice change up
 - The group activities created a better community atmosphere. Leif's humor was a bit hit and miss for me. But I would still recommend him.
 - Cool interactive tools
 - Great information shared
 - More interaction would have been nice. I appreciate that it was very applicable to a wider audience.
-
