Overview

The **ADSA** (Aging & Disability Services Administration) **Web Access** is a system designed to support County services for the Developmental Disabilities Administration (DDA) clients. *Please note that ADSA is now known as ALTSA (Aging and Long-Term Administration).*

ADSA Web Access (AWA):

- Offers a consistent and reliable interaction for Counties statewide.
- Provides a County connection to specific areas of CARE (Comprehensive Assessment Reporting & Evaluation) application.
- Collects more information from Providers to monitor quality.
- Automates the billing and service authorization processes.
- Connects to ProviderOne for payment. ProviderOne is a modern and efficient payment system that provides timely payment, reduces payment errors and fraud, and maximizes federal matching dollars.

About this Workbook:

This workbook provides exercises to get you up and running quickly on AWA. The exercises are self-paced and designed to first tell you about a course of action, and then give you an opportunity to try it, step-by-step.

Help:

Please direct all questions about the AWA system to the ALTSA Help Desk at:

- In the Olympia Area: 360-725-2460
- Statewide: 1-800-818-4024
- E-mail: ALTSAHelpdesk@dshs.wa.gov

When you contact the ALTSA Help Desk you will receive a response within 24 hours and will be given a tracking number. All contacts will be tracked in a database to ensure a resolution is established.

Please see the **Login – Security** information on page 6 of this manual for additional information about logging in for the first time.

Please turn to the next page to get started.

Get Started

Web Browser – Get Around – Quick Review

Launch the browser:

Launch your web browser as you normally do.

Menus and Links:

For Internet Explorer 11 or Firefox:

Navigation Buttons:

- The “Home”  button returns you to the main page – all browsers
- The “Back”  button returns you to the previous page(s) – all browsers.

Launch ADSA Web Access:

Enter the ADSA Web Access address: <https://awa.dshs.wa.gov/>

Tip if you have problems viewing information – CMIS screens are getting cut off - you can always change your view through a couple of quick keyboard combinations:

- **Hold CTRL and press +** to increase text size – all browsers
- **Hold CTRL and press -** to decrease text size – all browsers

Please turn to the next page for information on how to login.

Login

The ADSA Web Access is a site on the web where many users can access data. There are several other groups besides Counties who need limited access to client data. Some of these people will use the same ADSA Web Access; however, their security group will only allow access to the specific site they need.

Prior to Login you need to obtain you Username and Password thru the ALTSA Helpdesk (see page 4 for contact information).

1. Please *type* in your username.
2. *Enter* the Password and select *AWA County* for the domain and *click* Login.

Sign in to AWA

Please log in to your ADSA Web Access account:

Username:

Password:

Select a Domain:

Login

3. *Pull down* the County menu and *see* your County(s).
4. *Click* Continue. The Work List will be displayed.
5. Notice the upper right corner of the screen. You will see your Username and the County where you are logged in. You will also see a Help link.
6. *Click* the Help link and explore it now. (Close when you are finished.)

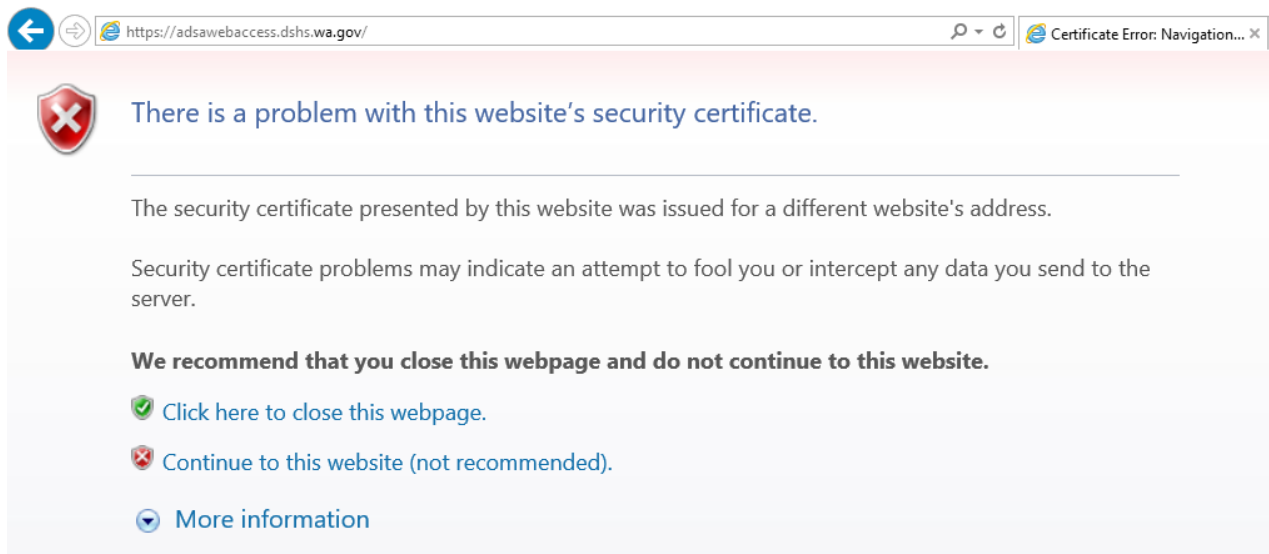

Please turn to the next page for information on login security.

Login - Security

We've implemented SSL (Secure Sockets Layer) to the ADSA Web Access. This will make the web site more secure by preventing others from gaining access to sensitive private information. Internet Explorer needs to be configured for the ADSA Web Access so that the SSL will work smoothly.

Internet Explorer 11:

When you first go to the website, you will see the following dialogue box:

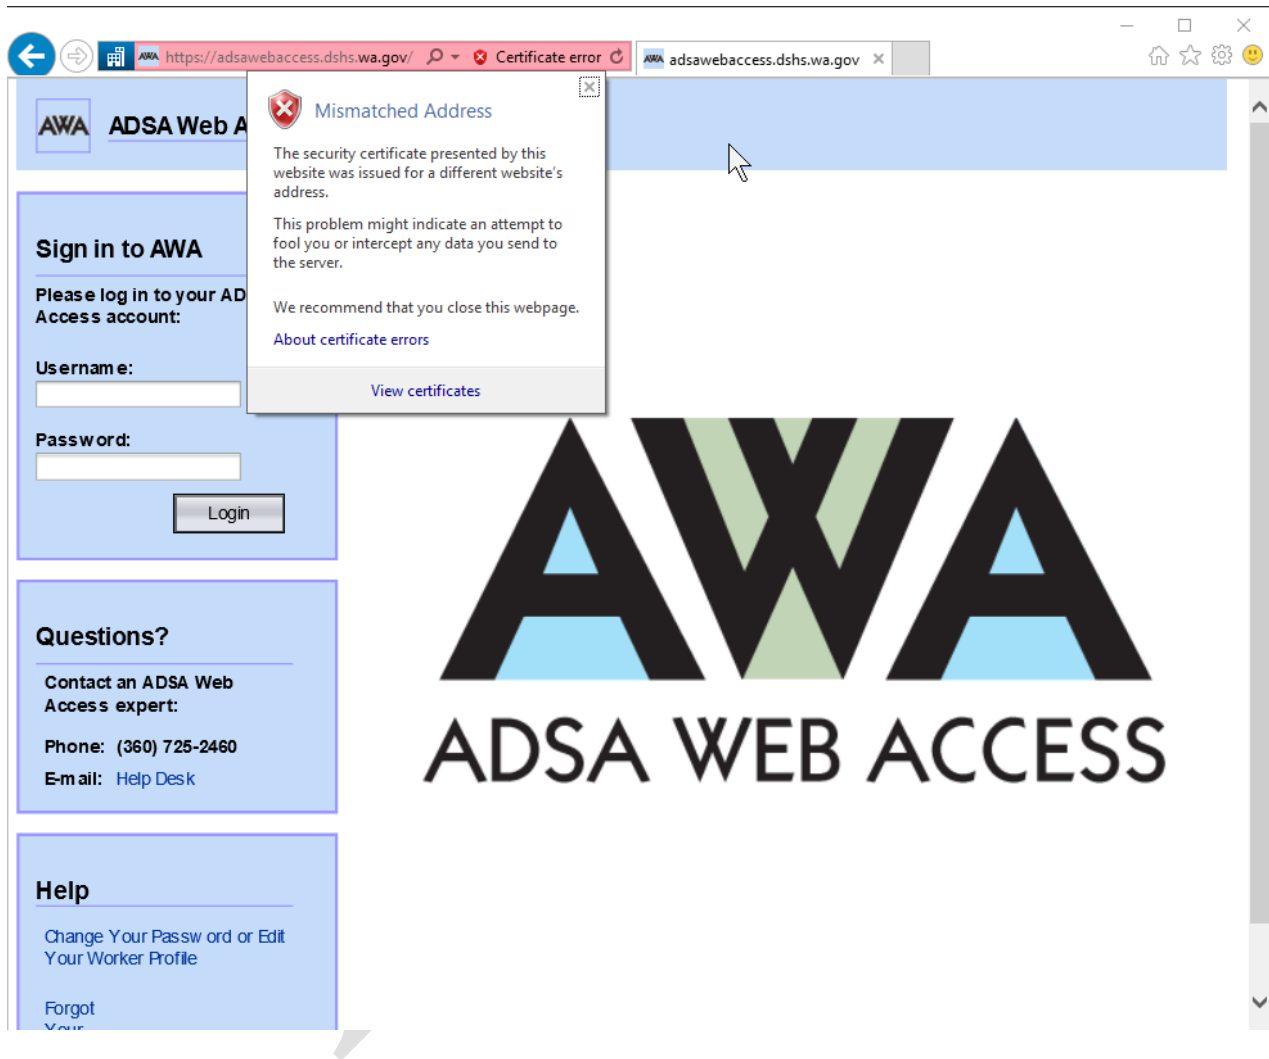

You see this error message because IE 11 has a detection system that checks to see if a website's security certificate is signed by a valid third party organization. IE 11 does not understand that we (like many small organizations that exist today) sign our own security certificate.

You will have to specifically tell IE 11 that ADSA Web Access is a trusted site.

Please turn to the next page for more information on login security.

Login – Security continued

1. To resolve this, *click* “Continue to this website (not recommended)”.
2. When ADSA Web Access is displayed, *click* on the box with the words “Certificate Error”; it should have a red shield with an **X** next to it. A pop-up will appear:

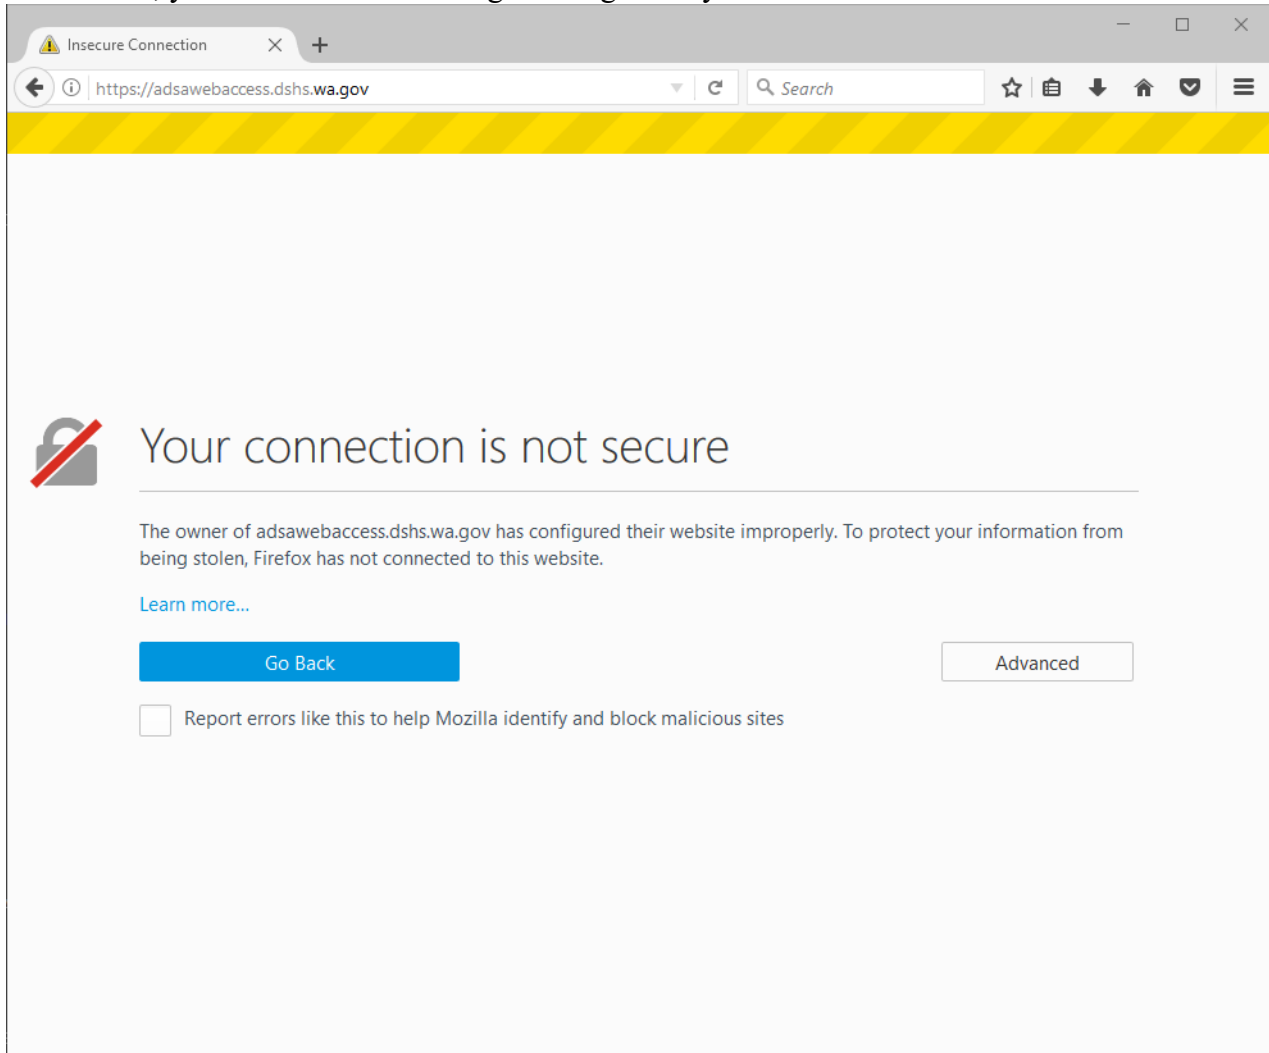

3. *Click* View Certificates; the Certificate will appear.
4. *Click* the “Install Certificate” button, and *follow the Wizard* to install the certificate.

Please turn to the next page for more information on login security.

Login – Security continued

Firefox:

For Firefox, you will see the following warning when you first access the site:

1. *Click* the Advanced button.
2. *Click* the Add Exception... button that appears below.
3. *Click* the Confirm Security Exception button in the resulting dialog box to complete importing the certificate.

If you are using a different browser and you have questions, please contact your IT support person, or contact the [ALTSA IT Helpdesk](#).

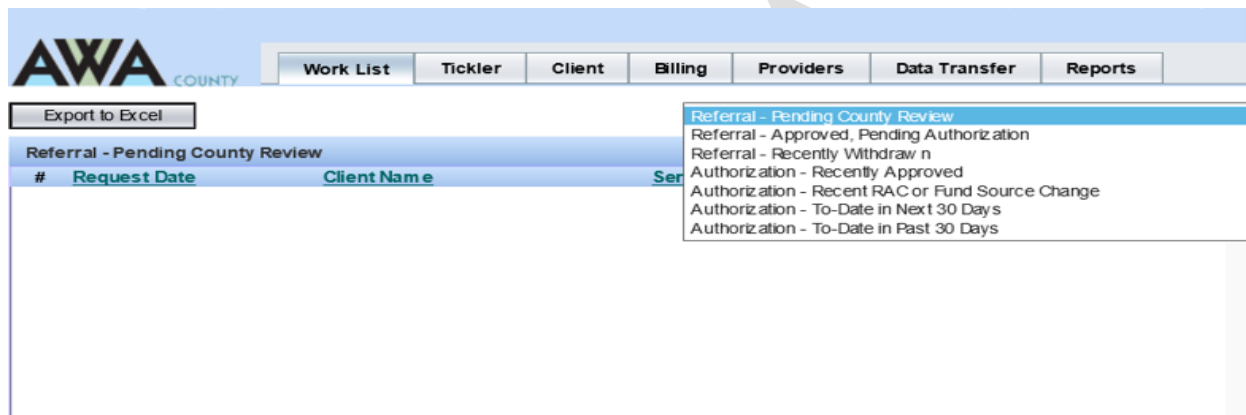

Please turn to the next page for an overview of the Work List.

Work List – Get Started

Overview

The Work List displays notices and current activities about the status of referrals and authorizations. The Work List is dynamic and changes daily as work is performed.

The initial information in the Work List comes directly from client information entered into CARE (Comprehensive Assessment Reporting & Evaluation) by the DDA Case Manager.

The Work List provides a method to manage the review/approval processes flow.

Look at the items in the Work List:

1. *Pull down* the menu and *select* each choice to see the different lists.

Choices include:

- a. Referral - Pending County Review
 - b. Referral – Approved, Pending Authorization
 - c. Referral – Recently Withdrawn
 - d. Authorization – Recently Approved
 - e. Authorization – Recent RAC or Fund Source Change
 - f. Authorization – To-Date in Next 30 Days
 - g. Authorization – To-Date in Past 30 Days
2. *Return* to “Referral – Pending County Review” when you are finished.

To Sort any list:

3. *Click* a column header and the list will sort by that column. (Click again and the sort will go in the opposite order.)

Turn to the next page to practice navigating through the Referrals – Pending County Review.

Work List

Referral – Pending County Review

The DDA Case Manager will enter County referrals into CARE. When the Case Manager completes the information and marks the status as “Pending County Response” a notice is added to the AWA Work List.

Referral - Pending County Review

#	Request Date	Client Name	Service Type	RAC
1	04/09/2021	Test. Client	Child Development Services	3920 - State Funded Child Development Svs

The Service County will deny or approve the referral. When the County finalizes the referral, the DDA Case Manager will receive a “Tickler” the next day that the referral is ready for authorization or withdrawal.

If you click on a Request Date or Client Name, a screen detailing the County Service Referral Request will be displayed.

Try it:

1. Click on a client’s request date or name.

The Referral Request detail screen will be displayed. ***(We will work with this screen next!)*** Note: Once you are looking at a client’s record, you have exited the Work List.

2. Click the Work List tab to return to the Work List.
Note: You have now exited the Referral Request and are back on the Work List.
3. Let’s look at a client – choose a client from “Referral – Pending County Review.”

Turn to the next page for information about the Referral Request detail screen.

Referral Request Detail Screen Overview

The Referral Request detail screen is divided into three (3) sections. The top section “**County Service Referral**” is populated from the CARE application that the DDA Case Manager completes, *and is view only*.

When you view the Referral Request detail screen you will see links to the client’s information screens (Left column. We will explore these screens later).

The Resident County Response section is auto populated with information about the client’s residence. **This is informational only.**

Finalize the Referral Request

Sample scenario:

Our client is a 21-year old student. The client recently graduated from school and is transitioning to adult services with a new job. The client has been referred to an Individual Employment Provider. Provider had determined that they will be supporting this client 16 hours/month.

1. You should be viewing your client's Referral Request detail screen.
2. *Scroll down* to the Service County Response section.
3. *Enter* the information into the fields. TIP: You can click into the next field, or press the [Tab] key to jump.
4. If you enter the "Response" first you will see that some items turn red and you will receive a "System Message" about required fields. Change the Response to be blank and continue.

5. Enter the "Planned Start" date, it cannot be earlier than the "Tentative Start Date" provided by the Case Manager.
6. The Unit Type will auto populate based on the selected Service Type.

Turn to the next page to continue an overview on finalizing the client's referral request.

7. Confirm the Case Manager's chosen Provider by selecting the same one.
Note: If you know something about this provider, like they are at capacity, reject the referral and make a comment to the Case Manager. In fact, if you notice any errors, like the service type doesn't seem appropriate, reject the referral and make a comment to the Case Manager.
8. Enter the Maximum units in a month or "Max Units/Month". This represents the service hours a client can expect to receive from the service provider in a month.
9. Enter the Maximum unit rate or "Max Rate/Unit". This should be consistent with your County's Rate / Fee Schedule and is connected to the "Unit Type" chosen.
10. Make sure to choose "**Approved**" for the Response) and "**Finalized**" for the Processing Status. The request can now be processed.

Here is an example of a referral ready to be finalized:

Comments: Client works at the City of Fife.			
Processing Status: Finalized ▾			
<input type="checkbox"/> Authorization Exists			

When the Service County changes the Processing Status to "Finalized" the client's DDA Primary Case Manager will be notified the next day.

NOTE: The "Planned Start Date" will be the default "From Date" on the Service Authorization.

Turn to the next page to continue an overview on finalizing the client's referral request.

Save the Referral Request

The  button is like an “undo” button. It will cancel all the entries.

- If the screen is view only, the “Existing Authorization” box will be checked. This means that the request was previously finalized and an authorization already created.
- If DDA has withdrawn the request, the “Processing Status” field will display “Withdrawn” and the screen will be view only.

Click the  button.

You will be returned to the Work List.

- Once you have finalized and saved the referral request, it will be dropped from the “Referral – Pending County Review” Work List. ***(Look at this Work List to see.)***
- The DDA Primary Case Manager will then authorize or withdraw this approved request in CARE.
- The request is added to the “Referral – Approved, Pending Authorization”

Turn the page to see what a case manager views in the CARE for Referrals / Authorizations.

Work List

DDA Case Manager Client Referral / Authorization Screen

DDA Case Managers use this County Referrals/Authorizations screen in CARE to process both referral requests and authorizations. This is what a Case Manger sees:

Referral Request				
Date	Service Type	Status	Response	Auth

Turn to the next page to look at the Referral – Approved, Pending Authorization.

Work List

Referral – Approved Pending Authorization

“Approved, Pending Authorizations” are referrals that have been approved and are in finalized status. When you finalize a referral request, the DDA Case Manager will receive a tickler the next day in CARE. Clients will remain on this list until the referral request has been withdrawn, or an authorization has been created.

1. Click the Work List tab.
2. Pull down the Work List menu; choose “Referral – Approved, Pending Authorization”.

#	Request Date	Client Name	Service Type	RAC
1	12/15/2016		Individualized Technical Assistance	3604 - Community Protection Waiver
2	12/12/2014	Client Name	Individual Employment	3604 - Community Protection Waiver
3	12/11/2015		Child Development Services	3920 - State Funded Child Development Svs

NOTE: Clicking client's name or request date will return you to the Referral Request detail screen. (Click the Back button on your browser to return to your place in the Work List.)

Referral – Recently Withdrawn

If DDA withdraws the referral, the request will be removed from the Approved, Pending Authorization list and placed on the “Referral – Recently Withdrawn” list. Referrals on this list have a status of “withdrawn” within the last thirty (30) days. Clients will remain on this list for thirty (30) days. They will be removed from this list after that time.

1. Pull down the Work List menu; choose “Referral – Recently Withdrawn”.

#	Request Date	Client Name	Service Type	RAC
1	01/24/2017		Child Development Services	3920 - State Funded Child Development Svs
2	01/25/2017	Client Name	Individual Employment	3919 - State Funded Adult Employment or D

Turn to the next page to look at the Authorization – Recently Approved.

Work List

Authorization – Recently Approved

Once DDA has authorized the service, the referral will be removed from the Approved, Pending Authorization list and placed on the “Authorization – Recently Approved” list. *Recently Approved* authorizations are those that have been completed within the last thirty (30) days. Clients will remain on this list for thirty (30) days. They will be removed from this list after that time.

1. *Return* to the Work List; *choose* “Authorization – Recently Approved”.

The screenshot shows a dropdown menu with the text "Authorization – Recently Approved". Below it is a table header with the following columns: #, Auth Number, Service Type, From Date, To Date, Client Name, and Provider Name.

Note: the number in the “Auth Number” column is a link.

2. *Click* the “Auth Number” to go to the County Service Authorization detail screen:

This screen is view only.

The screenshot shows the County Service Authorization detail screen. It includes the following information:

NOTE: Each Authorization is now required to have an end date. The end date (To Date) can be extended for one year at a time, with the exception of child development services. The “To Date” for child development services will auto populate with the date one day prior to the client’s 3rd birthday.

Turn to the next page to view the Authorization – Recent Funding Source Change list.

Work List

Authorization – Recent Recipient Aid Category (RAC) or Fund Source Change

“Recent RAC or Fund Source Change” records are authorizations with a second or subsequent **RAC Start Date** within the last thirty (30) days. The dates are recorded in the RACs table. Clients will remain on this list for thirty (30) days. They will be removed from this list after that time.

1. *Return* to the Work List; *choose* “Authorization – Recent Funding Source Change”.

Employment Outcome

The Employment Outcome screen is divided into two sections. The top section contains Division of Vocational Rehabilitation “DVR” information. The information is populated directly from DVR. The bottom half of the screen contains information about a client’s employer, job, and benefits. This information will be provided by the County.

The screenshot shows the top section of the Employment Outcome screen. It features a blue header bar labeled "DVR". Below this header, there are four input fields arranged in two rows: "DVR Counselor:", "DVR Counselor Office:", "DVR Counselor Email:", and "DVR Counselor Phone:" in the first row; and "DVR Status:" and "DVR Status Date:" in the second row. Below these fields is a table titled "Employment Outcome List" with a blue header bar. The table has four columns: "Employer Name", "Job Type", "Start Date", and "End Date". To the right of the table header, there is a blue button labeled "Add Employment". The table body is currently empty, and a vertical scrollbar is visible on the right side.

There are two ways that Employment Outcome information can be entered. The first is one record at a time and the second we will explore later under “Data transfer”.

1. To add Employment Outcome information on a client *click* on “Add Employment”

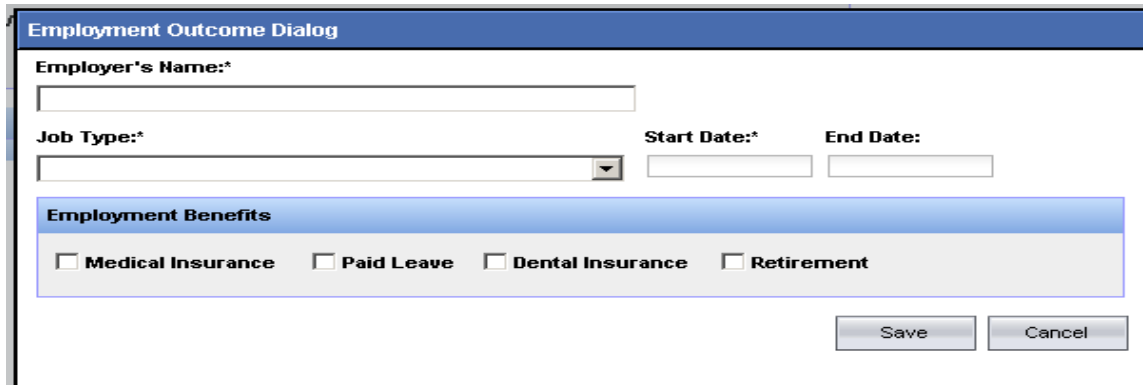

This screenshot is identical to the one above, showing the same form and table structure. However, the "Add Employment" button located to the right of the "Employment Outcome List" table header is circled with a blue oval, highlighting it as the action to be taken.

Billing

Overview

This section is for entering and reviewing billing information. It is used to include the County indirect costs such as Administration “10” series, Training “30” series, Information & Education “40” series, and the Other “90” series as well as review unbilled direct client billings prior to posting.

Current Activities/Indirect Monthly Costs

This screen is used to enter Indirect Monthly Costs. The County will bill DDA for categories that are **indirectly related to client** but are included in contract.

The **Add** button will display the “Other Monthly costs” details screen so you can enter administrative costs.

1. Click the Add link (upper right corner) and the Add Cost Billing dialogue box will be displayed
2. Type the Service Month (example 201705).
3. Enter the Amounts under the appropriate BARS Codes.
4. When you are finished, click Save. You will be returned to the Current Activity screen.
5. View the Unbilled Statements again. Close when you are finished.

Guidelines for Other Monthly Costs:

- Service Month cannot be in the future.
- Other Monthly Costs that were reported in error (or not previously reported) can be entered here for a prior service month that has already been billed to DDA.
- Multiple Service Months (of other monthly costs) may be included in the current Billing Month.

Turn to the next page to continue an overview of Indirect Monthly Costs.

Edit:

1. *Click* the Edit link for a service month.
2. *Enter* a change and *click* Save.
Note: Corrections to indirect monthly costs
3. You can view your edits on this screen, or you can click the “View Unbilled Statements” button again to view your edits on the PDF report.
Note: To delete an amount, enter a zero. For example if you enter an amount of \$100 in error, it will be saved. To remove it, re-enter the amount as \$0 and it will be over-laid and saved.

Delete:

1. *Click* the Delete link for a service month.
2. *Click* “Yes” when asked if you are sure.

Your billing month will be deleted. We will talk about the Post function later – since it is the last step in the process.

Turn to the next page for information about Data Transfer.

Data Transfer

Overview

The County has two data transfer processes: One for **Employment Outcome** information and the other for **Billing**.

Employment Outcome

During each month the County extracts data from DDA on clients authorized for services in their County. The Employment extract (**Output**) contains clients authorized for service in their County during the time period specified in the authorization range (**Start Year/Month and End Year/Month**). The extract information will contain any previous information provided by the County until an employment job end date is provided.

After the County receives client employment data from their providers, the data is validated and uploaded (**Input**) in AWA. The County may upload employment outcome data as often as wanted; however, this should occur on a regular basis to assure statewide information is up to date. Corrections can be made individually thru the Client Employment Outcomes dialog box or by uploading corrected information.

Billing

During the last week of the service month, or early the next month, the County extracts data on clients authorized for service in their County. The Billing extract (**Output**) contains each service authorized for each client for the month and year entered.

After the County incorporates service data from their providers, the data is validated and uploaded (**Input**) in AWA. Uploaded billing information can be reviewed prior to posting (see previous section – Current Activities – Post). **Posting in AWA can only occur once a month.**

Click the Data Transfer tab. The Data Transfer tab has several links located in the left column. The Output screen will be displayed:

The screenshot shows the AWA County web application interface. At the top, there is a navigation bar with tabs: Work List, Tickler, Client, Billing, Providers, Data Transfer, and Reports. The 'Data Transfer' tab is selected. On the left side, there is a sidebar with links: Employment Output (highlighted), Employment Input, Billing Output, and Billing Input. The main content area displays the 'Employment Output' form. This form includes fields for 'Start Year/Month:*' and 'End Year/Month:*', a 'Service Type:' dropdown menu (currently showing 'Group Supported Employment'), a 'Provider:' dropdown menu, and a 'Generate' button at the bottom.

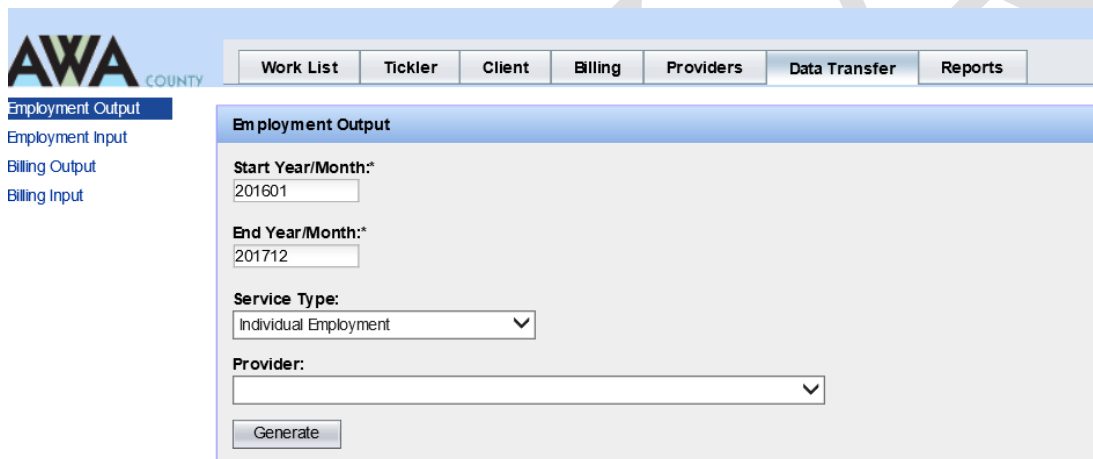

Turn to the next page to begin with Employment Output.

Data Transfer

Employment Output

The Employment Output file is to collect information on the client's Employer, the job type, start date, benefits received, and the job end date. To generate an Employment Output file enter the Start and End dates that represents the time range of the CSA / clients to be included.

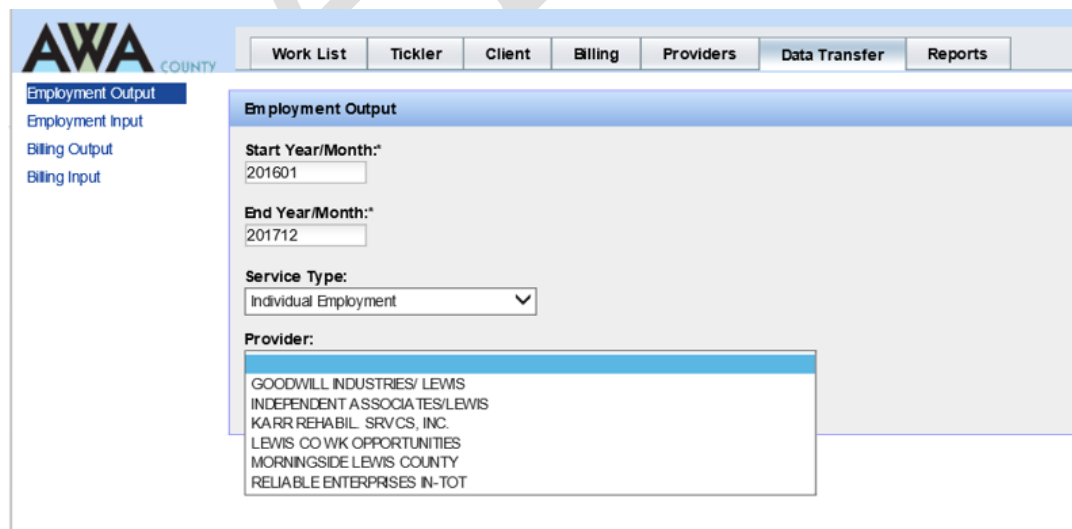

1. *Type* a Start Year/Month (example 201601) or click on the service month /year in the calendar.
2. *Type* an End Year/Month (example 201712) or click on the service month /year in the calendar.
3. Enter the **Service Type** that you want an output file for. If you do not specify the Service Type you will receive all Service Types.

The screenshot shows the AWA County Data Transfer interface. The 'Data Transfer' tab is selected. The 'Employment Output' form is displayed with the following fields:

- Start Year/Month:** 201601
- End Year/Month:** 201712
- Service Type:** Individual Employment (dropdown menu)
- Provider:** (empty dropdown menu)
- Generate** button

4. Enter the Provider that you want an output file for. If you do not specify the Provider you will receive all Providers for the chosen service type.

The screenshot shows the AWA County Data Transfer interface. The 'Data Transfer' tab is selected. The 'Employment Output' form is displayed with the following fields:

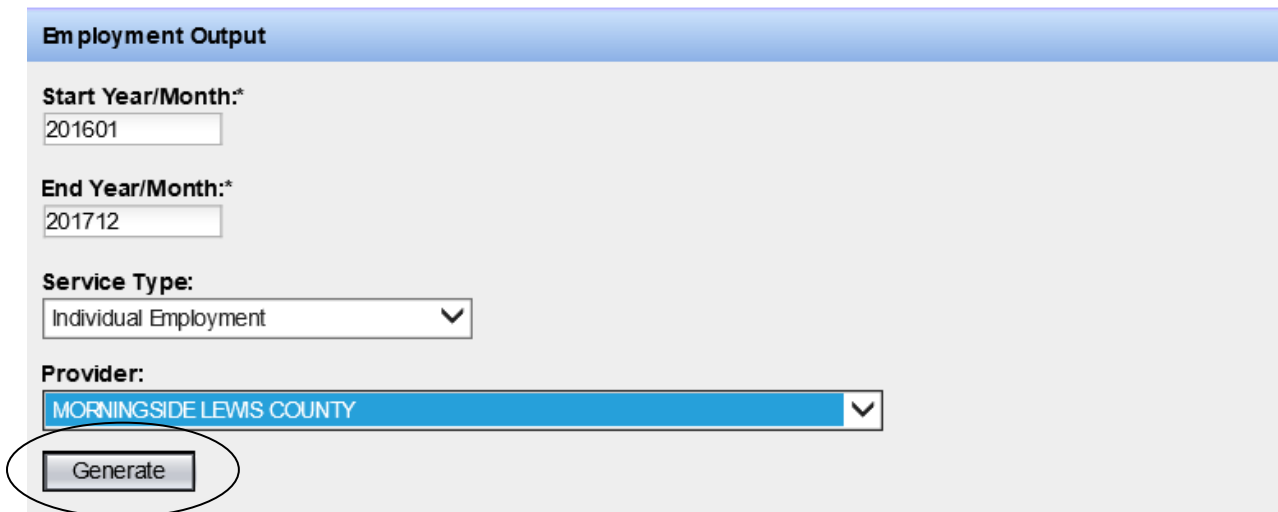

- Start Year/Month:** 201601

You can click on your Excel file to look at the rows that contain the errors.

NOTE: The data is validated during Input and any errors that list are system detected errors. For example, Unit Type must have an entry; # of Units and Unit Rate must have a valid number. You will be able to download/output the records with errors to a file to make corrections.

Refer to the **County Billing table** in the Appendix of this workbook. Also, remember you can click the Help link for additional information at any time.

Turn to the next page to correct the errors.

Billing errors

If you see an error:

1. *Click* the “Download Errors” button. You will see a dialogue box asking if you want to open, or save the file.
2. *Click* Save. The “Save As” dialogue box will be displayed.
3. *Select* a location – in class choose DESKTOP.
4. *Name* the file – in class name the file (example - **201601IE_errors**).
NOTE: The file will be saved as a .csv or “comma separated value” type file.
5. *Click* Save.

Open the Excel file:

6. *Go to* the Desktop.
7. *Double-click* the **201601IE_errors**.
8. *Correct* the errors.

Save your changes:

9. *Choose* File and *Save As*....
10. *Choose* Desktop; name the file **201601IE_corrected** and *minimize* the file.

Upload with corrections:

11. Use the steps you already know to Upload the Input file again.

Note: The Upload process will update the original file with the corrected rows. So, the last upload you do will always be the one that will be used for posting the billing.

Turn to the next page to view the Billing correction process.

Billing Correction Record

Once you have posted a billing, it becomes a permanent record and cannot be changed.

You can, however, create a correction record with the next Input (use the corrected file for the same service month) so it will be added to the next Billing Statement. The next Billing Statement will display that corrected record. (The information is found in the Billing Detail report.)

Note: For indirect services you will need to add or subtract the corrected amount. For direct services the corrections are an overlay so you would replace the original record with corrected data.

Direct Service Example:

Billing #1:

Service Month	Service	Provider	Unit	Rate	Total
7/2017	IE	GetJobs	2	1.00	2.00

You discover that Chris' rate should be \$150.00 not \$1.00. \$150 must be entered in the rate category to correct this error.

Billing #2 – Correction Record:

Service Month	Service	Provider	Unit	Rate	Total
*7/2017	IE	GetJobs	2	150.00	300.00

Indirect Service Example:

Billing #1:– 92 “Admin Infrastructure” was billed in error:

BARS	Description	Amount	BARS	Description	Amount
11	COUNTY ADMIN.	\$4,783.17	92	ADMIN INFRASTRUCTURE	\$983.92
12	PASRR ADMIN.	\$44.80	93	AGENCY START-UP	
31	STAFF TRAIN.		94	PARTNERSHIP	
32	BOARD TRAIN.		95		
41	INFO/ED. ACT.	\$2,782.98			

Billing #2:– Correction Record – prior amount for 92 “Admin Infrastructure” needs to be subtracted to correct this error:

BARS	Description	Amount	BARS	Description	Amount
11	COUNTY ADMIN.		92	ADMIN INFRASTRUCTURE	-983.92
12	PASRR ADMIN.		93	AGENCY START-UP	
31	STAFF TRAIN.		94	PARTNERSHIP	
32	BOARD TRAIN.		95		
41	INFO/ED. ACT.

Providers

The Provider screens are used to maintain Provider information in all Counties.

1. *Click* the Providers tab. The Provider Search screen will be displayed:

2. *Enter* your search criteria into one (or more) of the fields, and *click* Search.

Note: The search rule is – Name, **OR** Provider # **OR** TIN (Tax ID number) **AND** Service type **AND** County.

3. A list matching your search request will be returned.

4. *Click* on a Provider's name to see details:

Service Type	Start Date	End Date
Individual Employment	04/01/2016	
Community Access	04/01/2016	

Turn to the next page to continue an overview of the Provider screen.

Providers

Edit

Only staff in the County of Contract can update the Provider data. Data will be view only for all other Counties. **County staff may update the Address, Telephone, FAX, and E-Mail.** Any other Provider information must be entered into the CARE by DDA Regional Operations Managers.

Update a Provider's information:

1. You should be viewing a Provider's screen.
2. *Click* in one of the fields to edit. You can click, or use the [Tab] key to jump to the next field.
3. *Click* Save when you are finished.

Formal Evaluation Dates

A history of formal evaluation (on-site monitoring review) dates for Providers are recorded on this screen.

1. View a Provider's screen.
2. *Click* on a Service Type in the Service table. The Formal Evaluation Date Dialogue box will be displayed:
