

Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

A. The State of Washington requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.

B. Program Title:

Individual and Family Services

C. Waiver Number: WA.1186

D. Amendment Number: WA.1186.R01.10

E. Proposed Effective Date: (mm/dd/yy)

03/01/23

Approved Effective Date: 03/01/23

Approved Effective Date of Waiver being Amended: 09/01/19

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:

- Add Remote Supports as new service
- Revise definition of Community Engagement to clarify the definition of service
- Add remote service delivery for Assistive Technology, Community Engagement, Remote Supports, Person-Centered Plan Facilitation, Peer Mentoring, Specialized Clothing, Specialized Habilitation, Staff/Family Consultation, Supported Parenting, Physical Therapy, Occupational Therapy and Speech, Hearing and Language Services. Remote service delivery must be chosen by the participant or guardian (if applicable), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered

3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (*check each that applies*):

| Component of the Approved Waiver | Subsection(s) |
|--|------------------|
| <input checked="" type="checkbox"/> Waiver Application | 1,2,3, Main-6, B |
| <input type="checkbox"/> Appendix A Waiver Administration and Operation | |
| <input type="checkbox"/> Appendix B Participant Access and Eligibility | |
| <input checked="" type="checkbox"/> Appendix C Participant Services | C-1/C-3 |
| <input type="checkbox"/> Appendix D Participant Centered Service Planning and Delivery | |
| <input type="checkbox"/> Appendix E Participant Direction of Services | |
| <input type="checkbox"/> Appendix F Participant Rights | |
| <input type="checkbox"/> Appendix G Participant Safeguards | |
| <input type="checkbox"/> Appendix H | |
| <input checked="" type="checkbox"/> Appendix I Financial Accountability | I-2-a |
| <input checked="" type="checkbox"/> Appendix J Cost-Neutrality Demonstration | J-2-c-i, J-2-d |

B. Nature of the Amendment. Indicate the nature of the changes to the waiver that are proposed in the amendment (*check each that applies*):

- ☐ Modify target group(s)
 - ☐ Modify Medicaid eligibility
 - ☒ Add/delete services
 - ☒ Revise service specifications
 - ☐ Revise provider qualifications
 - ☐ Increase/decrease number of participants
 - ☒ Revise cost neutrality demonstration
 - ☐ Add participant-direction of services
 - ☐ Other
- Specify:

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of Washington requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).

B. Program Title (optional - this title will be used to locate this waiver in the finder):

Individual and Family Services

C. Type of Request: amendment

Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

☐ 3 years ☒ 5 years

Waiver Number: WA.1186.R01.10

Draft ID: WA.029.01.05

D. Type of Waiver (select only one):

Regular Waiver

E. Proposed Effective Date of Waiver being Amended: 09/01/19

Approved Effective Date of Waiver being Amended: 09/01/19

PRA Disclosure Statement

The purpose of this application is for states to request a Medicaid Section 1915(c) home and community-based services (HCBS) waiver. Section 1915(c) of the Social Security Act authorizes the Secretary of Health and Human Services to waive certain specific Medicaid statutory requirements so that a state may voluntarily offer HCBS to state-specified target group(s) of Medicaid beneficiaries who need a level of institutional care that is provided under the Medicaid state plan. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0449 (Expires: December 31, 2023). The time required to complete this information collection is estimated to average 160 hours per response for a new waiver application and 75 hours per response for a renewal application, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid state plan (check each that applies):

☐ **Hospital**

Select applicable level of care

☐ **Hospital as defined in 42 CFR §440.10**

If applicable, specify whether the state additionally limits the waiver to subcategories of the hospital level of

care:

☐ **Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160**

☐ **Nursing Facility**

Select applicable level of care

☐ **Nursing Facility as defined in 42 CFR ??440.40 and 42 CFR ??440.155**

If applicable, specify whether the state additionally limits the waiver to subcategories of the nursing facility level of care:

☐ **Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140**

☒ **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)**

If applicable, specify whether the state additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities

Select one:

☐ **Not applicable**

☒ **Applicable**

Check the applicable authority or authorities:

☐ **Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I**

☒ **Waiver(s) authorized under §1915(b) of the Act.**

Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the §1915(b) authorities under which this program operates (check each that applies):

☐ **§1915(b)(1) (mandated enrollment to managed care)**

☐ **§1915(b)(2) (central broker)**

☐ **§1915(b)(3) (employ cost savings to furnish additional services)**

☒ **§1915(b)(4) (selective contracting/limit number of providers)**

☐ **A program operated under §1932(a) of the Act.**

Specify the nature of the state plan benefit and indicate whether the state plan amendment has been submitted or previously approved:

☐ **A program authorized under §1915(i) of the Act.**

☐ A program authorized under §1915(j) of the Act.

☐ A program authorized under §1115 of the Act.

Specify the program:

H. Dual Eligibility for Medicaid and Medicare.

Check if applicable:

☒ This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The purpose of the Individual and Family Services (IFS) Waiver is to provide support to individuals residing in the family home as an alternative to ICF/IID placement.

The IFS Waiver is a partnership between the Developmental Disabilities Administration (DDA) and families to:

- o Support DDA-eligible individuals living in the family home;
- o Provide waiver participants/families with a choice of services; and
- o Allow individuals more control over the resources allocated to them.

The IFS Waiver will serve individuals who meet ICF/IID guidelines and have a natural support system. The Family/care giver's ability to continue caring for the client may be at risk but can be continued with the addition of services. Risk may be due to:

- o The individual needs some support to participate successfully in the community; or
- o The individual has physical assistance needs or medical problems requiring extra care; or
- o The individual has behavioral episodes which challenge the family/caregiver's ability to support them; or
- o The family/caregiver needs temporary or ongoing support to continue helping the individual remain in the family home.

The goal of the IFS Waiver is to support individuals (who require the level of care provided in an ICF/IID) who choose to remain in the family home. This is accomplished by coordination of natural supports, community resources/services, Medicaid services and services available via the waiver. The DDA wants people who receive IFS Waiver services to experience these benefits:

- Health and Safety
- Personal Power and Choice
- Personal Value and Positive Recognition By Self and Others
- A Range of Experiences Which Help People Participate in the physical and social life of Their Communities
- Good Relationships with Friends and Relatives
- Competence to Manage Daily Activities and Pursue Personal Goals

The objective of the IFS Waiver is to support natural support systems and develop and implement supports and services to successfully maintain individuals in their family homes and communities.

With regard to the organizational structure, the State of Washington's HCBS IFS Waiver will be managed by the Developmental Disabilities Administration (DDA) within the Department of Social and Health Services (DSHS) which is the Operating Agency for this waiver. The DDA monitors against waiver requirements for all services delivered. The principles of Continuous Quality Improvement are used by the DDA to enhance the IFS Waiver services delivery system. The Medicaid Single State Agency (Health Care Authority-HCA) is responsible for approving rules, regulations and policies that govern how waivers are operated and retains the authority to discharge its responsibilities for the administration of the Medicaid program pursuant to 42 CFR §431.10(e).

All aspects of the Waiver will be directly managed by the state. The DDA operates this waiver within applicable federal regulations, manages the day-to-day administration and maintains operational responsibility for the waiver.

3. Components of the Waiver Request

The waiver application consists of the following components. *Note: Item 3-E must be completed.*

- A. Waiver Administration and Operation.** Appendix A specifies the administrative and operational structure of this waiver.
- B. Participant Access and Eligibility.** Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- C. Participant Services.** Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- D. Participant-Centered Service Planning and Delivery.** Appendix D specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).
- E. Participant-Direction of Services.** When the state provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):
- ☐ **Yes. This waiver provides participant direction opportunities.** Appendix E is required.

☒ **No. This waiver does not provide participant direction opportunities.** Appendix E is not required.
- F. Participant Rights.** Appendix F specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.
- G. Participant Safeguards.** Appendix G describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy.** Appendix H contains the Quality Improvement Strategy for this waiver.
- I. Financial Accountability.** Appendix I describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration.** Appendix J contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

- A. Comparability.** The state requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.
- B. Income and Resources for the Medically Needy.** Indicate whether the state requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (*select one*):
- ☐ Not Applicable
- ☒ No
- ☐ Yes
- C. Statewide.** Indicate whether the state requests a waiver of the statewide requirements in §1902(a)(1) of the Act (*select one*):
- ☒ No
- ☐ Yes
- If yes, specify the waiver of statewide requirements that is requested (*check each that applies*):
- ☐ **Geographic Limitation.** A waiver of statewide requirements is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state.

Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

- ☐ **Limited Implementation of Participant-Direction.** A waiver of statewideness is requested in order to make *participant-direction of services* as specified in **Appendix E** available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state.

Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the state provides the following assurances to CMS:

- A. Health & Welfare:** The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
1. As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver;
 2. Assurance that the standards of any state licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,
 3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in **Appendix C**.
- B. Financial Accountability.** The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need:** The state assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- D. Choice of Alternatives:** The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
1. Informed of any feasible alternatives under the waiver; and,
 2. Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures:** The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- F. Actual Total Expenditures:** The state assures that the actual total expenditures for home and community-based waiver

and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

G. Institutionalization Absent Waiver: The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.

H. Reporting: The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

I. Habilitation Services. The state assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

B. Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.

C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.

D. Access to Services. The state does not limit or restrict participant access to waiver services except as provided in **Appendix C**.

E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.

G. Fair Hearing: The state provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the state's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

H. Quality Improvement. The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the Quality Improvement Strategy specified in **Appendix H**.

I. Public Input. Describe how the state secures public input into the development of the waiver:

Waiver Amendment:

DDA designed the public stakeholder process to be very inclusive of stakeholder participation at every stage of waiver amendment development. DDA utilized electronic channels to inform stakeholders and solicit input on the draft waiver amendment. The State secured public input by working closely with the following:

- Other state agencies;
- County Coordinators for Human Services,
- The State of Washington Developmental Disabilities Council (DDC),
- The Arc of Washington (advocacy organization), The Community Advocacy Coalition made up of advocates and providers, and
- The HCBS (DDA) Quality Assurance Committee composed of self-advocates, advocates and providers.

The public process included the following:

- DDA posted public notice that the draft waiver amendment was available for public inspection online at DDA's website on August 17, 2022.
- DDA made the draft waiver amendment available to anyone who requested a copy of the amendment as a PDF document available on-line from DDA's public website on August 17th, 2022, through October 7th, 2022.
- DDA filed the public notice of the availability of the draft waiver amendment for public review in the Washington Register published on August 17th, 2022, and on September 7, 2022.
- DDA sent a letter on August 30th, 2022, to 26,916 stakeholders, including participants, family members, advocacy organizations, providers and state staff, inviting their review and comments on the draft waiver amendment.
- Washington State Health Care Authority published a public notice to all Washington State Tribes on August 2nd, 2022, and on August 17th, 2022, of DDA's intent to submit a waiver amendment to the Centers for Medicare and Medicaid Services.

Summary of Public Comments received and State's responses:

1. Commentor alleges that public comment process is not inclusive or accessible. Many of the avenues for participation/comment are limited to contractors, agencies or committees without public input. Individuals have not had an opportunity to be involved in the development of service rates.

State Response: The State makes multiple options available to people in order to make comments on and suggest changes to DDA's HCBS waivers. The State publishes notice of the 30 day public comment period in the Washington Register and in a direct email to all members who have signed up for GovDelivery (19,000+ individuals and organizations). Online access to waiver applications is available from the DDA internet site and hard copies of waiver applications are available upon request. A summary of significant changes is available on the DDA website and is broadcast in a GovDelivery letter to 19,000+ individuals and organizations. The State also offers opportunities for public input for direct contact with DDA staff through regional meetings, one-on-one contact with Case/Resource Managers and through participation in various advocacy groups. The development of service rates includes a significant opportunity for public input as required by law.

2. Commentor asks that DDA conduct heightened scrutiny of all Community Protection settings. Commentor alleges that all positive behavior support plans reviewed do not meet requirements to protect people from harm. Commentor alleges that Community Protection waiver violates participants rights with improper restraints, blanket restrictions and isolation of people.

State Response: The State has, and will continue to have, all waiver service sites, including all Community Protection sites, annually reviewed for compliance with the Centers for Medicare and Medicaid Services (CMS) Home and Community-Based Setting (HCBS) settings rule in accordance with the CMS-approved HCBS setting review tool. Reviews include annual reviews conducted by DDA case/resource managers and biennial reviews by Residential Care Services licensors/certifiers. DDA's residential quality assurance staff are also consulted as circumstances dictate. The State follows HCBS settings rules laid out in 42 CFR §441.301(c)(4). Commentor is encouraged to provide specific issues to DDA to address any concerns they have with restrictions. The Community Protection Program services are person-centered, do not allow for blanket restrictions, and participants and their representatives are included and informed of the recommended restrictions and consent to them in advance. The State follows HCBS settings rules laid out in 42 CFR §441.301(c)(4). Commentor is encouraged to provide specific issues to DDA to address any concerns they have with restrictions. The Community Protection Program services are person-centered, do not allow for blanket restrictions, and participants and their representatives are included and informed of the recommended restrictions and consent to them in advance.

3. Two Commentors requests that participants have access to day programs. Following high school graduation individuals typically have only 2-4 hours per week of employment which does not comprise a meaningful life. Participants should not have to choose between employment and day programs.

State Response: The State agrees and starting January 1, 2023, waiver participants can access both Community Inclusion

and Individual Supported Employment/Group Supported Employment at the same time. Another service, Community Engagement, is also available to connect waiver participants to activities, events and services in the community that participants are interested in exploring.

Continued at Main B-Optional

J. Notice to Tribal Governments. The state assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

K. Limited English Proficient Persons. The state assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003). **Appendix B** describes how the state assures meaningful access to waiver services by Limited English Proficient persons.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

Last Name:

Roberts

First Name:

Debbie

Title:

Assistant Secretary, Developmental Disabilities Administration

Agency:

Developmental Disabilities Administration, Department of Social and Health Services

Address:

P.O. Box 45310

Address 2:

8. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the state's request to amend its approved waiver under §1915(c) of the Social Security Act. The state affirms that it will abide by all provisions of the waiver, including the provisions of this amendment when approved by CMS. The state further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The state certifies that additional proposed revisions to the waiver request will be submitted by the Medicaid agency in the form of additional waiver amendments.

Signature:

DEBBIE Roberts

State Medicaid Director or Designee

Submission Date:

Jan 19, 2023

Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.

Attachments**Attachment #1: Transition Plan**

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- ☐ Replacing an approved waiver with this waiver.
- ☐ Combining waivers.
- ☐ Splitting one waiver into two waivers.
- ☒ Eliminating a service.
- ☐ Adding or decreasing an individual cost limit pertaining to eligibility.
- ☐ Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
- ☐ Reducing the unduplicated count of participants (Factor C).
- ☐ Adding new, or decreasing, a limitation on the number of participants served at any point in time.
- ☐ Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
- ☐ Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

Positive Behavior Support and Consultation was removed from the waiver in accordance with CMS direction. Participants have been assisted by their case/resource manager to transition to Medicaid State Plan services or other waiver services including Specialized Habilitation, among other services. All persons served in the PBSC service in the existing waiver will also be eligible to participate in the renewed/amended waiver. Transition Plan: Individuals currently receiving PBSC in the approved waiver will be transitioned to any appropriate waiver service or Medicaid State Plan service that will meet their assessed needs in their person-centered service plan.

There are approximately 30 youth in the process of transitioning from waiver funded positive behavior support and consultation to either Medicaid State Plan behavioral health or autism treatment (ABA) and or other DDA waiver services such as Specialized Habilitation. DDA case resource managers discuss support needs through the person-centered planning process to identify DDA waiver services prior to September 1st 2022. Specialized habilitation was introduced into the DDA waivers in 2020 that absorb the habilitative components of the waiver service positive behavior support and consultation so that clients who have a need that is not appropriately met through State Plan services will have their need met through specialized habilitation. The steps HCA is taking with MCO's is all about making sure that sufficient state plan providers are available by the time participants in the PBSC service are transitioned to the state plan on September 1, 2022.

The Health Care Authority is working closely with contracted Managed Care Organizations and DDA partners to take a multipronged approach in supporting network access and continuity of care to facilitate smooth transitions for clients. MCOs and DDA are in close communication to ensure understanding of individual client needs and support connection to existing providers, and MCOs are assisting with referrals for additional assessments as indicated. MCOs are exploring contracting options with existing PBSC providers to ensure sufficient access for clients and provide appropriate State Plan services to their current clients. Where transition to a different provider may be necessary, MCOs are working closely with clients and families to ensure connection to providers with ability to meet their specific needs. Many clients have already successfully transitioned to receiving services through the State Plan. HCA is monitoring these processes closely and providing regular technical assistance via various methods and forums.

During entrance to a waiver, an individual is given administrative hearing rights via the DDA HCBS Waiver Brochure (DSHS #22-605). The CRM/Social Service Specialist discusses administrative hearing rights at the time of the initial and annual Person-Centered Service Plan meeting, and Planned Action Notices (PAN) are attached to the Person-Centered Service Plan when it is sent to the individual and their designee (the individual who has been designated to assist the client with understanding and exercising their administrative hearing rights) for signature. When the department makes a decision affecting eligibility, level of service or denial or termination of provider, a Planned Action Notice (PAN) must be sent within 5 working days of the decision. The notice is sent to the client and their designee. The PAN provides the effective date of the action, the reason and applicable WAC, appeal rights, and time lines for filing appeals. Individuals have up to 90 days to appeal a department decision. If an individual wishes to maintain services during the appeal process, they must ask for an administrative hearing within the ten-day notice period. If the tenth day falls on a weekend or holiday, they have until the next business day to ask for an administrative hearing. If the tenth day happens before the end of the month, they have until the end of the month to ask for an administrative hearing and still be able to get continued benefits.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

Continued from Main 6. Requirements - Public Comments:

4. Commentor requests that qualifications for Equine Therapy be revised to include both Certified Therapeutic Riding Instructors and Equine Specialists in Mental Health and Learning.

State Response: The State will consider this suggestion.

5. Two Commentors requests that Respite in the Community Providers may provide their services remotely and that many adult children would benefit from this service.

State Response: The State will consider this suggestion and notes that many services including Assistive Technology, Community Engagement, Individual Supported Employment, Individualized Technical Assistance, Remote Supports, Specialized Habilitation, Staff/Family Consultation, Physical Therapy, Occupational Therapy, and Speech, Hearing and Language Services will be available via remote service delivery or teleservice on the effective date of these waiver amendments.

6. Commentor offered support for services of DDA and the Washington Department of Education.

State Response: The State appreciates the support for the services of DDA and the Washington Office of Superintendent of Public Instruction.

7. Commentor wishes some of services now offered had been available years ago when their family needed help.

State Response: The State intends to continue to expand and refine service offerings based on Legislative direction and public feedback.

8. Commentor wants greater employment provider choices and/or self-directed employment and day habilitation service options.

State Response: The State partners with Washington Counties to provide employment and day habilitation services. Counties choose whether to be direct service providers or contract with service providers in their counties. Federal rules require all qualified providers to be able to be contracted by the State and/or the counties.

9. Commentor appreciates the service additions and the addition of teleservice for our clients - a real benefit for people in remote rural areas.

State Response: The State appreciates the support for these additional services and teleservice.

10. Two commentors noted that the definition of Remote Supports includes a confusing sentence regarding the participant's choice in receiving this service in person, via teleservice, or a combination of both. Commentors also suggested removing internet service as a component of Remote Supports.

State Response: The State will remove this confusing sentence referencing receiving Remote Supports in person and will retain internet service as a possible component of Remote Supports rate methodology.

11. Two commentors asked if Community Engagement providers would be able to provide ongoing support to participants after connecting the participants to the desired activity.

State Response: The intention of Community Engagement is to introduce and connect clients to community supports, resources and activities to help the waiver participant fully access their community for daily living needs or to reduce social isolation. This service is not intended to be an ongoing support service for participating in community activities.

12. Two commentors asked if the State intended that Specialized Habilitation added to the Core waiver was limited to those participants receiving Residential Habilitation in Companion Homes.

State Response: The State's intention is that Specialized Habilitation on the Core waiver is limited to those waiver participants receiving Residential Habilitation in Companion Homes.

13. Two commentors noted that HIPAA is misspelled in all 5 waiver amendments.

State Response: The State has corrected the spelling of HIPAA in all 5 waiver amendments.

Continued from C-1/C-3 Person-Centered Planning Facilitation

Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager

will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services. The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Continued from C-1/C-3 Remote Supports - Assurances

Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

RFID is like or the same as the PERS.

The tags or sensors will be placed in agreed upon locations based on the person-centered service plan and as requested by the client. This could be in the client's home or on the person, as the client requests.

Clients can turn off and turn on any device that they choose to whenever they want to.

Information from the sensor using RFID is sent to the device used to connect to the remote support vendor through internet. Data is collected to the provider's secure database or "cloud". The provider can access the information to then follow up with the client with anything deviating from baseline as requested by the client and as specified in the client's person-centered service plan.

The state does not have an exhaustive list of where RFID can be used because location will be determined by the client as a part of the person-centered service plan.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Continued from C-4.a

The IFS support rating is added to the adjustment amount to yield the IFS services score, which in turns determines the IFS Waiver funding allocation amount, as contained in the first table above.

State will reevaluate benefit levels during the five year waiver cycle based on annual waiver Annual Per Capita expenditure data and propose changes based on utilization changes or service cost increases as necessary to the Washington Legislature and to CMS.

State permits exceptions to rule (ETR) to exceed the maximum benefit level for exceptional expenditures when the IFS waiver will otherwise continue to meet the health and welfare needs of the waiver participant.

When IFS waiver participants demonstrate needs in excess of IFS waiver benefit levels and these needs will not be met with an exception to rule or require additional services not offered by the IFS waiver the participant may request and gain access to one

of the State's other waivers that can meet the participant's needs.

The State mails two documents to the waiver participant to notify the participant of the benefit amount to which their waiver services are subject: the completed person-centered service plan (PCSP) and planned action notice (PAN).

(b) For complete details see WAC 388-828-9000-9140.

Continued from Appendix D Quality Improvement 1.a.ii

D.c.2: Person-Centered Service Plan Meeting Survey: A PCSP Meeting survey is mailed to waiver participants within one month of the PCSP planning meeting. This survey gives participants an opportunity to respond to a series of questions about the PCSP process. The survey is mailed from DDA Central Office based on a random sample representative of all waivers with a 95% confidence level with a margin of error of +/-5%. Information collected is analyzed annually at the HCA Medicaid Agency Waiver Management Committee.

Questions in the Person-Centered Service Plan Meeting Survey include:

- Did you get to choose who came to your meeting?
- Did you get to choose the time and place of your meeting?
- Were you given the opportunity to lead your meeting?
- Were your personal goals discussed in developing your plan?
- Were you given a choice of services?
- Did you choose where and how the services will be provided?
- Did your case resource manager review last year's plan and ask what supports you want to continue and what should change?
- Were any concerns you may have had addressed in your new plan?
- Did you receive information about resources and services available to meet your goals?
- Were you given a choice of providers?
- Were plans made to meet any health and safety concerns you may have had?
- Did you receive information regarding planning for emergencies, such as an earthquake or other natural disaster?
- Do you know who to contact if your needs change before your next assessment?

D.d.5 Medicaid Services Verification Survey provides an additional data source for the state to discover/identify problems/issues with the waiver program.

QIP for Performance Measure-D.d.2- The percentage of waiver PCSPs with services that are delivered within 90 days of the PCSP effective date or as specified in the PCSP.

Sub-Assurance: Services are delivered in accordance with the service plan, including the type, scope, amount, duration and frequency specified in the service plan.

Performance Measure D.d.2: The percentage of waiver PCSPs with services that are delivered within 90 days of the PCSP effective date or as specified in the PCSP. Numerator = All waiver PCSPs reviewed with services delivered within 90 days or as specified in the PCSP. Denominator = All waiver PCSPs reviewed. DS: Record reviews, on-site/Sample/QCC

Current compliance is 82% and trending down

Root cause: change management. Rapid onboarding of new staff or depletion of existing staff is strongly correlated with performance metrics

Remediation Plan:

- WPS review of first 3 assessments for all new staff
- Mandatory FSA/supervisor training on change management. Existing training is on change management theory-possibly develop part 2 operationalized change management training in the context of DDA needs around staffing fluctuations
- Develop a monthly report for the field to show clients with PCSP services that are not authorized; expectation that WPS/supervisors follow up with their staff
- CARE tickler notifying field staff of mismatch in PCSP and ProviderOne
- Develop a policy-if service is not authorized within the previous 89 days, an end date will be added in the PCSP. An amendment can be added later when the service is able to be authorized.

Implementation Plan:

HQ Responsibilities

Field Implementation Expectations

Identify Change Management trainings

- Make change management a mandatory training for field leadership (Supervisors, specialists and FSAs)
- Develop an operationalized change management training specific to
- Prioritize change management training
- Take Change Management training
- Provide feedback about change

management needs
implementation, for supervisors

WPS review of first 3 assessments for all new staff

- Include review of expectations in a remediation plan MB
- New staff will submit their first 3 assessments for waiver specialist review
- Waiver Specialists will provide feedback to supervisors and/or HQ if staff are needing more support

Develop a monthly report that is sent to field for correction

- Create monthly report pulling Plan Effective Date for previous 60 days and identify barriers to authorizing services
- Supervisors to follow up with CRMs
- Send list of clients with services in the PCSP that are not authorized in P1 days, put an end date on the service
- If a service is not authorized within 89 days, put an end date on the service
- Provide a timeline to field to correct PCSP services not authorized
- CRM can do a plan amendment when the client is ready to begin the service

Develop MB and Policy on Remediation Expectations

- HQ will outline clear expectations related to 90 implementation of services, and all of the above mentioned strategies.
- Field staff will begin, at effective date of the MB, to implement the remediation strategies

QIP for Performance Measure-D.d.3 - The percentage of waiver PCSPs with service authorizations in place for waiver funded services that occurred that should have occurred in the last 3 months.

Sub-Assurance: Services are delivered in accordance with the service plan, including the type, scope, amount, duration and frequency specified in the service plan.

Performance Measure D.d.3: The percentage of waiver PCSPs with service authorizations in place for waiver funded services that occurred that should have occurred in the last 3 months. N = All waiver PCSPs reviewed with service authorizations for waiver funded services that occurred that should have occurred in the last 3 months. D = All waiver PCSPs reviewed that should have included a service authorization in the last 3 months. DS: Record reviews, on-site/Sample/QCC REVISED IN AMENDMENT 10/1/2020

Current compliance is 85% and trending down

Root cause: change management. Rapid onboarding of new staff or depletion of existing staff is strongly correlated with performance metrics

Remediation Plan:

- WPS review of first 3 assessments for all new staff
- Mandatory FSA/supervisor training on change management. Existing training is on change management theory-possibly develop part 2 operationalized change management training in the context of DDA needs around staffing fluctuations
- Develop a monthly report for the field to show clients with PCSP services that are not authorized; expectation that WPS/supervisors follow up with their staff
- CARE tickler notifying field staff of mismatch in PCSP and ProviderOne
- Develop a policy that by day 89, if service is not authorized, an end date will be added in the PCSP. An amendment can be added later when the service is able to be authorized

Implementation Plan:

HQ Responsibilities

Field Implementation Expectations

Identify Change Management trainings

- Make change management a mandatory training for field leadership (Supervisors, specialists and FSAs)

QIP for Performance Measure G.a.2 - The percentage of incidents of alleged abuse, neglect, exploitation or abandonment in which the waiver participant and/or legal representative was contacted within 30 days to ensure safety plans were developed/appropriately implemented.

Sub-Assurance The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexpected death.

Performance Measure G.a.2: The percentage of incidents of alleged abuse, neglect, exploitation or abandonment in which the waiver participant and/or legal representative was contacted within 30 days to ensure safety plans were developed/appropriately implemented. N = # of reviewed incidents in which the waiver participant and/or legal representative was contacted within 30 days to ensure safety plans were developed/appropriately implemented. D = Number of reviewed incidents of alleged abuse,

neglect, exploitation or abandonment. REVISED PM IN IFS 2019 RENEWAL. Data source: Other/Incident Report Application/100%/ PM REVISED IN AMENDMENT 10/1/2020

Current compliance is 50% and trending down

Root cause: Field Staff compliance

Remediation Plan:

- Report created and distributed to field in third quarter of 2021
- Require staff follow up
- CARE change request for additional ticklers to supervisor and Incident Report Program Manager
- In October 2021 new statewide standardized training on IR follow up was rolled out

Remediation Goal: 100% follow up after a critical incident to ensure client health and welfare

Implementation Plan:

HQ Responsibilities

Field Implementation Expectations

Report created for field staff (already available)

- Create MB or policy to make 30 day follow up a quality assurance task for supervisors to ensure their staff have completed the 30 day follow up contact
- Supervisors to receive report and expectation of
- FSAs attend Regional Quality Assurance meeting to review Quality compliance
- 15 day canned report on follow up

CARE Change Request

- Add tickler to CARE for assigned supervisor at 20 days up with staff and ensure 30 day IR follow up is completed
- Supervisor will receive notification tickler and follow up
- Develop MB guidance on remediation expectations for supervisor follow up

Develop MB and Policy on Remediation Expectations

- HQ will outline clear expectations related to IR 30 day critical incident follow up, and all of the above mentioned strategies.
- Field staff will begin, at effective date of the MB, to implement the remediation strategies
- Require supervisor to ensure 30 day follow up in MB

In October 2021 new statewide standardized training including IR follow up

- HQ will review and monitor training schedule and staff attendance
- Field Staff will attend scheduled trainings

Appendix I-2 Rate Determination Methods - Information placed here due to lack of capacity at Appendix I-2.

Environmental Adaptations, Therapeutic Adaptations, & Vehicle Modifications: Rates are based upon bids received by potential contractors. Variations in rates are due to differences among providers related to overhead, staff wages, and the local demand for services. Rates are adjusted as the bids change over time, which in turn are based on the local cost of goods & labor & the demand for the service. Providers initiate the change in payment by the bids they submit. DDA will review the rates being paid annually using rate comparisons. Rates will be increased if current rates are significantly (e.g., 20%) less than prevailing market rates.

Nurse Delegation, Skilled Nursing: Nurse Delegation: market value, including Medicaid reimbursement rates, are reviewed and final rate is set by legislature

Skilled Nursing: market value, including Medicaid reimbursement rates, are reviewed and final rate is set by legislature.

Rates are based on Medicaid unit rates with no vacation or overtime. Changes to flat rates such as these are initiated, mandated and funded by the Legislature during legislative sessions, which are held annually. Adjustments to the rates will be made by the HCA. HCA rates are updated every January with any possible new codes, & rates are changed every July to align with new RVUs, State GPCI, & State specific conversion factor. For codes that do not have RVUs, analysis is completed and rates are usually set at a flat rate. If analysis shows they need to be updated, that will occur every July with the other codes.

The State Medicaid Agency is required to follow the Administrative Procedure Act, Chapter 34.05 RCW when soliciting public comments on rate determination methods. Changes to rates that are made by the legislature in the biennial and supplemental budget process are part of public hearings on budget and policy legislation. Rates are posted on public web sites.

Wellness Education rate is a flat fee based on actual cost for production of the service. The current Wellness Education provider's contract is renewed annually.

The State publishes its fee schedules at: <https://www.dshs.wa.gov/altsa/management-services-division/office-rates-management>.

Positive Behavior Support & Consultation - Negotiated Rates. Rates are negotiated by DDA regional staff with individual providers/agencies. Variations in rates are due to provider differences related to overhead, staff wages, & the local demand for services. Rate changes may be proposed by providers or by DDA. Criteria for rate changes include funding provided by the Legislature & the rates paid for similar services in the geographic area, which in turn are based on provider overhead, staff wages (if applicable) & the local demand for services. DDA adjusts rates annually if necessary. To increase contracted rates, rate comparisons must indicate prevailing market rates have increased significantly (e.g., 20%+). This service will be removed from the waiver effective September 1, 2022.

Behavioral Health Stabilization Services - Positive Behavior Support and Consultation, Behavioral Health Stabilization Services - Crisis Diversion Bed Services, Risk Assessments, Stabilization Services – Crisis Diversion Bed – Behavioral Health Stabilization Services - PBSC and Crisis Diversion Bed Services were removed from the waiver with the October 1, 2020, waiver amendment: Negotiated Rates: Rates are negotiated by DDA regional staff with individual providers/agencies. Variations in rates are due to provider differences related to overhead, staff wages, & the local demand for services. Rate changes may be proposed by providers or by DDA. Criteria for rate changes include funding provided by the Legislature & the rates paid for similar services in the geographic area, which in turn are based on provider overhead, staff wages (if applicable) & the local demand for services. DDA adjusts rates annually if necessary. To increase contracted rates, rate comparisons must indicate prevailing market rates have increased significantly (e.g., 20%+). The rate methodology for the Behavioral Health Stabilization Services - Positive Behavior Support and Consultation rate is the same as the rate methodology for the Positive Behavior Support & Consultation rate. Rates have been reviewed June 2020 and continue to be at a standard market rate sufficient to recruit and retain contractors. Rates are negotiated rate within a rate range based on current market value at the time of contracting at least every two years. Rates are negotiated by DDA regional staff with individual providers/agencies. Variations in rates are due to provider differences related to overhead, staff wages, & the local demand for services. Rate changes may be proposed by providers or by DDA. Criteria for rate changes include funding provided by the Legislature & the rates paid for similar services in the geographic area, which in turn are based on provider overhead, staff wages (if applicable) & the local demand for services. DDA adjusts rates annually if necessary. To increase contracted rates, rate comparisons must indicate prevailing market rates have increased significantly (e.g., 20%+). BHSS - Positive Behavior Support and Consultation was removed as of October 1, 2020.

Supported Parenting Services – Fee Schedule Rate based on market analysis: Rates are researched and established by the Rates Unit of Management Services Division/ALTSA/DSHS and are based on the provider status as an individual provider or agency staff. Rate ranges are reviewed every three years and rates for each provider are reviewed within their identified rate range at the time of provider recontracting.

Specialized Habilitation and Stabilization Services – Specialized Habilitation, Stabilization Services – Staff/Family Consultation Services, Staff/Family Consultation Services, : Negotiated Rates are researched and established by the Rates Unit of Management Services Division/ALTSA/DSHS and are based on the educational qualifications of providers (Ph.D, Masters & BA) and the provider status as an individual provider or agency staff. Rate ranges are reviewed every five years and rates for each provider are reviewed within their identified rate range at the time of provider recontracting. For Specialized Habilitation and Stabilization Services – Specialized Habilitation, Stabilization Services – Staff/Family Consultation Services State utilized the cost build up approach. State looked up wages from the Bureau of Labor Statistics, Job Classes tab, based on the hourly mean wages of related positions in 2017. If it was determined that the service required multiple professionals to perform the service, then the average hourly means were added together to establish an hourly rate. To establish the rate range, the State took the average hourly wage and established the low end of the range by taking 90% of the hourly mean wage, multiplied that by 1.317 to add in taxes and benefits which can be found on the BLS benefits table tab, and added two years of inflation which was 4.4% per year. To establish the high end of the formula, the State took 110% of the hourly mean wage, multiplied by 1.317 to account for taxes and benefits, and added two years of inflation (4.4% per year) to the rate.

Behavior Health Stabilization Services - Specialized Psychiatric Services and Specialized Psychiatric Services - Behavioral Health Stabilization Services - Specialized Psychiatric Services and Specialized Psychiatric Services were removed from the waiver with the October 1, 2020, waiver amendment. Rates have been reviewed June 2019 and continue to be at a standard market rate sufficient to recruit and retain contractors. Rates are negotiated rates within a rate range based on current market value at the time of contracting at least every two years. Both services were removed as of October 1, 2020.

Shoppers for Assistive Technology, Therapeutic Adaptations and Specialized Equipment and Supplies - Fixed rate: The

Contractor shall be reimbursed \$8.00 per 15 minute units for the time spent completing tasks under this contract (including, but not limited to shopping, arranging for set-up, and transportation).

Transportation-Fee Schedule:

Individual provider & agency hourly rates & the mileage rate for transportation are based upon the rates provided to personal care providers. Those provider rates are standardized based on negotiations with the Service Employees International Union (SEIU) & funding provided by the Legislature. Changes in rates may be proposed by either party during the negotiations for contract terms, held every two years. DDA will adjust the rates whenever the negotiated rates change, which is expected to be every two years. The rate for transportation is changed based on significant (e.g., 20%) increases in the cost of vehicle maintenance & repair costs & the cost of fuel. HCA Contracted Non-Emergency Medical Transportation Brokers – market rate; Non-Emergency Medical Transportation Companies – market rate.

Remote Supports: Market rate.

Appendix G-1.d Responsibility for Review of and Response to Critical Events or Incidents

RCS's Operations Manual specifies that the RCS staff or contracted evaluators will hold an exit conference with the provider and invite participants, families, their representatives or advocates and DDA Case/Resource Managers following the investigation and prior to the formal issuing of a statement of deficiencies. The exit conference is conducted to identify and summarize for the provider the deficient practices and regulations that will be cited in the statement of deficiencies report and to identify issues that are still being considered for possible citation. RCS will remind the provider of the responsibility to immediately initiate corrective action of identified deficient practices. The formal statement of deficiencies must be mailed to the provider within 10 working days after the last day of data collection.

Appendix G-2.a.i Safeguards Concerning the Use of Restrains

CRMs and SSSs document all recommended interventions and supports in accordance with State policy and rule in participants' PCSPs and Positive Behavior Support Plans (PBSPs). By policy and rule, any recommended intervention in a PCSP and PBSP must cause no harm to the participant.

Appendix G-3.b.i Medication Management and Follow-Up Responsibility

Residential Care Services (RCS) provides the primary second-line monitoring of medication management for those receiving services from a DDA residential habilitation service as a component of their every two-year certification process. The re-certification process includes on-site observations of staff/participant interactions, medication record reviews and participant and provider staff interviews. When deficiencies are detected, statements of deficiencies (SOD) are issued and immediate remediation is required by providers. Follow-up on-site visits are made by RCS certifiers to confirm that required remediation has occurred.

DDA also provides several levels of second-line monitoring of medication management. DDA Residential Quality Assurance (QA) staff review all residential Statements of Deficiency (SODs) in real time and review aggregated SOD data on a monthly basis to discover trends or patterns. When DDA Residential QA staff discovers trends or patterns with SODs, DDA works with RCS to ensure corrective action happens. DDA's Incident Report (IR) committee samples incident reports on a monthly basis to discover trends or patterns which may include issues with medication management. DDA Mortality Review Committee reviews all deaths in residential programs and all unexpected deaths on a monthly basis to determine if deaths were preventable. The DDA Assessment/re-assessment requires the Case/Resource Manager or Social Services Specialist (SSS) to annually or more frequently if participant needs change document all participant medications, their dosage, frequency, route and why taken on the CARE Medications screen. On the Medication Management CARE screen, the CRM or SSS documents self-administration, status (met, partial met, unmet), frequency, assistance available, participant strengths, participant limitations, participant preferences, caregiver instructions, equipment/supplies and comments. CRMs or SSSs monitor medication management to the frequency necessary to maintain client health and safety. The DDA assessment will trigger a referral requirement if medication risk factors are identified. Once this requirement is triggered the CRM or SSS must address the risk identified in the PCSP. How the risks are addressed depends on the concern identified. It could result in a medication evaluation referral, additional provider training, nurse oversight visits, consultation with the healthcare provider or other measures. Results of all monitoring are documented by the CRM or SSS in the CARE tool on the monitoring screen or as service episode records (case notes). Periodic monitoring by the CRM or SSS on a semi-annual, quarterly or monthly basis determined by the complexity of the participant's needs combined with quality assurance oversight by the annual QCC team file review assures that potentially harmful practices are detected and remediated.

Continued from Appendix H-1.b.ii Quality Improvement Strategy - System Design Changes

3.c. Process for identifying and analyzing patterns/trends.

The processes for identifying and analyzing patterns/trends are identical across all DDA HCBS waivers.

Data that is analyzed to identify patterns and trends comes from:

- QCC reviews
- CARE
- National Core Indicators
- PCSP satisfactions surveys
- Fiscal reports
- CRM face to face meeting data
- Incident Reports
- Complaint Data Base
- Mortality Review Team Reviews

Many entities help the DDA identify and analyze patterns and trends by reviewing reports and QIS data, including:

- DDA Executive Management, including the DDA Assistant Secretary, DDA Deputy Assistant Secretary, DDA Division Directors, DDA Office Chiefs, DDA Unit Managers, and DDA regional waiver and quality assurance specialists.
- DDA Incident Review Team, which meets monthly to review aggregate data from the Electronic Incident Reporting System and makes recommendations to prevent incidents.
- DDA Mortality Review Team, which meets monthly to review deaths of waiver participants and identify, monitor and make recommendations concerning mortality trends and patterns.
- Stakeholders, who can access a dedicated internet site which offers them an opportunity to review annual waiver reports, review quality assurance activities, provide input on needed changes, provide suggestions for ways to better served waiver participants, and participate in an on-going dialogue about the quality of services for individuals on the DDA HCBS waivers.
- DDA HCBS Waiver Quality Assurance Committee, which is sponsored by the DDC and is comprised of self-advocates, family members, providers and Administration representatives and meets four times a year (with provision for sub-committees as needed) to provide oversight of and guidance for the DDA HCBS Waiver program.
- Developmental Disabilities Council (DDC) which provides recommendations for improvement using the National Core Indicators Survey as the tool to identify trends and patterns.
- HCA Medicaid Agency Waiver Management Committee, which includes representatives from the Health Care Authority (the single State Medicaid Agency) and Administrations/Divisions within the operating agency and meets quarterly to review all functions delegated to the operating agency, current quality assurance activities and reports, pending waiver activity and potential waiver policy and rule changes and quality improvement activities.

3.d. Majority of the performance indicators are the same.

Currently ninety-six percent (96%) of the performance measures that apply to the DDA HCBS waiver program are common across all five waivers. The remainder are unique to individual waivers based on the populations served and the types of services covered.

4. The provider network is the same or very similar.

Provider networks across all waivers are very similar due to the services that the waivers have in common.

5. Provider oversight is the same or very similar.

Provider oversight is the same across all waivers due to the use of common mechanisms (e.g. Agency Contracts Database), standardized contracts, and standardized protocols for provider oversight that are implemented by state staff employed at the regional level.

A consolidated evidence report is published annually in the fall for all waivers. Evidence for any assurances not met, evidence for performance measures that are unique to any waivers and individual activities for remediation in instances of abuse, neglect and/or exploitation are included in the consolidated evidence report.

Appendix G-1.b. Continued

ONE-DAY PROTOCOL

A. One-day protocol requires a DDA employee to submit an incident report no more than one working day after becoming aware of an incident.

B. A DDA employee must follow one-day protocol if any of the following occur:

1. Alleged or suspected abuse, improper use of restraint, neglect, self-neglect, personal or financial exploitation, or abandonment of a client by a DSHS employee, volunteer, licensee, or contractor.
2. A client is injured following the use of a restrictive procedure or physical intervention.

3. A client's injury, regardless of origin, requires professional medical attention.
 4. A client's injury of unknown origin raises suspicion of abuse or neglect due to:
 - a. The extent of the injury;
 - b. The location of the injury, such as an area not typically vulnerable to trauma;
 - c. The number of injuries observed at a specific point in time;
 - d. Repeated injuries of unknown origin; or
 - e. The client's condition.
 5. Known criminal activity perpetrated by a DSHS employee, volunteer, licensee, or contractor that may impact the person's ability to perform the duties required of their position.
 6. Criminal activity by a client that results in a case number being assigned by law enforcement.
 7. Alleged sexual abuse of a client (if not reported under one-hour protocol above).
 8. Client-to-client abuse under RCW 74.34.035, which applies to clients 18 and older and includes:
 - a. Injuries (e.g. bruising, scratches, etc.) that appear on the back, face, head, neck, chest, breasts, groin, inner thigh, buttock, genital, or anal areas;
 - b. Fractures;
 - c. Choking attempts; or
 - d. Patterns of physical assault between the same vulnerable adults or involving the same vulnerable adults.
 9. A client is missing. A client is considered missing if:
 - a. The client's assessed support level in their person-centered service plan (PCSP) is 4, 5, or 6, their whereabouts are unknown, and the client cannot be contacted for two hours, unless the client's DDA CARE assessment or PCSP indicates a different time period;
 - b. The client's assessed support level in their PCSP is 1, 2, 3a, or 3b and the client is out of contact with staff for more time than is expected based on their typical routine, DDA CARE assessment, or PCSP; or
 - c. The client is located by a first responder, police officer, or community member and the provider was unaware that the client was gone.
- Note: A client without good survival skills may be considered in "immediate jeopardy" when missing for any period of time based upon the client's personal history regardless of the hours of service received. This includes clients with identified community protection issues.
10. Death of a client that doesn't require one-hour protocol.
 11. Death of a live-in care provider
 12. Inpatient admission to a state or local psychiatric hospital or evaluation and treatment center.
 13. Alleged or suspected abuse, abandonment, neglect, personal or financial exploitation by another person (who is not a client or staff), that is screened in by APS, CPS or RCS for investigation.
 14. Criminal activity against a client resulting in a case number being assigned by law enforcement.
 15. Use of a restrictive procedure, on an emergency basis, that is not part of the client's approved Positive Behavior Support Plan (PBSP).
 16. A medication or nurse delegation error that caused or is likely to cause injury or harm to a client according to a pharmacist, nurse, or other medical professional.
 17. A pattern of medication errors involving the same client or the same staff.
 18. Emergency medical hospital admissions.
 19. A client or the client's legal representative are contemplating a permanent sterilization procedure.
 20. A community protection client signs out or leaves the program without intent to return.
 21. A client's provider or family declines to support the client after discharge from a medical or psychiatric facility.

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (*select one*):

☐ **The waiver is operated by the state Medicaid agency.**

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (*select one*):

☐ **The Medical Assistance Unit.**

Specify the unit name:

(Do not complete item A-2)

- ☐ **Another division/unit within the state Medicaid agency that is separate from the Medical Assistance Unit.**

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

- ☒ **The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency.**

Specify the division/unit name:

Department of Social and Health Services/Developmental Disabilities Administration

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

- a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency.** When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

- b. Medicaid Agency Oversight of Operating Agency Performance.** When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

Schedule A5 of the Cooperative Agreement between the Department of Social and Health Services (DSHS) and the Health Care Authority (HCA) delegates the following functions to the operating agency:

- Submission of all necessary application, renewal and amendment materials to CMS in order to secure and maintain approval of all proposed and existing waivers;
- Responsibility for the operation, management, and reporting of allowable Medicaid administrative activities for approved federal waivers; and
- Developing regulations, MMIS policy changes, and provider manuals.

The Cooperative Agreement is reviewed and updated when needed as issues are identified.

The Medicaid agency (HCA) is responsible for approving rules, regulations and policies that govern how waivers are operated and retains the authority to discharge its responsibilities for the administration of the Medicaid program pursuant to 42 § CFR §431.10(e). The assigned operational and administrative functions are monitored as part of the Aging and Long-Term Support Services Administration's (ALTSA's)/Developmental Disabilities Administration's (DDA's) annual Quality Assurance (QA) review cycle. Final QA outcome reports are provided to the Medicaid agency for review and follow-up.

At the end of each QA review cycle, a final report is generated which includes detailed data on a statewide level. These results are analyzed and incorporated into a statewide proficiency improvement plan. The State Medicaid Agency receives annual QA review reports and meets with the operating agency at the conclusion of the QA cycle to review results and provide input into the proficiency improvement plan. The proficiency improvement plan is reviewed and approved for implementation by DDA executive management.

The Medicaid Agency Waiver Management Committee was created and includes representatives from divisions within the operating agency, Home and Community Services (HCS) and Residential Care Services (RCS), and from two other DSHS administrations: Developmental Disabilities Administration (DDA) and Behavioral Health Administration (BHA). The committee meets at least quarterly to review all functions delegated to the operating agency, current quality assurance activity, pending waiver activity (e.g. amendments, renewals, etc.), potential waiver policy and rule changes and quality improvement activities.

The State's Medicaid agency, the Health Care Authority, employs oversight methods that cover the full range of responsibilities specified in item A-7, including participant waiver enrollment, waiver enrollment managed against approved limits, waiver expenditures managed against approved levels, level of care evaluation, review of participant service plans, prior authorization of waiver services, utilization management, qualified provider enrollment, execution of Medicaid provider agreements, establishment of a statewide rate methodology, rules, policies, procedures and information development governing the waiver program and quality assurance and quality improvement activities. The oversight methods include: a Cooperative Agreement between the Medicaid agency, the Health Care Authority (HCA), and the operating agency, the Department of Social and Health Services (DSHS), that expressly details the delegated functions performed by the operating agency; the Medicaid Agency Waiver Management Committee that reviews all functions delegated to the operating agency and includes representatives from within administrations of the operating agency, including Aging and Long Term Supports Administration's (ALTSA) Home and Community Services (HCS), Residential Care Services (RCS), Adult Protective Services (APS), Developmental Disabilities Administration (DDA) and the Department of Children, Youth and Families' (DCYF) Child Protective Services (CPS) and the HCA.

Oversight methods also include the State Auditor which performs audits of all activities of the operating agency; the operating agency's Quality Assurance programs which systematically oversee all quality control systems, measures and processes; cost report auditing by the Management Services Division (MSD) of ALTSA for residential provider expenditures; rates development, management and oversight for contracted providers by the DDA Rates Unit of MSD; and legislative oversight of all aspects of waiver programs by the Joint Legislative Audit & Review Committee (JLARC).

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):

- ☐ **Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).**

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.*

- ☒ **No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).**

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (*Select One*):

- ☒ **Not applicable**
- ☐ **Applicable** - Local/regional non-state agencies perform waiver operational and administrative functions.
Check each that applies:

- ☐ **Local/Regional non-state public agencies** perform waiver operational and administrative functions at the local or regional level. There is an **interagency agreement or memorandum of understanding** between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

- ☐ **Local/Regional non-governmental non-state entities** conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The **contract(s)** under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.*

| Function | Medicaid Agency | Other State Operating Agency |
|--|-------------------------------------|-------------------------------------|
| Participant waiver enrollment | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| Waiver enrollment managed against approved limits | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| Waiver expenditures managed against approved levels | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |

| Execution of Medicaid provider agreements | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| Establishment of a statewide rate methodology | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| Rules, policies, procedures and information development governing the waiver program | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| Quality assurance and quality improvement activities | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver

- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

A.3. Number & percent of waiver deliverables that comply with the Interagency Cooperative Agreement as documented by acceptance letters from HCA. N = Number of waiver deliverables that comply with the Interagency Cooperative Agreement as documented by acceptance letters from HCA. D = Total number of waiver deliverables. D = Total number of waiver deliverables.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

A.1: The State Operating Agency obtains written approval from the Single State Medicaid Agency (Health Care Authority-HCA) to submit initial waiver requests, waiver amendment requests and waiver renewal requests to CMS. The Waiver Services Unit Manager verifies annually that approval from the HCA was obtained for all waiver amendment requests and waiver renewal requests submitted to CMS.

A.2: The HCA Medicaid Agency Waiver Management Committee includes representatives from the HCA and Administrations and Divisions within the operating agency: DDA, HCS, RCS, and BHA. The committee meets at least quarterly to review all functions delegated to the operating agency, current quality assurance activity, pending waiver activity (e.g., amendments, renewals), potential waiver policy and rule changes and quality improvement activities. The Waiver Services Unit Manager verifies annually that these meetings were held.

A.3 The Operating Agency obtains written permission from the Health Care Authority prior to submitting waiver amendments, renewals or new waiver applications to CMS as confirmation that waiver deliverables are in compliance with the Interagency Cooperative Agreement.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

A.1 & A.3: If it is determined that HCA approval was not obtained for all initial waiver requests, waiver amendment or waiver renewal requests submitted to CMS, the Waiver Services Unit Manager will ensure that approval from the HCA will be obtained and processes will be reviewed and evaluated to determine if changes need to be made to ensure prospective approval is obtained in the future.

A.2: If the HCA Medicaid Agency Waiver Management Committee did not meet quarterly, the Waiver Services Unit Manager will ensure the process is modified as necessary so that in the future quarterly meetings are held.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

| Target Group | Included | Target SubGroup | Minimum Age | Maximum Age | | | |
|---|--------------------------|---------------------|--------------------------|-------------------|--------------------------|----------------------|--------------------------|
| | | | | Maximum Age Limit | | No Maximum Age Limit | |
| Aged or Disabled, or Both - General | | | | | | | |
| | <input type="checkbox"/> | Aged | <input type="checkbox"/> | | <input type="checkbox"/> | | <input type="checkbox"/> |
| | <input type="checkbox"/> | Disabled (Physical) | <input type="checkbox"/> | | <input type="checkbox"/> | | |
| | <input type="checkbox"/> | Disabled (Other) | <input type="checkbox"/> | | <input type="checkbox"/> | | |
| Aged or Disabled, or Both - Specific Recognized Subgroups | | | | | | | |
| | <input type="checkbox"/> | Brain Injury | <input type="checkbox"/> | | <input type="checkbox"/> | | <input type="checkbox"/> |
| | <input type="checkbox"/> | HIV/AIDS | <input type="checkbox"/> | | <input type="checkbox"/> | | <input type="checkbox"/> |
| | <input type="checkbox"/> | Medically Fragile | <input type="checkbox"/> | | <input type="checkbox"/> | | <input type="checkbox"/> |

| Target Group | Included | Target SubGroup | Minimum Age | Maximum Age | |
|---|-------------------------------------|-------------------------------|-------------|-------------------|-------------------------------------|
| | | | | Maximum Age Limit | No Maximum Age Limit |
| | <input type="checkbox"/> | Technology Dependent | | | <input type="checkbox"/> |
| Intellectual Disability or Developmental Disability, or Both | | | | | |
| | <input checked="" type="checkbox"/> | Autism | 0 | | <input checked="" type="checkbox"/> |
| | <input checked="" type="checkbox"/> | Developmental Disability | 0 | | <input checked="" type="checkbox"/> |
| | <input checked="" type="checkbox"/> | Intellectual Disability | 0 | | <input checked="" type="checkbox"/> |
| Mental Illness | | | | | |
| | <input type="checkbox"/> | Mental Illness | | | <input type="checkbox"/> |
| | <input type="checkbox"/> | Serious Emotional Disturbance | | | |

b. Additional Criteria. The state further specifies its target group(s) as follows:

Individuals must meet the Developmental Disabilities Administration (DDA) definition of developmental disability as contained in state law (Revised Code of Washington-RCW) and stipulated in Washington State administrative code (WAC) and meet additional criteria as specified in state administrative code.

Washington State regulations and administrative codes stipulate that in order to qualify for DDA the individual must have a diagnosed condition of:

(1) Intellectual disability, cerebral palsy, epilepsy, autism, or another neurological or other condition found by DDA to be closely related to intellectual disability or requiring treatment similar to that required for individuals with intellectual disability which;

(a) Originates prior to age eighteen;

(b) Is expected to continue indefinitely; and

(c) Results in substantial limitations.

(2) In addition to the requirements listed in (1) above, the individual must meet the other requirements contained in Chapter 388-823 WAC (concerning Developmental Disabilities Administration intake and eligibility determination).

To be on the IFS Waiver, individuals who meet ICF/IID level of care guidelines must meet the following additional criteria:

o Live in the family home;

o Have been assessed as having a need for IFS waiver services;

o Are not enrolled on another DDA or Home and Community Services (HCS) Home and Community Based Services (HCBS) waiver; and

o Are not receiving a DDA adult or child residential service or receiving licensed foster care.

A parent who is a client of DDA is eligible to receive IFS Waiver services in order to promote the integrity of the family unit, provided:

a) All of the criteria identified above are met; and

b) The minor child who lives in the parent's home is at risk of being placed out of home (e.g., up for adoption, into foster care or into an ICF/IID).

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

- ☒ **Not applicable. There is no maximum age limit**
- ☐ **The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.**

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- ☐ **No Cost Limit.** The state does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*
- ☐ **Cost Limit in Excess of Institutional Costs.** The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. *Complete Items B-2-b and B-2-c.*

The limit specified by the state is (*select one*)

- ☐ **A level higher than 100% of the institutional average.**

Specify the percentage:

- ☐ **Other**

Specify:

- ☐ **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c.*
- ☒ **Cost Limit Lower Than Institutional Costs.** The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

Eligibility limit is \$4,680 per year. Data from past years demonstrates that the individual cost limit is sufficient to meet the needs of the target population for this waiver.

Individuals are not expected to lose services due to cost limits.

The individual cost limit is applied uniformly and fairly to all potentially eligible individuals.

The state does not expect that individuals will no longer be eligible upon re-evaluation.

The expenditure limits do not include expenditures for personal care. These services are available to waiver participants outside of the waiver as a Section 1915(k) Medicaid State Plan service.

The cost limit specified by the state is (*select one*):

☐ The following dollar amount:

Specify dollar amount:

The dollar amount (*select one*)

☐ Is adjusted each year that the waiver is in effect by applying the following formula:

Specify the formula:

☐ May be adjusted during the period the waiver is in effect. The state will submit a waiver amendment to CMS to adjust the dollar amount.

☐ The following percentage that is less than 100% of the institutional average:

Specify percent:

☒ Other:

Specify:

\$4,680 per year.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

Individuals are assigned to the IFS waiver based on assessed need. If a client's needs exceed the cost limits the individual would not be placed on the IFS waiver. Analysis of IFS experience has demonstrated that the cost limit is functional for the majority of IFS participants.

All waiver participants receive the same comprehensive assessment by trained Case Resource Managers. DDA's QIS system insures that all Case Resource Managers are uniformly and consistently assessing all eligible individuals. The individual cost limit is applied uniformly and fairly to all potentially eligible individuals.

c. Participant Safeguards. When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

☒ The participant is referred to another waiver that can accommodate the individual's needs.

☒ **Additional services in excess of the individual cost limit may be authorized.**

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Additional services in excess of the individual cost limits may be authorized short term (up to 90 days) when a waiver participant requires additional support for a brief period of time in order to ensure the health and welfare of the individual. These additional supports are limited to the services provided in the IFS waiver.

As stated in WAC 388-845-3085:

(1) If you are on the IFS, CIIBS, Core, Basic Plus or Community Protection waiver and your assessed need for services exceeds the scope of services provided under your waiver, DDA will make one or more of the following efforts to meet your health and welfare needs:

(a) Identify more available natural supports;

(b) Initiate an exception to rule to access available nonwaiver services not included in the IFS, CIIBS, Core, Basic Plus or Community Protection waiver other than natural supports;

(c) Offer you the opportunity to apply for an alternative waiver that has the services you need, subject to WAC 388-845-0045; or

(d) Offer you placement in an IFC/IID.

(2) If none of the above options is successful in meeting your health and welfare needs, DDA may terminate your waiver eligibility.

(3) If you are terminated from a waiver, you will remain eligible for nonwaiver DDA services but access to state-only funded DDA services is limited by availability of funding.

☐ **Other safeguard(s)**

Specify:

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

- a. Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

| Waiver Year | Unduplicated Number of Participants |
|-------------|-------------------------------------|
| Year 1 | 8100 |
| Year 2 | 8100 |
| Year 3 | 8100 |
| Year 4 | 9000 |
| Year 5 | 9000 |

- b. Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: *(select one)* :

- ☐ The state does not limit the number of participants that it serves at any point in time during a waiver year.
- ☒ The state limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

| Waiver Year | Maximum Number of Participants Served At Any Point During the Year |
|-------------|---|
| Year 1 | 7572 |
| Year 2 | 7572 |
| Year 3 | 7572 |
| Year 4 | 7572 |
| Year 5 | 7572 |

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):

- ☒ Not applicable. The state does not reserve capacity.
- ☐ The state reserves capacity for the following purpose(s).

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):

- ☒ The waiver is not subject to a phase-in or a phase-out schedule.
- ☐ The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

- ☒ Waiver capacity is allocated/managed on a statewide basis.
- ☐ Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

| |
|--|
| |
|--|

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

State regulations stipulate: When there is capacity on a waiver and there is available funding for new waiver participants, DDA will consider any of the following populations in any order:

(a) Priority populations as identified and funded by the legislature.

From time to time the Legislature will direct (when funding is available) DDA to add specific groups of individuals to the waiver program in order to meet identified needs.

An example would be to enroll high school graduates on the appropriate waiver (i.e., appropriate to their specific living situation and support needs) who wish to receive

supported employment services. Other examples include enrolling a) individuals who require the services offered under the Community Protection Waiver, b) individuals when their Roads to Community Living (MFTP) funding expires, and c) individuals who are ready to move back to the community from an IMD.

(b) Persons DDA has determined to be in immediate risk of ICF/IID admission due to unmet health and safety needs.

(c) Persons identified as a risk to the safety of the community.

(d) Persons currently receiving services through state only funds.

(e) Persons on an HCBS waiver that provides services in excess of what is needed to meet their identified health and welfare needs (i.e., needs can be met on a lesser waiver).

(f) Persons who were previously on an HCBS waiver since April 2004 and lost waiver eligibility due to residing in an institution.

Sometimes an individual on a DDA HCBS waiver is in need of and elects to receive the level of support available in an institutional setting (as defined below). If the individual remains in the institution for at

least 30 days, then under certain circumstances (see the WAC language below) the individual is terminated from her/his/their waiver. At the time the individual is able to return to a community setting, she/he/

they is placed on the appropriate waiver in order to receive the support necessary to support her/him/them in the community.

Per WAC 388-845-0060(1) concerning termination of waiver enrollment, a waiver participant residing in an institution may be terminated from a waiver under the following circumstances.

(I) She/he/they is residing in a hospital, jail, prison, nursing facility, ICF/IID, or other institution and remains in residence at least one full calendar month, and is still in residence: and there is no

immediate plan for the waiver participant to return to the community

(i) At the end of that full calendar month; or

(ii) At the end of the twelfth month following the effective date of their current person-centered service plan, as described in WAC 388-845-3060; or

(iii) At the end of the waiver (fiscal) year, whichever date occurs first.

The State follows State rules (WAC 388-845-0045) in the operation of the waiver application process and these rules do not prescribe a priority to one criteria over another criteria. State reviews all requests for waiver enrollment and selects those from among priority groups first for enrollment and then considers all other eligible applicants. Capacity and funding for the waiver will limit the State's ability to enroll all eligible applicants.

The standardized DDA Assessment and the requesting Case/Resource Manager document the immediate risk factors due to unmet health and safety needs in the participant's assessment and waiver request. The standardized DDA Assessment and the Regional Community Protection Committee document the risk factors that indicate a person is a risk to the safety of the community in the participant's assessment and waiver request.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

- a. **1. State Classification.** The state is a (*select one*):

- ☒ §1634 State
☐ SSI Criteria State
☐ 209(b) State

- 2. Miller Trust State.**

Indicate whether the state is a Miller Trust State (*select one*):

- ☒ No
☐ Yes

- b. **Medicaid Eligibility Groups Served in the Waiver.** Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the state plan. The state applies all applicable federal financial participation limits under the plan. *Check all that apply:*

Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

- ☐ Low income families with children as provided in §1931 of the Act
☒ SSI recipients
☐ Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
☐ Optional state supplement recipients
☐ Optional categorically needy aged and/or disabled individuals who have income at:

Select one:

- ☐ 100% of the Federal poverty level (FPL)
☐ % of FPL, which is lower than 100% of FPL.

Specify percentage:

- ☒ Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
☒ Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
☒ Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
☐ Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
☐ Medically needy in 209(b) States (42 CFR §435.330)
☐ Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and

community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

- ☐ No. The state does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
- ☒ Yes. The state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

- ☐ All individuals in the special home and community-based waiver group under 42 CFR §435.217
- ☒ Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

- ☒ A special income level equal to:

Select one:

- ☒ 300% of the SSI Federal Benefit Rate (FBR)
- ☐ A percentage of FBR, which is lower than 300% (42 CFR §435.236)

Specify percentage:

- ☐ A dollar amount which is lower than 300%.

Specify dollar amount:

- ☐ Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
- ☐ Medically needy without spend down in states which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
- ☐ Medically needy without spend down in 209(b) States (42 CFR §435.330)
- ☐ Aged and disabled individuals who have income at:

Select one:

- ☐ 100% of FPL
- ☐ % of FPL, which is lower than 100%.

Specify percentage amount:

- ☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

- a. Use of Spousal Impoverishment Rules.** Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the period beginning January 1, 2014 and extending through September 30, 2019 (or other date as required by law), the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

- ☒ **Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses *spousal* post-eligibility rules under §1924 of the Act.**

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law).

Note: The following selections apply for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law) (select one).

- ☐ **Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.**

In the case of a participant with a community spouse, the state elects to (*select one*):

- ☐ **Use spousal post-eligibility rules under §1924 of the Act.**
(*Complete Item B-5-b (SSI State) and Item B-5-d*)
- ☐ **Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)**
(*Complete Item B-5-b (SSI State). Do not complete Item B-5-d*)
- ☐ **Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular post-eligibility rules for individuals with a community spouse.**
(*Complete Item B-5-b (SSI State). Do not complete Item B-5-d*)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The state uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (*select one*):

- ☐ **The following standard included under the state plan**

Select one:

- ☐ **SSI standard**
- ☐ **Optional state supplement standard**
- ☐ **Medically needy income standard**
- ☐ **The special income level for institutionalized persons**

(select one):

- ☐ **300% of the SSI Federal Benefit Rate (FBR)**
- ☐ **A percentage of the FBR, which is less than 300%**

Specify the percentage:

- ☐ A dollar amount which is less than 300%.

Specify dollar amount:

- ☐ A percentage of the Federal poverty level

Specify percentage:

- ☒ Other standard included under the state Plan

Specify:

A client eligible for home and community based (HCBS) waiver services authorized by the developmental disabilities administration (DDA) under WAC 182-515-1513 must pay toward the cost of care and room and board as specified in WAC 182-515-1514. DDA determines how much a client must pay toward the cost of care for home and community based (HCBS) waiver services authorized by DDA when the client is living at home or in an alternate living facility. Post eligibility treatment of income, personal needs allowance, allowable deductions for earned income, guardianship fees, child support, needs allowance for a spouse or dependent, medical expenses and other deductions are specified in WAC 182-515-1514.

- ☐ The following dollar amount

Specify dollar amount:

If this amount changes, this item will be revised.

- ☐ The following formula is used to determine the needs allowance:

Specify:

- ☐ Other

Specify:

ii. Allowance for the spouse only (select one):

- ☒ Not Applicable
- ☐ The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:

Specify:

Specify the amount of the allowance (select one):

- ☐ SSI standard
- ☐ Optional state supplement standard
- ☐ Medically needy income standard

☐ The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised.

☐ The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

☒ Not Applicable (see instructions)

☐ AFDC need standard

☐ Medically needy income standard

☐ The following dollar amount:

Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the state's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

☐ The amount is determined using the following formula:

Specify:

☐ Other

Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges

b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

☒ Not Applicable (see instructions) *Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*

☐ The state does not establish reasonable limits.

☐ The state establishes the following reasonable limits

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

- ☐ SSI standard
- ☐ Optional state supplement standard
- ☐ Medically needy income standard
- ☐ The special income level for institutionalized persons
- ☐ A percentage of the Federal poverty level

Specify percentage:

- ☐ The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised

- ☒ The following formula is used to determine the needs allowance:

Specify formula:

A client eligible for home and community based (HCBS) waiver services authorized by the developmental disabilities administration (DDA) under WAC 182-515-1513 must pay toward the cost of care and room and board as specified in WAC 182-515-1514.

DDA determines how much a client must pay toward the cost of care for home and community based (HCBS) waiver services authorized by DDA when the client is living at home or in an alternate living facility. Post eligibility treatment of income, personal needs allowance, allowable deductions for earned income, guardianship fees, child support, needs allowance for a spouse or dependent, medical expenses and other deductions are specified in WAC 182-515-1514.

- ☐ Other

Specify:

- ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

- ☒ Allowance is the same
☐ Allowance is different.

Explanation of difference:

- iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

- a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- ☒ **Not Applicable (see instructions)***Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*
☐ The state does not establish reasonable limits.
☐ The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

- e. Regular Post-Eligibility Treatment of Income: §1634 State - 2014 through 2018.**

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

- f. Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.**

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility**B-6: Evaluation/Reevaluation of Level of Care**

As specified in 42 CFR §441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

ii. Frequency of services. The state requires (select one):

- ☐ The provision of waiver services at least monthly
- ☒ Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (*select one*):

- ☐ Directly by the Medicaid agency
- ☒ By the operating agency specified in Appendix A
- ☐ By a government agency under contract with the Medicaid agency.

Specify the entity:

- ☐ Other
- Specify:*

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the

educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Regional DDA Case/Resource Managers and Regional DDA Social Service Specialists are the only individuals who perform the initial evaluations of level of care prior to placement onto the waiver. In addition to meeting the following minimum qualifications, staff must pass a background check prior to being hired and receive mandatory waiver training prior to completing any evaluations.

DDA Case/Resource Manager

Minimum Qualifications:

A Bachelor's degree in social sciences, social services, human services, behavioral sciences or an allied field and two years of experience providing social services to people with developmental disabilities. Graduate training in social science, social services, human services, behavioral sciences or an allied field will substitute, year for year, for one year of the experience providing social services to people with developmental disabilities.

Social Service Specialist

Minimum Qualifications

A Master's degree in social services, human services, behavioral sciences, or an allied field.

OR

A Bachelor's degree in social services, human services, behavioral sciences, or an allied field and one year of social service experience.

- d. Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The Supports Intensity Scale-Adult (SIS-A) is a nationally normed instrument developed by the American Association on Intellectual and Developmental Disabilities used to determine ICF/IID Level of Care for individuals aged 16 and over. The SIS-A is a multidimensional scale designed to determine the pattern and intensity of individual's support needs. The SIS-A was designed to a) assess support needs b) determine the intensity of needed supports c) monitor progress and d) evaluate outcomes of adults with intellectual disabilities and related developmental disabilities.

The Supports Intensity Scale evaluates individuals using the following subscales:

- A. Home Living
- B. Community Living
- C. Lifelong Learning
- D. Employment
- E. Health & Safety
- F. Social
- G. Protection and Advocacy Activities

DDA added two additional scales that include:

- Exceptional Medical Supports Activities
- Exceptional Behavioral Supports Activities

The state of Washington has adapted an ICF/IID Level of Care tool that was originally used to assess individuals through age 12 to assess individuals through age 15. This assessment consists of 18 items, all of which are used to determine ICF/IID Level of Care.

Support needs are assessed in the following areas:

- A. Activities of Daily Living
- B. Instrumental Activities of Daily Living
- C. Family Supports
- D. Safety & Interactions
- E. Peer Relationships

ICF/IID Level of Care as described in Washington Administrative Code (WAC) Chapter 388-828-4400 for adults (16 years of age and older) and Chapter 388-828-3080 for children (birth through 15 years of age).

How does DDA determine my score for ICF/IID Level of Care if I am age birth through fifteen years old? DDA determines your ICF/IID Level of Care score by adding your acuity scores for each question in the ICF/IID Level of Care Assessment for Children.

How does DDA determine if I meet the eligibility requirements for ICF/IID Level of care if I am age birth through 15 years old? DDA determines you to be eligible for ICF/IID Level of care when you meet at least one of the following:

1. You are age birth through five years old and the total of your acuity scores is five or more; or
2. You are age six through fifteen years old and the total of your acuity scores is seven or more.

How does DDA determine if you meet the eligibility requirements for ICF/IID level-of-care if you are age sixteen or older? If you are age sixteen or older, DDA determines you to be eligible for ICF/IID level-of-care from your SIS scores. Eligibility for ICF/IID level-of-care requires that your scores meet at least one of the following:

- (1) You have a percentile rank over nine percent for three or more of the six subscales in the SIS support needs scale;
- (2) You have a percentile rank over twenty-five percent for two or more of the six subscales in the SIS support needs scale;
- (3) You have a percentile rank over fifty percent in at least one of the six subscales in the SIS support needs scale;
- (4) You have a support score of one or two for any of the questions listed in the SIS exceptional medical support needs scale;
- (5) You have a support score of one or two for at least one of the following items in the SIS exceptional behavior support needs scale:
 - (a) Prevention of assaults or injuries to others;
 - (b) Prevention of property destruction (e.g., fire setting, breaking furniture);
 - (c) Prevention of self-injury;
 - (d) Prevention of PICA (ingestion of inedible substances);
 - (e) Prevention of suicide attempts;

(f) Prevention of sexual aggression; or

(g) Prevention of wandering.

(6) You have a support score of two for any of the questions listed in the SIS exceptional behavior support needs scale; or

(7) You meet or exceed any of the qualifying scores for one or more of the following SIS questions:

| Question # of SIS Support needs scale | Text of question | Your score for "Type of support" is | And your score for "Frequency of support" is |
|--|--|--|---|
| A2 | Bathing and take care of personal hygiene and grooming needs | 2 or more 3 or more | 4 2 |
| A3 | Using the toilet | 2 or more 3 or more | 4 2 |
| A4 | Dressing | 2 or more 3 or more | 4 2 |
| A5 | Preparing food | 2 or more 3 or more | 4 2 |
| A6 | Eating food | 2 or more 3 or more | 4 2 |
| A7 | Taking care of clothes, including laundering | 2 or more 3 or more | 2 or more 1 |
| A8 | Housekeeping and cleaning | 2 or more 3 or more | 2 or more 1 |
| B6 | Shopping and purchasing goods and services | 2 or more 3 or more | 2 or more 1 |
| C1 | Learning and using problem-solving strategies | 2 or more 3 or more | 3 or more 2 |
| C5 | Learning self-management strategies | 2 or more 3 or more | 3 or more 2 |
| E1 | Taking medications | 2 or more 3 or more | 4 2 |
| E2 | Ambulating and moving about | 2 or more 3 or more | 4 2 |
| E3 | Avoiding health and safety hazards | 2 or more 3 or more | 3 or more 2 |
| E6 | Maintaining a nutritious diet | 2 or more 3 or more | 2 or more 1 |
| E8 | Maintaining emotional well-being | 2 or more 3 or more | 3 or more 2 |
| F1 | Using appropriate social skills | 2 or more 3 or more | 3 or more 2 |
| G7 | Managing money and personal finances | 2 or more 3 or more | 2 or more 1 |

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

- ☒ **The same instrument is used in determining the level of care for the waiver and for institutional care under the state Plan.**
- ☐ **A different instrument is used to determine the level of care for the waiver than for institutional care under the state plan.**

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

- f. Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The level of care evaluation/reevaluation is completed at least annually. Designated trained DDA staff are the only individuals who perform Level of Care (LOC) Evaluations/Reevaluations. Please see B-6.d. for a description of the Level of Care criteria.

A qualified and trained interviewer completes the SIS-A or the ICF/IID Level of Care Assessment for Children at least annually by obtaining information about the person's support needs via a face-to-face interview with the person and one or more respondents who know the person well.

The inter-rater reliability (IRR) level of care is a 1:1 evaluation of Case/Resource Manager's ability to correctly administer the DDA Assessment. The level of care is one product of the DDA Assessment. DDA Joint Requirements Planning (JRP) staff, DDA's subject matter experts on the DDA Assessment, accompany each Case/Resource Manager on a DDA Assessment interview annually. The Case/Resource Manager and JRP independently complete separate assessments and the JRP compares the results to ensure that the Case/Resource Manager's determination of ICF/IID eligibility is consistent with the JRP's. Additionally, the JRP evaluates the Case/Resource Manager's interview skills and knowledge of the DDA Assessment.

All LOCs are not IRR LOCs as this would not be practical nor warranted. The annual sample of IRR LOCs performed for the 406 Case/Resource Managers is a statistically valid sample size for the universe of all participants receiving paid services (32,989 participants receiving paid services requires a sample size of 380 for a confidence level of 95% with a margin of error of +/- 5% according to Raosoft.

When a Case/Resource Manager's assessment is deemed to be significantly variant from the JRP's assessment, the Case/Resource Manager must receive additional training.

State believes this performance measure is a valid, reliable and sufficient measure of Case/Resource Managers' ability to consistently conduct a DDA Assessment and produce a consistent and reliable LOC.

- g. Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

- ☐ Every three months
- ☐ Every six months
- ☒ Every twelve months
- ☐ Other schedule

Specify the other schedule:

- h. Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):

- ☒ The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- ☐ The qualifications are different.

Specify the qualifications:

- i. Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (*specify*):

- o Regional management is responsible for ensuring that DDA staff complete annual evaluations.
- o Assessment data is monitored monthly by regional management and HQ Program Managers and Quality Assurance staff to ensure compliance.
- o Waiver Specialists review Assessment Activity Reports that are generated monthly by HQ and distributed to CRMs to promote completing assessment timely.
- o DDA assessors set personal tickler systems.
- o Annual, monthly and quarterly file reviews track compliance. Ternary reviews are completed by supervisors. Annual reviews are completed by the Quality Compliance Coordinators (QCC).
- o The DDA assessment (on the CARE platform) tracks timeliness of reevaluations. Case Resource Managers, Social Service Specialists, DDA supervisors and DDA executive management all monitor these reports.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Records of evaluations will be maintained for a minimum of ten (10) years. Paper copies are available in the client file, which is maintained in the regional office. The electronic evaluation is on an electronic platform and can be viewed remotely from any DDA office in the state.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

- a. Sub-assurance:** *An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

B.a.1. # & % of all waiver applicants for whom there is a reasonable indication that services may be needed in future (RISNF) who received an evaluation for LOC prior to a completed request for enrollment N = # of wvr apps for whom there is (RISNF) who received an eval for LOC prior to a cmplt request for enrllmt D = All wvr apps for whom there is RISNF

Data Source (Select one):

Other

If 'Other' is selected, specify:

CARE system.

| Responsible Party for data collection/generation (check each that applies): | Frequency of data collection/generation (check each that applies): | Sampling Approach (check each that applies): |

| <input type="checkbox"/> Sub-State Entity | <input type="checkbox"/> Quarterly |
| <input checked="" type="checkbox"/> Other Specify: | <input checked="" type="checkbox"/> Annually |

| Responsible Party for data aggregation and analysis (check each that applies): | Frequency of data aggregation and analysis (check each that applies): |
|--|--|
| Joint Requirements Planning (JRP) Team within DDA. | |
| | <input type="checkbox"/> Continuously and Ongoing |
| | <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%; margin-top: 5px;"></div> |

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

B.a.1.

Administrative data is collected in real time in DDA's Comprehensive Assessment Reporting and Evaluation (CARE) system, which is the database of record for client information. Waiver enrollment requests are processed in CARE, which will not allow completion of the request without a completed level of care assessment. A report based on data in CARE is used to identify all applicants for waiver enrollment for whom an evaluation for LOC was completed prior to a completed request for waiver enrollment and to identify all waiver enrollment applicants.

B.c.1.

When new Case/Resource Managers are hired, they go through five weeks of training which includes extensive training on the use and administration of the LOC assessment, mission, vision and values, person-centered practices, programs and services training specific to DDA services, and in-depth online training about policy and procedures. Within 30 working days of completion of this intensive five weeks of required training, JRP staff perform a 1:1 evaluation of new Case/Resource Managers to ensure that the LOC assessment is administered correctly. In addition, JRP staff conduct an annual 1:1 evaluation of all Case/Resource Managers to ensure that they maintain their skills in administering the LOC assessment in a consistent and reliable manner. During the initial and annual 1:1 evaluations, JRP staff accompany Case/Resource Managers on a LOC assessment interview. The Case/Resource Manager conducts the assessment interview and both the JRP staff and Case/Resource Manager independently complete separate LOC assessments based on the information provided in the interview. The Case/Resource Manager's LOC assessment is then compared to the JRP staff's LOC assessment to ensure that the Case/Resource Manager's determination of ICF/IID LOC eligibility is consistent with that of the JRP staff. JRP staff also evaluate the Case/Resource Manager's interview skills in the following areas: introduction to the tool, mechanics and style of the interview process, and understanding of scoring.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

State tracks capacity of participants in the waiver twice weekly in a report labeled 'Waiver Capacity Status' and distributes this report to Waiver Specialists and Regional Field Service Administrators. Real time data for this report comes from two stand-alone production reports: CARE 1225 DDA Assessment Activity Report and the CARE 1010 Boyle Waiver Enrollment Detail Report.

B.c.1: Individuals whose reevaluation reveals that the LOC tools were inappropriately applied receive additional training. In addition, all errors in the assessment must be corrected by the case resource manager prior to moving the assessment to current status.

If a participant is found ineligible for the waiver when the LOC criteria is correctly applied, the participant is terminated from the waiver with appropriate notice as required by WAC 388-845-0065. The Case/Resource Manager will explore non-waiver services with the participant that may be available according to WAC 388-825-057.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

| Responsible Party(<i>check each that applies</i>): | Frequency of data aggregation and analysis (<i>check each that applies</i>): |
|--|--|
| <input type="checkbox"/> State Medicaid Agency | <input type="checkbox"/> Weekly |
| <input checked="" type="checkbox"/> Operating Agency | <input checked="" type="checkbox"/> Monthly |
| <input type="checkbox"/> Sub-State Entity | <input type="checkbox"/> Quarterly |
| <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%; margin-top: 5px;"></div> | <input checked="" type="checkbox"/> Annually |
| | <input type="checkbox"/> Continuously and Ongoing |
| | <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%; margin-top: 5px;"></div> |

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.

a. Procedures. Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The DDA Case/Resource Manager (CRM) or DDA Social Service Specialist (SSS) discuss the alternatives available as a part of the annual assessment process. The individual and/or their legal representative sign the Voluntary Participation Statement to indicate their choice of community based services or ICF/IID services.

The State offers all individuals an institutional option. The Case Resource Manager provides this information to all individuals and documents this in the Voluntary Participation Form which the client signs.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

A hard or electronic copy of the Voluntary Participation Statement that contains the signatures is maintained in the client record in the local DDA field service office.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

Service access to Limited English Proficient individuals is ensured by providing bilingual staff or contracted interpreter services at no cost to the participant. Program materials are translated into the participant's primary language. Outreach materials explaining the program are translated into eight different languages.

Appendix C: Participant Services

C-1: Summary of Services Covered (1 of 2)

a. Waiver Services Summary. List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

| Service Type | Service | | |
|-----------------------------|---|--|--|
| Statutory Service | Respite | | |
| Extended State Plan Service | Occupational Therapy | | |
| Extended State Plan Service | Physical Therapy | | |
| Extended State Plan Service | Speech, Hearing and Language Services | | |
| Other Service | Assistive Technology | | |
| Other Service | Behavioral Health Stabilization Services – Crisis Diversion Bed Services | | |
| Other Service | Behavioral Health Stabilization Services - Positive Behavior Support and Consultation | | |
| Other Service | Behavioral Health Stabilization Services - Specialized Psychiatric Services | | |
| Other Service | Community Engagement | | |
| Other Service | Environmental Adaptations | | |

| Service Type | Service | | |
|---------------|---|--|--|
| Other Service | Nurse Delegation | | |
| Other Service | Peer Mentoring | | |
| Other Service | Person-Centered Plan Facilitation | | |
| Other Service | Positive Behavior Support and Consultation | | |
| Other Service | Remote Supports | | |
| Other Service | Risk Assessment | | |
| Other Service | Skilled Nursing | | |
| Other Service | Specialized Clothing | | |
| Other Service | Specialized Equipment and Supplies | | |
| Other Service | Specialized Habilitation | | |
| Other Service | Specialized Medical Equipment and Supplies | | |
| Other Service | Specialized Psychiatric Services | | |
| Other Service | Stabilization Services - Crisis Diversion Bed | | |
| Other Service | Stabilization Services - Specialized Habilitation | | |
| Other Service | Stabilization Services - Staff/Family Consultation Services | | |
| Other Service | Staff/Family Consultation Services | | |
| Other Service | Supported Parenting | | |
| Other Service | Therapeutic Adaptations | | |
| Other Service | Transportation | | |
| Other Service | Vehicle Modifications | | |
| Other Service | Wellness Education | | |

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Statutory Service

Service:

Respite

Alternate Service Title (if any):

HCBS Taxonomy:

Category 1:

09 Caregiver Support

Sub-Category 1:

09012 respite, in-home

Category 2:

Category 3:

Sub-Category 3:

Service Definition (*Scope*):

Category 4:

Sub-Category 4:

Short-term intermittent relief for persons who normally provide care for and live with the waiver participant. Personal care is incidental to the delivery of this service.

The following identify waiver participants who are eligible to receive respite care:

- 1) The waiver participant lives in her/his/their family home and no person living with her/him/them is contracted by DSHS to provide the waiver participant with a services; or
- 2) The waiver participant lives with a family member who is her/his/their primary caregiver and who is a contracted provider by DSHS to provide her/him/them with a service; or
- 3) The waiver participant lives with a caregiver who is contracted by DDA to provide supports as:
 - (a) A contracted companion home provider; or
 - (b) A licensed children's foster home provider.

Someone who lives with the waiver participant may be the respite provider as long as she/he/they is not the person who normally provides care for the individual and is not contracted to provide any other DSHS paid service to the individual.

Respite care can be provided in the following locations:

- (a) waiver participant's home or place of residence;
- (b) Relative's home;
- (c) Licensed children's foster home;
- (d) Licensed, contracted and DDA certified group home;
- (e) Licensed assisted living facility contracted as an adult residential center;
- (f) Adult residential rehabilitation center;
- (g) Licensed and contracted adult family home;
- (h) Children's licensed group home, licensed staffed residential home, or licensed childcare center;
- (i) Other community settings such as camp, senior center, community organizations, informal clubs, libraries or adult day care center.

Additionally, the waiver participant's respite care provider may take her/him/them into the community while providing respite services.

Federal financial participation is not to be claimed for the cost of room and board except when provided as part of respite care furnished in a facility approved by the state that is not a private residence.

- The Consumer Directed Employer (CDE) is the employer of all individual providers of waiver respite and State-Plan personal care under the Community First Choice program. As the employer of individual providers, the CDE will

oversee and track training, certification and background checks. SEIU and the Training Partnership will continue to provide the required training for all individual providers.

- Waiver participants have been notified and will continue to be messaged concerning the transition to the CDE.
- The role of the CDE is a provider type for waiver respite services by individual providers and State Plan personal care by individual providers for the Community First Choice program.
- The CDE is a §1915(c) paid respite waiver service provider.
- The Consumer Directed Employer will oversee and track training, certification and background checks for CDE Individual Providers of Respite.
- The Consumer Directed Employer staff will assist clients and individual providers with using the state-maintained Carina/Home Care Referral Registry (<https://www.carinacare.com>).
- Qualifications for individual respite providers under the Consumer Directed Employer are the same as the qualifications in the approved waivers. All current qualified providers will meet requirements to be hired by the Consumer Directed Employer.
- The respite provider type individual provider will be phased out once the implementation of the CDE is complete.

ARPA funds may be expended for respite services (intellectual/developmental disability summer programs & caregiver/provider training which is already included in service rate methodology in Appendix I-2-a).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Clinical and support needs for respite care are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan;
- 2) The IFS Waiver annual allocation will determine how much respite the waiver participant is authorized to receive.
- 3) Respite cannot replace:
 - (a) Day care while her/his/their parent or guardian is at work.
- 4) Respite care providers have the following limitations and requirements:
 - (a) If respite is provided in a private home, the home must be licensed unless it is the waiver participant's home or the home of a relative of specified degree per WAC 388-825-345 (concerning "related" providers that are exempt from licensing);
 - (b) The respite care provider cannot be the spouse of the caregiver receiving respite if the spouse and the caregiver reside in the same residence; and
 - (c) If the waiver participant receives respite from a provider who requires licensure, the respite care services are limited to those age-specific services contained in the provider's license.
- 5) The caregiver may not provide:
 - (a) other DDA services for the individual participant or other persons during her/his/their respite care hours; or
 - (b) DDA paid services to other persons during your respite care hours.
- 6) If the waiver participant's personal care provider is her/his/their parent, the parent provider will not be paid to provide respite services to any client in the same month that the waiver participant receives respite services.
- 7) If the waiver participant's personal care provider is the parent and the individual lives in the parent's adult family home, the individual may not receive respite.
- 8) DDA may not pay for any fees associated with the respite care; for example, membership fees at a recreational facility, or insurance fees.
- 9) If the waiver participant requires respite care from a licensed practical nurse (LPN) or a registered nurse(RN), respite services may be authorized using an LPN or RN. Respite services using a LPN or RN are limited to the dollar limits of the waiver participant's annual IFS allocation.

The use of respite in any given month is determined by the individual based on her/his/their need that month and the amount of funding available to them annually (as detailed in Appendix C-4-a).

Rates for individual providers and agencies are based upon rates provided to personal care providers. Rates for community-based settings such as senior centers and summer camps are based upon the rates charged to the public. All payments are made directly by the single state agency to the provider of service.

Service Delivery Method (*check each that applies*):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Specify whether the service may be provided by (*check each that applies*):

- ☐ Legally Responsible Person
- ☒ Relative
- ☒ Legal Guardian

b. The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by

RCW 43.20A.710. If the Contractor has employees or volunteers who will have unsupervised access to

Clients in the course of performing the work under this Contract, the Contractor will conduct criminal

history background checks on those employees.

Washington Administrative Code (WAC)

WAC 388-845-1615 Who are qualified providers of respite care?

Providers of respite care can be any of the following individuals or agencies contracted with DDA for respite care:

- (1) Individuals meeting the provider qualifications under chapter 388-825 WAC;
- (2) Homecare/home health agencies, licensed under chapter 246-335 WAC, Part 1;
- (3) Licensed and contracted group homes, foster homes, child placing agencies, staffed residential homes and foster group care homes;
- (4) Licensed and contracted adult family homes;
- (5) Licensed and contracted adult residential care facilities;
- (6) Licensed and contracted adult residential treatment facilities under chapter 246-337 WAC;
- (7) Licensed child care centers under chapter 170-295 WAC;
- (8) Licensed child day care centers under chapter 170-295 WAC;
- (9) Adult day care providers under chapter 388-71 WAC contracted with DDA;
- (10) Certified provider under chapter 388-101 WAC when respite is provided within the DDA contract for certified residential services; or
- (11) Other DDA contracted providers such as community center, senior center, parks and recreation, summer programs.

Contract language regarding provider qualifications for individual providers.

a. The Contractor shall maintain all necessary licenses, registrations, and certifications as required by law. The Contractor agrees not to perform any task requiring a registration, certificate or license unless he/she is registered, certified or licensed to do so or is a member of the client's immediate family or is performing self-directed health care tasks. See RCW 18.679, 18.88A and 74.39 for laws related to nursing care, Registered Nurse Delegation, and self-directed health care tasks, respectively.

b. If the Contractor is providing Nurse Delegation Services, the Contractor must:

- (1) Complete the Nurse Delegation for Nursing Assistants course and pass the competency test;
- (2) Be a nursing assistant currently registered or certified;
- (3) For Nursing Assistant Registereds, successfully complete Revised fundamentals of Caregiving, or
Modified Fundamentals of Caregiving; and

- (4) Complete all Nurse Delegation training before performing any delegated task.

c. Prohibition of AL TSA/DDA employees contracting with DSHS to provide Individual Provider Services to DSHS long-term care clients.

If you are currently an Employee of AL TSA/DDA either with the Developmental Disabilities Administration, Residential Care Services, or Home and Community services, or become an employee of the same during the course of the period of this contract, you are considered disqualified and DSHS will terminate your contract for convenience.

d. The Contractor shall meet all training requirements in WAC 388-71. DSHS shall supply the Contractor with training requirements and time frames for completion.

The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by RCW 43.20A.710.

Consumer Directed Employer of Respite Individual Providers

Provider Qualifications

License (*specify*):

Current Washington State business license

Certificate (*specify*):

Other Standard (*specify*):

Consumer Directed Employer: Meet qualifications outlined in RCW 74.39A.500

Individual Respite providers of the CDE: must complete the DSHS background check requirements outlined in WAC 388-71-0510 and the training/certification requirements described in WAC 388-71-0520 and 0523.

Individual Respite providers will have the skills and characteristics the participant (as the co-employer) has deemed important to meet their person-centered service plan (PSCP) needs.

Individuals who provide transportation must have a valid driver license and meet state requirements for insurance coverage listed in RCW 4.30.

- Qualifications for individual respite providers under the Consumer Directed Employer are the same as the qualifications in the approved waivers. All current qualified providers will meet requirements to be hired by the Consumer Directed Employer.

Verification of Provider Qualifications

Entity Responsible for Verification:

Participants use their co-employer authority to verify that providers have the necessary skills and characteristics to meet their unique respite needs as identified in the person-centered service plan, and provide training on their PCSP needs outside of Basic Training and Continuing Education requirements by state law.

The Consumer Directed Employer will verify providers meet the following qualifications:

- Cleared background checks as required by state law;
- Completed training and certification as required by state law; and
- Completed continuing education credits as stipulated in state law in order to continue to provide respite services.

Aging and Long-Term Support Administration, as an operating agency of the Medicaid agency, will complete monitoring of the Consumer Directed Employer.

Frequency of Verification:

An initial background check is completed for respite providers. If there is reasonable cause to suspect that the provider has been arrested or convicted of a disqualifying crime, the CDE must have the provider complete a new background check.

Annually the Consumer Directed Employer will be monitored by the Aging and Long-Term Support Administration to verify compliance standards.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Extended State Plan Service

Service Title:

Occupational Therapy

HCBS Taxonomy:

Category 1:

11 Other Health and Therapeutic Services

Sub-Category 1:

11080 occupational therapy

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Occupational therapy services are available under the waiver when not available through the Medicaid state plan, for instance, when the service is not covered due to medical necessity, but is determined necessary for remedial benefit.

This waiver service will in no way impede a child's or young adult's access to services to which they are entitled under EPSDT.

Before this therapy is offered as a waiver service, DSHS Form 13-734, Documentation of First Use of Medicaid Benefits, is used to document that clients have first accessed services to which they are entitled through the State Plan (including EPSDT).

State law stipulates:

"Occupational therapy" is the scientifically based use of purposeful activity with individuals who are limited by physical injury or illness, psychosocial dysfunction, developmental or learning disabilities, or the aging process in order to maximize independence, prevent disability, and maintain health. The practice encompasses evaluation, treatment, and consultation. Specific occupational therapy services include but are not limited to: Using specifically designed activities and exercises to enhance neuro developmental, cognitive, perceptual motor, sensory integrative, and psychomotor functioning; administering and interpreting tests such as manual muscle and sensory integration; teaching daily living skills; developing prevocational skills and play and vocational capabilities; designing, fabricating, or applying selected orthotic and prosthetic devices or selected adaptive equipment; and adapting environments for the handicapped. These services are provided individually, in groups, or through social systems. (An example of OT provided through a social system would be therapy provided in the home environment with the involvement of family members or providers. A goal would be to incorporate therapeutic activities into the individuals natural household routine.)

State law stipulates:

Occupational Therapy services must be provided by a person licensed to provide Occupational Therapy in the State of Washington. These requirements are comparable to the qualifications specified in 42 CFR §440.110 (concerning physical therapy, occupational therapy, and services for individuals with speech, hearing and language disorders).

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote

client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- The need for Occupational therapy is identified during the person-centered planning process and documented in the waiver participant's person-centered service plan. OT will decrease as participant goals are achieved and methods of providing ongoing support through natural routines are determined successful.
- The services under the waiver are limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.
- DDA does not pay for treatment determined by DSHS to be experimental.
- DDA and the treating professional determine the need for and amount of service an individual can receive:
 - o DDA reserves the right to require a second opinion from a department selected provider.
 - o State Plan benefits are limited to one Occupational Therapy evaluation at beginning of service and one evaluation at discharge per year and 24 units of Occupational Therapy (which equals approximately 6 hours) per year and up to an additional 24 units of Occupational Therapy per year with expedited prior authorization from the Health Care Authority. State Plan provides a process for limitation extension regarding the scope, amount, duration and frequency of the therapy when requested by the provider. Criteria considered by the Health Care Authority and MCO for limitation extension include: the level of improvement the client has shown to date related to the requested therapy and the reasonably calculated probability of continued improvement if the requested therapy is extended; and the reasonably calculated probability the client's condition will worsen if the requested therapy is not extended.
 - o The Provider One payment system enforces that Medicaid Benefits to which they are entitled are first accessed through the State Plan.
 - o This waiver service is only provided to individuals age 21 and over. All medically necessary Occupational Therapy services for children under age 21 are covered in the State Plan pursuant to the EPSDT benefit.
 - o The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of assistive technology service she/he/they is authorized to receive as indicated in Appendix C-4.a.

Service Type:**Service Title:****HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Physical therapy services are available under the waiver when a Medicaid provider is not available in the area in which a child lives or when the service is not covered due to medical necessity, but is determined necessary for remedial benefit.

State law stipulates:

Physical Therapy means the treatment of any bodily or mental condition of a person by the use of the physical, chemical, or other properties of heat, cold, air, light, water, electricity, sound massage, and therapeutic exercise, which includes posture and rehabilitation procedures; the performance of tests and measurements of neuromuscular function as an aid to the diagnosis or treatment of any human condition; performance of treatments on the basis of test findings after consultation with and periodic review by an authorized health care practitioner.

State law stipulates:

Physical Therapy services must be provided by a person licensed to provide this service in the State of Washington. These requirements are comparable to the qualifications specified in 42 CFR 440.110.

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers

will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- The need for Physical therapy is identified during the person-centered planning process and documented in the waiver participant's person-centered service plan. PT will decrease as participant goals are achieved and methods of providing ongoing support through natural routines are determined successful.
- The services under the waiver are limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.
- DDA does not pay for treatment determined by DSHS to be experimental;
- DDA and the treating professional determine the need for and amount of service an individual can receive:
 - o DDA reserves the right to require a second opinion from a department-selected provider.
 - o State Plan benefits are limited to one Physical Therapy evaluation at beginning of service and one evaluation at discharge per year and 24 units of Physical Therapy (which equals approximately 6 hours) per year and up to an additional 24 units of Physical Therapy per year with expedited prior authorization from the Health Care Authority. State Plan provides a process for limitation extension regarding the scope, amount, duration and frequency of the therapy when requested by the provider. Criteria considered by the Health Care Authority and MCO for limitation extension include: the level of improvement the client has shown to date related to the requested therapy and the reasonably calculated probability of continued improvement if the requested therapy is extended; and the reasonably calculated probability the client's condition will worsen if the requested therapy is not extended.
- The Provider One payment system enforces that Medicaid Benefits to which they are entitled are first accessed through the State Plan.
- This waiver service is only provided to individuals age 21 and over. All medically necessary Physical Therapy services for children under age 21 are covered in the State Plan pursuant to the EPSDT benefit.
- The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of this service she/he/they is authorized to receive as indicated in Appendix C-4.a.

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:**Service Title:****HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Speech, hearing and language services are available through the waiver when a Medicaid provider is not available in the area in which a child or young adult lives or when the service is not covered due to medical necessity, but is determined necessary for remedial benefit. Speech, hearing and language services are services provided to individuals with speech hearing and language disorders by or under the supervision of a speech pathologist or audiologist.

State law stipulates:

"Speech-language pathology" means the application of principles, methods, and procedures related to the development and disorders, whether of organic or nonorganic origin, that impede oral, pharyngeal, or laryngeal sensorimotor competencies and the normal process of human communication including, but not limited to, disorders and related disorders of speech, articulation, fluency, voice, verbal and written language, auditory comprehension, cognition/communication, and the application of augmentative communication treatment and devices for treatment of such disorders

"Audiology" means the application of principles, methods, and procedures related to hearing and the disorders of hearing and to related language and speech disorders, whether of organic or nonorganic origin, peripheral or central, that impede the normal process of human communication including, but not limited to, disorders of auditory sensitivity, acuity, function, processing, or vestibular function, the application of aural habilitation, rehabilitation, and appropriate devices including fitting and dispensing of hearing instruments, and cerumen management to treat such disorders.

State law stipulates:

Speech-language pathology and Audiology services must be provided by a person licensed to provide these services in the State of Washington. These requirements are comparable to the qualifications specified in 42 CFR §440.110 (concerning physical therapy, occupational therapy, and services for individuals with speech, hearing and language disorders).

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

3. Qualifications

a. The Contractor shall be licensed, registered, and certified as is required by law for professionals whom

provide speech therapy services in the state of Washington.

b. Maintain a Core Provider Agreement with the Health Care Authority, which is the state Medicaid agency,

thus deeming you a Medicaid eligible provider.

Washington Administrative Code (WAC)

WAC 388-845-1010 Who is a qualified provider of extended state plan services?

Providers of extended state plan services must be certified, registered or licensed therapists as required by law and contracted with DDA for the therapy they are providing.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Assistive Technology

HCBS Taxonomy:**Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Items, equipment, or product systems, not related to a client's physical health, that are used to increase, maintain, or improve functional capabilities of waiver participants, as well as supports to directly assist the participant and caregivers to select, acquire, and use the technology.

Assistive technology includes:

- (1) The evaluation of the needs of the waiver participant, including a functional evaluation in their customary environment;
- (2) Purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices;
- (3) Selecting, designing, fitting, customizing, adapting, applying, retaining, repairing, or replacing assistive technology devices;
- (4) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs;
- (5) Training or technical assistance for the participant and/or if appropriate, the child's or adult's family; and
- (6) Training or technical assistance for professionals, including individuals providing education and rehabilitation services, employers, or other individuals who provide services to, employ, or are otherwise involved in the assistive technology related life functions of children or adults with disabilities.

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Service may be received in person or via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and

balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Assistive technology is limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.
- 2) Clinical and support needs for assistive technology are identified in the waiver participant's DDA person-centered assessment and documented in the person-centered service plan.
- 3) Assistive technology may be authorized as a waiver service by obtaining an initial denial of funding or information showing that the technology is not covered by Medicaid or private insurance.
- 4) The Department does not pay for experimental technology.
- 5) The Department requires the waiver participant's treating professional's written recommendation regarding her/his/their need for the technology. This recommendation must take into account that:
 - a) The treating professional has personal knowledge of and experience with the requested assistive technology; and
 - b) The treating professional has recently examined the waiver participant, reviewed her/his/their medical records when applicable, and conducted a functional evaluation.
- 6) The Department may require a written second opinion from a department selected professional.
- 7) Assistive technology requires prior approval by the DDA regional administrator or designee when \$550 or more.
- 7) The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of assistive technology service she/he/they is authorized to receive as indicated in Appendix C-4.a.

Service Delivery Method (check each that applies):

Chapter 18.71A RCW (Washington state law concerning physician assistant practice and licensure)

Certificate (*specify*):

Chapter 18.19 RCW (Washington state law concerning counselors, including certification)

Chapter 246-810 WAC (Department of Health administrative code concerning the practice of counseling)

Other Standard (*specify*):

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications.

- a. The Contractor shall be a legal business entity legitimately engaged in the business of provision of specialized good and services as outlined in attachment A. Vendors of specialized services must maintain a business license required by law for the type of product provided and contracted for with DDA. Contractors located in the state of Washington must have a Universal business Identifier and Master Business License, as issued by the state Department of revenue. Out of state contractors must possess a Universal business Identifier and Master Business License only when it is required by Washington State law.
- b. Providers of specialized services must be certified, registered, or licensed therapists as required by law and contracted with DDA for the therapy they are providing.

Washington Administrative Code (WAC)

WAC 388-845-0420 Who is a qualified provider of assistive technology?

The provider of assistive technology must be an assistive technology vendor contracted with DDA or one of the following professionals contracted with DDA and duly licensed, registered or certified to provide this service:

- (1) Occupational therapist;
- (2) Physical therapist;
- (3) Speech and language pathologist;
- (4) Certified music therapist;
- (5) Certified recreation therapist;
- (6) Audiologist; or
- (7) Behavior specialist.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

This service was removed as of October 1, 2020

Behavioral health stabilization services assist persons who are experiencing a behavioral health crisis. These services are available to individuals determined by behavioral health professionals or DDA to be at risk of institutionalization in a psychiatric hospital without (one or more of) the following services:

- *Behavioral health crisis diversion bed services
- *Positive Behavior support and consultation
- *Specialized psychiatric services

Behavioral health crisis diversion bed services:

Are short-term emergent residential services when the client's living situation is disrupted and the client is at immediate risk of institutionalization. These may be provided in an individual's home or licensed or certified setting. These services are available to eligible waiver participants who are at risk of serious decline of mental functioning and who have been determined to be at risk of psychiatric hospitalization. These services also provide respite to the primary caregiver to promote the individual's return to her/his home.

Most Medicaid mental health services in Washington are provided through a 1915-B waiver, which clarifies Access to Care criteria for those individuals needing more intensive mental health supports. Community mental health services through the waiver are provided through Behavioral Health Organizations (BHOs), which carry out the contracting for local mental health care. Access to Care criteria excludes the DSM diagnoses classes that include mental retardation; learning, motor skills and communication disorders; and pervasive developmental disorders. Individuals with primary diagnoses and functional impairments that are only a result of these diagnoses are not eligible for mental health waiver services. As a result, individuals with these issues must display an additional covered diagnosis in order to be served through the mental health system, must be able to benefit from the intervention, and their unmet needs cannot be met more appropriately by another formal or informal system, such as the Developmental Disabilities Administration or community natural supports.

These services under the IFS waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization. It is anticipated some waiver participants will not be eligible for these services under the Medicaid State Plan, since an individual must have a mental health (MH) diagnosis to receive mental health State Plan services. A MH diagnosis is not a requirement for enrollment on the Waiver.

DDA works closely with the Behavioral Health Administration (BHA) to prevent duplication of BHO/State Plan BH Services. DSHS's expectation is that any DDA eligible individual who meets the BHA access to care and medical necessity standards will receive behavioral health services through BHOs or Prepaid Inpatient Health Plans (PIHP). Individuals that do not meet access to care or medical necessity standards for the service type may be served under the behavioral health stabilization services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Behavioral Health Crisis Diversion Bed Services are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of preventing institutionalization.

*Behavioral health stabilization services are intermittent and short-term.

*The duration and amount of services needed to stabilize the individual in crisis is determined by a mental health professional and/or DDA.

*Behavioral health stabilization services require prior approval by DDA or its designee.

"Short-term" reflects the fact that these services are not provided on an on-going basis. However, there is no pre-determined limit on the duration of these services. They are provided to individuals who are experiencing a behavioral health crisis and are at risk of psychiatric hospitalization. Once the crisis situation is resolved and the individual is stabilized, behavioral health crisis stabilization services will be terminated. Any ongoing need for positive behavior support and consultation will be met under the stand-alone positive behavior support and consultation services category.

Positive behavior support and consultation includes the development and implementation of programs designed to support waiver participants using:

- a) Individualized strategies for effectively relating to caregivers and other people in the waiver participant's life; and
- b) Direct interventions with the person to decrease aggressive, destructive, and sexually inappropriate or other behaviors that compromise their ability to remain in the community (i.e., training, specialized cognitive counseling, conducting a functional assessment, development and implementation of a positive behavior support plan).

Behavioral health stabilization services assist persons who are experiencing a behavioral health crisis and meet criteria for community crisis stabilization services. These services are available to individuals determined by behavioral health professionals or DDA to be at risk of institutionalization or hospitalization who need one or more of the following services:

- *Positive behavior support and consultation; or;
- *Specialized psychiatric services
- *Crisis diversion bed services

Both behavioral health stabilization services are temporary and typically last less than ninety days. These services are authorized to be delivered in the following locations:

- Specialized Psychiatric Services are typically delivered in community mental health clinics; and
- Positive Behavior Support and Consultation services are delivered in community mental health clinics, behavior health professional's offices or in the participant's home.

A positive behavior support and consultation agency as a behavioral health stabilization service can be either privately-contracted or state-staffed.

These services are only covered under the IFS Waiver when they are outside the definition of service available through the Medicaid State Plan and EPSDT or the child does not meet access to care definitions (i.e., via the Behavioral Health Organizations). It is anticipated some IFS Waiver clients will not be eligible for these services under the Medicaid State Plan, since an individual must have a mental health (MH) diagnosis to receive mental health State Plan services. A MH diagnosis is not a requirement for enrollment on the IFS Waiver.

The Developmental Disabilities Administration (DDA) works closely with the Behavioral Health Administration (BHA) to prevent duplication of BHO/State Plan MH Services. DSHS's expectation is that any DDA eligible client who meets the BHA access to care and medical necessity standards will receive behavioral health services through Behavioral Health Organizations (BHOs) or Prepaid Inpatient Health Plans (PIHP). Individuals that do not meet access to care or medical necessity standards for the service type may be served under the behavioral health stabilization services.

Most Medicaid mental health services in Washington are provided through a 1915-B waiver, which clarifies Access to Care criteria for those individuals needing more intensive mental health supports. Community mental health services through the waiver are provided through Behavioral Health Organizations, which carry out the contracting for local mental health care. Access to Care criteria excludes the DSM diagnoses classes that include mental retardation; learning, motor skills and communication disorders; and pervasive developmental disorders. Individuals with primary diagnoses and functional impairments that are only a result of these diagnoses are not eligible for mental health waiver services. As a result, individuals with these issues must display an additional covered diagnosis in order to be served through the mental health system, must be able to benefit from the intervention, and their unmet needs cannot be met more appropriately by another formal or informal system, such as the DDA or community natural supports.

Positive behavior support and consultation when provided as a behavioral health stabilization service cannot occur at the same time as positive behavior support and consultation when provided as a stand-alone service. Edits in ProviderOne prevent authorization of these services simultaneously.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The services under the IFS waiver are limited to additional services not otherwise covered under the State Plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

- 1) Clinical and support needs for behavioral health stabilization services are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.
- 2) Behavioral health stabilization services are intermittent and temporary. The duration and amount of services needed to stabilize the waiver participant in crisis is determined by a mental health professional and/or DDA.
- 3) The cost of positive behavior support and consultation as a behavioral health stabilization service does not count toward the waiver participant's annual allocation in the IFS Waiver.

Service Delivery Method (check each that applies):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Specify whether the service may be provided by (check each that applies):

- ☐ Legally Responsible Person
- ☒ Relative
- ☒ Legal Guardian

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Behavioral Health Stabilization Services - Specialized Psychiatric Services

HCBS Taxonomy:**Category 1:**

10 Other Mental Health and Behavioral Services

Sub-Category 1:

10030 crisis intervention

Category 2:**Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

This service was removed as of October 1, 2020

(1) Specialized psychiatric services are specific to the individual needs of persons with developmental disabilities who are experiencing behavioral health symptoms.

(2) Service may be any of the following:

- (a) Psychiatric evaluation,
- (b) Medication evaluation and monitoring,
- (c) Psychiatric consultation.

Behavioral health stabilization services assist persons who are experiencing a behavioral health crisis and meet criteria for community crisis stabilization services. These services are available to individuals determined by behavioral health professionals or DDA to be at risk of institutionalization or hospitalization who need one or more of the following services:

- *Positive behavior support and consultation
- *Specialized psychiatric services
- *Crisis diversion bed services

Both behavioral health stabilization services are temporary and typically last less than ninety days. These services are authorized to be delivered in the following locations:

- Specialized Psychiatric Services are typically delivered in community mental health clinics; and
- Positive Behavior Support and Consultation services are delivered in community mental health clinics, behavior health professional's offices or in the participant's home.

These services are only covered under the IFS Waiver when they are outside the definition of service available through the Medicaid State Plan). It is anticipated some IFS Waiver clients will not be eligible for these services under the Medicaid State Plan, since an individual must have a mental health (MH) diagnosis to receive mental health State Plan services. A MH diagnosis is not a requirement for enrollment on the IFS Waiver.

The Developmental Disabilities Administration (DDA) works closely with the Behavioral Health Administration (BHA) to prevent duplication of BHO/State Plan MH Services. DSHS's expectation is that any DDA eligible client who meets the BHA access to care and medical necessity standards will receive behavioral health services through Behavioral Health Organizations (BHOs) or Prepaid Inpatient Health Plans (PIHP). Individuals that do not meet access to care or medical necessity standards for the service type may be served under the behavioral health stabilization services.

Most Medicaid mental health services in Washington are provided through a 1915-B waiver, which clarifies Access to Care criteria for those individuals needing more intensive mental health supports. Community mental health services through the waiver are provided through Behavioral Health Organizations, which carry out the contracting for local mental health care. Access to Care criteria excludes the DSM diagnoses classes that include mental retardation; learning, motor skills and communication disorders; and pervasive developmental disorders. Individuals with primary diagnoses and functional impairments that are only a result of these diagnoses are not eligible for mental health waiver services. As a result, individuals with these issues must display an additional covered diagnosis in order to be served through the mental health system, must be able to benefit from the intervention, and their unmet needs cannot be met more appropriately by another formal or informal system, such as the DDA or community natural supports.

Specialized psychiatric services when provided as a behavioral health stabilization service cannot occur at the same time as specialized psychiatric services when provided as a stand-alone service. Edits in ProviderOne prevent authorization of these services simultaneously.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Specialized Psychiatric Services are provided to waiver recipients age 21 and over. All medically necessary Specialized Psychiatric Services for children under 21 are covered in the state plan pursuant to the EPSDT benefit. Specialized psychiatric services are excluded if they are available through other Medicaid programs.

- 1) Clinical and support needs for behavioral health stabilization services are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.
- 2) Behavioral health stabilization services are intermittent and temporary. The duration and amount of services needed to stabilize the waiver participant in crisis is determined by a mental health professional and/or DDA.
- 3) The cost of specialized psychiatric services as a behavioral health stabilization service does not count toward the waiver participant's annual allocation in the IFS Waiver.

17990 other

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (*Scope*):

Category 4:

Sub-Category 4:

Community engagement services introduce and connect clients to community supports, resources and activities to help the waiver participant fully access their community for daily living needs or to reduce social isolation. Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Service may be received in person or via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the assistive technology is HIPAA compliant. Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Community engagement services are limited to the support needs identified in your DDA assessment and documented in your person-centered service plan. Community engagement services do not cover: (a) Membership fees or dues; (b) Equipment related to activities; (c) The cost of any activities, and (d) The dollar limitations for the waiver participant's IFS waiver annual allocation limit the amount of community engagement services she/he/they is authorized to receive as indicated in Appendix C-4-a.

Service Delivery Method (*check each that applies*):

an active member and build relationships based on common interests; and

b) Help the waiver participant develop skills that will increase her/his community integration.

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications.

Qualifications

g. The Contractor shall be licensed, registered, and certified as is required by law.

h. The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by RCW re.20A.710. If the Contractor has employees or volunteers who will have unsupervised access to Clients in the course of performing the work under this Contract, the Contractor will conduct criminal history background checks on those employees.

Washington Administrative Code (WAC)

388-845-0655 Who are qualified providers of community engagement services?

In order to be qualified, the provider of community engagement services must be one of the following individuals or organizations who have specialized training to provide services to people with developmental disabilities and are contracted with DDA to provide this service:

(1) Qualified providers must be a registered recreational therapist in the state of Washington or an individual provider contracted with DSHS or an organization that provides services that promote skill development, improved functioning, increased independence as well as reducing or eliminating the effects of illness or disability. Examples of organizations that provide community engagement services are:

- (a) Community centers;
- (b) Municipal parks and recreation programs;
- (c) Therapeutic recreation camps and programs;
- (d) Organizations providing community engagement services.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

Verification of Provider Qualifications

1) Experience with the community in which the participant lives and extensive knowledge of community organizations, informal clubs, community projects and events, local government resources, and businesses; and

2) Knowledge and skills necessary to

a) Find and engage leaders and members of these community resources to engage the waiver participant to become

an active member and build relationships based on common interests; and

b) Help the waiver participant develop skills that will increase her/his community integration.

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications.

Qualifications

g. The Contractor shall be licensed, registered, and certified as is required by law.

h. The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by RCW re.20A.710. If the Contractor has employees or volunteers who will have unsupervised access to Clients in the course of performing the work under this Contract, the Contractor will conduct criminal history background checks on those employees.

Washington Administrative Code (WAC)

388-845-0655 Who are qualified providers of community engagement services?

In order to be qualified, the provider of community engagement services must be one of the following individuals or organizations who have specialized training to provide services to people with developmental disabilities and are contracted with DDA to provide this service:

(1) Qualified providers must be a registered recreational therapist in the state of Washington or an individual provider contracted with DSHS or an organization that provides services that promote skill development, improved functioning, increased independence as well as reducing or eliminating the effects of illness or disability. Examples of organizations that provide community engagement services are:

- (a) Community centers;
- (b) Municipal parks and recreation programs;
- (c) Therapeutic recreation camps and programs;
- (d) Organizations providing community engagement services.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Environmental Adaptations

HCBS Taxonomy:

Category 1:

14 Equipment, Technology, and Modifications

Sub-Category 1:

14020 home and/or vehicle accessibility adaptations

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Environmental adaptations provide physical adaptations to the existing home and existing rooms within the home required by the individual's person-centered service plan needed to allow an individual to physically access their home when those adaptations are not covered under the Medicaid state plan. The service must:

- (a) Ensure the health, welfare and safety of the individual; or
- (b) Enable the individual who would otherwise require institutionalization to function with greater independence in the home.

Environmental adaptations may include the installation of ramps and grab bars, widening of doorways, hardening of walls or windows, modification of bathroom facilities, or installing specialized electrical and/or plumbing systems necessary to accommodate the medical equipment and supplies that are necessary for the welfare of the individual.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The following service limitations apply to environmental adaptations:

- Prior approval by DDA is required.
- One bid is required for adaptations costing one thousand five hundred dollars or less.
- Two bids are required for adaptations costing more than one thousand five hundred dollars and equal to or less than five thousand dollars.
- Three bids are required for adaptations costing more than five thousand dollars.
- Environmental adaptations or improvements to the home are excluded if they are of general utility without direct medical or remedial benefit to the individual, such as carpeting, roof repair, central air conditioning, etc.
- Environmental adaptations cannot add to the total square footage of the home.
- Environmental adaptations do not include fences.
- DDA may require an occupational therapist, physical therapist, or other qualified professional to recommend an appropriate environmental adaptation.
- Environmental adaptations must meet all local and state building codes.
- A deteriorated condition of the existing home, other construction work in process, or the location of home in a flood plain, landslide zone or other hazardous site may limit or prevent adaptations approved by DDA.
- The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of Environmental Adaptation service she/he/they is authorized to receive as indicated in Appendix C-4.a.
- Environmental adaptations are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.
- These services may not be furnished to individuals who receive residential habilitation services except when such services are furnished in the participant's own home.

Service Delivery Method (*check each that applies*):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Nurse Delegation

HCBS Taxonomy:**Category 1:**

05 Nursing

Sub-Category 1:

05020 skilled nursing

Category 2:**Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

- (1) Services in compliance with WAC 246-840-910 through 246-840-970 (concerning delegation of nursing care tasks in community-based and in-home care settings) by a registered nurse to provide training and nursing management for nursing assistants who perform delegated nursing tasks.
- (2) Delegated nursing tasks include, but are not limited to, administration of noninjectable medications except for insulin, blood glucose testing, and tube feedings.
- (3) Services include the initial visit, care planning, competency testing of the nursing assistant, consent of the client, additional instruction and supervisory visits.
- (4) Waiver participants who receive nurse delegation services must be considered "stable and predictable" by the delegated nurse.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- (1) Clinical and support needs for nurse delegation services are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan;
- (2) The Department requires the delegating nurse's written recommendation regarding the waiver participant's need for the service. This recommendation must take into account that the nurse has recently examined the waiver participant, reviewed the waiver participant's medical records, and conducted a nursing assessment.
- (3) The Department may require a written second opinion from a department-selected nurse delegator that meets the same criteria in subsection (2) of this section.
- (4) The following tasks must not be delegated:
- (a) Injections, other than insulin;
 - (b) Central lines;
 - (c) Sterile procedures; and
 - (d) Tasks that require nursing judgment.
- (5) The dollar limitations for the waiver participant's annual allocation on the IFS Waiver limit the amount of nurse delegation service she/he/they may receive as indicated in Appendix C-4.a.

Service Title:

Peer Mentoring

HCBS Taxonomy:

Category 1:

17 Other Services

Sub-Category 1:

17990 other

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Peer mentoring involves the provision of support and guidance to a waiver participant and family members of a waiver participant by a person with shared experience. Peer mentors may explain community services and programs and suggest strategies to the waiver participant and family to achieve the waiver participant's goals.

Peer mentoring actively engages participants and family members of participants to share their successful strategies and experiences in navigating a broad range of community resources beyond those offered through the waiver with other waiver participants and their families.

Peer mentoring does not provide case management services to a waiver participant; peer mentoring does not include determination of level of care, functional or financial eligibility for services or person-centered service planning. Peer mentoring does provide support to the participant and their family in locating and accessing other community services and programs that may assist the participant to engage in community life or provide supports to the participant.

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Service may be received in person or via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give

waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The services under the IFS waiver are limited to additional services not otherwise covered under the State Plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

- (1) Support needs for peer mentoring are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan.
- (2) Peer mentors cannot mentor their own family members.
- (3) The dollar limitations for the waiver participant's annual allocation in the IFS Waiver limit the amount of peer mentoring service she/he/they is authorized to receive as indicated in Appendix C-4.a.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Person-centered planning facilitation is an approach to forming life plans that is centered on the individual. It is used as a life planning model to enable individuals with disabilities or others requiring support to increase personal self-determination.

Person-centered planning facilitation includes:

- 1) Identifying and developing a potential circle of support.
- 2) Exploring what matters to the waiver participant by listening to and learning from the person.
- 3) Developing a vision for a meaningful life, as defined by the waiver participant.
- 4) Discovering capacities and assets of the waiver participant and her or his family, neighborhood, and support network.
- 5) Generating an action plan.
- 6) Facilitating follow-up meetings to track progress toward goals.

Person-Centered Planning Facilitation is a distinctly different service that does not duplicate nor replace the responsibilities of the DDA Case/Resource Manager who is responsible for developing the person-centered service plan, and this service does not replace an individual's person-centered service plan. The person-centered planning facilitators employ methods including total communications techniques, graphic facilitation of meetings and problem solving skills in the development of a person centered plan, such as PATH (Planning Alternative Tomorrows with Hope), MAPS (Making Action Plans), personal futures planning and person centered thinking tools.

Person-centered planning facilitators typically organize a circle of people who know and care about the individual and who assist the individual to organize individualized, natural and creative supports to achieve meaningful goals based on the individual's strengths and preferences. This team typically meets with the individual a number of times to build relationships, to explore strengths and interests and to build team unity. Then, in a major planning session that may last two to four hours or more, the team develops a comprehensive plan. The resultant plan may be in any format that is accessible to the individual, such as a document, a drawing or an oral plan recorded on tape or digital media.

By definition, person-centered planning facilitation is not a service oriented approach but a broad exploration of an individual's vision for a valued life that offers a platform for the individual and her/his trusted friends and family members to express this vision and commitments of support without limiting that expression to what can or will be provided by the service system.

In Washington State's experience, facilitated person-centered plans have been a source of significant support for individuals in transitional stages of their lives; for example, for young people transitioning from high school into employment and moving out of the family home.

Completed facilitated person-centered plans will inform, provide direction and offer details of a waiver participant's desires, goals and preferences to the DDA Case/Resource Manager who jointly develops with the waiver participant a written person-centered service plan based on the DDA assessment. The person-centered planning process is driven by the participant. The person-centered service plan reflects the services and supports that are important for the participant to meet the needs identified through the functional assessment as well as what is important to the individual with regard to preferences for the delivery of services and support.

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Service may be received in person or via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Continued at Main/B. Optional

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- (1) Support needs for person-centered planning facilitation are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan.
- (2) Person-centered planning facilitation may include follow up contacts with the waiver participant and her/his/their family to consult on plan implementation.
- (3) The dollar limitations for the waiver participant's annual allocation in the IFS Waiver limit the amount of person-centered planning facilitation service she/he/they is authorized to receive as indicated in Appendix C-4.a.
- (4) An employee of DDA cannot provide person-centered planning facilitation services.

Service Delivery Method (*check each that applies*):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Positive Behavior Support and Consultation

HCBS Taxonomy:

Category 1:

10 Other Mental Health and Behavioral Services

Sub-Category 1:

10040 behavior support

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Service is removed effective September 1, 2022.

No waiver participants are added to Positive Behavior Support and Consultation after July 1, 2020. Individuals age 21 and over already receiving Positive Behavior Support services as of the date of CMS approval are phased out over a one-year period at the time of their annual assessment and transitioned to other services, including Specialized Habilitation, Staff/Family Consultation Services, or other resources such as the Medicaid State Plan at the time of their annual DDA assessment.

Positive Behavior Support and Consultation (PBSC) will retain the transition period previously approved by CMS. Youth age 20 and under currently receiving PBSC will continue to receive the service until September 1, 2022.

Service includes the development and implementation of programs designed to support waiver participants using:

- 1) Individualized strategies for effectively relating to caregivers and other people in the waiver participant's life; and
- 2) Direct interventions with the person to decrease aggressive, destructive, and sexually inappropriate or other behaviors that compromise their ability to remain in the community (i.e., training, specialized cognitive counseling, conducting a functional assessment, development and implementation of a positive behavior support plan).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The services under the IFS waiver are limited to additional services not otherwise covered under the State Plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

- (1) The need for this service is identified during the person-centered planning process and documented in the waiver participant's person-centered service plan.
- (2) The DDA assessment will determine the need for this service and the amount of service that will be documented in the PCSP subject to the limits in 3) below.
- (3) The dollar limitations in the annual allocation in the waiver participant's PCFS Waiver limit the amount of positive behavior support and consultation service the waiver participant is authorized to receive as shown in Appendix C-4.a.
- (4) DDA reserves the right to require a second opinion from a Department-selected provider.

Service Delivery Method (check each that applies):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Specify whether the service may be provided by (check each that applies):

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Remote Support is supervision, coaching, and consultation from a contracted Remote Support provider to a DDA waiver participant from a distant, HIPPA-compliant location that allows an HCBS waiver participant to increase their independence and safety in their home and community when not engaged in other HCBS services or informal supports that offer similar supports (personal care, etc.). Remote support allows an individual to live in their home without the intrusive presence of a caregiver when the individual's needs can be met without a caregiver being in-person. They are receiving their support in the setting they choose, by the providers they choose. This support not only allows the individual to be more independent and have increased autonomy, but directly supports community integration, rather than institutionalization, since the participant receives their needed supports in their chosen community and in a person-centered way.

Remote support will allow an individual more autonomy to move around their living space without the presence of someone right beside them, often doing things for them. Individuals will be given the opportunity to complete tasks on their own and have the ability to ask for help, if and when they need it. It allows the person the ability to ask for the presence of in-person support when they want it, as opposed to always having someone there.

Remote support allows an individual to go out into their community on their own if they wish, with the support of remote support devices. Clients are informed of the device capabilities and what the device can support them with in the community, and when they may need to call the remote support provider for assistance through the device. In another way, remote support allows for the participant to have the independence to live in their home, and to engage in other waiver services as intended with other providers or staff who are available to support them.

The state will finalize policy around remote support and informed consent. Clients and their representatives will acknowledge the risks of using technology in any setting. When remote support is added to a client's home where there is family living (and not providing informal support) the client can choose an area within the home to video call or video chat their remote support provider.

When an individual elects to receive remote support, the person-centered service plan will reflect how many hours/days per week an individual will receive this support. Policy will direct case managers to ensure that there is an identified backup plan for an individual who is receiving remote support and this information will be added to the client's person-centered service plan, and the evaluation plan the provider creates. Additionally, case managers are already required to check in with clients and their representatives every 6 months to review service delivery and follow-up on any issues or concerns raised.

The remote support vendor is responsible for following through with the client and other identified individuals identified on the client's person-centered service plan when a device fails or when the technology is not working. They are responsible for replacing the item and delivering it to the client in a timely manner. Individuals the client has identified in their person-centered service plan will be notified and the backup system will be put into motion so support is consistently in place. There is not an in-person component like other waiver services offering telehealth. The only component that would be in person is the initial installation of the devices and if the client chooses, the initial evaluation with the provider to determine what kind of devices would meet the client's need. This is usually done remotely, but some vendors may have the ability to conduct these in person, in which the state will leave that up to the client to decide.

Radio frequency identification (RFID) is a wireless system that uses tags and readers. Information is passed between a tag and the reader through radio waves at different frequencies. For use in remote support, this would look like out of bed detection/fall detection, monitoring the individual (through sensors) and equipment tracking.

Remote Support is intended to be a less-intrusive way of supporting an individual in their home. Live audio feed is referring to client or provider-initiated video calls. The client can initiate a video call anytime with their remote support provider, and the provider can initiate a video call if they have not heard from the client or monitoring data suggests there is a problem. Calls initiated by the provider must be answered by the client- the provider cannot just turn on the video call. If the client chooses to include video monitoring in their remote support plan, they have the ability to turn the camera on or off at any time.

Because this service is strengths-based and takes a very person-centered approach to what the client wants in their life, individual plans will look differently. The state requires identification of when the remote support provider will be expected to provide support to the client as well as what that is for (reminders for ADLs, medication reminders, check in, etc). The client has the ability to contact or initiate calls to their remote support provider at any time. In addition, the remote support provider is available 24/7 to the client but will only bill the state for approved schedule. Remote support providers must be available to the client 24/7. Backup plans will be individualized and include identification of who will respond in-person to an individual when there is an emergency or simply if a client needs an in-person support for a specific task. DDA policy will direct case managers to ensure a solid backup plan is in place with documentation in the client's PCSP before authorizing services. Service may be received via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Providers engage with an individual through technology equipment with the capability for live two-way communication. Based on the person-centered plan and client choice, there may

be consistent monitoring through the use of non-video sensors that can capture movement and baseline movements of a client to ensure safety for the client in their home. If the client chooses to include video monitoring, there will be an exception to policy process to request that, and additional documentation will be required to move forward with such a request. Equipment used to meet this requirement shall include one or more of the following components:

1. Motion-sensing system
2. Radio frequency identification
3. Video calling via assistive technology
4. Live audio feed
5. Web-based monitoring systems

All necessary equipment to deliver Remote Supports is the responsibility of the Remote Supports provider and that the cost for this equipment is built into the rate for Remote Supports. Any technology equipment that must be purchased separately would be the property of the client and purchased through the Assistive Technology service. Need for service is based on the person-centered planning process and requested by the waiver participant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive.

Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

Continued at Main/B. Optional

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Remote Support is limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.
- 2) Remote Supports must never be used to restrict a person from their home, community, or body autonomy.
- 3) Clinical and support needs for remote support are identified in the waiver participant's DDA person-centered assessment and documented in the person-centered service plan.
- 4) Remote Support cannot pay for internet, data plans, or Wi-Fi access separately. If internet is included as a component of the remote support technology, it may be included in the rate for the remote support service.
- 5) Guardians, legal representatives, parents, or family members cannot provide remote support to a waiver participant.
- 6) Remote Supports requires prior approval by the regional administrator or designee.
- 7) Up to the limit of the IFS annual allocation.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Skilled Nursing

HCBS Taxonomy:

Category 1:

05 Nursing

Sub-Category 1:

05020 skilled nursing

Category 2:

Sub-Category 2:

Category 3:**Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Waiver skilled nursing provides chronic, long-term nursing services to address needs that are not met through the nursing services available in the Medicaid State Plan. Skilled nursing services under the waiver differ in nature, scope, supervision arrangements, or provider type (including provider training and qualifications) from skilled nursing services in the State plan.

The services under the waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

Skilled nursing is available for youth age 20 and younger only for nurse delegation when nurse delegation is not covered under the Medicaid state plan, including EPSDT.

Services include nurse delegation services provided by a registered nurse, including the initial visit, follow up instruction, and/or supervisory visits.

Services listed in the person-centered service plan must be within the scope of the State's Nurse Practice Act.

Safeguards that the State has in place to prevent duplicate billing for skilled nursing and nurse delegation include the following: 1) Skilled nursing requires a prior approval by DDA and 2) skilled nursing hours are determined by DDA Nursing Care Consultant's skilled nursing assessment.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The following limitations apply to receipt of skilled nursing services:

- Skilled nursing services require prior approval by DDA.
- Skilled nursing hours must not exceed the number of hours determined by the DDA Nursing Care Consultant's skilled nursing assessment.

Nurse delegation is an intermittent service. The Registered Nurse Delegator is required to visit and provide supervision to the registered or certified nursing assistant (NAR/CNA) at least once every ninety (90) days. If providing diabetic training, the RND must visit the individual at least once a week for the first four (4) weeks. However, the RND may determine that some clients need to be seen more often.

The department reserves the right to require a second opinion by a department-selected provider.

Since this service is one of the services covered under the aggregate service package, an expenditure limitation applies as indicated in Appendix C-4.a.

The rate for skilled nursing services is based on fee schedule. All payments are made directly from the single state agency to the provider of service.

- Skilled nursing (not including nurse delegation) is only provided to individuals age 21 and over. All medically necessary services for children under age 21 are covered in the state plan pursuant to the EPSDT benefit.

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications.

3. Qualifications

c. The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by RCW 43.20A.710. If the Contractor has employees or volunteers who will have unsupervised access to Clients in the course of performing the work under this Contract, the Contractor will conduct criminal history background checks on those employees.

d. Licensing Requirement. The Contractor must have and present an active license to practice as a registered nurse or as a licensed practical nurse, as defined under RCW 18.79, or an active in-home services agency license under 70.217. Agency staff providing Skilled Nursing Services must have an active license to practice as a registered nurse or as a licensed practical nurse, as defined under RCW 18.79. The Contractor shall maintain at all times current nursing licenses, registrations, and certificates as required by law.

e. By entering into this agreement, the Contractor certifies and provides assurances that the Contractor meets the minimum qualifications and that Contractor has the ability and willingness to carry out the responsibilities outlined in the Service Plan. The Contractor shall contact the Client's DDA case resource manager if at any time there are any concerns about the Contractor's ability to perform those responsibilities.

Washington Administrative Code (WAC)

WAC 388-845-1705 Who is a qualified provider of skilled nursing services?

The provider of skilled nursing services must be a licensed practical nurse (LPN) or registered nurse (RN) acting within the scope of the standards of nursing conduct or practice chapter 246-700 WAC and contracted with DDA to provide this service.

Service Type: Other Service

Service Name: Skilled Nursing

Provider Category:

Agency

Provider Type:

Licensed Practical Nurse (LPN)

Provider Qualifications

License (*specify*):

Chapter 246-840 WAC (Department of Health administrative code concerning practical and registered nursing)

Certificate (*specify*):

Other Standard (*specify*):

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications.

3. Qualifications

c. The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by RCW 43.20A.710. If the Contractor has employees or volunteers who will have unsupervised access to Clients in the course of performing the work under this Contract, the Contractor will conduct criminal history background checks on those employees.

d. Licensing Requirement. The Contractor must have and present an active license to practice as a registered nurse or as a licensed practical nurse, as defined under RCW 18.79, or an active in-home services agency license under 70.217. Agency staff providing Skilled Nursing Services must have an active license to practice as a registered nurse or as a licensed practical nurse, as defined under RCW 18.79. The Contractor shall maintain at all times current nursing licenses, registrations, and certificates as required by law.

e. By entering into this agreement, the Contractor certifies and provides assurances that the Contractor meets the minimum qualifications and that Contractor has the ability and willingness to carry out the responsibilities outlined in the Service Plan. The Contractor shall contact the Client's DDA case resource manager if at any time there are any concerns about the Contractor's ability to perform those responsibilities.

Washington Administrative Code (WAC)

WAC 388-845-1705 Who is a qualified provider of skilled nursing services?

The provider of skilled nursing services must be a licensed practical nurse (LPN) or registered nurse (RN) acting within the scope of the standards of nursing conduct or practice chapter 246-700 WAC and contracted with DDA to provide this service.

Verification of Provider Qualifications

State Operating Agency

Frequency of Verification:

Every 3 years.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Specialized Clothing

HCBS Taxonomy:**Category 1:**

17 Other Services

Sub-Category 1:

17010 goods and services

Category 2:**Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Nonrestrictive clothing adapted to the waiver participant's individual needs and related to her/his disability. Specialized clothing can include weighted clothing, clothing designed for tactile defensiveness or sensory integration, specialized footwear, or reinforced clothing.

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Service may be received in person or via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether

remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- (1) Clinical and support needs for specialized clothing are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan.
- (2) Specialized clothing may be authorized as a waiver service if the service is not covered by Medicaid or private insurance. The waiver participant must assist the Department in determining whether third party payments are available.
- (3) Clothing of general use to all populations is not covered.
- (4) The Department may require a second opinion from a department-selected health care provider.
- (5) The dollar limitations for the waiver participant's annual allocation in the IFS Waiver limit the amount of specialized clothing service she/he/they may receive as indicated in Appendix C-4.a.

Chapter 19.02 RCW (Washington state law concerning business licenses)

Certificate (*specify*):**Other Standard** (*specify*):

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications.

2. Qualifications

a. The Contractor shall be a legal business entity legitimately engaged in the business of provision of specialized goods and services as outlined in

Attachment A. Vendors of specialized services must maintain a business license required by law for the type of product provided and contracted for with

DDA. Contractors located in the state of Washington must have a Universal Business Identifier and Master Business License, as issued by the state

Department of Revenue. Out of state contractors must possess a Universal Business Identifier and Master Business License only when it is required by

Washington State law.

b. Providers of specialized services must be certified, registered or licensed therapists as required by law and contracted with DDA for the therapy they are providing.

Washington Administrative Code (WAC)

WAC 388-845-1845 Who are qualified providers of specialized clothing?

Providers of specialized clothing are specialized clothing vendors contracted with DDA to provide this service.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

Verification of Provider Qualifications**Entity Responsible for Verification:**

State Operating Agency

Frequency of Verification:

Every 3 years.

The standard contract period is three years. If a component of a provider's qualification (e.g., license) expires prior to the standard three year contract period, the contract is set to expire in conjunction with the expiration of that component. If that component is subsequently renewed, and all other qualifications remain in place, the contract is renewed as well.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Specialized Equipment and Supplies

HCBS Taxonomy:

Category 1:

14 Equipment, Technology, and Modifications

Sub-Category 1:

14031 equipment and technology

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Durable or non durable equipment or supplies, or equipment necessary to prevent institutionalization, not available under the medicaid state plan, or in excess of what is available, which enables individuals to:

- (a) Increase their abilities to perform their activities of daily living; or
- (b) Perceive, control or communicate with the environment in which they live; or
- (c) Improve daily functioning through sensory integration

Specialized equipment and supplies may include mobility devices, sensory regulation items, bathroom equipment, peri-care wipes, safety supplies, and other medical supplies not otherwise available on the Medicaid state plan, home health benefit or EPSDT.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- (1) Specialized equipment and supplies are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.
- (2) Habilitative support needs for specialized equipment and supplies are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan.
- (3) Specialized equipment and supplies require prior approval by the DDA Regional Administrator or designee when \$550 or more.
- (4) DDA reserves the right to require a second opinion by a department-selected provider.
- (5) Items paid for with waiver funds shall be in addition to any medical equipment and supplies furnished under the Medicaid state plan or other private insurance or program or items not covered by the Medicaid state plan or other available insurance.
- (6) Items must be of direct medical or remedial benefit to the individual and necessary as a result of the individual's disability.
- (7) Medications, prescribed or non-prescribed, and vitamins are excluded.
- (8) Since this service is one of the services covered under the aggregate service package, an expenditure limitation applies as indicated in Appendix C-4.a.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Individualized and community-based supports to assist a waiver participant to reach identified habilitative goals to promote inclusion in their homes and communities as documented in their person-centered service plan. Specialized Habilitation offers teaching and training to a waiver participant to learn or maintain skills in:

- self-empowerment (such as becoming more aware of strengths and weakness and therefore become better equipped to deal with problems)
- safety awareness and self-advocacy (such as learning skills to for safety awareness or how to recognize and report abuse, neglect or exploitation)
- interpersonal skills and effective communication (such as avoiding or mitigating inappropriate peer pressure)
- coping strategies regarding typical life challenges (such as acclimating to a new family member or roommate)
- managing daily tasks and acquiring adaptive skills (such as selecting appropriate outfits for various work and social occasions)

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet

their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The need for this service is identified during the person-centered planning process and documented in the waiver participant's person-centered service plan.

Specialized habilitation services are not included in the benefits available through special education, vocational, community first choice, behavioral health, skilled nursing, occupational therapy, physical therapy, or speech, language, and hearing services that are otherwise available through the Medicaid state plan, including early and periodic screening, diagnostic, and treatment.

Specialized habilitation services, not provided as a stabilization service, require prior approval by the DDA regional administrator or designee.

Specialized Habilitation may not be authorized when habilitation supports are received through Residential Habilitation.

Since this service is one of the services covered under the aggregate service package, an expenditure limitation applies as indicated in Appendix C-4.a.

Stabilization services – specialized habilitation and stabilization services – staff/family consultation services are distinct and separate services from specialized habilitation and staff/family consultation services, appear in PCSPs separately, are authorized separately and have unique and separate billing codes.

Service Definition (Continued)

This service was removed as of October 1, 2020

Specialized equipment or supplies which enables individuals to:

- (a) Increase their abilities to perform their activities of daily living; or
- (b) Perceive, control or communicate with the environment in which they live; or
- (c) Improve daily functioning through sensory integration.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Specialized equipment and supplies are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.
- 2) Habilitative support needs for specialized equipment and supplies are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.
- 3) Specialized equipment and supplies not listed in WAC 388-845-1800 (concerning what are covered medical equipment and supplies) and under the service definition above require prior approval by the DDA Regional Administrator or designee for each authorization.
- 4) DDA reserves the right to require a second opinion by a department-selected provider.
- 5) Items paid for with waiver funds shall be in addition to any medical equipment and supplies furnished under the Medicaid state plan or other private insurance or program or items not covered by the Medicaid state plan or other available insurance.
- 6) Items must be of direct medical or remedial benefit to the individual and necessary as a result of the individual's disability.
- 7) Medications, prescribed or non-prescribed, and vitamins are excluded.
- 8) The dollar limitations of the waiver participant's annual allocation in the IFS Waiver limit the amount of specialized equipment and supplies/she is authorized to receive as indicated in Appendix C-4.a.

Sub-Category 1:

10090 other mental health and behavioral services

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

This service was removed as of October 1, 2020

Specialized psychiatric services are specific to the individual needs of persons with developmental disabilities who are experiencing behavioral health symptoms.

Service may include any of the following:

- (a) Psychiatric evaluation,
- (b) Medication evaluation and monitoring,
- (c) Psychiatric consultation.

DDA works closely with the Behavioral Health Administration (BHA) to prevent duplication of BHO/State Plan MH Services. DSHS's expectation is that any DDA eligible individual who meets the BHA access to care and medical necessity standards will receive mental health services through Behavioral Health Organizations (BHOs) or Prepaid Inpatient Health Plans (PIHP). Individuals that do not meet access to care or medical necessity standards for the service type may be served under the behavior health stabilization services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Specialized Psychiatric Services are provided to waiver recipients age 21 and over. All medically necessary Specialized Psychiatric Services for children under 21 are covered in the state plan pursuant to the EPSDT benefit. Specialized psychiatric services are excluded if they are available through other Medicaid programs.

Since this service is one of the services covered under the aggregate services package, an expenditure limitation applies as indicated in Appendix B-2.a.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Stabilization Services - Crisis Diversion Bed

HCBS Taxonomy:

Category 1:

Sub-Category 1:

10 Other Mental Health and Behavioral Services

10030 crisis intervention

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

The need for this service is identified during the person-centered planning process and documented in the waiver participant's person-centered service plan. Crisis diversion beds are available to individuals determined by DDA to be at risk of institutionalization. Crisis diversion beds may be provided in a client's home, licensed or certified setting. Crisis diversion beds are short-term residential habilitation supports provided by trained specialists and include direct care, supervision or monitoring, habilitative supports, referrals, and consultation. This service is limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization. Short-term is designed to reflect a temporary, multiple day or multiple week time frame. Individualized person-centered planning identifies the minimally necessary time for a participant to be stabilized and returned to their own home, if an out of home setting is required, without a specific time limit. Crisis diversion bed services are documented in the waiver participants PCSP.

It is anticipated some waiver clients will not be eligible for these services under the Medicaid State Plan, since an individual must have a mental health (MH) diagnosis to receive mental health State Plan services. A MH diagnosis is not a requirement for enrollment in waiver services.

DDA works closely with the Behavioral Health Administration (BHA) and the Health Care Authority to prevent duplication of BHO/State Plan MH Services. DSHS's expectation is that any DDA eligible client who meets the BHA, MCO or HCA access to care or medical necessity standards will receive behavioral health services through their health plans. Individuals that do not meet access to care or medical necessity standards for the service type may be served under stabilization services.

Community mental health services are provided through Behavioral Health Organizations, FFS Medicaid or Managed care Organizations, which carry out the contracting for local mental health care.

Individuals with primary diagnoses and functional impairments that are only a result of developmental or intellectual disability are not eligible for behavioral health waiver services. As a result, individuals with these support needs must display an additional covered diagnosis and a medically necessary support need in order to be served through the behavioral health system.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The duration and amount of this short term service needed to stabilize the individual in crisis is determined by DDA with consultation from a behavioral health professional.

Stabilization Services - Crisis Diversion Bed Services are limited to additional services not otherwise covered under the state plan, but consistent with the waiver objectives of avoiding institutionalization.

"Short-term" reflects the fact that these services are not provided on an on-going basis. They are provided to individuals who are experiencing a crisis and are at risk of hospitalization. Once the crisis situation is resolved and the individual is stabilized, Stabilization services will be terminated.

The dollar limitations for the waiver participant's IFS Waiver annual allocation do not limit the amount of this service she/he/they is authorized to receive as indicated in Appendix C-4.a.

The State confirms that the crisis diversion bed service is never provided in an institutional setting. The State will specify that room and board is excluded from payment.

Stabilization Services - Specialized Habilitation

HCBS Taxonomy:**Category 1:**

10 Other Mental Health and Behavioral Services

Sub-Category 1:

10030 crisis intervention

Category 2:**Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Stabilization Services-Specialized Habilitation is short term individualized and community-based support when a client is experiencing crisis to assist the waiver participant to reach an identified habilitative goal to promote inclusion in their homes and communities to avoid immediate institutionalization.

Specialized Habilitation offers teaching and training to a waiver participant to learn or maintain skills in:

- Self-empowerment (such as becoming more aware of strengths and weaknesses and therefore becoming better equipped to deal with problems)
- Safety awareness and self-advocacy (such as learning skills for safety awareness or how to recognize and report abuse, neglect or exploitation)
- Interpersonal skills and effective communication (such as avoiding or mitigating inappropriate peer pressure)
- Coping strategies regarding typical life challenges (such as acclimating to a new family member or roommate)
- Managing daily tasks and acquiring adaptive skills (such as selecting appropriate outfits for various work and social occasions)

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Stabilization services – Specialized Habilitation are intermittent and temporary.

The need for this service is identified during the person-centered planning process and documented in the waiver participant's person-centered service plan.

Once the crisis situation is resolved and the individual is stabilized, stabilization services will be terminated. Any ongoing need for Specialized Habilitation services will be met under the stand-alone Specialized Habilitation services category for eligible clients. Individuals receiving Residential Habilitation will receive ongoing habilitation support from their residential habilitation services provider.

The services under the waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

Stabilization Services – Specialized Habilitation is distinct and separate service from Specialized Habilitation, appears in PCSPs separately, is authorized separately and has an unique and separate billing code.

The dollar limitations for the waiver participant's IFS Waiver annual allocation do not limit the amount of this service she/he/they is authorized to receive as indicated in Appendix C-4.a.

Stabilization Services – Staff/Family Consultation Services are therapeutic services that assist family members, unpaid caregivers and/or paid support staff in carrying out individual treatment/support plans, and that are not covered by the Medicaid state plan, and are necessary to improve the individual's independence and inclusion in their community. This service is not intended to instruct paid staff on the competencies relative to their field they are required to have or to provide training required to meet provider qualifications, but rather to support staff in meeting the individualized and specific needs of the waiver participant. The person-centered service plan, developed by the case/resource manager in collaboration with the waiver participant and the waiver participant's family, provides the high-level summary of services and goals for each specified waiver service. The plan developed by the consultant provides step-by-step details necessary to reach a goal by implementing a specific course of supports by the participant's family or paid providers.

Consultation, such as assessment, the development, training and technical assistance to a home or community support plan, and monitoring of the provider and individual in the implementation of the plan, is provided to families or direct staff to meet the specific needs of the waiver participant as outlined in the individual's person-centered service plan, including:

- (a) Health and medication monitoring to report to health care provider;
- (b) Positioning and transfer;
- (c) Basic and advanced instructional techniques;
- (d) Residential Habilitation Positive Behavior Support Implementation;
- (e) Augmentative communication systems;
- (f) Consultation with potential referral resources (mental health crisis line or end-harm line);
- (g) Diet and nutritional guidance;
- (h) Disability information and education;
- (i) Strategies for effectively and therapeutically interacting with the participant;
- (j) Environmental consultation;
- (k) Assistive Technology;
- (k) Individual and family counseling; and
- (l) Parenting skills.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Stabilization services – Staff/Family Consultation Services are intermittent and temporary.

The need for this service is identified during the person-centered planning process and documented in the waiver participant's person-centered service plan.

Service is provided to the waiver participant who is experiencing a crisis and is at risk of hospitalization. Once the crisis situation is resolved and the individual is stabilized, stabilization services will be terminated. Any ongoing need for Staff/Family Consultation Services will be met under the stand-alone Staff/Family Consultation Services category.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Clinical and therapeutic services that assist unpaid caregivers and/or paid support staff in carrying out individual treatment/support plans, and that are not covered by the Medicaid state plan, and are necessary to improve the individual's independence and inclusion in their community. This service is not intended to instruct paid staff on the competencies relative to their field they are required to have or to provide training required to meet provider qualifications, but rather to support staff in meeting the individualized and specific needs of the waiver participant. The person-centered service plan, developed by the case/resource manager in collaboration with the waiver participant and the waiver participant's family, provides the high-level summary of services and goals for each specified waiver service. The plan developed by the consultant provides step-by-step details necessary to reach a goal by implementing a specific course of supports by the participant's family or paid providers.

Consultation, such as assessment, the development, training and technical assistance to a home or community support plan, and monitoring of the provider and individual in the implementation of the plan, is provided to families or direct staff to meet the specific needs of the waiver participant as outlined in the waiver participant's person-centered service plan, including:

- (a) Health monitoring;
- (b) Positioning and transfer;
- (c) Basic and advanced instructional techniques;
- (d) Positive behavior support;
- (e) Augmentative communication systems;
- (f) Diet and nutritional guidance;
- (g) Disability information and education;
- (h) Strategies for effectively and therapeutically interacting with the participant;
- (i) Environmental consultation;
- (j) Individual and family counseling;
- (k) Assistive technology; and
- (l) Assistance with managing the family's daily schedule and home.

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Service may be received in person or via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and

service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- (1) Clinical and support needs for staff/family consultation and training are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan.
- (2) Expenses to the family or provider for room and board or attendance, including registration, at conferences are excluded as a service under staff/family consultation and training.
- (3) Services will not duplicate services available through third party payers or social service organizations or schools.
- (4) The dollar limitations in the waiver participant's annual allocation in the IFS Waiver limit the amount of staff/family consultation and training service she/he/they is authorized to receive as indicated in Appendix C-4.a.
- (5) Stabilization services – specialized habilitation and stabilization services – staff/family consultation services are distinct and separate services from specialized habilitation and staff/family consultation services, appear in PCSPs separately, are authorized separately and have unique and separate billing codes.

If the Contractor has employees or volunteers who will have unsupervised access to Clients in the course of performing the work under this Contract, the Contractor will conduct criminal history background checks on those employees.

Washington Administrative Code (WAC)

Proposed WAC 388-845-2005 Who is a qualified provider of staff/family consultation and training?

To provide staff/family consultation and training, a provider must be one of the following licensed, registered or certified professionals and be contracted with DDA:

- (1) Audiologist;
- (2) Licensed practical nurse;
- (3) Marriage and family therapist;
- (4) Mental health counselor;
- (5) Occupational therapist;
- (6) Physical therapist;
- (7) Registered nurse;
- (8) Sex offender treatment provider;
- (9) Speech/language pathologist;
- (10) Social worker;
- (11) Psychologist;
- (12) Certified American sign language instructor;
- (13) Nutritionist;
- (14) Counselors registered or certified in accordance with the requirements of chapter 18.19 RCW;
- (15) Certified dietician;
- (16) Recreation therapist registered in Washington and certified by the National Council for Therapeutic Recreation;
- (17) Providers listed in WAC 388-845-0506 and contracted with DDA to provide CIIBS intensive services;
- (18) Certified music therapist (for CIIBS only);
- (19) Psychiatrist; or
- (20) Professional advocacy organization.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

If the Contractor has employees or volunteers who will have unsupervised access to Clients in the course of performing the work under this Contract, the Contractor will conduct criminal history background checks on those employees.

Washington Administrative Code (WAC)

Proposed WAC 388-845-2005 Who is a qualified provider of staff/family consultation and training?

To provide staff/family consultation and training, a provider must be one of the following licensed, registered or certified professionals and be contracted with DDA:

- (1) Audiologist;
- (2) Licensed practical nurse;
- (3) Marriage and family therapist;
- (4) Mental health counselor;
- (5) Occupational therapist;
- (6) Physical therapist;
- (7) Registered nurse;
- (8) Sex offender treatment provider;
- (9) Speech/language pathologist;
- (10) Social worker;
- (11) Psychologist;
- (12) Certified American sign language instructor;
- (13) Nutritionist;
- (14) Counselors registered or certified in accordance with the requirements of chapter 18.19 RCW;
- (15) Certified dietician;
- (16) Recreation therapist registered in Washington and certified by the National Council for Therapeutic Recreation;
- (17) Providers listed in WAC 388-845-0506 and contracted with DDA to provide CIIBS intensive services;
- (18) Certified music therapist (for CIIBS only);
- (19) Psychiatrist; or
- (20) Professional advocacy organization.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

- b. The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by RCW 43.20A.710. If the Contractor has employees or volunteers who will have unsupervised access to Clients in the course of performing the work under this Contract, the Contractor will conduct criminal history background checks on those employees.

Washington Administrative Code (WAC)

Proposed WAC 388-845-2005 Who is a qualified provider of staff/family consultation and training?

To provide staff/family consultation and training, a provider must be one of the following licensed, registered or certified professionals and be contracted with DDA:

- (1) Audiologist;
- (2) Licensed practical nurse;
- (3) Marriage and family therapist;
- (4) Mental health counselor;
- (5) Occupational therapist;
- (6) Physical therapist;
- (7) Registered nurse;
- (8) Sex offender treatment provider;
- (9) Speech/language pathologist;
- (10) Social worker;
- (11) Psychologist;
- (12) Certified American sign language instructor;
- (13) Nutritionist;
- (14) Counselors registered or certified in accordance with the requirements of chapter 18.19 RCW;
- (15) Certified dietician;
- (16) Recreation therapist registered in Washington and certified by the National Council for Therapeutic Recreation;
- (17) Providers listed in WAC 388-845-0506 and contracted with DDA to provide CIIBS intensive services;
- (18) Certified music therapist (for CIIBS only);
- (19) Psychiatrist; or
- (20) Professional advocacy organization.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Supported parenting services are professional services offered to parents and prospective parents with developmental disabilities who are enrolled on the IFS Waiver. Prospective parents are waiver participants who are pregnant or who are in the process of adopting a child. Supported parenting offers professional services to the parent who is a waiver participant while staff/family consultation and training offers professional assistance to families or direct service providers to help them better meet the needs of the waiver participant.

Services may include teaching, parent coaching and other supportive strategies in areas critical to parenting, including child development, nutrition and health, safety, childcare, money management, time and household management and housing.

Supported parenting services are designed to build parental skills around the child's developmental domains of cognition, language, motor, social-emotional and self-help.

In order to be qualified, providers of supported parenting services must have an understanding of the manner in which individuals with developmental disabilities best learn in addition to skills in child development and family dynamics and be one of the licensed, registered or certified professionals listed below and be contracted with DDA.

Remote service delivery is an available service delivery option if chosen by the participant or their guardian (if appropriate), appropriately meets the participant's assessed needs as documented in their PCSP and is provided within the scope of the service being delivered. Service may be received in person or via telehealth as identified in the person-centered service plan. The waiver participant selects whether they want to receive service in person, via telehealth, or a combination of both. Remote service delivery means that the service is delivered by the provider to the participant via phone, video, computer, or other technology and that the technology and data storage is HIPAA compliant.

Assurances:

The well-developed person-centered service plan will document the participant's specific health and welfare needs and how each service selected by the participant contributes to meeting the participant's needs and does not duplicate supports.

Remote Supports does not provide any of the specific services or supports that are provided by services that are delivered via telehealth remotely.

The well-developed person-centered service plan will document which services are selected by the participant to meet their unique health and welfare needs and whether a participant selects a particular service to be provided via telehealth remotely. The service authorization system (ProviderOne) has distinct and separate service codes for each waiver service and has built-in system logic that prevents duplication of services. DDA policies and procedures provide guidance to Case Resource Managers on developing effective person-centered service plans that meet the unique needs of participants without any duplication of services.

Telehealth will be the delivery method for a particular service at the direction of the participant not by the preference of the service provider. A teleservice (telehealth) request form will be required prior to authorization of teleservice delivery. This request form will document the client's desired level of in person to teleservice delivery and will remind client's that they can change their mind about frequency of teleservice delivery at any time. This agreement is intended to assist in clear and documented communication between the client, DDA, and the provider (in addition to the person-centered service plan) to ensure the client is the driver of the method of service delivery they receive. Case/Resource Managers will consult with their participants and family members, if appropriate, to develop the person-centered service plan that includes the specific services and service delivery methods that best meets the participant's unique health and welfare needs. Participants will document in their PCSPs what approximate percentage of service delivery they desire to receive via telehealth. The State is not mandating what percentage of time telehealth will be the delivery method for the service to ensure person-centered service planning and promote client choice. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods.

State will permit recording of live interactions with the participant via audio or video technology only at the request of the participant. Policy will include specific language around bathrooms and bedrooms. Video cameras are not permissible in bathrooms. If a client requests a video camera in their bedroom, there must be an approved exception to policy in place and the device must be situated in a way that does not compromise client privacy. Live 2-way interactions are always initiated by the participant. The participant can initiate the service when needed and turn off the equipment when not needed.

The State believes remote service delivery (telehealth) will be an important component in a well-developed and balanced person-centered service plan that focuses on the specific wants and health and welfare needs of the

participant. Experience during the COVID-19 pandemic has shown that remote service delivery can facilitate community integration in a person-centered way. Washingtonians in the broader community utilize both technology-supported remote and in-person community service environments, and the proposed change in waiver services give waiver clients the same opportunity to participate in their community as everyone else. Case/Resource Managers will be guided by DDA policy to assist participants to select services and service delivery methods that best meet their health and welfare needs employing a robust balance of in-person and if desired, telehealth delivery methods. Participants who need hands on assistance/physical assistance will require careful person-centered planning coordinated by their Case/Resource Manager to determine if remote service delivery is a practical or feasible option for the successful delivery of services. Voice-activated communication devices may be an option that some participants select to ensure that remote service delivery will work for them. Other clients may require in person service delivery only to ensure safety and successful service delivery.

The person-centered service plan is the first resource that will ensure the health and safety of that participant. The PCSP identifies supervision and physical assistance support needs that inform the decision making of whether remote service delivery (telehealth) is appropriate for the client. Providers employing remote service delivery will continue to follow all service protocols and will report any concerns they have to the Case/Resource Manager and make any appropriate incident reports.

The provider delivering services remotely will be responsible for using an approved delivery platform that the client is able and willing to use and will provide basic technical assistance as necessary during the course of their service delivery (device on and off, volume control, etc.). If a client is unable to use technology for remote service delivery, then in person service delivery would be the appropriate service delivery mechanism for the client and this would be discussed during the person-centered planning meeting.

The participant utilizing the services remote support and each person who shares a residence with that participant will be fully informed of what remote service delivery entails including, but not limited to: (A) that remote staff may observe their activities if they are within the view of the participant's video communication device; (B) that the participant decides where in the residence the remote support will occur; (C) whether or not recordings of sessions will be made (the participant's Case/Resource Manager will document in the PCSP); (D) that the participant will control the operation of the communication device, when it is turned on and when it is turned off. Please note that this service is not approved for clients receiving residential habilitation services.

The state will use the CARE assessment to determine client need for technology and remote support through the person-centered planning process. If a client requests that a video camera be placed in their home to use in the provision of remote support, there must be an exception to policy (ETP) in place with justification as to why the camera is needed instead of a simple sensor. The ETP must be approved and documented in the client's file before the device is installed and prior to the service being authorized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

(1) Clinical and support needs for supported parenting services are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan.

(2) The dollar limitations in the waiver participant's annual allocation in the IFS Waiver limit the amount of supported parenting services she/he/they is authorized to receive as indicated in Appendix C-4.a.

Service Delivery Method (check each that applies):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Specify whether the service may be provided by (check each that applies):

- ☐ Legally Responsible Person
- ☐ Relative
- ☐ Legal Guardian

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications

Qualifications. In order to be qualified, providers of supported parenting services must have an understanding of the manner in which individuals with developmental disabilities best learn in addition to skills in child development and family dynamics and be one of the licensed, registered or certified professionals listed below and be contracted with DDA.

Washington Administrative Code (WAC)

WAC 388-845-2135 Who are qualified providers of supported parenting services?

In order to be qualified, providers of supported parenting services must have an understanding of the manner in which persons with intellectual/developmental disabilities best learn in addition to skills in child development and family dynamics and be one of the following licensed, registered or certified professionals and be contracted with DDA:

- (1) Audiologist;
- (2) Licensed practical nurse;
- (3) Marriage and family therapist;
- (4) Mental health counselor;
- (5) Occupational therapist;
- (6) Physical therapist;
- (7) Registered nurse;
- (8) Speech/language pathologist;
- (9) Social worker;
- (10) Psychologist;
- (11) Certified American sign language instructor;
- (12) Nutritionist;
- (13) Counselors registered or certified in accordance with the requirements of chapter 18.19 RCW;
- (14) Certified dietician;
- (15) Recreation therapist registered in Washington and certified by the National Council for Therapeutic Recreation;
- (16) Providers listed in WAC 388-845-0506 and contracted with DDA to provide CIIBS intensive services; or
- (17) Psychiatrist; or
- (18) Professional advocacy organization.

When providing telehealth, the virtual platform must be HIPPA compliant. The provider must take measures necessary to ensure the HUB site (site where provider delivering the service is located during the time of service provision) maintains HIPPA and privacy standards.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

HCBS Taxonomy:**Category 1:**

Sub-Category 1:

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):**Category 4:**

Sub-Category 4:

Therapeutic adaptations are modifications to the environment necessary to reduce or eliminate environmental stressors, enable social support, or give a sense of control to the waiver participant in order for a therapeutic plan to be implemented. Adaptations include modifications such as:

- Noise reduction or enhancement
- Lighting Adjustment
- Wall Softening
- Tactile Accents
- Visual Accents

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

One time adaptation every five years. Modifications may not add square footage to the home or convert nonliving space into living space. Requires a recommendation by a behavioral health provider, OT or PT within the waiver participant's current therapeutic plan. These services are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of this service she/he/they is authorized to receive as indicated in Appendix C-4.a.

The State notes that Therapeutic Adaptations is an unique and specific service that does not overlap with either Specialized Equipment and Supplies or Environmental Adaptations. Each service is authorized separately and has an unique billing code.

Service Delivery Method (check each that applies):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Specify whether the service may be provided by (check each that applies):

- ☐ Legally Responsible Person
☐ Relative
☐ Legal Guardian

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:**HCBS Taxonomy:****Category 1:****Sub-Category 1:****Category 2:****Sub-Category 2:****Category 3:****Sub-Category 3:**

Service Definition (*Scope*):

Category 4:

Sub-Category 4:

Reimbursement to a provider when the transportation is required and specified in the waiver participant's person-centered service plan. This service is available if the cost and responsibility for transportation is not already included in the waiver participant provider's contract and payment.

Transportation services provide the waiver participant access to waiver services specified by the waiver participant's person-centered service plan.

Whenever possible, the waiver participant must use family, neighbors, friends or community agencies that can provide this service without charge.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- (1) Support needs for transportation services are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan.
- (2) Transportation to/from medical or medically related appointments is a Medicaid transportation service and is to be considered and used first.
- (3) Transportation is offered in addition to medical transportation but cannot replace Medicaid transportation services.
- (4) Transportation is limited to travel to and from a waiver service.
- (5) Transportation does not include the purchase of a bus pass.
- (6) This service does not cover the purchase or lease of vehicles.
- (7) Reimbursement for provider travel time is not included in this service.
- (8) Reimbursement to the provider is limited to transportation that occurs when the waiver participant is with the provider.
- (9) The waiver participant is not eligible for transportation services if the cost and responsibility for transportation is already included in the provider's contract and payment.
- (10) The dollar limitations of the waiver participant's annual allocation in the IFS Waiver limit the amount of transportation services she/he/they is authorized to receive as indicated in Appendix C-4.a.

Service Delivery Method (*check each that applies*):

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider qualifications for individual providers.

a. The Contractor shall maintain all necessary licenses, registrations, and certifications as required by law. The Contractor agrees not to perform any task requiring a registration, certificate or license unless he/she is registered, certified or licensed to do so or is a member of the client's immediate family or is performing self-directed health care tasks. See RCW 18.679, 18.88A and 74.39 for laws related to nursing care, Registered Nurse Delegation, and self-directed health care tasks, respectively.

b. If the Contractors is providing Nurse Delegation Services, the Contractor must:

- (1) Complete the Nurse Delegation for Nursing Assistants course and pass the competency test;
- (2) Be a nursing assistant currently registered or certified;
- (3) For Nursing Assistant Registereds, successfully complete Revised fundamentals of Caregiving, or
Modified Fundamentals of Caregiving; and
- (4) Complete all Nurse Delegation training before performing any delegated task.

c. Prohibition of ALTSA/DDA employees contracting with DSHS to provide Individual Provider Services to DSHS long-term care clients.

If you are currently an Employee of ALTSA/DDA either with the Developmental Disabilities Administration, Residential Care Services, or Home and Community services, or become an employee of the same during the course of the period of this contract, you are considered disqualified and DSHS will terminate your contract for convenience.

d. The Contractor shall meet all training requirements in WAC 388-71. DSHS shall supply the Contractor with training requirements and time frames for completion.

The Contractor agrees to undergo a criminal history background check conducted by DSHS, as required by RCW 43.20A.710.

Washington Administrative Code (WAC)

14020 home and/or vehicle accessibility adaptations

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Service Definition (Scope):

Category 4:

Sub-Category 4:

Adaptations or alterations to a vehicle required in order to accommodate the unique needs of the waiver participant, enable full integration into the community, and ensure the health, welfare, and safety of the waiver participant and/or caregivers.

Vehicle Modifications require prior approval from the DDA regional administrator or designee except for repairs to existing vehicle modifications.

Examples of vehicle modifications include:

- a) Manual hitch-mounted carrier and hitch for all wheelchair types;
- b) Wheelchair cover;
- c) Wheelchair strap-downs;
- d) Portable wheelchair ramps;
- e) Accessible running boards and steps;
- f) Assist poles and/or grab handles;
- g) Power-activated carrier for all wheelchair types;
- h) Permanently installed wheelchair ramps;
- i) Repairs and maintenance to vehicle modifications as needed for client safety; and
- j) Other access modifications.

The following vehicle modifications require prior approval by the DDA Regional Administrator or designee:

- a) Power activated carrier for all wheelchair types;
- b) Power activated wheelchair ramps;
- c) Repairs and maintenance to vehicular modifications as needed for client safety; and
- d) Other access modifications.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- (1) Clinical and support needs for vehicle modification services are identified in the waiver participant's DDA person-centered assessment and documented in her/his/their person-centered service plan;
- (2) The waiver participant lives in her/his/their family home;
- (3) Vehicle modifications are excluded if they are of general utility without direct medical or remedial benefit to the waiver participant or caregiver;
- (4) Participants who are enrolled with the Division of Vocational Rehabilitation (DVR) must pursue this benefit through DVR first;
- (5) Vehicle modifications must be the most cost effective modification based upon a comparison of contractor bids as determined by DDA.
- (6) Modifications will only be approved for a vehicle that serves as the waiver participant's primary means of transportation and is owned by the waiver participant and/or her/his/their family.
- (7) DDA requires the waiver participant's treating professional's written recommendation regarding the need for the service. This recommendation must take into account that the treating professional has recently examined the waiver participant, reviewed her/his/their medical records, and conducted a functional evaluation.
- (8) The Department may require a second opinion from a department-selected provider that meets the same criteria as subsection 7) of this section.
- (9) The dollar limitations of the waiver participant's annual allocation in the IFS Waiver limit the amount of vehicle modification service that the she/he/they is authorized to receive as indicated in Appendix C-4.a.

Wellness Education

HCBS Taxonomy:**Category 1:**

17 Other Services

Sub-Category 1:

17990 other

Category 2:**Sub-Category 2:****Category 3:****Sub-Category 3:****Service Definition (Scope):****Category 4:****Sub-Category 4:**

Wellness education provides waiver participants with monthly informational and educational materials designed to assist them in managing health related issues, achieving goals identified in their person-centered service plans and addressing health and safety issues. This Individual and Family Service Waiver service will assist participants to achieve greater health, safety and success in community living.

- a. The individualized material is being developed by the state and by the contracted provider.
- b. The participants will receive printed material.
- c. The participants will receive a monthly mailing.
- d. The Wellness Education service is designed to assist participants to live in the community and avoid institutionalization by ensuring that they receive needed information and tools. For example, the service can provide

information needed to:

- Successfully manage chronic conditions in order to halt progression resulting in risk of nursing home placements;
- Prevent and avoid health risks such as, pneumonia, influenza, infections, and other illnesses or conditions that can lead to nursing home placement for elderly or frail participants;
- Work effectively with health providers in order to understand and follow recommendations for the correct course of treatment in order to prevent hospitalization or nursing home placement;
- Develop support networks that can promote engagement and combat isolation that can lead to increased health and safety risks that can result in nursing home placement;
- Develop an effective person-centered service plan that utilizes an array of paid and informal supports to address the whole person needs of the person to live successfully in the community;
- Achieve community goals identified in the person-centered service plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Waiver participants who elect to receive this waiver service will receive the service monthly. Since this service is one of the services covered under the annual allocation, an expenditure limitation applies as indicated in Appendix C-4.a. Payment will be made directly to the provider by the State Medicaid Agency.

The Wellness Education newsletter is published and mailed by an agency with experience managing, developing and distributing monthly newsletters to a specified population.

The State clarifies that this service provider must adhere to WAC 388-845-2290.

Contract Standards. All DDA/DSHS contracts include the following standards: contract definitions, contract purpose, provider qualifications, statement of work, consideration, billing and payment process, background check process, drug free workplace, duty to report suspected abuse, duty to report unusual incidents and contract dispute resolution process.

Contract language regarding provider requirements. The Contractor shall:

1. Create an introductory newsletter available to DSHS in PDF, translated into all seventeen (17) languages to be used by DSHS when new clients enroll in the waiver mid-month and need to access the Wellness Education service.

2. Produce a monthly client newsletter with simple to understand information and specific action items to address whole wellness and safety needs identified in the Clients' service plan. Each Client's newsletter will contain three (3) articles that educate the Client on relevant aspects of lifestyle, health education or clinical management.

Washington Administrative Code (WAC)

WAC 388-845-2290 Who are qualified providers of wellness education? The wellness education provider must have the ability and resources to:

- 1) Receive and manage client data in compliance with all applicable federal HIPPA regulations, state law and rules and ensure client confidentiality and privacy;
- 2) Translate materials into the preferred language of the participant;
- 3) Ensure that materials are targeted to the participant's assessment and person-centered service plan;
- 4) Manage content sent to participants to prevent duplication of materials;
- 5) Deliver newsletters and identify any undeliverable client/representative addresses prior to each monthly mailing and manage any returned mail in a manner that ensures participants receive the monthly information; and
- 6) Contract with ALTSA or DDA to provide this service.

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (*select one*):

☐ **Not applicable** - Case management is not furnished as a distinct activity to waiver participants.

☒ **Applicable** - Case management is furnished as a distinct activity to waiver participants.

Check each that applies:

☐ **As a waiver service defined in Appendix C-3.** Do not complete item C-1-c.

☐ **As a Medicaid state plan service under §1915(i) of the Act (HCBS as a State Plan Option).** Complete item C-1-c.

- ☐ As a Medicaid state plan service under §1915(g)(1) of the Act (Targeted Case Management). *Complete item C-1-c.*
- ☒ As an administrative activity. *Complete item C-1-c.*
- ☐ As a primary care case management system service under a concurrent managed care authority. *Complete item C-1-c.*

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:

State-employed DDA Case Resource Managers and DDA Social Service Specialists conduct case management functions on behalf of waiver recipients.

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- ☐ No. Criminal history and/or background investigations are not required.
- ☒ Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

(a) Background checks are required for providers who have unsupervised access to individuals with developmental disabilities receiving services on the IFs Waiver. This includes volunteers, students, interns, or contracted or licensed staff and state staff.

(b) Searches are conducted through Washington State Patrol, and all long-term care workers (as defined below) are required to have a fingerprint check through the FBI. Individuals being hired by DDA who have lived in Washington less than three years are also required to have a fingerprint check through the FBI. As of January 2016, staff hired by Supported Living providers will also have to undergo a fingerprint check through the FBI.

The DSHS Background unit also checks Adult Protective Services and Department of Health registers.

State and federal (FBI) background checks were required for all long-term care workers (as defined in RCW 74.39A.009) for the elderly or persons with disabilities. "Long-term care workers" includes all persons who provide paid, hands-on personal care services for the elderly or persons with disabilities, including but not limited to individual providers of home care services, direct care workers employed by home care agencies, providers of home care services to persons with developmental disabilities under Title 71A RCW, all direct care workers in state-licensed assisted living facilities, and adult family homes, respite care providers, direct care workers employed by community residential service businesses, and any other direct care worker providing home or community-based services to the elderly or persons with functional disabilities or developmental disabilities.

(c) The entity responsible for retrieving this information is DSHS/Background Check Centralized Unit (BCCU).

(d) Relevant state laws, regulations and policies are: RCW 43.43.837 (State Patrol Washington State law concerning fingerprint-based background checks)-, RCW 74.15.030(c) (public assistance Washington state law concerning background checks for those with unsupervised access to children or individuals with a developmental disability), WAC 388-06 (DSHS administrative code concerning background checks)and DSHS Administrative Policy 18.63 (concerning employee background check requirements).

State utilizes multiple processes and QA oversight to ensure that mandatory investigations have been conducted in accordance with state policy. All state, county and contractor employees, volunteers and interns who have direct contact with waiver participants must have evidence of background investigations completed with a non-disqualifying check result in their personnel files. State and county staff who complete contracts for all contractors require evidence of completed background investigations with a non-disqualifying check result before contracts are signed and put into effect. State residential QA staff utilize a DDA residential background check tracking tool to document that all contract residential staff have completed background investigations with a non-disqualifying result. Residential Care Services licensors and certifiers review evidence of completed background investigations while conducting initial and renewal licensing/certification of all residential providers.

b. Abuse Registry Screening. Specify whether the state requires the screening of individuals who provide waiver services through a state-maintained abuse registry (select one):

- ☐ No. The state does not conduct abuse registry screening.
- ☒ Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

(a) The entities responsible for maintaining the abuse registry:

Under state authority, RCW 26.44 (state law concerning abuse of children), Child Protective Services (CPS) within the Department of Children, Youth and Families is responsible for receiving and investigating reports of suspected child abuse and neglect.

Under state authority, RCW 74.34 (state law concerning abuse of vulnerable adults), the Aging and Long Term Support Administration (AL TSA) receives reports and conducts investigations of abuse, neglect, exploitation and abandonment for clients enrolled with the Developmental Disabilities Administration. AL TSA Residential Care Services (RCS) investigates provider practice issues with respect to abuse and neglect occurring in nursing homes, assisted living facilities, adult family homes, & supported living programs. AL TSA Adult Protective Services (APS) investigates abuse and neglect involving adults residing in residential facilities and in their own homes. Both APS and RCS forward final findings of abuse, neglect and exploitation to the DSHS Background Check Central Unit (BCCU).

The BCCU enters the information into a database used to screen all names submitted for a background check.

(b) The types of positions for which abuse registry screenings must be conducted:

Pursuant to WAC 388-06-0110 (concerning who must have background checks) and RCW 74.15.030 (state law concerning the powers and duties of the Secretary of DSHS, including background checks), all DDA direct hires and direct contracts which may involve unsupervised access to children or people with developmental disabilities require a background check through the BCCU which includes abuse registry screening.

Prior to providing contracted waiver services, the DSHS requires screening of individuals through the BCCU which includes the abuse registry findings. Per RCW 74.39A.050(8)(state law concerning quality improvement of long-term care services), no provider or staff, or prospective provider or staff, entered into a state registry finding him or her guilty of abuse, neglect, exploitation, or abandonment of a minor or a vulnerable adult as defined in Chapter 74.34 RCW (state law concerning abuse of vulnerable adults) shall be employed in the care of and have unsupervised access to vulnerable adults.

(c) The process for ensuring that mandatory screenings have been conducted:

As part of the background check process, the BCCU cross-checks all potential employees with a CA database that contains information on all individuals with a substantiated finding of child abuse and/or neglect. DDA does not hire or contract with any provider that may have unsupervised contact with a child or vulnerable adult until a background check is cleared and placed into the individual's file (DDA Policy 5.01, Background Checks). Contracted agency providers are required to conduct background checks on all of their employees, including all administrators, employees, volunteers, and subcontractors who may have unsupervised access to clients, pursuant to WAC 388-101-3250 (concerning background checks for the staff of certified providers of community residential services and supports) and RCW 43.43.830 (which is state law covering the Washington State Patrol which concerns background checks for those with access to children or vulnerable adults). This is checked again by the state during contract renewal no less than every 3 years.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

Note: Required information from this page (Appendix C-2-c) is contained in response to C-5.

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under state law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the state, payment may

not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one:*

- ☒ **No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.**
- ☐ **Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.**

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) state policies that specify the circumstances when payment may be authorized for the provision of **extraordinary care** by a legally responsible individual and how the state ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.*

☐ **Self-directed**

☐ **Agency-operated**

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one:*

- ☐ **The state does not make payment to relatives/legal guardians for furnishing waiver services.**
- ☒ **The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.**

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

State regulations stipulate the following limitations apply to providers for waiver services:

- (1) The waiver participant's spouse cannot be their paid provider for any waiver service.
- (2) If the individual is under age eighteen, her/his/their natural, step, or adoptive parent cannot be the paid provider for any waiver service.
- (3) If the individual is age eighteen or older, her/his/their natural, step, or adoptive parent cannot be the paid provider for any waiver service with the exception of:
 - (a) Transportation to a waiver service;
 - (b) Residential Habilitation services if her/his/their parent is certified as a residential agency; or
 - (c) Respite care for the individual if she/he/they and her/his/their parent live in separate households.

Any relative or legal guardian who does not meet any of the three criteria detailed in this section may be qualified to furnish services.

The following controls are in place to ensure payments are made only for services rendered:

- Annual Person-Centered Service Plans
- Case resource manager monitoring of plan
- Annual PCSP audits
- National Core Indicator interviews
- Person-Centered Service Plan surveys

To ensure the safety of waiver participants, the state instructs Case Resource Managers to locate a third party to supervise providers when the waiver participant is unable to do so.

Waiver services for which payment may be made to relatives or legal guardians include: 1) respite; 2) stabilization services – crisis diversion bed; 3) community engagement; 4) environmental adaptations; 5) occupational therapy; 6) physical therapy; 7) skilled nursing; 8) specialized equipment and supplies; 9) speech, hearing and language services; 10) Staff/family consultation; and 11) transportation.

There are no limitations on the amount of services that may be furnished by a relative or legal guardian (above and beyond limitations described in waiver services or Appendix C-4).

Legal guardians who exercise decision-making authority may be paid to provide waiver services. Case/Resource Managers work with the waiver participant and waiver participant's family to develop a person-centered service plan that meets the needs of the waiver participant and honors the preferences of the waiver participant based on needs identified in the DDA Assessment. As a component of this person-centered service plan development, waiver participants are offered a choice of service providers.

- ☐ **Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.**

Specify the controls that are employed to ensure that payments are made only for services rendered.

- ☐ **Other policy.**

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

The State of Washington allows for continuous open enrollment of all qualified providers. Provider qualifications are available to the public on-line per Washington Administrative Code (WAC). Waiver enrollees may select qualified providers at any time during the waiver year. Providers may enroll at any time during the year.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

- a. *Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

C.a.1. # & % of wvr serv providers requiring licensure or certification, which initially met and continued to meet all DDA contract standards, including lic or cert, prior to furnishing services
N = # of wvr serv prvdrs requiring lic or cert, which initially met & continued to meet all DDA cntrt stds, including lic or cert, prior to furnishing svcs
D= All wvr svcs prvdrs that require lic or cert

Data Source (Select one):

Other

If 'Other' is selected, specify:

Agency Contracts Database (ACD)

b. Sub-Assurance: *The State monitors non-licensed/non-certified providers to assure adherence to waiver*

requirements.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

C.b.1. Number & percent of waiver participant files with all authorized non-licensed/non-certified providers that met DDA contract standards and waiver requirements. N = # of waiver participant files with all authorized non-licensed/non-certified providers that met DDA contract standards and waiver requirements. D = All waiver participant files reviewed.

Data Source (Select one):

Record reviews, on-site

If 'Other' is selected, specify:

| Responsible Party for data collection/generation (check each that applies): | Frequency of data collection/generation (check each that applies): | Sampling Approach (check each that applies): |

c. Sub-Assurance: The State implements its policies and procedures for verifying that provider training is conducted in accordance with state requirements and the approved waiver.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

C.c.3: The number and percent of non-licensed/non-certified waiver providers who met state and waiver training requirements as verified by state policies and procedures. N = Number of non-licensed/non-certified waiver providers who met

state and waiver training requirements as verified by state policies and procedures. D
= All non-licensed/non-certified waiver providers.

Data Source (Select one):

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

C.a.1 and C.c.3: The Contracts Program Manager produces an annual report comparing claims data against the Agency Contracts Database (ACD) to verify that providers of service to all waiver participants meet contract standards, including licensure and other requirements, as verified by a valid contract.

C.c.2 and C.c.3: DDA maintains provider contract records in the Agency Contracts Database (ACD) that verifies providers have met ongoing training requirements prior to contract renewal. ACD reports are run annually to verify completion of training requirements.

C.b.1: The Quality Compliance Coordinator (QCC) Team completes a review of randomly selected files across all waivers on an annual basis. The list for the QCC Team review is generated to produce a random sample with a 95% confidence level with a margin of error of +/-5%. The findings from these reviews are collected in a database. All findings are expected to be corrected within 90 days. Corrections are monitored by QCC Team members.

As a part of the QCC review, the team checks to see that providers of service to waiver participants continue to meet contract standards, which include appropriate licensure, certification and other standards including training requirements, as verified by a valid contract in the Agency Contracts Database.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

Contract Reports: C.a.1; C.c.2; and C.c.3:

The results of the annual report comparing claims data against the ACD are shared with the regions for immediate follow up. Providers without a valid contract or the necessary training requirements are reviewed to determine the appropriate course of contract action. Services are terminated for those without valid contracts.

QCC Waiver File Reviews: C.b.1:

Individual findings are expected to be corrected within 90 days. Regional management and QCC are available to provide individualized support and assistance with these corrections. QCC staff monitors to ensure corrections occur.

Next, findings are analyzed by DDA management. Based on the analyses, additional necessary steps are taken. For example:

- Annual staff Waiver Training curriculum is developed and/or modified.
- Policies are clarified.
- Personnel issues are identified and addressed.
- Form format and instructions are modified.
- Waiver administrative code (WAC) is revised.
- Regional processes are revised.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

| Responsible Party(<i>check each that applies</i>): | Frequency of data aggregation and analysis (<i>check each that applies</i>): |
|--|---|
| <input type="checkbox"/> State Medicaid Agency | <input type="checkbox"/> Weekly |

| | <input type="checkbox"/> Continuously and Ongoing |
| | <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div> |

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. Additional Limits on Amount of Waiver Services. Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (*select one*).

☐ **Not applicable**- The state does not impose a limit on the amount of waiver services except as provided in Appendix C-3.

☒ **Applicable** - The state imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (*check each that applies*)

☐ **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.
Furnish the information specified above.

☐ **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.

Furnish the information specified above.

| |
|--|
| |
|--|

- ☒ **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.

Furnish the information specified above.

a.) The limits apply to all waiver services except stabilization services and risk assessments. State reviewed expenditure data for the state-funded IFS program prior to submitting the original IFS waiver application in 2015. Benefit levels for the IFS waiver were derived from the State-only funded IFS Program and were established as directed by the State Legislature to mirror the State-only IFS Program benefit levels. CMS 372 Annual Per Capita (APC) expenditures for waiver services were \$954 for 2015-2016, \$1,006 for 2016-2017 and \$1,047 for 2017-2018 (Draft CMS 372) demonstrate that these benefit levels are sufficient to assure the health and welfare of the target population post entrance to the waiver. State will reevaluate benefit levels during the five year waiver cycle based on annual CMS 372 APC data and propose changes as necessary to the Washington Legislature and to CMS.

b.) The IFS limits are determined based on an assessment of need. The annual allocations are:

- Level 1 - \$1,560;
- Level 2 - \$2,340;
- Level 3 - \$3,120;
- Level 4 - \$4,680.

Historically the limits have been based upon funding provided by the Legislature and extensive data indicating a high relationship between assessed need, funding level and avoidance of out-of-home placement. Individuals with needs that exceed IFS funding levels have historically been placed on one of DDA's other HCBS waivers (ie., Basic Plus, Core, Community Protection, Children's Intensive In-Home Behavioral Support-CIIBS.)

The allocation of funding is based upon the DDA individual and family services assessment, which is an algorithm in the DDA assessment that determines the individual award level using the assessed support levels from:

The purpose of the individual and family services assessment is to determine your individual and family services level and score using your assessed support levels from:

- (1) The DDA protective supervision acuity scale;
- (2) The DDA caregiver status acuity scale;
- (3) The DDA behavioral acuity scale;
- (4) The DDA medical acuity scale; and
- (5) The DDA activities of daily living (ADL) acuity scale.

The IFS services level is determined according to the following table:

(1) DDA determines your individual and family services level using the following table:

If your protective supervision support level is: And your primary caregiver risk level is: And your backup caregiver risk score is: And your behavioral acuity level is: Then your unadjusted individual and family services level is:

Table 1

| If the protective supervision support level is: | And the primary caregiver risk level is: | And the backup caregiver risk score is: | And the behavioral acuity level is: | Then the adjusted individual and family services level is: |

(2) DDA adds one level to the individual and family services level when the individual and family services level is determined to be:

(a) Level one, two, three, or four; and

Continued at Main. B Optional

Other Type of Limit. The state employs another type of limit.

Describe the limit and furnish the information specified above.

Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.
2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

Washington State assessed and verified that the settings proposed for this waiver are settings that are home and community-based as defined at 42 CFR 441.301(c)(4). No excluded settings are included in the IFS waiver settings.

Washington State will ensure that all settings, including any future new settings, will continue to comport with the HCBS settings regulations by a comprehensive system of settings reviews and HCBS settings compliance verifications including but not limited to:

(1) waiver file review – performance measure C.b.1 The percentage of waiver files reviewed for which all authorized providers met DDA and HCBS settings standards. N = All files reviewed for which 100% of authorized providers met contract and HCBS settings standards. D = All files reviewed for compliance with contract and HCBS settings standards;

(2) annual on-site reviews of the following settings: (a) In-home – case resource managers visit these settings annually; (b) Community healthcare providers – annual quality assurance monitoring cycle; (c) Dental providers – annual quality assurance monitoring cycle; (d) Specialized psychiatric services – annual quality assurance monitoring cycle; (e) Positive behavior support and consultation – annual quality assurance monitoring cycle; (f) Community crisis stabilization services – annual quality assurance monitoring cycle; (g) Vehicle modification providers – annual quality assurance monitoring cycle; (h) Adult day services – reviewed by Area Agencies on Aging; (i) Adult residential treatment facility – reviewed by Department of Health as part of licensure process;

(3) annual or biannual on-site reviews of the following settings as part of the licensure process: (a) Adult family home – Residential Care Services, Department of Social and Health Services; (b) Adult residential care facility – Residential Care Services, Department of Social and Health Services;

(4) biannual on-site reviews of the following settings as part of the certification process: (a) group home – Residential Care Services, Department of Social and Health Services;

(5) Every three year review of the following settings by regional DDA staff at the time of contract renewal: (a) transportation providers; (b) environmental adaptations providers; (c) specialized clothing providers; (d) Staff/family consultation and training providers; (e) skilled nursing providers; (f) assistive technology providers; (g) peer mentoring providers; (h) person-centered planning facilitation providers; (i) supported parenting providers; (j) community engagement providers; (k) senior centers; (l) child day care centers; (m) community centers; (n) summer programs; (o) parks and recreation programs;

(6) Every three year on-site review as part of the licensing process by the Division of Licensed Resources, Department of Children, Youth and Families of the following settings: (a) licensed staffed residential; (b) child foster care; and (c) child group care facilities.

(6) DDA reviewed the requirements for HCBS settings and identified all IFS waiver settings as fully complying with the HCBS requirements. DDA's review included an analysis of state laws, rules, policies, processes, and forms/tools in relation to the new federal HCBS requirements.

DDA reviewed and documented that the following IFS waiver service settings are compliant with HCBS settings rules:

- In home – all IFS waiver participant live in their own private homes
- Behavioral Health Stabilization Services - Crisis Diversion Bed Services
- Community healthcare providers – provided in provider's office
- Dental providers – provided in provider's office in a typical community setting site - see additional documentation at the end of this section
- Specialized psychiatric services – provided in provider's office in a typical community setting
- Positive behavior support and consultation – provided in home or in provider's office in a typical community setting
- Vehicle modification providers – provided in provider's shop in a typical community setting
- Transportation providers – provided in the community

Based on an analysis of state laws, rules, policies, processes, and forms/tools in relation to the new federal HCBS requirements, DDA also verified that the following additional IFS waiver service settings are also fully compliant with HCBS setting rules:

- Environmental adaptations – provided in home
- Specialized clothing – provided in the community
- Staff/family consultation and training – provided in provider's office in a typical community setting
- Skilled nursing – provided in home
- Assistive technology – provided in home and in provider's office in a typical community setting
- Peer mentoring – provided in home and in the community

- Person-centered planning facilitation – provided in home
- Supported parenting service – provided in home and in provider's office in a typical community setting
- Community engagement – provided in the community

Respite care settings

- Respite - provided in the community in the following integrated settings: In-home, senior center, child day care center, community center, child care center
- Respite - provided in the following settings determined to be compliant with HCB setting requirements: group home, licensed staffed residential program, adult day services, child foster care and child group care facilities
- Respite - provided in settings that with changes will fully comply with HCB setting requirements: Adult family home, adult residential care facility
- Respite - provided in a setting that may require changes to fully comply with HCB setting requirements: Adult residential treatment facility
- Respite - provided in settings that may be segregated: Summer program, parks and recreation program

(7) DDA will periodically review services under the IFS Waiver to ensure that home and community-based setting requirements continue to be met. The results of those reviews will be shared with the Medicaid Agency Management Committee which includes representatives from the Health Care Authority (the single State Medicaid Agency).

The following settings are reviewed annually:

- In home – case resource managers visit these settings annually.
- Behavioral Health Stabilization Services - Crisis Diversion Bed Services
- Stabilization Services - Crisis Diversion Bed
- Community healthcare providers – annual Quality Assurance monitoring cycle.
- Dental providers – annual Quality Assurance monitoring cycle.
- Specialized psychiatric services – annual Quality Assurance monitoring cycle.
- Positive behavior support and consultation – annual Quality Assurance monitoring cycle.
- Vehicle modification providers – annual Quality Assurance monitoring cycle.
- Adult day services (by Area Agencies on Aging)
- Adult residential treatment facility (by the Department of Health as part of licensure)

The following settings are reviewed annually or every two years as part of the licensure process:

- Adult family home (two years, Department of Social and Health Services)
- Adult residential care facility (two years, Department of Social and Health Services)
- Adult residential treatment facility (annually, Department of Health)

The following settings are reviewed at least every two years by Residential Care Services as part of the certification process:

- Group Home

The following settings are reviewed at least every three years by regional staff at the time of contract renewal:

- Transportation providers
- Environmental adaptations
- Specialized clothing
- Staff/family consultation
- Skilled nursing
- Assistive technology
- Peer mentoring
- Person-centered planning facilitation
- Supported parenting service
- Community engagement
- Senior centers
- Child day care center
- Community centers
- Child care centers
- Summer programs
- Parks and recreation programs

The following settings are reviewed as part of the licensing process at least every three years by the Division of Licensed Resources (DLR) staff of the Department of Children, Youth and Families:

- Licensed Staffed Residential
- Child Foster Care
- Child Group Care Facilities

When non-compliant settings are found, the State utilizes one or more of the following processes to remediate the situation: 1) for licensed and certified providers, State may utilize the license/certification remediation process specified in rule (WAC 388-101-3160); 2) for all state-contracted providers, State may use contractual remediation steps contained in contractual agreements between the State and service providers; 3) for county contracted providers, counties may use contractual remediation steps contained in contractual agreements between the county and service providers; and 4) for residential, employment and day program providers, State may utilize technical assistance resources to consult with and bring non-compliant settings into compliance.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Person-Centered Service Plan

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (*select each that applies*):

- ☐ Registered nurse, licensed to practice in the state
- ☐ Licensed practical or vocational nurse, acting within the scope of practice under state law
- ☐ Licensed physician (M.D. or D.O)
- ☐ Case Manager (qualifications specified in Appendix C-1/C-3)
- ☒ Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

Regional DDA Case/Resource Managers and Regional DDA Social Service Specialists are responsible for development of the person-centered service plan (PCSP). In addition to meeting the following minimum qualifications, staff must pass a background check prior to being hired and receive mandatory waiver training prior to completing any evaluations.

DDA Case/Resource Manager

Minimum Qualifications:

A Bachelor's degree in social sciences, social services, human services, behavioral sciences or an allied field and two years of experience providing social services to people with developmental disabilities. Graduate training in social science, social services, human services, behavioral sciences or an allied field will substitute, year for year, for one year of the experience providing social services to people with developmental disabilities.

- ☒ Social Worker

Specify qualifications:

Social Service Specialist

Minimum Qualifications

A Master's degree in social services, human services, behavioral sciences, or an allied field and two year of paid social service experience.

OR

A Bachelor's degree in social services, human services, behavioral sciences, or an allied field and three years of social service experience.

- ☐ Other

Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. *Select one:*

- ☒ Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.
- ☐ Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

Approximately 60 days prior to the Person-Centered Service Plan (PCSP) meeting, the Case Resource Manager(CRM)/Social Service Specialist contacts the individual and his/her/their representative by phone and letter. To aid them in their assessment planning and scheduling, case resource managers and their supervisors run monthly caseload reports that show each individual's next PCSP date.

During the phone conversation the CRM/Social Service Specialist describes the Person-Centered Service Plan process. The CRM/Social Service Specialist also confirms who the participant wants present at their person-centered planning meeting and whether anyone participating will be acting as their representative, if they choose to have a representative. In addition, the individual is asked where and when they would like the PCSP meeting to be held. Support is provided as needed to ensure the service plan development process is driven by the waiver participant.

Participants are not required to have a representative to participate in any waiver. Participants are not and will not be denied entry into a waiver or disenrolled from a waiver if the individual does not have a representative or does not agree to have a representative.

The letter the CRM/Social Service Specialist sends serves to confirm the date, time and location of the meeting and includes the DDA HCBS Waiver Brochure. The DDA HCBS Waiver Brochure includes information about waiver services, eligibility criteria and administrative hearing rights. The CRM/Social Service Specialist also extends invitations by phone and/or letter to individuals who the waiver participant has asked to participate in the PCSP process. In addition, the waiver participant is provided access to person centered planning tools that they can review and use prior to the meeting. Support is available to assist the individual to review and/or use those tools.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b)

the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

Sixty days prior to the due date for the participant's annual re-assessment, the Case/Resource Manager or Social Services Specialist mails a notice to the waiver participant informing them that they will be contacted by phone to schedule the re-assessment at a time and place convenient to the waiver participant. If the participant receives a DDA-paid service in their home and the DDA assessment is not administered in the home, DDA will conduct a follow-up home visit to ensure that the participant's person-centered service plan can be safely implemented in their residential environment.

The Person-centered Service Plan (PCSP) is the planning document produced for all clients receiving paid services, including waiver participants. The Person-Centered Service Plan reflects the services and supports that are important for the individual to meet their assessed needs and also what is important to the individual with regard to preferences for service and support delivery.

The DDA Assessment provides:

- An integrated, comprehensive tool to measure support needs for adults and children.
- A work process to support case management services because the system:
 - o Identifies the level of support needed by a client;
 - o Indicates whether a service level assessment is needed; and
 - o Documents the paid and unpaid services the waiver participant will receive.
- Detailed information regarding client needs in many life domains. This allows case resource managers to make more effective service referrals.
 - Documentation of health and welfare needs which are automatically populated in the PCSP as needs that must be addressed.
 - Documentation of risk factors and measures in place to minimize them, including emergency plans and strategies when needed.
 - Clearer information for executive management and legislators on the overall needs of people with developmental disabilities.
 - A nationally normed assessment for adults developed by the AAIDD.
 - A mechanism to identify and record the individual's personal goals.

(a) Who develops the plan, who participates in the process, and the timing of the plan.

- The individual waiver participant directs the overall process of PCSP development.
- Development of the Person-Centered Service Plan (PCSP) is facilitated by the DDA Case Resource Manager (CRM)/Social Service Specialist.
 - Participants or contributors to the plan in addition to the individual and the individual's representative may consist of anyone else the individual would like to have participate or contribute (family, friends, providers, etc.)
 - The PCSP is completed at least once every 12 months. Planning for the PCSP begins 60 days in advance of the due date.

(b) The types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status.

- The DDA Assessment which is administered by the DDA CRM/Social Service Specialist provides the internal assessment and contains the following modules which assess for participant needs, preferences, goals and health status.
 1. The Support Assessment module contains:
 - a. The Supports Intensity Scale Assessment (which includes the ICF/IID Level of Care for individuals age 16 and above);
 - b. ICF/IID Level of Care Assessment for individual age 15 and under;
 - c. Protective Supervision Scale;
 - d. Caregiver Status Scale;
 - e. Current Services Scale;
 - f. SIS Behavior Scale; and
 - g. SIS Medical Scale.
 2. The Service Level Assessment module contains:
 - a. Personal Care assessment;

- b. Personal goals;
- c. Employment Support Assessment;
- d. Sleep Assessment;
- e. Mental Health Assessment;
- f. Equipment;
- g. Medication Management;
- h. Medication; and
- i. Seizure & allergies.

3. The Person-Centered Service Plan module contains the following tools:

- a. Service Summary;
- b. Support Needs;
- c. Finalize Plan;
- d. Environmental Plan;
- e. Equipment;
- f. DDA Referral;
- g. Plan review;
- h. Individual and Family Service Calculator;
- i. Supported Living Rate Calculator; and
- j. Foster Care Rate Assessment Calculator.

4. The Supports Intensity Scale (SIS) Assessment contains the following scales:

- a. Support needs;
- b. Supplemental protection and advocacy;
- c. Exceptional medical support needs; and
- d. Exceptional behavioral support needs.

- DDA also uses external assessments as a part of the PCSP process. Examples of external assessments include; nursing evaluations, PT/OT reports, psychological evaluations, person-centered planning tools, etc.

(c) How the participant is informed of the services and supports that are available under the waiver and the array of service and support providers.

Participants are informed of services available under the Waiver by:

1. The DDA HCBS Waiver Brochure which is enclosed with the letter confirming the PCSP meeting. The letter and brochure are sent approximately 60 days prior to the PCSP meeting. The DDA HCBS Waiver Brochure identifies waiver services.
2. During the course of the PCSP meeting service options and service providers are discussed and described. Alternative home and community-based settings considered by the participant are documented.
3. Washington Administrative Code (WAC) fully defines services available under the waiver and is made available upon request and via the DDA internet Website.

(d) The plan development process ensures that the service plan addresses participant goals, needs (including health care needs), strengths and preferences.

- Participant goals:
 - o There is a screen in the DDA assessment that requires the documentation of participant goals, if those goals are shared with the CRM/Social Service Specialist.
- Participant clinical and support needs (including health care needs):
 - o Health and welfare needs are identified throughout the course of the assessment on multiple screens (please see section b above). Health and welfare needs are also identified by additional documentation submitted as part of the PCSP process (i.e. medical reports).
- Preferences:
 - o Participant preferences are identified throughout the assessment and planning process. These are documented in the body of the assessment and in the PCSP. The PCSP documents that the setting in which the participant

resides was chosen by the participant.

(e) How Waiver and other services are coordinated:

Waiver and other paid and non-paid services are coordinated by the CRM/Social Service Specialist.

- Services identified to meet health and welfare needs are documented in the PCSP.
- Providers receive a copy of the PCSP. This assists them to not only understand their role in the individual's life but also the supports others are giving.
- The CRM/Social Service Specialist monitors the PCSP to ensure health and welfare needs are being addressed as planned.

(f) How the plan development process provides for the assignment of responsibilities to implement and monitor the plan and prevent the provision of unnecessary or inappropriate services and supports.

- The assessment identifies health and welfare needs.
 - o The identified needs populate the PCSP.
 - Business rules require each identified need to be addressed by a waiver, non-waiver, and/or non-paid service.
 - o When an identified need requires a Waiver funded service the CRM/Social Service Specialist is required to identify the specific provider and the service type that will address this need.
 - The CRM/Social Service Specialist is required to provide sufficient documentation to allow the provider and the participant to know what the provider responsibilities are.
 - o When an identified need is addressed by a non-paid service, the CRM/Social Service Specialist identifies the responsible party in the PCSP.
 - o When a provider or service to address specific needs has not been identified, the plan reflects the steps in place to identify either the service or the provider.
 - Whenever the service or provider is identified the PCSP is amended to reflect the updated plan.
- The CRM/Social Service Specialist provides oversight and monitoring of the PCSP, including both paid and non-paid services.

(g) PCSP is finalized and agreed to with the informed consent of the participant in writing and signed by all the individuals and providers responsible for its implementation. Finalized plan is distributed to the participant and other people involved in the PCSP.

(h) How and when the plan is updated, including when the participant's needs change.

- An individual may request a review of his/her/their PCSP at any time by calling his/her/their case resource manager. If there is a significant change in conditions or circumstances, DDA must reassess the plan and amend the plan to reflect any significant changes. This reassessment does not affect the end date of the annual PCSP.
- Updates or amendments to the currently effective version of the Person-Centered Service Plan (PCSP) are tracked in the system.
 - o When a Service Level Assessment is moved from Pending to Current status, the PCSP version attached to that assessment will lock (so a record is kept of the version that the client/representative has signed off on).
 - o Amendments do not change the Plan Effective date.
- Each subsequent change to the PCSP is saved. There are two types of amendments: those that require a new Service Level Assessment and those that do not. Examples are:

PCSP amendment With new assessment

- o Change in status of client in key domain (behavior, medical, caregiver, ADL, etc.)
- o Change of provider for residential service (the individual's residence changes)
- o Change in a paid service

PCSP amendment without new assessment

- o Change in demographic information only.

o Change in the assistance available.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

- e. Risk Assessment and Mitigation.** Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

Risk Assessment and Mitigation occurs via the DDA Assessment and PCSP. The DDA assessment takes a comprehensive approach to assessing for risk and provides a mechanism for allowing the case resource manager and the individual to identify risks and develop a strategy to mitigate identified risk.

Health, welfare and safety needs are evaluated throughout the Support Assessment and Service Level Assessment modules in the DDA Assessment. They are then addressed in planning via formal referrals, authorized paid DDA Services and other documented support activities in the PCSP.

The DDA Assessment evaluates risk by assessing for the following:

- Unstable/potentially unstable diagnosis
- Caregiver training required
- Medication regimen affecting plan
- Immobility issues affecting plan
- Nutritional status affecting plan
- Current or potential skin problems
- Skin Observation Protocol
- Alcohol/Substance Abuse
- Depression
- Suicide
- Pain
- Mental Health
- Legal
- Environmental
- Financial
- Community Protection
 - o Community Protection criteria have been developed to identify clients not already on the Community Protection waiver, but who are exhibiting some extreme behaviors that could pose a public safety threat.

When risk areas are identified they populate a referral screen in the PCSP. The CRM/Social Service Specialist documents the plan/response to each item that populates the referral screen.

Emergency planning is an required component of the PCSP. Back up caregivers and emergency contacts are identified during the waiver participant's assessment and can be updated at any time. Back up and emergency plans are required in WAC for all residential providers. Arrangements for back-up plans vary from individual to individual. In some situations a back-up plan may be a family member. In others, a back up plan may include a paid provider stepping in to assure health and welfare needs are addressed during times of crisis.

WAC 388-828-1640

What are the mandatory panels in your DDA assessment?

After DDA has determined your client group, DDA determines the mandatory panels in your DDA assessment using the following tables. An "X" indicates that the panel is mandatory; an "O" indicates the panel is optional. If it is blank, the panel is not used.

(1) DDA "Assessment main" and client details information

| DDA Assessment Panel Name | Client Group | | | |
|---------------------------|------------------|------------------|---------------|---------------|
| | Waiver and State | Other Medicaid | State Only | |
| | No Paid Services | Only Residential | Paid Services | Paid Services |
| Assessment Main | X | X | X | X |
| Demographics | X | X | X | X |
| Overview | X | X | X | X |
| Addresses | X | X | X | X |
| Collateral Contacts | X | X | X | X |
| Financials | X | X | X | X |

(2) Supports intensity scale assessment

| DDA Assessment Panel Name | Client Group | | | | Paid Services |
|---------------------------|------------------|------------------|---------------|---------------|---------------|
| | Waiver and State | Other Medicaid | State Only | | |
| | No Paid Services | Only Residential | Paid Services | Paid Services | |
| Home Living | X | X | X | X | |
| Community Living | X | X | X | X | |
| Lifelong Learning | X | X | X | X | |

(a) The "Employment Support" panel is mandatory only for clients age twenty-one and older who are on or being considered for one of the county services listed in WAC 388-828-1440(2).

(b) The "DDA Sleep" panel is mandatory only for clients who are age eighteen or older and who are receiving:

- (i) DDA HCBS Core or Community Protection waiver services; or
- (ii) State-Only residential services.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

Participants are given free choice of all qualified/approved providers of each service approved in his/her/their plan. During the course of the PCSP process the participant is advised she/he/they have a choice of providers. The assessment meeting includes an Assessment Wrap-up checklist that the client and/or her/his/their representative signs. One of the items on the checklist is a statement verifying that the individual understands that she/he/they has a choice of and can change provider(s). Also, at the time of the annual person-centered service plan (PCSP) update, participants have an opportunity to select alternative providers. Waiver participants can also select alternative providers at any time by requesting an update of their PCSP.

The Case Resource Manager (CRM)/Social Service Specialist will provide information to access appropriate referral registries, contract database list and/or websites to facilitate access to provider lists and assist with the contracting process.

In-home Respite:

All client's can contact the Home Care Referral Registry to access an individual respite provider. DDA provides client's the contact information to the Referral registry or information can be accessed from the internet Home Care Referral Registry website @<http://www.hcrr.wa.gov/>

- The Home Care Referral Registry is maintained by the Home Care Quality Authority. The Registry provides information about available Individual providers (IPs) in a geographic areas who are interested in being interviewed for potential hire.
- DDA provides lists of agencies contracted to provide in-home services and families choosing an agency, work with agency staff to select individuals to work in their homes.
- Other Provider types
 - o Lists of provider of specific services can be generated out of the Agency Contracts Data Base (ACD) maintained by DSHS. Provider recruitment is ongoing and contract referrals are accepted on a continual basis.
 - o The ALTSA Internet page maintains provider lists for Adult Family Home and Adult Residential Care Facilities.
 - o The DDA Internet page maintains a supported living provider locator.
 - o Contractors for Environmental Adaptations are listed by Labor & Industries, along with information about their licenses and any actions taken against them. Families may choose from this broad list of contractors and refer them to DDA for contracting. DDA also maintains a list of contractors.
 - o ProviderOne maintains an online search engine open to the public for providers of therapy, counseling, and other services.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

- g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

The Developmental Disabilities Administration (DDA) operates a number of quality assurance (QA) processes that ensures that person-centered individual service plans meet the needs of waiver participants. At the end of each QA review cycle, a final report is generated which includes detailed data on a statewide level. These results are analyzed and incorporated into a statewide quality improvement plan. The State Medicaid Agency receives annual QA review reports and meets with the operating agency at the conclusion of the QA cycle to review results and provide input into the quality improvement plan. The quality improvement plan is then reviewed and approved for implementation by DDA executive management. This is part of a total Quality Improvement Strategy (QIS), which includes surveys, file reviews, performance measures, ternary evaluations of performance measures, and staff training.

More detail on QA processes as they relate to the individual support plan is provided below.

The mechanism for ongoing oversight of waiver operation by the Single State Medicaid Agency is the Medicaid Agency Waiver Management Committee, which includes representatives from administrations and divisions within the operating agency, Home and Community Services and Residential Care Services, which are divisions within the operating agency, as well as the Developmental Disabilities Administration (DDA) and the Behavioral Health Administration (BHA). The Committee meets at least quarterly to review all functions delegated to the operating agency, current quality assurance activity, pending waiver activity (e.g. amendments, renewals, etc.), potential waiver policy and rule changes and quality improvement activities.

The Developmental Disabilities Administration is an administration within the Department of Social and Health Services (DSHS), which is the operating agency. The individual Case Resource Manager/Social Service Specialist is an employee of DDA. DDA determines client eligibility and requires the use of the administration's electronic assessment and service planning tool. DDA Case Resource Managers/Social Service Specialists directly authorize all initial service plans and supervisors conduct quality assurance activities on service plans. DDA has direct electronic access to all service plans.

DDA has a comprehensive monitoring process to oversee the planning process and the person-centered service plan (PCSP). In addition, DDA participates in the National Core Indicators Survey and initiates a PCSP survey. Data is gathered and analyzed and necessary steps are taken to correct areas of concern.

DDA monitoring process:

The DDA Quality Compliance Coordinator(QCC) Team completes an annual review of randomly selected files across all waivers. The list for the QCC team review is generated to produce a random sample with a 95% confidence level with a margin of error a +/- 5. Included in the review are items concerning the person-centered planning process and content of the PCSP.

The findings from these reviews are collected in a database. All findings are expected to be corrected within 90 days. Corrections are monitored by the QCC Team. Findings are analyzed by DDA management. Based on the analysis necessary steps are taken, such as:

- Annual Waiver Training curriculum is developed in part to address review findings.
- Policy clarifications are issued.
- Personnel issues are identified.
- The format of and instructions on forms are modified.
- Waiver WAC is revised to clarify rule.
- Regional processes are updated.

The National Core Indicators Survey:

Washington State's Developmental Disabilities Administration (DDA) participates in a national study that assesses performance and outcome indicators for state developmental disabilities service systems. This study allows the administration to compare it's performance to service systems in other states and within our state from year to year.

There are currently 46 performance and outcome indicators to be assessed covering the following domains:

- Consumer Outcomes
- System Performance
- Health, Welfare, & Rights
- Service Delivery System Strength & Stability

In addition, DDA has added some waiver specific questions to assist with assuring PCSPs are implemented as written and

that health and welfare needs are being addressed. Findings are analyzed by DDA management and shared with stakeholders. The Washington State Developmental Disabilities Council (DDC) participates in the survey process by analyzing results.

An Assessment meeting wrap-up form is given to each waiver participant at the conclusion of the PCSP planning meeting. This form gives participants an opportunity to respond to a series of questions about the PCSP process.

A PCSP Meeting survey is mailed to waiver participants within one month of the PCSP planning meeting. This survey gives participants an opportunity to respond to a series of questions about the PCSP process. The survey is mailed from Central Office based on a random sample representative of all waivers with a 95% confidence level with a margin of error of +/-5%. Information collected is analyzed annually by the Medicaid Agency Waiver Management Committee.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- ☐ Every three months or more frequently when necessary
- ☐ Every six months or more frequently when necessary
- ☒ Every twelve months or more frequently when necessary
- ☐ Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (*check each that applies*):

- ☐ Medicaid agency
- ☒ Operating agency
- ☒ Case manager
- ☒ Other

Specify:

Copies of the signed PCSP are kept in the client files which are maintained in the DDA regional offices. Electronic copies of the PCSP are maintained on the CARE platform.

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

The DDA Case/Resource Manager or Social Service Specialist's monitoring methods address: 1) services furnished in accordance with the service plan and participant access to waiver services identified in PCSP – Case/Resource Manager or Social Service Specialist verifies the services they authorize in accordance with the PCSP are actually delivered by on-site or remote monitoring with the waiver participant; reviews of progress reports from service providers; and reviews of additional assessment (e.g. IEPs, OT evaluations); 2) participants exercise free choice of provider – Case/Resource Manager or Social Service Specialist discuss provider options including on-line sources of provider information with participants during the annual reassessment and during the waiver year when a participant experiences provider turn over or when a participant asks for assistance with finding a new provider; 3) services meet participant's needs – Case/Resource Manager or Social Service Specialists ask participants if they believe their services are meeting their needs during monitoring visits and phone calls and during their annual reassessment; 4) effectiveness of back-up plans – Case/Resource Manager or Social Services Specialist review the participant's emergency plan with the participant during every reassessment and determine if all components are up to date and realistic; 5) participant health and welfare – Case/Resource Manager or Social Service Specialist monitor participant's health and welfare with scheduled in-person check ins and phone calls at intervals appropriate for participant's acuity, respond to any incident reports with appropriate follow-up actions and review all progress reports from positive behavior support and other direct service providers; 6) participant access to non-waiver services in PCSP, including health services – Case/Resource Manager or Social Service Specialist review and confirm that participants know how and are successfully accessing all needed services, including waiver, CFC, managed care health, mental health, and dental health with participants during monitoring in-person and phone visits. The State notes that the frequency of monitoring by Case/Resource Managers or Social Service Specialists is determined in part by risk factors identified in the annual assessment to assure health and welfare.

Problems identified by DDA Case/Resource Managers (CRMs) or Social Service Specialists (SSSs) are reported, responded to and remediated according to established agency best practices, Washington and federal rules and Washington state and federal law. Case/Resource Managers and Social Service Specialists are mandatory reporters who must report any suspected abuse, neglect, exploitation or abandonment of a participant according to agency policy, rule and state law. State operates an Incident Reporting Application to record, track and document remediation efforts for all types of incidents. Issues with providers may be addressed directly by CRMs/SSSs, staffed with supervisors or referred to contract specialists for resolution. When non-compliant settings are found, the State utilizes one or more of the following processes to remediate the situation: 1) for licensed and certified providers, State may utilize the license/certification remediation process specified in rule (WAC); 2) for all state-contracted providers, State may use contractual remediation steps contained in contractual agreements between the State and service providers; 3) for county contracted providers, counties may use contractual remediation steps contained in contractual agreements between the county and service providers; and 4) for residential, employment and day program providers, State may utilize technical assistance resources to consult with and bring non-compliant settings into compliance.

The regional DDA Case Resource Manager (CRM) or Social Service Specialist provides the primary oversight and monitoring of the PCSP. The DDA CRM or Social Service Specialist authorizes the Waiver Services identified as necessary to meet health and welfare needs in the PCSP. The DDA CRM or Social Service Specialist monitors service provision no less than two times per year by at least one face to face client visit and an additional contact with the waiver participant/legal representative which can be completed by telephone, e-mail or face to face. Continuous monitoring also occurs by contacting providers; reviewing progress reports submitted by providers and reviewing additional assessments (e.g. IEPs, psychological evaluations, Occupational Therapy evaluations etc.). If the DDA CRM or Social Service Specialist finds that the PCSP is not meeting the individual's needs the PCSP will be revised/amended. All monitoring is documented in either the Service Episode Record section of the electronic DDA Assessment or the Waiver Screen.

At the time of the annual review, the CRM/Social Service Specialist is required to review the effectiveness of last year's plan with the individual and/or their legal representative. This review is a required step before the DDA Assessment will allow the CRM to create a new assessment. All plans are expected to address emergency preparedness such as: back-up caregivers, evacuation plans, what to do in case of natural disaster etc. The plan review process provides an opportunity to review the effectiveness of these plans.

In addition to DDA CRM/Social Service Specialist monitoring activities, the following occur:

- A sample of waiver case files is reviewed by Quality Compliance Coordinators.
 - o Quality Compliance Coordinators review annually a statewide random sample of waiver files.
 - o Waiver case files are reviewed for the following evidence:
 - The PCSP was completed within 12 months.
 - The individual was given a choice between waiver services and institutional care.

- The individual meets the ICF/IID level of care standard.
- The individual meets disability criteria.
- The individual is financially eligible.
- Services have been authorized in accordance with the person-centered service plan.
- Waiver services or appropriate monitoring activities are occurring every month.
- All authorized services are reflected in the plan.
- All providers are qualified to provide the services for which they are authorized.
- The individual was given a choice of qualified providers.
- Appeal rights and procedures have been explained.

National Core Indicators Survey (NCI) face to face interviews:

Washington State's Developmental Disabilities Administration (DDA) participates in a national study that assesses performance and outcome indicators for state developmental disabilities service systems. This study allows the administration to compare its performance to service systems in other states and within our state from year to year.

Currently 46 performance and outcome indicators are assessed that cover the following domains:

- Consumer Outcomes
- System Performance
- Health, Welfare, & Rights
- Service Delivery System Strength & Stability

In addition, DDA has added waiver-specific questions to assist with assuring PCSPs are implemented as written and that health and welfare needs are being addressed.

Examples of waiver specific questions:

- If you need to change your child's services, do you know what to do?
- Do the services and supports offered on your Person-Centered Service Plan meet your child's and family's needs?
- Did you (did the waiver participant) receive information at your (his/her/their) person-centered service plan meeting about the services and supports that are available under the (his/her/their) waiver?

Findings are analyzed by DDA management and shared with stakeholders. The Washington State Developmental Disabilities Council (DDC) participates in the survey process by analyzing results.

Assessment Meeting Wrap-up and PCSP Survey:

An Assessment Meeting Wrap-up is given to each waiver participant at the conclusion of the PCSP planning meeting. The Wrap-up survey gives participants an opportunity to respond to a series of questions about the PCSP process. And after the assessment is finalized, Central Office sends an PCSP survey to a statistically-valid random sample of waiver participant with a return envelope to allow for an anonymous submission to Central Office.

Questions on the PCSP survey:

- Did you get to choose who came to your meeting?
- Did your Case Resource Manager discuss any concerns you have with your current services?
- Were your concerns addressed in your new person-centered service plan?
- Did you receive information about what services are available in your waiver to meet your assessed needs?
- Were you given a choice of services that are available in your waiver to meet your identified needs?
- Were you given a choice of service providers?
- Were your personal goals discussed in developing your plan?
- Do you feel like your health concerns are addressed to your satisfaction?
- Do you feel like your safety concerns are addressed adequately?
- Did you receive information regarding planning for emergencies, such as an earthquake or other natural disaster?
- Do you know who to contact if your needs change before the next assessment?
- Do you know you have a right to appeal decisions made by DDA?
- Did your case resource manager explain how to use your Planned Action Notice (PAN) to appeal a service decision in your support plan if you disagree with that decision?

Residential Care Services (RCS) certifies DDA residential providers and licenses adult family homes and boarding (group)homes, all of which are qualified providers of respite services.

- o These providers are evaluated at a minimum of every two years.
- o A component of the RCS evaluation process is a review of the PCSP to ensure the agency is implementing the plan as written.

b. Monitoring Safeguards. *Select one:*

- ☒ Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.
- ☐ Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

- a. Sub-assurance:** *Service plans address all participants assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

D.a.3. The number and percent of waiver participants' PCSPs with monthly waiver service provision or monitoring by the case resource manager during a break in services. N = Number of waiver participants' PCSPs with monthly waiver service provision or monitoring by the case resource manager during a break in service. D = All waiver participants' PCSPs reviewed.

- b. Sub-assurance: The State monitors service plan development in accordance with its policies and procedures.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

- c. Sub-assurance: Service plans are updated/revised at least annually or when warranted by changes in the waiver participants needs.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

D.c.1. The number and percent of annual waiver PCSPs that are completed before the end of the twelfth month following the initial PCSP or the last annual PCSP. N = The number of annual waiver PCSPs that are completed before the end of the twelfth month following the initial PCSP or the last annual PCSP. D = All waiver PCSPs due for annual review that were reviewed.

Data Source (Select one):

Record reviews, on-site

e. Sub-assurance: Participants are afforded choice: Between/among waiver services and providers.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

D.e.1. # & % of waiver participant records that contain annual assessment meeting wrap-up that verifies that waiver participant had a choice between/among waiver services & providers. N = # of wvr participant records that contain annual assessment meeting wrap-up that verifies that wvr participant had a choice between/among waiver services & providers. D = All waiver part records reviewed.

Data Source (Select one):

Record reviews, on-site

If 'Other' is selected, specify:

| Responsible Party for data collection/generation (check each that applies): | Frequency of data collection/generation (check each that applies): | Sampling Approach (check each that applies): |
|--|--|--|
| <input type="checkbox"/> State Medicaid Agency | <input type="checkbox"/> Weekly | <input type="checkbox"/> 100% Review |
| <input checked="" type="checkbox"/> Operating Agency | <input type="checkbox"/> Monthly | <input checked="" type="checkbox"/> Less than 100% Review |
| <input type="checkbox"/> Sub-State Entity | <input type="checkbox"/> Quarterly | <input checked="" type="checkbox"/> Representative Sample Confidence Interval = <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> 95% confidence level with a +/- 5% margin of error </div> |

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

QIPs for Performance Measures D.d.2, D.d.3 and D.e.1 are located at Main B. Optional

PM D.a.1, D.a.7 and D.c.3 are 100% annual reviews based on data from the CARE system that is analyzed by the Waiver Team and reviewed by DDA management. PM D.d.5 is an annual representative sample drawn from the Medicaid Service Verification Survey that is analyzed by the Waiver Team and reviewed by DDA management. D.a.3; D.a.4; D.c.1; D.d.1; D.d.2; D.d.3; D.d.4; D.e.1: The QCC Team completes an annual audit of randomly selected files across all DDA waivers. The list for the QCC Team audit is generated to produce a random sample representative of all waivers with a 95% confidence level with a +/-5% margin of error. The findings from these reviews are collected in a database. All findings are expected to be corrected within 90 days. Corrections are monitored by QCC Team members.

A valid sample is produced for the QCC audit. The remaining file review is strictly an additional measure to assist with ongoing quality assurance.

The audit protocol includes (among others) the following questions with a target of 100% compliance:

- Have all identified waiver funded services been provided within 90 days of the annual PCSP effective date?
- Is there a ProviderOne or Individual ProviderOne authorization for all Waiver funded services identified in the current PCSP that should have occurred in the three (3) months prior to this review?
- Are all the current services authorized in ProviderOne or Individual ProviderOne Screen identified in the PCSP?

(Authorizations are audited as a proxy for claims data. The ProviderOne and Individual ProviderOne electronically prevents a provider from claiming payment for an amount and rate higher than what is authorized.)

- Are the authorized service amounts equal or less than the amounts identified in the PCSP?
- Is the effective date of this year's annual PCSP no later than the last day of the 12th month of the previous annual PCSP effective date?
- Is there evidence that the Wrap-Up discussion occurred at the DDA annual or initial assessment?
- Is there a signed Voluntary Participation statement from the annual or initial assessment in the client file?

D.a.2: The DDA assessment allows for entry and addressing of personal goals. An annual report is generated at DDA Central Office and annually reviewed by DDA management to identify assessments with one or more personal goals to verify personal goals are acknowledged and addressed. Data are available in a computer-based system which provide 100% analysis of individual results.

D.a.5: An annual report is created and reviewed by DDA management to verify that emergency plans are documented in waiver participants' PCSPs.

D.a.6: DDA management annually compares data on response rates to NCI questions and responses from waiver year to waiver year. DDA constructs pie charts for questions and analyzes the outcome of the survey with the HCA Medicaid Agency Waiver Management Committee and stakeholders. DDA uses this information to assist with the development of the Waiver training curriculum as well as to develop needed policy changes.

D.c.1: Monthly reports are prepared and reviewed by DDA management for a review of the progress toward achieving 100% timely assessments of need. The data is analyzed by comparing the actual number of assessments completed on time to the regional monthly targets and to the assessments that were due. Regional Waiver Specialists review Assessment Activity Reports on a monthly basis and send information to case resource managers for follow-up to promote timeliness of assessments.

D.c.2: Person-Centered Service Plan Meeting Survey: A PCSP Meeting survey is mailed to waiver participants within one month of the PCSP planning meeting. This survey gives participants an opportunity to respond to a series of questions about the PCSP process. The survey is mailed from DDA Central Office based on a random sample representative of all waivers with a 95% confidence level and a +/-5% margin of error. Information collected is analyzed and reviewed by DDA management annually and by the HCA Medicaid Agency Waiver Management Committee.

Questions in the Person-Centered Service Plan Meeting Survey include:

- Did you get to choose who came to your meeting?
- Did you get to choose the time and place of your meeting?
- Were you given the opportunity to lead your meeting?
- Were your personal goals discussed in developing your plan?
- Were you given a choice of services?
- Did you choose where and how the services will be provided?
- Did your case resource manager review last year's plan and ask what supports you want to continue and what should change?
- Were any concerns you may have had addressed in your new plan?

- Did you receive information about resources and services available to meet your goals?
- Were you given a choice of providers?
- Were plans made to meet any health and safety concerns you may have had?
- Did you receive information regarding planning for emergencies, such as an earthquake or other natural disaster?
- Do you know who to contact if your needs change before your next assessment?

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

All results are reviewed by program managers on the QCC Team and by senior DDA management at least annually. Individual client issues discovered during annual reviews are corrected by CRMs and with oversight by the QCC Team. Systemic issues discovered in the course of annual reviews are brought by the QCC Team to senior DDA management for necessary policy, procedure or other corrective actions. In addition, the Washington State Developmental Disabilities Council (DDC) also participates in an annual review of QIS data analysis and remediation.

PM D.a.1, D.a.7 and D.c.3 are 100% reviews based on data from the CARE system. PM D.d.5 is a representative sample drawn from the Medicaid Service Verification Survey.

D.a.1, D.a.5, & D.c.3 – CARE data findings are analyzed by management, and based on the analysis necessary steps are taken to increase compliance. D.d.5 – Medicaid Service Verification Survey results are analyzed by management, and based on the analysis necessary steps are taken to increase compliance.

D.a.3; D.a.4; D.c.1; D.d.1; D.d.2; D.d.3; D.d.4; D.e.1: Waiver File Reviews (Annual QCC audit):

Findings from QCC Team and Supervisor file reviews are analyzed by management, and based on the analysis necessary steps are taken to increase compliance. For example:

- * Annual Waiver Training curriculum is developed in part to address audit findings.
- * Policy clarifications occur as a result of audit findings.
- * Analyses of findings assist regions to recognize personnel issues.
- * Analysis of audit finding may impact format and instructions on forms.
- * Analysis of findings has led to revision in Waiver WAC to clarify rule.
- * Analysis of findings has led regions to revise regional processes.

D.a.6: The National Core Indicators Survey:

Washington State's Developmental Disabilities Administration (DDA) participates in a national study that assesses performance and outcome indicators for state developmental disabilities service systems. This study allows the administration to compare its performance to service systems in other states and within our state from year to year.

There are currently 46 performance and outcome indicators to be assessed covering the following domains:

- * Consumer Outcomes
- * System Performance
- * Health, Welfare, & Rights
- * Service Delivery System Strength & Stability

In addition, DDA has added some waiver specific questions to assist with assuring PCSPs are implemented as written and that health and welfare needs are being addressed. Findings are analyzed by management and shared with stakeholders. The Washington State Developmental Disabilities Council (DDC) participates in the survey process both in visiting clients and analyzing results.

D.c.2: Person-Centered Service Plan Meeting Survey: DDA compares data on response rates to the Person-Centered Service Plan Meeting Survey and responses from waiver year to waiver year. DDA constructs pie charts for questions and analyzes the outcome of the survey with the HCA Medicaid Agency Waiver Management Committee and stakeholders. DDA uses this information to assist with the development of the Waiver training curriculum as well as to develop needed policy changes.

- * Annual Waiver Training curriculum is developed in part to address audit findings.
- * Policy clarifications occur as a result of audit findings.
- * Analysis of audit finding may impact format and instructions on forms.

D.d.5 State utilizes Medicaid Service Verification Survey as an additional tool to identify and correct issues with the waiver service delivery system.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

| Responsible Party(<i>check each that applies</i>): | Frequency of data aggregation and analysis (<i>check each that applies</i>): |
|--|---|
| <input type="checkbox"/> State Medicaid Agency | <input checked="" type="checkbox"/> Weekly |
| <input checked="" type="checkbox"/> Operating Agency | <input checked="" type="checkbox"/> Monthly |
| <input type="checkbox"/> Sub-State Entity | <input type="checkbox"/> Quarterly |

| Responsible Party(<i>check each that applies</i>): | Frequency of data aggregation and analysis (<i>check each that applies</i>): |
|--|--|
| <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 30px; width: 100%;"></div> | <input checked="" type="checkbox"/> Annually |
| | <input type="checkbox"/> Continuously and Ongoing |
| | <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 30px; width: 100%;"></div> |

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

☒ **No**

☐ **Yes**

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (*from Application Section 3, Components of the Waiver Request*):

☐ **Yes. This waiver provides participant direction opportunities.** Complete the remainder of the Appendix.

☒ **No. This waiver does not provide participant direction opportunities.** Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (*select one*):

☐ **Yes. The state requests that this waiver be considered for Independence Plus designation.**

☐ **No. Independence Plus designation is not requested.**

Answers provided in Appendix E-0 indicate that you do not need to submit Appendix E.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Waiver clients have rights under Medicaid law, state law (RCW) and state rules (WAC) to appeal any decision of DDA affecting eligibility, service, or choice of provider.

During the waiver application process, an individual receives the DDA HCBS Waiver Brochure (DSHS #22-605), which explains their administrative hearing rights. The CRM/Social Service Specialist discusses administrative hearing rights at the time of the initial and annual PCSP meeting, and Planned Action Notices (PAN) are attached to the PCSP when it is sent to the individual and their designee (the individual who has been designated to assist the client with understanding and exercising their administrative hearing rights) for signature. The PANs describe the service decisions made by DDA and contain information on how to request an administrative hearing to appeal DDA's decision.

When DDA makes a decision affecting eligibility, level of service or denial or termination of provider, a Planned Action Notice (PAN) must be sent within 5 working days of the decision. The notice is sent to the waiver participant and her/his/their designee. The PAN provides the effective date of the action, the reason and applicable WAC, appeal rights, and time lines for filing appeals. Individuals have up to 90 days to appeal a department decision. If an individual wishes to maintain services during the appeal process, they must ask for an administrative hearing within the ten-day notice period.

A client or representative may request an administrative hearing orally or in writing. Client appeals are heard and decided by Administrative Law Judges (ALJs) through an administrative hearing. Attorney representation is not required but is allowed. The client or their representative may present the client's case or have an attorney present the case. DSHS employees may not represent the client at an administrative hearing.

PANs are contained electronically in the DDA Assessment on the CARE platform. If the PAN was modified then a copy of the modified PAN is maintained in the waiver participant's file. Service Episode Records (SERs) document when a PAN was sent. SERs are contained electronically in the DDA Assessment on the CARE platform.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*

- ☒ **No. This Appendix does not apply**
☐ **Yes. The state operates an additional dispute resolution process**

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

a. Operation of Grievance/Complaint System. *Select one:*

- ☐ **No. This Appendix does not apply**
☒ **Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver**

b. Operational Responsibility. Specify the state agency that is responsible for the operation of the grievance/complaint system:

The Development Disabilities Administration (DDA) of the Department of Social and Health Services (DSHS) operates the grievance/complaint system.

- c. Description of System.** Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

DDA provides participants with administrative hearing rights and a complaints/grievance process. The Complaints/Grievance process is not a pre-requisite to an administrative hearing; rather this policy provides participants with an opportunity to address those issues that are not dealt with through the administrative hearing process. DDA policy 5.03 (Client Complaint/Grievances) clearly delineates those issues that may be addressed in this manner and those issues that should be addressed through processes such as the administrative hearing process. Participants are informed of both processes via brochures, DVDs, WAC, policy and their case resource manager.

DDA policy 5.03 provides waiver participants an opportunity to address problems outside the scope of the administrative hearing process. DDA has also collaborated with the Developmental Disabilities Council to produce a video to assist individuals and their representatives understand how to work with the department to resolve complaints/grievances.

POLICY

A. DDA staff will strive to address grievances/complaints at the lowest level possible. Complaints can be received and addressed at any level of the organization. However, the complaint will be referred back to the Case

Resource Manager/Social Service Specialist (CRM/SSS) for action unless the complainant specifically requests it not be.

B. Legal authorization from the client or her/his personal representative is required to share information with persons outside of DSHS unless otherwise authorized by law. Authorization from the client is not required when responding to correspondence assignments or inquiries from the Governor's Office as part of administration of DSHS programs.

C. Communication to complainants will be made in their primary language if needed.

D. DDA maintains a complaint tracking database to log and track complaints as specified in the Procedures section of this policy. DDA also tracks complaints in service episode records (SERs) in the CARE system.

PROCEDURES

A. The following procedures describe the handling of waiver participant complaints at four levels:

1. Case Resource Manager/Social Service Specialist Level;
2. Supervisor Level;
3. Regional Administrator (RA) Level; and
4. Central Office Level

B. Complaints concerning services in the DDA Residential Habilitation Centers (RHCs) and State Operated Living Alternatives (SOLA) will be directed to the Regional Administrator in the respective region.

C. Case Resource Manager(CRM)/Social Service Specialist (SSS) Level

1. CRMs and SSSs solve problems and resolve complaints as a daily part of their regular case management activities. This activity is documented in the client record as appropriate in SER's. The Complaint SER's code is used to identify complaints and any resolution to the complaints.

2. If the complainant does not feel that the complaint or problem has been resolved, and she/he/they wants to have the complaint reviewed by a supervisor, the CRM/SSS will give her/his/their supervisor's name and telephone number to the complainant.

D. Supervisor Level

1. Upon receipt of an unresolved complaint at the CRM/SSS level, the supervisor has ten (10) working days to resolve the issue. If the response will take longer than 10 working days, the supervisor makes an interim contact with the complainant and provides a reasonable estimated date of response.

2. If resolution is reached, the supervisor documents the outcome in the client record.

3. If the complainant still does not feel that the complaint/problem has been resolved, and she/he/they wants to have the complaint reviewed by the Regional Administrator (RA), the supervisor gives the RA's name and telephone number to the complainant. The supervisor also enters the complaint information in the automated DDA Complaint Tracking (CT) database.

E. Regional Administrator Level

1. Upon receipt of an unresolved complaint, the RA assigns a staff to investigate and resolve the issue within 10 working days. If the response will take longer than 10 working days, the RA or designee will make an interim contact with the complainant and give a reasonable estimated date of response.

2. If resolution is achieved, the assigned Regional staff:

a. Documents the outcome in the CT database and the client record; and

b. Notifies the complainant and all parties involved and document the notification in the client record.

3. If the matter is not resolved, and the complainant wants a review by DDA Central Office, the RA or designee documents the outcome in the CT database and gives the name and telephone number of the Chief, Office of Quality Assurance (OQA) to the complainant. The RA also notifies the OQA Chief by phone or email of the potential contact.

F. Central Office Level

1. Upon receipt of an unresolved complaint, the OQA Chief or designee ensures the complaint has been entered in the database and has ten (10) working days to investigate and resolve the issue.

If the response will take longer than ten (10) days, the OQA Chief makes an interim contact with the complainant and give a reasonable estimated date of response.

2. The OQA Chief documents the outcome in the CT database and notifies the complainant and all parties involved. The OQA Chief sends a written summary to the Region for inclusion in the client record.

G. Complaint Tracking (CT) Database

1. Entries in the CT database must include:

a. Date the complaint was received;

b. Name and phone number of person receiving the complaint;

c. Complainant name, contact number, and relationship to client;

d. Client name and identification number;

e. The specific complaint;

f. Who the complaint was assigned to;

g. Due date; and

h. Outcome.

2. The OQA reviews complaints entered in the CT database during its monitoring review cycle. Regional Quality Assurance Managers conduct periodic regional reviews of complaints and their status.

The following types of complaints are outside the scope of this policy as they are addressed through separate processes:

1. Allegations of abuse, neglect, exploitation, abandonment, financial exploitation of a child or vulnerable adult. These are directed immediately to Adult Protective Services (APS), the Complaint Resolution Unit (CRU), or Child Protective Services (CPS), as appropriate.

2. Client disputes about services that have been denied, reduced, suspended, or terminated. These are resolved through the administrative hearing procedure.

3. Client disputes about services that have been requested or authorized through an exception to rule (ETR) that have been denied, reduced, or terminated.

4. Complaints received from DSHS Constituent Services. These are handled according to the requirements of DSHS Administrative Policy 8.11, Complaint Resolution and Response Standards.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program. *Select one:*

☒ **Yes. The state operates a Critical Event or Incident Reporting and Management Process** (*complete Items b through e*)

☐ **No. This Appendix does not apply** (*do not complete Items b through e*)

If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Several state laws require Department of Social and Health Services (DSHS) employees, volunteers, and contractors to report suspected abandonment, abuse, neglect, exploitation, and financial exploitation of children and vulnerable adults:

- Chapter 26.44 RCW mandates the reporting of any suspected abuse or neglect of a child to either DSHS or law enforcement.
- Chapter 74.34 RCW mandates an immediate report to DSHS of suspected abuse, neglect, abandonment, or financial exploitation of a vulnerable adult. When there is suspected sexual or physical assault of a vulnerable adult, it must be reported to DSHS and to law enforcement.
- RCW 70.124.030 mandates the reporting of suspected abuse or neglect of state hospital patients.

Chapter 74.34 RCW divides reporters into two types: mandated and permissive. Per RCW 74.34.020, "Mandated reporter" is an employee of the department; law enforcement officer; social worker; professional school personnel; individual provider; an employee of a facility; an operator of a facility; an employee of a social service, welfare, mental health, adult day health, adult day care, home health, home care, or hospice agency; county coroner or medical examiner; Christian Science practitioner; or health care provider subject to chapter 18.130 RCW (Regulation of health professions-Uniform disciplinary act).

"Permissive reporter" means any person, including but not limited to, an employee of a financial institution, attorney, or volunteer in a facility or program providing services for vulnerable adults.

Under state law, volunteers at a facility or program providing services to vulnerable adults fall into the permissive category. However, in order for contractors, volunteers, interns, and work study students to work in regional Field Services offices, Residential Habilitation Centers (RHC), and State Operated Living Alternatives (SOLA), they must agree to follow mandatory reporting requirements.

The Developmental Disabilities Administration (DDA) requires all contracted residential providers to report a broader scope of serious and emergent incidents to the Administration per DDA Policy 6.12 (Residential Reporting Requirements). Serious and emergent incidents are reported to DDA via fax, telephone and e-mail.

More detail is provided below and is broken out by incidents concerning children, incidents concerning adults, and the incidents that must be reported and entered into DDA's Electronic Incident Reporting System.

Children

The State requires that "abuse" and "neglect" be reported for review and follow-up action by an appropriate authority.

Per RCW 26.44.020(1): "Abuse or neglect" means sexual abuse, sexual exploitation, or injury of a child by any person under circumstances which cause harm to the child's health, welfare, or safety, excluding conduct permitted under RCW 9A.16.100 (Use of force on children-Policy-Actions presumed unreasonable); or the negligent treatment or maltreatment of a child by a person responsible for or providing care to the child. An abused child is a child who has been subjected to child abuse or neglect as defined in this section.

Who must report instances of suspected child abuse and neglect and the timelines associated with reporting are contained in RCW 26.44.030 (Reports-Duty and authority to make-Duty of receiving agency....).

(1)(a) When any practitioner, county coroner or medical examiner, law enforcement officer, professional school personnel, registered or licensed nurse, social service counselor, psychologist, pharmacist, employee of the department of early learning, licensed or certified child care providers or their employees, employee of the department, juvenile probation officer, placement and liaison specialist, responsible living skills program staff, HOPE center staff, or state family and children's ombuds or any volunteer in the ombuds's office has reasonable cause to believe that a child has suffered abuse or neglect, he or she shall report such incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040 (Reports-Oral, written-Contents).

(b) When any person, in his or her official supervisory capacity with a nonprofit or for-profit organization, has reasonable cause to believe that a child has suffered abuse or neglect caused by a person over whom he or she regularly exercises supervisory authority, he or she shall report such incident, or cause a report to be made, to the proper law enforcement agency, provided that the person alleged to have caused the abuse or neglect is employed by, contracted by, or volunteers with the organization and coaches, trains, educates, or counsels a child or children or regularly has unsupervised access to a child or children as part of the employment, contract, or voluntary service. No one shall be required to report under this section when he or she obtains the information solely as a result of a privileged communication as provided in RCW 5.60.060 (Witnesses-Competency-Who is disqualified-Privileged communications).

Nothing in this subsection (1)(b) shall limit a person's duty to report under (a) of this subsection.

(c) The reporting requirement also applies to department of corrections personnel who, in the course of their employment, observe offenders or the children with whom the offenders are in contact. If, as a result of observations or information received in the course of his or her employment, any department of corrections personnel has reasonable cause to believe that a child has suffered abuse or neglect, he or she shall report the incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040.

(d) The reporting requirement shall also apply to any adult who has reasonable cause to believe that a child who resides with them, has suffered severe abuse, and is able or capable of making a report. For the purposes of this subsection, "severe abuse" means any of the following: Any single act of abuse that causes physical trauma of sufficient severity that, if left untreated, could cause death; any single act of sexual abuse that causes significant bleeding, deep bruising, or significant external or internal swelling; or more than one act of physical abuse, each of which causes bleeding, deep bruising, significant external or internal swelling, bone fracture, or unconsciousness.

(e) The reporting requirement also applies to guardians ad litem, including court-appointed special advocates, appointed under Titles 11, 13, and 26 RCW, who in the course of their representation of children in these actions have reasonable cause to believe a child has been abused or neglected.

(f) The reporting requirement in (a) of this subsection also applies to administrative and academic or athletic department employees, including student employees, of institutions of higher education, as defined in RCW 28B.10.016 (Colleges and universities generally-Definitions), and of private institutions of higher education.

(g) The report must be made at the first opportunity, but in no case longer than forty-eight hours after there is reasonable cause to believe that the child has suffered abuse or neglect. The report must include the identity of the accused if known.

(2) The reporting requirement of subsection (1) of this section does not apply to the discovery of abuse or neglect that occurred during childhood if it is discovered after the child has become an adult. However, if there is reasonable cause to believe other children are or may be at risk of abuse or neglect by the accused, the reporting requirement of subsection (1) of this section does apply.

(3) Any other person who has reasonable cause to believe that a child has suffered abuse or neglect may report such incident to the proper law enforcement agency or to the department of social and health services as provided in RCW 26.44.040.

(4) The department, upon receiving a report of an incident of alleged abuse or neglect pursuant to this chapter, involving a child who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means or who has been subjected to alleged sexual abuse, shall report such incident to the proper law enforcement agency. In emergency cases, where the child's welfare is endangered, the department shall notify the proper law enforcement agency within twenty-four hours after a report is received by the department. In all other cases, the department shall notify the law enforcement agency within seventy-two hours after a report is received by the department. If the department makes an oral report, a written report must also be made to the proper law enforcement agency within five days thereafter.

(5) Any law enforcement agency receiving a report of an incident of alleged abuse or neglect pursuant to this chapter, involving a child who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means, or who has been subjected to alleged sexual abuse, shall report such incident in writing as provided in RCW 26.44.040 to the proper county prosecutor or city attorney for appropriate action whenever the law enforcement agency's investigation reveals that a crime may have been committed. The law enforcement agency shall also notify the department of all reports received and the law enforcement agency's disposition of them. In emergency cases, where the child's welfare is endangered, the law enforcement agency shall notify the department within twenty-four hours. In all other cases, the law enforcement agency shall notify the department within seventy-two hours after a report is received by the law enforcement agency.

(6) Any county prosecutor or city attorney receiving a report under subsection (5) of this section shall notify the victim, any persons the victim requests, and the local office of the department, of the decision to charge or decline to charge a crime, within five days of making the decision.

Adults

The State requires the following types of critical events or incidents be immediately reported for review and follow-up action by an appropriate authority by authority pursuant to RCW 74.35, Abuse of Vulnerable Adults and DDA Policies 5.13, Protection from Abuse – Mandatory Reporting and Policy 12.01, Incident Reporting and Management for DDA Employees:

- Abandonment
- Abuse (including sexual, physical and mental)
- Exploitation
- Financial exploitation
- Improper use of restraint (including physical, mechanical or chemical restraint)
- Isolation
- Neglect
- Mistreatment
- Self-neglect

Types of Abuse under RCW 74.34.020 (Abuse of vulnerable adults-Definitions)

1. Abandonment means action or inaction by a person or entity with a duty of care for a vulnerable adult that leaves the vulnerable person without the means or ability to obtain necessary food, clothing, shelter, or health care.

2. Abuse means the willful action or inaction that inflicts injury, unreasonable confinement, intimidation, or punishment on a vulnerable adult. In instances of abuse of a vulnerable adult who is unable to express or demonstrate physical harm, pain, or mental anguish, the abuse is presumed to cause physical harm, pain, or mental anguish. Abuse includes sexual abuse, mental abuse, physical abuse, and personal exploitation of a vulnerable adult which have the following meanings:

(a) Sexual abuse means any form of nonconsensual sexual contact including, but not limited to, unwanted or inappropriate touching, rape, sodomy, sexual coercion, sexually explicit photographing, and sexual harassment. Sexual abuse also includes any sexual contact between a staff person, who is not also a resident or client, of a facility or a staff person of a program authorized under Chapter 71A.12 RCW, and a vulnerable adult living in that facility or receiving service from a program authorized under Chapter 71A.12 RCW, whether or not it is consensual.

(b) Physical abuse means the willful action of inflicting bodily injury or physical mistreatment. Physical abuse includes, but is not limited to: striking with or without an object, slapping, pinching, choking, kicking, shoving or prodding.

(c) Mental abuse means a willful verbal or nonverbal action that threatens, humiliates, harasses, coerces, intimidates, isolates, unreasonably confines, or punishes a vulnerable adult. Mental abuse may include ridiculing, yelling, or swearing.

(d) Personal exploitation means an act of forcing, compelling, or exerting undue influence over a vulnerable adult causing the vulnerable adult to act in a way that is inconsistent with relevant past behavior, or causing the vulnerable adult to perform services for the benefit of another.

(e) Improper use of restraint means the inappropriate use of chemical, physical, or mechanical restraints for convenience or discipline or in a manner that: (i) Is inconsistent with federal or state licensing or certification requirements for facilities, hospitals, or programs authorized under chapter 71A.12 RCW; (ii) is not medically authorized; or (iii) otherwise constitutes abuse under this section.

3. Financial exploitation means the illegal or improper use, control over, or withholding of the property, income, resources, or trust funds of the vulnerable adult by any person or entity for any person's or entity's profit or advantage other than for the vulnerable adult's profit or advantage. Financial exploitation includes, but it not limited to:

(a) The use of deception, intimidation, or undue influence by a person or entity in a position of trust or confidence with a vulnerable adult to obtain or use the property, income, resources, or trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult;

(b) The breach of a fiduciary duty, including, but not limited to, the misuse of a power of attorney, trust, or a guardianship appointment, that results in the unauthorized appropriation, sale, or transfer of the property, income, resources, or trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult; or

(c) Obtaining or using a vulnerable adult's property, income, resources, or trust funds without lawful authority, by a person or entity who knows or clearly should know that the vulnerable adult lacks the capacity to consent to the release or use of his or her property, income, resources, or trust funds.

4. Neglect means: (a) a pattern of conduct or inaction by a person or entity with a duty of care that fails to provide the goods and services that maintain physical or mental health of a vulnerable adult, or that fails to avoid or prevent physical or mental harm or pain to a vulnerable adult; or (b) an act or omission by a person or entity with a duty of care that demonstrates a serious disregard of consequences of such a magnitude as to constitute a clear and present danger to the vulnerable adult's health, welfare, or safety, including but not limited to conduct prohibited under RCW 9A.42.100.

5. Self-neglect means the failure of a vulnerable adult, not living in a facility, to provide for himself or herself the goods and services necessary for the vulnerable adult's physical or mental health, and the absence of which impairs or threatens the vulnerable adult's well-being. This definition may include a vulnerable adult who is receiving services through home health, hospice, or a home care agency, or an individual provider when the neglect is not a result of inaction by that agency or individual provider.

Referrals are received in any format used by the referent including email, phone calls, or postal mail and the referrals are then routed to the appropriate investigative body. Referrals for abuse, neglect, exploitation, or abandonment can be made directly to APS or the CRU through the use of the Regional APS intake line or the RCS Complaint Resolution Unit (CRU) toll-free number. The State also provides an End Harm hotline where any type of referral can be made and the referral is routed to the appropriate investigative entity.

Intake reports are first screened for the need for emergency response and the appropriate emergency responder is notified if indicated. Reports are then evaluated for jurisdiction for either Adult Protective Services or Complaint Resolution Unit, whether the intake will result in a full investigation and if so the time frames for the investigation. Reports are then prioritized and assigned for investigation as described in G 1-d.

Required reporting of allegations involving waiver participants: What, when and to whom:

RCW 74.34.035 Reports (excerpt):

- (1) When there is reasonable cause to believe that abandonment, abuse, financial exploitation, or neglect of a vulnerable adult has occurred, mandated reporters shall immediately report to the department.
- (2) When there is reason to suspect that sexual assault has occurred, mandated reporters shall immediately report to the appropriate law enforcement agency and to the department.
- (3) When there is reason to suspect that physical assault has occurred or there is reasonable cause to believe that an act has caused fear of imminent harm:
 - (a) Mandated reporters shall immediately report to the department; and
 - (b) Mandated reporters shall immediately report to the appropriate law enforcement agency, except as provided in subsection (4) of this section.
- (4) A mandated reporter is not required to report to a law enforcement agency, unless requested by the injured vulnerable adult or his or her or their legal representative or family member, an incident of physical assault between vulnerable adults that causes minor bodily injury and does not require more than basic first aid, unless:
 - (a) The injury appears on the back, face, head, neck, chest, breasts, groin, inner thigh, buttock, genital, or anal area;
 - (b) There is a fracture;
 - (c) There is a pattern of physical assault between the same vulnerable adults or involving the same vulnerable adults; or
 - (d) There is an attempt to choke a vulnerable adult.

DDA Electronic Incident Reporting System.

Per DDA Policy 12.01 (Incident Reporting and Management for DDA Employees), DDA staff are required to input Serious and Emergent incidents into an Electronic Incident Reporting System. Policy 12.01 applies to all DDA employees except employees of State Operated Living Alternatives (SOLA) programs and Community Crisis Stabilization Services (CCSS). For SOLA and CCSS incident reporting, DDA Policy 6.12 Incident Management and Reporting Requirements for Residential Service Providers governs reporting requirements. All DDA volunteers, interns, and work-study students are covered by DDA Policy 12.01.

DDA Policy 12.01 describes the process the Developmental Disabilities Administration (DDA) will use to protect, to the extent possible, the health, safety, and well-being of Administration clients, and to ensure that abandonment, abuse, exploitation, financial exploitation, neglect and self-neglect is reported, investigated, and resolved; and to ensure that procedures are in place to prevent abuse.

Incident types reported and tracked by DDA per Policy 12.01 include:

- Abuse
- Neglect
- Choking
- Client arrested with charges or pending charges for a violent crime
- Exploitation
- Improper use of restraint
- Criminal activity by a client
- Known criminal activity perpetrated by a DSHS employee, volunteer, licensee, or contractor
- Client-to-client abuse
- Abandonment
- Suspicious or unusual Death
- Death of client supported by RHC, SOLA or CCSS
- Death of a live-in care provider
- Suicide
- Suicide attempt
- Medication Errors
- Emergency Use of Restrictive Procedures
- Serious Injuries
- Community Protection client signs out of the program
- Client's provider or family declines to support client after a hospital or psychiatric discharge
- Criminal Activity
- Hospitalization following an injury of unknown origin
- Inpatient admission to a state or local psychiatric hospital
- Missing clients
- Mental Health Crisis
- Natural disaster

- Known media interest or litigation

Timelines established by DDA Policy 12.01 are:

ONE-HOUR PROTOCOL

A. One-hour protocol includes:

1. A phone call to DDA central office no more than one hour after becoming aware of an incident; and
2. An incident report no more than one working day after becoming aware of an incident.

B. A DDA employee must follow one-hour protocol if any of the following occur:

1. Alleged sexual abuse of a client by a DSHS employee, volunteer, licensee, or contractor;
2. Choking – client chokes on food, liquid, or object and requires physical intervention, regardless of outcome.

Examples of physical interventions include abdominal thrusts, suctioning and finger sweeps.

3. Client is missing from a CCSS, SOLA, or RHC (for all other missing clients, see one-day protocol incidents below);
4. Client is arrested with charges or pending charges for a violent crime.
5. Death of a client supported by an RHC, SOLA, or CCSS;

6. Hospitalization following an injury of unknown origin or suspected abuse or neglect;

7. Know media interest or litigation; Note: Know media interest or litigation must be reported to a Regional Administrator or Superintendent and Central Office within one hour. If the issue also meets other incident reporting criteria, follow up with an electronic incident report within one working day. Positive news stories do not require an electronic incident report.

8. Natural disaster or conditions threatening client safety or program operations;

9. Suicide;

10. A suicide attempt, which means a non-fatal, self-directed, potentially injurious behavior with an intent to die as a result of the behavior.

11. Suspicious or unusual death of a client (i.e. likely to result in investigation by law enforcement, APC, CPS, or RCS).

c. Participant Training and Education. Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

The Developmental Disabilities Administration (DDA) works with the Aging and Long-Term Support Administration (ALTSA), the Department of Children, Youth and Families (DCYF), and the DSHS Communications Division on education efforts for clients, families and providers associated with DSHS. Washington State has designated November as Vulnerable Adult Awareness Month.

DSHS also started an End Harm campaign a number of years ago. DDA participates in this campaign which is aimed at shedding light on abuse and educating the general public as well as DSHS staff and consumers. A statewide number (1-866-EndHarm) was implemented several years ago. Anyone can call this number to report any type of abuse or neglect against a vulnerable person 24 hours per day and 7 days per week. The End Harm toll free number is promoted via news releases, the internet, DDA's Assistant Secretary's Corner and ALTSA publications. Participants receive information at least annually during their annual assessment about how to report any type of abuse or neglect of a vulnerable adult or child. The End Harm number is identified on the Meeting Wrap up form that is reviewed at the end of each annual assessment.

All providers receive mandatory reporter training. Individual and AFH/ARC providers receive training via the Fundamentals of Caregiver training. DDA residential program employees receive training from their employer. In addition, residential programs post contact information to report abuse and neglect in the participant's home. Every DDA CRM/Social Service Specialist receives mandatory reporter/incident management training within their region. This training will be provided in each region at least once per quarter, with special emphasis and priority given to those field service employees you have recently joined the administration.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

Investigations of abuse, neglect, and exploitation of adults are conducted by two investigative bodies: Residential Care Services (RCS) and Adult Protective Services (APS). Investigations regarding children are conducted by Child Protective Services (CPS).

Residential Care Services: RCS has primary investigative responsibility for alleged reports of provider practice violations related to abuse, neglect, exploitation, and abandonment of vulnerable adults in all licensed and/or certified settings regulated by RCS.

RCS reviews provider systems to see if a failed practice contributed to any finding of abuse, neglect, abandonment, self-neglect, and financial exploitation. If failed provider practice is identified, RCS will issue a citation to the provider under the appropriate section of Certified Community Residential Services and Supports Chapter 388-101 WAC; Requirements for Providers of Residential Services and Supports Chapter 388-101D WAC; Adult Family Homes Chapter 388-76 WAC; Assisted Living Facility Licensing Chapter 388-78A WAC and Residential Habilitation Centers – Compliance Standards Chapter 388-111 WAC. The provider must submit and implement a corrective action plan, which is subject to on-site verification by RCS.

RCS documents their conclusion of their investigations in TIVA (Tracking Incidents for Vulnerable Adults). RCS sends the Statement of Deficiencies (the official written report document from RCS staff that identifies violations of statute(s) and/or regulations, failed facility practice(s) and relevant findings found during a complaint/incident investigation) to providers within 10 days and will document their conclusion of their investigations in TIVA within 15 days of the last day of data collection. For each allegation, the RCS investigators complete data entry into the RCS complaint investigation tracking systems and are required to record a data-qualifier in relation to the decision of the substantiated or unsubstantiated finding.

Those qualifiers are as follows for substantiated investigations:

- Federal deficiencies related to the allegation are cited
- State deficiencies related to the allegation are cited
- No deficiencies related to the allegation are cited, or
- Referral to appropriate agency

For “unsubstantiated” investigations, the following qualifiers are used:

- Allegation did not occur
- Lack of sufficient evidence
- Referral to appropriate agency

When a provider practice investigation is completed, RCS determines whether:

- The allegations are substantiated or unsubstantiated;
- The facility or provider failed to meet any of the regulatory requirements; and,
- The provider practice or procedure that contributed to the complaint has been changed to achieve and/or maintain compliance.

RCS utilizes a centralized statewide intake unit, the Complaint Resolution Unit (CRU), for the purpose of receiving reports of alleged abuse, neglect and financial exploitation for all licensed and certified Long Term Care residential providers. Referrals from the DDA incident reporting system, reports from the public and reports from mandated reporters are received and processed through this unit. RCS Field investigators receive prioritized referrals from the centralized intake unit and respond by conducting on-site investigations

RCS is centrally located in Olympia. RCS investigates licensed or certified residential providers. RCS prioritizes reports for investigation based upon the severity and immediacy of actual or potential harm. Complaint investigation response times are 2 days, 10 days, 20 days, 45 days, or 90 days and Quality Reviews. All of these categories require an on-site investigation, except for the Quality Review category. Any situation that involves imminent danger is reported to law enforcement immediately. Any report received from a public caller is assigned an on-site investigative response time.

Adult Protective Services: Under state authority, Adult Protective Services (APS) receives reports and conducts investigations of alleged abuse (physical, mental, sexual and exploitation of person), abandonment, neglect, self-neglect and financial exploitation in order to determine whether the alleged abuse, etc. occurred and if so who was/were the perpetrator(s).

APS is located in Olympia and APS investigators are located in regional offices throughout the state. Investigations are prioritized based on the severity and immediacy of actual or potential harm. Emergent issues are referred to 911. The APS investigator meets face to face with the alleged victim within 24 hours for all reports categorized as “high; within five working days for a medium” priority report; and within ten working days for a low”priority report. A shorter response time may be assigned on a case by case basis.

APS investigations are completed within 90 days of assignment unless necessary investigation or protective services

activity continues. If a case remains in "investigating" or "investigation pending" status 90 days after intake, APS supervisors review the case at least every 30 days thereafter for the duration of the case.

The participant or the participant's representative is informed of the results of the investigation. For unsubstantiated results the participant/representative receives verbal notification at the end of the investigation. For substantiated results, the participant receives verbal notification (written when requested) at two stages throughout the investigation; (1) when a determination by the investigator to recommend that the allegation be substantiated and (2) when this determination has been reviewed by the regional reviewing authority.

Child Protective Services: Under state authority, Child Protective Services (CPS) within the Department of Children, Youth and Families (DCYF) is responsible for receiving and investigating reports of suspected child abuse and neglect. The primary purpose of the CPS program is to assess risk of child maltreatment rather than to substantiate specific allegations of child abuse and neglect. Any referral received from a commissioned law enforcement officer stating a parent has been arrested for Criminal Mistreatment in the fourth degree under RCW 9A.42 is screened in and assigned for investigation.

When someone reports that a child may be abused or neglected, CPS is required by law to investigate. A report of suspected child abuse or neglect could be made to CPS or the police. Even though CPS staff and the police work together, they make separate investigations. CPS conducts family assessments, and the police conduct criminal investigations.

Upon receipt of a report concerning the possible occurrence of abuse and/or neglect, CPS begins a risk assessment. The risk assessment begins with a review of the information with the reporter to determine if there is sufficient information to locate the child; identify the perpetrator as a parent or caretaker; and determine whether the allegation is a situation of child abuse or neglect or there is a risk of harm to the child. Referrals which are determined to contain sufficient information may be assigned for investigation or other community response.

CPS workers must complete the intake process with referral information recorded in the FamLink (DCYF case management system) within:

- a. 4 hours from the date and time DCYF receives the following referrals:
 1. Emergent CPS or DLR (Division of Licensed Resources)/CPS
 2. Family Reconciliation Services (FRS)
- b. 4 business hours (business hours are 8:00 a.m. to 5:00 p.m., Monday through Friday) from the date and time DCYF receives Non-Emergent CPS or DLR/CPS referrals.
- c. 2 business days from the date and time DCYF receives the following referrals:
 1. Information Only
 2. CPS - Alternate Intervention
 3. Third Party
 4. Child Welfare Services (CWS)
 5. Licensing Complaint
 6. Home Study

If additional victims identified during the course of an investigation are determined:

- a. To be at risk of imminent harm, a social worker will have face to face contact within 24 hours from the date and time they are identified.
- b. NOT to be at risk of imminent harm, a social worker will have face to face contact within 72 hours of the date and time they are identified.

The assigned social worker must:

- a. Contact the referrer if the intake information is insufficient or unclear and may provide information about the outcome of the case to mandated referrers.
- b. Conduct a face-to-face investigative interview with child victims within 10 calendar days from date of referral.

CPS is a continuum of protection consisting of different but complementary functions. Intervention designed to protect children from abuse and neglect must include permanency planning goals from the onset of the case and must be updated at 90-day intervals.

When it appears that a child is in danger of being harmed, or has already been seriously abused or neglected, a police officer can place the child in protective custody. Custody of the child is then transferred to CPS, which places the child with a relative or in foster care. By law, a child can be kept in protective custody for no more than 72 hours, excluding weekends and legal holidays. If the child is not returned to the parents or some other voluntary arrangement made within

72 hours, the matter must be reviewed by a court.

In very serious cases of abuse and neglect, a child can be removed permanently from the parents (i.e., termination of parental rights). When this happens the child becomes legally free through a court procedure. The parent no longer has any rights or responsibilities toward the child. If a parent voluntarily gives up a child for adoption, this is called relinquishing parental rights.

Child Welfare Services (CWS) within the DCYF provides services to children and families with long-standing abuse and neglect problems. Typically these children have been removed from the family home and are in the foster care system. The focus of CWS is to achieve a permanent plan and placement for these children as soon as possible.

CPS seeks to complete investigations within 45 days, but it may take up to 90 days if law enforcement is involved.

Outcome notices are sent to relevant parties upon investigation completion.

CPS, RCS and APS are using the FamLink (DCYF case management system) and TIVA (Tracking Incidents for Vulnerable Adults) systems to document investigation activities including intake of complaints and outcome reports.

There is an electronic connection between FamLink/TIVA and the CARE system to notify case managers of a) complaints that are referred for investigations and b) investigation outcomes. This is an electronic notification that is identified in the individual's CARE record.

The Aging and Long-Term Support Administration receives nightly data feeds from the TIVA (Tracking Incidents for Vulnerable Adults) system that are used in this AL TSA/DDA reporting system. TIVA information is reviewed to determine if client information matches DDA waiver participants who are identified in CARE. DDA uses this reporting system to address specific programmatic and provider issues from the outcomes of the waiver clients who were involved in investigations by Residential Care Services (RCS), Adult Protective Services (APS) and/or Child Protection Services (CPS) for whom a report of abuse, neglect, abandonment, or financial exploitation was substantiated. The data are broken out by type of incident and provider type.

- e. Responsibility for Oversight of Critical Incidents and Events.** Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

Under state authority, Child Protective Services (CPS) within the Department of Children, Youth and Families (DCYF) is responsible for receiving and investigating reports of suspected child abuse and neglect.

When someone reports that a child may be abused or neglected, CPS is required by law to investigate. A report of suspected child abuse or neglect could be made to CPS or the police. Even though CPS staff and the police work together, they make separate investigations. CPS conducts family assessments, and the police conduct criminal investigations.

Residential Care Services is responsible for overseeing the certification of all certified residential programs. Mandatory reporting, and mandatory reporter training are among the standards they evaluate per Washington Administrative Code. Certification occur a minimum of every two years, but the certification length can be reduced depending on the regulatory concerns.

DDA, utilizing contracted evaluators, is responsible to complete the certification reviews for Alternative Living, Companion Homes, Overnight Planned Respite, Children's SOLA, and Community Crisis Stabilization Services. RCS Field Managers (supervisors) review prioritized complaints assigned from the centralized intake unit. As needed, supervisors work directly with investigative staff in developing investigative plans and may assist investigators with coordination activities.

The RCS Assistant Director and the Quality Assurance (QA) Administrator receive copies of serious and immediate complaint intakes at the same time that the initial referrals are sent from CRU to the field. Both of these individuals monitor the progress of investigative response to these incidents.

RCS Field Managers review the results of all investigated complaints; ensure that investigation activities were thorough and complete and that no follow-up activities are required. Field Managers also make recommendations to HQ and assist with coordination of enforcement activities.

RCS provider practice substantiation rates are monitored by DDA through data pulled from the TIVA (Tracking Incidents for Vulnerable Adults) system. Intakes and investigations can be reviewed by program, by type, and by facility. Trends and patterns are identified and analyzed to determine if substantiated areas of non-compliance negatively impacted waiver clients living in the licensed or certified setting. Analyses include a review of the general scope and severity of the non-compliance, and whether or not RCS enforcement processes resulted.

RCS and the Aging and Long-Term Support Administration are using the TIVA system to document investigation activities including intake of complaints and outcome reports. There is an electronic connection between the TIVA and the CARE system to notify case managers of a) complaints that are referred for investigations and b) investigation outcomes. This is an electronic notification that is identified in the individual's CARE record.

DDA requires serious and emergent incidents to be entered into a statewide electronic incident reporting system per DDA Policy. Incidents are entered into the system by DDA CRMs and Social Service Specialists with notification sent to appropriate staff. DDA's Incident Reporting Application data is used to develop statewide training for case/resource managers and the community on trends and issues concerning abuse, neglect, abandonment, exploitation and suspicious deaths of children and adults.

Adult Protective Services (APS) is a statewide program within the operating agency. The intakes, investigations and protective services performed by APS are continuously monitored at both the state and the regional levels. For example:

- Regional supervisors and program managers conduct on-going quality assurance audits of APS case records.
- The APS program has implemented a statewide QA monitoring process that includes record reviews and a formal in-person skills evaluation conducted by a supervisor during an actual APS investigation.
- Several reports based on data pulled from the statewide APS data base are routinely generated and evaluated at least annually by program managers and upper management at the state office.
- The regions use a report system tool that enables them to create customized reports pulled from the statewide data base to track, monitor and evaluate implementation of APS in their region.

DDA Regional Quality Assurance staff in all three regions provides ongoing monitoring of the DDA Incident Reporting application. The Central Office Incident Program Manager is responsible for the monitoring and oversight of all significant incidents. A Central Office Incident Report team meets monthly to review aggregate data, trends and patterns and staff incidents of particular concern.

Aggregate data analyzed by DDA Central Office is also sent out to the regions for follow up. Regional analysis is tracked and discussed at the Regional Quarterly Quality Assurance Meeting. Best practices and significant issues are presented to the Full Management Team four times per year.

Information and findings are communicated to the Medicaid agency at least quarterly via the HCA Medicaid Agency Waiver Management Committee.

a. Use of Restraints. *(Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)*

☐ **The state does not permit or prohibits the use of restraints**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

☒ **The use of restraints is permitted during the course of the delivery of waiver services.** Complete Items G-2-a-i and G-2-a-ii.

i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Safeguards that address methods for detecting the unauthorized use of restraints include a robust case management system with eyes-on visits with clients during annual assessments and significant change assessments, periodic monitoring visits, consultations with nursing care consultants, service provider reports, incident reports, complaints to Adult Protective Service, Children's Protective Service and Compliant Resolution Unit, law enforcement reports, and Ombuds reports.

Introduction:

The following information is applicable to paid providers and licensed/certified settings that are available to waiver participants for respite care and to all residential providers. DDA safeguards concerning the use of each type of restraint do not apply to family members (e.g., parents, siblings, relatives) unless they are paid providers of the Department of Social and Health Services.

Protections against the inappropriate use of restraints and restrictive procedures are contained in state law and rules concerning abuse and neglect (i.e., as described in Appendix G-1).

The Positive Behavior Support Plan:

The basic tool used by the DDA to address challenging behaviors is the Positive Behavior Support Plan (PBSP). PBSPs are in addition to the individualized person-centered service plan and DDA Policy 5.14 Positive Behavior Support Principles provides guidance to staff.

A PBSP consists of the following sections:

- a. Prevention Strategies;
- b. Teaching/Training Supports;
- c. Strategies for Responding to Challenging Behaviors; and
- d. Data Collection and Monitoring.

PBSPs are specifically required when:

1. The use of certain restrictive interventions is planned or used. DDA Policies 5.15 Restrictive Procedures - Community, 5.19 Positive Behavior Support for Children and Youth, and 5.20 Restrictive Procedures and Physical Interventions with Children and Youth provide more information regarding PBSPs.
2. An individual is taking psychoactive medications to reduce challenging behavior or treat a mental illness. DDA Policy 5.16 Use of Psychotropic Medications provides more information.
3. Certain restrictive physical interventions are planned or used. DDA Policies 5.17 Physical Intervention Techniques and 5.20 Restrictive Procedures and Physical Interventions with Children and Youth contain more information.

When challenging behaviors are identified, a written Functional Assessment governed by DDA Policy 5.21 Functional Assessments and Positive Behavior Support Plans and PBSP must be completed within ninety (90) days. All PBSPs must be agreed to by the individual or legally responsible individual.

Conditions under which a restraint may be applied:

Physical restraints, mechanical devices used as a restraint and chemical restraints may be used solely to treat a participant's behavior that poses a safety or health risk. Per DDA policy, restraints may not be used for the purposes of discipline or convenience.

The use of mechanical or physical restraints during medical and dental treatment is acceptable if under the direction of a physician or dentist and consistent with standard medical/dental practices. DDA Policy 5.17 Physical Intervention Techniques provides additional detail.

Identification of a specific and individualized assessed need:

If a restraint is to be used to treat challenging behavior, it must be supported by a functional assessment as described in DDA Policy 5.21 Functional Assessments and Positive Behavior Support Plans. All Functional Assessments must contain four major sections:

- Description and Pertinent History;
- Definition of Challenging Behavior(s);
- Data Analysis/Assessment Procedures; and
- Summary Statements.

Based on the Functional Assessment, a written Positive Behavior Support Plan is implemented to reduce or eliminate the individual's need to engage in the challenging behavior(s).

Informed Consent:

The use of restraints is voluntary and the participant or representative must give informed consent, which is documented in the individual's PCSP and PBSP. The participant or representative is always included in the development of the person centered service plan, as well as a PBSP. The participant or representative is made aware of the risks and the right to refuse the restraint. The participant or legal guardian has the right to refuse any service (including the use of restraints) or medication at any time.

Positive interventions, supports and less intrusive methods must be employed prior to the use of restraints: Prior to the use of restraints, alternative strategies must be tried. The person-centered service plan contains positive and less intrusive interventions that must be employed for any identified behavior. The participant's negotiated care plan includes strategies, therapeutic interventions, and required staff behavior to address the symptoms for which the restraint is prescribed. The plan addresses a participant's special needs and responses to a participant's refusal of care and the need to reduce tension, agitation or anxiety. The provider must document in the negotiated care plan other strategies or modifications used to avoid restraints.

When a waiver participant receives psychotropic medication, non-pharmaceutical supports used to assist in the treatment of the individual's symptoms or behaviors must be documented in the individual's Positive Behavior Support Plan.

Participants must have an assessed need proportionate to the use of restraints:

The need for a restraint must be assessed by a specialist in challenging behaviors. This information must then be incorporated into the participant's PCSP, the Functional Assessment that details the challenging behaviors and their precursors, and the PBSP. The conditions under which a restraint may be used must be documented in the participant's PCSP and PBSP. Documentation must reflect the symptom related to behavior for which a restraint is being used, when a restraint may be used, and how the restraint should be used.

The use of chemical restraints is governed by DDA Policies 5.15 and 5.16. If the waiver participant appears to be displaying symptoms of mental illness and/or persistent challenging behavior, any physical, medical, or dental conditions that may be causing or contributing to the behavior must first be considered.

If no physical or other medical condition is identified, then a psychiatric assessment is conducted. After the assessment, if the treatment professional recommends psychoactive medication, the prescribing professional or agency staff documents this in a Psychotropic Medication Treatment Plan (PMTTP). The plan must include the following:

- a. A description of the behaviors, symptoms or conditions for which the medication is prescribed;
- b. The name, dosage, and frequency of the medication;
- c. The length of time considered sufficient to determine if the medication is effective;
- d. The behavioral criteria to determine whether the medication is effective; and
- e. The anticipated schedule of visits with the prescribing professional.

Collection and review of data to measure the ongoing effectiveness of the restraint:

Per DDA Policy 5.14 and 5.21, the PBSP must:

- Operationally define the goals of the PBSP in terms of specific, observable behaviors.
- Indicate what data is needed to evaluate success (e.g., frequency, intensity and duration of target behaviors).
- Provide instructions to staff or caregivers on how to collect this data (e.g., forms, procedures) i.e., frequency, intensity and duration.
- List who will monitor outcomes, need for revisions, and evaluate success and process for monitoring.
- Recommend displaying data in a graph over time for easy analysis.

Per DDA Policies 5.15, Restrictive Procedures: Community and 5.20, Restrictive Procedures and Physical Interventions with Children and Youth, the program staff responsible for PBSPs must review the plan at least every thirty (30) days. If the data indicates progress is not occurring after a reasonable period, but no longer than six (6) months, the PBSP must be reviewed and revisions implemented as needed.

Per DDA Policy 5.16 Psychotropic Medications, with respect to psychoactive medication the prescribing professional should see the individual at least every three (3) months. The continued need for the medication and possible reduction in medication is assessed at least annually by the prescribing professional.

Periodic review of restraint usage:

The PCSP and PBSP must be reviewed at least annually (and in the case of positive behavior support and consultation provider to children and youth in the family home, providers must submit quarterly progress

reports) and updated at any time the use of a restraint (including psychoactive medication) becomes ineffective, is no longer needed or becomes unsafe.

When challenging behaviors are identified, a written Functional Assessment and PBSP must be completed within ninety (90) days. If the data indicates progress is not occurring after a reasonable period, but no longer than six (6) months, the FA and the PBSP must be reviewed and revisions implemented as needed.

Restraints may not cause harm:

The use of restraints must be deemed safe and appropriate per DDA policies concerning the use of restraints and restrictive procedures. The waiver participant or representative is informed of any risks and may choose to decline the use of restraints at any time.

Education and training requirements for providers involved in the use of restraints:

All staff using physical interventions must have prior training in the use of such techniques according to the facility or agency's policy and procedures. Staff must also receive training in crisis prevention techniques and positive behavior support. Staff receiving physical intervention techniques training must complete the course of instruction and demonstrate competency before being authorized to use the techniques with waiver participants. All residential service providers must have documentation of prior training in the use of physical intervention techniques.

A review of de-escalation techniques and physical intervention techniques with all service providers and members of a child/youth's support team must occur annually before continuing to be used with the child/youth.

Regarding the use of psychotropic medications, staff and family members are informed of the anticipated impact of the medication and its potential side effects. Staff and/or family members monitor the waiver participant to determine if the medication is being effective and communicate when it is not effective to the prescribing professional.

- DDA Policy 5.21: Functional Assessments and Positive Behavior Support Plans

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

The Department of Social and Health Services (DSHS) through the Aging and Long-Term Support Administration (AL TSA) and the Department of Children, Youth and Families (DCYF) through Child Protective Services (CPS) is responsible for investigating the unauthorized use of restraints. Under state authority RCW 74.34, AL TSA Residential Care Services receives reports and conducts investigations of abuse, neglect, exploitation and abandonment for individuals enrolled with the Developmental Disabilities Administration. AL TSA's Adult Protective Services (APS) investigates the perpetrators of abuse and neglect occurring in nursing homes, adult residential care facilities, adult family homes, supported living programs and adults residing in their own homes. Under state authority contained in Chapter 26.44 RCW, CPS within the Department of Children, Youth and Families (DCYF) is responsible for receiving and investigating reports of suspected child abuse and neglect. DDA monitors the use of unauthorized restraints and takes corrective action through:

- Reports received in the DDA Incident Reporting system,
- Reports submitted to APS,
- Reports submitted to RCS,
- Reports submitted to CPS,
- The face to face DDA Assessment process conducted yearly and at times of significant change,
- The DDA grievance process, and
- DDA Quality Assurance activities that include face to face interviews of clients and review of complaints.

RCS and APS are using the TIVA system to document investigation activities including a) intake of complaints and b) outcome reports. There is an electronic connection between the FamLink and the CARE system to notify case managers of a) complaints concerning treatment of children that are referred for investigations and b) investigation outcomes. This is an electronic notification that is included in the individual's CARE record.

DDA Policies 5.11, 5.14, 5.15, 5.16, 5.17, 5.19, 5.20 and 5.21 (see G-2.b.i) specify the requirements for the use and documentation of any type of restraint (mechanical or pharmacological). Only the least restrictive intervention needed to adequately protect the individual, others, or property may be used, and must be terminated as soon as the need for protection is over. Approved restraint use must be fully documented and reviewed at least monthly by the residential provider and at least quarterly by the waiver participant's interdisciplinary team. Any emergency use of a restraint requires an incident report to DDA headquarters where it is reviewed by the Incident Management Program Manager.

RCS has contracted evaluators who evaluate the residential agencies/programs at least once every two years. Their review always includes any use of restraints, restrictive procedures, or use of psychoactive medications.

Quality Compliance Coordinator (QCC) staff review yearly the positive behavior support plans (PBSPs) of a sample of waiver participants. One focus is on instances in which the PBSP includes a restraint that requires approval through an exception to rule (ETR). When the QCC team identifies PBSPs requiring an ETR that did not have an ETR, the QCC team verifies that individual corrective action was completed within 90 days and reports to DDA management on any systems issues.

DDA's Incident Report Application generates reports that permit management to periodically review incidents and to categorize incidents by type, location, provider involvement, hospitalization, and outcome and to identify trends and patterns. Based on these trends and patterns, improvement strategies can be developed and implemented.

DDA's Incident Report Application is overseen by a dedicated program manager who meets regularly with regional quality assurance staff and senior management to review incident management reports, review response times for incident follow-up and identify trends and patterns that require management action and improvement strategies.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. (*Select one*):

- ☐ **The state does not permit or prohibits the use of restrictive interventions**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

- ☒ **The use of restrictive interventions is permitted during the course of the delivery of waiver services** Complete Items G-2-b-i and G-2-b-ii.

i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

DDA Policy 5.15 Restrictive Procedures: Community lists the following permitted restrictive procedures that must be addressed in the client's function assessment and positive behavior support plan: 1) requiring a client to leave an area with physical coercion for protection of the client, others, or property; 2) using door or window alarms to monitor clients who present a risk to others, such as being sexually or physically assaultive; 3) necessary supervision to prevent dangerous behavior; 4) taking away items that could be used as weapons when client has a documented history of making threats or inflicting harm with those or similar items, such as knives, matches, lighters, etc.; 5) removing client property being used to injure one's self, others, or property; 6) physical restraint to prevent the free movement of part or all of the client's body with the exception of seated restraints, which require an ETP, and prohibited restraints; and 7) mechanical restraint used to limit the client's free movement or prevent the client from self-injury when the client cannot independently remove the device, such as a helmet, arm splints, seatbelts use outside of a motor vehicle, etc.

Methods for detecting the unauthorized use of restrictive interventions include a robust case management system with eyes-on visits with clients during annual assessments and significant change assessments, periodic monitoring visits, consultations with nursing care consultants, service provider reports, incident reports, complaints to Adult Protective Service, Children's Protective Service and Compliant Resolution Unit, law enforcement reports, and Ombuds reports.

Introduction:

The following information is applicable to paid providers and licensed/certified settings that are available to waiver participants for respite care, as well as to providers of in-home Positive Behavior Support and Consultation. DDA safeguards concerning the use of restrictive interventions do not apply to family members (e.g., parents, siblings, relatives) unless they are paid providers of the Department of Social and Health Services.

Protections against the inappropriate use of restraints and restrictive interventions are contained in state law and rules concerning abuse and neglect (i.e., as described in Appendix G-1).

The Positive Behavior Support Plan:

The basic tool used by the DDA to address challenging behaviors is the Positive Behavior Support Plan (PBSP). PBSP's are in addition to the individualized person-centered plan.

A written PBSP must have the following sections:

- a. Prevention Strategies;
- b. Teaching/Training Supports;
- c. Strategies for Responding to Challenging Behaviors; and
- d. Data Collection and Monitoring.

PBSPs are specifically required when:

1. The use of certain restrictive interventions is planned or used. DDA Policy 5.15, Restrictive Procedures: Community, DDA Policy 5.19, Positive Behavior Support for Children & Youth, and DDA Policy 5.20, Restrictive Procedures and Physical Interventions with Children and Youth, provide more information and requirements regarding PBSPs.
2. An individual is taking psychotropic medications to reduce challenging behavior or treat a mental illness. DDA Policy 5.16, Psychotropic Medications provides more information.
3. Certain restrictive physical interventions are planned or used. DDA Policy 5.17, Physical Intervention Techniques, and DDA Policy 5.20, Restrictive Procedures and Physical Interventions with Children and Youth, contain more information and related requirements.

When challenging behaviors are identified, a written Functional Assessment and PBSP must be completed within ninety (90) days. If the data indicates progress is not occurring after a reasonable period, but no longer than six (6) months, the FA and the PBSP must be reviewed and revisions implemented as needed.

All PBSPs must be agreed to by the individual or legally responsible individual.

Conditions under which a restrictive intervention may be applied:

As listed in DDA Policy 5.15, Restrictive Procedures: Community, the following are not permitted under any circumstances:

1. Restraint chairs;
2. Restraint boards;
3. Exclusionary time out;
4. Corporal or physical punishment;
5. Forced compliance, including exercise, when it is not for protection;

6. Locking a client alone in a room;
7. Overcorrection;
8. Physical or mechanical restraint in a prone position (i.e. the client is lying on their stomach);
9. Physical or mechanical restraint in a supine position (i.e. the client is lying on their back);
10. Removing, withholding, or taking away money, tokens, points, or activities that a client has previously earned;
11. Requiring a client to re-earn money, token, points, activities, or item purchased previously;
12. Withholding or modifying food as a consequence for behavior (e.g. withholding dessert because the client was aggressive);
13. Chemical restraint;
14. A posey bed, also known as a tent bed; and
15. Aversive stimulation.

Per DDA Policy 5.15, Restrictive Procedures: Community, restrictive interventions may only be used for the purpose of protection, and may not be used for the purpose of changing behavior in situations where no need for protection is present. The participant or legal guardian has the right to refuse any service (including the use of restrictive interventions) at any time.

Identification of a specific and individualized assessed need:

If a restraint is to be used to treat challenging behavior, it must be supported by a functional assessment as described in DDA Policy 5.21, Functional Assessments and Positive Behavior Support Plans. All

Functional Assessments must contain four major sections:

- Description and Pertinent History;
- Definition of Challenging Behavior(s);
- Data Analysis/Assessment Procedures; and
- Summary Statements.

Based on the Functional Assessment, a written Positive Behavior Support Plan is implemented to reduce or eliminate the client's need to engage in the challenging behavior(s).

Informed Consent:

The use of restrictive interventions is voluntary and the participant or representative must give informed consent, which is documented in the individual's PCSP and PBSP. The participant or representative is always included in the development of the person-centered service plan, as well as a PBSP. The participant or representative is made aware of the risks and the right to refuse the restrictive intervention. The participant or legal guardian has the right to refuse any service (including the use of restrictive interventions) or medication at any time.

Positive interventions, supports and less intrusive methods must be employed prior to the use of restrictive interventions:

Prior to the use of restrict interventions, alternative strategies must be tried. The person-centered service plan contains positive and less intrusive interventions that must be employed for any identified behavior. The participant's negotiated care plan includes strategies, therapeutic interventions, and required staff behavior to address the symptoms for which the restrictive intervention is prescribed. The plan addresses a participant's special needs and responses to a participant's refusal of care and the need to reduce tension, agitation or anxiety. The provider must document in the negotiated care plan other strategies or modifications used to avoid restrictive interventions.

Participants must have an assessed need proportionate to the use of restrictive interventions:

The need for a restrictive intervention must be assessed by a specialist in challenging behaviors. This information must then be incorporated into the participant's PCSP, the Functional Assessment that details the challenging behaviors and their precursors, and the PBSP. The conditions under which a restrictive intervention may be used must be documented in the participant's PCSP and in the PBSP. Documentation must reflect the symptom related to behavior for which a restrictive intervention is being used, when a restrictive intervention may be used, and how the restrictive intervention should be used.

Restrictive interventions must be used only as provided for in DDA Policy 5.15., Restrictive Procedures: Community, DDA Policy 5.17, Physical Intervention Techniques, and DDA Policy 5.20, Restrictive Procedures and Physical Interventions with Children and Youth.

- Restrictive interventions must be used only when positive or less restrictive techniques or procedures have been tried and are determined to be insufficient to protect the client, others, or damage to the

property of others.

- Restrictive interventions may only be used for the purpose of protection and may not be used for the purpose of changing behavior in situations where no need for protection is present.
- Only the least restrictive intervention needed to adequately protect the client, others, or property must be used, and terminated as soon as the need for protection is over.

Collection and review of data to measure the ongoing effectiveness of the restrictive intervention:

Per DDA Policy 5.14, Positive Behavior Support Principles, the PBSP must address the following:

- Operationally define the goals of the PBSP in terms of specific, observable behaviors.
- Indicate what data is needed to evaluate success (e.g., frequency, intensity and duration of target behaviors).
- Provide instructions to staff or caregivers on how to collect this data (e.g., forms, procedures) i.e., frequency, intensity and duration.
- List who will monitor outcomes, need for revisions, and evaluate success and process for monitoring.
- Recommend displaying data in a graph over time for easy analysis.

Per DDA Policy 5.15, Restrictive Procedures: Community, and DDA Policy 5.20, Restrictive Procedures and Physical Interventions with Children and Youth, program staff responsible for PBSPs must review the plan at least every thirty (30) days. If the data indicates progress is not occurring after a reasonable period, but no longer than six (6) months, the PBSP must be reviewed and revisions implemented as needed.

Periodic review of restrictive intervention usage:

The PCSP and PBSP must be reviewed at least annually (and in the case of positive behavior support and consultation provider to children and youth in the family home, providers must submit quarterly progress reports) and updated at any time the use of a restrictive intervention becomes ineffective, is no longer needed or becomes unsafe.

A post-analysis (i.e., a debriefing to review the incident and assess what could have been done differently) must take place whenever restrictive interventions are implemented in emergencies or when the frequency of use of the intervention is increasing. The child/youth, service providers involved, supervisor (in residential settings), parent/guardian, and other team members must participate, as appropriate. The DDA case resource manager must document the post-analysis in a service episode record (SER) in the client's record.

Restrictive interventions may not cause harm:

The use of restrictive interventions must be deemed safe and appropriate per DDA policies concerning the use of restrictive procedures. The waiver participant or representative is informed of any risks and may choose to decline the use of restrictive interventions at any time.

Education and training requirements for providers involved in the use of restrictive interventions:

All staff using restrictive interventions must have prior training in the use of such techniques according to the facility or agency's policy and procedures. With all training on the use of restrictive interventions, staff must also receive training in crisis prevention techniques and positive behavior support. Staff receiving restrictive intervention techniques training must complete the course of instruction and demonstrate competency before being authorized to use the techniques with waiver participants. All residential service providers must have documentation of prior training in the use of restrictive intervention techniques.

A review of de-escalation techniques and physical intervention techniques with all service providers and members of a child/youth's support team must occur annually before continuing to be used with the child/youth.

Restrictive intervention systems must include, at a minimum, the following training components:

1. Principles of positive behavior support, including respect and dignity;
2. Communication techniques to assist a child/youth to calm down and resolve problems in a constructive manner;
3. Techniques to prevent or avoid escalation of behavior;
4. Techniques for providers and parents/guardians to use in response to their own feelings or expressions of fear, anger, or aggression;
5. Techniques for providers and parents/guardians to use in response to the child/youth's feelings of fear or anger;
6. Instruction that restrictive intervention techniques may not be modified except as necessary in consideration of individual disabilities, medical, health, and safety issues. An appropriate medical/health professional and a certified trainer or behavioral specialist must approve all modifications;
7. Evaluation of the safety of the physical environment at the time of the intervention;

8. Use of the least restrictive interventions depending upon the situation;
9. Clear presentation and identification of prohibited and permitted restrictive intervention techniques as outlined in this policy;
10. Discussion of the need to release a child/youth from any physical restraint as soon as possible;
11. Instruction on how to support restrictive interventions as an observer and recognize signs of distress by the child/youth and fatigue by the staff; and
12. Discussion of the importance of complete and accurate documentation by service providers.

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

The Department of Social and Health Services (DSHS) through the Aging and Long-Term Support Administration (AL TSA) and the Department of Children, Youth and Families through Child Protective Services (CPS) is responsible for detecting the unauthorized use of restrictive interventions. Under state authority RCW 74.34, the AL TSA receives reports and conducts investigations of abuse, neglect, exploitation and abandonment for clients enrolled with the Developmental Disabilities Administration. AL TSA Residential Care Services (RCS) investigates the role of provider systemic issues regarding abuse and neglect occurring in nursing homes, adult residential care facilities, adult family homes, & supported living programs. AL TSA Adult Protective Services (APS) investigates the perpetrators of abuse and neglect involving adults.

Under state authority contained in Chapter 26.44 RCW, Child Protective Services (CPS) within the Department of Children, Youth and Families (DCYF) is responsible for receiving and investigating reports of suspected child abuse and neglect.

DDA's Incident Report Application generates reports that permit management to periodically review incidents and to categorize incidents by type, location, provider involvement, hospitalization, and outcome and to identify trends and patterns. Based on these trends and patterns, improvement strategies can be developed and implemented.

DDA detects use of unauthorized restrictive intervention through:

- Reports submitted to APS,
- Reports submitted to RCS,
- Reports submitted to CPS,
- Reports received in the DDA Incident Reporting application,
- The face to face DDA Assessment process conducted yearly and at times of significant change,
- The DDA grievance process, and
- DDA Quality Assurance activities that include face to face interviews of clients and review of complaints.

RCS and APS are using the TIVA (Tracking Incidents for Vulnerable Adults) system to document investigation activities including: a) intake of complaints and, b) outcome reports. There is an electronic connection between the FamLink (DCYF case management system) and the CARE system to notify case managers of: a) complaints concerning treatment of children that are referred for investigations, and b) investigation outcomes. This is an electronic notification that is included in the individual's CARE record. DDA Policies 5.14, 5.15, 5.16, 5.17, 5.19, 5.20 and 5.21 (see G-2.b.i) specify the requirements for using and documenting use of any type of restrictive intervention. Only the least restrictive intervention needed to adequately protect the client, others, or property may be used, and terminated as soon as the need for protection is over. The use of approved restrictive interventions must be fully documented and reviewed at least monthly by the residential provider and at least quarterly by the waiver participant's interdisciplinary team. Any emergency use of a restrictive interventions requires an incident report to DDA headquarters where it is reviewed by the Incident Management Program Manager.

Residential Care Services (RCS) Division has contracted evaluators who evaluate the residential agencies/programs at least once every two years. Their review always includes any use of restraints, restrictive interventions, or use of psychoactive medications.

Quality Compliance Coordinator (QCC) staff yearly review the positive behavior support plans (PBSPs) of a sample of waiver participants. One focus is on instances when the PBSP includes a restraint that requires approval through an exception to rule (ETR). When the QCC team identifies PBSPs requiring an ETR that did not have an ETR, the QCC team verifies that individual corrective action was completed within 90 days and reports to management on systems issues.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. *(Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)*

☒ **The state does not permit or prohibits the use of seclusion**

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

The Department of Social and Health Services:

- Developmental Disabilities Administration (DDA)
- Aging and Long-Term Support Administration/Residential Care Services (RCS)
- Aging and Long-Term Support Administration/Adult Protective Services (APS)

The Department of Children, Youth and Families:

- Child Protective Services (CPS)

Under state authority RCW 74.34, the Aging and Long-Term Support Administration (AL TSA) receives reports and conducts investigations of abuse, neglect, exploitation and abandonment for clients enrolled with the Developmental Disabilities Administration. AL TSA's Residential Care Services (RCS) investigates the role of provider systemic issues in abuse and neglect occurring in nursing homes, adult residential care facilities, adult family homes, & supported living programs. AL TSA's Adult Protective Services (APS) investigates the perpetrators of abuse and neglect involving adults.

The DDA detects use of unauthorized restrictive intervention through:

- Reports submitted to APS,
- Reports submitted to RCS,
- Reports submitted to CPS,
- Reports received in the DDA Incident Reporting application,,
- The face to face DDA Assessment process conducted yearly and at times of significant change,
- The DDA complaint/grievance process, and
- DDA Quality Assurance activities that include face to face interviews of clients and review of complaints.

Residential Care Services Division has contracted evaluators who evaluate the residential agencies/programs at least once every two years. Their review always includes any use of restraints, restrictive procedures, or use of psychoactive medications.

☐ **The use of seclusion is permitted during the course of the delivery of waiver services.** Complete Items G-2-c-i and G-2-c-ii.

i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the state has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. Applicability. Select one:

- ☐ **No. This Appendix is not applicable** (*do not complete the remaining items*)
- ☒ **Yes. This Appendix applies** (*complete the remaining items*)

b. Medication Management and Follow-Up

- i. Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

All participants receive monitoring by case resource managers during their annual assessment and at least one other monitoring visit. For clients who receive nurse delegation services, the need for which is identified by the DDA assessment, a registered nurse delegator must visit the participant at least once every 90 days. Providers of residential habilitation also receive monitoring visits from state licensers or certifiers who review medication management practices, interview participants and staff, and verify compliance with health and safety regulations and best practices, in addition to monitoring from case resource managers, registered nurse delegators and nursing care consultants. All DDA parties who detect potentially harmful practices are required to report issues utilizing the incident reporting application and conduct appropriate follow-up. Licensers and certifiers utilize their own RCS Residential Quality Assurance Database to document issues of concern, statements of deficiency, corrective action plans and follow up monitoring. RCS data and reports are shared with DDA on a continuous basis.

When an individual is not receiving services from a DDA residential program the individual, her/his/their representatives, her/his/their healthcare provider and DDA work together to monitor medication management. Medication management is a component of the DDA assessment. The DDA assessment triggers a referral requirement if medication risk factors are identified. Once this requirement is triggered the case resource manager must address the risk identified in the PCSP. How the risks are addressed depends on the concern identified. It could result in a medication evaluation referral, additional provider training, nurse oversight visits, consultation with the healthcare provider or other measures.

DDA policy 5.16, Psychotropic Medications establishes guidelines for assisting an individual with mental health issues or persistent challenging behavior to access accurate information about psychotropic medications and treatment, to make fully informed choices, and to be monitored for potential side effects of psychoactive medications.

Protections against the use of chemical restraints are included in DDA Policies 5.14, Positive Behavior Support Principles, Policy 5.15, Restrictive Procedures, Policy 5.16, Psychotropic Medications, Policy 5.19, Positive Behavior Support for Children and Youth, and Policy 6.19, Residential Medication Management with respect to the use of psychotropic medications. If psychotropic medications are used, informed consent must be obtained, a functional assessment must be completed, a positive behavior support plan must be developed and implemented, and a Psychotropic Medication Treatment Plan must be in place. Psychotropic medications can only be used as prescribed.

Additionally, Policy 6.19 Residential Medication Management applies to individuals who receive services from a DDA certified residential program.

Policy 6.19 Residential Medication Management:

When providing instruction and support services to persons with developmental disabilities, the provider must ensure that individuals who use medications are supported in a manner that safeguards the person's health and safety.

For adult residential care facilities, medication management requirements as described in Chapter 388-78A WAC (Assisted living facility licensing rules) take precedence over this policy.

PROCEDURES

A. Self-Administration of Medications

1. Residential service providers must have a written policy, approved by DDA, regarding supervision of self-medication.

2. The provider, unless he or she is a licensed health professional or has been authorized and trained to perform a specifically delegated nursing task, may only assist the person to take medications.

3. The provider may administer the person's medication if he/she/they is a licensed health care professional. Medications may only be administered under the order of a physician or a health care professional with prescriptive authority.

4. If a person requires assistance with the use of medication beyond that described in A.2. above, the assistance must be provided either by a licensed health care professional or a registered nurse (RN) who delegates the administration of the medication according to Chapter 388-101 WAC (Certified community residential services and supports) and Chapter 246-840 WAC (Practical and registered nursing).

Per Chapter 246-840 WAC (Practical and registered nursing), before delegating a nursing task, the registered nurse delegator decides the task is appropriate to delegate based on the elements of the nursing process: Assess, Plan, Implement, Evaluate. (Please see WAC 246-840-910 through 990 concerning delegation of nursing care tasks in community-based and in-home care settings for specific details.)

Per WAC 246-841-400 (Standards of practice and competencies for nursing assistants), competencies and standards of practice are statements of skills and knowledge, and are written as descriptions of observable,

measurable behaviors. All competencies are performed under the direction and supervision of a licensed registered nurse or licensed practical nurse as required by RCW 18.88A.030 (Nursing Assistants: Scope of practice-Nursing home employment-Voluntary certification-Rules).

WAC 246-841-405 (Nursing assistant delegation) identifies the certification requirements as stated below.

DDA Policy 6.15 ("Nurse Delegation Services") details eligibility requirements for services (including a stable and predictable client condition), which tasks can and cannot be delegated, training and certification requirements for delegated providers, the referral process, case manager responsibilities and Registered Nurse Delegator responsibilities, and authorization of services.

Training Requirements for Providers Who Perform Delegated Nursing Tasks

Before performing a delegated task, the provider must have completed:

1. Registration or certification as a Nursing Assistant and renew annually;
2. The Nurse Delegation for Nursing Assistants class (nine hours), either the classroom or self-study version;
3. For Nursing Assistant-Registered (NAR) only:
 - a. For providers working in Supported Living: DDA Core Training (32 hours).
 - b. For providers working in all other settings: Fundamentals of Caregiving (28 hours).
 - c. An NAR may not perform a delegated task before DDA Core Training or Fundamentals of Caregiving is completed.
 - d. DDA Core Training or Fundamentals of Caregiving is not required for a Nursing Assistant-Certified (NAC) to perform a delegated task.

Responsibilities of the Registered Nurse Delegator (RND)

The RND must:

1. Verify that the caregiver:
 - a. Has met training and registration requirements;
 - b. The registration is current and without restriction; and
 - c. The caregiver is competent to perform the delegated task.
2. Assess the nursing needs of the individual, determine the appropriateness of delegation in the specific situation and, if appropriate, teach the caregiver to perform the nursing task.
3. Monitor the caregiver's performance and continued appropriateness of the delegated task.
4. Communicate the results of the nurse delegation assessment to the CRM.
5. Establish a communication plan with the CRM as follows:
 - a. Specify in the plan how often and when the RND will communicate with the CRM; and
 - b. Document the plan and all ongoing related communication in the client's nurse delegation file.
6. Document and perform all delegation activities as required by law, rule and policy.
7. Work with the CRM, providers, and interested parties when rescinding RND to develop an alternative plan that ensures continuity for the provision of the delegated task.

Nurse delegation is an intermittent service. The nurse is required to visit at least once every ninety days, and may not need to see an individual more frequently. However, the delegating nurse may determine that some individuals need to be seen more often. The ALTSA/DDA Central Office Nurse Delegation Program Manager will monitor the nurse's performance, including frequency of visits and payments.

In residential settings, providers are required to document all medication administration and client refusals (of medication).

WAC 388-101D-0340 ("Medications--Documentation") indicates the service provider must maintain a written record of all medications administered to, assisted with, monitored, or refused by the individual.

WAC 388-101D-0325 ("Medication Refusal") indicates

- (1) When an individual who is receiving medication support from the service provider chooses to not take his/her/their medications, the service provider must:
 - (a) Respect the client's right to choose not to take the medication(s) including psychoactive medication(s); and
 - (b) Document the time, date and medication the individual did not take.
- (2) The service provider must take the appropriate action, including notifying the prescriber or primary care practitioner, when the individual chooses to not take his/her/their medications and the refusal could cause harm to the individual or others.

Any person may call the Nurse Delegation Hotline at (800)422-3263 to file a complaint.

ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.

The Department of Social and Health Services:

- Developmental Disabilities Administration (DDA)
- Aging and Long-Term Support Administration/Residential Care Services (RCS)
- Aging and Long-Term Support Administration/Adult Protective Services (APS)

The Department of Children, Youth and Families:

- Child Protective Services (CPS)

DDA Policy 5.16, Psychotropic Medications, details monitoring requirements for all residential service providers. Policy 5.16 directs the service provider to monitor the client to help determine if the medication is being effective based on criteria identified in the Psychotropic Medication Treatment Plan (PMTP). If the medication does not appear to have the desired effects, the service provider must communicate this to the prescribing professional. The PMTP must include: a) A description of the behaviors, symptoms or conditions for which the medication is prescribed and a mental health diagnosis, if available; b) The name, dosage, and frequency of the medication (subsequent changes in dosage may be documented in the person's medical record); c) The length of time considered sufficient to determine if the medication is effective (i.e., treatment trial); d) The behavioral criteria to determine whether the medication is effective (i.e., what changes in behavior, mood, thought, or functioning are considered evidence that the medication is effective); and e) The anticipated schedule of visits with the prescribing professional. The service provider must observe the client for any changes in behavior or health that might be side effects of the medication and inform the prescribing professional of any concerns. The service provider should request that the prescribing professional see the client at least every three months unless the prescribing professional recommends a different schedule. Continued need for the medication and possible reduction should be assessed at least annual by the prescribing professional.

Residential Care Services (RCS) certifiers review all medication management as part of their certification process not less than once every eighteen months. In addition, DDA Residential Quality Assurance staff make follow-up visits following any citations issues to service providers. Nurse delegators also provide follow-up visits to participants with nurse delegated tasks on a regular basis.

DCYF/DLR (Division of Licensed Resources within The Department of Children, Youth and Families) is responsible for monitoring medication administration as a part of overall performance monitoring in licensed residential settings for children. The Department of Children, Youth and Families Management Information System (CAMIS) database containing the record of licensing inspections and required provider training is maintained and monitored by The Department of Children, Youth and Families /Division of Licensed Resources (DLR). As part of the ongoing performance monitoring, a schedule of unannounced visits is established for all Foster Home and Staffed Residential providers. The licensed providers are reviewed at least every 36 months to assess performance against ongoing licensing requirements. The schedule is continually monitored and updated by DLR for compliance. Outcomes of the licensing process, such as statements of deficiency and corrective actions, are documented in the database and are used to determine whether or not licensure will continue or establish the frequency of unannounced visits. Communication regarding the licensing process occurs at the regional level.

DDA Policy 6.19, Residential Medication Management (see G-3-b-i) specifies the requirements for residential medication management. Residential Care Services has contracted evaluators who evaluate the residential agencies/programs at least once every two years.

Issues with medication management are also identified if errors result in allegations of abuse, neglect, exploitation. Under authority provided via RCW 74.34 (public assistance Washington state law concerning abuse of vulnerable adults), the Aging and Long-Term Support Administration (AL TSA) receives reports and conducts investigations of abuse, neglect, and exploitation for individuals enrolled with the Developmental Disabilities Administration. AL TSA's Residential Care Services (RCS) investigates provider systemic issues regarding abuse and neglect occurring in nursing homes, adult residential care facilities, adult family homes, & supported living programs. AL TSA's Adult Protective Services (APS) investigates the perpetrators of abuse and neglect involving adults.

Under authority provided via RCW 26.44 (Washington state law concerning abuse of children), Child Protective Services (CPS) investigates all allegations of abuse, neglect, and exploitation of children living in their parents' home and/or licensed facility or foster care. Substantiations are forwarded to the BCCU.

CPS, RCS and APS are using TIVA (Tracking Incidents for Vulnerable Adults) and FamLink (DCYF's case management system) to document investigation activities including intake of complaints and outcome reports. There is an electronic connection between TIVA/FamLink and the CARE system to notify case managers of a)

complaints that are referred for investigations and b) investigation outcomes. This is an electronic notification that will be included in the individual's CARE record.

ALTSA receives nightly data feeds from FamLink that are used in this ALTSA reporting system. FamLink information is reviewed to determine if client information matches DDA waiver participants who are identified in CARE. DDA uses the ALTSA reporting system to address specific programmatic and provider issues from the outcomes of the waiver participants who were involved in investigations by Residential Care Services (RCS) and/or Child Protective Services (CPS) for whom a report of abuse, neglect, abandonment, or financial exploitation was substantiated. The data are broken out by type of incident and provider type.

Information and findings are communicated to the Medicaid agency at least quarterly via the HCA Medicaid Agency Waiver Management Committee.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. *Select one:*

- ☐ Not applicable. *(do not complete the remaining items)*
- ☒ Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. *(complete the remaining items)*

ii. **State Policy.** Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

DDA Administration Policy 6.19, Residential Medication Management specifies the requirements for residential medication management. Residential Care Services (RCS) has contracted staff who evaluate the residential agencies/programs at least once every two years to ensure they are in compliance with these requirements.

iii. Medication Error Reporting. *Select one of the following:*

- ☒ Providers that are responsible for medication administration are required to both record and report medication errors to a state agency (or agencies).

Complete the following three items:

(a) Specify state agency (or agencies) to which errors are reported:

The Developmental Disabilities Administration (DDA) within the Department of Social and Health Services (DSHS).

(b) Specify the types of medication errors that providers are required to *record*:

Providers are required to record all medication errors.

WAC 388-101D-0340 ("Medications--Documentation") indicates the service provider must maintain a written record of all medications administered to, assisted with, monitored, or refused by the individual.

WAC 388-101D-0325 ("Medication Refusal") indicates

(1) When an individual who is receiving medication support from the service provider chooses to not take his/her/their medications, the service provider must:

(a) Respect the individual's right to choose not to take the medication(s) including psychotropic medication(s); and

(b) Document the time, date and medication the individual did not take.

(2) The service provider must take the appropriate action, including notifying the prescriber or primary care practitioner, when the individual chooses to not take his/her/their medications and the individual's refusal could cause harm to the individual or others.

(c) Specify the types of medication errors that providers must *report* to the state:

Providers are required to report medication errors causing injury/harm, or a pattern of errors.

- ☐ **Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the state.**

Specify the types of medication errors that providers are required to record:

- iv. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

The following State agencies all generate data concerning medication management:

The Department of Social and Health Services:

- Developmental Disabilities Administration (DDA)
- Aging and Long-Term Support Administration/Residential Care Services (RCS)

The Department of Children, Youth and Families:

- Child Protective Services (CPS)

DDA quality assurance staff acquire data from all of these sources, analyze data to identify trends and patterns and identify areas for improvement. Quality assurance staff share this analysis, identified trends and patterns and recommend areas for improvement to senior management on a quarterly basis.

DDA Policy 6.19, Residential Medication Management, (please see G-3-b-i) specifies the requirements for residential medication management. RCS has contracted staff who evaluate the residential agencies/programs at least once every two years. RCS data on residential agency performance is share with DDA quality assurance staff on a continuous basis.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

- a. **Sub-assurance:** *The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

G.a.4. # & % of respondents to NCI Survey who report they have received information on how to identify and report instances of abuse, neglect, exploitation and unexplained deaths. N = # of respondents to NCI Survey who report they have received information on how to identify and report instances of abuse, neglect, exploitation and unexplained deaths. D = # of respondents to NCI Survey reviewed.

Data Source (Select one):

Analyzed collected data (including surveys, focus group, interviews, etc)

If 'Other' is selected, specify:

- b. Sub-assurance:** *The state demonstrates that an incident management system is in place that effectively resolves those incidents and prevents further similar incidents to the extent possible.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

G.b.1. The number & percent of critical incident trends where systemic interventions were implemented. N = The number of critical incident trends where systemic interventions were implemented. D = Number of critical incident trends.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

QIP for Performance Measure G.a.2 is located at Main B. Optional

G.a.1; G.a.2;G.b.1;G.b.2: Alleged incidents of abuse, neglect, abandonment and exploitation are recorded in the DDA Incident Reporting (IR) Application. The application also documents contacts and follow-up referrals. A report is compiled based on incident type and other agencies contacted to document whether or not APS, CPS, or RCS was notified. Trending of incident types, actions taken, incident trends, use of restraints & compliance with DDA policies are generated from incident reporting data.

G.a.3: The Mortality Review Team (MRT) reviews waiver recipients whose death occurred while receiving residential services, medically intensive children's program services or whose death was unusual or unexplained to identify factors that may have contributed to the deaths and to recommend measures to improve client supports and services.

G.a.4: NCI Surveys record waiver participants knowledge of how to report abuse, neglect, exploitation and unexplained deaths.

G.a.5: The State utilizes the NCI Survey to gauge how well participants report that they have received information on how to identify and report incidents of abuse, neglect, exploitation & unexplained deaths. The State also collaborates with the DDC, the ARC of Washington and other partner agencies to educate waiver participants via webinars, websites and direct-to-participant communications on the ways to report incidents to the state.

G.c.1, G.c.2, G.d.3 and G.d.4: RCS conducts onsite visits to review the restrictive procedures and areas involving clients' healthcare standards at residential sites throughout the state. RCS issues the citations for concerned areas accordingly and providers are required to submit and implement the approved corrective action plan within expected timelines. Visit data is maintained in RCS's Residential Quality Assurance Database and reports are shared with DDA's Residential Quality Assurance staff.

G.c.3, G.d.1 & G.d.2: Information on documented restraints or restrictions, health rating and doctor/dentist visits for all waiver participants is obtained as a required set of questions in the DDA annual assessment and reports are available as data extracts from the CARE system.

G.d.5. State will review quarterly the most serious cited regulation violations related to participant health and welfare in residential habilitation to focus systemic interventions on highest value changes.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

G.a.1; G.a.2;G.b.1;G.b.2;G.c.1: If a pattern of critical incidents is identified with respect to a specific individual or a specific provider, or a particular type of incident, the Quality Assurance Office Chief works with the appropriate HQ and/or regional staff to take appropriate steps to prevent future occurrences of such incidents. In addition, case resource manager training might focus on prevention, detection, and remediation of critical incidents.

G.a.2: If following notification of an incident the waiver participant/legal representative was not contacted within 30 days, the supervisor and case resource manager are reminded that this is required. If no contact was made at all, follow-up with the waiver participant/legal representative is required.

G.a.3: Changes implemented as a result of information gained from MRT reviews include caregiver alerts, curriculum for providers and case resource managers, and changes in DSHS administrative rules (WAC). For example, topics of caregiver alerts include "How hot is your water?", "Aspiration", "Seizures and Bathing", and "Type 2 Diabetes".

G.a.4 – Management annually reviews analysis of NCI survey results and implements necessary changes in policy, procedures or training to improve results. NCI survey results are a component of the comprehensive annual QIS which documents any necessary remediation.

G.c.3 – Management annually reviews analysis of CARE data and implements necessary changes in policy, procedures or training to improve results. CARE data are a component of the comprehensive annual QIS which documents any necessary remediation.

G.b.1: QA Managers will review incident trends on a quarterly basis and determine the need for systematic interventions.

G.c.1, G.c.2, G.d.3 and G.d.4: RCS follows up on the citations/corrective action plan implementation within 60 days. DDA also reviews the RCS citations and providers' corrective action plans and conducts onsite visits within 120 days to review the restrictive procedures and other concerned areas involving clients' healthcare standards.

G.c.1 The state responds to citations in statements of deficiency in the following order:

- Once RCS issues the citations in statements of deficiency to the residential providers based on audit findings, residential providers submit their corrective action plans to RCS within 10 days of receiving the statements of deficiency.
- RCS and DDA reviews the providers' corrective action and makes appropriate recommendations to ensure the ongoing compliance with the identified issues. RCS conducts onsite visit within first 90 days of approving the providers' corrective plan to ensure the proper implementation of each steps identified in the corrective action plans.
- DDA reviews RCS visit details and make on-site visits within first 120 days of approving the corrective action plans to ensure that necessary steps are being taken and implemented by residential providers to ensure the on-going compliance in identified areas.
- DDA also provides:
 - o Consultation
 - o Training
 - o Technical Assistance and Support
 - o Additional Oversight

G.c.2 RCS issues citations in statements of deficiency for repeat citations. Depending upon the severity of the findings, RCS reviews may lead to disciplinary actions including up to decertification of residential providers with the state. DDA reviews for repeat citations of each residential provider and offers consultation, training, technical assistance and support to assist providers as required. If the provider is still unable to implement the necessary program changes, DDA will terminate the contract.

G.d.1. and G.d.2: For those with a health rating of "poor" who have not visited a doctor and those who haven't had a visit with a dentist within the past 12 months, case resource managers will discuss with waiver participants (and their families) the importance of visiting their doctor and dentist at least annually.

G.d.5 – Management reviews quarterly analysis of regulation violations in residential habilitation settings and focuses remediation on three most serious types of health and welfare regulation violations.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

| Responsible Party(<i>check each that applies</i>): | Frequency of data aggregation and analysis(<i>check each that applies</i>): |
|---|---|
| <input type="checkbox"/> State Medicaid Agency | <input type="checkbox"/> Weekly |
| <input checked="" type="checkbox"/> Operating Agency | <input type="checkbox"/> Monthly |
| <input type="checkbox"/> Sub-State Entity | <input checked="" type="checkbox"/> Quarterly |
| <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%;"></div> | <input checked="" type="checkbox"/> Annually |
| | <input type="checkbox"/> Continuously and Ongoing |
| | <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%;"></div> |

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 3)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I) , a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the assurances.

In Appendix H of the application, a state describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the state's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 3)

H-1: Systems Improvement

a. System Improvements

- i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

The Developmental Disabilities Administration (DDA) has managed at least one HCBS waiver since 1983. In 2003 a statewide effort was launched to coordinate the implementation of Quality Improvement in all agencies. We have developed multiple processes for trending, prioritizing, and implementing system improvements that have been prompted as a result of data analysis.

Internal DDA Systems

DDA uses several data systems that are vital to the implementation of the Waiver.

DDA Assessment:

- o The DDA Assessment is designed to discover the individual support needs of each individual who is assessed. It is a tool to help case resource managers plan for services and supports to meet the needs of individuals with developmental disabilities.
- o All Waiver participants will be assessed using this tool, which includes an assessment of caregiver stress, behavior issues, critical medical issues, and protective supervision needs.
 - Data is pulled as needed by program managers, waiver services unit manager, quality assurance staff and management.
 - Data is analyzed by the appropriate entity who is using the information for system improvement activities.

Comprehensive Assessment Reporting and Evaluation (CARE):

- o Assists case resource managers to provide effective monitoring of case status and service plans.
- o Provides a system of ticklers or alerts to cue case resource manager action at specific intervals based upon client need.
- o Provides an automated process for Exception to Rule (ETR), Prior Approvals and Waiver Requests.
- o Delivers a consistent, reliable and automated process.
- o Provides client demographic and waiver status in real time.
- o Provides management reports to look for trends and patterns in the Waiver caseload.
 - Data is pulled as needed by program managers, regional staff, quality assurance staff and management.
 - Data is analyzed by the appropriate entity who is using the information for system improvement activities.

Quality Compliance Coordinator (QCC) Review database:

- o Is used to collect review data to insure that the processes and procedures required in delivering waiver services are according to requirements.
- o Is used to develop regional and statewide corrective action plans.
 - Data is developed by the Office of Compliance, Monitoring and Training.
 - Reports are created at least annually.
 - Data is analyzed by DDA staff at a minimum annually.

DDA Incident Reporting system (IR):

- o The IR system provides management information concerning significant incidents occurring in our client's lives.
- o Individual incidents come first to the CRM for input into the IR system.
- o DDA has developed protocols and procedures to respond to incidents that have been reported.
- o Analysis processes are in place to review and monitor the health and welfare of DDA clients.
 - Data is pulled by the Incident Management Program Manager.
 - Data is pulled three times a year.
 - Data is analyzed by the Incident Reporting Team and as requested by DDA management.

Person-Centered Service Plan Meeting Survey:

- o A PCSP Meeting survey is mailed to waiver participants within one month of the PCSP planning meeting. This survey gives participants an opportunity to respond to a series of questions about the PCSP process. The survey is mailed from Central Office based on a random sample across all waivers with a 95% confidence level with a margin of error of +/-5%.

Information collected is analyzed annually by DDA staff.

- o Information regarding trends or patterns that is gathered from that data is acted upon, through additional training for case resource managers, clarification of information for participants, etc.
 - Data is pulled by the Research and Analysis Program Manager.
 - Data is pulled at least annually.

- Data is analyzed by DDA staff at a minimum annually.

Complaint Data Base:

o DDA maintains a Complaint data base that is the repository for complaints that rise above the standard issues that case resource managers or supervisors handle each day as a normal business practice.

- Data is pulled by the Research and Analysis Program Manager.
- Data is pulled at least annually.
- Data is analyzed by DDA staff at a minimum annually.

DSHS systems external to DDA:

ProviderOne and Individual ProviderOne/Health Care Authority:

o DDA audits information from this system to verify services identified in the Person-Centered Service Plan as necessary to meet health and welfare needs have been authorized.

o DDA also audits information from this system to ensure that services are only authorized after first being identified in the Person-Centered Service Plan.

- Data is pulled by the ProviderOne Program Manager.
- Data is pulled at least annually.
- Data is analyzed by DDA staff at a minimum annually.

Child Protective Services (CPS)/Department of Children, Youth and Families:

o CPS is responsible for investigating and making official findings on any accusations of abuse or neglect of a minor child.

o DDA refers all such incidents to CPS for investigation and works cooperatively with them to provide information about the incident and to protect the child during the investigation.

- Data is pulled by the Research and Analysis Program Manager.
- Data is pulled at the request of the Program Manager.
- Data is analyzed by DDA staff at a minimum annually.

Adult Protective Services (APS)/Aging and Long-Term Supports Administration:

o APS is responsible for investigating and making official findings on any accusations of abuse, neglect or exploitation of a vulnerable adult, who does not live in either a licensed setting or is served by a certified residential service.

o DDA refers all such incidents to them for investigation and works cooperatively with them to provide information about the incident and to protect the adult during the investigation.

- Data is pulled by the Research and Analysis Program Manager.
- Data is pulled at least annually.
- Data is analyzed by the Regional Quality Assurance Managers and as requested by DDA management.

Division of Licensing Resources (DLR)/Department of Children, Youth and Families:

o Monitors and licenses Children's Foster Homes, Group Homes and Staffed Residential Homes, which are utilized as respite resources in the waiver program.

o DDA works cooperatively with DLR to ensure homes are licensed and appropriate care is provided.

- Data is pulled by DLR.
- Data is pulled at the request of the Program Manager.
- Data is analyzed by the Program Manager and as requested by management.

Residential Care Services (RCS)/Aging and Long-Term Supports Administration:

o RCS is responsible for investigating provider practices in instances of abuse, neglect or exploitation of a vulnerable adult who receives services from either a licensed setting or is served by a certified residential agency.

o DDA refers incidents to them for investigation and works cooperatively with them to provide information about the incident.

- Data is pulled by the DDA Incident Management Program Manager.
- Data is pulled at least annually.
- Data is analyzed by DDA staff at a minimum annually.

FamLink/TIVA are electronic systems that maintains notifications, investigative and outcome information for CPS, APS and RCS. Data from FAMILINK/TIVA is used to track and trend information related to allegations of abuse, neglect, abandonment and financial exploitation.

Administrative Hearing Data Base:

- o The Administrative Hearings data base tracks requests for administrative hearings requested by waiver clients who disagree with decisions made by DDA.
- o DDA uses data from this data base to review the concerns of persons on the waivers and determine if there are system issues that need to be addressed.
 - Data is pulled by the Research and Analysis Program Manager.
 - Data is pulled at least annually.
 - Data is analyzed by DDA staff and as requested by DDA management.

Agency Contracts Database (ACD):

- o The ACD is an important tool in assuring that waiver service providers have contracts in place that meet requirements.
- o The tool is used by DSHS to monitor all state contracts.
- o The system monitors compliance with background check requirements, training requirements, evidence of any required licensure, and timeliness of contracts.
 - Data is pulled at least annually by the Contracts Program Manager.
 - Data is analyzed by DDA staff and as requested by DDA management.

External Non Governmental Systems:

National Core Indicators (NCI) Survey:

- o DDA has been participating in the NCI Survey since 2000.
- o DDA has adapted the survey to do a face-to-face survey in the home that addresses satisfaction with DDA services, providers and other key life indicators.
- o Additional questions have been added about waiver services.
- o This data is reviewed with stakeholders and state staff.
 - Data is pulled at least annually by the Research and Analysis Program Manager.
 - Data is analyzed by DDA staff and as requested by DDA management.
 - Recommendations for needed changes are developed from this process and necessary action is taken.

Developmental Disabilities Council (DDC):

- o The DDC partners with the state to conduct focus groups that look at the NCI data and make recommendations to the state.
- o Reports are developed by the DDC and submitted to the state for action.
 - Reports are delivered to DDA upon completion.
 - DDA responds with appropriate action.

Information from the above data systems is gathered and analyzed in order to continually monitor and make changes to our delivery system when the need is demonstrated. DDA utilizes a variety of methods to analyze data. Some examples include identifying trigger points that require more in-depth analysis using control charts and other types of analysis; or in-depth work focused on the occurrence of a serious incident.

Once the need for change has been determined through the analysis of data, DDA prioritizes quality improvement steps based on a risk management strategy that considers health and safety, best practices, legislative requirements, and CMS recommendations.

DDA then implements needed system improvements through a variety of methods, such as training and re-training; resource allocation; studies; policy or rule changes; and funding requests. DDA identifies who is responsible for implementation of the needed change, how that will be accomplished and timelines for accomplishing the needed change.

Strategies for improvement are specific to the type of improvement that is indicated by the data that has been reviewed. However the process is generally the same:

1. We review and analyze data;
2. We strategize to find solutions to any problems identified from the data;
3. Action plans are developed; and
4. Progress is reviewed until goals are accomplished.

ii. System Improvement Activities

| Responsible Party <i>(check each that applies):</i> | Frequency of Monitoring and Analysis <i>(check each that applies):</i> |
|---|---|
| <input type="checkbox"/> State Medicaid Agency | <input checked="" type="checkbox"/> Weekly |
| <input checked="" type="checkbox"/> Operating Agency | <input checked="" type="checkbox"/> Monthly |
| <input type="checkbox"/> Sub-State Entity | <input checked="" type="checkbox"/> Quarterly |
| <input type="checkbox"/> Quality Improvement Committee | <input checked="" type="checkbox"/> Annually |
| <input type="checkbox"/> Other Specify: <div style="border: 1px solid black; height: 20px; width: 100%;"></div> | <input checked="" type="checkbox"/> Other Specify: <div style="border: 1px solid black; padding: 5px;"> 2 times per year. 3 times per year. 6 times per year during the first year of the biennium. </div> |

b. System Design Changes

- i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.

The Developmental Disabilities Administration (DDA) uses a discovery and monitoring process to analyze the effectiveness of our current systems. All collected data is identified by waiver type in order to evaluate and monitor each individualized waiver program. Performance is measured in terms of outcomes. DDA uses both internal and external groups to analyze this data. DDA reviews data from multiple data sources to discover whether trends and patterns meet expected outcomes. DDA begins an improvement process if they do not. DDA's Quality Improvement (QI) process has been part of the Administration's activities for decades.

The goal of Quality Improvement in DDA is to promote, encourage, empower and support continuous quality improvement. Major areas of focus:

Surveys

- PCSP surveys give individuals/guardians an opportunity to provide anonymous feedback on the planning process. Information collected from these surveys is used to analyze the effectiveness of the planning process.

Reviews

- Reviews ensure that processes and procedures required in delivering waiver services are according to requirements.
- Waiver review findings are analyzed and shared with regional and statewide management teams for corrective action and system improvement.

Quarterly evaluations of performance measures

- Quarterly DDA Regional management reports on waiver performance.
- The report contains data such as the number of waiver assessments due with respect to the number that were completed, the regional progress on correction related to QCC audit findings, and many other key indicators of operational performance.

Training

- Training is a significant focus to ensure that administration employees are equipped with the skills and knowledge to carry out their waiver responsibilities.
- Annual Waiver training is provided for ongoing improvement.

There are many entities that play a critical role and are essential to DDA's Quality Management Strategy:

Internal (within DSHS)

Incident Review Team (IRT):

- This team meets monthly to review aggregate data from the Electronic Incident Reporting System and make recommendations to prevent incidents.
- Team members include:
 - o Waiver Program Managers (PM), Waiver Requirements PM, RHC PM, Incident Management PM, Mental Health PM, County Services Unit Manager, Quality Assurance PM, Compliance, Monitoring and Training Office Chief, Medicaid and Eligibility Office Chief, Statewide Investigation Unit Manager and Data Analyst for RHC investigation unit.

Mortality Review Team (MRT):

- Meets monthly to review deaths of participants and monitor and make recommendations on trends and patterns.
- Team members are:
 - o RHC PM, Mental Health PM, Residential PMs, Compliance Monitoring and Training Office Chief, Medicaid and Eligibility Office Chief, Waiver Services Unit Manager, Statewide Investigation Unit Manager, Nursing Services Unit Manager and PASRR and RHC Quality Management Systems Unit Manager.

Nursing Care Consultants (NCC):

- Assigned to Regions to review and monitor health and safety concerns.
- Nurses consult with case resource managers on health and welfare concerns.

Waiver Services Unit Manager and Regional Waiver Specialists:

- The primary responsibility for the implementation of this waiver resides with the Waiver Services Unit Manager and the IFS Program Manager
- Regional Waiver Specialists work collaboratively with the Waiver Service Unit Manager and IFS Program Manager to ensure proper implementation at the regional level.
- The Waiver Services Unit Manager and Waiver Specialists meet every other month to monitor waiver implementation and recommend necessary waiver changes.

Regional Quality Assurance (QA) staff:

- Provide quarterly reports which contain quality assurance information on incidents and other QA activities in the region.

Department of Children, Youth and Families:

- Division of Licensing Resources(DLR) monitors and licenses Children's Foster Homes, Group Homes and Staffed Residential Homes.
- Child Protective Services (CPS) provides investigation of incidents of abuse, neglect, abandonment and exploitation involving children.

External**Medicaid Agency Waiver Management Committee:**

- This committee meets four times per year and is comprised of representatives from the Health Care Authority (the single State Medicaid Agency), Home and Community Services, the Behavioral Health Administration, and the Developmental Disabilities Administration.
- The Committee presents information to the single State Medicaid Agency in the following areas:
 - o Annual reports from the three administrations
 - o QCC reviews
 - o National Core Indicators
 - o Fiscal reports

The HCA provides recommendations and feedback based on the information provided.

Stakeholder input and review of waiver programs:

- A web site offers stakeholders an opportunity to:
 - o Review annual reports.
 - o Review quality assurance activities.
 - o Provide suggestions for ways to better serve waiver clients.

Developmental Disabilities Council (DDC):

- The DDC is comprised of self-advocates, family members and department representatives.
 - o The DDC analyzes and provides recommendations for improvement using the National Core Indicators Survey as its' tool.

The HCBS (DDA) Waivers Quality Assurance Committee:

- Sponsored by the DDC and comprised of self-advocates, family members, providers and Department representatives.
 - o Meets four times a year, with provision for more frequent sub-committee meetings on select topics as needed.
 - o Provides a forum for active, open and continuous dialogue between stakeholders and the DDA for implementing, monitoring and improving the delivery of waiver services to best meet the needs of people with intellectual and developmental disabilities.

The Medicaid Agency Waiver Management Committee:

- Includes representatives from the Health Care Authority (the single State Medicaid Agency) and Administrations/Divisions within the operating agency: DDA, HCS, RCS, and BHA. The committee meets quarterly to review
 - all functions delegated to the operating agency, current quality assurance activity, pending waiver activity

(e.g., amendments, renewals), potential waiver policy and rule changes and quality improvement activities.

Various reports are disseminated to both external and internal groups. These groups are involved in evaluating the performance and progress of the Waiver program. Through this review process these groups also provide feedback on opportunities for improvement.

Included in the distribution cycle are:

Internal:

- DDA Assistant Secretary, HQ Management Team and Regional Management Team reviews:
 - o Quarterly Regional management reports on the waiver performance.
 - o The report contains data such as the number of waiver assessments due against the number that were completed, the regional progress on correction related to QCC review findings, and many other key indicators of operational performance.
- DDA Assistant Secretary, HQ Management Team and all Regional Management Teams reviews:
 - o The Quarterly Regional Quality Assurance Managers reports are compiled into one final report.
 - o Each regional QA report, also in a PowerPoint format contains 8 control charts from the key incident types, a detailed analysis of any client with 3 or more incidents, analysis of deaths, and information/ data on many other QA activities in the region.
- o When the final report is compiled best practices and concerns are reviewed and necessary action is taken.

QCC reviews:

- Statewide analysis of review findings. The report includes data and recommendations from the annual review cycle. This report is then shared with the Medicaid Agency Waiver Management Committee and the Statewide Management Team.
- Regional review findings. The regional reports are specific to the regional review. Each report provides an analysis of the data from the most current review and compares historical data (when available).

DDA Assistant Secretary Reviews:

- Monthly fiscal reports provided by Management Services Division (MSD).
 - o These reports provide detailed analysis of the waiver expenditures and clients served.

External

A web site offers stakeholders an opportunity to review:

- Annual waiver progress/performance reports.
- The reports are often PowerPoint presentations with control charts or Pareto charts constructed from data related to performance measures.

Washington State Developmental Disabilities Council (DDC):

- Annual NCI Core Indicator reports are provided to the DDC for their recommendation and feedback.
- The NCI reports focus on participant satisfaction or areas of concern.
- The DDC invites families and self-advocates to review the data from the National Core Indicator survey report. Their feedback and recommendations are then shared with DDA management after every evaluation.

The Medicaid Agency Waiver Management Committee:

- Includes representatives from the Health Care Authority (the Single State Medicaid Agency) and Administrations/Divisions within the operating agency: DDA, HCS, RCS, and BHA.
- Meets at least quarterly to review:
 - o All functions delegated to the operating agency
 - o Current quality assurance activity
 - o Pending waiver activity (e.g., amendments, renewals)
 - o Potential waiver policy and rule changes

o Quality improvement activities

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

The Developmental Disabilities Administration (DDA) believes that the quality of programs and services delivered to people with developmental disabilities in Washington State is everyone's business. The evaluation and improvement of processes and systems are ongoing. All collected data is identified by each waiver type in order to evaluate and monitor individualized waiver program effectiveness.

Each year DDA improves services to waiver clients by using the numerous data collection points, appropriate analysis and prioritization techniques, evaluation and feedback from differing groups.

DDA also seeks the assistance of CMS and other entities through grants, conferences, or Best Practices information, to continue to refine benchmarks for improvement and evaluate the system against those benchmarks.

The Quality Improvement Strategy will be re-evaluated at least once during the five year approval period. The following process will be followed in reviewing and updating the Quality Improvement Strategy:

- o DDA will maintain a waiver management strategy.
- o All processes and strategies will be continuously improved through the various methods of evaluation, monitoring, analysis and actions taken.
- o DDA will work with participants, families, advocates, and providers to identify opportunities for performance improvement and report the progress being made back to stakeholders.
- o State staff, providers and stakeholders will provide ongoing monitoring of the system. Changes may be recommended by any of the above entities.

Explanation and Examples of Types of Data Analysis Used:

Charting Data: Using charts and graphs, often provides greater insight and interpretation of data. Data charts provide a powerful tool to help observe and analyze the behavior of processes and the effects of trial solutions. They are the best way to present data to others helping them to quickly grasp the information.

Chart Selection Guide: The information below summarizes several chart types that are useful in Quality Improvement and suggests possible applications:

A pie chart presents data as a percentage of a total. Examples of application include sources of errors and make up of a budget.

A bar chart presents comparisons of data categories. These can be categories at a point in time or changes in categories over a period of time. Examples of application include the number of errors over time, process output by month or by department, and comparison of results using different methods.

Pareto charts present data relative to the size of categories in order. Examples of application include customer quality characteristics in order of importance, and types of customer complaints.

Histo-grams present a distribution of a set of data (how frequently the given values occur) and shows the stability of a process. One example of application is variation of complaint resolution times.

Line charts represent behavior over time, same data collection frequency, and X charts. Examples of application include time to complete inspections over time, and the number of customer complaints over time.

Control charts present the common cause and special cause variation based on 3 sigma of the average, X bar and R, X and mr charts. Examples of application include time to fulfill customer requests, and the number of IRs per month.

Description of common quality assurance system across all five DDA waivers:

In 2014 waiver amendments, CMS approved Washington State's modification of its sampling design for compiling data on its performance measures from sampling waivers individually to drawing a single sample across all of its DDA HCBS waivers. This language was removed in error from the waiver renewal in 2017 and is replaced here. The DDA HCBS waiver program meets the conditions that are a requirement for the use of this sampling method and will allow a one-year cycle for data collection on performance measures, compared with the

previous two-year cycle necessitated by the larger total sample size.

1. Design of the waivers

The DDA waivers are all very similar in design in that the waivers have many services in common, participant safeguards are common across waivers, and a single quality management and improvement strategy is used for the entire DDA waiver program. In addition, waiver program case management is provided by state employees for all waiver participants and the same assessment is used to develop the person-centered service plan (PCSP).

2.a. Participant Services

Many services are identical across waivers, and the rest are much more similar than different. And oversight of services (e.g., to ensure provider contracts are in place, providers are qualified, services authorized are being provided) is based on the same processes across all waivers.

The following services are covered by all of DDA's current waivers: assistive technology, stabilization services (specialized habilitation, crisis diversion beds, staff/family consultation services), environmental adaptations, risk assessment, specialized equipment and supplies, staff/family consultation services and transportation.

The following services are covered by three or four of the DDA waivers: community engagement, community inclusion, extermination of bed bugs, physical therapy, occupational therapy, speech, hearing and language services, respite, skilled nursing, specialized habilitation, individual supported employment/group supported employment, individualized technical assistance, therapeutic adaptations and wellness education.

Services specific to one or two waivers are community transition, residential habilitation, equine therapy, music therapy, supported parenting services, peer mentoring, person-centered plan facilitation, specialized evaluation and consultation and specialized clothing.

2.b. Participant Safeguards

1. Response to Critical Events or Incidents

Responses to critical events or incidents are not differentiated based on waiver type. Differences in response are based on the setting (e.g., licensed, certified or private residences) and/or the entity responsible for investigating (i.e., Child Protective Services, Adult Protective Services, Residential Care Services). Critical events or incidents must be reported irrespective of the setting or waiver enrollment.

2. Safeguards concerning restraints and restrictive interventions

DDA's extensive protocols concerning the use of restraints and restrictive procedures are not waiver-specific. (Please see Appendix G-2 for an inventory of relevant DDA policies.) In addition, reporting and investigating of abuse and neglect apply to all settings.

2.c. Quality Management Processes and Mechanisms

Critical components of the quality management system include:

- DDA Assessment
- CARE (Comprehensive Assessment Reporting and Evaluation)
- Quality Compliance Coordinator (QCC) Protocols and Data Base
- DDA Incident Reporting System
- Person-Centered Service Plan Meeting Survey
- Complaint Data Base
- Administrative Hearing Data Base
- Agency Contracts Data Base
- National Core Indicators Surveys

3.a. Methodology for discovering information (e.g., data systems, sample selection)

The methodologies for discovering information are common across the entire DDA HCBS waiver program. These methodologies include:

- Quality Compliance Coordinator (QCC) sampling of waiver participant files and file reviews to ensure waiver assurances are being met.
- Person-Centered Service Plan (PCSP) Meeting Survey, which is mailed within one month of the PCSP planning meeting and gives waiver participants an opportunity to respond to a series of questions about the PCSP process.
- National Core Indicators (NCI) Surveys, which includes a standardized set of questions used by all participating states. In addition, WA State has added questions about waiver services. Waiver participants as

well as

parents/guardians receive the survey.

- FAMLINK, which is an electronic system that maintains notifications, investigative, and outcome information for Child Protective Services (CPS). Data from FAMLINK is used to track and trend information related to allegations of abuse, neglect, abandonment and financial exploitation.
- TIVA (Tracking Investigations of Vulnerable Adults), which is an electronic system that maintains notifications, investigative, and outcome information for the Resident and Client Protection Program (RCPP) in Residential Care Services (RCS) and Adult Protective Services (APS) investigations. An additional data feed from ProviderOne has also been included to allow TIVA to collect information related to children and adolescents (under age 21 years) who are receiving mental health services and involved in abuse, neglect, and/or exploitation investigations. Data from TIVA is also used to track and trend information related to allegations of abuse, neglect, abandonment and financial exploitation.
- Administrative Hearing Data Base, which tracks requests for administrative hearings requested by waiver participants who disagree with decisions made by DDA. DDA uses data from this data base to review the concerns of waiver participants to determine if there are system issues that need to be addressed.
- Agency Contracts Database (ACD), which is used to monitor provider compliance with contracting requirements, including background check requirements, training requirements, and licensure and certification requirements.
- Mortality Review Team (MRT) Reviews of waiver participant deaths.

3.b. Manner in which individual issues are remedied.

Since all waiver participants have a state-employed Case/Resource Manager or Social Services Specialist, remediation activities typically begin at the case management level. In all cases, the DDA strives to provide waiver participants, families and DDA employees with the tools and information necessary to implement HCBS waivers that successfully support individuals in their communities.

When issues with respect to individual waiver participants are identified, case management staff are notified so that immediate action can be taken to address the issues.

Information from the various data sources described above is analyzed to determine: a) whether issues are systemic or individual, and b) the optimum strategy to address the issues identified.

Strategies to address issues in the DDA HCBS waiver program include:

- Edits in computer-based systems to require necessary information be included or to prevent inappropriate action;
- Additions to or development of computer-based systems to accommodate waiver processes such as person-centered planning and quality improvement activities such as monitoring of waiver participant abuse and neglect;
- Revisions in Washington Administrative Code (WAC) to clarify waiver requirements so that waiver participants, families and DDA staff all understand waiver requirements;
- Revisions or additions to DDA publications that provide waiver participants, guardians and families with up-to-date information on the HCBA waivers available, including the populations served, services covered, how to request waiver enrollment, and administrative hearing rights and procedures; and
- Revisions or additions to guidance (e.g., staff training, the DDA waiver manual, management bulletins, WAC) provided to DDA case management staff on the waivers and waiver-related processes (e.g., waiver enrollment, development of the person-centered plan, provision of waiver services, oversight of the individual support plan).

See additional information at Main.B. Optional

Appendix H: Quality Improvement Strategy (3 of 3)

H-2: Use of a Patient Experience of Care/Quality of Life Survey

- a. Specify whether the state has deployed a patient experience of care or quality of life survey for its HCBS population in the last 12 months (*Select one*):

- ☐ No
- ☒ Yes (Complete item H.2b)

b. Specify the type of survey tool the state uses:

- ☐ HCBS CAHPS Survey :
- ☒ NCI Survey :
- ☐ NCI AD Survey :
- ☐ Other (Please provide a description of the survey tool used):

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

a) Providers are not required to have an independent financial audit of their financial statements. Agency providers are required to submit a cost report. If the department has reason to be concerned, the department will request an audit by Operations Review and Consultation or the State Auditors Office. Operations Review and Consultation is within DSHS. The State Auditors Office is a state agency outside the Department of Social and Health Services.

b) The Office of Rates Management annually conducts desk audits on all annual cost reports submitted by providers. The revenues reported by providers are reconciled to the payments made through ProviderOne and Individual ProviderOne for services and the provider's contract(s) in place during the period. The Office of Rates Management may require additional information from the provider (payroll records, other financial records, etc.) if there are concerns about the integrity of the cost report information. The Office of Rates Management may also conduct on-site reviews of provider financial records to ensure that the cost report is accurate and completed in accordance with contract requirements. First, only claims that have an approved authorization can be paid. If a claim is determined to be inappropriate, the authorization will be amended and an adjustment will be made to the claim that will cause it to reprocess, deny, and the resulting debt that is created will be sent to the Office of Financial Recovery for collection. FFP is revised to match the corrected authorization.

The CDE is required to have an annual independent financial audit and provide the results to the state.

The Office of Rates Management audits cost reports submitted by residential providers in accordance with the processes and procedures outlined in DDA Policy 6.04 Cost Reports for Supported Living, Group Training Homes, and Group Homes and DDA Policy 6.02 Rates, Billing, and Payment for Supported Living, Group Training Homes and Group Homes to ensure provider costs do not include unallowable expenses, such as the cost for room and board. State utilizes a tiered rate methodology where the rate varies by identified characteristics of the individual client, county of residence and composition of the household. Nine tiers are formed by matching individuals, stratified by the DDA assessment, with associated payment brackets, which are based on average cost of service. Cost reports are submitted by residential providers to the State on a State-designed form and include the following rate components: instruction and support services (ISS), administrative, transportation, residential professional services and other non-ISS supports. Additional allowable costs may include cost of care adjustments, staff add-on for client-specific need, client transition and summer program for supported living clients. Detail in the cost reports and supporting documents provided by residential providers help rates management auditors ensure accurate cost reports by verifying: all sections of the cost report are complete; all information matches the ProviderOne payment report; the report conforms with generally accepted accounting principles; and the reports meet the requirements of the providers contract.

On-site reviews conducted by the Office of Rates Management are at their sole discretion and may occur if the Office of Rates Management deems it necessary to validate the information contained in the cost report by reviewing provider financial records.

The Office of Rates Management sends a letter to the provider describing the results for both the desk and on-site audits. If the state requires correction action plans from providers, the Office of Rates Management will follow-up with the providers to verify that the corrective action plans have been completed evidenced by corrected cost reports and audited financial records.

c) The State Auditor's Office conducts the periodic independent audit of the waiver program as required by the single audit act.d)Federal rules are followed for agencies that have non-profit status per the Single Audit Act and OMB Circular A-133. A single or program specific audit is required for the AAA and other subcontractors who expend more than \$750,000 in federal assistance in a year.

The State implemented EVV for Personal Care, Skills Acquisition, Respite and Relief Care provided by individual providers and home care agencies effective January 1, 2021. EVV utilizes a 21st Century Cures Act compliant mobile application, Time4Care, to capture and report the six required data elements: 1) type of service performed including service delivery detail, activities and visit notes; 2) who received the service; 3) real time capture of date of the service; 4) who provided the service; 5) real time capture of location of service delivery via GPS; and 6) when the service begins and ends using real time clock in/clock out functionality.

• EVV is used to monitor the State's financial integrity and accountability and reduce fraud, waste and abuse. The EVV application, Time4Care, has the following features:

- is 21st Century Cures Act compliant;
- allows for the control and flexibility of service delivery;
- the application is simple to use and records time offline without an internet connection;
- Time4Care is integrated with the WA IPOne web portal;
- Error trapping – Time4Care lets providers know in real time if there are problems with their data entries;

- Time4Care is designed to mitigate fraud, waste and abuse.

This waiver provides Skilled Nursing, the only Home Health Care Service which is subject to the State's fully implemented EVV system.

The State's EVV system allows the location data, time-in and time-out data provided by the EVV system to be seen as a component of the State's MMIS, ProviderOne, which permits detailed monitoring of Skilled Nursing service delivery to waiver participants in their homes.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

I.a.1. # & % of claims coded & paid in accordance with reimbursement methodology in approved waiver for waiver services rendered per waiver participant's PCSP with documented service delivery. N = # of claims coded & paid in accordance with reimbursement methodology in approved wvr for wvr services rendered per wvr part's PCSP with documented service delivery. D = # of wvr claims reviewed.

Data Source (Select one):

Record reviews, on-site

If 'Other' is selected, specify:

- b. Sub-assurance:** *The state provides evidence that rates remain consistent with the approved rate methodology throughout the five year waiver cycle.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

I.b.1. # & % of waiver provider rate methodologies utilized by contract specialists that are consistent with rate methodology in approved waiver application. N = # of wvr provider rate methodologies utilized by contract specialists that are consistent with rate methodology in approved wvr application. D = # of wvr provider rate methodologies utilized by contract specialists that were reviewed.

Data Source (Select one):

Other

If 'Other' is selected, specify:

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

I.a.1:

The Waiver Team completes a review of all paid claims files across all waivers annually using the ProviderOne MMIS. Findings that require corrections are referred to Payment Specialists who will work with case resource managers to make necessary corrections within 90 days.

I.b.1: Waiver Team annually audits a stratified random sample of provider contracts across all waiver services to verify that provider rate methodologies utilized by contract specialists are consistent with the rate methodologies in the approved waiver. When unapproved rate methodologies are found, contract specialists are notified and contracts are modified or terminated. Waiver Team follows up with contract specialists to verify that contracts are modified or terminated.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

I.a.1. Annual waiver file review:

Findings from Waiver Team and Supervisor file reviews are analyzed by DDA staff and reviewed by DDA management. Based on the analysis necessary steps are taken to increase compliance. For example:

- *Annual Waiver Training curriculum is developed in part to address review findings.*
- *Personnel issues are identified.*
- *Form format and instructions are modified.*
- *Waiver WAC is revised to clarify waiver rules.*
- *Regional processes are revised.*

Providers whose service authorization included a rate higher than the contracted rate are reviewed to determine the appropriate course of action. Overpayments are processed as necessary.

I.b.1.: Waiver Team annually audits a stratified random sample of provider contracts across all waiver services to verify that provider rate methodologies utilized by contract specialists are consistent with the rate methodologies in the approved waiver. When unapproved rate methodologies are found, contract specialists are notified and contracts are modified or terminated. Waiver Team follows up with contract specialists to verify that contracts are modified or terminated.

ii. Remediation Data Aggregation***Remediation-related Data Aggregation and Analysis (including trend identification)***

| <i>Responsible Party(check each that applies):</i> | <i>Frequency of data aggregation and analysis (check each that applies):</i> |
|--|--|
| <input type="checkbox"/> <i>State Medicaid Agency</i> | <input type="checkbox"/> <i>Weekly</i> |
| <input checked="" type="checkbox"/> <i>Operating Agency</i> | <input type="checkbox"/> <i>Monthly</i> |
| <input type="checkbox"/> <i>Sub-State Entity</i> | <input type="checkbox"/> <i>Quarterly</i> |
| <input type="checkbox"/> <i>Other</i> <i>Specify:</i> <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div> | <input checked="" type="checkbox"/> <i>Annually</i> |
| | <input type="checkbox"/> <i>Continuously and Ongoing</i> |
| | <input type="checkbox"/> <i>Other</i> <i>Specify:</i> <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div> |

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

☒ *No*

☐ *Yes*

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. *In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).*

All negotiated rates comply with Federal and Washington State minimum wage requirements.

The DDA and the Health Care Authority follow the federal guidelines found in 42 U.S.C. § 1396a(a)(30)(A) when establishing rates so that payments are consistent with efficiency, economy and quality of care and are sufficient to enlist providers for services to ensure adequate access to care for Medicaid recipients. Steps taken to ensure rates comply with federal requirements include: workgroups, stakeholder meetings, consultation with program managers, consultation with professional organizations, analysis of market rates, rates paid by other states for comparable services, and the budget impacts of rates. For example, for nursing services, comparable services in the private sector and in other states include private duty nursing/in-home nursing as provided by LPNs or RNs.

Payment cannot exceed 1) the prevailing charges in the locality for comparable services under comparable circumstances, or 2) the rates charged for comparable services funded by other sources. Methods for determining reasonable rates include periodic market surveys, cost analysis and price comparison. HCA conducts these activities every two to four years, per requests by the Legislature and/or indications that access to services is being impacted by current rates. For DDA rates, this information has been added below under each set of services.

Waiver service definitions and provider qualifications are standardized. This helps ensure that rates are comparable (not necessarily identical) across the state for those services that are negotiated on a regional basis by DDA staff, as rates are for identical services with providers meeting the same qualifications.

HCA rates are updated every January with any possible new codes, and rates are changed every July to align with the new relative value units (RVUs), State geographic price cost index (GPCI), and State specific conversion factor. For codes that do not have RVUs, rates are usually set at a flat rate. If analysis shows they need to be updated, that happens every July with the other codes. The most recent update was in July 2021, and are reviewed every July.

With respect to rates established by DDA, the most recent rate comparison was conducted in the January of 2019. If a rate change is not budget neutral, it would be made only if funding was provided by the Legislature or the Legislature required service coverage changes to save the funding needed for the rate change.

For HCA-based rates, an amendment to the rates is triggered by directive and/or funding by the Legislature, and/or a change to RVUs, and the Legislature is responsible for funding rate changes. The HCA identifies the need for a rate change using indicators listed below. Without additional funding, rate changes must be budget neutral. If a rate change is not budget neutral, it would be made only if funding was provided by the Legislature or the Legislature required service coverage changes to save the funding needed for the rate change.

For DDA, specifics regarding when rates are adjusted & the criteria used to evaluate the need for rate adjustments are at the end of the discussion of each set of services. When funding is available, the Legislature mandates rate increases for specific types of vendors (e.g., individual providers, residential providers, adult family homes) and/or services.

Regarding criteria for HCA to adjust rates, RVU driven rates are updated yearly per new RVUs. For flat rates, a significant (e.g., 25%) drop in the use of services by Medicaid participants, a significant (e.g., 25%) drop in the number of enrolled providers, an indication that payment rates are substantially (e.g., 40%) below third-party insurer rates, and/or a request by the Legislature for an analysis of rate adequacy are indicators of the need for rate adjustments.

Rates are adjusted with approval from the Legislature.

Rates negotiated with employee unions are static during the life of the contract & are the rates identified within the contract. These rates are only adjusted as written within the contract.

Regarding the cost allocation plan, DSHS does not establish indirect rates for Title XIX administration. A Public Assistance Cost allocation plan allocates administrative costs through various allocation methodologies (see attachment for the most current submission). The Public Assistance Cost Allocation plans for DDA & ALSTA describe the cost allocation methodologies to the CFDA (Medicaid) grant level & does not list specific waivers.

While the Public Assistance Cost Allocation plan for the DDA (submitted as a PDF attachment) does not list specific waivers, the cost accounting system allocates the Medicaid portion to the specific funding of the clients served. A portion of the cost of all DDA staff (e.g., regional staff associated with community-based services, Central Office staff including the waiver unit staff & administrative & management staff) who provide administrative and/or technical support to the waiver program is charged as Title XIX administration & allocated by the funding source of the clients served (both state plan & waiver).

There will be no administrative charges for the IFS waiver until client services under the approved waiver are provided & paid, since the portion of staff costs charged to Title XIX administration is based on either caseload or expenditures for Title XIX services.

The State engages in significant public input processes outlined in Main Section 6-I.

Rates do not vary by geographical location.

Community Engagement: Flat Fee

Peer Mentoring: Flat Fee

Person-Centered Plan Facilitation: Flat Fee
Nurse Delegation: Flat Fee set by legislature
Skilled Nursing: Flat Fee set by legislature
Supported Parenting: Flat Fee aligned with staff/family consultation

Assistive Technology, Specialized Clothing, Specialized Equipment & Supplies, Specialized Medical Equipment & Supplies and community-based settings for respite services: Rates are based on usual & customary charges for the products/services as paid by the general public. Charges are adjusted by the supplier based on overhead, staff wages & the local demand for the products/services. To maintain availability of these products/services for waiver participants, DDA adjusts rates annually if rate comparisons indicate prevailing market rates have increased significantly (e.g., 20%+).

Community Engagement, Peer Mentoring, Person Centered Plan Facilitation: Rates are standardized & state-wide based on the skills required. Rates will be adjusted as necessary based on the demand for the services, availability of providers, & adjustments in rates made to providers of services that require similar skill levels. Rate changes may be initiated by providers or by DDA. DDA will review the adequacy of the rates annually using rate comparisons. Rates will be changed if current rates will result in providers terminating their contracts & rate comparisons indicate IFs Waiver payment rates are at least 20% less than those for individuals with comparable skills. Therapeutic Equipment & Supplies was removed from the waiver effective September 1, 2020.

Extended State Plan Services (Occupational Therapy, Physical Therapy and Speech, Hearing & Language Services): These services are paid via ProviderOne, Washington State's approved MMIS. These rates are established by the HCA & are updated every January with any possible new codes, & rates are changed every July to align with new RVUs, State GPCI, and State specific conversion factor. The most recent update was in July 2021, and are reviewed every July.

Respite: The Washington State Legislature determines the rates for the following providers:

- *CDE who employs Individual Providers of respite*
- *Transportation provided by Individual Providers of respite*
- *Home Care Agencies*

Respite rate methodology: Individual and Home Care Agency respite providers:

Respite rates are based on a per hour unit and is determined by a rate setting board and approved by the State legislature. The rate includes wages, L & I, vacation pay, mileage reimbursement, comprehensive medical, training, and seniority pay. For individual providers who have completed the home care aide certification, the hourly rate also includes a certification differential payment. Due to the agency parity law [RCW 74.39A.310(1)(a)(v)] the home care agency vendor rates are equivalent to that of the individual provider rate. Rates for Individual Providers of respite, transportation provided by Individual Providers of respite and Home Care Agencies will be reflected in the published fee schedule based upon the state fiscal year July 1 through June 30. The fee schedule is updated at least annually to reflect any rate changes resulting from legislative action or collective bargaining. Rate changes are determined through legislative action and appropriation. Rates may be reviewed annually during the 5-year period or sooner if rates are not sufficient to meet economy, efficiency, or quality of care to enlist enough providers.

Changes to rates for Individual Providers: The rate setting board reviews the rates every two years for Individual providers. Changes to rates for Agency Providers: Due to the agency parity law [RCW 74.39A.310(1)(a)(v)] the home care agency vendor rates are equivalent to that of the individual provider rate. • Enabling legislation set the starting rates in 2019 and due to the delayed implementation to 2021, the rates have been updated to July 2021.

Waiver services rates have been reviewed in the last five years on varying schedules. Residential habilitation provider rates were last reviewed and many rebased in 2019, assistive technology, specialized equipment and supplies, environmental adaptations, nursing, person centered plan facilitation, staff/family consultation, supported parenting, respite, and community engagement rates were reviewed and rebased when appropriate, in 2021/2022, and peer mentoring, specialized habilitation, music and equine therapy, and risk assessment are being reviewed now in 2022 for potential rebasing, if necessary in 2023.

Service rates are not determined geographically.

Continued at Main. B-Optional

- b. Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

The Department of Social and Health Services (DSHS), the State Operating Agency, receives funding appropriated by the Legislature in the biennial budget. Funding (both state dollars and federal dollars) is provided to DSHS and allotted to the Developmental Disabilities Administration (DDA). DDA receives the appropriation and allots funds to its operating regions via Regional Budgets for most service (e.g., residential, personal care, professional) categories.

Direct Service Payments

Washington State's Health Care Authority (the single state Medicaid Agency) has a MMIS titled "ProviderOne". The State makes most payments for client services through ProviderOne. Once a provider is authorized for a service that the provider must claim, the provider provides the service and submits the claim directly into the MMIS ProviderOne system. Payments are issued by EFT or Warrant.

Case managers pre-authorize services based on the assessed need for the services. After the goods or service are provided the provider then reports the amount of service provided by date of service and are paid based on their claim. ProviderOne is an integrated MMIS system that manages medical and social service claims. Independent contractors who receive a 1099 tax form are paid directly through ProviderOne. Individual providers who receive a W2 for reportable wages are paid through a payroll system operated by the CDE. All authorization and claim data regardless of provider type is integrated and reportable in ProviderOne and the ProviderOne data warehouse.

Payments to State Employees

The State-Operated Living Alternatives (SOLA) programs are supported living program staffed with state employees. Employee salaries are included in the appropriation provided to the Administration by the Legislature. Salaries for State-staffed stabilization services - crisis diversion bed as components of stabilization services are also included in the appropriation provided to the Administration by the Legislature. State employees that provide these services are paid twice a month like other state employees, with the payment amount determined by their job classification and experience.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

c. Certifying Public Expenditures (select one):

- ☒ **No. state or local government agencies do not certify expenditures for waiver services.**
- ☐ **Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.**

Select at least one:

- ☐ **Certified Public Expenditures (CPE) of State Public Agencies.**

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-a.)

- ☐ **Certified Public Expenditures (CPE) of Local Government Agencies.**

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

*d. **Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:*

a.) Individual was eligible for Medicaid waiver payment on the date of service.

1) ProviderOne has a waiver identifier based on waiver status that indicates an individual is on a home and community-based services waiver.

2) Waiver Status in CARE Waiver Screen The Developmental Disabilities Administration's CARE includes a Waiver Screen that contains the type of waiver an individual is on, the waiver begin date, and waiver end date (if any). A waiver effective date for the individual is entered into the Waiver Screen by CARE once the necessary waiver eligibility confirmation steps have been completed. These include verification of the need for ICF/IID Level of Care (LOC) and financial eligibility (as established by financial workers in the Long Term Care & Specialty Programs Unit within DDA), documentation of Voluntary Participation statement (Form #10-424), verification of disability per criteria established in the SSA, and completion of an Person-Centered Service Plan (PCSP). CARE enters a waiver effective date based on the effective date of the person-centered service plan (PCSP), which is the last step in the waiver eligibility verification process. The waiver effective date serves as the beginning date for claiming of federal financial participation for waiver services. Case Resource Managers may only assign a waiver Recipient Aid Category (RAC) once the steps outlined above are complete. Should a waiver RAC be assigned but a participant has a lost of financial eligibility during the coverage period, ProviderOne will post edits.

The usual MMIS edits will be applied to billings under the IFS Waiver. I.e., the following will be verified: the individual is on the IFS Waiver, the service is covered under the IFS Waiver, the provider is a valid provider of the service, the provider is a qualified provider with a current contract, and the specifics of the claim are consistent with the service authorization completed by the DDA case resource manager.

b.) Service was included in the participant's approved person-centered service plan to assure the pre-payment process for validating provider billings. PCSPs are updated as needed and at least annually (please see Appendix H-1.b.3 for a description of the steps taken to ensure PCSPs are updated).

DDA Quality Compliance Coordinators (QCCs) annually review a statewide sample of clients. Their review includes a comparison of service payments with the services contained in approved PCSPs to ensure that services claimed against the IFS Waiver are contained in the approved PCSP.

c.) The services were provided.

Monitoring of the provision of services is outlined in Appendix H-1-b-4. Steps taken include:

- QCC file reviews verify the authorization matches the PCSP including the type, scope, amount, duration and frequency of the service. When findings occur, regions have 30 days to correct problems. QCCs monitor the corrective action plans.
- CRMs or Social Service Specialists complete a review of last year's plan with the waiver recipient prior to beginning the planning process for the upcoming year. A portion of the review is to confirm that services were received in accordance with the PCSP.
- The State participates in the National Core Indicators Survey, which includes waiver related questions. This annual face-to-face sampling of waiver participants enables DDA management to evaluate PCSP outcomes from the recipient's perspective.

Services provided in state operated settings are not billed through the MMIS. These State-operated services have the same assurances of validation as

State-contracted services paid through the MMIS:

- The person is enrolled and meets eligibility requirements for the waiver program on the date of service.
- The service type, scope, amount, duration and frequency are identified in the approved service plan.
- There is documentation of the service and the state operated setting meets certification, licensing, training and other requirements.
- Individuals receiving waiver services in state operated settings receive case management visits at least annually or when there is a significant change.

The state's CARE system compiles the information for the essential tests along with residence leave to settings such as hospitals or nursing facilities to identify dates of service that are eligible to claim match and are reconciled monthly prior to claim of match.

The state adjusts FFP whenever an incorrect billing is identified. This is done by adjusting the claim in MMIS. The state adjusts billings when reconciliations reveal a change in status or eligibility of a client. The state also adjusts billings when reconciliations reveal inappropriate billings (duplicate billings, billings for non-waiver services, etc.) and removes them from claims for FFP.

Revised PMs D.a.1, D.a.2, D.d.1, D.d.2, D.d.3, D.d.4 & D.d.5 all measure various means of verification that planned services were provided.

- e. Billing and Claims Record Maintenance Requirement.** Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

- ☐ **Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).**
- ☒ **Payments for some, but not all, waiver services are made through an approved MMIS.**

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

The State makes most payments for client services through ProviderOne. ProviderOne is an unified Medicaid payments system that provides enforcement and assurance that case resource managers and providers are compliant with rules and policy. Once a provider is authorized for a service that the provider must claim, the provider provides the service and submits the claim directly into the MMIS ProviderOne system. Payments are issued by EFT or Warrant. In ProviderOne payments are based on an authorization by the case resource manager however there is not an invoice processed. Both providers and clients are notified of creation or changes to authorization. The provider then submits an online claim for payment based on the units provided. Claims are specific to the date of service. Providers can claim as often as daily if they choose. Payment can be made as frequently as weekly. A report of time worked by date will be required before payment will be made. ProviderOne is an unified Medicaid payments system that provides enforcement and assurance that case resource managers and providers are compliant with rules and policy.

Example of benefits of ProviderOne:

- Client and provider eligibility is checked at the authorization and at the claim. If a client does not have the correct financial eligibility or does not meet waiver criteria such as having an individualized assessment or is not ICF/IID eligible an authorization error will populate preventing payment prompting the case resource manager to either resolve the error or work with the client to help them meet eligibility criteria. If providers do not have the correct contract or correct credential, if required, for the authorized service an authorization error will populate and payment will not be made. Washington utilizes one system to process claims pertaining to the services provided to waiver participants. For Individual Providers of respite, payments are processed through their employer, the CDE. The CDE uses the State's MMIS system for all claims. CDE's phase-in was completed May 31, 2022. No new services will be claimed by Individual providers through the ProviderOne billing system. Poaitive Behavior Support and Consultation was removed from this waiver effective September 1, 2022.*

- ☐ **Payments for waiver services are not made through an approved MMIS.**

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ *Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.*

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

- b. Direct payment.** *In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):*

- ☒ *The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.*
- ☐ *The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.*
- ☒ *The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.*

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

The Department of Social and Health Services (DSHS), the State Operating Agency, receives funding appropriated by the Legislature in the biennial budget. Funding (both state dollars and federal dollars) is provided to DSHS and allotted to the Developmental Disabilities Administration (DDA). DDA receives the appropriation and allots funds to its operating regions via Regional Budgets for most service (e.g., residential, personal care, professional) categories.

Direct Service Payments

Washington State's Health Care Authority (the single state Medicaid Agency) has a MMIS titled "ProviderOne". The State makes most payments for client services through ProviderOne. Once a provider is authorized for a service that the provider must claim, the provider provides the service and submits the claim directly into the MMIS ProviderOne system. Payments are issued by EFT or Warrant.

Case managers pre-authorize services based on the assessed need for the services. After the goods or service are provided the provider then reports the amount of service provided by date of service and are paid based on their claim. ProviderOne is an integrated MMIS system that manages medical and social service claims. Independent contractors who receive a 1099 tax form are paid directly through ProviderOne. Individual providers who receive a W2 for reportable wages are paid through a payroll system operated by the CDE. All authorization and claim data regardless of provider type is integrated and reportable in ProviderOne and the ProviderOne data warehouse.

Payments to State Employees

The State-Operated Living Alternatives (SOLA) programs are supported living program staffed with state employees. Employee salaries are included in the appropriation provided to the Administration by the Legislature. Salaries for State-staffed stabilization services - crisis diversion bed as components of stabilization services are also included in the appropriation provided to the Administration by the Legislature. State employees that provide these services are paid twice a month like other state employees, with the payment amount determined by their job classification and experience.

- ☐ *Providers are paid by a managed care entity or entities for services that are included in the state's contract with the entity.*

Specify how providers are paid for the services (if any) not included in the state's contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- ☒ **No. The state does not make supplemental or enhanced payments for waiver services.**
- ☐ **Yes. The state makes supplemental or enhanced payments for waiver services.**

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Appendix I: Financial Accountability

I-3: Payment (4 of 7)

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

- ☒ **No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.**
- ☐ **Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.**

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

Appendix I: Financial Accountability

I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

Answers provided in Appendix I-3-d indicate that you do not need to complete this section.

- ☐ *The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.*
- ☐ *The amount paid to state or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.*
- ☐ *The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.*

Describe the recoupment process:

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

- ☒ *Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.*
- ☐ *Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.*

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

- ☒ *No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.*
- ☐ *Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).*

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

- ☒ *No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements*

under the provisions of 42 CFR §447.10.

- ☐ ***Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.***

Specify the following: (a) the entities that are designated as an OHCDs and how these entities qualify for designation as an OHCDs; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDs; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDs arrangement is employed, including the selection of providers not affiliated with the OHCDs; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDs meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDs contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDs arrangement is used:

iii. Contracts with MCOs, PIHPs or PAHPs.

- ☒ ***The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.***
- ☐ ***The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency.***

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- ☐ ***This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.***
- ☐ ***This waiver is a part of a concurrent ?1115/?1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The ?1115 waiver specifies the types of health plans that are used and how payments to these plans are made.***
- ☐ ***If the state uses more than one of the above contract authorities for the delivery of waiver services, please select this option.***

In the textbox below, indicate the contract authorities. In addition, if the state contracts with MCOs, PIHPs, or PAHPs under the provisions of §1915(a)(1) of the Act to furnish waiver services: Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency. Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

Appendix I: Financial Accountability**I-4: Non-Federal Matching Funds (1 of 3)**

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the non-federal share of computable waiver costs. Select at least one:

- ☒ **Appropriation of State Tax Revenues to the State Medicaid agency**
- ☒ **Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.**

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

DSHS/DDA is the authorizing agency for all services payments. All payments and appropriations are managed through the State's MMIS in accordance with an MOU between DSHS and the Health Care Authority (Single State Medicaid Agency). The legislature make appropriations directly to DDA and HCA manages payments to vendors per the MOU between HCA and DSHS via the MMIS.

- ☐ **Other State Level Source(s) of Funds.**

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability**I-4: Non-Federal Matching Funds (2 of 3)**

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

- ☒ **Not Applicable.** There are no local government level sources of funds utilized as the non-federal share.
- ☐ **Applicable**

Check each that applies:

- ☐ **Appropriation of Local Government Revenues.**

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

- ☐ **Other Local Government Level Source(s) of Funds.**

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the

mechanism that is used to transfer the funds to the state Medicaid agency or fiscal agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. *Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:*

☒ **None of the specified sources of funds contribute to the non-federal share of computable waiver costs**

☐ **The following source(s) are used**

Check each that applies:

☐ **Health care-related taxes or fees**

☐ **Provider-related donations**

☐ **Federal funds**

For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. *Select one:*

☐ **No services under this waiver are furnished in residential settings other than the private residence of the individual.**

☒ **As specified in Appendix C, the state furnishes waiver services in residential settings other than the personal home of the individual.**

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. *The following describes the methodology that the state uses to exclude Medicaid payment for room and board in residential settings:*

Group Care Home/Group Training Home

The claim for Federal Financial Participation (FFP) for respite care in group homes and group training homes is based on the cost of respite services only. The rate for respite does not include the cost of room and board.

Child Foster Care

Payment for respite care in a foster home is only made for the cost of respite services. The rate for respite does not include the cost of room and board.

Staffed Residential Home

Payment for respite care in a staffed residential home resident is made only for the cost of respite services. The rate for respite does not include the cost of room and board.

Child Foster Group Care

Payment for respite care in a foster group care facility is made only for the cost of respite services. The rate for respite does not include the cost of room and board.

Adult Family Home

The basic rate for an adult family home covers the cost of room and board and is made under a separate payment code. That payment is off-set by client income/SSI payments. State payments for room and board are account-coded to all state dollars (i.e., are not account-coded against DDA's home and community-based services IFS Waiver).

Adult Residential Care Facility

The basic rate for adult residential care covers the cost of room and board and is made under a separate payment code. That payment is off-set by client income/SSI payments. State payments for room and board are account-coded to all state dollars (i.e., are not account-coded against DDA's home and community-based services IFS Waiver).

Appendix I: Financial Accountability**I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver**

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

- ☒ **No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.**
- ☐ **Yes. Per 42 CFR §441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.**

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability**I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)**

a. Co-Payment Requirements. Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- ☒ *No. The state does not impose a co-payment or similar charge upon participants for waiver services.*
- ☐ *Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.*

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- ☐ *Nominal deductible*
- ☐ *Coinsurance*
- ☐ *Co-Payment*
- ☐ *Other charge*

Specify:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

- b. Other State Requirement for Cost Sharing.*** *Specify whether the state imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:*

- ☒ **No. The state does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.**
- ☐ **Yes. The state imposes a premium, enrollment fee or similar cost-sharing arrangement.**

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: ICF/IID

| Col. 1 | Col. 2 | Col. 3 | Col. 4 | Col. 5 | Col. 6 | Col. 7 | Col. 8 |

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (1 of 9)

a. Number Of Unduplicated Participants Served. Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Table: J-2-a: Unduplicated Participants

| Waiver Year | Total Unduplicated Number of Participants (from Item B-3-a) | Distribution of Unduplicated Participants by Level of Care (if applicable) | |
|-------------|--|---|------|
| | | Level of Care: | |
| | | ICF/IID | |
| Year 1 | 8100 | | 8100 |
| Year 2 | 8100 | | 8100 |
| Year 3 | 8100 | | 8100 |
| Year 4 | 9000 | | 9000 |
| Year 5 | 9000 | | 9000 |

Appendix J: Cost Neutrality Demonstration

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

Average length of stay for Renewal Waiver Years 1 through 5 of 327 days was calculated from two accepted CMS 372 reports (Waiver Year 1 -2015-2016 and Waiver Year 2 - 2016-2017) and a draft CMS 372 report (Waiver Year 3 - 2017-2018 - 241 days) by projecting the average length of stay increase over the first three waiver years. State saw a diminishing percentage increase in ALOS from 2015-2016 (84.4 days) to 2016-2017 (154.8 days - 45.5% increase over previous year) and 2016-2017 to 2017-2018 (240.9 - 35.7% increase over previous year) and projected waiver year 1-5 ALOS as 327 days (35.7% increase over 2017-2018 ALOS). State validated this estimate by comparing IFS projected ALOS to four other DDA waiver ALOSs.

This projected value was validated by comparing the IFS projected length of stay of 327 days with the four-year average length of stay for DDA's other four waivers below:

| Waiver | IFS | Basic Plus | Core | Community Protection Behavioral Support | Children's Intensive In-Home |
|------------------------------|-----|------------|------|--|------------------------------|
| Average Length of Stay | 327 | 318 | 340 | 338 | 304 |

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:

For the waiver amendment effective March 1, 2023, Remote Supports participants, units of service and cost per unit of service are projected from State's experience with DBOR. Participant count, units of service and cost per unit of service for WY1 are based on current participant counts, units of service and cost per unit of service. Participant counts are projected to increase by 10% per year, units of service are projected to be stable across WY1-5 and costs per unit of service are projected to increase by the CPI of 7.85 per year. U.S. Bureau of Labor Statistic, Consumer Price Index for All Urban Consumers: All items in U.S. City Average (CPIAUCSP), retrieved from FRED, Federal Reserve Bank of St. Louis, July 2021-July 2022.

For this waiver amendment effective October 1, 2021, the 30% increase in annual allocations documented at Appendix C-4.a across all allocation levels will allow an increase in average units per user to be increased 30% for all waiver services in WY3-WY5 except BHSS - Crisis Diversion bed Services, BHSS - Positive Behavior Support and Consultation, BHSS - Specialized Psychiatric Services, Specialized Psychiatric Services, Specialized Medical Equipment and Supplies and Wellness Education. All of these services, with the exception of Wellness Education, have been removed from the waiver or replaced with a new service. As Wellness Education is already listed as a 12 month per year service, an increase in units of service for this monthly service is not possible. The State calculated a revised annual units of service for all services with more than 1 annual unit of service that included a one-year phase-in for the increase in participant slots across all services (except Positive Behavior Support and Consultation – no waiver participants were added to this service after July 1, 2020, per approved waiver). As an example of this process, Respite's revised units of service and total budget for WY3 is shown below:

| | | | | | | | | | | | |
|---|---------|--------|---------|-------|--------|-------|--------|-------|--------|-------|----------------|
| A. Months | Oct. | Nov. | Dec. | Jan. | Feb. | Mar. | Apr. | May | Jun. | Jul. | Aug. |
| Total | | | | | | | | | | | |
| B. Participants | | | | | | | | | | | |
| phased in | 103 | 26 | 26 | 26 | 26 | 26 | 26 | 26 | 26 | 26 | 363 |
| C. Existing monthly units of service | 3.75 | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- |
| D. Budget increase | 130% | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- |
| E. Revised monthly units of service (C x D) | 4.875 | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- |
| F. Months of service in WY3 | 11 | 10 | 9 | 8 | 7 | 6 | 5 | 4 | 3 | 2 | 1 |
| G. Total units of service (B x E x F) | 5523.37 | 1267.5 | 1140.75 | 1014 | 887.25 | 760.5 | 633.75 | 507 | 380.25 | | |
| 253.5 | 126.75 | | | | | | | | | | |
| H. Unit cost | \$31.36 | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- | ----- |
| I. Expenditures for phase in participants (Sum of G x H): | | | | | | | | | | | \$391,831.40 |
| J. Expenditures for existing participants (4190 x 45 x 130% x \$27.75): | | | | | | | | | | | \$6,801,941.25 |
| K. Total Expenditures for all participants (I + J): | | | | | | | | | | | \$7,193,772.65 |
| L. Total Expenditures per participant (K/(4190 + 363)): | | | | | | | | | | | \$1,580.01 |
| M. Revised Units of service (L/F): | | | | | | | | | | | 56.58 |

Information on Respite rate setting is found at I-2.a.

The following services were removed from the waiver with the October 1, 2020, amendment:

- Behavioral Health Stabilization Services - Crisis Diversion Bed Services
- Behavioral Health Stabilization Services - Positive Behavior Support and Consultation
- Behavioral Health Stabilization Services - Specialized Psychiatric Services
- Specialized Psychiatric Services
- Specialized Medical Equipment and Supplies

Wellness Education received no increase in units of service as it is already at 12 months/per year.

The number of users, units per user and cost per unit for Assistive Technology for WY3-5 were developed from approved number of users for WY3. The user count increase for WY3-WY5 represent the projected proportional increase of users due to the legislative funded increase in waiver slots. The units per user were increased from 1

unit per user to 1.3 units per user to reflect the budget level increases. The cost per unit of service was projected from the approved cost for unit of service for WY3 and inflated with the CPI-M rate of inflation for WY4 & WY5.

For the previous waiver amendment effective date of October 1, 2020, State utilized the annual CPI-M trend of 3.47% (September 2018 to September 2019) to inflate the CMS 372 actual Factor D for 2017-2018 to establish the new values for WY2-WY3 by annual compounding of the CPI-M trend. Existing approved Factor D values for WY1 were reinstated. Existing provider rates in effect for Waiver Year 4 – (2018-2019) establish the baseline set of rates for Renewal Waiver Year 2. Waiver participant counts for each service are increased five percent (5%) per waiver renewal year and provider rates are increased by the CPI-M of 3.47% per waiver year.

State examined three years of CMS 372 report data to discover utilization trends, participant counts and units of service and applied professional judgement to these trends to establish WY1 participant counts, projected rate of participant count increase and units of service. Professional judgement combined analytical insights, review of past CMS 372 report data trends, knowledge of the State's service delivery system, review of provider capacities and provider development work in process, review of waiver request, enrollment and turn-over data and experience gained in preparing 43 waiver new applications, renewals and waiver amendments guided the development of participant counts, projected rate of participant count increase and utilization of services. Current service rates were used for Waiver Year 1(WY1) and all rates were inflated by CPI-M for WY2-5.

During the past 12 months an average of 68 IFS clients per month have exited the IFS waiver. Waiver turnover on the IFS waiver appears to be stable at approximately 68 IFS waiver participants per month leaving the IFS waiver and State believes this trend will continue at this rate of attrition during the five-year waiver renewal cycle.

(CPI-M for WY2-WY5 is based on the September 2018 – September 2019 percentage increase of 3.47% State utilized the CPI-M as the basis for inflating service costs. The Technical manual makes several references to the appropriate use of CPI-M for inflation adjustments at pp. 279-280.- Source: U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Medical Care, retrieved from FRED, Federal Reserve Bank of St. Louis; <http://fred.stlouisfed.org/series/CPIMEDSL>, January 14, 2020). Provider rates without increases are subject to Legislative funding.

Respite rates for individual and agency providers for WY3-WY5 are established by legislative action and are described in Appendix I-2.a.

Specialized Habilitation, Stabilization Services – Specialized Habilitation, Stabilization Services – Staff/Family Consultation Services, Stabilization Services – Crisis Diversion Bed, utilization, payment rates and expenditures are based on market research by Rates Unit of Management Services Division of ALTSA and professional judgement for WY1 and utilization is increased by 5% per year and unit cost of service is increased by the CPI-M of 3.47% for WY2-WY5.

For the Appendix with an effective date of September 1, 2022, the State adds these notes for seven services: Positive Behavior Support and Consultation: The State has removed this service effective September 1, 2022. Transportation: The State notes that the addition of medical transport agencies to the Transportation services will not significantly impact expected utilization and costs for this service but will provide access to a small group of participants unable to utilize this service previously. Staff/Family Consultation: The State notes that the addition of parenting skills to Staff/Family Consultation Services will not significantly impact utilization and costs for this service due to the predicted small number of participants who will avail themselves of this service. Specialized Equipment and Supplies and Assistive Technology: The State notes that the removal of prior approvals for purchases under \$550 for Specialized Equipment and Supplies and Assistive Technology will not impact the expected utilization and costs for these services but will improve efficiency for Case/Resource Managers who authorize these services. The addition of medical transport agencies to the Transportation services will not significantly impact expected utilization and costs for this service but will provide access to a small group of participants unable to utilize this service previously. The addition of parenting skills to Staff/Family Consultation Services will not significantly impact utilization and costs for this service due to the predicted small number of participants who will avail themselves of this service. The removal of prior approvals for purchases under \$550 for Specialized Equipment and Supplies and Assistive Technology will not impact the expected utilization and costs for these services but will improve efficiency for Case/Resource Managers who authorize these services.

For the waiver amendment effective March 1, 2023, Remote Supports participants, units of service and cost per unit of service are projected from State's experience with Distance Based Observation and Reporting (DBOR) which DDA now calls Remote Supports. Participant count, units of service and cost per unit of service for WY1

are based on current participant counts, units of service and cost per unit of service based on State's experience with DBOR during the COVID-19 pandemic from 3-1-2020 through 10-1-2022. Participant counts for Remote Supports are projected to increase by 10% per year based on professional judgement of DDA program managers informed by State's experience with Distance Based Observation and Reporting during the COVID-19 pandemic from 3-1-2020 through 10-1-2022. Units of service are projected to be stable across WY1-5 and costs per unit of service are projected to increase by the CPI of 7.85% per year. U.S. Bureau of Labor Statistic, Consumer Price Index for All Urban Consumers: All items in U.S. City Average (CPIAUCSP), retrieved from FRED, Federal Reserve Bank of St. Louis, July 2021-July 2022.

- ii. **Factor D' Derivation.** The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

For the waiver amendment with an effective date of October 1, 2020, State utilized the annual CPI-M trend of 3.47% (September 2018 to September 2019) to inflate the CMS 372 actual Factor D' for 2017-2018 to establish the new values for WY2-WY5 by annual compounding of the CPI-M trend. Existing approved Factor D' values for WY1 were reinstated. Factor D' components include managed care organization premiums, behavioral health organization expenditures, Medicaid fee-for-services expenditures and Community First Choice expenditures. WY1 estimate was derived by increasing the Factor D' actual expenditures during 2017-2018 by the CPI-M of 3.47%. Renewal Waiver Years 2-3 Factor D' estimates are estimated to increase at the CPI-M rate of increase of 3.47% per year.

(CPI-M for WY2-WY3 is based on the September 2018-September 2019 CPI-M trend of 3.47% - Source: U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Medical Care, retrieved from FRED, Federal Reserve Bank of St. Louis; <http://fred.stlouisfed.org/series/CPIMEDSL>, January 14, 2020).

For the waiver amendment with an effective date of September 1, 2022, State derived regression formula $Y = 4909.2X + 665$ from actual Factor D's from accepted CMS 372 reports of waiver years 2015-2016 through 2018-2019 (\$2,098, \$14,861, \$17,066 & \$17,727) to project Factor D' for WY4 of \$35,029. The State used four years of accepted CMS 372 Factor D' data to consistently estimate values using regression. The value from 2015-2016 was the Personal Care transition year to State Plan CFC. State inflated WY4 by CPI-M of 1.95% to project WY5 of \$35,712.

(CPI-M for WY4-WY5 is based on the August 2020-August 2021 percentage increase of 1.95% - Source: U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Medical Care, retrieved from FRED, Federal Reserve Bank of St. Louis; <http://fred.stlouisfed.org/series/CPIMEDSL>, September 2021).

- iii. **Factor G Derivation.** The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

For the waiver amendment with an effective date of October 1, 2020, State utilized the annual CPI-M trend of 3.47% (September 2018 to September 2019) to inflate the CMS 372 actual Factor G for 2017-2018 to establish the new values for WY2-WY3 by annual compounding of the CPI-M trend. Existing approved Factor G values for WY1 were reinstated. Factor G for WY1 is the approved waiver Factor G value based on a CPI-M adjusted actual expenditures for ICF/IID services for ICF/IID served individuals during 2017-2018. WY1 was adjusted by the actual CPI-M percentage increase between September 2018 and September 2019, 3.47%. WY2-WY3 Factor G estimates were adjusted using the CPI-M percentage increase of 3.47%.

(CPI-M for WY2-WY3 is based on the September 2018 - September 2019 – CPI-M of 3.47% - Source: U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Medical Care, retrieved from FRED, Federal Reserve Bank of St. Louis; <http://fred.stlouisfed.org/series/CPIMEDSL>, January 14, 2020).

For the waiver amendment with an effective date of September 1, 2022, the State derived regression formula $Y = 29499.3X + 163590.5$ from actual Factor G from the State's MMIS of waiver years 2015-2016 through 2018-2019 (\$201,139, \$219,347, \$234,425 & \$294,444) to project Factor G for WY4 of \$370,086. State inflated WY4 by CPI-M of 1.95% to project WY5 of \$399,808.

(CPI-M for WY5 is based on the August 2020-August 2021 percentage increase of 1.95% - Source: U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Medical Care, retrieved from FRED, Federal Reserve Bank of St. Louis; <http://fred.stlouisfed.org/series/CPIMEDSL>, September 2021).

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

For the waiver amendment with an effective date of October 1, 2020, State utilized the annual CPI-M trend of 3.47% (September 2018 to September 2019) to inflate the CMS 372 actual Factor G' for 2017-2018 to establish the new values for WY2-WY5 by annual compounding of the CPI-M trend. Existing approved Factor G' values for WY1 were reinstated. WY1 was adjusted by the actual CPI-M percentage increase between September 2018 and September 2019, 3.47%. WY2-WY5 Factor G' estimates were adjusted using the CPI-M percentage increase of 3.47%. Because State had access to actual Factor G' data for 2017-2018, this data was utilized in place of CMS 372 data. CMS 372 data available at the time of application were estimates from 2015. Technical manual at page 279 supports this decision.

Source: U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Medical Care, retrieved from FRED, Federal Reserve Bank of St. Louis; <http://fred.stlouisfed.org/series/CPIMEDSL>, January 14, 2020).

For the waiver amendment with an effective date of September 1, 2022, the State derived regression formula $Y = 392X + 1753$ from actual Factor G' from the State's MMIS of waiver years 2015-2016 through 2018-2019 (\$1,917, \$2,548, \$3,591 & \$2,876) to project Factor G' for WY4 of \$4,497. State inflated WY4 by CPI-M of 1.95% to project WY5 of \$4,858.

(CPI-M for WY5 is based on the August 2020-August 2021 percentage increase of 1.95% - Source: U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Medical Care, retrieved from FRED, Federal Reserve Bank of St. Louis; <http://fred.stlouisfed.org/series/CPIMEDSL>, September 2021).

J-2: Derivation of Estimates (6 of 9)

d. Estimate of Factor D.

ii. **Concurrent §1915(b)/§1915(c) Waivers, or other concurrent managed care authorities utilizing capitated payment arrangements.** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. If applicable, check the capitation box next to that service. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (8 of 9)

d. Estimate of Factor D.

ii. **Concurrent §1915(b)/§1915(c) Waivers, or other concurrent managed care authorities utilizing capitated payment arrangements.** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. If applicable, check the capitation box next to that service. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.
