Job Foundation Guidelines

Purpose: The Job Foundation is an effort to engage students earlier in targeted employment planning and connection to the adult service system. Community-based employment providers will use their expertise to gather important foundational information about skills and supports needed for a job. They will work in partnership with school staff to leverage vocational, academic, and life skill preparation being done in the schools on behalf of the individual student. The intent is that with a completed Job Foundation, a student and their team will have an actionable next step for employment. The employment provider will be ready to serve the student through DVR in either a Community Based Assessment or job placement plan in their last year of school. Students are asked to commit to stay in school to continue skill development, access school resources, and be eligible for the SSI student earned income exclusion if they get a job. The ultimate goal is more students complete transition programs with a job or secondary education connection.

Guidelines for Providers:

- In-person observations/interactions: Employment agencies will use in-person observations of school activities and interactions with school staff and family to gather much of this information (such as internship sites, life skill classes, community outings, IEP meetings, etc.). A minimum of five separate face-to-face interactions is considered best practice. These are individualized services. Each time together will vary from one to several hours. For some students, sufficient information can be gathered from these sources so the Job Foundation document will prepare them for a DVR job placement plan. For other students, a Community Based Assessment might be the necessary next step to gain accurate information about the person's skills and supports. Next steps will be determined with the student and their support team, including rehabilitation counseling from DVR.
 - **Recommendations should reflect actionable next steps** for each skill area that will help them be successful in interviewing, learning and maintaining a job in the community. Providers should have specific conversations with school staff and together identify any skill development/training that could be done during the school day (such as practicing alpha filing or handshakes) to build their vocational prep.
 - Other resources: If the employment agency does not have the skilled capacity to provide these supports, recommendations should include a list of entities that will be contacted for that support, including technical assistance or training the provider will need from the county to effectively serve this student to achieve employment.

Guidelines for Counties: *Please note there is no partial points when scoring Job Foundation Reports, responses must be complete.* To ensure quality Job Foundations, look for the following in the report:

• Evidence that provider observed and interacted with student/school staff. Examples: Julia works in the school office and is able to complete a three-step task independently with direction from the Admin Assistant. Josue uses a communication board to select which activity he wants to do first when he comes into the class. It's important that the provider shows evidence that this was an individualized report.

Recommendations are specific actionable next steps that address skills and supports. Examples: Raymond will
practice riding the city bus once a week to the library or coffee shop to build his confidence with public
transportation in the community and interacting with strangers. Lina would benefit from AT/IT to support her
communication, she was added to the waitlist for the school SLP assessment and the family was given
information on WATAAP. School staff will continue prompting Lina to use her signs and pictures to ask for what
she needs.

Job Foundation Report

In alignment with Washington State's <u>Working Age Adult Policy</u>, all individuals are presumed to be able to obtain and maintain integrated community-based employment. This report is intended to gather information about current capabilities, strengths, supports, and recommendations for successful future employment.

Instructions: Fill in each section of the report. Do not leave anything blank. If a section of the report does not apply to the student, please indicate, and provide an explanation as to why it does not apply.

Communication Skills	Description of capabilities and strengths	Assessment of supports needed for success
Ability to communicate with others (verbal, non-verbal, behavioral, visual, assistive technology)	Does the student have a functional way to communicate?	Are alternate modes of communication used /needed? Are certain environmental conditions more supportive or conducive to effective communication (noise level, activity level, indoors/outdoors, etc.)? Specific tools/systems/devices needed to support successful communication that would be expected in an average workplace?
Ability to express	Does the student communicate their preferences/interests	What tools, resources, or training can help the student
preferences and interests in	verbally or with augmentative and alternative	communicate preferences and differentiate between choices?
particular job	communication (AAC)? Is information on preferences	
environments/tasks	gathered through observation? Is the students'	
	communication relevant/appropriate to the setting/situation?	
Ability to participate in	Does the student initiate conversations? Does the student	What support or tools would support the student in
conversations with peers	participate in conversations with their peers?	successfully participating in conversations with their peers?
Tools/strategies to support behavioral communication	Does the student have an effective mode of communication to express themselves (to indicate no, express concerns, need for a break, etc.)? Are anger, frustration or other behaviors an issue?	Are there specific antecedents to challenging behaviors that have been noted? What are effective strategies to prevent challenging behaviors in the future? Are there methods/techniques/tools that the individual can use in dealing with anger/frustration/behaviors?
Language access needs (interpreter, translation)	Are there language differences at home (other languages as the primary language)?	Will interpreters be needed for person-centered services and effective communication with the family? Will cultural navigation or other resources be helpful?

Ability to understand, apply	Does the student understand what topics are	What training and clear expectations will help the student be
and engage in appropriate	appropriate/inappropriate for workplace social	successful in the workplace?
workplace conversations	conversations? Does the student talk about topics	
	unrelated to work that may be considered a disruption or	
	distraction?	
Other Interactive Social Skills	Does the student gravitate towards social interactions or	What training and clear expectations will help the student be
Related Information	does it cause them a lot of anxiety?	successful in the workplace? Would the student do better in
		an environment with a lot of social interaction (customer
		service) or less social interaction (warehouse)
Recommendations:		

Consider the following examples when writing the recommendations:

Example: If the student needs to practice professional introductions (shaking hands, saying name, not hugging or grabbing arms, etc.), is this something that can be included in their IEP goals?

Example: The student struggles to take feedback from others about how they completed a task incorrectly (they storm off or ignore). Would video modeling of successful acceptance of feedback vs. how the student reacted be useful for the student? Is the way the feedback was delivered a factor (example, the person used too many words)?

Example: The student quotes song lyrics when asked a question about work. How will future coworkers/supervisors be guided by the job coach to best interact with the students when they have a question?

Self-Advocacy Skills	Description of capabilities and strengths	Assessment of supports needed for success
Ability to ask for or indicate	How does the student currently ask for help/support? Can	What supports will assist the student ask for help when
need for support	they identify problems? Does the student recognize their	needed?
	own limitations? Does the student request assistance when	
	needed?	
Awareness of responsibilities	Does the student manage hygiene and restroom use on	What training or accommodations need to be developed for
or needs for personal care	their own?	success in the workplace? Any impacts or considerations at a
support		potential workplace (lengths of shifts, time of day, proximity
		of worksite to restroom)? What supports may be needed?
Ability to demonstrate safety	Can the student navigate streets, buses, workplaces with an	What environments or supports would be best for the
awareness practices in	awareness of risks and safety hazards? Can the student	student when considering jobs and work sites?
community, school, etc.	navigate their school campus independently?	
Tools to support	How does the student handle stressful situations? Are there	Do they have support from a mental health counselor or
emotional/mental health	any tools the student has in place to maintain balance and	support group?
	calm themselves when stressed? Does the student have	
	tools to manage their own emotional and mental wellness?	
Self-Advocacy Training (school	Has the student participated in self-advocacy training in the	Any interest in self-advocacy training? What type of support

organizations)		Leadership (SAIL) ARC, Association for People Supporting
		Employment (APSE) or People First they could connect with?

Self-Advocacy

Recommendations:

Consider the following examples when writing the recommendations: Example: The student gets very physical when they are frustrated, what supports do they have for their mental health? What tools have they been offered to manage stressful situations more effectively? Example: The student always has a para assisting them in the restroom, are there ways this support could be faded to create more independence?

Description of capabilities and strengths	Assessment of supports needed for success
Can multiple instructions be followed? Is correction accepted and understood? Does the individual understand and accept praise and criticism? Is the individual able to perform more successfully after repetition?	What prompts or visual aids can be put into place to assist the individual in following instructions/making corrections?
Can the student segue from one task to the next? Can the student do multiple tasks? Can the student transition from school tasks/activities, to breaks/lunch and back to school tasks/activities? Is the person able to tell, match or understand the passage of time? Is stress linked to new environments or tasks?	What environmental prompts are necessary for that to happen?
How long can the individual work independently on a familiar task? Can the individual focus on task despite distractions? What are the distractions for the individual in this environment?	What prompts are being used or are needed?
-	 accepted and understood? Does the individual understand and accept praise and criticism? Is the individual able to perform more successfully after repetition? Can the student segue from one task to the next? Can the student do multiple tasks? Can the student transition from school tasks/activities, to breaks/lunch and back to school tasks/activities? Is the person able to tell, match or understand the passage of time? Is stress linked to new environments or tasks? How long can the individual work independently on a familiar task? Can the individual focus on task despite distractions? What are the distractions for the individual in

Task Management

this student when learning a new task? Will the provider need additional training to best teach this person on a job?

Work Interest Exploration

Work Interest Exploration	Details for job development preparation	
Identified environmental factors for possible workplace Examples:	Reflect on observations from internships, classroom, and community settings.	
 physical accessibility and mobility 	Consider input from the student and their support team. Individual mobility supports	
 safety, social/cultural elements 	needed.	
sensory elements		
coworker proximity		
public interactions		

Work Interest Exploration	Details for job development preparation
 Determine initial or potential marketable skills Hard skills (specific work-related tasks/duties) Soft skills (interpersonal, communication, problem-solving) 	List of potential tasks and work skills (things the student has demonstrated they can already do or could reasonably learn). If there were limited opportunities to gather this information through school sites, a community-based assessment (CBA) would be an appropriate as the next step. Additionally, a person-centered-plan could be a useful tool to glean more actionable information to explore on behalf of the student. Request from County
 Preference/Interests for Employment Examples: paid work hours (number of hours a week) wages types of industries schedule (AM/PM shifts/time of day, number of days, lengths of shifts) location environment, i.e. indoors/outdoors 	What are interests expressed by the student? If there were limited opportunities to gather this information through school sites, a CBA would be an appropriate next step. The paid work hours and wages should reflect the current hourly minimum wage for the municipality or state.
Description of internships/work explorations through school and useful information for job development.	List worksites and tasks the student completed in work internship sites. Note whether the experience would be a potential possible pursuit in the future or not. Include recommendations on additional tools that exist or would be helpful to market skills (visual resume, video, portfolio, letters of recommendations, etc.)
Recommendations:	

Transportation		
What transportation resources are available to the student in their local community?What transportation resources are available to the student? Discour programs offering reduced fares options, Para transit, Family, friend community resources?		
1. What does the student's experience with community	What type of community transportation is currently used? Who sets up rides or	
transportation look like?	determines a bus route? Can the student independently plan and access the	
2. What are the student's transportation options (paratransit	transportation necessary to get to the workplace? What training or supports may	
service, city bus, etc.)?	be needed for the student to successfully use community transportation resources?	

3. What are the student's transportation needs (bus training, paratransit service application, etc.)?	
Recommendations:	
Example: The person only rides with their mom places, could there be initial steps to try other modes of transportation?	

Critical Documents and Enrollments

The following list are necessary actions and items needed to get moving on your employment path.

It is best to get things in order earlier than later to help the process be easier for you.

Necessary Action Refer families/teachers to get these documents and connections to below agencies established. Families are responsible to complete these items. Employment Providers are responsible for referring families to the relevant agencies for these key documents and enrollments. Do not leave any area blank. If it is not applicable, please mark with N/A.	Next Steps: Timelines and Actions	Check box WHEN complete
Enroll in the Division of Vocational Rehabilitation (DVR). DVR provides support and guidance to students with disabilities as they prepare to transition from high school to the workplace. This is a necessary first step in moving towards employment. Click the link below to find your local office phone number and address, or contact the DVR Counselor listed to the right. <u>https://www.dshs.wa.gov/office-locations</u>	Enter Name and Contact Info for DVR Counselor: Name: Email: Phone: Next Step/Comment:	

Enrollment in School to Work: It is best practice that every student who completes a Job Foundation report, goes into School to Work (if it's an option in their county). School to Work is a DVR program that is designed for students in their last year of transition (ages 20/21) and who are enrolled in DDA. The goal of School to Work is to support students to obtain gainful employment prior to leaving school, seamlessly transitioning from school life to the working world.	Connected to DVR Counselor listed above AND the County DD program. County: County Contact: Email: Phone: Next Step/Comment:	
 Washington State ID/Passport Apply at your local driver licensing office or online http://www.dol.wa.gov/driverslicense/gettingidcard.html Before 18: need birth certificate and guardian's ID or driver's license After 18: birth certificate; school transcript with date of birth; Social security card with signature; school yearbook with photo. Recommendations: What supports are needed to ensure the student is connected to DVR and SSA? Who will follow up with the student, their support network or f	amily?

Key Next Steps:

Use recommendations from each section in this summary of action steps.

- This would be an area to include any consideration of the student's cultural or linguistic background that will be a factor in future services and job placement. Examples: family is not literate in English, they may need extra support with forms and enrollments. If the person is a practicing Muslim, they may have restrictions working in a restaurant that is not halal. Are there cultural perceptions about disability in their culture that would be good for the team to be aware of?
- If the student is ready for a job placement plan with DVR, state general ideas for type of work to pursue.
- If the student will need more time in community-based settings for identifying their skills and interests, recommend a CBA for next steps.
