Introduction-Purpose

The Washington State Health Care Authority (HCA, the state's Medicaid Agency), the Department of Social and Health Services (DSHS) Aging and Long-Term Support Administration (AL TSA) and Developmental Disabilities Administration (DDA) submit this proposed transition plan in accordance with the requirements set forth in the Centers for Medicare and Medicaid Services new requirements for Home and Community-based Services (HCBS Final Rule 42 CFR Parts 430, 431, 435, 436, 441 and 447) that became effective March 17, 2014. Washington State fully supports the intent of the HCBS setting rules. Washington State has long been an advocate for providing services to clients in the most integrated home and community-based settings, and is a leader in providing clients with choices regarding the settings in which long-term services and supports are provided and will continue its partnership with participants, advocacy groups, stakeholders, and Tribes.

Overview of Washington's HCBS System

Aging and Long-Term Support Administration--Overview

The DSHS Aging and Long-Term Support Administration (AL TSA) mission is to transform lives by promoting choice, independence and safety through innovative services. AL TSA's Medicaid HCBS waiver programs are:

- The Community Options Program Entry System (1915(c) waiver)—serving over 36,000 individuals.
- The New Freedom HCBS (1915(c) waiver)—serving about 640 individuals.
- The Residential Support Waiver (1915(c) waiver)—this waiver was recently approved by the Centers for Medicare and Medicaid Services and is intended to serve about 70 individuals.

In addition to the Medicaid HCBS waiver programs, AL TSA also offers these state plan programs:

- Medicaid Personal Care—serving over 16,000 individuals.
- Managed Care PACE—serving over 500 individuals.
- Private Duty Nursing—serving about 100 individuals.

AL TSA also administers the Roads to Community Living (Money Follows the Person) federally-funded program—serving over 1100 individuals.

**Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015**

ALTSA offers services that empower individuals to remain independent and supported in the setting of their choice. This is accomplished through the development of person-centered care plans that reflect individual choices and preferences.

Across all programs, ALTSA offers a variety of services that support people in the community, including:

- Personal care and supportive services for about 54,400 individuals living in their own homes, adult family homes and assisted living settings.
- Assistance with skilled nursing needs available in all settings.
- Assistance with movement from nursing homes to independent living and community residential settings.
- Information and assistance regarding services available in-home, in adult family homes, assisted living facilities, and nursing homes, including options counseling for individuals regardless of income.
- Locally-designed programs focused on the needs of adults who are older.
- The Stanford University Chronic Disease Self-Management Education Programs and other evidence-based health promotion programs.
- Care coordination for foster children to support improved health outcomes for children and their families.
- Protection of safety, rights, security and well-being of people in all settings, including licensed or certified care settings.
- Protection of vulnerable adults from abuse, neglect, abandonment, and exploitation.

ALTSA's strategies are driven by several bedrock principles. Staff are essential in carrying out these core principles and are one of the primary reasons the state's long-term care system is ranked as one of the best in the nation.

We believe the individuals we support:

- Should have the central role in making decisions about their daily lives.
- Will choose supports that promote health, independence, community integration, and self-determination.
- Succeed best when support is person-centered and recognizes that their needs are interrelated.

We believe families and friends of the people we support:

- Are an essential reason many people can live successfully in their own homes and communities.
- Can realize a positive difference in their lives, and the lives of their loved one, with even a small investment in support.
- Act as advocates for quality support and services in the best interest of their family member or friend.

**Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015**

We believe the system of services administered by ALTSA must be:

- Accountable for outcomes and costs.
- Informed by evidence of effectiveness.
- Responsive to changing needs.
- Sustainable over time and within realistic resource estimates.
- Collaborative with service recipients, families, communities, providers, partners, and other stakeholders.
- Accessible to individuals who are Limited English Proficient or have a communication barrier due to a disability.
- Able to keep people free from abuse and neglect, and support shared responsibility with individuals, families, providers, advocates and communities to prevent or respond to abuse and abusers.

Operationalizing these strategies has allowed Washington State to be a national leader in rebalancing our service delivery system from institutional to home and community-based settings with 84% of Medicaid clients receiving services in their own homes and community residential settings. In fact, AARP released its 2014 scorecard of states' long-term care systems in which Washington State was ranked second in the nation in terms of long-term services and supports for older adults, people with physical disabilities, and family caregivers.

Developmental Disabilities Administration--Overview

The DSHS Developmental Disabilities Administration's (DDA's) mission is to transform lives by providing support and fostering partnerships that empower people to live the lives they want. DDA's Medicaid HCBS waiver programs are:

- CORE (1915(c) waiver)--serving about 4500 individuals.
- Basic Plus (1915(c) waiver)--serving about 7800 individuals.
- Children's Intensive In-Home Behavioral Supports (CIIBS) (1915(c) waiver)—serving about 100 individuals.
- Community Protection (1915(c) waiver)--serving about 430 individuals.

DDA administers programs that are designed to assist individuals with developmental disabilities and their families to obtain services and supports based on individual preferences, capabilities and needs.

**Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015**

DDA also administers the Roads to Community Living (Money Follows the Person) federally -funded program.

DDA strives to develop and implement public policies that promote individual worth, self-respect, dignity, and power of choice; healthy safe and fulfilling lives; and supports that meet the individual's needs during the person's life span.

Across all programs, DDA offers the following supports and services:

- Case management for everyone receiving services. Over 24,000 individuals receive services from DDA annually.
- Individual and family services that are offered in the family home to meet respite and other critical needs such as therapies, minor home modifications, etc. This state-only funded program serves over 1979 individuals and their families.
- State supplementary payment program offered in the family home provides cash payments in lieu of individual and family services and serves over 1500 individuals.
- Employment and community access services to increase the independence, self-respect and dignity of individuals with developmental disabilities. DDA currently provides waiver and state-only funded employment and day supports to 9500 individuals.
- Residential Services that include community homes for children and adults as well as residential habilitation centers. DDA currently provides waiver and state-only funded residential supports to 7940 individuals who live in their own homes, adult family homes, licensed staff residential, group homes, companion homes, or state operated living alternatives.
- Medicaid/Waiver personal care services provide in-home assistance with activities of daily living. Over 12,000 individuals receive Medicaid/Waiver personal care services through DDA.

Provider Types used by ALTSA and DDA

Individuals on Medicaid may receive HCBS services in their own home or from a residential provider. In-home service providers include individual providers, home care agency providers, and DDA supported living providers. Residential providers include adult residential services, enhanced residential services, assisted living facilities and adult family homes, DDA group homes, group training homes, staffed residential, companion homes and group care facilities.

Oversight of ALTSA and DDA Providers

DSHS licenses Adult Family Homes and Assisted Living Facilities, and certifies supported living and group home providers, according to state laws (Revised Code of Washington, RCW) and Washington Administrative Code (WAC). The Department's Residential Care Services Division (RCS) conducts

**Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015**

unannounced inspections at least every 18 months and at least every two years for supported living and DDA group homes, complaint investigations and monitoring visits to determine if homes are in compliance with laws, regulations, and contract requirements. The provider must promote the health, safety, and well-being of each resident living in each licensed or certified setting.

The licensing and certification processes include monitoring of the following:

- Criminal background checks on all providers, staff, volunteer caregivers, and anyone who will have unsupervised access to residents;
- National fingerprint-based background checks on all providers, entity representatives, resident managers, and caregivers hired after January 1, 2012;
- Financial assessments;
- Complaints received by either DSHS or Department of Health;
- The Department's abuse registry;
- Ensuring completion of the Department-approved orientation for AFH providers and administrator training for AFH administrators;
- Ensuring that the provider/caregivers have completed specific training requirements; and
- On-site inspections to ensure homes meet all licensing and certification requirements.

Outcomes of the licensing/certification processes include enforcement actions taken on non-compliant providers (such as plans of correction, shortened timelines for certification, fines, and certification/license revocation). In addition, system issues are addressed through training of providers, revision of laws and rules, and strengthening of licensing requirements. This information is used by the RCS Management Team, HCS Management Team, DDA Management team and an ALTA-wide executive management committee.

The Washington State Long-Term Care Ombuds Program provides advocacy support for residents in licensed residential settings. They receive complaints and resolve problems involving quality of care, restraint use, transfer and discharge, abuse and other aspects of resident dignity and rights.

DSHS -contracted evaluators conduct annual inspections of adult day service centers and companion homes to ensure that they are complying with state laws and regulations.

Children's Administration's Division of Licensed Resources (DLR) conducts inspections of staffed residential, child foster homes, and children's group care facilities at least every three years. DLR is also responsible for complaint investigations along with Child Protective Services (CPS).

Public Input Process

Notices to Providers

The new HCBS requirements apply to the HCBS waiver programs described in the Introduction-Purpose. AL TSA and DDA notified providers in writing about the new HCBS requirements. The notices are posted [here](#).

- Letter to Stakeholders Announcing the Changes (January 13, 2014)
- Letter to Pre-vocational providers (November 6, 2014)
- Letter to Group Training Homes (November 6, 2014)
- Notice to Assisted Living Administrators about resident interviews regarding new HCBS rules (May 22, 2014)
- Notice to Assisted Living Facility Administrators and interested parties regarding New HCBS Rules webpage (September 29, 2014)
- Notice to Adult Family Home providers and interested parties regarding New HCBS Rules webpage (September 29, 2014)

Stakeholder and Tribal Meetings/Presentations

- Provided statewide informational webinars on May 30, 2014 and November 5, 2014.
- Conducted five meetings with AL TSA stakeholders and advocates.
- Conducted six meetings with Developmental Disabilities Administration (DDA) stakeholders and advocates.
- Letter to DDA Stakeholders for public feedback meeting (October 6, 2014)
- Posted presentation on AL TSA internet site <https://www.dshs.wa.gov/altsa/stakeholders/home-and-community-based-services-rules> on August 27, 2014.
- Held Tribal roundtable discussions on September 16, 2014, and October 14, 2014.
- Held formal Tribal consultation on October 23, 2014.

State Posting of Transition Plan for Public Comment

- Published first public notice in Washington State Register on September 3, 2014.
- Published second public notice in Washington State Register on September 30, 2014.
- Published third public notice in Washington State Register on October 15, 2014.
- Posted information on the transition plan on the DDA internet site <http://www.dshs.wa.gov/ddd/> on October 20, 2014.
- Mailed notice to stakeholders and Tribes on December 2, 2014 regarding the posting of the draft transition plan effective December 17, 2014.
- Posted draft transition plan on ALTSA internet site <http://www.dshs.wa.gov/altsa> on December 17, 2014 to open the public comment period.
- Provided statewide webinar on December 17, 2014, as an additional opportunity to discuss and solicit comments on the draft transition plan.
- Published additional public notice in Home and Community Services Offices, Area Agency on Aging Offices, and Developmental Disabilities Administration Offices on January 5, 2015 announcing an extended comment period ending February 6, 2015.
- Published fourth public notice in Washington State Register on January 2, 2015 announcing an extended comment period ending February 6, 2015.
- Updated draft transition plan on ALTSA internet site on January 6, 2015 to extend the comment period through February 6, 2015.

Stakeholder and Tribal Comments

Stakeholder comments about the transition plan were solicited through the methods described above. Stakeholder comments were provided through a variety of methods including e-mail, telephone, letter, in-person meetings, via conferences and webinars, and the internet site.

Process for Ensuring Ongoing Transparency and Input From Stakeholders and Tribes

The Centers for Medicare and Medicaid Services will work with the state to ensure that all waiver programs are brought into compliance with the new federal requirements. CMS will review the submitted statewide transition plan, and may approve transition plans up to four years to effectuate full compliance. The updated statewide transition plan will be posted on the ALTSA internet site as milestones are reached, with updates and an opportunity for comment.

Results of the State Assessment of HCBS Settings

AL TSA and DDA reviewed the requirements for HCBS settings and identified settings that fully comply with the requirements, settings that will comply with the requirements after implementing changes, and settings that do not or cannot meet the HCBS requirements. The review included an analysis of state laws, rules, policies, processes, and forms/tools in relation to the new federal HCBS requirements and an identification of changes that are necessary to achieve and maintain compliance with the federal HCBS requirements. The state solicited input from the state Long-Term Care Ombuds, stakeholders, and clients as part of this analysis. The state conducted on site visits of all adult day service centers, all settings presumed to be institutional, all group training homes, and one residential setting identified by a stakeholder as potentially not meeting the characteristics of an HCBS setting. The review details are in the appendices.

Settings that fully comply with HCBS Characteristics:

- In-home
- Supported Living
- Adult Day Services
- Group Home
- Licensed Staffed Residential, Child Foster Care and Group Care Facilities
- Assisted Living Facility
- DDA Individual Employment work sites
- DDA Group Supported Employment work sites
- DDA Community Access
- Community Healthcare Providers
- Dental Providers
- DDA Behavioral Health Crisis Bed Diversion Services
- DDA Specialized Psychiatric Services
- DDA Behavior Support and Consultation
- DDA Community Crisis Stabilization Services
- Vehicle Modification Providers
- Veterinarians for Service Animals
- Transportation Providers

Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015

With changes, settings that will fully comply with HCBS characteristics:

- Adult Family Home
- Adult Residential Care/Enhanced Adult Residential Care
- DDA Group Training Homes
- DDA Companion Homes

See Appendix C for further information about the actions that will be taken to achieve compliance and the timelines for these actions.

Settings that do not/cannot meet HCBS characteristics:

- DDA Pre-Vocational Services

See Appendix C for further information about the plans for DDA Pre-Vocational Services and the individuals affected.

APPENDIX A: Analysis by Setting

In-Home

Setting Description: These are private homes or apartments located in the community where the client lives and receives HCB services such as personal care and other supportive waiver services.

Number of Individuals Served: 50,639 clients

Characteristics/Requirements Met		
Characteristics/Requirements	In-Home State Assessment	Oversight Process
The setting is integrated in, and supports full access of individuals receiving Medicaid HCBS to, the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.	<p>Chapters 388-71 WAC, 388-106, 388-825, and Chapters 74.34, 74.39A RCW contain the administrative rules and laws for this setting.</p> <p>Waiver participants and state plan participants access services in their homes and in typical public community settings.</p> <p>The State has completed a review of state statutes and regulations regarding the in-home setting. All rules and regulations regarding this setting are consistent with federal HCBS setting regulations.</p>	<p>Case Managers (CMs) complete face-to-face assessments annually and when there is a significant change in the client's condition.</p> <p>This requirement is monitored by the case manager at each annual in-home assessment, at any in-home significant change assessments and through case manager contacts with the participant.</p>

¹ The State Assessment column includes information from the National Core Indicator (NCI) survey results for Washington State (2011-2012). The NCI program is a voluntary effort by state developmental disability agencies to track and measure their own performance and to pool knowledge and resources to create a nationally validated set of performance measures. The effort is coordinated by the National Association of State Directors of Developmental Disability Services (NASDDDS) in collaboration with the Human Services Research Institute (HSRI). The NCI Adult Consumer Survey is an annual interview conducted with a person who is receiving services from the state (DDA). DDA's Performance Quality Improvement staff complete annual NCI surveys of waiver recipients.

Provider owned or controlled residential-setting requirements do not apply.	Services are provided in person's own home or apartment.	Not applicable.

Supported Living

Setting Description: Supported Living provides instruction and support services to the participant to the degree the person-centered service plan identifies in the following categories: home living activities, community living activities, life-long learning activities, health and safety activities, social activities, employment, protection and advocacy activities, exceptional medical support needs and exceptional behavioral support needs. Services are provided in an individual's own private home or apartment, typically shared with housemates.
Number of Individuals Served: 3726

Characteristics/Requirements Met

Adult Day Services

Setting Description: Adult day services programs are community-based programs with the goals of meeting the needs of adults with impairments through individualized plans of care. Adults may receive services through an adult day care or adult day health program. Adult Day Care is a supervised daytime program providing core services for adults with medical or disabling conditions that do not require the intervention or services of a registered nurse or licensed rehabilitative therapist acting under the supervision of the client's authorizing practitioner. Adult Day Health (ADH) is a supervised daytime program providing skilled nursing and/or rehabilitative therapy services in addition to the core services of adult day care. ADH services are appropriate for adults with medical or disabling conditions that require the intervention or services of a registered nurse or licensed rehabilitative therapist acting under the supervision of the client's authorizing practitioner. All community members have free access to these services and settings including both Medicaid and non-Medicaid funded participants.

Number of ADH and ADC Centers contracted for Medicaid: 19

Number of centers contracted only for ADC for Medicaid: 11

Characteristics/Requirements Met

Community Healthcare Providers

Setting Description: Community Healthcare Providers are located in typical community locations (such as physician offices, optometrist offices, OT/PT/Speech therapists' offices, and audiology offices). All community members have free access to these services and settings including both Medicaid and non-Medicaid-funded participants.

Characteristics/Requirements	Community Healthcare Providers State Assessment	Oversight Process
Individual choice regarding services and supports, and who provides them, is facilitated.	During the assessment and planning process, case managers inform participants of all options regarding services and providers, and ensure that this is documented either by client signature or in the client's service episode record.	Monitoring is conducted during the annual Quality Assurance monitoring cycle. Department of Health provides oversight of healthcare provider credentials.

Characteristics/Requirements	Community Healthcare Providers State Assessment	Oversight Process
<p>The setting is integrated in, and supports full access of individuals receiving Medicaid HCBS to, the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.</p>	<p>The settings are integrated into the greater community and do not preclude access to the community.</p> <p>Washington's legislature has codified its intent that choice, participation, privacy, and the opportunity to engage in religious, political, recreational, and other social activities foster a sense of self-worth and enhance the quality of life for long-term care participants.</p> <p>Washington State Law provides clear protections of rights. Characteristics/Requirements	Proposed Changes
Units have lockable entrance doors, with appropriate staff having keys to doors.	Change contract to comply with this change.
The unit or room is a specific physical place that can be owned, rented or occupied under another legally enforceable agreement by the individual receiving services, and the individual has, at a minimum, the same responsibilities and protections from eviction that tenants have under the landlord tenant law of the state, county, city or other designated entity.	Change group training home contract to comply with this change.

Companion Home

Setting Description: A companion home is a DDA residential service offered in the provider's home to no more than one client. Clients receive twenty-four hour instruction and support services which are provided by an independent contractor.

Number of Companion Homes: 68

Characteristics/Requirements Met

Characteristics/Requirements	Companion Home State Assessment	Oversight Process
The setting is integrated in, and supports full access of individuals receiving Medicaid HCBS to, the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.	<p>WAC 388-829C-020: A companion home is a DDA residential service offered in the provider's home to no more than one client. Companion home residential services provide twenty-four hour instruction and support services. Companion home residential services are based on the client's ISP.</p> <p>WAC 388-829C-090 The companion home provider must focus on the following values when implementing the ISP: health and safety; personal power and choice; competence and self-reliance; positive recognition by self and others; positive relationships; and integration in the physical and social life of the community.</p>	Annual evaluation process conducted by DDA-contracted evaluators who review and evaluate compliance with WAC and companion home contract using a companion home evaluation tool.

Characteristics/Requirements	Companion Home State Assessment	Oversight Process
	<p>The State has completed a review of state statutes and regulations regarding companion homes and determined that those laws are in alignment with the HCBS setting requirements.</p> <p>For further information on consumer satisfaction and HCBS compliance see NCI survey results referenced in the in-home setting.</p>	
The setting is selected by the individual from among setting options including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, the resources available for room and board.	<p>WAC 388-823-1095 My rights as a DDA client.</p> <p>During the assessment process, it is the case manager's responsibility to inform individuals of their options regarding settings and providers. Participants report via the Assessment Meeting Wrap-up and the Assessment Meeting Survey that they are informed of their options regarding services and providers.</p>	Annual evaluation process conducted by DDA -contracted evaluators who review and evaluate compliance with WAC and companion home contract using a companion home evaluation tool.
An individual's essential personal rights of privacy, dignity and respect, and freedom from coercion and restraint are protected.	<p>WAC 388-829C-090</p> <p>The companion home provider must focus on the following values when implementing the ISP: health and safety; personal power and choice; competence and self-reliance; positive recognition by self and others; positive</p>	Annual evaluation process conducted by DDA -contracted evaluators who review and evaluate compliance with WAC and companion home contract using a companion home evaluation tool.

DDA Pre-Vocational Services

Setting Description: DDA Pre-Vocational Services are designed to prepare those interested in gainful employment in an integrated setting through training and skill development. Fifteen pre-vocational service providers in eleven counties provide pre-vocational services as part of an individual's pathway to integrated jobs in typical community employment. These settings are not currently integrated.

Number of Individuals Served: 348 individuals

Characteristics/Requirements

Characteristics/Requirements	DDA Pre-Vocational Services State Assessment	Oversight Process
The setting is integrated in, and facilitates the individual's full access to, the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, in the same manner as individuals without disabilities.	RCW 71A.10.015 WAC 388-845-1400 What are pre-vocational services? (1) Pre-vocational services typically occur in a specialized or segregated setting and include individualized monthly employment related activities in the community. Pre-vocational services are designed to prepare those interested in gainful employment in an integrated setting through training and skill development. (2) Pre-vocational services are available in the Basic Plus, Core and community protection waivers.	By contract and by DDA Policy 4.11 embedded in the contract, each county reviews their employment service providers at minimum once per biennium to ensure that: all contract obligations are adhered to including HCBS settings compliance, that services to working age adults are consistent with DDA policy; each participant is gainfully employed at client's identified job goal or has an individual employment plan. Additionally, service providers submit monthly outcome information to counties and progress reports to each client's case resource

The setting is integrated in, and facilitates the individual's full access to, the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, in the same manner as individuals without disabilities.	DDA proposes to eliminate new admissions to Pre-vocational Services. All people receiving pre-vocational employment supports will be supported to transition into integrated service options within four years.

APPENDIX B: State Assessment of Presumptively Non-HCBS Settings

CMS presumes certain settings have the qualities of an institution, and applies “heightened scrutiny” to these settings. Such settings include those in a publicly or privately-owned facility that provides inpatient treatment; are on the grounds of or immediately adjacent to, a public institution; or that have the effect of isolating individuals not receiving Medicaid-funded HCBS. For these settings, the state is provided the opportunity to provide information to CMS on whether the setting has the qualities of a home and community-based setting and does not have the qualities of an institution.

AL TSA conducted site visits of the settings presumed to be institutional. Details about the state’s assessment of each setting were shared with each facility administrator and are provided to CMS as an attachment to the statewide transition plan.

Washington State currently has 16 assisted living residential facilities that are attached to institutions- either a hospital or a nursing facility. In addition, there was one facility that was identified by stakeholders as potentially not having the characteristics of an HCB setting. AL TSA headquarters staff visited all 17 facilities to assess whether the residential facility meets the federal definition of home and community-based settings. While visiting the facilities, staff interviewed residents and the facility administrator to get their input and made observations of the setting. A list of the interview questions posed to clients follows:

1. When you moved into this place, did you choose to live here?
2. Can you come and go from this facility when you would like?
3. Are you able to do fun things in the community when you would like to?
4. Do you share your room with anyone? If so, were you given a choice on who you would share a room with?
5. Are you able to set your own schedule?
6. Are you able to eat when you want to?
7. Can you request an alternative meal if you want one?
8. Are you able to choose who you eat your meals with?
9. Are you able to have visitors at any time?

A list of the interview questions asked of administrators follows:

1. Is the setting in the community?
2. Are schedules regimented?

Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015

3. Do residents come and go at will?
4. Do residents have access to public transportation?
 - Where public transportation is limited, are other resources available for the individual to access the community?
5. Can residents close and lock their bedroom door and the bathroom door?

The vast majority of the residents interviewed indicated that the facility was chosen by the resident or their family member(s). It should also be noted that the residents are able to choose and access their own community-based medical and dental providers and access other community-based resources and activities.

The state believes the following facilities fully meet the HCBS characteristics:

- Buena Vista in Colville (an assisted living setting)
- Garden Oasis (an assisted living setting)
- Josephine Sunset (an assisted living setting)
- Judson Park (an adult residential care and enhanced adult resident care (ARC/EARC) setting)
- Klondike Hills (an assisted living setting)
- Prestige Care at Richland (an assisted living setting)
- Providence Mount St. Vincent (an assisted living setting)
- Rockwood at Hawthorne (an assisted living setting)
- Sharon Care Center (an ARC/EARC setting)
- Summit Place Assisted Living (an assisted living setting)
- Sunrise View Retirement Villa (an ARC/EARC setting)
- Tacoma Lutheran Home (an assisted living setting)
- Vashon Community Care (an assisted living setting)
- Washington Odd Fellows (an assisted living setting)
- Woodland Care Center (an ARC/EARC setting)

**Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015**

The state believes the following facility does not fully meet HCBS expectations and must strengthen opportunities for residents to be more fully integrated into their community. Once these changes are fully implemented, this provider will fully meet the HCBS expectations.

- Good Samaritan Spokane Valley (an assisted living setting). See below for the transition plan for this facility.

The state has determined that the following facilities did not meet HCBS expectations:

- Nisqually View Residential Care (an ARC/EARC setting). The state terminated the Medicaid contract effective November 14, 2014. There were no residents living in the facility at the time of contract termination.
- Josephine Sunset Home (Adult Day Care setting). The contract was terminated June 18, 2014. There were no clients receiving services at the time of contract termination.

State Assessment and Transition Plan for Good Samaritan Society Spokane

Address: 17121 E 8th Avenue, Spokane Valley, WA

Number of Licensed beds: 14

Number of Medicaid residents: 5

Assessment:

Based on the new CFR regarding HCBS settings, facilities are presumed institutional when located on the grounds of, or adjacent to, a nursing facility. In the ALTSA-HCS review of facilities, Good Samaritan Society of Spokane has been identified as a facility that is attached to a nursing facility.

State Results:

Good Samaritan met many of the characteristics of home and community-based settings, but additional actions must be taken to fully ensure that residents are not isolated and segregated from the broader community. Once these changes are fully implemented, this provider will fully meet the HCBS expectations.

Action Required:

In order to fully meet the federal requirements for HCBS settings, the facility will develop and implement a plan to ensure the following client outcomes:

- Full access to community resources and services including assistance with accessing transportation.
- Opportunities to participate in community activities that are both sponsored by the facility and/or individually identified by the client.
- Regular solicitation and incorporation of input from residents about preferred on-site and off-site activities.

Implementation:

- Good Samaritan will submit an acceptable plan to achieve the identified resident outcomes to the Residential Policy Program Manager by February 28, 2015.

**Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015**

- Good Samaritan will implement the plan and provide quarterly (from the date of plan acceptance) progress reports to the Residential Policy Program Manager until full implementation has been achieved.
- AL TSA staff will conduct follow-up resident interviews to monitor implementation of the plan on a semi-annual basis until full implementation has been achieved.
- On-going monitoring will continue to be conducted through the licensing survey process.

Status as of February 23, 2015:

Good Samaritan Society of Spokane submitted their plan to AL TSA on February 20, 2015. AL TSA approved of Good Samaritan's plan on February 23, 2015. AL TSA will monitor the status of this work plan and conduct client interviews in August 2015.

Appendix C: State's Remedial Strategies and Timelines

The following are the state's remedial strategies required to ensure that Washington State complies with, and maintains compliance with, the HCBS rules. This includes changes to Washington Administrative Code, Medicaid contract changes, residential facility survey/inspection changes, training, program transition and stakeholder involvement.

Activity	Description	Milestones	Start Date	Final Completion Date
WAC Changes				
Revise Adult Family Home Chapter 388-76 WAC and ARC/EARC Chapter 388-110 WAC .	Change WAC to mandate resident choice regarding locking bedroom door.	RCS will follow rulemaking timeframe established in WAC	November 1, 2014	November 30, 2017
Revise rules related to group supported employment Chapter 388-845 WAC	Add definition of an "integrated business setting" as "a setting that enables participants to work alongside and/or interact with individuals who do not have disabilities."	DDA will follow rulemaking timeframe established in WAC	July 1, 2015	July 1, 2017
Contract changes				
Review DDA Group Training Homes and DDA Companion Homes contracts	Change contract to require lockable doors.	Contracts for 2015-2017 biennium will have language requiring homes to have lockable doors	July 1, 2015	June 30, 2017
Revise DDA Companion Homes and DDA Group Training home contracts	Change contract to require protections from eviction that tenants have under the landlord tenant law of the State, county, city or other designated entity.	Contracts for 2015-2017 biennium will have language requiring individuals to have protection from eviction at least equal to that as provided under landlord tenant law of the State, county, city or other designated entity.	July 1, 2015	June 30, 2017

**Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015**

Activity	Description	Milestones	Start Date	Final Completion Date
Licensing Survey Changes				
Revise Facility Inspection Working Papers for Adult Family Homes, Assisted Living Facilities, and Supported Living	Modify the “working papers” to contain a series of questions that help the surveyors assessment of the residents needs are met	Additional questions related to HCBS will be added to the surveyor “working papers”	November 1, 2014	November 30, 2017
Information Technology (IT) Changes				
Update WACs in tools/databases	Include all AFH and AL WAC changes in the survey and complaint investigation tools/databases	IT will update/insert WAC changes/additions into the database systems	November 1, 2014	November 30, 2017
Provider Training				
Provide Adult Family Home, Assisted Living, and Supported Living (SL) provider training on the new expectations incorporated into the survey tools	Distribute “Dear Provider” (DP) letters to providers	RCS expects providers to read and follow the DP letter, and comply with the requirements—compliance will be determined as part of the RCS facility inspection process	November 1, 2014	December 30, 2015
Provide Potential and Newly Licensed AFH, AL, and SL providers training on the new expectations incorporated into the survey tools	Distribute information to potential and newly licensed providers during AFH orientation, AL administrator orientation, and SL orientation	RCS expects providers to read and comply with the requirements—compliance will be determined as part of the RCS facility inspection process	November 1, 2014	March 1, 2019
Program Transition				
DDA Pre-Vocational Services (PVS) providers-- Washington defines Pre-Vocational services as part of	DDA proposes to eliminate new admissions to pre-vocational services as currently defined. All people	DDA will provide: <ul style="list-style-type: none"> Individual notice to all pre-vocational service participants 	July 1, 2015	July 31, 2016

APPENDIX D: Comments Received by ALTSA and DDA

The following tables contains summaries of comments received by ALTSA and DDA about the draft transition plan, the Department's response to the comments, clarifications and modifications made to the transition plan in response to the comments. After reviewing and responding to all public comments, Washington determined that no substantive changes to the transition plan were necessary.

Topic	From	Comment Received	State Response	Modification to the Transition Plan Made in Response to this Public Comment
Recommendations on segregated settings	Advocate	<p>Does not see these settings as inclusive:</p> <ul style="list-style-type: none"> • adult day health and adult day care • sheltered or pre-vocational services • adult family homes • group homes • assisted living • any other Medicaid funded residential program that: <ul style="list-style-type: none"> 1) serves more than 4 individuals in a home or living unit and/or 2) The people living together do not have an employment or day service to go to most days. For this reason, • Some supported living alternatives would also be included. 	<p>The state agrees that sheltered or pre-vocational service settings are not inclusive and do not meet HCBS standards.</p> <p>Based on the qualities defined by CMS (Centers for Medicare and Medicaid Services), ALTSA and DDA reviewed whether setting requirements are consistent with the HCBS characteristics. The findings of our assessments are found in Appendix A of the transition plan.</p> <p>RCS will continue to monitor facilities for compliance with</p>	Clarifying language is added to the transition plan in Appendix A.

			is receiving the ISS hours identified in their ISP and that client funds are expended correctly.	
Heightened scrutiny for DDA Group training homes	Provider	Requiring “heightened scrutiny” actually allows flexibility in developing new models of service, but with built-in guarantees and expectations. Group training homes can become the petri dish for new practice models.	The State appreciates this comment.	No change was made to the transition plan.
Assessment of facilities attached to institutional settings	Advocacy organization	Pleased to note the state reviewed these facilities. Urges the state to conduct similar reviews of other facilities that group large numbers of clients together, as well as facilities the Ombuds would identify as having the “effect of isolating” individuals	Based on the qualities defined by CMS (Centers for Medicare and Medicaid Services), ALISA and DDA reviewed this setting requirements and found it consistent with the HCBS characteristics. RCS will continue to monitor facilities for compliance with these requirements. RCS meets with the Ombuds staff quarterly and will address issues regarding facilities as they are identified.	No change was made to the transition plan.
Lockable doors	Client self-advocacy group	Support this as privacy is part of a quality life	The state agrees with and appreciates this comment.	This issue is addressed in the transition plan.

Washington State
Transition Plan for New HCBS Rules
Submitted to CMS on March 11, 2015

Topic	From	Comment Received	State Response	Modification to the Transition Plan Made in Response to this Public Comment
Lockable doors	Provider	Requiring every living unit to have a locked door is unsafe for a person unable to move independently or speak. New rule forces them to request permission from the bureaucracy for their choices and needs.	The person-centered planning process requires an individualized assessment of health and safety needs and that the service plan addresses these needs.	No change was made to the transition plan.
AFH visitors at any time	Provider	AFHs are required to ensure everyone's rights are protected. "Having friends over anytime" has to respect the rules of the house, as well as the rights of the other residents. Visitation rules have to be generous and reasonable.	The state agrees that all clients' rights must be protected. RCS will continue to monitor facilities for compliance with these requirements.	No change was made to the transition plan.
Choice of roommates	Provider	Supports "Choosing roommates" if this means who they share a bedroom with. If it means choosing other residents in a home, this could be a problem. Residents should be included in the selection process of who lives in the home, but the provider should have the final say on who can compatibly live together.	The state agrees that the rule applies to sharing rooms.	No change was made to the transition plan.
Adult Family Homes	2 Advocates	Community access is limited. Per diem rates make it financially impossible to hire enough qualified staff to overcome community access limits.	The State has completed a review of state statutes and regulations determined that they are in alignment with the HCBS setting requirements and pose no barriers to community integration. In addition to	No change was made to the transition plan.

			support provided by the residential service provider, residents can engage in the community using a variety of supports including family and friends, volunteers and other natural supports.	
Adult Family Homes	Advocate	Very few of the AFHs are monitored by its volunteer Ombuds program. This should be addressed in the transition plan.	The Department agrees the volunteer Ombuds program has an important partnership role.	Under the section titled "Oversight of ALTSA and DDA Providers", a paragraph was added to acknowledge the role of the Washington State Ombuds monitoring. Additional statements were also added to the settings analysis.
Adult Family Homes	Advocate	Choices are controlled and regimented by the AFH owner	Chapter 388-76 WAC and Chapter 70.129 RCW require that residents have the right to make choices about their care, food, activities, etc. RCS interviews residents to determine if they are able to	No change was made to the transition plan.

			<p>make their own choices during the inspection process.</p> <p>RCS will continue to monitor facilities for compliance with these requirements.</p>	
Adult Family Homes	Advocate	The choice of roommates in AFH are limited to the individuals selected by the AFH owner	Case managers assist participants to review and select among all available living options including options where a participant may share a room. In settings where rooms are shared, participants have a choice of roommates in that setting. RCS ensures this requirement is being monitored during the inspection process.	No change was made to the transition plan.
Adult Family Homes	Advocate	Limited space in AFHs effectively limits the ability to furnish and decorate the AFH room	<p>All AFHs have a minimum floor space in order to be licensed. Chapter 70.129 RCW specifies requirements regarding resident personal property.</p> <p>In resident interviews, residents are asked if they were allowed to bring their own belongings</p>	No change was made to the transition plan.

			during the licensing/inspection process. RCS will continue to monitor facilities for compliance with these requirements.	
Adult Family Homes	Advocate	Very little support is provided in AFHs to pursue individual schedules	Supports for individualized schedules and other preferences are reflected in the Negotiated Care Plan between the resident and the provider.	No change was made to the transition plan.
Adult Family Homes	Advocate	We are aware of no norm in the marketplace or under law that allows half of one bedroom to be owned, rented or occupied	Though residents may share rooms, RCW 70.129.110 and Chapter 59.16 RCW provide protections from eviction.	No change was made to the transition plan.
Adult Family Homes	Advocacy organization	The lack of transportation support is an especially significant barrier to community integration, especially in rural areas.	The State has completed a review of state statutes and regulations determined that they are in alignment with the HCBS setting requirements and pose no barriers to community integration. In addition to support provided by the residential service provider, residents can engage in the	No change was made to the transition plan.

		comply. Recommend request legislation authorizing certification fees and intermediate sanctions.		
Supported Living	Advocacy organization	Found significant restrictions in DDA supportive living clients access to community living and little support to engage in personal relationships	Access to community activities is addressed in person-centered service planning for each participant by their case manager and plan to implement these activities are found in the individual instruction and support plan.	No change was made to the transition plan.
Supported Living	Advocacy organization	Found few people had the support they needed in order to exercise decision making power.	Client choices are protected by supported living contracts and enforced by RCS program certifiers during the regular recertification process. DDA Residential QA staff also monitors compliance with supported living rules and policies.	No change was made to the transition plan.
Supported Living	Advocacy organization (2 comments)	Policies facilitate a system where supported living providers are chosen for rather than by the clients. Many supported living provides exert a significant amount of control over each individual's home.	Clients' choices of supported residential settings are based on the assessed need of the client, the program(s) for which they are eligible and available vacancies. Participants report via the Assessment Meeting	No change was made to the transition plan.

		exception criteria that allow modifications.		
DDA Licensed Staff Residential settings	Advocacy organization	Recommend additional discussions with stakeholders to determine how best to implement these regulations regarding choice and autonomy for minors who are not living with parents or legal guardian.	DDA welcomes dialog from stakeholders. DDA regularly engages with self-advocacy groups and other stakeholders on a wide range of issues including participant rights and will continue to do so. In addition, DDA has established an HCBS QA Advisory Committee to formally provide input during the transition.	Additional clarifying information is added in Appendix C Stakeholder Involvement.
Residential standards	Advocate	Revise residential standards the Department uses to include reviewing individual records to ensure people can access food, choose roommates, are not isolated and have access to community activities	The state agrees with this comment. The state monitors each of these elements as part of the regular inspection process for both AFH and AL settings.	No change was made to the transition plan. This is addressed as part of Appendix C.
Assisted Living Contracts	Advocacy organization	There should be some analysis of Chapter 18.20 RCW, the statute governing assisted living facilities.	The state considered Chapter 18.20 RCW in its analysis. Chapter 18.20 RCW refers back to the Residents rights RCW in Title 70 .	No change was made to the transition plan.
Assisted Living Contracts	Advocacy organization	For many residents, the opportunities to leave the facility were infrequent.	The State has completed a review of state statutes and regulations determined that they are in alignment with	No change was made to the transition plan.

community residential providers		residential provider wages to reduce staff turnover and stop the trend of people being placed in a state institution for crisis respite	contents of the transition plan.	to the transition plan.
Personal care to access community	Advocates (2 comments)	DDA should allow individuals to use personal care providers to access the community. If personal care services are allowed outside the person's home, this will help to facilitate access to the greater community, and we are pleased that this is permitted.	Support for activities of daily living and instrumental activities of daily living may be provided in the home, and while the participant is accessing community resources or working. (WAC 388-106-0200(1)).	No change was made to the transition plan.
Assisted Living Contract	Advocate	This option is extremely limited (for DDA clients).	There are 185 assisted living contracted facilities in Washington state available as qualified providers of COPES waiver services. Assisted Living is available through the COPES waiver to individuals with intellectual disabilities who meet COPES waiver eligibility.	No change was made to the transition plan.
Residential lease	Advocate	With DDA providers, develop a consistent residential lease that incorporates CMS and other state rules.	Applicable HCBS requirements are currently reflected in state statute, rule and provider contracts for all providers	Clarifying language added to Appendix A & C, Companion Homes and Group Training

			preferences of potential housemates.	
DDA Group Home	Advocacy organization (2 comments)	<p>WAC 388-76-10555 regulations apply to group homes that are licensed as AFHs. How is integration and access to the community required for larger group homes licensed as assisted living facilities? WAC 388-110 are not included here & DRW's review did not identify any similar requirements that the facility ensure residents are provided opportunities to engage in integrated community activities.</p> <p>IF DDA Group Homes are licensed as AFHs or assisted living facilities, rules for certified residential providers are not relevant. DRW is concerned about RCS's capacity and authority to review and address problems.</p>	DDA Group Homes are regulated and licensed as AFHs or ALs and must also meet standards in WAC 388-101-3230 and residential guidelines in WAC 388-101-3350 which includes "integration in the physical and social life of the community."	No change was made to the transition plan.
DDA Group Home & HCBS	Advocacy organization	Being attached to an institution is one of two considerations for deciding whether to presume a setting in noncompliant with HCBS rules. This assessment ignores the second consideration, whether the setting "has the effect of isolating individuals." We recommend information be gathered and assessed for heightened scrutiny for all group homes that serve higher numbers of individuals.	DDA will continue to monitor compliance with HCBS settings standards for all residential and non-residential settings. Issues of individuals experiencing isolation are addressed in their annual person-centered service plan.	No change was made to the transition plan.
Licensed Staffed	Advocacy	Staffed residential and group care facilities	DDA's annual quality assurance	Additional clarifying

Residential, Child Foster Home & Group Care	organization	should be carefully reviewed for HCBS compliance as these setting congregate HCBS recipients. DRW recommends interviews with clients, parents, providers and case managers & onsite reviews of a sampling of providers.	reviews for licensed staffed residential and group care apply the same standards as utilized for supported living to ensure HCBS standards.	language is added in Appendix A Licensed staffed residential.
County self-assessment tool	Advocacy organization	A county self-assessment tool should not be used as a primary source of identifying site visit priorities. Also biyearly visit to each county provides very limited oversight.	DDA uses the county self-assessment tool as one of several methods of identifying priorities for site visits. Other considerations include: <ul style="list-style-type: none"> • If county is provider; • If DDA regional or HQ staff identifies county as needing additional site monitoring; • Every three years, all counties are reviewed. 	Additional clarifying language is added in Appendix A regarding Individual Supported Employment, Group Supported Employment, Pre-vocational Services and Community Access.
DDA Individual Supported Employment & isolation	Advocacy organization	Advocacy organization documented concerns that individuals receiving individual supported employment may be experiencing isolation from the broader community in DRW's report, Hours that Count. DRW does not believe this is directly caused by the delivery of this service. Instead, isolation should be addressed through changes to supported living & other residential settings.	By definition, individual supported employment and supported living are conducted in integrated settings and are compliant with HCBS settings requirement. Issues of individuals experiencing isolation are addressed in their annual person-centered service plan.	No change was made to the transition plan.
DDA Group	Advocacy	The report, "Hours that Count", detailed	County monitoring process	Additional clarifying

Supported Employment	organization	numerous concerns about the failure of many group supported employment vendors to provide for integration.	includes review and assurance of HCBS settings compliance. DDA will continue to review any settings of concern brought to our attention.	language is added in Appendix A-- Individual Supported Employment, Group Supported Employment, Pre-vocational Services and Community Access.
Heightened scrutiny for DDA Group Supported Employment	Advocacy organization	<p>42 CRF 441.301(c)(5)(v) requires heightened scrutiny for settings that are presumed to be institutional absent evidence to the contrary. Advocacy organization has found Group Supported Employment services have the effect of isolating many individuals from their broader communities and should be presumed institutional.</p> <p>If State does not propose changes to DDA Group Supported Employment, State should apply heightened scrutiny to any group supported employment setting where clients are employed by their group supported vendor.</p>	DDA presumes group supported employment is integrated & DDA and counties monitor for compliance to HCBS standards. DDA will continue to monitor compliance with HCBS settings standards for all residential and non-residential settings. Issues of individuals experiencing isolation are addressed in their annual person-centered service plan.	No change was made to the transition plan.
Proposed changes for group supported employment	Advocacy organization	Establish performance based contracts with counties to incentivize and reward job placements in individual employment.	DDA appreciates the comment about performance based contracts. All current county contracts are performance	No change was made to the transition plan.

			based contracts.	
Proposed changes for group supported employment	Advocacy organization	Revise service authorization process to ensure hours are allocated and used for individual employment searches and individual job development.	Existing service authorizations are allocated based on participants' needs and goals.	No change was made to the transition plan.
Proposed changes for group supported employment	Advocacy organization	Amend WAC 388-845 and/or WAC 388-823-1095 to require minimum and prevailing wages. Establish practice of only allowing exceptions for minimum/prevailing wage requirement based on certification and a separate showing for why employment supports are not capable of helping the individual develop a job at or above minimum wages. See RCW 49.46 and RCW 39.12.	Amending Chapter 388-845 WAC and/or WAC 388-823-1095 to include enforcement of minimum wage laws is beyond the scope of the Transition Plan. DSHS is open to exploring this issue further with the commenter and other stakeholders to determine if rule changes are appropriate.	No change was made to the transition plan.
DDA Group Training Homes	Advocacy organization	Advocacy organization asks whether there are any DDA Group Training Homes that are subject to AFH licensing rules. If none, why are AFH rules cited. Previous comments on the inadequacy of WAC 388-101 apply to this section.	Any new DDA Group Training Home developed after February 1, 2008 is subject to AFH licensing and certification. These two homes were created prior to the statute change and are not required to be licensed as AFHs but are subject to certification under Chapter 388-101 WAC.	No change was made to the transition plan.
