Resource: How to Report Child Abuse and Neglect
Information for Mandatory Reporters (Vulnerable Adults)
DDA Policy 12.01, Incident Management and Reporting

BACKGROUND

Several state laws require Department of Social and Health Services (DSHS) employees, volunteers, and contractors to report suspected abuse, improper use of restraint, neglect, self-neglect, personal or financial exploitation, abandonment and/or mistreatment, and neglect of children and vulnerable adults:

- Chapter 26.44 RCW mandates the reporting of any suspected abuse or neglect of a child to either DSHS or law enforcement.

- Chapter 74.34 RCW mandates an immediate report to DSHS of suspected abuse, neglect, abandonment, or personal or financial exploitation of a vulnerable adult. When there is suspected sexual or physical assault of a vulnerable adult, it must be reported to DSHS and to law enforcement.

- RCW 70.124.030 mandates the reporting of suspected abuse or neglect of state hospital patients.
Chapter 74.34 RCW divides reporters into two types: mandated and permissive. Mandated reporters include all DSHS employees, service providers, law enforcement officers, social workers, and others (see the Definitions section of this policy for complete description). Under state law, volunteers at a facility or program providing services to vulnerable adults fall into the permissive category. **However, in order for contractors, volunteers, interns, and work study students to work in regional Field Services offices, Residential Habilitation Centers (RHC), and State Operated Living Alternatives (SOLA), they must agree to follow mandatory reporting requirements.**

**PURPOSE**

This policy describes the process the Developmental Disabilities Administration (DDA) will use to protect, to the extent possible, the health, safety, and well-being of administration clients, and to ensure that client abandonment, abuse, personal and financial exploitation, neglect and self-neglect is reported, investigated, and resolved; and to ensure that procedures are in place to prevent abuse.

**SCOPE**

This policy applies to all DDA employees, contractors, volunteers, interns, and work study students. **All DDA employees are mandated reporters.**

**Note:** Contracted community residential service providers must follow the requirements of DDA Policy 6.12, *Mandatory Reporting Requirements for Residential Providers.* Employment and day program services providers must follow the requirements of DDA Policy 6.08, *Mandatory Reporting Requirements for Employment and Day Program Services Providers.*

**DEFINITIONS**

See Attachment A for a complete list of definitions of terms used in this policy. Attachment B contains clarifying examples of abuse, neglect, financial exploitation, and self-neglect.

**POLICY**

A. Abuse and neglect of children and vulnerable adults is prohibited by law and will not be tolerated. All administration employees, contractors, volunteers, interns, and work study students must report every incident of observed, reported, or suspected abandonment, abuse, financial exploitation, neglect or self-neglect of clients, as well as injuries of unknown origin. DDA shall process allegations in a manner that ensures prompt investigation and resolution.
1. Mandated reporters do not have to witness or have proof that an incident occurred. As long as there is reasonable cause to believe that a child or a vulnerable adult has been abused or neglected, a mandated reporter must make a report.

2. When a report is made to the “Abuse Hotline,” DDA will recognize the right of a mandatory reporter to remain anonymous, except as permitted by RCW 74.34.035(8) and RCW 74.34.095(1), or except where confidentiality has been waived by the reporter.

3. A client injury should be reported as an “injury of unknown origin/source” when:
   a. The injury was not observed directly by the staff person; and
   b. The injury is not reasonably determined to be related to the client’s condition, diagnosis, known and predictable interaction with surroundings, or related to a known sequence of prior events.

B. Failure to report can result in disciplinary action. Furthermore, failure to report is a gross misdemeanor under Washington State law (RCW 74.34.053). Any DDA employee, contractor, or volunteer found to have knowingly failed to report in their capacity as a mandated reporter will be reported to the appropriate law enforcement agency and may be prosecuted to the extent the law allows.

C. Harassment and/or retaliation towards employees who report in good faith will not be tolerated.

D. Employees who report in good faith are provided immunity from prosecution and protected from dismissal by state law (RCW 70.124.060).

E. False reports made intentionally, maliciously, or in bad faith constitute a misdemeanor under Washington State law (RCW 74.34.053). Any DDA employee, contractor, or volunteer found to have knowingly made a false report will be reported to the appropriate law enforcement agency and may be prosecuted to the extent the law allows.

F. A facility/agency may not develop policies or procedures that interfere with the mandatory reporting requirements in state law (RCW 74.34.035).

G. In addition to the requirements of this policy, the requirements of DDA Policy 12.01, Incident Management and Reporting, must also be met.
A. REPORTING

1. When a DDA employee, contractor, volunteer, intern, or work study student in the course of their duties has reasonable cause to believe that any client has been abused, neglected, or exploited, regardless of the source of information, they must call the appropriate DSHS reporting unit (see Section C below) immediately.

   a. “Immediately” means there should be no delay between staff awareness of the incident/allegation and making the report. Reporting should occur as soon as the safety of all clients is assured and all necessary emergency measures have been taken.

   b. Reports must be made immediately regardless of employee leave or days off.

2. Mandated reporters calling a DSHS reporting unit should be prepared to provide, to the extent possible, the following information:

   a. Their name and address;

   b. The name and address of the child or vulnerable adult, and the name of the agency providing care, if applicable;

   c. The name and address of the client’s legal representative

   d. The nature and extent of the abuse, improper use of restraint, neglect, self-neglect, personal or financial exploitation, abandonment and/or mistreatment, or neglect;

   e. Any known history of previous abuse, improper use of restraint, neglect, self-neglect, personal or financial exploitation, abandonment and/or mistreatment, or neglect;

   f. The identity of the alleged perpetrator, if known; and

   g. Other information that may be helpful in establishing the extent of abuse, improper use of restraint, neglect, self-neglect, personal or financial exploitation, abandonment and/or mistreatment, and neglect.
3. If there is reason to suspect that physical or sexual abuse occurred, mandated reporters must also immediately report the incident to the appropriate local law enforcement agency.

4. An employee may want to consult with a supervisor or other professional staff in making a determination of whether there is reasonable cause to believe abuse or neglect occurred. While this is permissible, it does not relieve the employee from their mandated reporting responsibilities if they believes abuse or neglect has occurred.

B. NOTIFYING A SUPERVISOR

1. Immediately after calling a DSHS reporting unit, a mandated reporter must also report the incident to their supervisor in the manner specified by the office/facility procedure. If the immediate supervisor is not available, report the incident to the next highest supervisor or management representative so designated by the office/facility.

2. If the suspected perpetrator is the person to whom the mandated reporter would usually report, report the incident to the next highest supervisor or management representative at the office/facility.

3. The office/facility/contractor must make a report to DDA Central Office. See DDA Policy 12.01, Incident Management and Reporting, for additional information on timelines and requirements.

**Child** or **Children** means any person less than eighteen (18) years of age.

**Abuse or neglect** means sexual abuse, sexual exploitation, or injury of a child by any person under circumstances which cause harm to the child's health, welfare, or safety, excluding conduct permitted under RCW 9A.16.100; or the negligent treatment or maltreatment of a child by a person responsible for or providing care to the child.

When considering whether a clear and present danger exists, evidence of a parent's substance abuse as a contributing factor to negligent treatment or maltreatment shall be given great weight. The fact that siblings share a bedroom is not, in and of itself, negligent treatment, or maltreatment. Poverty, homelessness, or exposure to domestic violence as defined in RCW 26.50.010 that is perpetrated against someone other than the child does not constitute negligent treatment or maltreatment in and of itself.

**DEFINITIONS - VULNERABLE ADULTS (RCW 74.34.020)**

**Abandonment** means action or inaction by a person or entity with a duty of care for a vulnerable adult that leaves the vulnerable person without the means or ability to obtain necessary food, clothing, shelter, or health care.

In instances of abuse of a vulnerable adult who is unable to express or demonstrate physical harm, pain, or mental anguish, the abuse is presumed to cause physical harm, pain, or mental anguish. Abuse includes sexual abuse, mental abuse, physical abuse, personal exploitation of a vulnerable adult, and improper use of restraint which have the following meanings:

Financial exploitation includes, but is not limited to:

(a) The use of deception, intimidation, or undue influence by a person or entity in a position of trust and confidence with a vulnerable adult to obtain or use the property, income, resources, or trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult;

(b) The breach of a fiduciary duty, including, but not limited to, the misuse of a power of attorney, trust, or a guardianship appointment, that results in the unauthorized appropriation, sale, or transfer of the property, income, resources, or
trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult; or

(c) Obtaining or using a vulnerable adult’s property, income, resources, or trust funds without lawful authority, by a person or entity who knows or clearly should know that the vulnerable adult lacks the capacity to consent to the release or use of his or her property, income, resources, or trust funds.

**Mechanical restraint** means any device attached or adjacent to the vulnerable adult’s body that he or she cannot easily remove that restricts freedom of movement or normal access to his or her body. “Mechanical restraint” does not include the use of devices, materials, or equipment that are (a) medically authorized, as required, and (b) used in a manner that is consistent with federal or state licensing or certification requirements for facilities, hospitals, or programs authorized under chapter 71A.12 RCW.

**Physical restraint** means the application of physical force without the use of any device, for the purpose of restraining the free movement of a vulnerable adult’s body. “Physical restraint” does not include (a) briefly holding without undue force a vulnerable adult in order to calm or comfort him or her, or (b) holding a vulnerable adult’s hand to safely escort him or her from one area to another.

**Self-neglect** means the failure of a vulnerable adult, not living in a facility, to provide for himself or herself the goods and services necessary for the vulnerable adult's physical or mental health, and the absence of which impairs or threatens the vulnerable adult's well-being. This definition may include a vulnerable adult who is receiving services through home health, hospice, or a home care agency, or an individual provider when the neglect is not a result of inaction by that agency or individual provider.

**Vulnerable adult** means a person eighteen (18) years of age or older who:

(a) Is sixty years of age or older who has the functional, mental, or physical inability to care for himself or herself; or
(b) Is found incapacitated under Chapter 11.88 RCW; or
