Note: The Social Security Act requires the state of Washington to maintain a State Supplemental Program (SSP) because Washington operated a state-funded assistance program prior to the implementation of the federal Supplemental Security Income (SSI) program in 1974. Washington state is also required to tell the Social Security Administration (SSA) each year how the program will be managed through an annual State Plan agreement. Since the inception of SSP, Washington state has paid SSA to administer the program.

The 2002 Washington State Legislature redirected the funding for SSP effective July 1, 2002. Funding for SSP was divided between the Division of Developmental Disabilities (DDD) and the Economic Services Administration (ESA). ESA was given \$4.8 million of the \$28.9 million maintenance of effort (MOE) money to spend on SSI recipients who have an SSI ineligible spouse and grandfathered in SSI recipients, also called MIL clients.

SSA managed the reduced program July 1, 2002 through September 30, 2002. State administration of SSP began in October 2002.

Numbers reported here represent the number of cases managed by ESA. As of January 2004, ESA added approximately 25,000 aged and blind individuals to the SSP caseload, as part of the 2004 State Plan agreement with SSA.
