Meeting Survivors' Needs

Beginning in July 2008, survivors receiving services at domestic violence shelters funded by DSHS had the opportunity to provide confidential feedback on the services they received. In response to two questions answered by 3,811 survivors in 2010

3,398 (89.16%) responded that as a result of receiving services, they know more ways to plan for their safety

3,286 (86.22%) responded that as a result of receiving services, they know more about community resources

These outcomes are consistent with the findings from the first national multi-state study (10/2008) that documents the experiences of survivors that received emergency shelter and advocacy services from domestic violence programs.

Questions should be directed to the DSHS Program Manager at (206) 923-4910.
