

### **DCS Veteran Liaisons**

DCS has experienced Support Enforcement Officers who are DCS Veteran Liaisons. The liaisons are located throughout the state in DCS offices. The Veteran Liaisons refer veterans to WDVA to access benefits and entitlements. In return WDVA refers veterans with child support cases to DCS so that we can work with them to meet their obligations. We are committed to serving our veterans and active duty service members by helping them navigate the child support program. We will provide regular posting regarding information about the child support program and provide community based resources that are available. Child support contributes to brighter futures for children, families and communities.
