Summary

Summarize changes you made here.

Corrected the Naturalization section of the Social Service Manual; the 2 year extension expired, so SSI is limited to 7 years from the date members of this specific population enter the U.S.

See below for edited text:

Worker Responsibilities

e. When a person who is a non-U.S. citizen reports SSI approval, explain that unless they naturalize they will only receive SSI for seven years ~~(or 9 years if eligible for the current 2-year extension)~~ from the date they entered the U.S:

EXAMPLE:

Worker Responsibilities - [WAC 388-418-0020](#)

3. Changes that reduce benefits:

When people report a change that will reduce their benefits, make the change to reduce their benefits (with advance notice). Do not require proof of the change. We will verify this information at the next eligibility review / recertification ~~or mid-certification review (MCR)~~.
