

7.3.6 What is Independent Life Skills Training?

Life Skills/Soft Skills training prepares participants to meet the demands of everyday life and employment. It *may* be employment related and an up-front introduction that helps prepare them to participate in activities effectively. It doesn't completely address and resolve family issues.

For federal reporting, Life Skills is a time-limited core activity in the same category as job search/job preparation. This activity can be used by itself or stacked with other activities in order to reach full time participation.

Note: Homework can't count as WorkFirst participation hours for Life Skills training.

Code Independent Life Skills training as "LS" on the eJAS component screen.

- For participants in Job Search activities through ESD, Commerce, or ORIA, incorporate Life Skills training as part of their JS component. Don't code the LS trainings separately from the JS component for these cases.

Refer to [section 4.1.6](#) What is Life Skills training as part of Career Scope activities?

~~for More information on Life Skills training as it pertains stacked with to job search activity can be found in and refer to [section 7.3.7](#) for Life Skills training as part of other job preparation activities.~~
