

Relative Caregiver / Suitable Other Placement Fact Sheet and Home Study Checklist

Relatives and other important adults in a child's life play a key role in helping to meet the needs of children who are unable to live with their parents. The bond to family, relatives, and community is vital to the health and well-being of a child.

Thank you for your willingness to be a Relative Caregiver or Suitable Other Placement resource for a child or children who need you!

Those wishing to care for a child who cannot live at home due to abuse, neglect, abandonment, or parental inability must meet certain requirements, including:

- Pass background check
- Obtain fingerprinting
- Provide health information
- Provide financial information
- Take part in interviews
- Pass a home inspection
- Provide marital / partner history information
- Tdap and/or DTap for all household members (if taking placements of children under the age of two years)

These actions are all part of a home study. Home study application packets are reviewed at orientation classes. Orientation is **NOT required**, but available for additional information on the home study process. The class schedule is posted on Children's Administration's foster parenting training website at <http://www.dshs.wa.gov/ca/fosterparents/preservice.asp>. Click on the map for the classes in your area.

Department of Social and Health Services policy allows up to 120 days to complete a unified home study. To meet this timeline, we ask that you please send in the required information promptly.

We encourage all caregivers to become licensed. Your home study worker will review the licensing requirements with you if you are interested in being a licensed foster parent.

If you have any questions about the home study process, please contact the Division of Licensed Resources at: () -

Unified Home Study Checklist for Unlicensed Applicant(s)

ACTION ITEM
