## AUDIT FINDINGS

### NARRATIVE

The Juvenile Justice & Rehabilitation Administration (JJRA) requested a PREA Audit for Camp Outlook, located in Connell, Washington, on March 27, 2014. Camp Outlook is a contractual facility owned and operated by Pioneer Human Services (PHS). Camp Outlook is a military-style 120-day basic training camp for juvenile offenders. Non-violent and non-sex-offender youth accepted into the Camp Outlook program can earn release to Intensive Parole supervision in the community earlier than they would have from a traditional institution program. Camp Outlook services include educational programming, dialectical behavior therapy, moral reconation therapy, victim awareness and physical training. The Pre-Audit work commenced on October 27, 2014 and the Onsite Audit was conducted on December 8, 2014 through December 10, 2014.

Camp Outlook is a community facility that houses up to 26 male and female residents and has approximately 42 staff members. Routine medical care is provided on-site. Mental health services are provided by off-site counselors and therapists. At the time of the on-site PREA audit, there were 24 volunteers and four contractors authorized to enter the facility. The primary function of the staff, volunteers and contractors were to assist the residents' in completing the 120-day program.

## **DESCRIPTION OF FACILITY CHARACTERISTICS**

The Camp Outlook has two main buildings, a classroom/administrative office building and a housing unit. The housing unit is comprised of two dorm housing units, one for males and one for females. There are two segregation cells (i.e., isolation cells).

Camp Outlook has a designed capacity of 26. The facility is designed to house residents aged 14 to 19. The facility's security level is rated as a "medium" and the resident custody levels range is considered "medium" per interviews with Camp Outlook staff. Camp Outlook is considered a "secure" facility. As of October 2014, the facility was authorized to employ up to 42 staff members. All staff are considered 'security' staff for the purpose of the staff-to-resident ratio as defined by PREA. The facility has multiple security cameras located in and around the facility but none of the cameras are located in the resident's bedroom or shower/toileting areas.

During the previous 12 month period, the facility reported one allegation of sexual abuse/sexual harassment. The facility had never had a previous PREA Audit.

## SUMMARY OF AUDIT FINDINGS

The PREA Audit, onsite, was conducted between December 8, 2014 and December 10, 2014. It was confirmed, via photographic evidence provided via email by the Camp Outlook PREA Compliance Manager (PCM), that the required PREA Audit notice was posted 42 days in advance. The photographs confirmed that the notices were posted in various, conspicuous, areas throughout the facility.

On November 11, 2014, multiple emails arrived containing the completed Pre-Audit Questionnaire, policies, and other supporting documentation from the PCM. Upon review it became apparent that the facility was an independent agency with its own Board of Directors and operated as a separate and distinct legal entity from the State of Washington. Further, as a review of the policies and procedures was conducted, it became clear that several policies were missing and or "pending." A conference call with the PCM on November 24, 2014 confirmed that the facility was still "working" to complete various policies and procedures. It also became clear the Camp Outlook staff believed that by "adopting" JJRA policies and procedures meant that the facility did not have to create its own PREA related policies and procedures.

The on-site audit was conducted from December 8, 2014 to December 10, 2014. An introduction meeting was held at approximately 8:30 AM on December 8, 2014 with the Facility Administrator, PCM, and several other facility staff. Following this meeting, a tour of the facility was conducted and this auditor noted the location of the security cameras, examined the physical grounds and structures. Notification of the PREA Audit, as well as, notices regarding the rights of the residents to be free from sexual abuse and sexual harassment were observed. These notices included information on how residents could report sexual abuse and sexual harassment.

During the tour it was noted that there were areas of the facility that had "blind spots" and these areas were noted by the PCM. It was also noted that there were no cameras in the residents' sleeping quarters or in the residents' shower/toileting areas.

There were a total of 14 residents in the program during the audit. While touring, this auditor observed residents were being supervised by Camp Outlook staff (i.e., security staff).

This Auditor interviewed 10 randomly selected residents as part of the audit. Residents reported being informed of the facility's Zero-Tolerance Policy related to sexual abuse and sexual harassment and their right to be free from sexual abuse, sexual harassment and their right to be free from retaliation for reporting sexual abuse and/or sexual harassment. Several residents noted that they didn't get PREA education within 10-days of intake and that they didn't know about community services. A review of all 14 residents' files indicated that 14 (or 100.0%) did not receive PREA information. However, a review of the residents' files indicated that all 14 residents (100.0%) did get the required PREA education within the required 10-day timeline.

During the tour this auditor talked to security staff, counselors, and intake staff. In all, during the on-site audit, a total of 16 staff (JJRA employees, and/or contractors) were interviewed. Ten of these staff were randomly selected from all three shifts. Overall, the staff interviews revealed that staff were trained in PREA standards, their obligations as first-responders, and their respective responsibilities and duties to prevent, detect, and respond to sexual abuse, sexual harassment, and allegations of retaliation for reporting sexual abuse and sexual harassment. However, several staff reported not being trained in how to search transgender or intersex residents. Further, two staff reported that "immediately" meant by the "end of my shift." The case manager staff noted that they completed a risk factor analysis (called a SAVY) for each resident to determine proper room assignment. However, staff were unsure if they should consider whether a resident is perceived to be LGBTI. In a review of 14 resident files all 14, or 100.0%, did receive his SAVY within the specified 72-hours [NOTE: At the time of the onsite there were only male residents at the facility.]

Through the pre-audit and on-site audit process, it was determined that 31 standards were not met. A corrective action plan for compliance was developed and implemented to facilitate Camp Outlook efforts to become fully compliant with all PREA standards. On May 5, 2015, the Pioneer Human Services (PHS) PREA Coordinator/Administrator notified this auditor that Camp Outlook would not seek PREA compliance as the facility was closing on May 20, 2015. On May 21, 2015 it was confirmed that Camp Outlook was closed. At the time of the closing Camp Outlook was determined to be compliant with 23 standards, not meeting 16 standards and 2 standards were determined to be not applicable. Thus, Camp Outlook is determined not to meet standard. A summary of this Auditor's findings and the corrective actions, in any, are written under each applicable standard within this report.

Number of standards exceeded: 0

Number of standards met: 23

Number of standards not met: 16

Number of standards not applicable: 2

## Standard 115.311 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.311: Requires that: (a) An agency shall have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency's approach to preventing, detecting, and responding to such conduct; (b) An agency shall employ or designate an upper-level, agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities; and (c) Where an agency operates more than one facility, each facility shall designate a PREA compliance manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

EVIDENCE OF COMPLIANCE: As evidence of compliance with this standard, the facility (Camp Outlook) submitted to this Auditor the Department of Social and Health Services (DSHS) Juvenile Rehabilitation (JJRA) Policy 49, which was put into effect on April 1, 2014; the Pre-Audit Questionnaire; Camp Outlook's Organizational Chart; Camp Outlook's Facility Policy (effective on February 5, 2015); and interviews with staff (specifically the Facility Administrator, the PCM, and the PREA Administrator for the State of Washington).

OBSERVATIONS: As noted in the Auditor's Worksheet, there were initially nine Corrective Action Plan (CAP) items that needed be addressed after the onsite visit. Overall, several policies needed to be created and/or revised and the facility needed to create an organizational chart that showed to whom the PCM reported.

DETERMINATION: Camp Outlook created and implemented the "Camp Outlook Policy of Zero Tolerance of Sexual Abuse and Sexual Harassment." +

## Standard 115.312 Contracting with other entities for the confinement of residents

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.312: Requires that: (a) A public agency that contracts for the confinement of its inmates with private agencies or other entities, including other government agencies, shall include in any new contract or contract renewal the entity's obligation to adopt and comply with the PREA standards; (b) Any new contract or contract renewal shall provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards.

EVIDENCE OF COMPLIANCE: As evidence of compliance with this standard, the facility (Camp Outlook) and JJRA submitted to this Auditor the Pre-Audit Questionnaire, provided interviews with staff (specifically, the DSHS Contract Manager), and copies of a contract with Pioneer Human Services.

OBSERVATIONS: Interviews with the PHS Vice President of Adult and Juvenile Reentry, and acting for the Agency Head of PHS, confirmed that PHS does not contract out for confinement services. This was collaborated by the PHS PREA Coordinator. However, a contract found during the onsite visit noted that PHS can confine Camp Outlook residents to a local area juvenile detention facility, as needed. However, as this contract was signed prior to August 20, 2012, this standard is not applicable per the PREA standards.

DETERMINATION: It was noted that PHS and Camp Outlook would need to ensure that the contract, if renewed, would need to meet PREA Standard 115.312. However, as the contract was signed prior to August 20, 2012, this Auditor was required to mark this standard as "not applicable." +

### Standard 115.313 Supervision and monitoring

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.313: This standard has four components: (a) a staffing plan has been created; (b) deviations from the staffing plan are documented; (c) the staffing plan is reviewed annually; and (d) for secure facilities, where unannounced rounds occur, staff are prohibited from alerting other staff that such rounds are occurring.

EVIDENCE OF COMPLIANCE: As evidence of compliance with this standard, the facility (Camp Outlook) submitted to this Auditor the Department of Social and Health Services (DSHS) Juvenile Rehabilitation (JJRA) Policy 49, which was put into effect on April 1, 2014; the Pre-Audit Questionnaire; Camp Outlook's Organizational Chart; Camp Outlook's Facility Policy (effective on February 9, 2015); interviews with staff (specifically, the Facility Administrator, the PCM, and the PREA Administrator for the State of Washington); and a written facility Staffing Plan dated March 23, 2015.

OBSERVATIONS: As noted in the Auditor's Worksheet, after the onsite visit there were four CAP items that needed to be addressed. The Camp Outlook relied on JJRA's PREA Policy 49, after being modified, now requires that each facility develop, document, and make its best efforts to comply on a regular basis with the facility Staffing Plan. Subsequent correspondence with the PCM noted that Camp Outlook has a written and developed Staffing Plan. On March 16, 2015, the PREA Administrator, the Facility Administrator for Camp Outlook, and the PCM met to review the facility's staffing plan.

DETERMINATION: Because Camp Outlook has a staffing plan that is reviewed by Camp Outlook's PREA Compliance Manager with the **+**

Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an inmate housing unit; (e) The facility shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner; and (f) The agency shall train security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

EVIDENCE OF COMPLIANCE: Juvenile Rehabilitation Administration Community Facility Program Standards (CF) were presented as evidence of compliance along with JJRA Policy 42 (Conducting Searches), JJRA Policy 50, a tour of the facility, and the Pre-Audit Questionnaire. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.318: This standard has two components: (a) When designing or acquiring any new facility and in planning any substantial expansion or modification of existing facilities, the agency shall consider the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect residents from sexual abuse; and (b) When installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency shall consider how such technology may enhance the agency's ability to protect residents from sexual abuse.

- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.322: This standard has five components: (a) The agency shall ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment; (b) The agency shall have in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior. The agency shall publish such policy on its website or, if it does not have one, make the policy available through other means. The agency shall document all such referrals; (c) If a separate entity is responsible for conducting criminal investigations, such publication shall describe the responsibilities of both the agency and the investigating entity; (d) Any State entity responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in juvenile facilities shall have in place a policy governing the conduct of such investigations; (e) Any Department of Justice component responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in juvenile facilities shall have in place a policy governing the conduct of such investigations.

This Auditor also relied on interviews of staff and residents.

OBSERVATIONS: PHS presented no agency nor facility specific policies related to this standard. Instead they presented JJRA Policy 34, which notes on page 1 section 2 that "JJRA staff or contracted providers must report allegations of abuse and neglect which occur in

This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.331: This standard has four components: (a) The agency shall train all employees who may have contact with residents on 11 required topics; (b) Such training shall be tailored to the unique needs and attributes of residents of juvenile facilities and to the gender of the residents at the employee's facility. The employee shall receive additional training if the employee is reassigned from a facility that houses only male residents to a facility that houses only female residents, or vice versa; (c) All current employees who have not received such training shall be trained within one year of the effective date of the PREA standards, and the agency shall provide each employee with refresher training every two years to ensure that all employees know the agency's current sexual abuse and sexual harassment policies and procedures. In years in which an employee does not receive refresher training, the agency shall provide refresher information on current sexual abuse and sexual harassment policies; and (d) The agency shall document, through employee signature or electronic verification, that employees understand the training they have received.

EVIDENCE OF COMPLETION: Camp Outlook referenced JJRA Policy 49 (Applying the PREA Juvenile Standards in JJRA 4/1/2014) Policy, page 5, section 25, subsection 25.1. to 25.11 and submitted signed "Acknowledgement of Receipt of PREA Training" forms as evidence of compliance. Further, random interviews with 10 staff (employees, contractors, and volunteers) were also used.

OBSERVATIONS: All 10 of the 10 randomly interviewed staff, or 100.0%, reported that they did receive all of the required PREA training. A review of the educational training files noted that employees received the training but the form did not stipulate that the employee understood the training. All staff interviews noted they felt they receive training that was appropriate for both males and females. However,

EVIDENCE OF COMPLETION: Camp Outlook’s Pre-Audit Questionnaire and interviews with the Camp Outlook Facility Administrator were used to assess compliance with this standard.

OBSERVATIONS: Camp Outlook is clearly attempting to “catch-up” in its policies, procedures, and practices but in the volunteer/contractor area it is not fully developed yet. Camp Outlook has just developed a training plan for volunteers and contractors. This lead to four CAP items.

DETERMINATION: During the CAP timeline period the facility was unable to complete any of the CAP items. Thus, Camp Outlook was

EVIDENCE OF COMPLETION: Camp Outlook’s Pre-Audit Questionnaire, JJRA Policy 40, interviews with the Camp Outlook Facility Administrator, the facility staff and residents, and a review of all 14 resident files were used to assess compliance with this standard.

OBSERVATIONS: A review of all 14 residents’ files indicated that 14, or 100.0%, did not receive PREA information at their time of intake. However, all 14, or 100.0%, did not receive the required education within the required 10-day timeline. These findings resulted in one CAP item.

EVIDENCE OF COMPLETION: Camp Outlook’s Pre-Audit Questionnaire along with interviews with the Camp Outlook Facility Administrator were used to assess compliance with this standard.

OBSERVATIONS: Camp Outlook initially noted that this standard was “not applicable.” However, this Auditor determine that this standard applied to Camp Outlook because the Final Rule notes “The standard contained in the proposed rule required agencies responsible for investigating allegations of sexual abuse to adopt an evidence protocol to ensure all usable physical evidence is preserved for administrative or criminal proceedings, based on the Department of Justice’s Office on Violence Against Women publication, “A National Protocol for Sexual Assault Medical Forensic Examinations Adults/Adolescents” (SAFE Protocol) or similarly comprehensive and +

EVIDENCE OF COMPLETION: Camp Outlook’s Pre-Audit Questionnaire along with interviews with the Camp Outlook Facility Administrator, and staff were used to assess compliance with this standard.

OBSERVATIONS: PHS nor Camp Outlook has a policy related to this standard. Per the Pre-Audit Questionnaire the Camp Outlook facility does have medical and mental health practitioners at the facility on a ‘part-time’ and ‘as-needed’ basis. Staff and Facility Administrator interviews confirmed that the facility does have medical or mental health practitioners who work regularly in its facilities. These findings +

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 39, the Sexually Aggressive/Vulnerable Youth (SAVY) Survey, interviews with the Camp Outlook Facility Administrator, staff, and residents, and a review of 19 resident files were used to assess compliance with this standard.

OBSERVATIONS: The facility uses a risk assessment tool that utilizes each resident's intake responses to a variety of questions, including past victimizations and abusiveness. This information is used to help determine a youth's risk of sexual aggression and sexual vulnerability. The staff use the SAVY, a personal interview, and any other available relevant records, to assess each youth's risk for sexual victimization.

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. REQUIREMENTS: 115.354: This standard has one component: (a) The agency shall establish a method to receive third-party reports of sexual abuse and sexual harassment and shall distribute publicly information on how to report sexual abuse and sexual harassment on behalf of a resident.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, interviews with the Camp Outlook Facility Administrator, staff, and residents, and an interview with the State of Washington's PREA Administrator were used to assess compliance with this standard.

OBSERVATIONS: This Camp Outlook facility has multiple means of receiving third-party reports, including phone calls to the facility and via the CPS number; however, none of these methods appear to be provided to the residents' family members. The DSHS website <http://www.dshs.wa.gov/jra/prea.shtml> notes that anyone, who suspects sexual abuse has happened at a JJRA facility is free to contact the facility or report to CPS and law enforcement. However, no mention of what to do with sexual harassment reports is referenced. Further, the website only states that "you are free to contact the facility" but it doesn't provide any contact information, contact name(s), or how the process would work. These findings resulted in one CAP item. Further, there is no information readily found by this Auditor on the PHS nor Camp Outlook website.

DETERMINATION: The facility was unable to complete any CAP items related to this standard. Based on this, the Camp Outlook facility is deemed not to be compliant with this standard +

This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.362: This standard has one component: (a) When an agency learns that a resident is subject to a substantial risk of imminent sexual abuse, it shall take immediate action to protect the resident.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 49 (Applying PREA Juvenile Standards in JJRA [4/1/2014]), and interviews with staff and residents were used to assess compliance with this standard.

OBSERVATIONS: JJRA Policy 49, on page 4, section 19, notes that "If a youth is subject to a substantial risk of imminent sexual abuse, the Superintendent, Community Facility Administrator, Regional Administrator, or designee must take immediate action to protect the youth." During interviews all 11 randomly selected staff noted that they would act immediately to protect a resident who was subject to a substantial risk of imminent sexual abuse. EVIDENCE OF COMPLETION: Camp Outlook’s Pre-Audit Questionnaire, JJRA Policy 49 (Applying PREA Juvenile Standards in JJRA [4/1/2014]), and interviews with staff and residents were used to assess compliance with this standard.

OBSERVATIONS: JJRA Policy 49, on page 4, section 20, notes that “within 72 hours of receiving an allegation that a youth was sexually abused while confined at another facility, the Superintendent, Regional Administrator or designee, must notify the head of the facility or appropriate office of the agency where the alleged abuse occurred. Notification must be documented.” Nothing is presented that documents what the agency does when it receives an allegation of sexual abuse of a former resident while they were in residence at Camp Outlook from other facilities/agencies. Interviews indicated that staff would treat the allegation as a “new” allegation and immediately follow their policies related to reports or suspicions of sexual abuse. However, this procedure is not noted in any policy reviewed by this Auditor. These findings resulted in two CAP items +

(b) If the first staff responder is not a security staff member, the responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence, and then notify security staff.

EVIDENCE OF COMPLETION: Camp Outlook’s Pre-Audit Questionnaire, JJRA Policy 49 (Applying PREA Juvenile Standards in JJRA [4/1/2014]), and interviews with staff and residents were used to assess compliance with this standard.

OBSERVATIONS: JJRA Policy 49 does not differentiate between security staff and non-security staff. The policy states that “the first staff member to respond.” Further, in each staff interview, including non-security staff, all staff noted that they understood his/her role if they happen to be a first responder and each staff answer was compliant with PREA standards. EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire and interviews with staff and residents were presented as evidence of compliance with this standard.

OBSERVATIONS: PHS nor Camp Outlook presented a coordinated response plan. This resulted in one CAP item.

DETERMINATION: During the CAP time period the facility created the Camp Outlook's Coordinated Response Plan. This plan is written and details the coordinated action that staff are to take in response to an incidence of sexual abuse. This includes the responsibilities of first responders, medical and mental health practitioners, investigators, and facility leadership. Based on this the Camp Outlook facility is deemed to be in compliance with this standard.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire and an interview with the Vice President for Adult and Juvenile Reentry [designee for the PHS Agency Head] were used to assess compliance with this standard.

OBSERVATIONS: An interview with the Vice President for Adult and Juvenile Reentry and designee for the PHS Agency Head, noted that the agency did not enter into a new/renewed collective bargaining agreement.

DETERMINATION: Based on the findings, the Camp Outlook facility is deemed to be in compliance with this standard.

REQUIREMENTS: 115.367: This standard has six components: (a) The agency shall establish a policy to protect all residents and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents or staff and shall designate which staff members or departments are charged with monitoring retaliation; (b) The agency shall employ multiple protection measures, such as housing changes or transfers for resident victims or abusers, removal of alleged staff or resident abusers from contact with victims, and emotional support services for residents or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations; (c) For at least 90 days following a report of sexual abuse, the agency shall monitor the conduct or treatment of residents or staff who reported the sexual abuse and of residents who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by residents or staff, and shall act promptly to remedy any such retaliation. Items the agency should monitor include any resident disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need; (d) In the case of residents, such monitoring shall also include periodic status checks; (e) If any other individual who cooperates with an investigation expresses a fear of retaliation, the agency shall take appropriate measures to protect that individual against retaliation; and (f) An agency's obligation to monitor shall terminate if the agency determines that the allegation is unfounded.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 49 (Applying PREA Juvenile Standards in JJRA [4/1/2014]) and interviews with staff and residents were used to assess compliance with this standard +

## Standard 115.368 Post-allegation protective custody

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.368: This standard has one component: (a) Any use of segregated housing to protect a resident who is alleged to have suffered sexual abuse shall be subject to the requirements of § 115.342.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 22, and interviews with staff and residents were used to determine compliance with this standard.

OBSERVATIONS: Based on the pre-on-site visit conference calls with the Facility Administrator and via the Pre-Audit Questionnaire, Camp Outlook does not, ever, place a resident in isolation for their own safety. However, JJRA Policy 22 ("Assigning Room Confinement, Programmed Room Confinement and Isolation") does allow for its use. Staff interviews supported the contention that Camp Outlook facility "never" places a resident in isolation for their own protection against sexual victimization. (Note: Isolation is used after a severe infraction and/or for suicide watches.) However, all staff reported that the facility never uses isolation as a means to protect someone from sexual victimization, instead 11 out of 11 staff commented that the alleged abuser or potential abuser would be moved to another housing unit or to another facility. However, JJRA 22 does note on page 2, section 8, subsection 8.1, "Youth may be isolated for safety purposes only until an alternative means of keeping all youth safe can be arranged." Further, this same policy on page 3, section 11, notes that "youth placed in isolation or on room confinement must have access to 'a minimum of one hour of supervised release time every 24 hours including the opportunity for physical exercise.'" However, there is no mention of "education programming" or "special education services." Based on these findings there were three CAP items +

## Standard 115.371 Criminal and administrative agency investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.371: This standard has 13 components: (a) When the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports; (b) Where sexual abuse is alleged, the agency shall use investigators who have received special training in sexual abuse investigations involving juvenile victims pursuant to § 115.334; (c) Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator; (d) The agency shall not terminate an investigation solely because the source of the allegation recants the allegation; (e) When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution; (f) The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as resident or staff. No agency shall require a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation; (g) Administrative investigations: [(1) Shall include an effort to determine whether staff actions or failures to act contributed to the abuse; and (2) Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings]; (h) Criminal investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible; (i) Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution; (j) The agency shall retain all written reports referenced in paragraphs (a) and (h) of this section.

## Standard 115.372 Evidentiary standard for administrative investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.372: This standard has one component: (a) The agency shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire and interviews with staff and residents were used to determine compliance with this standard.

OBSERVATIONS: Staff could not provide any information related to the standard of evidence used in investigations. The Pre-Audit Questionnaire, as evidence of the facility's compliance, left the answer blank to the question related to the standard of evidence used in investigations. These findings lead to two CAP items.

DETERMINATION: During the CAP timeline period, created policies to be compliant, by creating and adding a facility policy that requires administrative investigators and staff to be trained to use only an evidence standard of "preponderance of the evidence or lower" in determining whether allegations of sexual abuse or sexual harassment are substantiated. Thus, based on the findings, the Camp Outlook facility is deemed to be in compliance with this standard.

### Standard 115.373 Reporting to residents

- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.373: This standard has six components: (a) Following an investigation into a resident's allegation of sexual abuse suffered in an agency facility, the agency shall inform the resident as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded; (b) If the agency did not conduct the investigation, it shall request the relevant information from the investigative agency in order to inform the resident; (c) Following a resident's allegation that a staff member has committed sexual abuse against the resident, the agency shall subsequently inform the resident (unless the agency has determined that the allegation is unfounded) whenever [(1) The staff member is no longer posted within the resident's unit; (2) The staff member is no longer employed at the facility; (3) The agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or (4) The agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility]; (d) Following a resident's allegation that he or she has been sexually abused by another resident, the agency shall subsequently inform the alleged victim whenever: [(1) The agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or (2) The agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility]; (e) All such notifications or attempted notifications shall be documented; and (f) An agency's obligation to report under this standard shall terminate if the resident is released from the agency's custody.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire and interviews with staff and residents were used to determine compliance with this standard. In addition, files were reviewed of one allegation of sexual abuse/sexual harassment. +

### Standard 115.376 Disciplinary sanctions for staff

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.376: This standard has four components: (a) Staff shall be subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies; (b) Termination shall be the presumptive disciplinary sanction for staff who have engaged in sexual abuse; (c) Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories; (d) All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 49, JJRA Policy 20, and interviews with JJRA Human Resources and with Camp Outlook's staff and residents were used to assess compliance with this standard.

OBSERVATIONS: JJRA Policy 49, page 2, section 7, notes that "Termination will be the presumptive disciplinary sanction for staff who have engaged in sexual abuse in accordance with RCW 13.40.570." Interviews with administrative staff noted that violations of the agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstance of the acts committed. This was supported by JJRA Policy 49, page 2, section 8. Interviews with administrative staff noted that law enforcement is notified and investigations completed even if the alleged abusers resigns. Staff noted that relevant licensing +

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.377: This standard has two components: (a) Any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with residents and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies; and (b) The facility shall take appropriate remedial measures, and shall consider whether to prohibit further contact with residents, in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

EVIDENCE OF COMPLETION: Camp Outlook’s Pre-Audit Questionnaire, JJRA Policy 43 [Contract Compliance], and interviews with Camp Outlook’s staff and residents were used to assess compliance with this standard.

OBSERVATIONS: JJRA Policy 43 (Managing Vendor/Contractor Compliance [4/1/2014]) notes that “any contractor or volunteer who engages in sexual abuse must be prohibited from contact with youth and shall be reported to law enforcement agencies and to relevant licensing bodies” (page 1, section 2). Interviews with Camp Outlook staff noted that any sexual abuse allegation would be reported to law enforcement regardless if the alleged abuser was a resident, staff, contractor, or volunteer. However, they were unsure about who reports, how to report, and to whom to report to, and to which relevant licensing bodies to report. One staff member responded “I am sure licensing bodies are informed, I just am not sure who is responsible for contacting them.” Additional interviews with staff, including administrative and management staff, noted that the facility would take appropriate remedial measures and would consider whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer. +

This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.378: This standard has seven components: (a) A resident may be subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse or following a criminal finding of guilt for resident-on-resident sexual abuse; (b) Any disciplinary sanctions shall be commensurate with the nature and circumstances of the abuse committed, the resident’s disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. In the event a disciplinary sanction results in the isolation of a resident, agencies shall not deny the resident daily large-muscle exercise or access to any legally required educational programming or special education services. Residents in isolation shall receive daily visits from a medical or mental health care clinician. Residents shall also have access to other programs and work opportunities to the extent possible; (c) The disciplinary process shall consider whether a resident’s mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed; (d) If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the facility shall consider whether to offer the offending resident participation in such interventions. The agency may require participation in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives, but not as a condition to access to general programming or education; (e) The agency may discipline a resident for sexual contact with staff only upon a finding that the staff member did not consent to such contact; (f) For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation; and (g) An agency may, in its discretion, prohibit all sexual activity between residents and may discipline residents for such activity. An agency may not, however, deem such +

This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.381: This standard has four components: (a) If the screening pursuant to § 115.341 indicates that a resident has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the resident is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening; (b) If the screening pursuant to § 115.341 indicates that a resident has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the resident is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening; (c) Any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law; and (d) Medical and mental health practitioners shall obtain informed consent from residents before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the resident is under the age of 18.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 39, JJRA Policy 14, and interviews with Camp Outlook's staff and residents were used to determine compliance with this standard.

OBSERVATIONS: JJRA Policy 39, page 2, section 5, notes that "a meeting with a medical and mental health practitioner must be offered to a youth within 14 days of staff learning that the youth has experienced prior sexual victimization or has perpetrated sexual abuse." JJRA Policy 14 on page 8, section 19, restates the same policy. During interviews the facility staff were aware if a resident had ever disclosed. +

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

REQUIREMENTS: 115.382: This standard has four components: (a) Resident victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment; (b) If no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, staff first responders shall take preliminary steps to protect the victim pursuant to § 115.362 and shall immediately notify the appropriate medical and mental health practitioners; (c) Resident victims of sexual abuse while incarcerated shall be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate; and (d) Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 14, and interviews with Camp Outlook's staff and residents were used to determine compliance with this standard.

OBSERVATIONS: The onsite visit interviews noted that resident victims of sexual abuse are provided with unimpeded access to emergency medical treatment and crisis intervention services. JJRA Policy 14 (Providing Health Care to JJRA Youth [4/1/2014]) on page 8, section 20, subsections 20.1-20.2, provides clear directive that supports this component of the standard. Interviews with staff, who are all trained as first responders (11 of 11 interviews supported this assertion) noted that they are trained to protect the victim and notify a +

REQUIREMENTS: 115.387: This standard has six components: (a) The agency shall collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions; (b) The agency shall aggregate the incident-based sexual abuse data at least annually; (c) The incident-based data collected shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice; (d) The agency shall maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews; (e) The agency also shall obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its residents; and (f) Upon request, the agency shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, interviews with Camp Outlook staff, and interviews with the State of Washington's PREA Program Administrator, were used to assess this standard.

OBSERVATIONS: The Camp Outlook facility did not produce (and does not have) a standardized instrument so that it can collect accurate uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions. However, during the onsite visit interviews it was determined that the facility does collect data that complies with the Survey of Sexual Violence. Data from the DSHS website at <http://www.dshs.wa.gov/jra/prea.shtml> notes that aggregated data is presented. An interview with the State of Washington PREA Program Administrator indicated that JIRA maintains, reviews, and collects data as needed from all +

EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 49, and interviews with the State of Washington's PREA Program Administrator.

OBSERVATIONS: No annual report, as of the onsite visit, had been produced for the agency or for the Camp Outlook facility. The PREA Final Rule, page 159, notes that the intent of the 115.388 Standard is "...to promote agency accountability, the proposed standard further mandated that the report compare the current year's data with data from prior years and provide an assessment of the agency's progress in addressing sexual abuse." EVIDENCE OF COMPLETION: Camp Outlook's Pre-Audit Questionnaire, JJRA Policy 49, and interviews with the State of Washington's PREA Program Administrator.

OBSERVATIONS: PHS nor Camp Outlook that complied with this standard. Based on these findings there were five CAP items.

DETERMINATION: During the CAP timeline period the agency was only able to complete 2 of the 5 corrective action items, thus the Camp Outlook facility is deemed not to meet standard.
