

Juvenile Arrests

Arrest data contained in the following pages were provided by the Washington Uniform Crime Reporting (WUCR) program of the Washington Association of Sheriffs and Police Chiefs. The information is reported by individual law enforcement agencies, collected and categorized by WUCR. Staff of the Governor's Juvenile Justice Advisory Committee (GJJAC) provided the analysis and summary.

Arrests shown on the following tables actually underreport the number of juveniles arrested; these numbers have not been adjusted by subtracting the population of police jurisdictions that did not report arrest data to UCR. The figures of arrests do not represent every juvenile arrest made during the year, but reflect the information that was reported by the arresting agencies. Please note that juvenile arrest data provided in GJJAC reports **do not include run-aways or curfew violators** reported to the WUCR by individual agencies.

Available reports for 2009 represent approximately 92 percent of the state's juvenile population, a decrease in the reporting population from 2008, when approximately 94 percent of the state's juvenile population was represented. From 1998 to 2009 the percentage of the population represented has remained fairly consistent, with 90 to 96 percent of the population represented. This average percentage (from 1998 to 2009) is a substantial increase from prior years—available reports for 1997 accounted for about 86 percent of the state's juvenile population, while reports for 1995-1996 accounted for approximately 84 percent.

Rates for the various categories of offenses are based on the population of juveniles age 10 through 17. There were 29,187 juvenile arrests reported in 2009. This figure represents an arrest rate of 41.0 for every thousand juveniles in the state age 10 through 17, a decrease from the 2008 rate of 47.0. The 2009 juvenile arrest rate is the lowest reported for Washington State since prior to 1982. There was a 40.5 percent de-

crease in the rate per 1,000 juveniles age 10-17 from 2000 to 2009.

From 1985 to 1988, the arrest rate for juveniles age 10-17 remained fairly steady at approximately 90 per 1,000. The rate decreased in the 1989-1990 period to about 86 per 1,000, and for the years, 1991-1992, the rates were approximately 92 per 1,000. The juvenile arrest rate for 1993 was 90.1, and increased to a high of 94.9 in 1994.

Arrest data for 2009 include 151 arrests of youth under the age of 10 (representing less than one percent of the total juvenile arrests). This is a decrease from the number of arrests of youth under the age of 10 years in 2008 (199 arrests), and there has been a 73 percent decrease from 2000 to 2009 in the number of juveniles under the age of 10 arrested.

Comparing Juvenile and Adult Arrests

When comparing arrests for adults and juveniles in Washington State in 2009, juveniles comprised approximately 12 percent of the total number of arrests statewide, a reduction from 14 percent of the total number of arrests from 2005 through 2008. Adults continue to represent a significantly larger proportion of the arrests for drug and alcohol offenses (91 percent) than juveniles (9 percent of the total arrests in 2009).

Approximately 23 percent of property offense arrests were juvenile arrests in 2009 (a decrease from 27 percent in 2008), and approximately 17 percent of violent crime arrests in 2009 were juvenile arrests, compared to 18 percent of total arrests in 2008.

Juvenile Violent Crime Arrests

There was no change in the juvenile arrest rate for violent offenses from 2008 to 2009. The rate of arrests for violent offenses was 2.1 per 1,000 juveniles age 10-17 in 2008 and 2009, a decrease from the rate of 2.3 per 1,000 juveniles age 10-17 in 2007. From 2004 to 2006 the rate of arrests for violent offenses was 2.0 per 1,000 juveniles age

10-17 (the lowest rate reported since prior to 1982). There was a 25 percent decrease in the violent crime arrest rate from 2000 to 2009.

The 1,491 arrests of juveniles for violent crimes in 2009 breakdown as follows:

- 18 arrests for murder or manslaughter.
- 107 arrests for forcible rape.
- 824 arrests for aggravated assault.
- 542 arrests for robbery.

Of the above four violent offense categories (see also Table 48), juvenile arrests for forcible rape and robbery showed a decrease in the number of arrests from 2008 to 2009, while there was an increase in the number of arrests for murder or manslaughter, and no change in the number of juvenile arrests for aggravated assault. The arrest rates per 1,000 juveniles age 10-17 showed: a 50 percent increase in the arrest rate for murder or manslaughter from 2008 to 2009; a 1.3 percent decrease in the arrest rate for robbery; a 21 percent decrease in the rate for forcible rape; and less than a one percent increase in the rate for aggravated assaults from 2008 to 2009.

In 2009, ten counties had a violent offense rate above the statewide average, while one county (Clallam) had a juvenile violent offense rate that was almost twice the statewide average.

Juvenile Arrests for Other Offenses

The rate of juvenile arrests for property offenses decreased by approximately 16 percent from 2008 to 2009 (from 19.0 per 1,000 youth age 10-17 to 16.0 per 1,000 youth age 10-17). The 2009 rate (16.0) was the lowest reported rate for juvenile property offenses since prior to 1985. The rate of arrests for property offenses decreased by 46 percent from 2000 to 2009.

Larceny – theft has continued to represent the offense for which youth were most often arrested (23.5 percent of the total juvenile arrests in 2008 and 2009). Larceny arrests comprised approximately 60 percent of the property offenses in 2009, an increase from 58 percent of the property offenses in 2008. Approximately 18

percent of the arrests for property offenses were for vandalism, and about 13 percent were for burglary in 2009.

In 2009, the rate of juvenile arrests for drug and alcohol offenses was 9.1 per 1,000 juveniles age 10-17. This represents a decrease (12.5 percent) in the rate from 2008 to 2009. The 2009 rate is a 32 percent decrease from the 2000 rate of 13.4 per 1,000 juvenile age 10-17.

Within the drug and alcohol offense category, in 2009, drug offenses comprised 42.4 percent and alcohol offenses comprised approximately 57.6 percent of all juvenile drug and alcohol arrests. The majority of all juvenile arrests for drug offenses were for “possession” (approximately 86 percent in 2009).

Juvenile Arrests by County

Note: The arrest rates for counties with very small juvenile populations (such as Columbia, Garfield, and Wahkiakum) may be distorted, because a few arrests can change the rates dramatically.

When the 39 counties are ranked by juvenile arrest rates in 2009, the five largest counties rank: King (36th); Pierce (26th); Snohomish (25th), Clark (17th) and Spokane (18th). Note: There was significant under-reporting by law enforcement within King County in 2009 (a significant percentage—over 25%—of the population within the county was not represented in the county total, as local law enforcement agency(s) did not provide juvenile arrest information; therefore, the actual number of arrests for the county is greater than the total reported.

In 2009, there were 15 counties with juvenile populations age 10-17 over 5,000, with an arrest rate above the statewide average of 41.0 per 1,000 juveniles age 10-17: Benton, Chelan, Clallam, Clark, Cowlitz, Franklin, Grant, Grays Harbor, Lewis, Mason, Skagit, Spokane, Walla Walla, Whatcom, and Yakima.

In 2009, two counties (Garfield and Franklin) had a juvenile arrest rate that was 80.0 or higher (almost twice the statewide average per 1,000 youth age 10-17 for total arrests). One county

(Asotin) had an arrest rate that was more than twice the statewide average for arrests for drug and alcohol offenses in 2009, and one county (Clallam) had an arrest rate that was almost two times the statewide average for arrests for violent crimes in 2009. Three counties had juvenile arrest rates that were more than twice the statewide average for property offenses: Adams, Benton, and Garfield; and the following four counties had an arrest rate that was more than twice the statewide average for “all other offenses”: Adams, Asotin, Cowlitz, and Franklin.

Juvenile Arrests by Race

The racial distribution of total juvenile arrests for 2009 follows: 83.1 percent were White, 11.4 percent were Black, 3 percent were Native American, and 2.5 percent were Asian youth. Race proportions include persons of Hispanic origin. In 2000, 84.4 percent were White, 9.2 percent were Black, 3.4 percent were American Indian and 3.1 percent were Asian youth. There was a 24 percent increase in the percentage of arrests for Black youth from 2000 to 2009, while there was a 1.5 percent decrease for White youth, an 11.8 percent decrease for Native American youth, and a 19.4 percent decrease for Asian youth.

Arrest rates for **violent offenses** by race in 2009 show the following:

	White	Black	American Indian	Asian & Pacific Is.
% of Population Age 10-17	83.7	6.2	2.3	7.8
% of Arrests				
Homocide/ Manslaughter	83.3	11.1	0.0	5.6
Rape	89.7	6.5	1.9	1.9
Robbery	50.0	43.2	2.8	4.1
Aggravated Assault	77.7	16.1	3.3	2.9

* Note: The 2009 population estimates by race used in this table include youth of Hispanic origin in the total percentages; while persons of Hispanic origin can be of any race, the majority of youth of Hispanic origin (91% in 2009) are reported in the White race category (population source: “Easy Access to Juvenile Populations 1990-2009,” online. Available: <http://www.ojdp.ncjrs.gov/ojstatbb/ezapop/>).

Juvenile Arrests by Gender

In 2009, females accounted for 30 percent of the total juvenile arrests, little change (less than a one percent increase) from 29.8 percent of total juvenile arrests in 2008. The percentage of total juvenile arrests by females has remained constant at approximately 29 to 30% of total arrests over the past eight years. From 2000 to 2009, the percentage of total arrests increased by approximately 9.1 percent for girls, while in comparison the percentage of total arrests for males decreased by 3.4 percent from 2000 to 2009.

During 2009 females accounted for approximately:

- 30 percent of all juvenile arrests.
- 29 percent of all juvenile arrests for drug and alcohol offenses
- 32 percent of all juvenile arrests for property offenses
- 16 percent of all juvenile arrests for violent offenses
- 30 percent of all juvenile arrests for “all other” offenses

Girls accounted for 32 percent of the juvenile arrests for property offenses in 2009, little change from 31.8 percent of the juvenile arrests for property offenses in 2008. Girls represented approximately 43 percent of all juvenile arrests for larceny (theft) in 2009.

Girls accounted for 28.9 percent of the total juvenile arrests for drug and alcohol offenses, a slight (1.7 percent) decrease from 2008. The percentage of total arrests for “all other offenses” for females increased by three percent from 2008 to 2009 (from 29.5 to 30.4 percent of total juvenile arrests). The percentage of total juvenile arrests for Violent crimes by girls decreased by five percent from 2008 to 2009 (from 17.3 to 16.4 percent of total juvenile violent crimes).

In 2009, girls represented approximately: 37 percent of the arrests for “other assaults”; 43 percent of the juvenile arrests for larceny-theft; 38 percent of the total juvenile arrests for forg-

ery and counterfeiting; 90 percent of the total juvenile arrests for prostitution and commercial vice; and 36 percent of juvenile arrests for liquor law violations.

Thus, while the total number of juvenile arrests for committing crimes has decreased substantially over the past ten years (from 47,763 in 2000 to 29,187 arrests in 2009—a 38.9 percent decrease in the number of arrests), the female juvenile arrest trend differs from the male trend (the number of juvenile arrests for boys decreased by 41 percent from 2000 to 2009, compared to a 33.5 percent decrease for girls).

This is consistent with the national trend in the rise in the proportion of females entering the juvenile justice system—“According to data from the Federal Bureau of Investigation, from 1991 to 2000, arrests of girls increased more (or decreased less) than arrests of boys for most types of offenses. By 2004, girls accounted for 30 percent of all juvenile arrests. However, questions remain about whether these trends reflect an actual increase in girls’ delinquency or changes in societal responses to girls’ behavior. To find answers to these questions, the Office of Juvenile Justice and Delinquency Prevention convened the Girls Study Group to establish a theoretical and empirical foundation to guide the development, testing, and dissemination of strategies to reduce or prevent girls’ involvement in delinquency and violence.”

¹Ojjdp Girls Study Group Series *Bulletin, Understanding and Responding to Girls’ Delinquency*, April 2010, U.S. Department of Justice, Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention.

* Significant under-reporting by law enforcement (a significant percentage--over 25%--of the population within the county was not represented in the county total, as local law enforcement agency(s) did not provide juvenile arrest information); therefore, the actual number of arrests for the county is greater than the total reported.

** Data include juveniles under the age of 10.

Population data source: "Intercensal and Postcensal Estimates of April 1 County Population by

Age and Sex: 1980-2009," Office of Financial Management, Forecasting Division, last modified August 25, 2009.

Juvenile arrests data source: Compiled from data provided by WASPC, WUCR Program, June 2010; runaways taken into protective custody and curfew-loitering law violators reported to UCR are not included in the arrest totals.

* Significant under-reporting by law enforcement (a significant percentage--over 25%--of the population within the county was not represented in the county total, as local law enforcement agency(s) did not provide juvenile arrest information); therefore, the actual number of arrests for the county is greater than the total reported.

** Violent offenses include: Murder, Manslaughter, Forcible Rape, Robbery, and Aggravated Assault.

Data include juveniles under the age of 10.

TOTAL	712,418	6,505	9.1	10.4	11.4	10.9	9.9	-0.8

* Significant under-reporting by law enforcement (a significant percentage--over 25%--of the population within the county was not represented in the county total, as local law enforcement agency(s) did not provide juvenile arrest information); therefore, the actual number of arrests for the county is greater than the total reported.

** Data include juveniles under the age of 10.

Drug Offenses include sale or possession of: opium or cocaine and their derivatives (morphine, heroin, codeine), marijuana, synthetic narcotics, and other dangerous nonnarcotic drugs (barbituates, benzedrine, etc.).

Alcohol offenses include: driving under the influence, liquor laws (liquor law violations include transgression of any state or local liquor law except drunkenness and driving while intoxicated) and drunkenness.

Note: 165 arrests were reported to WUCR in 2006 as driving under the influence arrests for juveniles "under age 10"; these arrests were adult arrests or of unknown age, and therefore are not included in the 2006 juvenile arrest total (and have been added to the adult arrest total for 2006).
