Listing of Agencies, County in Which Located, and Population Served*

* Adult Medicaid patients (SSI, ABD, ABP, HEN, PW, TANF, Medical Assistance clients), can be treated at any residential agency that provides the level of care needed by the client and accepts public funding for services. After completing an assessment and determining the level of care needed, please contact that agency directly with any referrals for residential treatment to make arrangements for admission.

Therapeutic Community Environment

Specific Admission Criteria

Medicaid

Specific Admission Exclusions

Clients are considered on a case-by-case basis.

Clients the Program Will Consider With Case Consultation

Sex Offenders

Other Services Available

Adult basic education classes.

Brief Description of Treatment Philosophy

We believe that the treatment process for each patient must be of sufficient duration and intensity to allow the individual to explore themselves in depth. It must also provide for support upon completion of the initial treatment program.

Nicotine Recovery Services

Smoking is only allowed outside; at least 25 feet from any public exit/entry. We encourage and assist patients and staff in obtaining nicotine replacement therapy (NRT). This is performed by providing the Tobacco Quitline information to interested parties. Once the Quitline has been consulted, they may send NRT directly to patients.

Adult Long-Term Residential: 0	PPW: 12 Women, 6 Children

Funding Sources Accepted:

Medicaid, TANF, PPW, Insurance and Private Pay
--

Client Focus

Long-term treatment for chemically dependent women who are pregnant or with young children in their care. Specialize in women with personality disorder, backgrounds of trauma, and involved with CPS. DSHS Licensed therapeutic day care program six days a week for infants and children up to age 5 in residence with the mother.

Specific Strengths of Agency

Treatment includes not only traditional CD treatment and 12-step orientation, but also Dialectical Behavior Therapy and mental health counseling. Smoking cessation program includes hypnotherapy as well as pharmacological aids.

Specific Admission Criteria

Must be able to climb stairs, as our buildings are two-stories. Must understand that smoking is not allowed and smoking cessation is a part of the treatment program.

Specific Admission Exclusions

Must be physically and mentally able to participate in treatment.

Clients the Program Will Consider With Case Consultation

Will take women on methadone once dose is stabilized. Will consider women on psychotropic medications.

Other Services Available

Case-managed transitional housing following discharge from treatment is available, and planning begins while the woman is still actively engaged in residential treatment. Co-occurring outpatient support groups (MICA) co-facilitated with local mental health center. Dual disorder intensive outpatient treatment. On-site detox facility for preadmission detoxification.

Brief Description of Treatment Philosophy

Chemical dependency is a disease treated by abstinence from alcohol and other mood-altering drugs. The goal of our treatment is to provide the individual with tools for self-awareness and clean and sober living that will support the patient after

they have completed the residential treatment experience. Both group and individual counseling provide opportunities for patients to come to understand addiction as a disease and to become aware of the triggers that could lead them to relapse.

Treatment of the family is important to breaking the dysfunctional relationships that become established during active addiction, so families are encouraged to participate in our weekend family education and counseling sessions. Mental health counseling is available as an optional component of the program for those women who also have psychological issues, including family of origin and trauma. Familiarity with and long-term use of self-help recovery support groups is also a goal of treatment.

Nicotine Recovery Services

Evergreen Manor is a tobacco-free environment. We offer nicotine abuse/addictions supports including: nicotine patches and gum, when available (only for those on Title XIX); hypnosis, smoking cessation group, therapeutic milieu where nicotine results in punishment (writing an essay about nicotine when caught smelling of smoke). Our policy for nicotine use by staff is that smoking isn't allowed within 2 blocks of the facility.

--

Client Focus

The co-occurring disorders program will provide up to six months of declining intensity residential treatment for pregnant or parenting women with significant mental health issues. The program will not serve seriously mentally ill but will accept women with mood disorders, personality disorders, and post-traumatic stress disorders. Potential patients on medications must be sufficiently stabilized to participate in all phases of the treatment program. Chemical dependency treatment will be supplemented with regular onsite mental health counseling and parenting training. Specialize in women with personality disorder, mood disorders, backgrounds of trauma, and involved with CPS. DSHS Licensed therapeutic day care program six days a week for infants and children up to age 5 in residence with the mother.

Specific Strengths of Agency

Long-term treatment regimen includes not only traditional CD treatment and 12-step orientation, but also focused mental health counseling and Dialectical Behavior Therapy. Specialize in women with mood and personality disorders, and backgrounds of trauma. Work closely with CPS. Parenting education in group, individual, and experiential settings. Will transport resident for daily methadone doses. Smoking cessation program includes hypnotherapy as well as pharmacological aids.

Specific Admission Criteria

Must be able to climb stairs, as our buildings are two-stories. Must understand that smoking is not allowed and smoking cessation is a part of the treatment program.

Specific Admission Exclusions

Must be physically and mentally able to participate in treatment.

Clients the Program Will Consider With Case Consultation

Will take women on methadone once dose is stabilized. Will accept women stabilized on psychotropic medications when able to fully participate in treatment activities.

Other Services Available

Case-managed transitional housing following discharge from treatment is available, and planning begins while the woman is still actively engaged in residential treatment. Co-occurring outpatient support groups (MICA) co-facilitated with local mental health center. Dual disorder intensive outpatient treatment also provided in outpatient. On-site detox facility for preadmission detoxification.

Brief Description of Treatment Philosophy

Chemical dependency is a disease treated by abstinence from alcohol and other mood-altering drugs. The goal of our treatment is to provide the individual with tools for self-awareness and clean and sober living that will support the patient after they have completed the residential treatment experience. Client Focus

Chemical Dependency Recovery – Inpatient and Recovery Programs, Mental Health

Specific Strengths of Agency

Accredited on grounds Junior and Senior High School, Mental Health Assessments and Treatment. Holistic behavioral health services with a focus on Co-Occurring mental health and substance use disorders.

Specific Admission Criteria

Admissions committee review each clients admission packets – must meet ASAM Standards.

Specific Admission Exclusions

All referrals will be assessed on a case by case basis.

Clients the Program Will Consider With Case Consultation

Registered sex offenders

Other Services Available

Co-Occurring Intensive Outpatient, Outpatient, Outreach, Day Treatment, Residential Treatment.

Brief Description of Treatment Philosophy

For over 30 years we have provided behavioral health services to youth and their families through several programs, both inpatient and outpatient. In an effort to serve the whole person, not just a presenting problem, Excelsior provides a holistic approach, co-occurring treatment, and specialized services to all individuals regardless of the program.

Excelsior's therapeutic orientation relates to the belief that the best treatment is done in a holistic manner, i.e., taking into account the many aspects of each individual, and creating a plan which addresses multiple areas, not focusing on one particular problem or need, at the expense of other needs and issues. Ideally, Excelsior's substance use programs will be successful in helping each client, youth, and family to strengthen those aspects of themselves which were initially identified as areas of concern, or need, while at the same time, reinforcing through services, the qualities assessed as positive strengths and abilities.

Nicotine Recovery Services

Excelsior Youth Center is a tobacco-free facility. Therefore, any form of tobacco use on the facility grounds is not permitted.

Client Focus

Pregnant and Parenting Women, and children under 6 years of age

Specific Strengths of Agency

Addiction counseling within a Therapeutic community, with a strong emphasis on motivational techniques and behavior modification strategies. Parenting program, in-house GED program facilitated by a local community college, cooking classes, parent trust, domestic violence course, Circle of Security conducted by trained/certified staff, creative writing course, registered nurse on site, and weekly sessions with an ARNP/psychiatric nurse if dimensionally indicated. Agency works with CPS and the courts to reunify mother and child.

Specific Admission Criteria

Pregnant or parenting women with children

Specific Admission Exclusions

Sex offenders

Clients the Program Will Consider With Case Consultation

Psychotropic medications are allowed with physician supervision. Methadone is allowed if client is pregnant

Other Services Available

We provide a licensed therapeutic child care and transitional housing. Additional services are acupuncture, infant massage, parenting across cultures, in house support group meetings.

Brief Description of Treatment Philosophy

To honor the dignity of all persons and provide nurturing care to those suffering from substance abuse, and to instill recovery concepts for a lifestyle of abstinence and health and wellness.

Nicotine Recovery Services

Isabella House is a tobacco-free environment. Free nicotine replacement therapy (NRT) in the form of nicotine patches are supplied to patients in need. There are also meetings on site designed to support patients in the quitting process.

Youth ages 11 through 19 who meet the criteria for being both chemically dependent and with symptoms of mental health diagnosis (or potential diagnosis) requiring concurrent management with the treatment of addiction

Specific Strengths of Agency

20 year history providing addiction treatment, intensive week for affected families, full continuum of care through our 11 outpatient, 2 residential and detox units.

Specific Admission Criteria

Meet ASAM criteria for addiction treatment

Specific Admission Exclusions

All cases are staffed on a case by case basis.

Clients the Program Will Consider With Case Consultation

All considered with consultation

Other Services Available

Detox, Family Services, and Continuing Care.

Brief Description of Treatment Philosophy

Addiction is a primary, progressive and entirely treatable physical illness. A fundamental strength that sets our program apart is our history of abiding commitment to providing effective treatment based on the disease paradigm of addiction. Again and again, our patients prove that bodies, spirits, and lives are healed when rid of the cultural accusations of guilt and shame and when supported by good nutrition, reeducation, family involvement, medical care and dedicated multidisciplinary teams of Lakeside professionals, 90% of whom are themselves in recovery.

Nicotine Recovery Services

Lakeside-Milam Recovery Center Burien Residential for Youth is a tobacco-free environment. We provide supports in the form of nicotine patches for those who

desire to discontinue tobacco use.

Adult Recovery House: 0	Youth Recovery House: 0
Adult Long-Term Residential: 0	PPW: 0

Funding Sources Accepted:

Private Pay, Insurance, Medicaid, ABP

Client Focus

Adults

Specific Strengths of Agency

Lifeline employs a broad range of professionals, including full time psychiatric services, medication management, counseling staff includes those with advance degrees in counseling who work as part of a team in providing quality treatment services. Agency staff members are committed to eliminating the stigma associated with substance use and mental health. Facilities are new and are co-located in Community health center with other social service providers.

Specific Admission Criteria

Patients with positive TB test must provide a proof of treatment or conformation of not being infectious by a medical professional (chest x-ray will be required in most cases).

DSM-5, or its successor, diagnosis of a substance use disorder.

Applicants must meet ASAM PPC, or its successor, for inpatient treatment.

Patients with medical or mental health issues controlled by medications must have sufficient supply of medications for the duration of treatment.

Specific Admission Absolute Exclusions

Medical problems beyond scope of care.

Psychiatric Issues beyond scope of care

Patients not able to provide for self-care (e.g., bathing, toileting, getting into or out of bed, feeding, etc.).

Clients with history of fire starting

Level 3 sex offenders.

Clients the Program Will Consider With Case Consultation

Level 1 sex offenders.

Other Services Available

Acute detoxification; intensive outpatient and outpatient for adults and specialty services for offenders and Deaf or Hard-of-Hearing persons; outpatient co-occurring treatment for substance use and mental health; mental health treatment, case management, medication management, sobering unit and medication assisted treatment.

Brief Description of Treatment Philosophy

Lifeline agrees with the 1987 resolution of the American Medical Association that states that all chemical dependencies are diseases. Chemical dependency is a treatable illness that affects individuals as well as their families. While not curable, alcoholism and other drug addictions are treatable. We subscribe to a holistic approach in the treatment of chemical dependency. The central goal of all chemical dependency treatment programs operated by Lifeline is the goal of abstinence. With proper assessment and referral to appropriate treatment modalities, by abstaining from psychoactive substances, and by inclusion in support programs, folks who suffer from alcohol dependence and other drug addictions can recover from their disease..

Nicotine Recovery Services

Lifeline Connections supports reduction and cessation of nicotine use and dependence through education, prescribed medicine and social support.

Funding Sources Accepted:

Disability Lifeline, Medicaid, Insurance, Private Pay, and Tribal Funding

Client Focus

Adult Men & Women, Native American

Specific Strengths of Agency

1. We continually examine, evaluate and improve the methods we use to respond to the needs of our patients and our community.
2. We seek to identify new ways of providing the best possible service on a continual basis.
3. We are solution-oriented - individually and collectively responsible for carrying out our mission.
4. We create a work environment which encourages innovation and is open to creative approaches to accomplishing our mission
5. We are committed to professional growth through training, education and self-improvement.
6. We endeavor to maintain the highest ethical standards throughout our organization.
7. We conduct and promote activities that reduce the stigma of chemical dependency.

Specific Admission Criteria

Olalla Recovery Center uses the DSM IV and ASAM PPC for patient admission. Admission also includes the patient's ability to meet the following criteria:

1. Progression of the patient's disease does not prohibit patient from benefitting from treatment at the appropriate level of care.
2. Patient's living environment and support base of family and/or significant other is conducive to recovery at the appropriate level of care.
3. Patient's physical and emotional level of dysfunction from his/her chemical use does not inhibit him/her from benefitting from treatment.
4. Patient's capacity and motivation are conducive to achieving and maintaining abstinence from chemical use at the appropriate level of care.

Specific Admission Exclusions

Our well-trained staff will evaluate each patient's history to determine if they are appropriate for our treatment program and ASAM Level 3.5 treatment. Patients admitted to our facility may not be a sex offender, an arsonist, or have a significant violent criminal history.

Clients the Program Will Consider With Case Consultation

All patients seeking admission will be considered for appropriateness using DSM IV and ASAM Level 3.5 criteria.

Other Services Available

Inpatient/Residential Treatment for adults over age 18, Sub-Acute Detoxification (starting in Spring 2013, private pay), yoga, meditation, acupuncture, Native American practices, gender specific groups, evidence-based curriculum. Outpatient services for adults and youth over age 13.

Brief Description of Treatment Philosophy

Alcoholism and other drug addictions constitute a primary, chronic disease with genetic, biological, psychological and environmental factors influencing its development and manifestations. The disease is progressive and fatal if untreated. Like any other illness, chemical dependency must be treated by skilled professionals. Since 1969, we have successfully treated all aspects of this disease, including the needs of special populations. At Olalla Recovery Centers, we provide the means to achieve and maintain abstinence. Patients are respected, their confidentiality is observed and understanding extended to them during this difficult time.

Nicotine Recovery Services

At Olalla, smoking is restricted to certain times and in a designated smoking area. We offer education, information and counseling to those in need of nicotine recovery services. The Tobacco Quitline is used to supply patients with nicotine replacement therapy (NRT).

Insulin-Dependent Diabetics
Registered Sex Offenders, specifically Level 2 and Level 3

Clients the Program Will Consider With Case Consultation

Potential exclusionary criteria could include individuals who are medically unstable, individuals who are an imminent danger to themselves or others, a known sexual predator, individuals who are verbally and/or physically abusive or actively assaultive or individuals who have a history of arson.

Other Services Available

A mental health therapist and a chemical dependency professional provide treatment groups and individual therapy focusing on stabilization and recovery. Additional services include: psychiatric services, community coordination, case management,

consultation with registered dietitian as needed, therapeutic activities including social and independent skill development, educational activities including mental health, physical health, medication and nutrition, socialization and other recreational activities.

Brief Description of Treatment Philosophy

Pathways provides a safe, therapeutic community setting where staff and clients work together to achieve behavioral change and new thinking patterns to support wellness, self-control, and recovery from mental health and substance abuse problems.

The community regulates itself to ensure the physical and emotional safety of all members.

The community regulates itself to ensure that the rights of all clients are supported.

The community regulates itself to ensure that each member can access treatment activities, including the social environment, and can engage in treatment without interference from disruptive behaviors, threats of harassment.

Activities in the residence and visits outside are planned to focus on and support individualized treatment plans for change that reflects each client's needs for stabilization and preparation to successfully engage in continued treatment.

The community creates schedules for meals, treatment groups, and other activities that allow efficient and safe operation of the facility for all community members.

The facility is regulated to provide an environment and model for the opportunity to experience healthy and moderate lifestyle including physical activity, diet, and social learning.

The individual needs, dignity and privacy of each community member are respected and protected to support the opportunity for choice and growth for all members.

Adult Long-Term Residential: 0	PPW: 0

Funding Sources Accepted:

Medicaid

Client Focus

Prosperity Wellness Center (PWC) is a long term residential chemical dependency program specially designed for adult women; those needing recovery skills, environmental support, and personal empowerment.

Specific Strengths of Agency

Our primary focus is for chemical dependency recovery, and we address the following substances with general education, group problem solving dynamics, and weekly individual sessions: methamphetamine, cocaine, heroin, alcohol, marijuana, nicotine, and other substances that may be a dependency or abuse issue. We view nicotine as a primary drug of choice and leading cause to relapse for other substances as well as a primary health care issue; therefore, PWC is a tobacco free environment.

Specific Admission Criteria

For entry, a contact with Penny Bissenas, our admissions coordinator must be made with information of DSHS eligibility. She can be reached at our parent facility, Prosperity Counseling & Treatment Services, Inc. 253-863-9667; her fax number for review of referral information is 253-863-6516.

The following needs must be met for financial obligation and medical stabilization:

1. Current medical coupon through DSHS, must be TANF/CNP or Pregnancy/CNP
2. Referral from Treatment Provider, CSO, CPS, Personal/Self referral, Physician, Attorney, GAL, or other concerned person (assessment is recommended, but not necessary if chemical dependency issue is verbally reported)
3. If entering with a child, a current medical coupon and proof of immunizations, social security, and proof of custodial rights.

Specific Admission Exclusions

None noted

Clients the Program Will Consider With Case Consultation

Women with more than 1 child

Other Services Available

None noted

Brief Description of Treatment Philosophy

We additionally address parenting and child development with as much emphasis as we do the dependency issue. Parenting is a difficult job, and for women with substance dependency, possible relationship violence or aggression, mental health components from trauma histories, and other historical factors, it can be overwhelming. Our in-house therapeutic childcare center is designed to advance the children's individual domains of growth and development. Mothers learn basic child development and relational bonding & attachment needs in the educational and process groups led by the therapeutic childcare director. Our staff is familiar with high-risk infants and utilizes information from the Kent PIC unit. University of Washington's NCAST trainings are also utilized for our parenting support.

We work closely with the Division of Children and Family Services, as we understand the goal for safe, productive reunification of these families. We also work closely with drug courts and various judicial systems to support reconciliation from the destruction caused by behaviors of chemical dependency. PWC maintains a "personal responsibility" view of the recovery process.

Brief Description of Treatment Philosophy

Seadrunar believes that in order for a person to recover from addiction they must resolve past emotional issues and develop self-discipline, maturity and positive decision making and coping skills. Seadrunar teaches the patient how to change their negative lifestyle into a positive lifestyle which includes self esteem, self worth, good values, and genuine care for self and others.

Nicotine Recovery Services

Smoking permitted outside in designated area during designated breaks. SeaDruNar implements the Free and Clear program to assist nicotine-using patients in recovering from nicotine abuse or addiction.

Adult Intensive Inpatient: 0	Youth Intensive Inpatient: Level I: 0 Level II: 14
Adult Recovery House: 0	Youth Recovery House: 0
Adult Long-Term Residential: 0	PPW: 0

Funding Sources Accepted:

Third party insurance, private pay, Federal and State funding.

Client Focus

Co-occurring adolescent males ages 13 to 17, Level 2 Secure Facility, culturally inclusive with emphasis on ethnic minorities and low income populations.

Specific Strengths of Agency

Sea Mar Renacer is inclusive and reflects cultural sensitivity toward people of color, the disabled and low income populations. We provide culturally relevant treatment via our mostly bilingual and bicultural staff. We emphasize the importance of the family's role in our youths' addictions and provide education and counseling with this focus. Renacer is passionate toward providing integrated treatment with an emphasis on the utilization of the most efficacious therapeutic techniques such as Motivational Interviewing and Dialectical Behavioral Therapy. Our ongoing collaborative relationship with the University of Washington has provided valuable consultation and training. Renacer works closely with our outpatient mental health clinic (in same building) toward holistically addressing substance abuse and mental health issues.

Specific Admission Criteria

A comprehensive chemical dependency assessment/evaluation completed no more than 6 months prior to referral to this program. Recent TB test completed.

Specific Admission Exclusions

Level II sex offenders and clients diagnosed with severe mental illness.

Clients the Program Will Consider With Case Consultation

We will consider all co-occurring and non-co-occurring referrals that don't meet exclusionary criteria.

Other Services Available

Renacer provides comprehensive mental health screenings, evaluations and counseling. We emphasize evidence based practices and provide ongoing training to staff and clients. Our on-site school is a charter classroom within the Seattle School District and allows our youth to gain school credit. Sea Mar is a multi service organization which allows our youth tremendous access to medical, dental and the aforementioned mental health services.

Brief Description of Treatment Philosophy

We strive to achieve permanent changes by treating not only the adolescent's chemical dependency, but also addressing other life issues with a holistic approach. The holistic approach takes into account his/her behavior, emotions, attitudes, culture, family, physical/mental health, dental needs and their overall lifestyle.

Nicotine Recovery Services

All patients receive education on nicotine addiction. In Fall 2006, Renacer will also provide a smoking cessation class for interested youth.

Client Focus

Co-occurring adolescent females ages 13 to 17, Level 2 Secure facility.

Specific Strengths of Agency

JCAHO accredited, MRT Therapy, DBT Skills taught, Art Therapy, Music Lessons, Animals is Natural Therapy, and Bellingham School District course work taught with high school credits earned. A special strength is that staff is passionate motivated and knowledgeable. Visions is a long term program 4-6 months.

Specific Admission Criteria

Youth appropriate for Level II are those with symptoms of mental health problems requiring concurrent management with addiction treatment. Youth with serious criminal history, sexual abuse history, psychological, or other medical problems, including pregnancy, will be considered for admission.

Specific Admission Exclusions

Males, 18 year old females or under 13 year old females

Clients the Program Will Consider With Case Consultation

Each client will be considered on a case-by-case basis.

Other Services Available

Mental Health Professional on staff, Family therapist that provides workshops for families and 1x1 sessions, complete medical, dental, and vision services provided. Self help groups focusing on AA meetings and community sponsors.

Brief Description of Treatment Philosophy

Sea Mar/Visions believe addiction is a disease that is chronic progressive and fatal. We apply the 12 step model as the base of our treatment modality pyramid. We believe youth need to be respected and their work geared toward their age group. We try to individualize each youth's treatment program and address their issues. We are committed to providing comprehensive health and human services to our clients.

Nicotine Recovery Services

SeaMar/Visions is a tobacco free environment. Nicotine is treated as an addiction along with drugs and or alcohol. The use of DBT Skills is taught and prompted for use. No one is allowed to use tobacco products on Sea Mar/Visions property or on outings.

Funding Sources Accepted:

Youth, Private Funds

Client Focus

Provide recovery house services and stabilization treatment to youth who need these services after completing residential or intensive inpatient treatment.

Specific Strengths of Agency

This unit is youth specific and only admits youth; therefore the program is youth specific. The size of the unit is small.

Specific Admission Criteria

Referral from an inpatient treatment program following completion of a structured treatment program.

Specific Admission Exclusions

We will admit level two youth, provided their mental health issues are treatable with medications or will not interfere with the patient's ability to participate in treatment successfully.

Clients the Program Will Consider With Case Consultation

All patients will be considered for admission after consultation via phone from any referring source.

Other Services Available

Treatment approach is designed to motivate patient and to act as a supportive environment following inpatient treatment.

Brief Description of Treatment Philosophy

Recovery requires: total abstinence from all mind altering drugs; replacing self-defeating behaviors with healthy ones; learning healthy personal and social skills; and development of self respect and personal well-being.

Nicotine Recovery Services

Patient's with co-occurring medical and/or mental health issues, along with certain prescribed medications.

Other Services Available

8 withdrawal management beds and outpatient. The Center makes referrals to Oxford housing, PIC, DVR, consumer counseling services and other agencies in the area.

Brief Description of Treatment Philosophy

The agency's Intensive Inpatient Program is based on William Glasser's theoretical constructs, Choice Theory and Reality Therapy. We believe that addiction is a disease process, but in order to place the disease into remission, the addictive behavior must be changed. Since the etiology of addiction varies, behavior is the best common denominator. We teach that all behavior is need fulfilling, and stems from the basic needs of love and belonging, power, freedom, fun and survival. The counselors work with their patients to evaluate current behaviors and develop new beliefs and behaviors to get their needs met. There is also emphasis on developing an internal locus of control. Patients attend chemical dependency self-help support groups while in treatment. Other self-help groups, including but not limited to, Celebrate Recovery, Al Anon, Nar Anon, Ala Teen (for family/friends) are introduced.

Nicotine Recovery Services

We provide tobacco use areas for patients that are within the state guidelines for the State of Washington Smoking Regulations Ban. We do not have groups designated for smoking cessation at this time, however we do write treatment plans for patients who wish to stop their tobacco use, offer information, and have resources available for patients that want to quit smoking. We also have designated non-smoking areas. We do have non-smoking staff that would be available for support to employees and patients who would like to quit smoking, Tobacco Quit Line information, and we participate in the Great American Smoke Out yearly. We have information cards for the Tobacco Quit Line that we hand out to the patients, that if eligible, will supply nicotine patches and weekly contact for support.

Other Services Available

Triumph Treatment Services has comprehensive outpatient/aftercare and housing.

Brief Description of Treatment Philosophy

Consistent with chemical dependency is a disease, including alcohol. We provide treatment and family support to those affected by the disease. Our goal is to be responsive to the community of Yakima and the state of Washington so that people in need of service do not fall between the cracks.

We believe the disease is treatable and we offer a continuum of care including inpatient, outpatient, relapse prevention and support, education, therapy, and referral to family members of our patients. We consider the whole person and his/her needs. We provide intensive case management to assist the individual in addressing areas of their life that will assist in the achievement of a happy, healthy and productive life. We assist persons who have relapsed to return to recovery.

Nicotine Recovery Services

At JOTC, Patient smoking is done in a designated area on their time. Staff smoking is done in another designated area. A nicotine lecture is provided on a four week schedule, and the Tobacco Quit Line is available to patients wishing to discontinue nicotine use and obtain nicotine replacement therapy (NRT). Our management is

supportive of any individual who makes an effort to quit tobacco use.
