

Institutional Review Board (IRB) Authorization Agreement (IAA)

Institution Providing IRB Review:

University of Washington (U.S. Department of Health and Human Services (DHHS) Federalwide Assurance (FWA) #00006878); University of Washington Institutional Review Board (IRB) (IRB00000241, IRB00002532, IRB00000242, IRB00005647, or IRB00000727)

Institution Relying on the Designated IRB:

Washington State Department of Labor & Industries (L&I) (L&I DHHS FWA #00000591); Washington State Institutional Review Board (WSIRB) (DHHS Office for Human Research Protections (OHRP) IRB Registration #00000093)

The Officials signing below agree that L&I may rely upon the University of Washington Institutional Review Board(s) (IRB) for review and continuing oversight of the following activities:

Research that involves L&I records for which research Gary Franklin, M.D., M.P.H., Medical Director, Washington State Department of Labor & Industries (L&I), and Research Professor, Department of Environmental and Occupational Health Sciences, UW School of Public Health, is Principal Investigator, or research that involves L&I records for which research Gary Franklin is an investigator (and someone else is Principal Investigator). This IAA does not apply to any research involving other Washington State Agency records for which the WSIRB provides review and continuing oversight, even if L&I records may be used or disclosed for research purposes.

The review performed by the University of Washington IRB will meet the human subject protections requirements of the University of Washington's DHHS OHRP-approved FWA and the L&I DHHS OHRP-approved FWA. The University of Washington IRB will follow written procedures for reporting its findings and actions to the L&I WSIRB. Relevant minutes of the IRB meetings at the University of Washington will be made available upon request to the L&I WSIRB. L&I remains responsible for ensuring compliance with the University of Washington's IRB determinations and with the terms of its OHRP-approved FWA. This IAA is to be kept on file at both institutions and provided to OHRP upon request.

The UW PI will be responsible for submitting a copy of this agreement with each IRB application, and for providing to the L&I WSIRB a copy of the UW IRB determination to approve or disapprove the IRB application and continuing reviews.

I am aware that under this IAA that the University of Washington IRB will be providing IRB review for the above-referenced research projects:

Signature of Signatory Official or Designee for the University of Washington:

Date

Name: Maria Savage
Title: Assistant Director of Operations
University of Washington
