Notes:
(1) Net Charges are Total Claim Charges less Total Non-Covered Claim Charges. Total Non-Covered Claim Charges were less than .5 percent of Total Claim Charges.
(2) Non CAHs: Payments are the sum of DRG Allowed Charge amounts for DRG-based services, and Allowed Charge amounts for RCC-based services. These amounts represent the total payment amount to be received by the hospitals for these services, including all third-party payment amounts.
CAHs: Paid Claims data do not reflect cost settled payments for Critical Access Hospitals. For the purpose of this analysis, we assume Critical Access Hospital RCC Payments to equal Estimated Costs unless the hospital has AP-DRG payments. If a CAH has AP-DRG payments during the fiscal year, the AP-DRG payments and RCC payments are equal to the amounts reported in the paid claims data. RCC payments for Prosser in SFY 2002 do not include $78,450 returned to the State per the cost settlement process.
(3) Costs are estimated by multiplying a hospital's RCC by the net charges amount for each claim.

Notes:
(1) Net Charges are Total Claim Charges less Total Non-Covered Claim Charges. Total Non-Covered Claim Charges were less than .5 percent of Total Claim Charges.
(2) Non CAHs: Payments are the sum of DRG Allowed Charge amounts for DRG-based services, and Allowed Charge amounts for RCC-based services. These amounts represent the total payment amount to be received by the hospitals for these services, including all third-party payment amounts.
CAHs: Paid Claims data do not reflect cost settled payments for Critical Access Hospitals. For the purpose of this analysis, we assume Critical Access Hospital RCC Payments to equal Estimated Costs unless the hospital has AP-DRG payments. If a CAH has AP-DRG payments during the fiscal year, the AP-DRG payments and RCC payments are equal to the amounts reported in the paid claims data. RCC payments for Prosser in SFY 2002 do not include $78,450 returned to the State per the cost settlement process.
(3) Costs are estimated by multiplying a hospital's RCC by the net charges amount for each claim.

Notes:
(1) Net Charges are Total Claim Charges less Total Non-Covered Claim Charges. Total Non-Covered Claim Charges were less than .5 percent of Total Claim Charges.
(2) Non CAHs: Payments are the sum of DRG Allowed Charge amounts for DRG-based services, and Allowed Charge amounts for RCC-based services. These amounts represent the total payment amount to be received by the hospitals for these services, including all third-party payment amounts.
CAHs: Paid Claims data do not reflect cost settled payments for Critical Access Hospitals. For the purpose of this analysis, we assume Critical Access Hospital RCC Payments to equal Estimated Costs unless the hospital has AP-DRG payments. If a CAH has AP-DRG payments during the fiscal year, the AP-DRG payments and RCC payments are equal to the amounts reported in the paid claims data. RCC payments for Prosser in SFY 2002 do not include $78,450 returned to the State per the cost settlement process.
(3) Costs are estimated by multiplying a hospital's RCC by the net charges amount for each claim.

Notes:
(1) Net Charges are Total Claim Charges less Total Non-Covered Claim Charges. Total Non-Covered Claim Charges were less than .5 percent of Total Claim Charges.
(2) Payments are the sum of DRG Allowed Charge amounts for DRG-based services, and Allowed Charge amounts for RCC-based services. These amounts represent the total payment amount to be received by the hospitals for these services, including all third-party payment amounts.
(3) Costs are estimated by multiplying a hospital's RCC by the net charges amount for each claim.

Total Non-Covered Claim Charges were less than .5 percent of Total Claim Charges.
(2) Payments are the sum of DRG Allowed Charge amounts for DRG-based services, and Allowed Charge amounts for RCC-based services. These amounts represent the total payment amount to be received by the hospitals for these services, including all third-party payment amounts. Payments do not include Cost Settled Amounts for Critical Access Hospitals.
(3) Data include all in-state and out-of-state hospitals.

Total Non-Covered Claim Charges were less than .5 percent of Total Claim Charges.
(2) Payments are the sum of DRG Allowed Charge amounts for DRG-based services, and Allowed Charge amounts for RCC-based services. These amounts represent the total payment amount to be received by the hospitals for these services, including all third-party payment amounts. Payments do not include Cost Settled Amounts for Critical Access Hospitals.
(3) Data include all in-state and out-of-state hospitals.

Notes:
(1) AP-DRG Discharges and Payments include Outlier Discharges and Payments.
(2) Outlier Discharges and Payments are total discharges and payments for AP-DRG Discharges that meet the payment criteria for outlier payments.
(3) RCC Discharges and Payments are discharges that are paid based on the RCC payment methodology.
(4) Non CAHs: RCC payments are equal to the amounts reported in the paid claims data.
CAHs: Paid Claims data do not reflect cost settled payments for Critical Access Hospitals. For the purpose of this analysis, we assume Critical Access Hospital RCC Payments to equal Estimated Costs unless the hospital has AP-DRG payments. If a CAH has AP-DRG payments during the fiscal year, the AP-DRG payments and RCC payments are equal to the amounts reported in the paid claims data. RCC payments for Prosser in SFY 2002 do not include $78,450 returned to the State per the cost settlement process.
(5) Total Payments are the sum of AP-DRG Payments (which include Outlier Payments) and RCC Payments.

(2) Total Claim Charges less Total Non-Covered Charges for DRG-based claims that meet the payment criteria for outlier payments, divided by the number of outlier discharges.
(3) Total Claim Charges less Total Non-Covered Charges for RCC-based claims, divided by the number of RCC-based discharges.
(4) Payments represent the total payment amount to be received by the hospitals for these services, including all third-party amounts.
(5) Non CAHs: RCC payments are equal to the amounts reported in the paid claims data.
CAHs: Paid Claims data do not reflect cost settled payments for Critical Access Hospitals. For the purpose of this ana we assume Critical Access Hospital RCC Payments to equal Estimated Costs unless the hospital has AP-DRG payme If a CAH has AP-DRG payments during the fiscal year, the AP-DRG payments and RCC payments are equal to the a reported in the paid claims data. RCC payments for Prosser in SFY 2002 do not include $78,450 returned to the State per the cost settlement process.

Note:
(1) RCC Discharges and Payments are discharges that are paid based on the RCC payment methodology.
Non CAHs: Payments are the sum of DRG Allowed Charge amounts for DRG-based services, and Allowed Charge amounts for RCC-based services. These amounts represent the total payment amount to be received by the hospitals for these services, including all third-party payment amounts.
CAHs: Paid Claims data do not reflect cost settled payments for Critical Access Hospitals. For the purpose of this analysis, we assume Critical Access Hospital RCC Payments to equal Estimated Costs unless the hospital has AP-DRG payments. If a CAH has AP-DRG payments during the fiscal year, the AP-DRG payments and RCC payments are equal to the amounts reported in the paid claims data. RCC payments for Prosser in SFY 2002 do not include $78,450 returned to the State per the cost settlement process.

Notes:
1 In some instances, particularly for out-of-state providers, Number of Total Discharges data were not available.
2. Non CAHs : RCC payments are equal to the amounts reported in the paid claims data.
CAHs : Paid Claims data do not reflect settled payments for Critical Access Hospitals. For the purpose of this analysis, we assume Critical Access Hospital RCC Payments to equal Estimated Costs unless the hospital has AP-DRG payments. If a CAH has AP-DRG payments during the fiscal year, the AP-DRG payments and RCC payments are equal to the amounts reported in the paid claims data.
3. Harborview SFY 2004 Trauma Payment includes a $28,168.56 Harborview Special OH payment.
