

DEPARTMENT OF SOCIAL AND HEALTH SERVICES

Strategic Plan Executive Summary 2019-2021

January 2019

The Department of Social and Health Services (DSHS) is Washington's largest state agency. Our staff are case managers, information technology professionals, rehabilitation specialists, communicators, benefits and financial experts, data analysts, carpenters and so much more. In any given month, DSHS provides some type of shelter, care, protection and/or support to 2.4 million of our state's 7.2 million people.

Our goal and commitment is to be a national leader in every aspect of client service. In the Strategic Plan that follows this Executive Summary, we provide a roadmap that addresses our organization's shared values, how well we are meeting performance expectations and where we are going. This plan guides our day-to-day decisions and focuses our resources.

Mission

As a Department, we are tied together by a single mission: to transform lives.

Vision

We are shaped by our objectives that:

- People are healthy.
- People are safe.
- People are supported.
- Taxpayer resources are guarded.

Values

We are united by these values:

- **Honesty and Integrity** – because leadership and service require a clear moral compass.
- **Pursuit of Excellence** – because it is not enough to get the job done, we must always challenge ourselves to do it better.
- **Open Communication** – because excellence requires teamwork and a strong team is seen, heard and feels free to contribute.
- **Diversity and Inclusion** – because only by including all perspectives are we at our best and only through cultural competency can we optimally serve our clients.
- **Commitment to Service** – because our challenges will always exceed our financial resources, our commitment to service must see us through.

DSHS Administrations

DSHS has six direct service administrations and two support administrations, all of which work closely together on behalf of our clients. See [the DSHS organizational chart](#) and get to know [our leadership](#) in each administration's strategic plan.

What's Next for DSHS

DSHS is one agency with the single mission of transforming lives. This is an exciting time of significant change for us, and as we work to transform lives, we will work to transform our agency as well to do the best work we can on behalf of those seeking our services.

DSHS is the foundational organization for human services in Washington state. Each day, we gain a greater understanding of how we all fit into the bigger picture and how we can learn from each other and support each other, no matter which administration we call home.

The priorities and goals that follow chart our course for the future.

AGENCYWIDE PRIORITIES AND GOALS

This executive summary addresses the Secretary's priorities for all of DSHS and sets measurable objectives and goals. We frequently monitor our progress to ensure DSHS serves our clients and Washington state to the best of our ability. Every DSHS employee contributes to addressing the priorities and accomplishing the objectives in this strategic plan.

The DSHS Secretary has chosen priorities for the agency based on discussions with staff, clients, stakeholders, the Governor's Office, legislators and others. These priorities address current needs and anticipate future needs. By working together across administrations DSHS will be able to deliver a range of quality of services to Washington residents and work efficiently and effectively. The DSHS Secretary has five agencywide priorities:

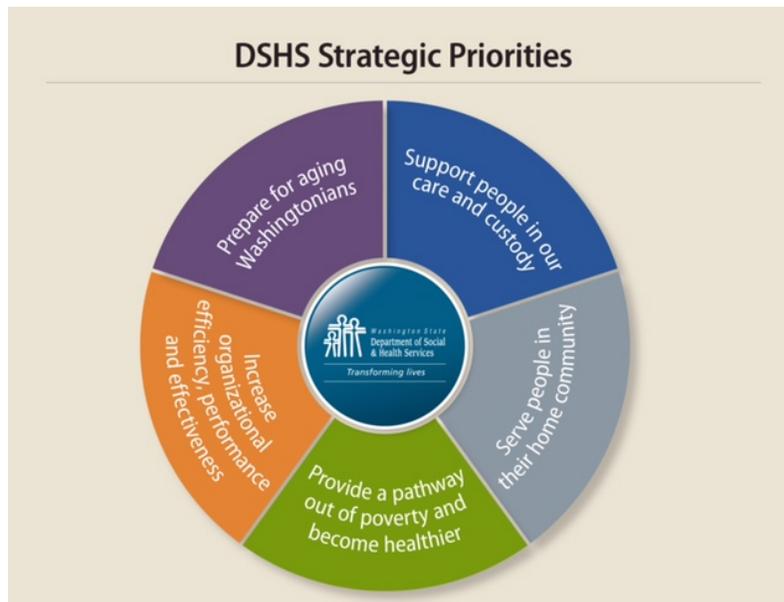

- Prepare for aging Washingtonians.
- Support people in our care and custody.
- Serve people in their home community.
- Provide a pathway out of poverty and become healthier.
- Increase organizational efficiency, performance and effectiveness.

Each strategic objective in this agencywide plan supports the five broad goals for DSHS:

- Health: Each individual and each community will be healthy.
- Safety: Each individual and community will be safe.
- Protection: Each individual who is vulnerable will be protected.
- Quality of Life: Each individual in need will be supported to attain the highest possible quality of life.
- Public Trust: Strong management practices will ensure quality and efficiency.

Both the Secretary's priorities and DSHS goals align with:

- The Governor's goal of Healthy and Safe Communities.
- The Governor's goal of Efficient, Effective and Accountable Government.

STRATEGIC OBJECTIVES

Below are the details of key agency strategic objectives within the Secretary's priorities. The narratives describe what constitutes success. Some objectives refer to decision packages. DSHS monitors progress in meeting strategic objectives, reports on it quarterly on the [DSHS website](#) and updates objectives as needed.
