Employment Status of Medical Assistance Clients and Persons with Dependents with DSHS Medical Coverage

Statewide Data for CY 2008

By Firm Detail for January 2009 and June 2009

As Required by Engrossed Substitute House Bill 3079

January 15, 2010

INTRODUCTION

Nationally, an increasing number of employers faced with rising employee health care premium costs either have chosen to drop health care benefits for their employees or to pass on to their employees a greater share of coverage costs. As a consequence, more employees and their dependents either go without health insurance, apply for state purchased health care programs supported with public funds, or seek uncompensated care at hospitals and community clinics.

In response to these trends, the 2006 State Legislature enacted Engrossed Substitute House Bill (ESHB) 3079. This legislation directed the Department of Social and Health Services (DSHS) and the Health Care Authority (HCA) in coordination with the Employment Security Department (ESD) to report annually on the employment status of Medical Assistance clients and Basic Health Program (BHP) enrollees. This report provides both aggregate and employer-specific data related to DSHS Medical Assistance clients and non-client parents with dependents with DSHS medical coverage, as specified in the legislation (enacted as Chapter 264, Laws of 2006 and codified in RCW 70.47.170).

Governor Gregoire signed ESHB 3079, but vetoed the emergency clause included in the bill. The Governor's veto message urged caution when interpreting information provided in this report:

The employer information to be provided by the Health Care Authority (HCA) and the Department of Social and Health Services (DSHS) is not a requirement for enrollment or eligibility. Consequently, data contained in the reports will have been provided on a voluntary basis, and will be unverified. The two reports—an employer specific report and an aggregated report—will originate from separate sources. Therefore, they will not be comparable. The reports will also be based on a point-in-time data collection and will therefore not reflect changes in employment status. These data limitations must be considered when interpreting the reports.

The Governor also noted the programs provide health care services to eligible working persons and expressed concern that the information "not be misconstrued to portray beneficiaries of our Basic Health and Medicaid programs in a negative light."

ESHB 3079 directs DSHS to provide two separate sets of information related to DSHS Medical Assistance clients and non-client parents with dependents with DSHS medical coverage:

- Aggregate data for calendar year (CY) 2008 by industry, firm size, and public/private ownership type. These data are based on ESD quarterly wage data.
- By-firm data for January and June 2009 for employers associated with 50 or more persons with DSHS medical coverage. These data are based on DSHS Automated Client Eligibility System (ACES) employer name data.

DATA SOURCES AND LIMITATIONS

Aggregate data by industry, firm size, and public/private ownership type are based on ESD quarterly earnings data and monthly DSHS medical eligibility data for CY 2008. ESD earnings data do not include self-employment, federal government employment, or unreported earnings.

By-firm data are based on ACES employer name data linked to DSHS medical eligibility data for January and June 2008. ACES employer name information does not permit the identification of separately owned franchises operating under the same business name. The employer name information used in this report is self-reported; it is not a required element of the application for public assistance and is not independently verified by DSHS. Employer rankings are based on the average monthly number of employed persons associated with DSHS medical clients in January and June 2009.

The tables report the number of DSHS clients or persons with dependents with DSHS medical coverage who were employed, and the associated "member months" by type of coverage. Coverage type was determined based on Medicaid Management Information System (MMIS) program, match and medical codes.

The Family Medical coverage group includes persons receiving TANF and related medical coverage. The Children's Medical and SCHIP programs provide medical coverage to children in families that do not meet TANF eligibility criteria but have household income below 200 percent (Children's Medical) or 250 percent (SCHIP) of the Federal Poverty Guidelines. This coverage group also includes a small number of children enrolled in Foster Care or Adoptions Support coverage. The Pregnant Women program provides Medicaid coverage to low-income pregnant women. The Persons with Disabilities coverage group includes persons enrolled in Medicaid Disabled, Medicaid Blind, General Assistance, and Alcohol and Drug Abuse Treatment and Support Act (ADATSA) coverage. The "Other" coverage group includes a small number of persons receiving DSHS medical coverage through programs for refugees and the elderly. Clients who received family planning coverage only were excluded from the analysis.

Employed non-client persons with dependents with DSHS medical coverage were counted if they were part of a household with at least one person who received DSHS medical coverage. To be counted, the employed person had to be identified as the head of household, spouse, or unmarried co-parent of a child in common with the head of household.

Counts of employed clients or persons with dependents with DSHS medical coverage were associated with a single "primary employer" in each month. The vast majority of employed clients or persons with dependents with DSHS medical coverage had a single employer in the month. In cases where the person had more than one employer in the month, the primary employer was defined to be the employer from whom the person received the greatest earnings.

To create an unduplicated count of member months and HRSA expenditures associated with employed persons, in the cases where a dependent was associated with more than one employed person, we associated the dependent with the person who had the highest earnings. For the CY 2008 aggregate data tables, per member per month HRSA Medical Assistance expenditure estimates were based on November 2009 forecast per capita estimates for SFY 2009. Per member per month HRSA Mental Health expenditure estimates were based on statewide average RSN capitation rates for SFY 2009.

For the by-firm tables, per member per month HRSA Medical Assistance expenditures were based on November 2009 forecast estimates for SFY 2009. Per member per month HRSA Mental Health expenditure estimates were based on statewide average RSN capitation rates for SFY 2009.

KEY FINDINGS

1. In the average quarter in CY 2008, there were 975,218 persons with DSHS medical coverage, excluding clients who received only family planning coverage.
2. In the average quarter in CY 2008, there were 107,834 persons with DSHS medical coverage and ESD-reported earnings in the quarter (see Table 2A “All Firms”). This represents about 11 percent of all persons with DSHS medical coverage in the average quarter in CY 2008.
3. The 107,834 employed DSHS persons had 78,181 dependents with DSHS medical coverage, for an average quarterly total of 186,015 covered lives (see Table 2B “All Firms”). This represents 19 percent of all persons with DSHS coverage in the average quarter in CY 2008.
4. In the average quarter in CY 2008, there were 148,655 employed non-client persons with dependents with DSHS coverage (see Table 3A “All Firms”). There were 254,911 dependents with DSHS coverage associated with these employed non-clients (see Table 3B “All Firms”). This represents 26 percent of all persons with DSHS medical coverage in the average quarter in CY 2008.
5. Combining employed clients and non-client persons, there were 256,489 employed DSHS clients or non-client persons with dependents with DSHS medical coverage in the average calendar quarter in CY 2008 (see Table 1A “All Firms”).
6. In the average quarter in CY 2008, there were 440,925 DSHS covered lives associated with the 256,489 employed DSHS clients and persons with dependents with DSHS medical coverage (Table 1B “All Firms”). This represents 45 percent of all persons with DSHS medical coverage in the average quarter in CY 2008.
7. The 256,489 employed DSHS medical clients or non-client persons with dependents with DSHS medical coverage in CY 2008 represented a 10 percent increase over the 231,111 employed clients/persons observed in CY 2007.
8. In CY 2008, about 60 percent of employed DSHS clients and non-client persons with dependents with DSHS coverage were employed by firms with more than 50 employees (Table 2A and 3A “All Firms”).
9. Employed non-client persons with dependents with DSHS medical coverage worked more hours than employed DSHS medical clients. Nearly half of employed non-client persons with dependents with DSHS coverage worked full-time (more than 455 hours) in the quarter (Table 3A “All Firms”), compared to only 16 percent of employed clients (Table 2A “All Firms”).
10. There were nearly 5 million months of DSHS medical coverage in CY 2008 associated with employed DSHS clients and non-client persons with dependents with DSHS medical coverage. About forty percent of the months were associated with employed DSHS clients (2,050,744 months), and about 60 percent were associated with employed non-client persons with dependents with DSHS coverage (2,919,136 months).
11. Estimated DSHS medical and mental health expenditures for the months of coverage associated with employed clients and non-client persons with dependents with DSHS coverage were \$1.264 billion in CY 2008 (all funds). Of this total, approximately \$682 million were associated with employed DSHS medical clients, and \$582 million were associated with employed non-client persons with dependents with DSHS medical coverage.
12. Associated annual DSHS coverage costs were greatest for persons employed in the following industries: Health and Social Assistance (\$192 million); Retail Trade (\$180 million); and Accommodation and Food Services (\$166 million).
13. Almost all (92.5 percent) of the annual DSHS coverage costs were associated with private employers (\$1.17 billion), as opposed to public employers (\$94 million).

TRENDS IN EMPLOYMENT

The table below provides an overview of the trend in the proportion of DSHS medical clients associated with employment from 2005 to 2008, as identified using ESD quarterly earnings data. The overall proportion of DSHS clients associated with employment (clients who were employed or the dependent of an employed person) remained in the range of 44 to 47 percent of the overall DSHS medical caseload from 2005 through 2008. Some of the year-to-year variation in the table below is the result of slight changes in data processing methods over the reporting period.

**DSHS Medical Program's Employed Clients and Non-Client Persons
with Dependents with DSHS Medical Coverage**

	Employed DSHS Clients and Non- DSHS Clients with Dependent DSHS Clients	Average Quarterly DSHS Medical Covered Lives	Average Quarterly DSHS Enrollment	Percent of DSHS Clients Associated with Employment
CY 2005	240,062	425,765	936,860	45%
CY 2006	243,114	427,448	908,870	47%
CY 2007	231,111	404,026	915,322	44%
CY 2007	256,489	440,925	975,218	45%
