This is the October 1, 2019 revision of the Basis of Issuance Tables and Maximum Allowable Monthly Gross and Net Income Standards for the Washington Basic Food program or Basic Food. Effective October 1, 2019 all Assistance Units (AU) who receive Basic Food will have their benefit level determined based on the tables.

The Food and Nutrition Act requires that one and two-person households receive a minimum $16 allotment. Three person households and larger can receive an allotment less than $16.

These tables are extended to meet the needs of certain categorically eligible households. Therefore, the amounts shown on the tables are higher than the net income limits for some household sizes. Households that are not categorically eligible for food benefits cannot receive benefits if their net incomes are higher than the amounts shown in the maximum net monthly income column.

To determine an AU's Basic Food benefit allotment using the Basis of Issuance Tables:

1. Calculate the AU's countable income as determined under WAC 388-450-0162. If an AU is not categorically eligible for Basic Food, their countable income must be lower than or equal to the amount shown in the maximum net monthly income column.

2. Find the allotment by reading in the table down to the appropriate income and across to the appropriate number of persons in the AU.

3. Persons in an AU of one or two people who are also categorically eligible for Basic Food will be eligible for benefits of at least $16, even if the table does not show a benefit amount at the AU's income level.

An Assistance Unit's (AU's) eligibility for Basic Food benefits will be determined by the following methods:

- An AU that includes an elderly person or an individual with a disability may have income up to the maximum NET monthly income.

- All other AUs must meet both the maximum GROSS monthly income and maximum NET monthly income standards unless the AU is Categorically Eligible for Basic Food under WAC 388-414-0001.

- For elderly persons with a disability who live with others, we use maximum GROSS monthly income of others in the household to determine if the person can be a separate AU.

</table>

* Do not use the MAXIMUM NET or MAXIMUM GROSS income included in this table as the current Federal Poverty Rate. These standards are based on the Federal Poverty Rate in effect at the time the Basic Food standards are updated each October.

For issuance to an AU of more than 8 persons, use the following formula:

1. For each person over 8 AU members, add $146 to the monthly maximum allotment for an 8-person AU.

2. To determine the monthly Basic Food benefits for AU:
   a. Multiply the AU’s Net Monthly Income by 30 percent.
   b. Round the result from Step 2.a. up to the next highest dollar amount.
   c. Subtract the result from Step 2.b. from the Maximum Allotment for that size AU.
