**Note:**
- The table contains questions related to the health, income, and status of the child's parent and the child themselves.
- The options available for each question are Yes, No, Maybe, and Not Applicable.

### Additional Details

- **Child Support Referral**
- DSHS 14-057 TI (REV. 03/2016) Tigrigna

**Translation:**
- The text is in Tigrigna, a language primarily spoken in Ethiopia and Eritrea, with some sections translated into English for clarity.
- The document appears to be a form or questionnaire used for assessing the needs and circumstances of a child support referral case.

**Observations:**
- The document uses a mix of Tigrigna and English, with some phrases in English to denote specific sections or questions.
- The layout is structured to facilitate easy reading and understanding of the information required for the referral process.

---

**Related Information:**
- The child support referral process is crucial for ensuring that children receive necessary support and assistance when needed, particularly in cases involving financial or health constraints.
- Understanding the context and importance of such forms is vital for providing accurate and effective support to children and their families.
