

# Community Inclusion and Community Engagement

Connecting you to your community!

## Community Inclusion

Contribute, participate and connect to others in your community!

Community Inclusion will help you build relationships with people in your community who are not paid staff and support you to build new skills and contribute to your community.

Examples of Community Inclusion support include helping you build new skills while volunteering or supporting you to connect to new people in integrated community classes or clubs.

## Community Engagement

Get out in your community!

Community Engagement will help you access services and resources and experience activities out of the home and in the community.

Examples of Community Engagement supports include helping you to shop for a present for a friend, searching for apartments, or assisting you to sign up for the Special Olympics.

Contact your DDA case manager for more information. If you do not have a case manager, request information at: [www.dshs.wa.gov/dda](http://www.dshs.wa.gov/dda)
