Introduction

By county, this report shows how clients of various ethnicities and ages used 76 DSHS programs and 10 DSHS divisions during State Fiscal Year 1990 (FY90), which is July 1989 through June 1990. Both the number of clients and the dollars spent on those clients are reported. The programs covered account together for about 90% of DSHS FY90 clients statewide.

This information comes from the Needs Assessment Data Project (NADP) Client Database, produced and maintained by the DSHS Office of Research and Data Analysis (ORDA). Other information (including estimates of "possible" or "at-risk" clients, 1990 Census populations, and use rates based upon these) can be found in the NADP FY90 Division Reports which can be obtained from ORDA.

Additional copies of this report, the NADP Division Reports, and the NADP Technical Report can be obtained by calling the main number for the Office of Research and Data Analysis at DSHS. Technical questions on this report may be directed to Elizabeth Kohlenberg or Rebecca Yette in ORDA.

Questions this Report can Answer Directly

Within each of the 76 different DSHS programs and the ten divisions, the tables in this report answer the following questions directly, for FY90.

- How many unduplicated clients from each county used each division and each program: overall, and by race/ethnicity and age group?
- How many total dollars were spent directly serving clients from each county: overall, and by race/ethnicity and age group?

The sum of all the clients in each division's programs will not equal the total clients in that division, since a single client may be served in several programs (hence the unduplicated divisional totals). However, it is possible to add clients across counties, to get multi-county regional totals within a single program or division.

Questions this Report can Answer Indirectly

The data presented in this report can be converted into several measures which can be used to answer additional questions. For example,

- In a given county, how much money was spent on the average client in each client group?

$$\text{Group A Per Client Cost} = \text{Group A Dollars in County} / \text{Group A Clients in County}$$

- In a given county, what percentage of the total clients were in each client group?

$$\text{Group A Client Percent} = 100 * \text{Group A Clients in County} / \text{Total Clients in County}$$

- In a given county, what percent of the total dollars spent were spent on each client group?

$$\text{Group A Service Percent} = 100 * \text{Group A Dollars in County} / \text{Total Dollars in County}$$

Service Use among Groups of Clients

This report explores the service use of clients grouped by race/ethnicity. The NADP racial/ethnic codes for clients were built from information already included in the DSHS data sources; therefore, the ethnic and racial data used in this report can be no better than the most accurate existing DSHS information for that client. For details on the creation of a single racial/ethnic identifier for each client, see the NADP divisional reports or the NADP Technical Report.

The following racial/ethnic groups were used here and in all other NADP reports: persons of all races who are of Hispanic origin, and persons who are not Hispanic and are either Asian, American Indian, Black, or White.

Client age groups were calculated from the birth date of each client. "Youth" consisted of clients from birth through seventeen, "Working Age" comprises ages 18 through 64, and the last age category included all persons 65 and over.

The Needs Assessment Client Database

The NADP Client Database was based on a relational design. It contained unduplication, demographic, geographic and service usage data for each client who used one or more of the programs covered during FY90. Information from 14 DSHS data sources was integrated to create this database. When multiple sources recorded the same service, the duplicated service was input into the NADP database from only one source.

Home Address of Clients

Whenever possible, clients using programs outside their home county were assigned to their home or originating county, since for these reports the primary questions were "how are the persons originating in county A using DSHS services?" Three client location problems emerged: (1) client mobility during FY90; (2) determining the originating county for persons in institutions, group homes or residential treatment facilities and (3) missing addresses.

Client mobility was resolved by apportioning the clients. If, for example, a client on Public Assistance lived in Spokane County for 4 months and in King County for 6 months, 4/10 of that client's use would be assigned to Spokane County, and 6/10 to King County. Occasionally this resulted in zero clients in a county where dollars were expended. This occurred when the client count was rounded to zero because less than half a person was served in the county.

For institutionalized persons there was generally an official "county of origin" or "county of eligibility" assigned to each client. However, for clients living in permanent group care settings (such as a nursing home, long-term congregate care facility or foster home) often the only home address recorded is the county where that residential facility was located. Sometimes that address was used. (See the NADP Technical Report for the exact address information used for each program and division).

The problem of missing address information was resolved in several ways. First, unduplicating clients across multiple data sources permitted adding a home county if it was missing from one source but available in another. Second, within programs a service area county was substituted for a missing home county, if most clients using the program were likely to be using it in their home county.

Within one source (Social Service Payment System) the only possible service area sometimes covered more than one county. In those multi-county service areas, the clients still without home counties after unduplication were randomly assigned home counties proportionately to the distribution of clients with known home counties in that service area. (See Technical Report and Division reports for details).

Client Unduplication

In order to accurately count clients and measure their service usage, clients using more than one program were unduplicated at the division level using the following criteria:

If the Social Security Number and Date of Birth match
then consolidate the clients;

Otherwise:

If the Social Security Number, Last Name and First Initial match
then consolidate the clients;

Otherwise:

If the Social Security Number is missing for at least one of the clients and the First Name, Last Name and Date of Birth match
then consolidate the clients.

For the agency-wide unduplication, following additional investigation, the missing Social Security Number (SSN) requirement was dropped from the third unduplication criteria. Hence, two clients with the same first name, last name AND the birth date were consolidated irrespective of their social security numbers. In this manner, children who initially were assigned a parent's SSN and later acquired their own SSN, could be unduplicated.

Resolving Conflicts In Race/Ethnicity and Gender During Unduplication

A client's race/ethnicity and gender was not always coded the same in different data sources. When a discrepancy occurred among sources within a division during unduplication, the coding from the most reliable source was assigned to the client. In the agency-wide unduplication process, the source priority process was repeated and each client was assigned a single ethnic code for the agency as a whole. As a result, a client could be coded as one race within a division and a different race at the agency-wide level because information from a more reliable source was available agency-wide. For this reason, the total dollars spent in a single county on the members of a given ethnic group may vary between the division and department-wide reports. The total service dollars for a county by agency race may not exactly equal the total service dollars for the county by division race. The unduplicated client report on pages 88 and 89 are based upon the agency-wide unduplication for ethnic group dollars. The reports on the other pages are based upon the division unduplication ethnic group dollars.

Cost of Service

When it was available, NADP reported the actual dollar cost of a client's service. If only the amount of service the client used was available (as in number of days in residential treatment or number of hours of counseling) NADP reported the service amount multiplied by an average unit cost. Sometimes only an average monthly or per episode cost was available. If so, that cost was multiplied by the number of months or episodes of service received by the client.

For some programs, neither amount of service nor service expenditures were available. In these, each client was assigned either a statewide average FY90 service cost-per-client or a provider average FY90 service cost-per-client. The cost-per-client criteria varied by program, depending upon how closely the budget codes and workload standards already in use fitted NADP program definitions. The programs using these per client cost estimates were:

Aging and Adult Services: Adult Protective Services, Case Management, Assessments
Division Alcohol and Substance Abuse: ADATSA Assessments
Division of Child & Family Services: Adoption, Child Protective Services
Division of Refugee Assistance: Employment Services, English as a Second Language

For a few programs, it was not feasible to include any dollars, either because NADP staff could not determine whether the clients used services during FY90 or what amount from the budget was spent on that program during FY90. These programs are: Aged-Blind-Disabled (grant dollars excluded), DDD Case Management, DJR Treatment Program, and DORA Self-sufficiency Planning.

The NADP Client Database included only those services and expenditures which could be attributed to individual clients. Headquarters costs, prevention and community education costs, and some service contracts were not included. In addition, some programs and dollars which could be attributed to individual clients were not included in this year's reports. (See page 5 for a list of programs and service costs not included).

Therefore, the total NADP service cost for each division or administration was less than the Divisions's total FY90 expenditure. For DSHS as a whole, the total NADP service cost was about 78% of the total FY90 DSHS expenditures.

Programs and Divisions Included in the NADP Client Database

The following programs are included in this report, separately and as part of the Divisional totals. The Program Glossary at the end of this report briefly describes the services each program provides, and details the small programs which were added to the division totals but not reported separately by county.

Aging and Adult Services Administration (AASA): Adult Family Homes, Adult Protective Services, Assessments, COPES, Case Management, Chore Services, Congregate Care Facilities (CCF), Nursing Homes, Personal Care Services.

Division of Alcohol and Substance Abuse (DASA): ADATSA Assessments, ADATSA Outpatient Living Stipend, Detoxification, Methadone Treatment, Outpatient Treatment, Residential Treatment.

Division of Children and Family Services (DCFS): Adoption, Adoption Support, Child Protective Services, Family Reconciliation Services, Foster Care, Home Based Services, Interim Care Services, Special Group Care, Therapy Child Care, Treatment Foster Care, Work Child Care.

Division of Developmental Disabilities (DDD): Assessment and Case Management, Community Residential Facilities, Employment Programs, Family Support, Habilitation Services, Non-Facility Residential, Residential Habilitation Center, Supplemental Community Support.

Division of Income Assistance (DIA): AFDC-E and FIP-equivalent, AFDC-R and FIP Equivalent, Aged-Blind-Disabled, Food Assistance, General Assistance Unemployable, Pregnancy Grants.

Division of Juvenile Rehabilitation (DJR): Community Beds, Parole in Community, State Institutions, Mental Health and Chemical Dependency Treatment.

Medical Assistance Administration (MMA or DMA): Dental Services, HMOs, Hospital Inpatient, Hospital Outpatient, Medicare Part B, Other Medical, Physician Services, Prescription Drugs.

Division of Refugee Assistance (DORA): Employment Services, English as a Second Language (ESL), Refugee Grants, Self-sufficiency Planning.

Division of Vocational Rehabilitation (DVR): Case Management for Supported Employment, Case Management for Non-Supported Employment, Education and Training, Medical/Psychological Treatment, Personal Support, Placement Support, Vocational Diagnosis.

Mental Health Division (MHD): Adult Day Treatment, Case Management, Child Day Treatment, Child Study and Treatment Center, Community Residential Transitional, Community Residential Treatment, Group Housing, Intake and Evaluation in CMHCs, Involuntary Community Hospitalizations, Medication Management, Outpatient Treatment, and State Institutions.

Programs Not Included in the NADP Client Database

The following programs were not recorded in the FY90 NADP Client Database and were therefore not counted in the total dollars for each division for this report. Clients using these programs would only be counted if they also used some other DSHS service during FY90.

- Patricia Richards*
- Clients receiving DIA Consolidated Emergency Assistance Program (CEAP)
 - Job Search and Work Training costs for Clients on Public Assistance
 - DIA Funeral Interment Assistance
 - DIA Telephone Assistance (Lifeline)
- County Supply*
- Persons eligible for Medical Assistance who did not use their coupons during FY90
 - AAA Services (such as congregate or home-delivered meals and AAA case management)
 - AASA Contract Chore Services
 - DJR Consolidated Juvenile Services Clients
 - MHD Clients in Private Long-term Inpatient Facilities for Children
 - Persons committed to MHD Community Evaluation and Treatment Facilities
 - Office of Support Enforcement Assistance Avoidance Clients
 - Office of Support Enforcement Public Assistance Recovery Clients

Served by

Service Dollars not Included in the NADP Client Database

In addition to service dollars not recorded from the programs above, there were service dollars expended by divisions which were not included in this report. These included the following:

- Dollars lost due to incomplete reporting on automated databases
- An estimated 5% increase in DIA payments, because of one-time payments, corrections and delayed entry in the automated data systems
- Information and Referral Services for the general public
- Public Education and Prevention programs
- DDD Case Management (Clients are counted but no dollars allocated)
- DORA Self-sufficiency Assessment and Planning (Clients counted, no dollars allocated)
- Social Security Income payments (Clients counted, no dollars allocated)
- State Supplemental Payments to SSI recipients (Clients counted, no dollars allocated)
- Telecommunication Device for the Deaf distribution
- Translators and American Sign Language Interpreters
- Most transportation services for clients, including travel to medical appointments

Footnotes to Tables

- 1 The racial/ethnic codes in these tables are drawn from different DSHS data sources. For most of these sources, clients who identified themselves as "Alaskan Natives" were coded as "American Indian" and those who identified themselves as being from a Pacific island were coded as "Asian." Clients who identified themselves as Hispanic were generally coded as being "Hispanic." However, in most DSHS data sources (and therefore in the NADP database) a client cannot be **both** Hispanic and White, Black, Asian, or American Indian.

In the database maintained by the Department of Juvenile Rehabilitation, Alaskan Native and Pacific Islanders were sometimes coded as "Other Race".

The Division of Refugee Assistance PEP Database does not record client race (though refugee clients may be identified by race in other department data sources). However, client ethnicity and country of origin are stored in the PEP Database, and DORA staff associated a race with each ethnic group and each country of origin. Using this association, NADP staff then assigned the client's race based on the ethnic group. If the ethnic group was missing, the assignment was based on the country of origin was used. For details, see the NADP DORA Report.

In constructing the NADP database, sources were prioritized so that a client appearing in multiple sources could be assigned a single race within each division. For details, see the NADP Technical Report or the separate Division Reports.

- 2 Over 65 Clients represents all clients 65 and over.
- 3 Youth comprises clients from birth through age 17.
- 3 Working-Age encompasses clients aged 18 through 64.
- 5 Missing and other Race clients varied by division. Generally they included persons who indicated that they were of mixed race, as well as those client records where no race was recorded.

Program Glossary

Aging and Adult Services (AASA)

AASA Total: Included residential assistance, as well as all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Adult Family Homes:** In these small group care settings, persons in their own homes provided room, board, laundry services and personal care for as many as six adults who were not related to the provider, could not live alone, and did not need skilled nursing care.

- **Adult Protective Services:** APS staff investigated reports of neglect, abuse, exploitation or abandonment of dependent adults. Services provided to clients who need help included, but were not limited to: counseling, assessment, arranging for alternative living situations, assistance in accessing community resources, and arranging for and providing appropriate services.

- **Assessment - Comprehensive Adult Services:** This in-person, standardized, comprehensive assessment of need and level of care was provided for disabled adults requesting nursing home care, COPES, case management, or any other AASA service.

- **Community Options Program Entry System (COPES):** Program assisted clients to delay or avoid nursing home placement, by providing for the coordinated delivery of support services necessary to allow disabled or frail persons to remain in less-restrictive settings. Services provided included case management, in-home personal care, congregate care, respite care, and adult family home care.

- **Case Management by AASA Staff:** AAS social workers assisted certain disabled adults to assess their needs, develop a service plan, and obtain and effectively use necessary support services while still maintaining the highest level of health and independence capable by the person. The case managers maintained ongoing contact with the client until the condition and situation were stabilized.

- **Chore Services (State Paid):** These state funded programs provided in-home personal care services to non-Medicaid eligible, low-income, disabled or very frail adults who still live in their own homes. This grouping included all individual provider services as well as chore provider meal reimbursements and travel costs. Contract chore services (SSPS code 4220) were not included.

- **Congregate Care Facilities:** In these licensed boarding facilities for disabled adults, staff offered twenty-four hour supervision of and help with the following: activities of daily living, planning medical care, taking medications, and the handling of financial matters when necessary.

- **Nursing Homes:** In these residential facilities, staff performed an array of services for disabled persons who required daily nursing care, as well as assistance with medication, eating, dressing, walking, or other personal needs.

- **Personal Care Services:** These federal and state funded programs provided help with the activities of daily living to Medicaid eligible, poor, disabled or frail elderly adults who needed this assistance to remain in their own homes, Adult Family Homes (AFH), or Congregate Care Facilities (CCF). Included were: Title XIX-funded Personal Care (SSPS 4501 through 4507 and 4520) and transportation (SSPS 4533); and state-funded Personal Care provided for clients in AFH's (SSPS 4717).

Division of Alcohol and Substance Abuse (DASA)

DASA Total: Included all the following programs. Clients were unduplicated and dollars spent were totalled.

- **ADATSA Assessments:** Chemically dependent persons who were indigent according to DSHS criteria were evaluated to determine clinical eligibility for state or federally funded treatment or (if they qualify) state funded shelter. Assessment staff assisted clients to develop a treatment plan, monitored client progress, and placed clients in appropriate treatment settings.
- **ADATSA Outpatient (OP) Living Stipend:** Some clients who were indigent and in the process of carrying out a treatment plan from an Assessment Center were eligible for an ADATSA outpatient living stipend to cover food and housing costs while in outpatient treatment.
- **Detoxification:** Detoxification is a short-term residential service for persons withdrawing from the effects of excessive or prolonged alcohol or drug consumption. Services continued only until the person recovered from the transitory effects of acute intoxication. Detoxification always included supervision, and may have included counseling and/or medical care. Some counties provided detoxification in specialized freestanding facilities; in other counties, detoxification was provided in community hospitals.
- **Methadone Treatment for Opiate Addicts:** Methadone treatment is an outpatient service for some persons addicted to heroin or other opiates. The four contracted methadone treatment agencies provided counseling and daily or near daily administration of methadone or another approved substitute drug.
- **Outpatient Treatment:** Outpatient treatment consisted of a variety of diagnostic and treatment services provided in a non-residential setting. Both standard and intensive outpatient treatment were included. For indigent clients, the programs generally included vocational counseling to help clients regain employment.
- **Residential Treatment:** Clients in these programs were receiving treatment in an inpatient setting. Several types of inpatient settings were included in this category: Intensive Inpatient Treatment, Long-Term Residential Drug Treatment, Recovery House care, Differential/Dual Diagnosed Treatment at Cedar Hills for substance abusers who are mentally ill, and secure involuntary treatment at Pioneer North.

Division of Child and Family Services (DCFS)

DCFS Total: Included seasonal daycare, as well as all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Adoption:** Adoption services provided opportunities for children in DSHS's custody to be placed in permanent families. Services included permanency planning, adoption preparation, placement supervision, and some limited post-adoption services.
- **Adoption Support:** This program encouraged adoption of hard-to-place children from DSHS foster care; children who, because of age, race, physical condition, or emotional health, would not otherwise be placed for adoption. The program eliminated barriers to the adoption of such children by providing financial assistance, medical, counseling and rehabilitative services and assistance with legal fees for adoption finalization.
- **Child Protective Services:** These services included 24-hour intake, assessment, emergency intervention, and emergency medical services for referrals. If children were found to be at risk of abuse, the services could have included direct treatment, coordination and development of community services, legal intervention and case monitoring. Family services were intended to reduce the risk to the children. (The client counts represent children assessed rather than children seen.)
- **Family Reconciliation Services:** These services were offered to help families and their runaway or conflict-ridden adolescent members. There were three phases: (I) 24-hour Intake and Assessment; (II) Longer-term crisis counseling provided by county contract counselors; and (III) an Intensive (e.g., Homebuilders) program, which worked intensively with families to avoid imminent out-of-home placements.
- **Foster Care:** Foster care served children who needed short term or temporary protection because they were homeless, dependent, abused, neglected and/or could not live with their parents because of conditions which threatened their normal development. Additionally, foster care served runaways, developmentally disabled children, mental health and juvenile rehabilitation referrals, and medically fragile children including drug-affected newborns. Also included in this category were any of the following services received by children while in foster care: clothing and personal incidentals, psychological evaluation and treatment, personal care services, and transportation.
- **Home Based Services:** These were individualized services purchased to help families who were at risk of child placement or in need of reunification. Services may have included traditional child welfare services, such as parent aides or counseling, as well as supports around basic needs such as clothing, shelter, employment and transportation. Services provided were not available without cost in the community.
- **Interim Care Services:** ICS consisted of three service categories: Family Receiving Homes, Crisis Residential Centers (CRCs), and Juvenile Detention Placements. All three were emergency placement resources for children, pending family reunification or out-of-home placement to longer-term family foster care or group care. There were also three types of CRCs included: Regional, Group and Family beds. If clothing or personal incidentals were purchased for children while they were in CRCs, the dollars spent were included in the NADP costs for this program.

- continued next page -

- **Special Models of Group Care:** This category encompassed several different specialized treatment programs for children with particular difficulties. Included were: special model residential treatment and aftercare; special treatment facilities for children who are both developmentally disabled and mentally ill; special care for medically fragile children; and out-of-state group care.
- **Treatment Foster Care and Group Care:** Group care and treatment foster care placements served children with emotional and/or behavioral difficulties which exceeded the service or supervision capacity of regular foster care families. Lengths of stay in these settings ranged from 90 days to 18 months; staffing ratios ranged from 1:8 to 1:2. Several models were included here: Treatment Foster Care; and Group Care (Levels 2, 3 and Residential Treatment). If Early Enhanced Discharge and After Care (EEDAC) services were provided for these clients, those costs were included. Also included were additional client services recorded for these clients, such as: additional supervision, clothing, personal incidentals, and transportation.
- **Therapy Day Care:** This category comprised child care which was provided for three groups of children with special emotional needs. The first group was children who were at risk of child abuse and neglect (Therapeutic Child Development). The second was children whose families needed respite, treatment or parent education (CPS/CWS Child Care). The third was children whose parents were undergoing substance abuse treatment funded by the Division of Alcohol and Substance Abuse (DASA Child Care).
- **Work and Training Day Care:** This category of child care was subsidized because the custodial parent(s) were working full time or were in secondary education, and the family was earning less than 52% of the State Median Income adjusted for family size.

Division of Developmental Disabilities (DDD)

DDD Total: Included personal care for children and medically intensive clients, as well as all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Assessments and Case Management:** Case managers assisted eligible DDD clients and their families in the following: assessing needs, planning and authorizing state funded services, applying for other services, and handling crises. Some clients may have seen their case manager often during FY90; others (such as families whose children are in the public schools) may not have seen their case manager at all during FY90. Both types of clients were included in this report because the DDD data systems did not distinguish between "having" and "using" a case manager.

- **Community Residential Facilities:** This group included clients living in smaller, community-based group care facilities: group homes and Intermediate Care Facilities for the Mentally Retarded (ICF-MR).

- **Employment Programs:** This group included three employment programs contracted through counties: (1) Individual Supported Employment, which assisted clients to find and keep jobs in the community; (2) Group Supported Employment, which enabled clients to work in groups or enclaves at local businesses; and (3) Specialized Industries, which were work training centers.

- **Family Support:** This group included the following family support services used by client families during the year, as well as miscellaneous family-based services: respite care, attendant care, professional services used by the family, and transportation for attendants or family members. These services enabled families to keep their developmentally disabled children in their own homes.

- **Habilitation Services:** These community services, contracted through counties, included (1) community integration day programs for adults whose physical disabilities or age make work-oriented programs inappropriate; and (2) senior day treatment programs.

- **Non-Facility Residential:** This group included all programs except SOLAs which support clients living in their own houses or apartments, either alone or with roommates (Tenant Support, Supportive Living). Staff helped these clients with household and money management, health care, personal care, use of community resources, and social integration.

- **Residential Habilitation Centers (RHCs):** This category includes clients originating from each county who during FY90 were living in the five large state residential and habilitation institutions which house developmentally disabled persons: Fircrest, Frances Haddon Morgan Center, Interlake School, Lakeland Village, Rainier School, and Yakima Valley. It also included those clients who moved into State Operated Living Alternatives (SOLAs) during FY90, because the FY90 DDD database had not yet been changed to reflect this new residential option.

- **Supplemental Community Support:** This group included any professional services used by the client, client transportation, and other client-oriented services.

Division of Income Assistance (DIA)

DIA Total: Included all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Employable AFDC and FIP Grants:** Clients in this group came from poor two-parent families with children under 18 or between 18 and 19 and finishing high school, in which both parents were unemployed but where at least one parent earned \$50 in each of six quarters during a 13 consecutive quarter period which ended within FY89 or FY90. They almost all received cash grants for food, clothing and shelter. Some clients received additional money for telephone, laundry, meals on wheels, restaurant meals, food for guide dogs and home winterization.
- **Regular AFDC and FIP Grants:** Clients in this group came from poor families with children under 18 or between 18 and 19 and finishing high school. They were either single-parent families, two-parent families where one parent is unemployable due to disability, or no-parent families in which the children are living with non-parent relatives. They almost all received cash grants for food, clothing and shelter under the AFDC-R program or its FIP equivalent. Clients who used child care grants under the FIP, JOBS, OPP, ESP, or CWEP programs were also included here, even if they were no longer receiving a cash grant. Some clients received additional money for telephone, laundry, meals on wheels, restaurant meals, food for guide dogs and home winterization.
- **Aged, Blind and Disabled:** All clients in this group qualified for medical assistance under the Aged, Blind and Disabled Program. Most of these clients received FY90 federal Supplemental Security Income (SSI) and/or State Supplemental Payments (SSI-SSP) but the actual SSI-SSP dollar amounts were not recorded in the NADP database. Medical expenditures were reported only in the DMA report. Hence, the only dollars reported for these clients were state dollars spent to help with some clients with telephone, laundry, meals on wheels, restaurant meals, food for guide dogs, and clothing/personal incidentals (CPI) for persons in nursing homes.
- **Food Assistance:** Clients in this group were poor households who met federal eligibility standards and received food assistance (either food stamps or FIP food cash). Most clients who receive cash income assistance grants qualified for food assistance, and were included here, but this program also included persons who did not qualify for any other income assistance program.
- **General Assistance-Unemployable (GA-U):** Clients in this group were very poor and unemployable due to physical, mental or emotional incapacity. Either the incapacity was not sufficiently continuous or long lasting for SSI, or the client's case was awaiting SSI determination. These clients received cash grants for food, clothing and shelter, and were eligible for medical assistance.
- **Pregnancy Grants:** Clients in this group were poor pregnant women. They received cash grants for food, clothing and shelter, authorized either under the General Assistance-Pregnant Program or under the Family Independence Program.

Division of Juvenile Rehabilitation (DJR)

DJR Total: Included Assessment and Testing and time in County Detention Centers, as well as all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Community Beds:** During FY90, there were three types of programs in which DJR clients lived in small group facilities while they worked and/or attended schools or Learning Centers in the community. DJR operated eight group homes, and contracted with private agency group homes (called Community Residential Placements or CRPs) and Community Alternative Programs (CAPs). The DJR group homes, CRPs and CAPs were all included in the Community Beds program.

- **Parole In Community:** Parole officers supervised juvenile offenders who were released into the community. They provided structure, supervision, family and client support, and access to needed community services.

- **State Institutions:** All DJR state institutions provided treatment, education and/or work experience in a secure facility. The three state institutions (Green Hill, Maple Lane, Echo Glen) and two forestry camps (Naselle and Mission Creek) were included.

- **Treatment Programs:** During FY90, one group home and two cottages in the state institutions offered specialized substance abuse treatment. Two other cottages offered specialized treatment for mentally ill youth. Clients using both these forms of specialized treatment were included in this program grouping.

Division of Medical Assistance (DMA)

DMA Total: Included hospice care, as well as all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Dental Services:** These included diagnostic, preventive or corrective services provided by or under the supervision of an individual licensed to practice dentistry or dental surgery.
- **Health Maintenance Organization (HMO) Fees:** Some clients were covered through managed health care such as Group Health, Kaiser, Pierce County Medical Bureau and Kitsap Physician Services (KPS). For these clients, a fixed monthly fee was paid, rather than service-specific reimbursements. The monthly fee covered most physician and hospital services.
- **Hospital inpatient Care:** These services were furnished by a licensed or formally approved hospital for the care and treatment of clients admitted to stay at the facility under the direction of a physician or dentist. Included were room and board and other ancillary services such as drugs, laboratory and radiology.
- **Hospital Outpatient Care:** These included preventive, diagnostic, therapeutic, rehabilitative or palliative services furnished by a licensed or approved hospital to clients who visited but were not admitted to stay at the facility.
- **Medicare Part B Premiums:** The state paid the fixed fee premium to the federal government to insure the client under Medicare Part B. Part B covers physician fees. In general, this service supported the elderly poor.
- **Other Medical:** This residual category included durable medical equipment; home health care; hospice care; some medically necessary transportation; optometrists, opticians and eyeglasses; chiropractic care; care at Indian Health Clinics; oxygen; hearing aids; care at Rural Health clinics; and a variety of smaller programs. In FY90, these services included less than 10% of all DMA Expenditures.¹
- **Physician Services:** These were services provided by or under the personal supervision of an individual licensed to practice medicine or osteopathy. These services could have been furnished in the physician's office, the client's home, a hospital or elsewhere.
- **Prescription Drugs:** These included simple or compound substances or mixtures prescribed by a physician or other licensed practitioner and dispensed by licensed pharmacists or other authorized practitioners.

Division of Refugee Assistance (DORA)

DORA Total: Included all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Employment Services:** These services were provided through county contractors to refugee clients who were potentially employable. The services provided included: family economic independence counseling, employment-oriented language training, job-finding skills, job development and placement, post-employment follow-up to insure a client stays on the job, and follow-up with employers to improve communication between the employer and the refugee employee.
- **English Language (ESL) Training:** This program taught "basic survival English skills" to adult clients to help them overcome communication problems and to help them contact service providers, especially medical providers.
- **Refugee Income Assistance:** If a refugee does not qualify for any state and federal income assistance programs, but met state income and grant standards, for the first year of United States residence they received a Refugee Cash Assistance grant.
- **Self-sufficiency Planning and Assessment:** DORA case managers assessed client employability, and helped clients access medical, social, educational and other services that are necessary for economic independence. If a client was employable, the case manager helped the client set up a personal employment plan (PEP) and referred the client to employment services, training, ESL and any other necessary services.

Division of Vocational Rehabilitation (DVR)

DVR Total: Included all other DVR services provided for clients, as well as all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Case Management, Supported Employment Clients:** Case managers worked with a team to assist clients who required on-going follow-up and post-employment services to maintain employment. DVR Case managers helped these clients assess their employment possibilities, access community resources and find suitable employment after rehabilitation. Team members outside DVR provided long-term follow-up and post-employment services.

- **Case Management, Non-Supported Employment Clients:** These case managers helped clients who would be employable without on-going follow-up after rehabilitation to assess employment needs, access community resources and find suitable employment.

- **Education, Training and Supplies:** These were the direct costs of vocational training. They included tuition, school books and equipment, interpreter or reader services, and lab fees.

- **Medical and Psychological Treatment:** This group of services included any restorative medical or psychological treatment which was needed to increase work potential and/or job accessibility. Examples include surgery, prostheses, hospital and convalescent care and the purchase of necessary medical equipment.

- **Personal Support Services:** These services helped the client to complete a rehabilitation plan and find employment. Examples included: help with transportation costs; day care; independent living services; purchase of tools, equipment, or interview clothing; the alteration, repair or purchase of a vehicle so that a client could get to work.

- **Placement Support Services:** This group of services included the purchase of clothing, tools or equipment necessary for job placement, assistance with business licenses and fees, and job placement fees.

- **Vocational Diagnosis and Adjustment:** This service group included the identification of a client's interests, readiness for employment, work skills and job opportunities.

Mental Health Division (MHD)

MHD Total: Included all the following programs. Clients were unduplicated and dollars spent were totalled.

- **Adult Day Treatment:** Day treatment programs provided a range and mix of planned and structured programs in a supervised all-day setting. In addition to counseling, Day Treatment staff emphasized community living skills (such as pre-vocational training and appropriate use of community services) and self-care skills (such as health, nutrition, and money management).
- **Case Management:** Case managers assisted all enrolled MHD clients and some registered MHD clients with the following needs: assessment of needs and development of a service plan, client housing, income, employment, monitoring and intervention, and crisis intervention.
- **Child Day Treatment:** Similar to Adult Day Treatment Programs, with an emphasis on preparing children for school rather than employment.
- **Child Study and Treatment Center:** Included only the state-run long-term residential treatment center for psychiatrically disturbed children.
- **Community Residential Transitional Programs:** Included adult clients living in "transitional" CCFs and AFHs (where some treatment is provided as part of easing a client back into the community).
- **Community Residential Treatment Facilities:** Included adult clients living in community-based residential treatment facilities. In RTFs, active intensive treatment by facility staff is part of the program.
- **Group Housing:** Included all MHD clients living in group housing where treatment is not provided as part of the housing situation. It included mentally ill hard-to-place clients living in Congregate Care Facilities (CCF) or Adult Family Homes (AFH); MHD clients living in specialized Mental Health CCF; and mental health clients living in regular CCFs and AFHs.
- **Intake and Evaluation:** Included clients who received Community Mental Health Center intakes, psychological assessments, and psychiatric evaluations during FY90.
- **Involuntary Commitments to Community Hospitals:** Included clients who were involuntarily committed to psychiatric wards in community hospitals. This grouping did not include persons treated in Evaluation and Treatment Centers.
- **Medication Management:** Included medication management, monitoring and prescription appointments for those MHD clients for whom a licensed practitioner has developed a medication treatment plan. Case managers recorded medication management, as could licensed mental health professionals.
- **Outpatient Treatment:** Included clients who received individual, family and group outpatient counseling in Community Mental Health Centers. Clients who participated in special-purpose Community Mental Health Center programs (excluding medication management, intake and evaluation and day treatment) were also included.
- **State Institutions:** Included Eastern State Hospital, Western State Hospital, the Program for Adaptive Living Skills (PALS) and/or PORTAL. Both voluntary and involuntary clients were included.
