Employment Status of Medical Assistance Clients and Persons with Dependents with DSHS Medical Coverage

Statewide Data for CY 2009

By Firm Detail for January 2010 and April 2010

As Required by Engrossed Substitute House Bill 3079

March 2011

INTRODUCTION

Nationally, an increasing number of employers faced with rising employee health care premium costs either have chosen to drop health care benefits for their employees or to pass on to their employees a greater share of coverage costs. As a consequence, more employees and their dependents either go without health insurance, apply for state purchased health care programs supported with public funds, or seek uncompensated care at hospitals and community clinics.

In response to these trends, the 2006 State Legislature enacted Engrossed Substitute House Bill (ESHB) 3079. This legislation directed the Department of Social and Health Services (DSHS) and the Health Care Authority (HCA) in coordination with the Employment Security Department (ESD) to report annually on the employment of Medical Assistance clients and Basic Health Program (BHP) enrollees. This report provides both aggregate and employer-specific data related to DSHS Medical Assistance clients and non-client parents with dependents with DSHS medical coverage, as specified in the legislation (enacted as Chapter 264, Laws of 2006 and codified in RCW 70.47.170).

Governor Gregoire signed ESHB 3079, but vetoed the emergency clause included in the bill. The Governor's veto message urged caution when interpreting information provided in this report:

The employer information to be provided by the Health Care Authority (HCA) and the Department of Social and Health Services (DSHS) is not a requirement for enrollment or eligibility. Consequently, data contained in the reports will have been provided on a voluntary basis, and will be unverified. The two reports—an employer specific report and an aggregated report—will originate from separate sources. Therefore, they will not be comparable. The reports will also be based on a point-in-time data collection and will therefore not reflect changes in employment status. These data limitations must be considered when interpreting the reports.

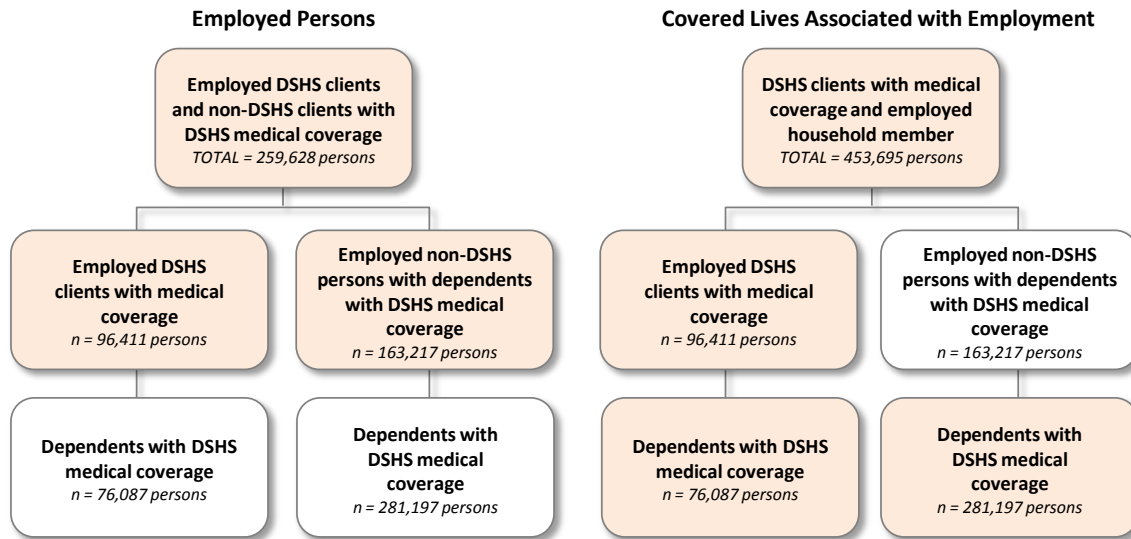

The Governor also noted the programs provide health care services to eligible working persons and expressed concern that the information "not be misconstrued to portray beneficiaries of our Basic Health and Medicaid programs in a negative light."

ESHB 3079 directs the provision of two separate sets of information related to DSHS Medical Assistance clients and non-client parents with dependents with DSHS medical coverage:

- Aggregate data for calendar year (CY) 2009 by industry, firm size, and public/private ownership type. These data are based on ESD quarterly wage data.
- By-firm data for January and June 2010 for employers associated with 50 or more persons with DSHS medical coverage. These data are based on DSHS Automated Client Eligibility System (ACES) employer name data. (Due to information technology system changes that occurred in May 2010, this report provides data for January and April 2010.)

KEY FINDINGS

Overview of Counts of Employed Persons Associated with DSHS Medical Coverage and DSHS Covered Lives Associated with Employed Persons

1. In the average quarter in CY 2009, there were 1,054,239 persons with DSHS medical coverage, excluding clients who received only family planning coverage.
2. In the average quarter in CY 2009, there were 96,411 persons with DSHS medical coverage and ESD-reported earnings in the quarter (see Table 2A "All Firms"). This represents about 9 percent of all persons with DSHS medical coverage in the average quarter in CY 2009.
3. The 96,411 employed DSHS persons had 76,087 dependents with DSHS medical coverage, for an average quarterly total of 172,498 covered lives (see Table 2B "All Firms"). This represents 16 percent of all persons with DSHS coverage in the average quarter in CY 2009.
4. In the average quarter in CY 2009, there were 163,217 employed non-client persons with dependents with DSHS coverage (see Table 3A "All Firms"). There were 281,197 dependents with DSHS coverage associated with these employed non-clients (see Table 3B "All Firms"). This represents 27 percent of all persons with DSHS medical coverage in the average quarter in CY 2009.
5. Combining employed clients and non-client persons, there were 259,628 employed DSHS clients or non-client persons with dependents with DSHS medical coverage in the average calendar quarter in CY 2009 (see Table 1A "All Firms").
6. In the average quarter in CY 2009, there were 453,695 DSHS covered lives associated with the 259,628 employed DSHS clients and persons with dependents with DSHS medical coverage (Table 1B "All Firms"). This represents 43 percent of all persons with DSHS medical coverage in the average quarter in CY 2009.
7. The 259,628 employed DSHS medical clients or non-client persons with dependents with DSHS medical coverage in CY 2009 represented a 1.2 percent increase over the 256,489 employed clients/persons observed in CY 2008.
8. In CY 2009, about 60 percent of employed DSHS clients and non-client persons with dependents with DSHS coverage were employed by firms with more than 50 employees (Table 2A and 3A "All Firms").
9. Employed non-client persons with dependents with DSHS medical coverage worked more hours than employed DSHS medical clients. Nearly half of employed non-client persons with dependents with DSHS coverage worked full-time (more than 455 hours) in the quarter (Table 3A "All Firms"), compared to only 15 percent of employed clients (Table 2A "All Firms").

10. There were 5.1 million months of DSHS medical coverage in CY 2009 associated with employed DSHS clients and non-client persons with dependents with DSHS medical coverage. About 37 percent of the months were associated with employed DSHS clients (1,909,403 months), and about 63 percent were associated with employed non-client persons with dependents with DSHS coverage (3,206,714 months).
11. Estimated DSHS medical and mental health expenditures for the months of coverage associated with employed clients and non-client persons with dependents with DSHS coverage were \$1.205 billion in CY 2009 (all funds). Of this total, approximately \$615 million were associated with employed DSHS medical clients, and \$590 million were associated with employed non-client persons with dependents with DSHS medical coverage.
12. Associated annual DSHS coverage costs were greatest for persons employed in the following industries: Health and Social Assistance (\$190 million); Retail Trade (\$170 million); and Accommodation and Food Services (\$157 million).
13. Almost all (92.4 percent) of the annual DSHS coverage costs were associated with private employers (\$1.11 billion), as opposed to public employers (\$92 million).

TRENDS IN EMPLOYMENT

The table below provides an overview of the trend in the proportion of DSHS medical clients associated with employment from 2005 to 2009, as identified using ESD quarterly earnings data. Some of the year-to-year variation in the table below is the result of slight changes in data processing methods over the reporting period.

The overall proportion of DSHS clients associated with employment (clients who were employed or the dependent of an employed person) declined from 45 percent of the overall DSHS medical caseload in 2008 to 43 percent of the caseload in 2009. This reflects the impact of the sharp rise in unemployment that began in late 2008 and continued into 2009.

**DSHS Medical Program's Employed Clients and Non-Client Persons
with Dependents with DSHS Medical Coverage**

	Employed DSHS Clients and Non-DSHS Clients with Dependent DSHS Clients	Average Quarterly DSHS Medical Covered Lives	Average Quarterly DSHS Enrollment	Percent of DSHS Clients Associated with Employment
CY 2005	240,062	425,765	936,860	45%
CY 2006	243,114	427,448	908,870	47%
CY 2007	231,111	404,026	915,322	44%
CY 2008	256,489	440,925	975,218	45%
CY 2009	259,628	453,695	1,054,239	43%

DATA SOURCES AND LIMITATIONS

Aggregate data by industry, firm size, and public/private ownership type are based on ESD quarterly earnings data and monthly medical eligibility data for CY 2009. ESD earnings data do not include self-employment, federal government employment, or unreported earnings.

By-firm data are based on ACES employer name data linked to medical eligibility data for January and April 2010. ACES employer name information does not permit the identification of separately owned franchises operating under the same business name. The employer name information used in this report is self-reported; it is not a required element of the application for public assistance and is not independently verified by staff. Employer rankings are based on the average monthly number of employed persons associated with DSHS medical clients in January and April 2010.

The tables report the number of DSHS clients or persons with dependents with DSHS medical coverage who were employed, and the associated “member months” by type of coverage. Coverage type was determined based on Medicaid Management Information System (MMIS) program, match and medical codes.

The Family Medical coverage group includes persons receiving TANF and related medical coverage. The Apple Health for Kids program provides medical coverage to children in families that do not meet TANF eligibility criteria but have household income below 200 percent of the Federal Poverty Guideline (FPL) through Medicaid funding, 300 percent of FPL through the Children’s Health Insurance Program (CHIP) funding, and up to 300 percent of the FPL for non-citizen children through the Children’s Health Program (CHP). This coverage group also includes a small number of children enrolled in Foster Care or Adoptions Support coverage. This coverage group also includes a small number of children enrolled in Foster Care or Adoptions Support coverage. The Pregnant Women program provides Medicaid coverage to low-income pregnant women. The Persons with Disabilities coverage group includes persons enrolled in Medicaid Disabled, Medicaid Blind, General Assistance, and Alcohol and Drug Abuse Treatment and Support Act (ADATSA) coverage. The “Other” coverage group includes a small number of persons receiving DSHS medical coverage through programs for refugees and the elderly. Clients who received family planning coverage only were excluded from the analysis.

Employed non-client persons with dependents with DSHS medical coverage were counted if they were part of a household with at least one person who received DSHS medical coverage. To be counted, the employed person had to be identified as the head of household, spouse, or unmarried co-parent of a child in common with the head of household.

Counts of employed clients or persons with dependents with DSHS medical coverage were associated with a single “primary employer” in each month. The vast majority of employed clients or persons with dependents with DSHS medical coverage had a single employer in the quarter. In cases where the person had more than one employer in the quarter, the primary employer was defined to be the employer from whom the person received the greatest earnings.

To create an unduplicated count of member months and Medicaid Purchasing Administration (MPA) expenditures associated with employed persons, in the cases where a dependent was associated with more than one employed person, we associated the dependent with the person who had the highest earnings. For the CY 2009 aggregate data tables, per member per month MPA Medical Assistance expenditure estimates were based on February 2010 forecast per capita estimates for SFY 2010. Per member per month DSHS Mental Health expenditure estimates were based on statewide average RSN capitation rates for SFY 2010.

For the by-firm tables, per member per month MPA Medical Assistance expenditures were based on February 2010 forecast per capita estimates for SFY 2010. Per member per month DSHS Mental Health expenditure estimates were based on statewide average RSN capitation rates for SFY 2010.

DATA SOURCES: This report is based on the analysis of Automated Client Eligibility System (ACES) employer name data linked to Medicaid Management Information System eligibility data. ACES employer name information does not permit the identification of separately owned franchises operating under the same business name. The employer name information used in this report is self-reported; it is not a required element of the application for public assistance and is not independently verified by DSHS.

Additional copies of this report may be obtained from: www.dshs.wa.gov/rda.
