Employment Status of HCA Medical Assistance Clients and Persons with Dependents with HCA Medical Coverage

Statewide Data for CY 2011 By Firm Detail for January 2011 and June 2011

As Required by Engrossed Substitute House Bill 3079 (Chapter 264, Laws of 2006)

January 2013

INTRODUCTION

Nationally, an increasing number of employers faced with rising employee health care premium costs either have chosen to drop health care benefits for their employees or to pass on to their employees a greater share of coverage costs. As a consequence, there have been trends towards more employees and their dependents applying for state purchased health care programs supported with public funds. In response to these trends, the 2006 State Legislature enacted Engrossed Substitute House Bill (ESHB) 3079. This legislation directed the Department of Social and Health Services (DSHS) and the Health Care Authority (HCA) in coordination with the Employment Security Department (ESD) to report annually on the employment of Medical Assistance clients and Basic Health Program (BHP) enrollees.

This report provides both aggregate and employer-specific data related to HCA Medical Assistance clients and non-client parents with dependents with HCA medical coverage, as specified in the legislation (enacted as Chapter 264, Laws of 2006 and codified in RCW 74.09.053 and RCW 70.47.170).

Governor Gregoire signed ESHB 3079, but vetoed the emergency clause included in the bill. The Governor's veto message urged caution when interpreting information provided in this report:

The employer information to be provided by the Health Care Authority (HCA) and the Department of Social and Health Services (DSHS) is not a requirement for enrollment or eligibility. Consequently, data contained in the reports will have been provided on a voluntary basis, and will be unverified. The two reports—an employer specific report and an aggregated report—will originate from separate sources. Therefore, they will not be comparable. The reports will also be based on a point-in-time data collection and will therefore not reflect changes in employment status. These data limitations must be considered when interpreting the reports.

ESHB 3079 directs the provision of two separate sets of information related to HCA Medical Assistance clients and non-client parents with dependents with HCA medical coverage:

- Aggregate data for calendar year (CY) 2011 by industry, firm size, and public/private ownership type. These data are based on ESD quarterly wage data.
- By-firm data for January and June 2011 for employers associated with 50 or more persons with HCA medical coverage. These data are based on DSHS Automated Client Eligibility System (ACES) employer name data.

KEY FINDINGS – MEDICAID AND RELATED HCA MEDICAL CLIENTS

Overview of Counts of Employed Persons Associated with HCA Medical Coverage and HCA Covered Lives Associated with Employed Persons Average per quarter in CY 2011

- 1. In the average quarter in CY 2011, there were 1,165,487 persons with HCA medical coverage, excluding clients who received only family planning coverage. This also excludes Basic Health Plan enrollees who are discussed in a later section.
- 2. In the average quarter in CY 2011, there were 92,461 persons with HCA medical coverage and ESD-reported earnings in the quarter (see Table 2A "All Firms"). This represents about 8 percent of all persons with HCA medical coverage in the average quarter in CY 2011.
- 3. The 92,461 employed HCA clients had 86,699 dependents with HCA medical coverage, for an average quarterly total of 179,160 covered lives (see Table 2B "All Firms"). This represents 15 percent of all persons with HCA coverage in the average quarter in CY 2011.
- 4. We use the term "employed non-client persons with dependents with HCA coverage" to refer to employed persons who do not have HCA coverage, but who have dependents with HCA coverage. In the average quarter in CY 2011, there were 214,741 employed non-client persons with dependents with HCA coverage (see Table 3A "All Firms"). There were 325,765 dependents with HCA coverage associated with these employed non-clients (see Table 3B "All Firms"). This represents 28 percent of all persons with HCA medical coverage in the average quarter in CY 2011.
- Combining employed clients and non-client persons, there were 307,202 employed HCA clients or non-client persons with dependents with HCA medical coverage in the average calendar quarter in CY 2011 (see Table 1A "All Firms").
- 6. In the average quarter in CY 2011, there were 504,926 HCA covered lives associated with the 307,202 employed HCA clients and persons with dependents with HCA medical coverage (Table 1B "All Firms"). This represents 43 percent of all persons with HCA medical coverage in the average quarter in CY 2011.
- The 307,202 employed HCA medical clients or non-client persons with dependents with HCA medical coverage in CY 2011 represented an 18 percent increase over the 259,628 employed clients/persons observed in CY 2009.

- In CY 2011, about 60 percent of employed HCA clients and non-client persons with dependents with HCA coverage worked for firms with more than 50 employees (Table 2A and 3A "By Firm Size").
- 9. Employed non-client persons with dependents with HCA medical coverage worked more hours than employed HCA medical clients. Nearly half (44 percent) of employed non-client persons with dependents with HCA coverage worked full-time (more than 455 hours) in the quarter (Table 3A "All Firms"), compared to only 15 percent of employed clients (Table 2A "All Firms").
- 10. There were 5.8 million months of HCA medical coverage in CY 2011 associated with employed HCA clients and non-client persons with dependents with HCA medical coverage. About 35 percent of the months were associated with employed HCA clients (2.0 million coverage months), and about 65 percent were associated with employed non-client persons with dependents with HCA coverage (3.8 million coverage months).
- 11. Estimated HCA medical and DSHS mental health expenditures for the months of coverage associated with employed clients and non-client persons with dependents with HCA coverage were \$1.353 billion in CY 2011 (all funds). Of this total, approximately \$653 million were associated with employed HCA medical clients, and \$700 million were associated with employed non-client persons with dependents with HCA medical coverage.
- 12. Associated annual HCA coverage costs were greatest for persons employed in the following industries: Health and Social Assistance (\$207 million); Retail Trade (\$192 million); and Accommodation and Food Services (\$173 million).
- 13. Almost all (92.3 percent) of the annual HCA coverage costs were associated with private employers (\$1.249 billion), as opposed to public employers (\$105 million).
- 14. Detailed information for the largest employers of HCA clients and non-client persons with dependents with HCA coverage can be found in the supplemental tables at the end of this report.

TRENDS IN EMPLOYMENT – MEDICAID AND RELATED HCA MEDICAL CLIENTS

The table below provides an overview of the trend in the proportion of HCA medical clients associated with employment from 2005 to 2011, as identified using ESD quarterly earnings data. Some of the year-to-year variation in the table below is the result of slight changes in data processing methods over the reporting period. These trends exclude Basic Health Plan enrollees who are discussed in the next section.

The overall proportion of HCA clients associated with employment (clients who were employed or the dependent of an employed person) declined from 45 percent of the overall HCA medical caseload in 2008 to 43 percent of the caseload in 2011.

	Employed HCA Clients and Non-HCA Clients with Dependent HCA Clients	Average Quarterly HCA Medical Covered Lives	Average Quarterly HCA Enrollment	Percent of HCA Clients Associated with Employment
CY 2005	240,062	425,765	936,860	45%
CY 2006	243,114	427,448	908,870	47%
CY 2007	231,111	404,026	915,322	44%
CY 2008	256,489	440,925	975,218	45%
CY 2009	259,628	453,695	1,054,239	43%
CY 2011	307,202	504,926	1,165,487	43%

HCA Medical Program's Employed Clients and Non-Client Persons with Dependents with HCA Medical Coverage

KEY FINDINGS – BASIC HEALTH PLAN CLIENTS

- 1. In the average quarter in CY 2011, there were 44,557 persons with at least one month of HCA Basic Health Plan coverage.
- 2. In the average quarter in CY 2011, there were 13,623 persons with HCA Basic Health Plan and ESD-matchable earnings in the quarter (see Table 4A "All Firms"). This represents about 31 percent of all persons with HCA medical coverage in the average quarter in CY 2011.
- 3. In CY 2011, about 47 percent of employed HCA Basic Health Plan worked for firms with more than 50 employees (Table 4A "By Firm Size").
- 4. There were 151,523 months of HCA Basic Health Plan coverage in CY 2011 associated with HCA Basic Health Plan clients with ESD-matchable earnings (Table 4B "All Firms").
- 5. The estimated HCA share of Basic Health Plan expenditures for the months of coverage associated with Basic Health Plan enrollees with ESD-matchable earnings was \$29.5 million in CY 2011 (Table 4B "All Firms").
- Associated annual HCA Basic Health Plan coverage costs were greatest for persons employed in the following industries: Health and Social Assistance (\$3.7 million); Retail Trade (\$4.1 million); and Accommodation and Food Services (\$5.2 million).
- 7. Almost all (90 percent) of the annual HCA Basic Health Plan coverage costs were associated with private employers (\$26.4 million), as opposed to public employers (\$3.0 million).

In addition to the analysis of matched ESD wage data, a sample of 1,691 Basic Health Plan coverage months in January and June 2012 was reviewed to identify the specific employer associated with the Basic Health Plan members.

- For 34 percent of sampled coverage months, employment status could not be determined from records available to HCA program staff.
- For 18 percent of sampled coverage months, the person was identified as unemployed or a student.
- In 11 percent of the sampled coverage months, the person was identified as self-employed.
- In 3 percent of the sampled coverage months, the person was identified to have unearned income from retirement, disability, or spouse employment.
- In the remaining 34 percent of cases (569 sampled coverage months), an employer was identified. The most common employers were:
 - 10 coverage months were associated with employment as a DSHS provider;
 - 4 coverage months were associated with employment by Zirkle Fruit Company; and
 - 3 coverage months were associated with each of the following employers: Broetje Orchard, McDonald's, Rite Aid, Seattle Public Schools, Wal-Mart, Washington Fruit & Produce Co., And Washington State Migrant Council.

DATA SOURCES AND LIMITATIONS

Aggregate data by industry, firm size, and public/private ownership type are based on ESD quarterly earnings data and monthly medical eligibility data for CY 2011. ESD earnings data do not include self-employment, federal government employment, or unreported earnings.

By-firm data for Medicaid and related HCA clients are based on ACES employer name data linked to medical eligibility data for January and June 2011. ACES employer name information does not permit the identification of separately owned franchises operating under the same business name. The employer name information used in this report is self-reported; it is not a required element of the application for public assistance and is not independently verified by staff. Employer rankings are based on the average monthly number of employed persons associated with HCA medical clients in January and June 2011.

The tables report the number of HCA clients or persons with dependents with HCA medical coverage who were employed, and the associated "member months" by type of coverage. Coverage type was determined based on ProviderOne RAC codes.

The Family Medical coverage group includes persons receiving TANF and related medical coverage.

The Apple Health for Kids program provides medical coverage to children in families that do not meet TANF eligibility criteria but have household income below 200 percent of the Federal Poverty Guideline (FPL) through Medicaid funding, 300 percent of FPL through the Children's Health Insurance Program (CHIP) funding, and up to 300 percent of the FPL for non-citizen children through the Children's Health Program (CHP). This coverage group also includes a small number of children enrolled in Foster Care or Adoptions Support coverage.

The Pregnant Women program provides Medicaid coverage to low-income pregnant women.

The Persons with Disabilities coverage group includes persons enrolled in Medicaid Disabled, Medicaid Blind, General Assistance, and Alcohol and Drug Abuse Treatment and Support Act (ADATSA) coverage.

The "Other" coverage group includes a small number of persons receiving HCA medical coverage through programs for refugees and the elderly. Clients who received family planning coverage only were excluded from the analysis.

Employed non-client persons with dependents with HCA medical coverage were counted if they were part of a household with at least one person who received HCA medical coverage. To be counted, the employed person had to be identified as the head of household, spouse, or unmarried co-parent of a child in common with the head of household.

Counts of employed clients or persons with dependents with HCA medical coverage were associated with a single "primary employer" in each month. The vast majority of employed clients or persons with dependents with HCA medical coverage had a single employer in the quarter. In cases where the person had more than one employer in the quarter, the primary employer was defined to be the employer from whom the person received the greatest earnings.

To create an unduplicated count of member months and expenditures associated with employed persons, in the cases where a dependent was associated with more than one employed person, we associated the dependent with the person who had the highest earnings. For both the aggregate and by-firm data tables, per member per month HCA Medical Assistance expenditure estimates were based on per capita estimates for SFY 2011. Per member per month DSHS Mental Health expenditure estimates were based on statewide average RSN capitation rates for SFY 2011.
