Purpose: The department is amending the rules listed below to assure nursing homes are not significantly impeded from admitting and caring for residents during the COVID-19 outbreak. These amendments will align state nursing home rules with federal rules that were suspended or amended to help facilitate care during the COVID-19 pandemic. The federal rules were amended to allow nursing facilities to provide clinical records to residents and resident representatives in ten working days instead of two working days. Current state rules specify clinical records be accessible to residents and their representatives for review within 24 hours and copies must be provided within two working days. The amendment lengthens the time nursing homes have to provide the resident access to, or copies of, the requested clinical record from two to ten days. The amendment does not permit the nursing facility to deny the resident access to records.

Citation of rules affected by this order:

- New: None
- Repealed: None
- Amended: WAC 388-97-0300
- Suspended: None

Statutory authority for adoption: RCW 74.42.620

Other authority: Chapter 74.34 RCW

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The threat of COVID-19 to our most vulnerable populations is significant, especially for those receiving long-term care services in their homes and congregate settings, such as long-term care facilities. Current nursing home rules ensure residents have the right to access and review their clinical record. Currently, access to the record must be provided within 24 hours and if the resident or resident representative requests a copy of the record, it must be provided within two working days. The amendment would lengthen the time nursing homes have to provide the resident access to, or copies of the requested clinical record. The amendment does not permit the nursing facility to deny the resident access to records. This amendment provides flexibility for nursing homes to prioritize direct care over non-direct care tasks while maintaining the resident's right to access their records.
