Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- Yes
 - No
- If Yes, explain:

Purpose: The department is extending the amendment of the rules listed below. Because of the ongoing COVID-19 public health emergency, on January 18, 2022, Home and Community Services (HCS) temporarily suspended conducting ongoing assessments for HCS clients living in adult family homes, assisted living facilities, and enhanced services facilities. The intent of this suspension is to allow HCS staff to focus on conducting assessments for patients staying in hospitals to facilitate their discharge to long-term care facilities and improve the current surge capacity in hospitals. This emergency rule continues to suspend the regulatory requirement for these facilities to complete assessments for HCS clients while the HCS assessors are not available. The Centers for Medicare and Medicaid Services (CMS) approved this flexibility for Medicaid beneficiaries needing specific Long-Term Care Services and Supports whose assessments meet the requirements under 42 CFR 441.720.

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule was put in place at a time when many hospitals in this state were at or over capacity, leading them to re-direct patients who are needing emergency care and delaying procedures that are necessary but non-emergent. This put the health of all residents of Washington at risk if they were not able to get the care they needed at their local hospital. By temporarily suspending assessment requirements for residents living in adult family homes, assisted living facilities, and enhanced services facilities, HCS was able to focus personnel resources on assessing patients in hospitals, which facilitated admissions to long-term care facilities and increased the bed availability in hospitals. HCS is continuing to use the extended timelines in this rule to address hospital capacity surges as they arise and to focus on significant change assessments. The department is proceeding with permanent adoption. We filed a CR 101 under WSR 22-13-121, have been working on proposed language to file with a CR 102 in the near future. This emergency will keep the rule in place as the department completes the permanent adoption process.
