Purpose: The Developmental Disabilities Administration (DDA) is amending chapter 388-829C WAC "Companion Homes" to make several policy updates to how residential habilitation services are delivered in the companion home setting. These amendments are necessary because these rules have not been updated in seven or more years. Substantive changes to the companion home rules address the following subjects: the application and certification processes to become a companion home provider; the process for determining the provider's daily rate; provider responsibilities while using respite; the process for determining a companion home client's annual respite allocation; when a companion home provider may request additional respite hours; the effect of additional respite hours on the provider's daily rate; violations of the room and board agreement; requiring an individual financial plan; transferring client funds; protecting clients from water hazards; records the provider must maintain; and informal dispute resolution processes. Most of the chapter has been rewritten to clarify requirements and some sections have been repealed and their content added to other sections.

Citation of rules affected by this order:

PERMANENT RULE (Including Expedited Rule Making)

Adopted under notice filed as WSR 18-17-155 on August 21, 2018 (date).

Describe any changes other than editing from proposed to adopted version: DDA removed subsection (1)(h) from WAC 388-829C-044, which required a companion home provider to submit a background check form to DDA. The form is now completed electronically through the department's new online background check system, so the provider does not have to submit a paper form to DDA. The information in the form is still required as part of a companion home provider's application.
