Purpose: The department is creating WAC 388-76-10401 to incorporate federal requirements for Home and Community Based Settings into the state licensing requirements for adult family homes. These regulations improve quality of life in adult family homes by giving residents greater opportunities to make decisions about their lives and care. The intent of these changes are to ensure that residents are able to receive care in a homelike setting and reduce dependence on isolating settings or institutions. By incorporating federal requirements into the state regulations, this will help adult family home providers to understand and meet their obligations.
